Emergency Response Quick Reference Guide

Spring 2009

TO : Southeastern Community

FROM: John Crain
President

RE: Emergency Response Quick Reference Guide

Southeastern Louisiana University, like many other college and university campuses throughout the nation, takes a great deal of pride in the security of its campus. Southeastern has many resources that enhance the safety of the community, including:

- Highly trained, professional public safety personnel including those in our University Police Department, Office of Safety and Hazardous Materials Management, Physical Plant, and University Counseling Center
- Institutional emergency preparedness plans based on national standards including those provided by the American National Standards Institute (ANSI), the Environmental Protection Agency (EPA), the National Institute for Occupational Safety and Health (NIOSH), the Department of Environmental Quality (DEQ), and the State Fire Marshall's Office among others
- An extensive and accessible campus safety infrastructure, including an outdoor campus PA system, First Alert email and text messaging, and emergency call phones (blue phones)
- Policies and procedures addressing various workplace, dormitory, lab safety and prevention protocols

Emergency response planning and preparedness is an ongoing responsibility at Southeastern. To that end the attached Emergency Response Quick Reference Guide is being provided to the campus community. This guide is designed to provide quick and easy access to basic information and appropriate responses to a wide variety of potential emergencies.

I am asking that all department heads review this content with employees and students they supervise. Copies of this guide will also be available on Southeastern's website. While no single set of instructions can anticipate all potential emergency situations, a thorough review of existing policies will ensure that students, faculty, and staff at Southeastern will be as prepared as possible to respond appropriately to any possible emergency.

Thank you for contributing your time and effort to helping make Southeastern a safe and secure campus for all of our students and employees.
