

### Fall 2021 Departmental Seminar Series

- 26 August Dr. Joel Atallah, University of New Orleans  
Title: "A Genomic Analysis of the Evolution of Novelty"  
Format: Meade 112
- 2 September Hurricane Ida
- 16 September Hurricane Ida
- 23 September Dr. Alex Gunderson, Tulane University  
Title: "The evolution and ecological consequences of temperature-dependent phenotypic plasticity"  
Format: Meade 112
- 30 September Dr. Jeff Goessling, Eckerd College  
Title: "Immune-based Tradeoffs in Reptiles"  
Format: Meade 112
- 14 October Dr. Luke Bower, USGS Co-op Unit, Clemson, SC  
Title: "TBD."  
Format: Meade 112
- 21 October Dr. Rob Lovich, United States Navy  
Title: "Hiding in Plain Sight: U.S. Dept. of Defense Partners in Amphibian and Reptile Conservation"  
Format: Meade 112
- 28 October Dr. Juliana D'Andrilli, LUMCON  
Title: "TBD."  
Format: Meade 112
- 4 November Dr. James Nelson, University of Louisiana Lafayette  
Title: "Atoms, Animals, and Ecosystem Function: Integrating animal mediated processes into our understanding of ecosystem function across spatial scales."  
Format: Meade 112
- 18 November Dr. Morgan Kelly, Louisiana State University  
Title: "Plasticity, Rapid Evolution, and Responses to Climate Change in Oysters and Copepods"  
Format: Meade 112
