EDF 804
Mixed Methods Research in Educational Leadership

Course Description and Goals

Catalog Description
Credit 3 hours. Prerequisites: EDF 800, EDF 802, and EDF 803 or permission of Department Head. A course that presents mixed methods research as a unique and separate research methodology integrating both the quantitative and the qualitative approaches. Candidates will be prepared to design, conduct, and critique mixed methods research.

College of Education Conceptual Framework
The COE’s Conceptual Framework provides direction for the development of effective professionals. It is a living document that continuously evolves as opportunities and challenges emerge. All aspects of this course are aligned with the Conceptual Framework, including the course objectives, field experiences and assessments. The four components of the Conceptual Framework are the institutional standards used for candidate assessment in undergraduate and graduate programs. They are Knowledge of Learner (KL), Strategies and Methods (SM), Content Knowledge (CK), and Professional Standards (PS). Diversity (DV) and Technology (TY) are included in the assessment process as themes that are integrated throughout all programs in the educational unit. The following is the link to the conceptual framework on the COEHD website:
http://www.selu.edu/acad_research/colleges/edu_hd/about/conceptual_framework/index.html

Course Goals
The overall goal of this course is to familiarize the student with planning and conducting quality mixed methods research. The following specific goals will be addressed in this course to meet this overall goal, and the overall objective is for students to demonstrate understanding of and application of each specific goal shown below in the major course artifact.

In addition to this overall goal, students will improve their proficiency in these areas:

- Clarity of writing, including proper grammar and use of standard English (W)
- Conceptual organization (O)
- Cohesiveness of ideas, concepts, and arguments (I)
- APA format (A)

1. To inform students about the philosophical underpinnings of mixed methods research and how to identify and articulate one’s own positionality (e.g., theories, stances, perspectives, points of view, paradigms, methodological contrasts) (KL, CK, W, O, I, A);

2. To inform students of the advantages and disadvantages of using qualitative, quantitative, and mixed methods designs and how to develop a rationale for design selection (CK, SM, W, O, I, A);

3. To inform students of the key characteristics of a mixed methods research study and how to articulate these using appropriate terminology (CK, SM, W, O, I, A);
4. To inform students of how to develop a purpose statement and research questions for a mixed methods research study (CK, SM, W, O, I, A);

5. To inform students of how to collect, analyze, interpret, and report data using a mixed methods design (CK, SM, W, O, I, A);

**Course Policies and Procedures**

**Course Evaluation**
Students will be evaluated through a combination of methods that may include written examinations, practical examinations, projects, and class participation. Each instructor reserves the right to establish additional methods of assessment.

**University Policies**

**Student Behavior/Class Decorum**
Free discussion, inquiry, and expression are encouraged in this class. Classroom behavior that interferes with either (a) the instructor’s ability to conduct the class or (b) the ability of students to benefit from the instruction is not acceptable. Examples may include routinely entering class late or departing early; use of communication devices, or other electronic devices; repeatedly talking in class without being recognized; talking while others are speaking; or arguing in a way that is perceived as “crossing the civility line.” In the event of a situation where a student legitimately needs to carry a communication device to class, prior notice and approval of the instructor is required. Classroom behavior which is deemed inappropriate and cannot be resolved by the student and the faculty member may be referred to the Office of Judicial Affairs for administrative or disciplinary review as per the Code of Student Conduct which may be found at http://www.selu.edu/admin/stu_affairs/handbook/.

**Academic Honesty**
Students are expected to maintain the highest standards of academic integrity. Behavior that violates these standards is not acceptable. Examples are the use of unauthorized material, communication with fellow students during an examination, attempting to benefit from the work of another student and similar behavior that defeats the intent of class work. Plagiarism, improper acknowledgment of sources in paper, and the use of a single paper in more than one course without permission are considered very serious offenses and shall be grounds for disciplinary action as outlined in the current General Catalogue.

**Disabilities and Accommodations**
If you are a qualified student with a disability seeking accommodations under the Americans with Disabilities Act, you are required to self-identify with the Office of Disability Services at
Southeastern Louisiana University. No accommodations will be granted without documentation from the Office of Disability Services.

**Children in Class**
Students are not to bring children or other family members to class for daycare or babysitting.

**Email Communication**
Uses of non-university e-mail addresses for communication with students regarding university business or educational matters are not acceptable as security and confidentiality for off-campus accounts are unknown. Faculty may unintentionally be in violation of the Family Educational Rights and Privacy Act (FERPA) by using such accounts. Faculty may expect that students will read messages sent to their official e-mail addresses, and faculty should use the official e-mail addresses accordingly. All e-mail communication MUST be sent through your official Southeastern Louisiana University e-mail address.

**Disaster Recovery Plan**
In case of a disaster such as a hurricane, please see Moodle for instructions for the how the course will proceed during the recovery time. Considerations will be made for students who are not able to access e-mail due to disaster impacts.
