**Course Description**

Credit 3 hours. This course is designed to provide students with the research and evaluation skills required to implement various program evaluation models. It is also intended to provide the skills necessary for effectively using the standards of the National Joint Committee on Standards for Program Evaluation as required by state certification guidelines.

**Conceptual Framework**

Southeastern Louisiana University  
College of Education and Human Development  
Conceptual Framework

The COEHD’s Conceptual Framework provides direction for the development of effective professionals. It is a living document that continuously evolves as opportunities and challenges emerge. All aspects of this course are aligned with the Conceptual Framework, including the course objectives, field experiences and assessments. The four components of the Conceptual Framework are the institutional standards used for candidate assessment in undergraduate and graduate programs. They are Knowledge of Learner (KL), Strategies and Methods (SM), Content Knowledge (CK), and Professional Standards (PS). Diversity (DV) and Technology (TY) are included in the assessment process as themes that are integrated throughout all programs in the educational unit. The following is the link to the conceptual framework on the COEHD website:

http://www.selu.edu/acad_research/colleges/edu_hd/about/conceptual_framework/index.html

(The University of Louisiana at Lafayette has a Conceptual Framework unique to its College of Education.)

**Course Objectives**

Upon completion of the course, the student will:

- Demonstrate the methodology for use of educational evaluation strategies for collection and use of school and student data PS CK SM
- Use information sources, data collection and data analysis CK
- Use authentic, psychometrically sound methods for assessment of student learning CK SM
- Describe strategies for monitoring progress toward reaching school goals SM CK
- Demonstrate methods of data collection, analysis, interpretation and program evaluation SM

**Diversity**

Students will be prepared to function in a diverse environment and/or community.
Technology
Students will be prepared to utilize technology in their professional environment or practice.

Methodologies
Teaching strategies may include, but is not limited to discussions, lecture, demonstrations, group work, filed experiences, and on-line instruction. Course content will be drawn from theory and research, from student experiences, and from discussions in and out of class sessions.

Field Experiences
Field experiences may be required in this course in order to meet the course objectives.

Course Assessment/Evaluation Method
Students will be evaluated through a combination of methods including, but not limited to written examinations, practical examinations, projects, and class participation. Each instructor reserves the right to establish additional methods of assessment.

Unit (COEHD) Assessment
An artifacts to be designated by the instructor will be placed in the student’s Portfolio on Pass-Port, the unit’s required electronic portfolio system.
