

How will Online Orientation work?

Orientation will begin through an online portal that will provide detailed instructions and steps to unlock more information.

In the latter steps, you will meet virtually with an academic advisor who will guide you completely through the registration process.

Along the way, you will also connect with our Orientation Leaders who will engage with you in a number of fun and informative ways.

Again, each step must be completed in the module before advising and registration. This format is designed to provide a thorough and efficient pathway to complete Orientation.

-
- **When will we have access to Online Orientation?**
Look for more information about online orientation via email at the end of May. You will be invited into the portal based on your acceptance date and prior registered orientation date.
 - **What if I already scheduled an Orientation date:**
If you have already registered for Orientation, you will be receiving an email about online orientation prior to your previously scheduled date. The on campus event will not be taking place, and your orientation online details will be coming soon.
 - **What if I did NOT schedule an Orientation date:**
If you have not yet registered, no worries - your acceptance date will unlock your orientation automatically in the weeks ahead. Keep checking your email for updated information.
