Welcome to Southeastern Louisiana University, a premier regional university, where our focus is on student success, academic excellence, hands-on learning, and real world experience.

Since its founding in 1925, Southeastern has consistently provided an excellent educational value, offering a wide range of nationally accredited undergraduate and graduate programs that are highly relevant to workforce needs. It is this value and diversity of offerings that attract students from nearly every state and more than 50 foreign nations.

Our University mission is to lead the educational, economic and cultural development of southeast Louisiana. We invite you to help us meet this challenge by joining us as a scholar-in-residence.

The Scholars-in-Residence Program of Southeastern Louisiana University invites scholars, artists, and other professionals from around the world to participate in the diverse intellectual life of our campus community by submitting projects that bear upon the annual theme, Building Bridges: Broadening Perspectives.

Our aim is to encourage, promote, and sponsor faculty dialogue with people from differing perspectives, disciplines, professions, vocations and contexts. This kind of dialogue often illuminates one's own area of work, stimulates new ideas, and broadens research perspectives and opportunities.

Residents may work directly with Southeastern faculty, staff and students on research projects, the scholarship of teaching, grant-writing, and scholarly or creative endeavors. They may pursue their own research, offer guest lectures, serve as mentors and attend the many scholarly and cultural events within our University and the wider community.

Individuals interested in Southeastern’s Scholars-in-Residence program may submit an application, electronically as an e-mail attachment or through normal postal channels. It must include the following information:

- Letter of intent indicating a desire to visit Southeastern Louisiana University and the expected dates of the visit
- Current curriculum vita (resume)
- Statement of specific research/artistic interests, including proposed plan of work while at Southeastern and how it bears upon the annual theme
- Names, addresses, phone numbers and e-mails of three individuals who may be contacted for references regarding applicant's scholarly ability

Once the application is received, applicants will be notified within one month of the acceptance decision.

Applications should be sent directly to:

Scholars-in-Residence Program
The Center for Faculty Excellence
Southeastern Louisiana University
SLU Box 10370
Hammond, LA 70402
E-mail: center@selu.edu

Questions about the process or status of an application should be directed to center@selu.edu.
This four-bedroom Inn previously served as the President’s residence, accommodating Southeastern’s presidents and their families since 1940. The Art Modern style building was designed by the same architectural firm that designed the Louisiana State Capitol. The residence was converted to The Inn at Southeastern in January of 2007 to offer support for University programs by providing convenient housing for visiting scholars, artists and professionals.

The Inn is completely furnished, contains all necessary linens, and has fully-equipped kitchen and laundry facilities.

The Inn is located directly on campus, with all campus facilities within easy walking distance.

The Inn at Southeastern is smoke-free and pet-free.

Wireless Internet is available.
