Signs of Spring can be spotted all over campus... azaleas, sunshine and clover! Spring brings exciting events and warmer weather. Here are a few tips to help you survive the distraction of “spring fever,” a time when students would rather be outside in the beautiful weather rather than studying.

1. Re-connect with the things you love on campus. Love sports? Attend a spring sport match: Baseball, Softball, Tennis or Golf.

2. Move inside events out of doors if possible. Are you the event organizer for your organization? Move your event outside and allow your organizational members to enjoy the beautiful scenery our campus has to offer.

3. Study with a view. Instead of skipping your study session, have it outside! Find your favorite bench, patio table or spot to spread out a beach towel and spend time between classes studying and enjoying the outside. Set a timer to track how long you are studying; set a goal for your length of study before each study session.
SPOTLIGHT ON HALL COUNCIL

Haley Burke, Hall Council President

What is Hall Council? Hall Council is an organization that gets students that love campus life to get more involved on campus.

Why did you get involved? I got involved because I got to know one of my friends who was an RA and she told me about the organization.

Happiest Hall Council Memory: I love when I see residents come to our events that we put on and have so much fun at them. Seeing them smile makes me smile because I know we did something good.

Goal you want to see HC accomplish? I want residents to see how awesome this organization can be if people come to our meetings. We like to know everyone’s input and we cannot get better without their help.

How can a student get involved in Hall Council? Come to a meeting! We’d love to have your input.

Krista Achor, Hall Council Vice President

What is Hall Council? Hall Council is a student led organization for students to get involved on campus.

Why did you get involved? I got involved because I really wanted to do something on campus and get involved my first semester. Hall Council was the first organization I joined.

Happiest Hall Council Memory: One of my most memorable moments of Hall Council was when we had Prom. Last years Prom was my favorite because we donated all the proceeds to Angelman Syndrome, and the little boy who we donated in honor of got to attend Prom!

Goal you want to see HC accomplish? To continue to recruit new members that want to join and promote Hall Council to make it better known on campus.

How can a student get involved in Hall Council? Others should get involved in Hall Council because it gets your foot in the door to meet new people and get involved on campus. As members of Hall Council, we can get others involved by promoting our events that we have by having flyers around campus and also through word of mouth.

Get Involved with Hall Council!

Meetings: Wednesdays at 7PM in Zachary Taylor Hall

Paint Party

April 29th - Lee Field
Start time 5:00 to 8:30pm
First 100 in attendance will receive a free tshirt
Humidity is a part of life in south Louisiana and as we ease out of a cold winter, you can expect to experience an increase in humidity. Humidity can cause unpleasant challenges outdoors (think bad hair days) and can even affect your indoor environment.

Please assist in controlling moisture levels indoors by keeping your room and bathroom area clean and well-ventilated, particularly when showering, bathing, or washing dishes. Please notify the University Housing office promptly (within 24 hours) if you notice the existence of water leakage or overflow in or around your room.

Guidelines for a safe and healthful room:

♦ Keep windows and doors closed, especially on hot, humid days during the months of April to October.

♦ Avoid drying wet clothes or other materials in your room as this only adds to moisture levels.

♦ Never set the thermostat below 70 degrees. The colder the surface is within a room, the sooner condensation will form.

♦ Practice good housekeeping. Dirty and/or damp laundry will not only add to room odors but will cause mildew growth.

♦ Keep your shower curtain tucked in the tub and covering the entire open area to prevent water damage to floors and walls.

♦ Be advised that lengthy showers in a closed bathroom can cause mildew growth. Be sure to properly air-out your bathroom after showering.

♦ Clean and dry the walls and floors around the sink, bathtub, toilet, and windows using a common household disinfecting cleaner.

♦ Do not overfill closets or storage areas. Ventilation is important in these spaces.

♦ Report any air conditioning problems. If you are having any problems with your unit, please submit a work request to the FIXXX Line.

---

**Res Hall Recipes**

**Microwave Breakfast Quiche**

1 large egg  
1 1/2 tablespoons whole milk  
1 teaspoon melted unsalted butter  
Pinch of salt  
Pinch of freshly ground black pepper  
4 small grape tomatoes, halved  
1/8 cup torn pieces of fresh bread  
1 teaspoon chopped fresh herbs, plus more for garnish (green onions, Italian parsley, as desired)

**Directions:**

In a microwavable bowl, add egg, milk, melted butter, salt, and pepper and whisk until thoroughly mixed and egg whites are completely broken up. Add halved grape tomatoes, torn bread, grated cheese, and chopped herbs on top of egg mixture, making sure ingredients are evenly dispersed and have not settled to bottom of mixture. Place mug in microwave, and cook on high for 1 minute, just until egg is completely cooked and quiche is slightly puffed. Garnish with fresh herbs and serve immediately.
**Important Dates**

- **April 7-10**: Health and Safety Inspections
- **April 18-27**: Spring Break
- **April 29**: Hall Council Paint Party
- **May 1**: Fais Do Do Crawfish Boil
- **May 12-16**: Finals and Checkouts
- **May 13**: Late Night Breakfast
- **May 16**: Final Day to Pay
- **May 17**: Graduation
  Re-application fee to maintain priority over new students.
