Based on data from various assessments, the counseling program is meeting the goals described in the Major Field Assessment Plan of December, 2005. According to student test results, exit surveys, feedback from site supervisors, and successful course completion, students in the program exhibit satisfactory progress toward graduation and professional standing.

The Counselor Education faculty instituted the following changes and/or requests based on ongoing assessment and evaluation of the program:

1. The Marriage and Family Internship was changed from 3 to 2 semesters to parallel the other tracks in the program.
2. The essay portion of the comprehensive final was eliminated.
3. Post-masters training programs were added in School Counseling, Play Therapy, Marriage and Family Therapy, and Substance Abuse Counseling.
4. The Counseling Program website was updated.
5. The Student Handbook was revised and is now accessible from Blackboard.
6. The field-experience coordinator now holds an orientation for students going into practicum and internship.
