A personal email, website, and NetStorage are available to all faculty, staff, and students.

- Maximum email documents/attachments: 10 MB
- Maximum size of student website: 10 MB

Operating Systems installed on institutionally owned computers:
- Windows 2000/XP/Vista: 85%
- Mac: 3%
- Linux and Unix: 12%

### Campus Network Connection
- Faculty & Staff offices wired to network: 100%
- Classrooms wired to network: 60%
- Student Housing rooms wired to network: 100%

### Wireless Access
- Classrooms: 5%
- Student Housing common areas: 100%
- Library: 100%
- Campus wide: 25%

### Student & Graduate Technology Assistants
- Summer 2007: 10 GAs & 50 Student Workers
- Fall 2007: 10 GAs & 96 Student Workers
- Spring 2008: 10 GAs & 97 Student Workers

Multimedia equipment provided for students to check out: laptops, projectors, digital cameras, digital video cameras, and tripods.

Linus A. Sims Memorial Library: Sims Library utilizes a variety of technologies, including a 24/7 virtual reference service, to deliver resources and services to the students and faculty of Southeastern. The Library’s online catalog, electronic indexes, full-text databases, and an electronic reserves system are made available on 130 computers throughout the building. Internet access, printing, and wireless technology are also offered. Many of the Library’s operations are handled through the statewide automated library system, Sirsi UnicornLink, operated by the LOUIS office at Louisiana State University. Interlibrary Loan transactions are facilitated through use of ILLiad, an electronic Interlibrary Loan system, and through use of Ariel software designed to facilitate timely delivery of articles. The Library also subsidizes article delivery services for faculty and graduate students through Ingenta, a database which offers citations from 20,000 multi-disciplinary scholarly journals, in addition to electronic alerting and table of contents services. Within the Library, a computer lab, partially funded by the Student Technology Fee, provides access to a variety of application software packages. A computer with adaptive equipment and software, (including JAWS, Naturally Speaking, ZoomText, and OpenBook), is available in the Media Department. Two laboratory classrooms allow hands-on learning for students enrolled in the Library’s credit course teaching information literacy skills and for course-specific bibliographic instruction classes. An additional classroom for non-credit instructional sessions utilizes a wireless laptop system to allow hands-on experience, and a presentation practice studio allows students to develop and rehearse multi-media presentations individually or in small groups. The Library’s webpage provides links to the myriad of resources and services, with online forms available for a variety of service requests.

Center for Faculty Excellence: The Center for Faculty Excellence helps faculty assess and incorporate technology in their teaching through workshops, seminars, and individualized training. The Center offers software support ranging from basic office applications to graphics and video editing programs, as well as a variety of equipment including scanners, color printers, and digital cameras. The knowledge and skills faculty gain through the Center are transformed into tools and strategies that enhance both traditional and distance learning environments.
