Introduction

The first Strategic Priority for Southeastern is “To engage a diverse population of learners with powerful experiences.” In order to better understand the reasons why students leave Southeastern before graduating, Institutional Research & Assessment conducted the Non-Returning Student Survey, a phone survey of Fall 2011 cohort students who were not enrolled in Fall 2012. Students who had been suspended were excluded from the sample. This report details the results of the Non-Returning Student Survey.
Method

Participants

The population for this study were the 688 students of the Fall 2011 cohort who were not enrolled in Fall 2012 and had not been suspended. After repeated attempts, 317 students remained unreachable by the available phone numbers, 152 refused to be part of the survey, and 219 surveys were completed, for a response rate of 59%. Table 1 provides a demographic comparison of the population and the sample.

Procedure

The Office of Institutional Research worked with Admissions to identify responsible, personable orientation leaders to conduct the phone survey. These students were trained and supervised by Institutional Research staff. The survey was conducted from 6 pm - 9 pm Monday through Thursday.

Instrument

The survey first asked a series of questions to determine if students planned on returning to Southeastern in the future, and if they had intended to obtain a degree when they began at Southeastern. Respondents who indicated they did not plan on returning to Southeastern were given a list of possible reasons why a student might leave college, and were asked to rate whether it was a major reason, a minor reason, or not a reason at all in their decision to leave Southeastern. Students who indicated that they did plan to continue their education at Southeastern were first asked when they planned to return to Southeastern. They were then given a list of possible reasons why a student might stop attending Southeastern for a while, and were asked to rate whether each item was a major reason, a minor reason, or not a reason at all in their decision to “stop-out.” The final section asked for demographic information that is not collected as a part of the application or registration process, such as the number of children a student has and how far they have to travel to campus. The entire survey can be found in Appendix A.
Results

The first set of questions was to determine whether students were: 1) Drop-Outs, those students who no longer plan to continue their education at Southeastern, including those who plan on or have transferred elsewhere; 2) Stop-outs, those students who plan to return to Southeastern at some point. Based on these definitions, 70% (n=154) of the respondents are Drop-Outs and 30% (n=65) are Stop-outs.

Stop Outs

The majority of the Stop-outs (37%, n=24) plan on returning to Southeastern in Fall 2013, while 22% (n=14) planned on returning to Southeastern within the next year. Eight percent (8%, n=5) plan on returning within the next two years, and 15% (n=10) are not sure when they will return.

Next, Stop-outs were asked to indicate whether each of nine possible reasons was a Major Reason, a Minor Reason, or Not a Reason for their decision to stop attending Southeastern for a while. “Had family responsibilities to take care of” was the item with the largest endorsement, with 60% of respondents indicating it was a reason they stopped attending Southeastern. This was followed by “Academic Problems” which 54% of respondents indicated was a reason they stopped attending.

Table 2 provides the percentage of endorsement for Major Reason, Minor Reason, and Not a Reason for each item.

Drop Outs

Most of the Drop-outs (81%) intend to finish their education elsewhere. When asked what school they have or will enroll in, the most commonly cited school was Baton Rouge Community College. Table 3 provides the schools students identified as having enrolled in or planning to enroll in.

Respondents were then asked what was the main reason they decided to attend another school. Thirty-four percent (34%) of the respondents indicated Southeastern did not have the major in which they were interested. Seventeen percent (17%) said they decided to attend another school because it is closer to home. An additional 11% transferred because of financial reasons. All the responses can be found in Appendix B.

Next, Drop-outs were asked to indicate whether each of thirty-eight possible reasons was a Major Reason, a Minor Reason, or Not a Reason for their decision to leave Southeastern. “Decided to attend a different college” was the item with the largest endorsement, with 66% of respondents indicating it was a reason they left Southeastern. This was followed by “Dissatisfied with your grades” (54%) and “Moved to a new location” (48%).

**Difficult Course(s)**

Students were asked if they had problems with any particular course. Eighty-three respondents (38%) identified a particular course or courses with which they had problems. Math was the most commonly cited course, with 59 respondents (71%) indicating a particular math course or just math in general. The next most commonly cited type of course was biology (8 respondents - 10%), followed by English (7 respondents - 8%). All courses and any comments made about them can be found in Appendix C.

**Demographics of Drop-Outs and Stop-Outs**

The last portion of the survey asked participants for demographic information that is not readily available as part of the student record system. Answers to these questions help give a better understanding as to what type of student will leave Southeastern either temporarily or permanently. The vast majority of students (85%) have never been married, and do not have children (80%). Over a fourth (27%) of the respondents traveled more than 30 miles (one way) to Southeastern’s main campus, while another 27% lived on campus. Over half (55%) of the respondents worked off campus. An additional 5% worked on campus. Twenty-five percent (25%) of those who worked, spent more than 30 hours a week working, with an additional 35%
spending 21-30 hours a week working. Twenty-five percent (25%) of the respondents are first-generation college students, which according to Terenzini et al (1996) is a student who has no parent with any college or university experience.

**Comparison to Previous Years**

The proportion of students who are stop-outs (plan to return to Southeastern) vs. drop-outs is decreasing. In Fall 2010, the proportion was 54%, it was 40% in Fall 2011, and this year it was only 30%. The graph below shows the change over the past five years.

For the past 5 years, "Need to earn more money" was the first or second ranked reason for students stopping out. This year it was number 3, with "Had family responsibilities to take care of" and "Academic problems" ranking above it.

As in the past, the number 1 reason students dropped out was "Decided to attend a different college". However, the second ranked reason, “Dissatisfied with Grades” is different from the past. In 2010 and 2011, this was not in the type five reasons, and in 2009 and 2008 it was ranked number five.

Non-Returning Student Survey
Hello, my name is ______________ and I am calling from the Southeastern Louisiana University. To better serve our students, we are conducting a confidential and voluntary survey of former Southeastern students who are not enrolled here this semester. The survey will take only a few minutes. Keep in mind that all answers are strictly confidential. Your participation is voluntary. You may stop at any time without penalty, and if you wish not to answer a particular question, please say so. For quality control, your call may be monitored. All questions pertaining to this survey should be addressed to Dr. Michelle Hall. My supervisor may call once our interview is completed to insure that I am conducting it properly.

Intro questions

1. Do you plan to continue your education? (1=No, 2=Yes)
   If no, go to Non-Returning
   If yes continue to intro 2

2. a. Do you plan to continue your education at Southeastern or somewhere else?
   If Southeastern, go to Stop Out questions
   (1=Southeastern, 2=somewhere else)
   b. Have you enrolled in another school yet?
