Executive Summary

In the Spring of 2000, the Office of Institutional Research and Assessment sent a survey to a random sample of currently enrolled Southeastern students. Along with obtaining demographics on the student body not readily found in the Student Record System, the intent of the survey was to gather information on the opinions of students regarding student-centered activities, services, and programs in order to evaluate their visibility and effectiveness. The survey was mailed to 656 randomly selected students who reflected Southeastern's student population as stratified by sex, class (freshman, sophomore, junior, senior, and graduate students), race (white or minority), and whether they live on or off campus. The return rate of the survey after two "reminder" mailings was 27% (n=177).

The survey was developed by representatives from the Student Government Association (SGA), along with the staff from the Office of Institutional Research and Assessment. The survey addressed five topic areas:

- ! **Sims Memorial Library.** Students indicated that they are most satisfied with journals, magazines and newspapers, and most frequently use the reference and research collections. Surprisingly, graduate students reported less use of Library resources than did undergraduate students.
- ! **Student Government Association.** Lack of knowledge appears to be the greatest problem; the overall majority of students do not know which Senators represent their college, and most do not know any SGA member.
- ! **Student Activities and Student Life.** Students rated the University Police Department as the most important service offered on campus, and Leadership Development Services was the one they are most satisfied with. The Lion's Roar had the highest level of usage. Students spend over 30% of their time working and an additional 30% interacting with their families. Finally, the majority of students do not belong to any campus organization.
- ! **Academic Services.** Students were most satisfied with the catalogue information they received prior to enrolling. Overall, the respondents felt the class schedule was the most informative web page and the easiest to find. In general, students thought the Enrollment Services staff were friendly, helpful and knowledgeable.
- ! **Your Family and Job.** Most of Southeastern's students are single, non-traditional students who travel more than 30 miles (one way) to school, and hold a job off campus.

Method

Participants

A total of 656 surveys were sent to a randomly selected sample of students who were enrolled at Southeastern in the Spring of 2000. The students were stratified by sex, class (freshmen, sophomore, junior, senior and graduate student), race (white or minority), and whether they lived on campus or off campus. The sample mirrored the student body on these characteristics.

Of the 656 surveys distributed, 2 were returned as non-deliverable. Of the 654 remaining surveys, 177 were completed and returned for a response rate of 27%. Analysis of the variables of stratification revealed that there were differences between the returned and non-returned surveys in sex, class and whether students live on or off campus. A significantly larger proportion of females returned the survey than did males ($\chi^2(1)=9.61$ $p<.05$). A significantly larger proportion of Graduate students returned the survey than expected, and significantly smaller proportion of Freshmen did not return the survey than expected ($\chi^2(4)=11.26$ $p<.05$). Finally, a significantly larger proportion of students who live off campus returned the survey than did those who live on campus ($\chi^2(1)=5.40$ $p<.05$).

Of the 177 returned surveys, 74% ($n=131$) were female and 26% ($n=46$) were male. The vast majority (86%, $n=152$) were White, Non-Hispanic, while 11% ($n=19$) were Black Non-Hispanic, and 3% ($n=6$) were other minorities. The average age of respondents was 26.11. Twenty-two percent ($n=39$) were freshmen, 17% ($n=30$) were sophomores, 15% ($n=26$) were juniors, 28% ($n=49$) were seniors, and 19% ($n=33$) were graduate students. The majority of the respondents were in the College of Basic Studies (30%, $n=53$), while 20% ($n=36$) were in the College of Arts and Sciences, 15% ($n=27$) were in the College of Business, 23% ($n=41$) were in the College of Education, 7% ($n=12$) were in the School of Nursing, and 8 students (5%) was in Extended Studies. The following figures provide a comparison of the population to the respondents.

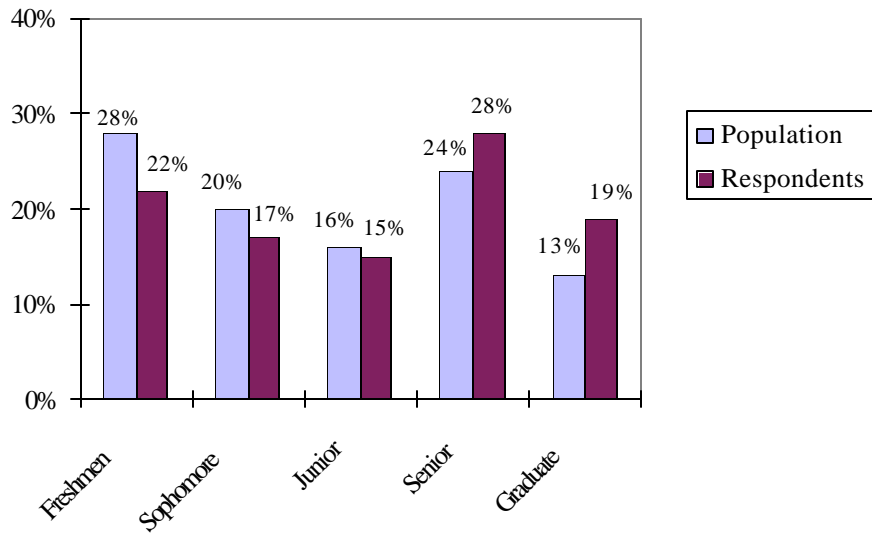

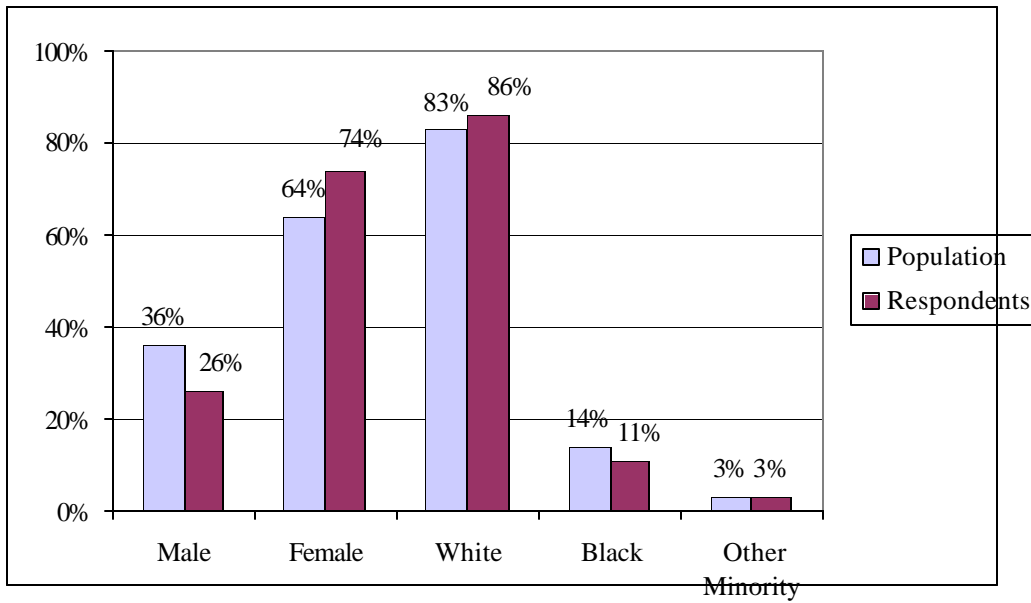

Figure 2
Gender and Race for Spring 2000 Enrollees and Respondents

Procedure

The survey was mailed to students in March 2000. Included with the survey was a business reply envelope and an incentive for completing the survey. Ten days later, a post card reminder was mailed to students who had not responded. Ten days following the mailing of the post cards, a second survey was mailed to all students who had not yet responded.

Instrument

The survey was developed in conjunction with representatives from the Student Government Association (SGA) and staff from the Office of Institutional Research and Assessment. The five areas addressed in the survey were:

- ! Section 1 - Sims Memorial Library. Questions centered on student satisfaction with library resources and their use of library resources.
- ! Section 2 - Student Government Association (SGA). This section addressed students' perception of the SGA.
- ! Section 3 - Student Activities and Student Life. This section addressed student satisfaction and use of student services, program, activities, and offices. As well as how student's spend their time, campus involvement, and general student perceptions.
- ! Section 4 - Academic Services. Students rated their satisfaction with various aspects of Enrollment Services and Financial Aid.
- ! Section 7 - Your Family and Job. Demographic information that is not readily available through the Student Record System was included in this section.

A complete copy of the survey items can be found in Appendix A.

Results

Sims Memorial Library

The first question asked students to indicate their satisfaction with eleven library services and their use of those services. Overall, students were most satisfied with journals, magazines, and newspapers (mean=4.07) and least satisfied with interlibrary loans (mean=3.78). The service used most by students was reference and research collections (81.9% of students used these services) and the service used least by students was interlibrary loans (only 22.2% of students used this service). Tables 1-11 provide information on participants' satisfaction with library services, as well as breakdowns by appropriate demographics. Tables 12-22 provides this information for participants' use of the services.

The next set of questions asked students about LS 102 and Bibliographic Instruction. Less than half (40%) of the respondents had taken LS 102, however the vast majority (96%) of those who had taken it found it very helpful. Similarly, only 36% of the respondents had had Bibliographic Instruction, but the ones who had thought it had been helpful. The majority of students who have not had any type of Library instruction thought it would be helpful in their coursework.

The next question asked students why they go to the Library, respondents were able to mark all applicable responses. The most commonly cited reason was to use the library resources (69%), followed by going to the library to study (55%). The least common reasons were to attend an exhibit or lecture (10%) and to meet friends (12%). Twelve percent of the respondents indicated that they do not go to the library.

Tables 28-37 provide information on why students go to the Library, as well as breakdowns by various demographics.

- Use electronic services for research.

The next question asked students what sources of information they use in addition to the collections and access provide by Sims Memorial Library. Respondents were most likely to use the Internet (85%) followed by public libraries (54%) and then other university/college libraries (14%). Nine percent of the respondents indicated they do not use any other source of information.

Tables 38-42 provide information on what other sources of information students use, as well as breakdowns by various demographics.

The final set of questions in the Library section asked respondents to indicate how strongly they agreed with three statements about the library. Overall, students expressed satisfaction with the library, with graduate students being slightly more satisfied than undergraduates. Tables 43-45 provide the participants' overall agreement with each of the items, as well as demographic breakdowns.

Student Government Association

This section asked for the participants' opinions on the visibility and effectiveness of the Student Government Association (SGA). More than three-quarters (85%) of participants indicated that they do not know which senators represented their college, and 84% do not know any member of the SGA. Slightly more than a third (34%) know where the SGA office is located, and 27% indicated they frequently hear about the SGA. In general, minority students indicated a stronger agreement with the statements than did White, non-Hispanic students. Tables 46-54 provide all participants' agreement with each statement as well as demographic breakdowns.

Student Activities and Student Life

The first part of section 3 asked respondents to indicate how important they thought various student services, program, activities and offices were. In addition they were asked to indicate whether they were aware of the service, if so, if they had used the service, and if they had used the service, how satisfied they were with the service. Overall, respondents thought the University Police Department was the most important service (mean=4.60) and Student Organizations/Greek Affairs was the least important (mean=3.23). In terms of awareness of the various services, Leadership Development Services and Adult, Commuter Student Services had the highest level of respondents being unaware of the service (33.6%) each. Leadership Development Services had the lowest percentage of usage (8.5%) while the Lion’s Roar had the highest percentage of usage (82%). Of those students who have used the service, Leadership Development Services had the highest level of satisfaction (mean=4.21) and Housing/Residential Life had the lowest level of satisfaction (mean=3.39). Tables 55-88 provide overall results for each item as well as demographic breakdowns.

It is also important to look at the discrepancy between the importance of a service and the satisfaction with the service. If a service is rated as very important, but satisfaction is very low, this indicates an area which needs to be addressed. Table 89 provides the mean difference between ratings of importance and ratings of satisfaction with each service, program, or activity. Students who responded “Haven’t Used” or “Unaware” for a service were not included in this analysis. The possible range is -4 to +4, with a negative number indicating a higher perceived importance than satisfaction. A positive number indicates that satisfaction is higher than importance. For example, if a student rated a service as Very Important (5) and rated satisfaction as Very Dissatisfied (1) than the difference rating would be -4.

Students were then asked to indicate how much time they spend in various activities during the week. Most students spend the most time (over 31 hours a week) either at work or caring for and interacting with their families. Figure 3 illustrates a “typical student week”.

Figure 3
“Typical Student Week”

Leisure activities include socializing with friends, watching TV, exercising/sports and recreational computer use. This “typical student week” accounts for 99 out of 168 hours in a week. Tables 90-101 provide overall results for each item, as well as demographic breakdowns.

The next question asked students how many campus organizations they belonged to. Overall, only one-fourth of the respondents belong to a campus organization. Perhaps surprisingly, graduate students are more likely to belong to an organization than are undergraduates.

The next question asked respondents how often during the current academic year, they had attended a variety of campus events and activities. Overall, respondents were most likely to have attended plays (33%) and least likely to have attended religious activities (11%). Tables 135-144 provide information on all participants' attendance at each event/activity as well as demographic breakdowns.

When asked about other forms of entertainment, seven individuals specified what they would like to see. Their responses were: International Students, SLU Activities, SLU Financing, SLU Politics, things that impact SLU - I can read daily news papers & magazines for all of the above, SLU related only, softball, problems at SLU, sports (all).

What suggestions do you have for improving the Lion's Roar?

Respondents were asked to provide any suggestions they might have for improving the Lion's Roar. Forty respondents provided an open-ended response. Many of the suggestions were mentioned by two or three people at the most, in fact most were mentioned by only one respondent. Below are the responses to this question:

- ! Definately classified: Jobs that SLU my have available & where to apply. Jobs, rental apartments, rental houses.
- ! Talk more of S.L.U. progress.
- ! Extend paper to include updated current events of importance to students. Something that may help them and draw interest.
- ! Would like to keep abreast with all of the new computer technology, what the current trends are, prices for software, what companies are using what software. Like to see a list of software titles that the SLU Bookstore carries and what software they have ordered.
- ! None at this time.
- ! Make it more colorful & eye catching, unlike a typical newspaper. Make it different that the average
- ! I have often looked for it & have not been able to find one on my side of campus. I would also like to see the police reports returned. I would really enjoy more things for children since I do read the paper to my 5 yr. old son.
- ! have reporters w/ unbiased opinions
- ! Put police reports in there weekly, because we need to know what is going on.
- ! Find more interesting topics.
- ! put facts in the paper that tells us how many more days we have left in school; maybe they could put a directory that lists important phone #'s on campus (i.e. campus police, dept. phone #'s
- ! Putting out more of them
- ! Get some 'Hard-nose' reporters who pry into issues that have a major impact on the students.
- ! N/A I am a graduate student!
- ! I think that the paper should put more news in it and take about the last page of Greek News and use it for something else like campus events.
- ! What is up with fraternities & sorority section on the last page? It really is not necessary.
- ! I am a single parent of 3 children. I would like to know when sporting, music, shows, activities are, how much they costs, if it's family oriented - family night - Special kid's prices. Put in the paper in advance!
- ! inform students about up coming campus events; inform students about departmental notices and events
- ! the advice columns need to go (to fake)
- ! make it a daily paper rather than a weekly paper
- ! It needs to be more like the Daily Star.

- ! As a journalism major, I would like to say that the Lion's Roar is a disgrace as a college newspaper. Journalism majors are discouraged from being on the staff. Staff members are inexperienced and they are lead by an unqualified person. It should be put back in the journalism (comm) department like at other universities.
- ! I think that the Lion's Roar has done a tremendous job in improving this semester, and I work for them, so it would not be appropriate to answer this question.
- ! Try to get more employers to advertise job opportunities! Publish it on a weekly basis!
- ! I take 1 off campus class & have never been to Southeastern & have never seen the Lion's Roar.
- ! Larger print for the visually impaired.
- ! None, don't read it enough.
- ! Have the Lions Roar incorporated into the mass communication/journalism department so real Southeastern news can be presented unbiased and uncensored while giving those students experience in their field.
- ! Color! Maybe even just a color front page?
- ! have never seen newspaper
- ! Less Brainless editorials. Reporters should realize they are reporters and not add their opinions to stories.
- ! Keep it light and fun while providing important news, and preceding events.
- ! add more contents
- ! Have a question & answer section. Info on dead lines for students. Where to find help.
- ! Never read
- ! Never read it.
- ! We need to make it more accessible.
- ! I think it needs to be published more than 1x week. It needs to focus on academics more around SLU. The SLU School of Nursing campus in Baton Rouge needs to receive current issues of The Lions Roar, since may students do not go to the Hammond campus.
- ! give more information, cover more sports
- ! Raise the standards for writing; editorials are often logically unsound, if not stupid and obnoxious; articles worded poorly; too many errors (typos); movie reviews don't "analyze" the movies.

The next section of the survey asked about various functions in Academic Services. The first set of questions asked about their experiences while still in high school. Overall, respondents indicated that not much information was available at their high school. Less than one-fourth indicated an application was available, and that was the information most likely to be available. Over 70% of the respondents indicated that Enrollment Services or Financial Aid staff did not visit their high school. However, the majority of those who did have someone visit felt the staff was knowledgeable and helpful.

The next question asked about satisfaction with the quantity and quality of information respondents might have received from Southeastern prior to enrolling. Overall, students were most satisfied with the catalogue information. The majority of respondents indicated they did not receive any information on CLEP Testing. Tables 153-172 provide summary data on information received as well as demographic breakdowns.

The next two questions asked about early registration for the next semester. The majority of respondents (74%) indicated they did early register. Graduate students and part time students were less likely to early register. For those students who did not early register, the main reason given was they were graduating or they did not know if they would be attending in the Fall. Tables 191 and 192 provide summary data as well as demographic breakdowns.

In addition, respondents were asked what type of services they would be interested in. Sixty-one students answered this question. The majority of the students indicated simply that they wanted everything on line, however two areas did appear frequently. First, 38% of the respondents indicated they wanted transcripts available on line. Also, 11% wanted financial aid information, including acceptance award letters, available on line. Below are all the responses, verbatim.

- grades, (test scores) not final grades
- Transcripts, withdraw/resign, change major
- total hours you have completed, grades
- acceptance of award letters for financial aid, ect; anything to lessen traveling to school!
- List of all courses - i.e. the catalog
- Transcripts / Financial Reports
- transcripts, curriculums, and classes left to take for each student

- Everything
- transcripts, fin aid award info.
- transcript, current classes taken, current grade status, graduation status, etc.
- transcript
- more information about different scholarships
- transcripts info;
- transcripts
- Links to other sites - such as State Bd of Ed - Teacher Certific.
- transcript request
- Classes on-line for parents and other students who have a difficult time attending class
- as many as possible
- transcript requests
- Sports tryouts, volunteer/ organization announcements
- transcript requests
- Financial Aid Information & Available Transcript
- I would like to register w/out having to go through the hassle of copying something on a disk.
- Transcript requests, monthly SLU activity calendars, complaint access to Dr. Clausen.
- transcript requests, mid-semester grades, more extensive class descriptions
- classes taken & the classes we have left to take
- transcripts for sure
- Calender should be easier to find.
- transcript requests
- transcript requests
- Lots of different things.
- as many things as possible
- Would like online schedule bulletins to display names of professors teaching the classes.
- grade
- As many as possible.
- more classes
- as many as possible. It is much more convient.
- transcript requests
- Scholarship applications, housing applications, etc...
- CLEP exam info, catalog request
- have access to all major services, financial aid, admissions, department, grades, etc.
- Any and all possible - it's much easier to access the info. that way.
- transcript request
- All including financial aid status.
- (Fin Aid & Loans)
- textbook ordering (new & used)
- All classes available for that semester
- Do Not Know

- Being able to access Fin Aid info with a PIN. So we don't have to be put on hold when calling the office.
- All information pertaining to me. Able to ask questions & receive reply.
- transcript requests
- transcripts, more detailed class info.
- ability to order summer schedules, put teacher's names who teach courses on schedules, add the ability to email teachers & professors about coursework
- registration, grade inquiry.
- transcript request
- all
- transcript request, electronic reserves for off-campus
- Any that would benefit me as a student.
- More classes need to be offered online, especially night classes.
- More classes for Non Traditional students, also for summer.
- Anything that would keep me from having to make a trip over there!

This section asked students to indicate their level of agreement with statements made about the Office of Enrollment Services, including orientation, admissions, registration, and the friendliness and helpfulness of staff. In general, students find the Enrollment Services staff friendly, helpful and knowledgeable, rating the Orientation staff slightly friendlier and more knowledgeable than the Enrollment Services and Financial Aid staff. Respondents also indicate that PC/Terminal-based registration is slightly more convenient and easy to use than Voice Access. In general, students think the catalogue provides the information they need. Tables 194-210 provide the participants' overall agreement with each of the items, as well as demographic breakdowns.

Student Characteristics

The majority of respondents were single (n=100, 57%), while 29% (n=51) were married, and 10% (n=17) were previously married. Also, the majority of students had no children (n=120, 68%), while 12% (n=21) had one child, 14% (n=24) had two children, 4% (n=7) had three children and 2% (n=4) had four or more children.

Traditional college students are often considered to be single undergraduate students with no children between the ages of 18 and 22. However, due to changing societal and economic conditions, more non-traditional students are entering into universities. Defining non-traditional undergraduate students as those students who are over the age of 22 or married or have children, 65% (n=93) of the undergraduate respondents were non-traditional students, while 35% (n=51) were traditional students.

The survey results support the notion that Southeastern has a large commuter population. The majority of respondents (46%, n=82) travel more than 30 miles (one way) to Southeastern's main campus. The breakdown for travel to campus can be found in Table 211.

Table 211
Miles traveled one way to Southeastern's main campus

| Miles Traveled | Percent | Number of Respondents |
|-------------------------|---------|-----------------------|
| Live on Campus | 5% | 8 |
| Less than 5 miles | 12% | 21 |
| Between 5 and 10 miles | 10% | 18 |
| Between 11 and 20 miles | 12% | 21 |
| Between 21 and 30 miles | 12% | 22 |
| More than 30 miles | 46% | 82 |

Sixty percent (60%, n=106) of the respondents received financial aid during the 1999-2000 academic year. The majority of students (68%, n=121) work off campus, while 9% (n=16) work on campus, 1% (n=1) work both on and off campus, and 21% (n=37) do not work at all. Of those students who indicated they worked, 9% (n=13) work no more than 10 hours per week, 25% (n=35) work 11-20 hours per week, 24% (n=33) work 21-30 hours per week, and 41% (n=57) work more than 30 hours per week.

According to Terenzini et. al (1996), a first generation student is one who has no parent with any college or university experience. Using this definition, 35% (n=59) of our students are first generation college students. An additional 3% (n=39) have a least one parent with some college, but no degree.

Two percent (2%, n=2) have at least one parent with an Associate degree, 19% (n=32) have at least one parent with a Bachelor's degree, and 18% (n=30) have at least one parent with a graduate or professional degree.
