Introduction

All students who enter Southeastern with fewer than 30 hours are required to take Orientation 101. This one hour course, administered by The Office of Admissions, is designed to acquaint students with Southeastern and help them adjust to campus life. Students are required to take Orientation 101 whether they enter Southeastern in the Summer, Fall or Spring semester.

During Orientation, the Entering Freshmen Survey is administered to all participating students. The Entering Freshmen Survey asks students about sources of information that influenced their decision to attend Southeastern, their reasons for attending Southeastern, as well as questions about their personal and social development. Also included are sections that ask the students about their level of confidence in their general education skills (based on the Board of Regents general education goals), their future participation in college sports, and demographic information not available in the Student Record System. A of the Entering Freshmen Survey, can be found in Appendix A.

Student Characteristics Questions 61 - 68

The majority of respondents were single (96%, n=1,788), while 2% (n=33) were married and 1% (n=18) were previously married. Also, the majority of students had no children (93%, n=1,736), while 3% (n=54) had one child, 2% (n=28) had two children, 0.4% (n=8) had three children, and 0.1% (n=1) had four or more children.

Traditional college students are often considered to be undergraduate students that are single, with no children and between the ages of 18 and 22. However, due to changing societal and economic conditions, more non-traditional students are entering into universities. Defining non-traditional students as those undergraduate students who are over the age of 22 or married or have children, 7% (n=127) of the entering freshmen were non-traditional students, while 86% (n=1,603) were traditional students.

The survey results support the notion that Southeastern has a large commuter population. The majority of respondents (41%, n=1,248) travel more than 30 miles (one way) to Southeastern's main campus. The breakdown for travel to campus can be found in Table 1.

Table 1
Miles Traveled One Way to Southeastern's Main Campus

Miles Traveled One Way to Southeastern's Main Campus	Percent	Number of Respondents
Live on Campus	11%	205
Less than 5 miles	8%	154
Between 5 and 10 miles	7%	138
Between 11 and 20 miles	10%	193
Between 21 and 30 miles	20%	368
More than 30 miles	42%	775

The majority of students (59%, n=1,099) plan to work off campus, while 18% (n=325) plan to work on campus, 11% (n=199) plan to work both on and off campus, and 11% (n=207) do not plan to work at all. Of those students who indicated they plan on working while attending Southeastern, 12% (n=196) plan to work no more than 10 hours per week, 45% (n=710) plan to work 11-20 hours per week, 31% (n=493) plan to work 21-30 hours per week, and 12% (n=198) plan to work more than 30 hours per week. Over half of the entering freshmen had applied for financial aid.

According to Terenzini et al. (1996), a first generation student is one who has no parent with any college or university experience. Using this definition, 30% (n=512) of entering students are first generation college students.

For the majority of entering freshmen (77%, n=1,429), their goal in attending Southeastern is to obtain a degree from Southeastern. Twelve percent (12%, n=219) plan to take a few courses and then transfer to another university. Four percent (4%, n=81) had no definite goal in mind, while 3% (n=48) plan to take a few courses in order to learn specific job skills or for their own personal interests. An additional 2% (n=33) indicated that their goal was some other goal not listed, and 3% (n=51) did not respond to the question.

Section I
Sources of Information about Southeastern

Students were asked to indicate the level to which different information sources influenced their decision to attend Southeastern rather than another university. Results are reported in Table 2, separately for beginning freshmen, transfer freshmen, and those who attended Orientation but were not enrolled as of the 14th class day.

Overall, contact with Southeastern’s students and graduates had the largest influence on the decision to attend Southeastern (mean=3.59). Visits by Southeastern’s admissions staff at their high school had the least influence in the decision to attend Southeastern (mean=1.99).

Table 2
Information Sources Which Influenced Decisions to Attend Southeastern

		No Influence (1)	(2)	(3)	(4)	Major Influence (5)	Mean
Visits by Southeastern’s admissions staff at your high school	Beginning	52% (840)	13% (209)	22% (344)	7% (113)	6% (89)	2.00 (1,585)
	Transfer	65% (79)	8% (10)	18% (22)	5% (6)	3% (4)	1.73 (121)
	Did Not Attend	49% (68)	19% (26)	17% (24)	9% (12)	6% (8)	2.03 (138)
College publications (catalogs, brochures, etc.)	Beginning	19% (298)	16% (247)	31% (489)	20% (311)	15% (242)	2.97 (1,587)

	Did not Attend	42% (58)	17% (24)	23% (32)	10% (14)	7% (10)	2.23 (138)

Section II Personal and Social Development

Students were asked to indicate the extent to which they agreed or disagreed with statements regarding their personal and social development. Results are reported in Table 3, separately for beginning freshmen, transfer freshmen, and those who attended Orientation but were not enrolled as of the 14th class day.

Overall, students entering Southeastern believe they are well-adjusted, productive individuals. The item with the highest overall agreement was “I am very committed to finishing college, no matter what problems I encounter” (mean=4.68). The item with the lowest overall agreement was “I can think of many things I would rather do than go to college” (mean=1.84).

**Table 3
Personal and Social Development**

		Strongly Disagree (1)	(2)	(3)	(4)	Strongly Agree (5)	Mean
I am a capable, self-reliant person	Beginning	0% (6)	1% (15)	11% (172)	34% (546)	54% (856)	4.40 (1,595)

**General Education
Section III**

The items in this section were developed on the basis of the general education goals provided by the Board of Regents. Students were asked to indicate the level of confidence they felt regarding each skill or ability. Results are reported in Table 4, separately for beginning freshmen, transfer freshmen, and those who attended Orientation but were not enrolled as of the 14th class day.

Overall, students had the most confidence in their “personal set of values and ethical standards” (mean=4.20). Students had the least confidence in their “acquaintance with and enjoyment of literature” (mean=3.39).

**Table 4
Confidence in General Education Skills**

Reasons for Attending Southeastern Section IV

In this section, students were asked to indicate how important a list of reasons were in their decision to attend Southeastern. Results are reported in Table 5, separately for beginning freshmen, transfer freshmen, and those who attended Orientation but were not enrolled as of the 14th class day.

Overall, the most important reason for students' decision to attend Southeastern was "Southeastern seemed to be a friendly place" and "I met the admission requirements at Southeastern" (mean=4.00). The least important reason was "Southeastern offered me a scholarship" (mean=2.17).

Table 5

Extra Curricular Activities
Question 70

Students were asked whether they participated in a variety of activities while in High School and whether they planned to participate in them at Southeastern. Results are reported in Table 6, separately for beginning freshmen, transfer freshmen, and those who attended Orientation but were not enrolled as of the 14th class day. Overall, students were most likely to have participated in Varsity Athletics (49.8%) in High School and were most likely to participate in a Fraternity or Sorority (29.8%) at Southeastern.

**Expectations At Southeastern
Questions 60 & 61**

Students were asked whether they thought they would need assistance in several areas while at Southeastern. Results are reported in Table 7, separately for beginning freshmen, transfer freshmen, and those who attended Orientation but were not enrolled as of the 14th class day. Overall, students anticipated needing the most help with improving their math skills (70.1%). Students were also asked how much time they expect to spend studying outside of the classroom. The majority (26.3%) expected to spend 7-9 hours a week studying. The results for this question are reported in Table 8.

Athletic Participation
Questions 57 - 59

The items in this section were asked about students previous participation in sports and their potential participation while in college. Only students who actually attended Southeastern were included in these analyses. Students were asked at what level they might be interested in participating in 28 sports while in college. Overall, students expressed the most interest in Football at the varsity level and the least interest in Squash and Team Handball. At the intramural level, students were most interested in Basketball and least interested in Squash. At the club level, students expressed the most interest in Bowling and the least interest in Squash. Table 9 provides the percent of students interested in each sport, broken down by female and male students, and total.

Table 9
