Background

During the Spring of 2005, the Office of Institutional Research and Assessment (IR&A) conducted a survey of faculty and staff. The purposes of the survey were 1) to assess progress toward meeting the University's strategic planning benchmarks; and 2) to evaluate certain non-instructional units. The non-instructional units included in this year's survey were: Administrative Computing, Purchasing, Property Control, Central Receiving, Student Activity Center, Budget Office, University Counseling Center and Southeastern Channel. This report will provide the results of the section regarding Administrative Computing.

Survey Method

The 2004-2005 Survey of Faculty and Staff, along with a cover letter from the Provost and the Chair of the Institutional Effectiveness Committee, was sent to all full-time faculty and staff. The exceptions were the staff in Institutional Research and Assessment, the President, and the four Vice Presidents. Thus a total of 1,258 faculty and staff were included in the survey and received survey forms via campus mail. The information provided by the respondents was treated with strict confidentiality. A master list was maintained for purposes of follow-up only, this list was securely maintained. The master list was destroyed after data was collected. The information gained from the survey is reported for the entire survey group and individuals can not be identified with any response. Reminders to return the survey was distributed via e-mail. A second mailing was then sent to those faculty and staff who had not returned the survey. A total of 926 faculty and staff completed the survey and returned it to IR&A for a return rate of 74%. A copy of the survey can be found in Appendix A.

The average term of employment at Southeastern for respondents is 8.9 years, and the average age of the respondents is 46.1. These numbers reflect values nearly identical to the population as a whole. Table 1 presents other characteristics of the respondents as compared to the population.

Results

Four items asked faculty and staff how satisfied they were with various aspects of Central Receiving at Southeastern. The results for each item are presented with a set of summary points describing the data as a total group. This is followed by tables which present frequencies and mean for five groups of faculty and staff: Department Heads, Directors, Clerical, Faculty, and Other staff.

Usually, Receiving logs in and delivers my packages in a timely manner.

- Of the 902 faculty and staff who responded, 4% (n=35) indicated that they strongly disagreed with the statement and 25% (n=230) strongly agreed with the statement. Thirty-two percent (32%, n=293) indicated that this item did not apply to them.
- The average rating across all faculty and staff was 3.86.
