HEAD OF THE DEPARTMENT: Professor Canfield

ASSOCIATE PROFESSORS: Ballard, Emerson, Johnson, Rolling

ASSISTANT PROFESSORS: Ahn, Braniff, Caffery, Kelly, Kulkin, McMillon, Weathersby, Williams

INSTRUCTORS: Compton, Didier, Quinn

COUNSELOR EDUCATION (CED)

603. Counseling Theory. Credit 3 hours. Prerequisite: Admission to Counseling Program. Major theories and approaches to counseling are analyzed along with the essentials of counseling and therapeutic processes and the nature of the counseling relationship. Skill building through dyadic exercises and feedback is included.

605. Pre-Practicum/Counseling Techniques. Credit 3 hours. Prerequisite: Admission to Counseling Program. Counseling experience in the university counseling laboratory. Aspects of the counseling process/relationship and specific techniques of individual counseling are stressed.

607. Career Development/Information Services. Credit 3 hours. Prerequisites: Admission to the counselor education program or permission of the Department Head. An introduction to the theories of career development and the processes by which occupational/educational and personal/social information may be integrated for career/life planning.

609. Assessment in Counseling. Credit 3 hours. Prerequisite: HD 600, HD 601, CED 603, and CED 605. An introduction to major intellectual, psychological, achievement, interest, and sociometric assessment goals and techniques available for the study of the individual.

610. Introduction to Diagnosis and Treatment of Psychopathology. Credit 3 hours. Prerequisite: HD 600, HD 601, CED 603, and CED 605. This course teaches basic skills for evaluating behaviors, writing of diagnostic reports, and planning intervention strategies. Students will examine specific disorders and the utilization of various methods for identifying and treating these disorders.

611. School Counseling & Consulting. Credit 3 hours. Prerequisite: HD 601, CED 603, and CED 605. This course will focus on the role of the school counselor as well as the philosophy and practical application of counseling theory and techniques with school-age populations. The student will develop a specific counseling program that will address the needs of a diverse student, staff and community population in which the school counselor is expected to function.

613. Community Consulting & Staffing. Credit 3 hours. Prerequisite: HD 601, CED 603, and CED 605. Primary theories of consultation with emphasis on conflict management, delivery of mental health services and therapeutic intervention with clients from all cultures.

615. Introduction to Student Affairs. Credit 3 hours. Prerequisites: HD 601, CED 603, and CED 605. This course is designed to provide students with a broad overview of student affairs in higher education. Topics covered will include, but are not limited to, the history and development of higher education and student affairs, functional areas, roles and competencies of student affairs professionals, professional associations, career opportunities, trends and current issues, and legal and ethical issues.

616. The Contemporary College Student. Credit 3 hours. Prerequisites: HD 600, HD 601, CED 603, CED 605, and CED 615. This course is designed to provide an overview of today's college students, including individual and collective characteristics, and the important aspects of the campus environment. Various theories of student development, including but not limited to, cognitive, moral, ethical, psychosocial, transition, and career development will be studied. Focuses on psychosocial dynamics of the campus ecology that influences educational, occupational, and personal development of contemporary college students.

617. Counseling Children & Adolescents. Credit 3 hours. Prerequisites: HD 601, CED 603, CED 605 and HD 608. Theories and techniques for intervention with children at the pre-school, school-aged and adolescent age levels.

618. Organization and Administration in Student Affairs. Credit 3 hours. Prerequisites: HD 600, HD 601, CED 603, CED 605, and CED 615. The essentials of effective leadership in student affairs will be examined. Major topics will include the organizational structure of student affairs, organizational leadership theory and dynamics, administrative tasks and responsibilities, and administrative effectiveness.

619. Substance Abuse Counseling. Credit 3 hours. Prerequisites: CED 601, 603, and 605. Study and application of theory and techniques for counseling clients abusing alcohol and/or drugs with emphasis on substance abusers, co-dependents and families. Physiological and psychological aspects of substance abuse will be addressed.

620. Advanced Counseling Techniques. Credit 3 hours. Prerequisites: HD 600, HD 601, CED 603, CED 605, and CED 683. The study of specialized strategies, interventions, and techniques involved in therapeutic work with individuals and family systems. This course is designed as a post-practicum experience, which is taken concurrent with internship to develop and refine clinical skills.

640. Grief and Loss Counseling. Credit 3 hours. Prerequisites: HD 600, HD 601, CED 603, and CED 605. This course is intended to acquaint the student with current and seminal literature in the field of grief and loss as well as with specific information related to a wide variety of losses and client populations. Lecture, discussion, guest speakers, and experiential activities will be utilized.

641. Crisis Counseling and Management of High Risk Clients. Credit 3 hours. Prerequisites: HD 600, HD 601, CED 603, and CED 605. This course will provide an overview of crisis models and provide students with the knowledge and skills to assess the severity of a crisis and implement appropriate interventions. Students will learn to differentiate between situational and developmental crises, and specific types of crises and high-risk clients will be discussed (e.g. substance abuse, grief and loss, violence and abuse, trauma and disasters, health-related crises.) Lecture, discussion guest speakers, and experiential activities will be utilized.

670. Special Topics in Counselor Education. Credit 3 hours. Prerequisites: Admission to the counselor the selected area.

683. Counseling Practicum. Credit 3 hours. Prerequisites: HD 601, CED 603, 605, 607, 609, 610, and permission of the Department Head. Supervised experience in school counseling with applications of principles, techniques, and strategies acquired in previous course work. The class will focus upon skill acquisition and demonstration of competencies. This practicum is graded Pass/Fail.
685. Independent Study in Counseling. Credit 3 hours. Prerequisites: Educational Foundations 600 and advanced standing in the counseling program, or permission of the Department Head. Examination and in-depth study, research, and evaluation of contemporary problems in counseling.

690. School Counseling Internship. Credit 3 hours. Prerequisite: HD 600, HD 601, CED 603, CED 605, HD 604, CED 609, CED 610, and CED 683. Supervised on-the-job experiences in a school setting emphasizing competencies in: individual counseling, group counseling, and educational, vocational, and personal testing. Students must complete 600 clock hours over the course of two semesters, and must register for 3 hours each semester for a total of 6 credit hours. This internship is graded Pass/Fail.

693. Counseling Internship. Credit 3 hours. Prerequisites: HD 600, HD 601, CED 603, CED 605, HD 604, CED 609, CED 610, and CED 683. Supervised experience in a setting appropriate to the student's program area emphasizing competencies in individual counseling, groups, testing, diagnosis and treatment. Students must complete 600 clock hours over the course of two semesters, and must register for 3 hours each semester for a total of 6 credit hours. This internship is graded Pass/Fail.

770. Counseling Thesis. Credit 1-6 hours each semester, with 6 hours needed for graduation. The student must enroll in the thesis course each semester the thesis is in progress. The thesis is graded Pass-Fail. Prerequisite: Completion of the Counselor Education program or permission of the instructor. Original research project designed, implemented and summarized by the student under the direct supervision of counseling faculty.

HUMAN DEVELOPMENT (HD)

600. Research Methods and Designs. Credit 3 hours. Prerequisite: Admission to the counseling program or permission of Department Head. Principles and foundations of designing and conducting research are examined. Instruction will focus on empirical, naturalistic, and critical approaches relevant to enacting the role of practitioner-researcher. This course is designed to prepare students to conceptualize, design, and carry out a behavioral research project.

601. Legal, Ethical, and Professional Issues. Credit 3 hours. Prerequisite: Admission to Counseling Program. Presents current legal, ethical, and professional information necessary for competent professional practice in the mental health field. The course includes an overview of the historical and current societal context of professional practice in counseling, marriage and family therapy, and related fields. The course will assist students in developing a work plan, referral guide, credential file, declaration statement, and curriculum vitae specific to their work setting and area of professional concentration.

604 [HURE 604]. Group Process. Credit 3 hours. Prerequisite: HD 601, CED 603, and CED 605. Major approaches to group dynamics and counseling, including theoretical assumptions and basic principles and techniques, are covered. A weekly lab component is required.

608[HURE 608]. Human Growth & Development. Credit 3 hours. Prerequisite: Permission of the Department Head. Study of the emotional, physical, social, and intellectual factors of development across the lifespan.

625[HURE 625]. Cross-cultural Issues. Credit 3 hours. Prerequisite: HD 601, CED 603, and CED 605; or permission of the Department Head. This course is designed to help counselors maximize their effectiveness in today's pluralistic society by understanding: value systems and ways of life of culturally diverse groups; similarities and differences of various cultural groups; dynamics of multicultural interaction and communication; and processes of cultural transmissions in the "global village."

FAMILY AND CONSUMER SCIENCES (FCS)

102. Introductory Apparel Design. Credit 3 hours. A study of the principles of apparel design, construction and evaluation. Introduction to computer-aided design. Two hours of lecture and 2 hours of lab.

105. Introductory Food Science. Credit 3 hours. A study of the principles of basic food preparation, meal planning, meal preparation and table service. One hour of lecture and four hours of laboratory per week. Laboratory fee.

150. Introduction to Family and Consumer Sciences. Credit 3 hours. An introductory course to Family and Consumer Sciences careers with emphasis on the processes of management and decision making as applied to individuals, families, and communities.

221. Interior Design. Credit 3 hours. A study of psychological, sociological, economic and aesthetic aspects of commercial and residential interiors. Field based experiences required.

223. Introduction to Nutrition. Credit 2 hours. A study of the basic principles of nutrition in relation to health and food selection. Credit toward a degree can be given for only one beginning course in nutrition: FCS 223, 224, 251, or 342.

224. Introduction to Nutrition. Credit 3 hours. A study of the basic principles of nutrition in relation to health and food selection, with emphasis on the integration of nutrition into an educational setting. Credit toward a degree can be given for only one beginning course in nutrition: FCS 223, 224, 251, or 342.

241. History of Costume. Credit 3 hours. A study of costume and the nature of fashion from early history through the present.

251. Nutrition and Diet Therapy. Credit 3 hours. Prerequisite: Nursing majors only. Principles of nutrition and their application in maintaining health and providing therapy during illness. Credit toward a degree can be given for only one beginning course in nutrition: FCS 223, 224, 251, or 342.

252. Special Topics in Family and Consumer Sciences. Credit 3 hours. Prerequisite: Nursing majors only. Consideration of fundamental concepts within the various subject matter areas of family and consumer sciences related to living in a contemporary society.

301. Textiles. Credit 3 hours. A study of the basic physical, biological and chemical characteristics of fibers, yarns and fabrics including the selection, maintenance and performance of textiles. Field based experiences required.

MARRIAGE AND FAMILY THERAPY (MFT)

621. Introduction to Marriage and Family Therapy. Credit 3 hours. An introduction to the profession, major theories, and practices of marriage and family therapy, including the historical development and principle conceptualization of cybernetic and systems theory.

622. Advanced Theory in Marriage and Family Therapy. Credit 3 hours. Prerequisites: Admission to MFT Program track (Marriage and Family Therapy Program Track majors only) or permission of Department Head. A study of advanced theories of counseling and psychotherapy employed in the practices of marriage and family therapy. The course will include an examination of systems and cybernetic theory, as well as a study of the post-modernist perspectives of construction and social constructivism.

626. Techniques in Marriage and Family Therapy. Credit 3 hours. Prerequisites: Admission to MFT Program track (Marriage and Family Therapy Program Track majors only) or permission of Department Head. A pre-practicum course focusing on basic clinical interviewing procedures and interventions commonly used with couples and families, utilizing selected major theories of marriage and family therapy.

672. Couples and Marital Therapy. Prerequisites: Admission to MFT practicum. (Marriage and Family Therapy Program Track majors only) or permission of Department Head. A study of theory and procedures in couples and marital therapy. The course includes a review of current topics and research relating to the marriage and other dyadic relationships.

683. Advanced Procedures in Family Therapy. Credit 3 hours. Prerequisites: Admission to MFT practicum. (Marriage and Family Therapy Program Track majors only) or permission of Department Head. A practicum course focusing on a study of specialized techniques utilized in the practice of marriage and family therapy. The course involves clinical activity and practice to refine interventions with couples and families.

693. Family Therapy Internship. Credit 3 hours (must be repeated for a total of 9 hours over a continuous 12 month period). Prerequisites: Admission to MFT Internship. (Marriage and Family Therapy Program Track majors only) or permission of Department Head. Supervised experience in a professional setting involving clinical work with couples and families.

SUBSTANCE ABUSE COUNSELING (SAC)

619 [CED 619]. Substance Abuse Counseling. Credit 3 hours. Prerequisites: HD 601, CED 603 and CED 605. This course will provide a general knowledge base concerning the emotional, social, physical and spiritual impact of addiction upon the abuser and the family system. Special emphasis will be given to the principles of the progression of addiction, treatment modalities, recovery and relapse prevention.

630. Professional Principles in Substance Abuse Counseling. Credit 3 hours. Prerequisites: HD 601, CED 603, CED 605, and CED 619. This course will present an overview of the twelve core functions and six performance domains required of Certified Substance Abuse Counselors. Core functions include screening and assessment, treatment planning, record keeping, and consultation with professionals. Performance domains include program coordination, education and training, community organization, and public policy issues.

632. Substance Abuse and the Family. Credit 3 hours. Prerequisites: HD 601, CED 603, CED 605 and CED 619. This course will examine the impact of substance abuse and addiction upon the family system. Major emphasis will be given to the progression of the addiction in the abusing or dependent person(s) and the consequent effects on the family system. Implication for counseling intervention and treatment will be discussed, with special attention given to the roles family members typically adopt in addicted family systems.

634. Advanced Substance Abuse Counseling Techniques. Credit 3 hours. Prerequisites: HD 601, CED 603, CED 605 and CED 619. This course presents advanced counseling theory and practice for working with substance abuse clients. Special emphasis is given to individualized, comprehensive treatment planning and the unique role of the substance abuse counselor.

SOCIAL WORK (SW)

101. Introduction to Social Work, Fields of Practice. Credit 3 hours. A survey of the resource and delivery systems in which social work is practiced. Emphasis will be given to both public and private agencies and various methodologies. Social Work values, ethics, skills and knowledge base are examined. An overview of the history of social welfare with an emphasis on fields of practice. Service gaps and biases will be identified.

201. History and Philosophy of Social Welfare and Social Work. Credit 3 hours. Prerequisite: Social Work 101 or permission of Department Head for non-majors. An historical survey of the history of social work and social organizations in the U.S. designed to meet social problems. Emphasis is given to Social Welfare laws and organizations as a reflection of culture and societal values. Attention is also given to the philosophical base of social work practice as reflected in the ethics and values of the profession.

203. Human Behavior in the Social Environment I. Credit 3 hours. Prerequisite: Social Work 101, Sociology 101, General Biology 106/109, Psychology 101, and registration for or prior credit for General Biology 107/110 or permission of the Department Head for non-majors. A study of the interaction of biological, psychological, and sociological factors in the formation of personality and the functioning of persons in the environment. Specific theories and tools of assessment of individuals are discussed.

204. Human Behavior in the Social Environment II. Credit 3 hours. Prerequisite: Social Work 203, Sociology 212, or permission of Department Head for non-majors. A study of the social system model as a basic way to think about behavior in the social environment. This model will be applied to society, communities, organizations, groups and families. Culture as a determinant of behavior will be examined. Additional factors such as rurality, poverty, membership in special populations, and gender differences will be addressed. Specific theories in relation to society are discussed.

205. Understanding Human Diversity and Populations at Risk. Credit 3 hours. Prerequisite: Sociology 101 and Social Work 101 or permission of the Department Head for non-majors. This course examines relationships between racial and ethnic groups as well as
304. Generalist Social Work Practice: Micro-Practice Skills. Credit 3 hours. Prerequisites: Social Work 101, 201, 202, 203, 204, 205, with a minimum grade of "C" and admission into professional standing. The primary purpose of this course is to prepare students for generalist social work practice with individuals and families. The course focuses on the problem solving model, case management, and communication skills. The course will identify practice skills that emphasize strengths, advocacy, empowerment, and change. Attention is given to populations-at-risk.

305. Generalist Social Work Practice: Mezzo Practice Skills. Credit 3 hours. Prerequisites: Social Work 304 and admission into professional standing. The primary purpose of this course is to prepare students for generalist social work practice with diverse populations utilizing mezzo skills. It provides specific skills for working with families and groups. Particular attention is given to working in rural settings, to populations-at-risk and to economic and social justice issues. The course will identify practice skills that emphasize strengths, empowerment, advocacy and change.

306. Child Welfare – In Home Services. Credit 3 hours. Prerequisite: Social Work 202 and junior standing. This child welfare course looks at the generalist intervention model as it applies to in-home services to families and children. Family assessment theory/skills are reviewed. Families at risk and the effects of abuse and neglect on child development are discussed. The generalist approach to child protection and case planning skills are considered. The course concludes with a look at the separation of children from abusive/neglective families and the placement process.

307. Child Welfare – Substitute Services. Credit 3 hours. Prerequisites: Social Work 202 and junior standing. This course describes the generalist intervention model as it applies to the care of abused/neglected children from their placement into foster care to permanency planning and concludes with a look at family re-unification. Recruitment of foster family parents and adoptive parents is explored, as well as services to children, foster parents, and adoptive parents.

360. Social Work Research Methods and Designs. Credit 3 hours. Prerequisites: SW 201, 204, and Math 241 or permission of the instructor. The principles and foundations of designing and conducting issues in social work research are examined. Emphasized are ethical issues in social work research and the relevance of evaluation skills.

361. Methods of Analysis and Dissemination. Credit 4 hours. Prerequisites: SW 360 and Math 241 or permission of the Department Head. This course focuses on the examination of selected research instruments used in data collection. Analytical techniques (quantitatively and qualitatively) and general research management skills are also a focus of this course.

400/500. Independent Study. Credit 1-3 hours. Prerequisite: Permission of the instructor and the Department Head and Junior standing. An in-depth study of topics appropriate to generalist social work practice culminating in a research report. Student works with an instructor on a one-to-one basis. May be repeated in one to three hour credits for no more than 6 hours credit. New materials are investigated in each repeat.

402. Social Welfare Policy, A Framework for Analysis. Credit 3 hours. Prerequisites: Social Work 101, 201, 203, 204, or permission of Department Head for non-majors. The course will focus on the issues and conflicts raised by policy makers in designing social welfare policies and programs. A conceptual framework for social welfare policy analysis is explored. Techniques for advocacy, empowerment, and transformation are demonstrated.

406. Generalist Social Work Practice: Macro Practice Skills. Credit 3 hours. Prerequisites: Admission into professional standing and successful completion of Social Work 304. The primary purpose of this course is to prepare students for generalist social work practice with communities, organizations, and large groups. Special attention is paid to populations at risk and to economic and social justice issues, as well as to issues pertaining to working within bureaucracies. Techniques for program implementation and evaluation are demonstrated. Methods for community assessment, organization, and empowerment are examined.

422/522 [422UG]. Social Aspects of Aging. Credit 3 hours. Prerequisite: Junior or Senior standing. A study of the interactions of the aging individual with the institutions of society. Society's attitudes, values and provisions relating to the aged will be brought into focus with a view of providing social services.

495. Special Topics. Credit 3 hours. Prerequisites: Junior standing or permission of the Department Head. An in-depth study of selected topics in social work. May be repeated (when topic varies), for a total of six hours credit.

499. Internship. Credit 9 hours. Prerequisites: Completion of all required courses, and permission of the field director. This course consists of a minimum of 430 hours of field experience in a social agency under the direct supervision of a qualified social worker. An integrative seminar will be conducted each week in conjunction with the placement.
