

DEPARTMENT OF CHEMISTRY AND PHYSICS

The Department of Chemistry and Physics offers four-year curricula in both Chemistry and Physics. Since the Chemistry Department is approved by the American Chemical Society (ACS), chemistry graduates may receive diplomas certified by the ACS. Pre-professional programs in engineering, medicine, dentistry, optometry, and pharmacy are also offered.

Students in Medicine and Dentistry are encouraged to complete the requirements for a degree before entering a medical or dental school. However, in the event that a student is accepted into medical or dental school prior to receiving the baccalaureate degree, that student may still become a candidate for the Bachelor of Science degree from Southeastern Louisiana University by completing the following requirements. The student must: (1) complete 90 credit hours (the last 30 in residence), (2) complete 20 hours of chemistry above the freshman level (all chemistry courses must be chosen from those courses required of chemistry majors), (3) complete the Board of Regents General Education Requirements, (4) satisfactorily complete a course of study at either medical or dental school, and (5) be recommended by the SLU Medical Evaluation Committee. At the beginning of the student's final year of medical or dental school the student must: (1) request that the Medical Evaluation Committee recommend her/him to the head of the Department of Chemistry and Physics for graduation, (2) secure and submit an application for graduation from the Southeastern Louisiana University's Records/Registration Office, and (3) pay the diploma fee at the time the completed application is submitted to the Controller's Office.

A similar program exists for Pre-engineering students. The student must: (1) complete 90 credit hours (the last 30 in residence), (2) complete 20 hours of chemistry above the freshman level including Chem 395 and Clab 391 (all chemistry courses must be chosen from those courses required of chemistry majors) or 28 hours of physics at the 200 level or above (all courses must be chosen from those required of physics majors), (3) complete the Board of Regents General Education Requirements, (4) satisfactorily complete an Engineering Degree Program. At the beginning of the student's final year in the Engineering program, the student must (1) request Departmental evaluation of his/her record, (2) secure and submit an application for graduation, and (3) pay the diploma fee at the time the completed application is submitted to the Controller's Office.

HONORS DIPLOMA IN CHEMISTRY

For the Honors Diploma in Chemistry, majors must complete the following requirements:

English 121H	3 hours
English 122H	3 hours
History 101H.....	3 hours
History 102H.....	3 hours
Honors 300	1 hours
Foreign Language ¹	12 hours
English 291H, English 292H, History 201H, History 202H, GBIO 151H ²	3 hours
Chemistry 251, 265, 266, 395, 396, 452, 471, 481 ³	9 hours
Chemistry Laboratory 254, 267, 268, 391, 392, 453, 473, 485 ³	3 hours
Chemistry 411	1 hours
Total.....	41 hours

¹ Must be from the same language-6 of these hours will be used from free electives

² Any of these courses can be substituted for similar major requirements with the approval of the Department Head

³ Any one of these courses must be completed as an H-option

CHEMISTRY SAFETY POLICY

Laboratories are an integral part of all curricula in the Department. A copy of the safety regulations is provided to every student during the first lab class. Any student who violates the safety policy of the Department is subject to dismissal from the laboratory and withdrawal from the course in which the violation occurred. Departmental policy also requires that any student who drops the lecture must also drop the corresponding laboratory.

PLACEMENT IN CHEMISTRY 121

Students desiring placement in Chemistry 121 must meet at least one of the following conditions.

1. Enhanced ACT mathematics standard score of 21 or higher; or
2. Satisfactory completion of Mathematics 161 or 165; or
3. Satisfactory score on the Departmental Placement Test which is administered during the orientation period; or
4. Consent of Department Head.

CHEMISTRY

Chemistry is the study of the composition and interaction of all substances. Areas of study range from chemical and instrumental analysis of mixtures to synthesis and characterization of polymers to molecular modeling to the chemistry of the human body and to computational chemistry. The degree program in chemistry at Southeastern is designed to offer the student comprehensive training in modern chemical principles in preparation for a career in industry or the health professions or for graduate study in chemistry or related fields. The study of chemistry is also important for fostering the scientific literacy of students in other disciplines, such as environmental science, law, education, and business.

A Major in Chemistry will be granted upon satisfactory completion of 33-49 credit hours of chemistry.

A Minor in Chemistry will be granted upon satisfactory completion of 21-22 semester hours of chemistry consisting of the following courses: Chemistry 121-123, Chemistry 122-124, Chemistry 251-254 or Chemistry 481-482, Chemistry 265-267, and Chemistry 266-268.

In order to better meet the needs of the diverse student population, four concentration areas are offered in chemistry. They differ primarily in the balance between the number of hours of chemistry and the number of elective hours required. Which one a given student should choose will depend on their career goals. Even if it is not a degree requirement, all students should consider the benefits of their involvement in supervised undergraduate research (Clab 411) sometime during their Junior or Senior years.

CURRICULUM IN CHEMISTRY LEADING TO THE DEGREE OF BACHELOR OF SCIENCE AMERICAN CHEMICAL SOCIETY (ASC) CONCENTRATION

FIRST SEMESTER	FIRST YEAR S.H.	SECOND SEMESTER	S.H.
†Chemistry 121	3	†Chemistry 122	3
†Chemistry Lab 123	1	†Chemistry 124	1
†Chemistry 150	2	English 102 or 122H	3
English 101 or 121H	3	Math 201	5
Math 200 ¹	5	Biological Sciences	4
Communication 211	3		
Orientation 101	0-1		
	17-18		16
Second Year			
†Chemistry 251	3	†Chemistry 266	3
†Chemistry Lab 254	2	†Chemistry Lab 268	1
†Chemistry 265	3	Physics 222	3
†Chemistry Lab 267	1	Physics Lab 224	1
English 230,231,232, or 322	3	Arts Elective ²	3

Physics Lab 223	1		
	16		14
Third Year			
†Chemistry 395	3	English 230,231,232, or 322	3
†Chemistry Lab 391	1	Foreign Language ³	3
†Chemistry 452	3	Social Science ⁴	3
†Chemistry Lab 453	2	†Chemistry 396	3
Foreign Language ³	3	†Chemistry Lab 392 or 485	1
Elective	3		
	15		13
Fourth Year			
†Chemistry 471	3	†Chemistry 401	1
†Chemistry Lab 473	1	†Chemistry Lab 411	1
†Chemistry 481	3	†Chemistry 414, 462, 482, 491 or 492	6
History Elective	3	Electives	7
Social Science ⁴	3		
Elective	3		
	16		15
Total semester hours required		122-124	

Orientation 101 is not required of transfer or readmitted Southeastern students with 30 hours or more.

Concentration 1 is strongly recommended for those students who may plan to attend graduate school in chemistry. Students who complete the ACS Certified Curriculum will receive, in addition to their diploma, a certificate from the American Chemical Society.

¹Math 161 and Math 165 may be used as electives for those student's whose Math ACT score is insufficient for direct entry into Math 200.

²Must be selected from Visual Arts, Music, Theater, or Dance.

³Must be selected from the same language.

⁴Must be selected from Economics, Geography, Anthropology, Political Science, Psychology, or Sociology.

†All Chemistry courses specified above will be used to calculate the major grade point average which must be an adjusted or degree 2.0.

CURRICULUM IN CHEMISTRY LEADING TO THE DEGREE OF BACHELOR OF SCIENCE BIOCHEMISTRY CONCENTRATION

FIRST SEMESTER	FIRST YEAR S.H.	SECOND SEMESTER	S.H.

Social Sciences ⁴	3		
Elective	3		
	14		16
Total semester hours required			122-124

Orientation 101 is not required of transfer or readmitted Southeastern students with 30 hours or more.

Concentration 3 is recommended for those students who are planning for a career in industry. The non-chemistry courses have been chosen such that they provide support for additional work either in a Master's in Business or training in Occupational Safety and Health.

¹Math 161 and Math 165 may be used as electives for those student's whose Math ACT score is insufficient for direct entry into Math 200.

²Must be selected from Visual Arts, Music, Theater, or Dance.

³Must be selected from the same language.

⁴Must be selected from Economics, Geography, Anthropology, Political Science, Psychology, or Sociology.

⁵Concentration electives (15 hrs) must be selected from the following courses: CHEM 404 (1-3), OSH 123 (3), OSH 125 (3), OSH 221 (3), OSH 223 (3), ECON 201 (3), MGMT 231 (3), MGMT 261 (3), MGMT 290 (3), MGMT 351 (3), MGMT 474 (3), ACCT 200 (3), or MRKT 303 (3).
 †All Chemistry courses specified above will be used to calculate the major grade point average which must be an adjusted or degree 2.0.

CURRICULUM IN CHEMISTRY LEADING TO THE DEGREE OF BACHELOR OF SCIENCE POLITICAL SCIENCE/PRE-LAW CONCENTRATION

History Elective	3		
Electives	3		
	14		16
Total semester hours required		122-124	

Orientation 101 is not required of transfer or readmitted Southeastern students with 30 hours or more.

Concentration 4 is designed for those students who may wish to enter the fields of environmental or patent law. The electives have been chosen from those recommended for pre-law students.

¹Math 162 and Math 165 may be used as electives for those student's whose Math ACT score is insufficient for direct entry into Math 200.

²Must be selected from Visual Arts, Music, Theater, or Dance.

³Must be selected from the same language.

⁴Must be selected from Economics, Geography, Anthropology, Political Science, Psychology, or Sociology.

⁵Concentration electives (15 hrs) must be selected from the following courses: CHEM 404 (1-3), ECON 201 (3), ACCT 200 (3), ENGL 401 (3), POLI (3), or POLI 436 (3).

†All Chemistry courses specified above will be used to calculate the major grade point average which must be an adjusted or degree 2.0.

PHYSICS

The notion that all matter from subatomic particles to galactic clusters obeys a small set of principles that can be modeled mathematically is the fundamental premise of physics. The degree program in physics offers comprehensive training in all four major fields of physics: mechanics, electricity and magnetism, thermodynamics, and quantum mechanics. When combined with the numerous opportunities for undergraduate research in physics, the degree program produces students who are well prepared for a career in industry or for graduate study in physics or engineering.

A major in Physics in the College of Arts and Sciences will be given upon satisfactory completion of 45 semester hours of Physics.

A minor in physics will be granted upon satisfactory completion of 20 semester hours in physics at the 200 level or above, eight hours of which must be Physics 221-223 and Physics 222-224.

CURRICULUM IN PHYSICS LEADING TO THE BACHELOR OF SCIENCE DEGREE

Total Semester Hours		121-122 hrs	

Orientation 101 is not required of transfer or readmitted Southeastern students with 30 hours or more.

¹Math 165 and Math 162 may be used as electives for those students who must take them before entering Math 200.

²Must be selected from Economics, Geography, Anthropology, Political Science, Psychology, or Sociology.

³Must be selected from the same language.

⁴Must be selected from Visual Arts, Music, Theater, or Dance.

†All courses labeled with this symbol will be used to calculate the major grade point average which must be an adjusted or degree 2.0 average.

*Extended Option: Secondary Education Certification: See College of Education section, this catalog.

HONORS DIPLOMA IN PHYSICS

For the Honors Diploma in Physics, majors must complete the following requirements:

English 121H	3 hours
English 122H	3 hours
History 101H	3 hours
History 102H	3 hours
Honors 300	1 hour
Foreign Language ¹	12 hours
English 291H, English 292H, History 201H, History 202H, GBIO 151H ²	3 hours
Physics 301, 312, 321, 331, 351, 401, 402, 421, 422 ²	9 hours
Physics Laboratory 303, 314, 425 ³	3 hours
Physics 411	1 hour
Total	41 hours

¹ Must be from the same language-6 of these hours will be used from free electives

² Any of these courses can be substituted for similar major requirements with the approval of the Department Head

³ Any one of these courses must be completed as an H-option
