W Numbers and Logins for Dual Enrollment
June 19, 2019

The Dual Enrollment Program uses several different usernames and logins. Below is the information that both you and your students will need to log into different systems. Facilitators may obtain their information from their instructor of record, DE Coordinators may obtain their information from Dr. Temple and students may obtain their information from their high school facilitator (Student w numbers and webmail usernames are on the roster in the DE registration system).

**W Number:**
This is a unique identifier that all dual enrollment facilitators, coordinators and students receive. The w number is used to log into MoodleDE, is the username when resetting your password and the username for logging into Leonet (students only).

**PeopleSoft ID (Facilitators and Coordinators Only):**
This is a unique login that is usually comprised of your first initial and last name. You can get this ID for your instructor of record. Facilitators and DE Coordinators use this as the username for logging into Leonet to access the dual enrollment registration system. Please note that if you log into Leonet with you w number, you will not be able to get into the dual enrollment registration system.

**Webmail Username:**
Beginning in summer 2019, students, faculty and staff will have to use a new username to log into webmail. This username is many time first name.last name@selu.edu but may vary depending on your name in our system.
