Your W number, or your University ID number, is your Southeastern identification number, and all of your Southeastern records are attached to it in our records system. It is a 7-digit number, usually beginning with a zero, and preceded by the letter W.

You should have received your W number from your high school. If you did not, or if you have misplaced it, you can obtain your W number by following these steps:

1. Go to the Southeastern website, [www.southeastern.edu](http://www.southeastern.edu).

2. Click on the “My Den” link at the top right-hand side of the page.

3. On the next page, you will see eight white buttons across the middle of the page. Below those buttons, click on the link that says, “First time user?”

4. On the next page, fill in the requested information and click the “Find my account” button. A gray panel will appear with your W number.
