

Alan Rovira is a Certified Industrial Hygienist at the Shell Norco Manufacturing Complex in Norco, LA. As the industrial hygienist for Shell, he provides comprehensive services (evaluation, control and risk management) to over 1200 employees located at three locations in Norco and St. Rose, LA.

Alan received his Bachelor of Science degree in Biology from Southeastern Louisiana University, his Master of Science degree in Environmental Science from McNeese State University and his Master of Public Health degree from Tulane University.

Alan's occupational accomplishments are as diverse as his academic career. Twenty years post-graduation, Alan has worked as a teacher, on research grants, in the pulp and paper industry, chemical industry, petrochemical industry and proudly as a NASA contractor building the external tank for the Space Shuttle program. During these years he worked in occupational health, emergency response, industrial safety, environmental compliance and remediation. Each degree and work assignment has given Alan that piece of the puzzle that is required to make a well-rounded Occupational Safety, Health and Environment professional.

In addition to his education and work studies, Alan has been heavily involved in the American Industrial Hygiene Association and its local Deep South Section Chapter. Alan was selected as an AIHA Future Leader, has been elected as the Student Chapter Advisor and has served as the local chapter president, secretary and is currently serving his third term as the treasurer.
