

My name is Eric John Miller and I'm an O.S.H&E Fall 2012 Alumni from Southeastern Louisiana University. I started with ST. Tammany Parish Government's Office on February 16, 2016. Hence, the Office of Risk Management is under the direction of the Legal Department for Safety and Health towards employees of ST. Tammany Parish Government. My job title is, Loss Control Specialist, and my duties are to evaluate and assess risks throughout all job functions and projects that involve St. Tammany Parish Government Employees. I also conduct compliance training with different pieces of equipment along with Driver's Training, First-Aid and CPR Training, Report and Investigation Training along with tool-box talks and safety meetings. However, I do participate in Workmen's Compensation Claims and review for proactive solutions to prevent further injuries from happening. On a personal note, I enjoy going out on the weekends and riding motorcycles, going to airshows and car shows. I love going hunting, fishing, hiking and more recently playing racquetball.
