

Lance S. Roux, CSP

Lance is President of SafetyPro Resources in headquartered in Baton Rouge, LA. Lance is a Certified Safety Professional (CSP) designation awarded by the Board of Certified Safety Professionals.

Lance received his Associate of Applied Science degree in Occupational Safety & Health Management from Southeastern Louisiana University in Hammond Louisiana and has continued his education through the Bachelor of Science degree program at Columbia Southern University.

Lance's background includes project safety management, compliance auditing, and program development for an array of industrial markets including: oil & gas (upstream and downstream), chemical processing, refineries, power (nuclear, hydro, and fossil fuel), and shipyards.

Lance currently serves as President of the Greater Baton Rouge Chapter American Society of Safety Engineers. Lance has received recognition as "Who's Who" in the safety profession by Occupational Safety and Health Magazine. Lance also serves on safety boards with the Greater Baton Rouge Industry Alliance (GBRIA), as well as, the Associated Builders and Contractors (ABC), Pelican Chapter.

The SafetyPro Resources team consists of highly innovative and talented safety professionals who provide safety consulting, employee training, project staffing, and contractor safety management systems. Primary markets served include construction, manufacturing, insurance, chemical, and oil & gas pipelines.
