

Current Student Survey 2010-2011

August 2011

**Southeastern Louisiana University
Office of Institutional Research & Assessment**

A total of 2,500 surveys were sent electronically via SurveyMonkey to a randomly selected sample of students who were enrolled at Southeastern in the Fall of 2010. Of the 2,500 surveys distributed, 32 were returned as non-deliverable. Of the 2,468 remaining surveys, 751 were completed for a response rate of 30%.

Student Activities and Student Life

This question asked respondents how often during the current academic year, they had attended a variety of campus events and activities. Overall, respondents were most likely to have attended Events sponsored by offices on campus (42%) and least likely to have attended spiritual/religious activities (20% each).

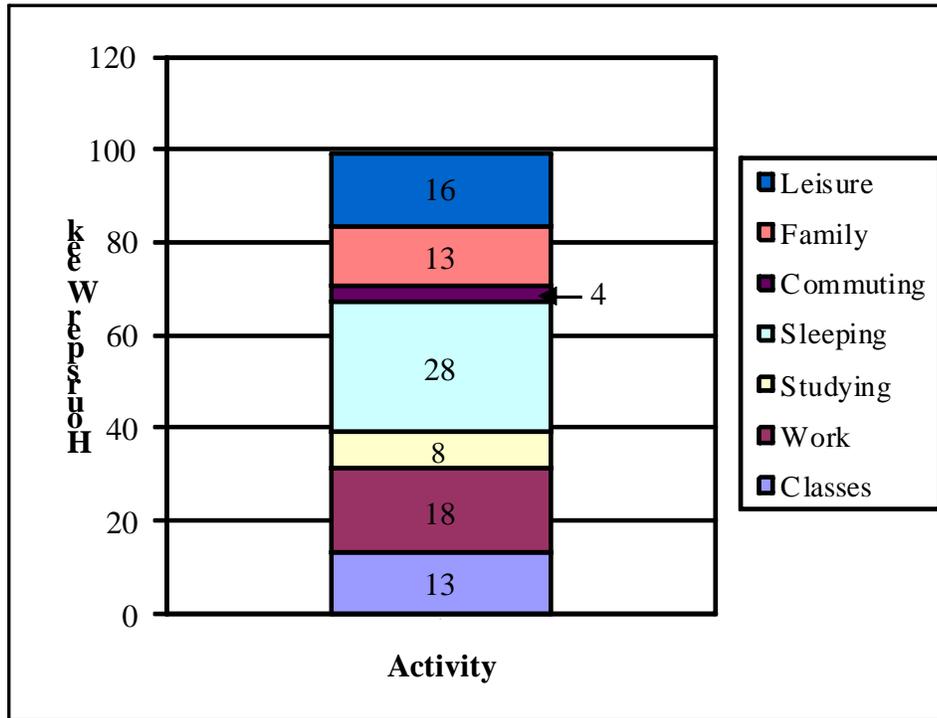

Please indicate how often, during the current academic year, you have attended the following campus events or activities						
	Never		Occasionally		Frequently	
	%	N	%	N	%	N
Athletic Events	61.9%	359	26.7%	155	11.4%	66
Spiritual/Religious activities	80.1%	462	14.6%	84	5.4%	31
Films that were not required for a class	78.2%	455	17.5%	102	4.3%	25
Events sponsored by student organizations	54.0%	314	34.8%	202	11.2%	65
Lectures that were not required for a class	62.2%	361	31.2%	181	6.6%	38
Plays that were not required for a class	66.6%	387	27.5%	160	5.9%	34
Concerts that were not required for a class	74.1%	430	21.2%	123	4.7%	27
Art Shows that were not required for a class	78.8%	458	16.7%	97	4.5%	26
Cultural, ethnic, or international events	76.6%	445	20.5%	119	2.9%	17
Events sponsored by offices on campus	58.0%	335	34.3%	198	7.8%	45
Intramural Sports	75.5%	438	13.8%	80	10.7%	62
Fitness Classes	70.9%	411	20.3%	118	8.8%	51

Respondents were asked to rank when the times they are most likely to attend a campus event that is not required by a class. Overall, respondents are most likely to attend an event on the weekends, followed by middle of the day, late afternoon, and finally, evening.

Please rank the times below from when you are most likely to attend a campus event that is not required by a class, to when you are least likely								
	1 - Most Likely		2		3		4 - Least Likely	
	%	N	%	N	%	N	%	N
Middle of the Day (11:00-2:00)	18.4%	138	16.4%	123	7.7%	58	19.4%	146
Late Afternoon (2:00-5:00)	4.0%	30	15.4%	116	31.7%	238	12.6%	95
Evening (6:00-10:00)	6.4%	48	18.4%	138	13.4%	101	26.5%	199
Weekends	42.6%	320	9.1%	68	7.9%	59	10.9%	82

Students were then asked to indicate how much time they spend in various activities during the week. Most students spend the most time (over 31 hours a week) either sleeping or caring for and interacting with their families. Figure 3 illustrates a “typical student week”.

Figure 3
“Typical Student Week”

Leisure activities include socializing with friends, watching TV, exercising/sports, recreational computer use, and cellphone/texting.

During a typical week, how much time do you spend on the following activities?										
	None		1 hr		1 - 2 hr		3 - 4 hrs		5 - 10 hrs	
	%	N	%	N	%	N	%	N	%	N
Class/Labs	3.0%	17	0.9%	5	2.5%	14	11.3%	64	20.2%	114

When asked if they have been a member of a student organization at Southeastern, the majority of the students (51.9%, n=390) indicated they have not been a member, while only a quarter (25.8%, n=194) have been. They were then asked how participation contributed to their Southeastern experience. The responses are below.

- Participation has heightened my experience at Southeastern. I love Southeastern!! I love the one on one attention and classes too.
- It has allowed me to work with others in the same field and gain experience and knowledge about the field of communication sciences and disorders.
- Being a member of Phi Mu Fraternity was a great experience that helped me stay on track with school work and kept me motivated to do well in my school career as well as making me feel good about myself overall.
- It has been a lot of work.
- It was one of the best experiences in my life. My involvement made me more connected to the university.
- Gave insight to real life situations and career opportunities
- more involved
- Increase knowledg
- It has helped me find, I guess, my "place" at Southeastern a little better. Im more involved and more focused on my education and accomplishing my goals.
- good
- Enhanced the experience and created new friendships and social networks.
- It was fun and made me feel like a part of something on campus.
- It helps me feel involved and a part of campus.
- made more friends, more comfortable, more confidence
- No
- It has kind of made me less afraid of people, but not by much..I've learned how to keep to myself most of the time.
- It has gotten me more involved in and around campus. It has also allowed me to become more familiar with my school and to be more aware of the activities taking place on campus.
- The group has organization problems regarding hours, and it is very frustrating.
- made it fun
- As a member Of the social work club i was able to network with other agencies and learn valuable information.
- It has made the college experience great!
- has made it an incredible experience throughout my college career
- Social Networking
- It has enriched my college experience.
- Made friends
- It has made me a better person, student and leader. It has made my love Southeastern so much and it will be hard to let go of these 4 great years when I graduate.
- It has made my experience much more enjoyable, while allowing me to make many new friends and gain leadership/social skills.

- I've met many new people, and found a way to keep myself a little more busy.
- Without student organizations, I would not be studying here. My work with the Department of Student Publications was priceless. I learned plenty and spent more time on campus doing things I normally would not have . My work in the English Department with the student journal, Gambit has added to my experience (and career) tenfold.
- good
- It has involved me more on campus. I have met and befriended more people.
- It has allowed me to meet a lot of great people and has helped me with my communication skills.
- It has real face on how much i can make a difference with the degree i've chosen
- Participating on the Student Council for the Exceptional Child and Kappa Delta Pi has allowed me to grow personally as well as professionally.
- great experience and looks good on a resume
- I am in Alpha Sigma Tau and it has made me much more SLU spirited. It has gotten me more opportunities than I would have had without joining.
- Greatly. being a member of the brazilian jiu jitsu club made me feel more welcomed on campus.
- It has helped me to know more about the Southeastern history and family. It also gave me the chance to know more peers become involved.
- It has also made my leadership skills grow.
- It taught me that people will take your ideas and claim them as their own. Basically, never trust anyone.
- It has enhanced my SELU experience.
- It has helped me continue to grow an strengthen my faith in GOD as well as help others.
- Helped me to meet new people and develop friendships
- it has been a great experience.
- It has made the transition from high school to college a much smoother one.
- Opened a network of opportunities
- yes
- it hasn't
- SNA has given me the opportunity to help others and make bonds with fellow nursing students. The career services speaker was helpful in giving tips for interviews as well.
- It takes away time that could be better used working for actual money.
- positively
- More involved and knowledgable about the college
- Tremendously
- It has allowed me to meet new people and make new friends.
- Its been great
- It has made my experience really great.
- made me more focused to come to class so I could stay on that organization. it's the force that drives me to do better in college and gives me more confidence in both myself and SELU.
- No
- It has allowed me to make new friends, and it has helped me become more open-minded.

- It has made a positive experience, overall I am very happy at SELU.
- Showed me how many organizations I don't use.
- good experience.made friends.
- It has contributed to my professional experience more than my SLU experience.
- It's great to be involved, I've met a lot of people that have helped me out with academics.
- It has made me meet new people.
- These student organizations helped me to meet new people, get involved on Campus, and discover more of what Southeastern has to offer.
- My experience in my sorority has made my experience at Southeastern very enjoyable. I've learned many thing that i couldn't have learned in the classroom. I also feel, despite nursing school my junior year, that i was able to be very involved with on campus activities and activities within my organization. Thanks SLU!
- I quit every organization I was involved in because I felt the people involved were rude
- Not very much.
- SNA has been beneficial in connecting the student nurses to the community
- I enjoy being a member of psi chi because it gives me the opportunity to pursue additional interests in my field beyond direct courses of study and network with students with similar interests.
- It has made me a stronger student
- It has helped keep me involved in activities as well as make some friends.
- Being on the Lionettes has really gotten me involved with the school like participating at many events held on campus and attending many sports games. It has also helped me make many new friends.
- Met a lot of people, get invited to many activities, I played flag football, go to many sports events
- great
- It has helped me to feel more comfortable on campus and has had a huge impact on my pride for SELU.
- It helped my experience on campus to be better, and helped me meet more people with similar interest.
- It has enhanced by introducingme to people of different backgrounds, upbringings and experiences. It has also taught me time management, conflict resolution, and people management. This things have spilled over into my professional and graduate studies career.
- It has enriched my experience of Southeastern.
- Yes, I think so.
- It has encouraged me to work harder in my school work so that I can continue to attend functions.
- Has helped me make tons of everlasting friends and made me more open to interacting with others.
- I was in B.U.G.S which is the Biology undergraduate society, when I was in this organization it helped me with my different biological courses.
- It has made it worth wild!
- i love capoeira

- It has not.
- I live almost two hours away from SLU. I work full time, go to school full-time, have a 5yr old child, and still work in the Visual Arts Labs as much as possible. I desperately wish the lab hours were extended on Friday and Saturday. Currently the labs close at 4pm, a few more hours would be greatly appreciated.
- It was a new club and had a slow start, so not very much.
- it helps with my major.
- It has made me see the world in bigger view and I've made some really good friends.
- I think that my comments reflect my experience. I hope some of the comments will be taken to heart. It is difficult to attend middle of day or afternoon lectures that I would want to attend because of my work schedule
- Allowed me to become involved more in my major and on campus
- It has helped me prepare for my career.
- Good learning tools.
- As a president of a Southeastern organization, it has helped me tremendously. It has taught me how to multitask and prioritize. Also my participation has helped me create many friends and relationships(friends, faculty, students, etc). It has given me lots of confidence in my school work and life.
- It has provided assistance with the class I was having trouble in.
- It really hasn't since I commute and the organization does a lot of things around Hammond...
- It has helped me with the transition from high school to college.
- Being a part of organizations has been a huge part of my college career. I love planning events and discussing things that interest me with other people that I have grown close to, along with having awesome relationships with a few professors that will have a life-long effect on me. I'd have to say that being a part of an organization can make the difference between a great and a horrible college experience.
- I was a member of KDP serving as president; it honed my leadership capabilities.
- it has contributed greatly to my experience because I found it help to meet so many new friends and to have a more social experience here
- good
- It has made it more full.
- Great.
- I have been an active member of my sorority for four years. My membership and leadership roles have played a major part in my enjoyment of my college experience. Through my sorority I have become active in other organizations in well which has led to challenging me academically and personally. Being a member of several organizations has helped me decide what kind of job I want when I graduate and what kind of leadership roles I would be interested in.
- It was a good networking experience for me as I was able to meet other individuals who wanted to make a difference like I wanted to.
- My participation has brought me closer to Southeastern, as I have gotten more involved in campus events and made friends with many students from different colleges.
- I have been involved with many events on campus through joining my sorority phi mu.

- Quite well.
- I have loved every single minute of being involved in an organization here at SLU. It has made my experiences here worth it. I have made life long friends and memories. I love being at Southeastern!
- I have met so many people. I learn so many new things and it kind of educational.
- It makes me feel like I'm a part of the campus life... and I believe that it makes me more likely to achieve my goals in a college setting.
- Participating in organizations has really made my Southeastern experience enjoyable and memorable.
- It has helped me to meet people in the workforce and to bond with other students who are in the same major as me and have the same interest.
- I made new friends.
- Honors Club
- That participation has made my experience at Southeastern a million times better.
- it has made me feel more apart of the southeastern family, and has helped me get involved and meet some new people
- I just recently joined the social work club. It has really brough the experience of having social work as my major home even though I am not set to graduate soon. Normally I recieve an email that provides information about events we may sponsor or things that may be going on around school.
- The ACM has been an intergral role in learning about all the things our computer science program doesn't offer but is required in our classes. The CS student organizational server has played a fundamental role in my understanding of *nix base operating systems which by in large are not taught at the university.
- Not very much at all, the organizations were pretty much there only so people can put it on their resume, things were done out of obligation and not true motivation.
- The experience has giving me the opportunity to meet new people.
- Its been good, but sometimes pulls me away from my studies.
- I think that my participation in the organizations has really aided in my enjoyment of SELU. It has helped me with making friends and finding my place here at the school.
- Joining an organization has improved my overall Southeastern experience tenfold. I have met so many people who I never would have met otherwise. I've gotten more involved with campus activites, and I've really grown into a better person. Joining a campus organization has made my time st SLU a true college experience. It has improved my life in so many ways!
- nothing good. teaches how to betray friends and be jealous about something and gossip. Especially girl's organization
- By being involved in organizations, it has allowed me to be more active on the campus. I was an orientation leader and I am involved in a lot of volunteer work with my sorority.
- it has made college more pleasant
- it was difficult to do that organization and actually there were so many things I wish I could have done while at slu, but because i am a commuter and have been driving five days a week the past 3 semesters, I dont get to participate in hardly anything. even concerts or performances or art shows-im really big into the arts. i wish there would

have been more events in the morning to lunch time so I could catch stuff between classes.

- Meeting new people.
- its good to meet people
- I'm freshman, and joining an indoor soccer team has helped my social life very much
- The student organization related to my major has been somewhat helpful in my Southeastern experience, but it could easily have been more helpful with some more help from faculty.
- I have made several friends and more open to new experiences on Southeastern's campus now.
- Good

This section asked students to indicate their level of agreement with each of the statements about their experiences at Southeastern. The item rated the lowest overall was “Being involved in a student organization has been a factor in my staying enrolled at Southeastern” (mean=2.28) followed by “I know where to find the campus crime statistics” (mean=2.88). The highest rated item was “I have experienced intellectual growth at Southeastern” (mean=4.14), followed by “I am proud of the quality of education that I am receiving at Southeastern” (mean=4.10).

On a scale from 1 to 5, where 1 means Strongly Disagree and 5 means Strongly Agree, please indicate your level of agreement with each of the following statements											
	1- Strongly Disagree		2		3		4		5 - Strongly Agree		Mean

What is the one thing you would like to change about Southeastern?

Respondents were asked to name one thing they would like to change about Southeastern. A total of 240 respondents made a comment. The most common change was regarding parking (23.8%, 57 respondents), including dissatisfaction with the amount of student parking available, the amount tickets are written for, and parking in general. The next most common change dealt with course offerings (8.3%, 20 respondents), including the lack of upper level course offerings, the desire for more internet courses and on-line courses, and the availability of certain courses. Below are other themes, in order of endorsement:

1. Program cuts/budget cuts (8.3%, 20)
2. Student involvement/pride (4.2%, 10)
3. Use of fees (3.3%, 8)

All of the comments are presented below. These are verbatim statements from the students, the only editing was to remove obscene language, spelling and grammar is as the student wrote.

- Stop cutting classes and hours of availability. I have only certain times I can take classes as I work 40 hours a week and when classes are cut it makes it more difficult for me to take the classes I need.
- better parking
- Greater availability of physics labs and lectures.
- more botany classes offered
- More Parking
- lack of parking
- The computer labs
- more parking and internet classes
- Registration Process to be ran smoothly and that it was ran with more clarity from the workers in that department.
- Having more competent full-time employees and eliminate the waste. There are multiple departments around campus that have rude secretaries and poor customer service. To my knowledge, it is hard to remove these workers due to civil service laws. The school needs to find ways to hire and keep the competent and friendly workers and eliminate the others.
- That more students showed pride for SLU rather than LSU
- the parking
- More parking. I wish Southeastern had a competitive football team like LSU
- - reduce unnecessary expenditures and improve student academic quality
- The parking is awful. I wouldn't even mind the walk from North Campus in the summer if I had shade in the parking lot.
- dont know where to start..
- math classes being on the computer.

- When I've gone to different offices for different reasons they treat you like a number not a person, I would also change the parking problems, freshman parking is such a long walk, I have to park there even though I had 69 hours to transfer. I think parking should go by GPA, the lowest GPA gets the worst parking,
- The only thing I would change is a few teachers I have had over my SLU experience that I feel could care less about teaching. Over all I have had wonderful teachers who have helped me learn more then I could of ever learned at any other university!
- I would like to see more use of hands on computer use in the college of business in class as we will be required to do in the real world after graduation. For example, use of Excel in Accounting, Finance and Economics and use of internet to look up stocks and financing data.
- Financial Aid probation letters are the biggest slap in the face. I graduated with a BS Dec 2009,...and now am taking a grad course and am still considered,..."not making academic progress"....give me a break! I dropped one course because I was overloaded working full time so I don't need financial aid.,,,,It made,...and still makes no sense,...but I'm still getting those letters.
- Keep in mind what is best for the student. If the student isn't being successful, advisors should offer alternatives and try to help the student be successful or find something else to do.
- Zachary Taylor needs alot of improvement.
- I wish the dotted stripes in the roads were yellow instead of white. Yellow indicates 2-way traffic. The white lines are very confusing because there is 2-way traffic on the roads. I have not seen any place like this before and everytime I go to campus, which is not often, it is confusing to drive there.
- The quality of instructors in math for education majors.
- More one-on-one time with faculty.
- There is really nothing that I would like to change about Southeastern.
- The parking
- as a non-traditional student(age 35) i feel excludede from a lot of on-campus activities and even have a harder time making friends with classmates because I don't believe they relate to me except for maybe in the way they relate to their mom.
- Fewer budget cuts, more sections available for higher level courses
- The emergency poles are out a lot.
- The location. It is too far from Baton Rouge. I hate the drive!
- Parking
- Better communication between the faculty and students in their class.
- Commuter parking, we need more parking spaces
- Parking and some of the buildings need to be updated.... bigger sports complexes
- That you would have a Dietetics program that I can graduate from so I can stay at this school.
- More spaces for Residential Life to park.
- Campus is boring.
- There is nothing I would like to change, as this is my first semester at SLU as part of the Graduate Program.

- parking situations
- Try to have smaller classes so students can receive individual attention when needed.
- The parking
- I would like the people who work in the administrative offices to be more polite, caring, and knowledgeable.
- PARKING
- Computer labs just for people that want to do nothing but get on facebook in between classes and then have others for those who actually go to the lab to do homework. Because the people who need the lab for homework have to wait a long time before they get them.
- Streamline the communication between all parts of campus (ex: financial aid, enrollment, various educationa deperatments, etc etc etc). I feel there is a lot of miscommunication. I also think they should hold monthly meetings that students can attend to openly discuss issues and concerns as well as be informed of whats going on with budgets, programs, and future SLU plans (like a 'town hall meeting').
- Landscaping
- Find a way to decrease parking fees.
- More graduate courses offered during the day rather than at night.
- It's internal politics, but could that ever be changed? never has been before.
- The food services both Cayman Cafe and Student Union stay open on the weekends. The reason I'm suggesting this is because of the students that stay on campus over the weekend they have to pay with money out of their pockets for fast food restaurants. Some students might not have the personal finances to spend money on fast food so since everyone that lives on campus require to have meal plan then they will be guarantee to have food for the weekend.
- Offer classes that are required for most majors more than once a semester. I have to take an extra year because of this. Thanks a lot.
- More class availability. Also, while most professors are great, there are a few who definitely need to go. I think it should be a requirement for all professors to have had some sort of education courses.
- MORE STUDENT PARKING!!!!
- Our president has no idea how valuable the French program is to our university. He couldn't even answer the board when they asked him if we offered a minor. We need to keep French alive and he's not helping the cause. Also, the administration doesn't show that they care for us students. Many people in certain offices like financial aid and the SGA will not go out of their way and do whatever they can to help students. It needs to change.
- Parking.
- There needs to be another math lab that you can go to in order to get the hours needed for that week.
- DON'T DROP THE FRENCH DEPARTMENT!

- I would like to change the attitude around here. How people just leave on the weekends and not support our sports teams is behind comprehension to me. I would love for everyone to show a little pride on our campus. When there is trash on the ground, pick it up. That is just one of the things that I would like to change about Southeastern.
- Better parking for residential life!
- Make the MAT program longer so there is adequate time to complete assignments and get at least 7 hours sleep every night.
- The amount of hours the Math department requires there Math 92 and Math 155 students to spend in the Math lab a week. We do hve other classes to focus on as well!!
- The cleanliness of the bathrooms; they are disgusting.
- A little more convenient parking and more time spent in Math classes.
- More weekend activities
- Give the psychology department a better building so that it does not look so run down next to the new biology building.
- Offer study abroad opportunities to graduate students, but only through credits that can be applied to their degree.
- Can't think of anything right now
- More online classes - might help save money
- have more parking
- On the allocated printing allowance. It would be nice to realize that credit back when I print from my home computer. I am not able to make it to the computer labs. If I am on blackboard and have to print then I should realize that credit even if I am printing from home. It shouldn't matter if I can make it to the lab- the balckboard should be able to update the balance in the event I were to print from a lab.
- the parking!!!
- Well the New Class schedules for this upcoming semester is something i might in the future would like to change. I dont really know how this is gonna work out, but we shall see.
- More convenient residential parking, and that's bad for me to say because I don't even drive.
- Have more student participation in activities.
- Budget Cuts
- PARKING.
- The nursing school's organization (especially with faculty orientation).
- maintenance for the dorms should FULLY resolve any problems brought to them concerning housing.
- The smoking right outside the building doors.
- I would like Southeastern to expand and continue for its population to grow. I think it is important that Southeastern improves its reputation among other universities as a good choice for incoming freshmen. Previously, and currently, SLU has been known as a commuter school. I would like to see the university grow past that and for people to want to stay here on the weekends because there is so much fun stuff going on!

- Students should be allowed to back into parking spots. It is safer for them to pull out of a spot facing oncoming cars than having to rely on mirrors to see around blind spots while backing out of a spot.
- Parking
- There to be more of an effort to let students know of fun activities going on around campus.
- SLU has some issues with teachers being too relaxed to their students. They are too afraid people who deserve to be failed, so they don't teach the class at a level that it needs to be taught at to keep our students competitive. This hasn't occurred to me in 300+ classes, but in the freshman level courses, it occurred multiple times. I don't believe it's SLU's fault, just the shortcomings of the American university system. Other countries put their students through four years of major classes, we only put ours through two. I understand the campus wants to be diverse and what not, but let's be serious, I don't care at all about an American literature class when I have biochemistry and more important classes to study for.
- Better quality in administration, financial aid, and records.
- There would be A LOT more class options!
- I'm 27, I've gone through college before. My time here was limited to commuting and graduate studies. I would change either the availability of courses for night school or the flexibility of the program when considering elective substitutes.
- How we get students to learn about Southeastern - I feel that we need students to go out to high schools and promote SELU
- HAVE MORE PEOPLE WORK IN THE BURSAR OFFICE!!
- parking
- More School Spirit, more encouragement for commuters to get involved.
- Parking
- the pricey food
- Faculty and staff that actually care about students such as Dr Barbara Allen who retired in June. She was the only person on campus who I felt was concerned with my education and who was willing to help with any problems that I went to her with. Also, more parking for students would be ideal.
- not have as many faculty that have strong accent.
- Some faculty, it should be emphasized that an atmosphere of respect and equality should be maintained in the classroom.
- No online classes
- I would like to change the work load in the MAT program. It is unrealistic.
- Get the religious zealots off campus, it is a shame and a complete embarrassment to the school to allow a group to tell its students that they are "Going to Hell" for believing in "False Gods." It is the number one reason, I do not recommend SLU to my non-Christian friends, just because the school is in a small southern town doesn't mean it has to allow the ignorants, and bigotry of the surrounding area to be made an issue on campus.
- The math lab and computers
- Less cutbacks

- The food available.
- If I could somehow put this university in New Orleans, and be able to live in there and not have to commute every day from prairieville, but still live where I want to actually live, because most of my peers honestly are some of the most shallow individuals I have yet to come across. I know it's not feasible by any means but hey, you asked. I also would like to change the whole traffic violation for an, "improper display of a parking tag.' This caused me more stress and anxiety at the times when I was in no mood to handle such a thing, also I would like to not be judged by my appearance by almost all faculty and staff, and campus police. Well I guess some things never change.
- The availability of certain classes leads to semesters where I must attend school three or four days a week. This makes it very hard to find the time to work for pay. I understand that if there aren't enough students you can't have extra sections of a class but it may be possible to arrange them better so that one doesn't have to go to school four days a week. It may already be as good as it gets but maybe not.
- The allocation of fees. Southeastern is an institute of higher learning. Even with the recent budget cuts, academics should be prioritized over athletics, greks, student organizations, and aesthetics. Education should be prioritized first, especially in a state where so many people are so poorly educated.
- I would like to have more teachers who care about the success of their students more than what is best for themselves and faculty member who actually want to do the job that they are given
- Nothing much at all; I would like graduate classes to be held at earlier times than 5PM... Other than that everything is going great
- Availability of course selection in some fields of work and more course times.
- The union could be bigger, i would change the landscaping and how the campus is designed
- When I ask questions, I expect prompt answers. If the university can't tell me why something is done or how to do something, who can?
- Parking. Online math classes.
- offices should stay open until 5pm rather than 4 or 4:30
- I would like to see more diversity, if possible, and more work on the buildings rather than the landscape. Some of the buildings really need to be updated as they seem a little depressing to be in all day for classes.
- more trees on campus for shade
- Education Math instructors
- Actual learning and not memorization. Very few people come to improve themselves or gain high order thinking skills. They come here for social benefits or a diploma. I bet most of them would have no idea what parliamentary procedure is-- and that's scary.
- Parking
- The budget!!
- I would only change the parking. No joke.
- I'd like to change what type of teachers are at Southeastern and how they teach.
- There should be organizations for older students who are returning to college.

- I would add an orientation for graduate students, as an entering graduate student who had never attended southeastern before, I had little help from university in finding appropriate parking, registering, and getting acclimated to the university.
- The budget cuts.
- You have almost out-priced me. SLU is close in cost to LSU now - ouch!
- There needs to be severe improvement with the website..coming from lsu..it is not UPDATED enough and needs to be more appealing.
- no math lx or math lab hours!!!
- I what like to see more student involvement in everything that there is to do with Southeastern and athletics.
- Location of nursing school in BR, very inconvenient.
- Parking
- The religious groups allowed to preach on campus. It's pretty aggravating when I'm late to class because I can't get through the student union because these demonstrators are causing such a commotion.
- Improve the parking situation
- Better parking, stop cutting programs.
- I would like even smaller class sizes.
- Some professors are teaching too many courses and they do not have time to commit to the students as they have in the past. Some classes are not available, which have made me have to extend another semester to complete my program
- the library being closed on Saturdays
- PARKING!!!!!!
- There should definitely be more attention to tolerance. What I hear from my fellow students is utterly disgusting.
- I wouldn't change anything
- I'm not really sure. I like just about everything.
- More online courses.
- Parking
- To many budget cuts! I am a nontraditional students who needs small classes! There are less classes offered and fewer teachers to deliver them! The campus is a mess!
- add more degree programs
- I love Southeastern!
- The grievance procedures for the Police Department as stated earlier. Hiring professors who speak fluent English. I am a finance major and I am thinking about transferring for the sole reason that professors are hard to understand, if at all at times.
- The parking
- I would like there to be more online classes, and for there not to be an additional fee for taking online classes.
- No more math tests on computers
- more food choices
- I think students should have an option on whether to take math on the computers or in a traditional paper and pen way. I am not personall in a computer class but I see many of many other students struggle with it.

- More classes at the St. Tammany Center in Mandeville.
- fees
- The way students of different cultural backgrounds interact. AND the whole parking situation.
- more classes offered in the engineering department ie electrical or computer engineering
- The parking.
- Financial Aid.I am very unsatisfied
- how far away it is.
- The French major to be placed back, that was my major.
- They need more student parking and more 24 hour computer labs
- wishful thinking- budget cuts reality thinking- more parking spots.
- Parking, seriously. Have I said parking yet?
- XX at the BRC nursing campus is not exactly a pleasure to be around.
- Parking tags
- no spirit fees going towards cheerleaders stuff. i commute and am on the road all the time. saving a few buck here and there would help a lot. making more organizational meeting during the day would help a great deal and please get rid of econ lab and wiley plus. its a sad excuse for the teacher not having to grade homework and shoves it all off on the students. im here to learn, i didnt sign up for an online class where you teach from the slides!
- More colorful landscaping and a consistent brand... There are 3-4 different Southeastern logos. Choose one. :)
- Notification for the dropping of a class should be made by registration at least three days before classes so students can make another selection to receive their financial aid.
- All the extra fees involved!!!
- BETTER PARKING!!!
- I would like to see its culture move towards valuing true broad understanding and interconnectivity of all bodies of knowledge for the interest of pursuing a better future for all. I don't see much of that university mindset here: that value for true education and enlightenment.
- Better curriculum organization and definition.
- Evaluations of teachers' assessments based on content and validity
- more parking by White hall
- How it is run. The funds are wasted on frivolous aspects that do not better the quality of learning we as students are receiving (which is near abysmal as is). programs are being shut down left and right due to "financial issues" yet our tuition continues to rise. Also would like to comment on the quality of the instructors. Take care of your instructors and focus on hiring quality instructors and you will have a good college. There are currently two professors I have had the pleasure of being in attendance with that I would call great Instructors and mentors. Drs Schroeder (Latin), and Peidersen (calculus). Both professors have proven themselves above and beyond the rest by keeping the students interested in objectives, making sure everyone understands material, and by inspiring the students to want to learn and do better.
- New desks. Larger ones that fit full grown men or tables and chairs.

- nothing, it's progressing day by day.
- more pride and spirit
- I would change the rules about Parking. They're way to strict.
- I would like the majority of things to be open later (i.e. 7pm & 8pm ae not late for college students....11-1am is).
- I had a hard time getting admitted into the Teacher Certification Programs. The staff in admission did not know where to direct me for help. Make it easier for someone like me to be directed to the right person.
- tuition cost
- Our Baton Rouge facility could use a face lift
- My major requires a lot of clinic work. I feel I have learned way more from my clinical supervisors than any of my teachers. My teachers have been removed from the field for so long that they do not have knowledge of how things are done now.
- I would change how records are kept. Shouldn't a university have computer systems that are shared, I have had to provide the same information to several different departments. It is NOT just me, I am in graduate classes with 3 friends, ALL of us have been completely aggravated with the records system.
- having to get advised every semester. It is inconvenient. I think a student should be required to be advised only once per academic year and have the option to be advised otherwise if they choose or feel the need. I already know all the classes I need to take and when I need to take them and it is not convenient for me to meet with my advisor every semester as her office hours conflict with my class times. I transferred from UNO and there was advising only once per academic year and I feel that this allows for a smoother registration process.
- bookstore/textbook rental hours
- Budget cuts.
- Gravel parking lots are horrible, and wireless Internet should leak all the way to Ponchatoula. Some trees in the quad would be nice. I would rather have no asbestos in the buildings, 300 year-old tables, a better football field, 20 million dollars for famous faculty, etc., etc.
- I would like to not have to worry about the Art-Ed program being cut.
- Student's(including mine) indifference towards the university
- If it were possible, I would like to change the math program to be less computerized. I have always struggled with math, and having the homework and quizzes on the computer are beneficial, but having the tests located solely on the computer puts students at a disadvantage.
- Parking and more computer labs open 24 hours
- Southeastern needs to put the fees they charge when we pay tuition into better use or eliminate some altogether. Cheerleading fees? Yearbook fees? Opera, band? I never use these and have never and wouldnt pay for them otherwise. They are not necessary in my college experience and the money would have been better spent on books not rentable at the book store.
- EVERY GA only working their 20 hrs then going home.

- Would like to feel encouraged to do face-to-face advising instead of strongly discouraged.
- More class sections, despite the budget cuts, to keep students on track for graduation without having to wait for a particular required course because it filled up too quickly.
- Southeastern has lost its personal touch. Too many computer classes and not enough face to face in the education department. SLU is graduating more students but they are of a lesser quality.
- Because I don't live on campus, I've missed a lot of events. Maybe if we could have events that are usually on Friday or Saturday be on Tuesday or Thursday, I could make it.
- Parking. I also would address how much power the respective departments heads have, as my wife was blackballed in the social work department by Dr. Kelly, and it was so obvious that we actually advised a close friend of the family, interested in the social work field, to go to another school. She is ruining that department and needs to be demoted.
- Use apple products instead of Dell
- The food in the cafeteria. The internet problems in the dorms. The power outages in the dorms.
- Bring back the French degree program, or at least offer classes in the language, if not a degree. We ARE located in Louisiana.
- Get rid of the parking violation of parking backwards. That is such an utter scam. There is no logic in writing a ticket for a car that's parked backwards. The campus police should be completely ashamed of themselves.
- Financial Aid department
- I should not have to pay cheerleading fees in tuition. I know it is only a dollar but they need to have their own fundraisers. Extracurricular activities should not be funded through tuition fees. The organizations/clubs need to provide their own funding and tuition should just go towards school stuff buildings, teaching, etc. Also we do not spend all of our printing money it should be rolled over or given back or we should have the opportunity to put it towards tuition for the next year.
- Putting fees for good use besides lights and trees. put it towards technology or extending the union hours to be open on weekends and more parking.
- Availability of classes and choice of instructors for certain classes.
- Cheaper food in the union.
- How SGA spends funding.
- Focusing on the things that Southeastern is good about, instead of constantly trying to diversify.
- Some of the teachers are not very helpful and I walk away not getting what I could out of the class
- Early registration should be based on GPA not random. It makes a huge difference if you have a later time/day. Classes close up fast.
- Parking
- More parking closer to the dorms for students who live on campus.
- More parking for commuter students.
- more online and evening classes for those who work
- Stop cutting good teachers.

- Stop cutting so many classes out, it isn't feasible to have to wait an extra year or more to graduate because the classes you need aren't offered or if they fill up so quickly that you can't get in.
- parking
- Raise the bar for acceptance. ACT scores, etc.
- EVERYTHING. THIS SCHOOL IS ABSOLUTELY HORRENDOUS.
- parking
- White Hall should be improved.
- more classes
- ALL THE BUDGET CUTS
- It doesn't matter what I write here because whatever I want to change isn't a big issue, therefore it won't change. I am one person, and this is my opinion. It's a survey, not a revolution. I do wish we had more languages though.
- Financial aid
- the parking and the financial aid procedures
- More diverse MBA course offerings.
- A commitment to education over evaluation.
- I enjoy everything about southeastern.
- I wish they would have teachers who were more excited about teaching. some seem like they could care less about the student and how they are enrolled in other classes besides theirs.
- Good school over all nothing really to be altered
- The use of the technology fee. (Blackboard is terrible. Internet connection on campus is terrible. The computer labs are diabolical.)
- More information on student organizations and volunteer opportunities
- more parking and better it building and computers
- Please hire a more hospitable cafeteria staff.
- I would like to change the fact that the University seems to, very obviously, place more importance on certain areas of study and disregard others. I would like for the University to equally support ALL subjects and make greater effort to see that all departments are equally supported by the University in their individual endeavors (no matter what).

Comments

The last page of the survey was reserved for respondents to make any other comments they wished to share. All of the comments are presented below. The comments are provided verbatim, no editing was done.

- I love learning, and thoroughly enjoy classes that are challenging, but only when the professor or instructor knows how to teach. I have had some truly gifted teachers here, but I have also had teachers whose priorities seemed to lie elsewhere. I'm a senior with a 3.9 GPA, yet the hardest courses I've encountered here are the visual art courses. The art department staff is known for providing a comfortable, encouraging atmosphere. Most universities art departments exhibit the opposite. I'd like to see a graduate degree program offered in the

visual arts. It probably does not seem to be much of a priority to the administration of Southeastern. I know many students that would jump at the chance of pursuing their graduate degree (in visual arts) here as opposed to LSU, Tulane, or at a university out of state; LSU and Tulane are known for having much less personable art departments.

- I have enjoyed how nice and friendly the staff are at Southeastern. My advisor has helped so much and she is great, Christine Ogilvie. The campus is nice but after such a long commute I would like to park somewhat close to my classes.
- I had swine flu and Bilatera Penumonia this year and had to resign for the semester. I would like for to be easier for people who are resigning for medical reasons to get some money back and to not jump through so many hoops to resign. I would be very interested in university insurance.
- Southeastern is great school with unbounded potential. I think we are inhibited by the negative stigma others put on this university. I chose to come here because it is tops in Education. I want to be a teacher. I didn't come here because it was the cheapest, I was academically behind, or I couldn't get in anywhere else. I and other people chose to come here because it is a quality school and I think sooner or later we have to live up to it and stop trying to model ourselves after a LSU. We have our own identity and SLU is a great place. Quality education in the classroom is the key, let the slackers fall behind and the stigma will lift. This has the potential to be an academic university and not just a career building trade school college.
- Blackboard for the internet classes needed to be more heavily monitored. It seems to have glitches every weekend when most people need to turn in their assignments. These internet classes are convenient and cost-effective for the university but when the necessary tools don't work, it is quite frustrating for the students.
- The on campus jobs do not offer enough opportunities for students. I have been trying to apply on campus for two years now and have not succeeded in getting a campus job.
- I would like to know if there is an offer for students to get dental insurance for cheap.
- I am an older working mom. I am trying to earn a degree in education. It is very difficult for me to schedule classes according to my work schedule. I would like more classes to be offered in the evenings.
- it is really really really cold in the union. our energy fees could be cut and energy would be saved if the air in the union were turned off
- I am working on Online MSN Graduate degree and miss many campus opportunities. It would be excellent if health insurance were available and even better, if the Health Center played a more active role in student health promotion. Come on Nurses!!!
- i love SLU :) GO LIONS!
- Student Government Association does not think that traveling to art museums qualifies as "academic" travel which was a grant proposal from Visual Art Society. However, before the grant proposal to New York was rejected out of hand, the SGA approved a travel grant for the amount of \$16,000 that reimbursed funds to send 104 students to Oxford MS for a tailgating party (where Southeastern lost 52-6). There were 2 charter buses rented for the 5 hour drive, free food, t-shirts, and each person had a free ticket to the game. So while VAS could not go to New York to the frivolous museums, we can rest a little easier knowing that

SGA is truly taking everyone into consideration and reviewed the grant with the upmost consideration.

- I love attending Southeastern I just wish we had more classes to choose from! Many students have busy lives and families to care for. Daycare is very expensive and SLU Head Start is impossible to get into because the waiting list is so long. But again the school is great and I am very pleased with the education I am getting!
- Keep up the good work. Try a new club: Improv
- I think SLU does not configure the commuters. We travel to school and back. It's hard to make friends, because we aren't there long enough to feel we make an impact. I have many talents that go to waste, because I am not a member of any groups. My age and race also contribute to maybe not fitting in. Maybe there should be groups or events geared toward helping people like me feel less lonely at SLU. Maybe a way to meet new people outside of the classroom setting or to feel that we make a difference in the campus other than our tuition.
- Even though I myself have not taken any, I feel that the offering of any math-related courses online is a horrible idea, as when the students have questions or get lost (as several friends of mine have reported being at some point) their only real resource is the attempt to work an office visit to their teacher into an already hectic schedule, or to go to a math lab, which seems to quite often only confuse them more. It just seems to me that offering math classes strictly in a real classroom with direct access to the educator is a wiser, more efficient course of action.
- More opportunities for classes as you get farther into your major. Better/easier way to look up books in the library.
- Delightful.
- When I call to get assistance to adm depts like R&R, you are swapped from person to person; I don't feel they are always very helpful and are ready to pass you on to the next person. I have had to go in person to handle issues because of this. I also think having to pick my own books at Textbook Rental is unacceptable when employees stand around. Smoking on campus is out of control; you walk out a door and have to pass through smokers who drop butts everywhere. There should be designated areas away from bldgs or a smoke-free campus. Thanks.
- I would like to see more aid (financial and scholarships) available for part time students. Sometimes I get the feeling that we are not as important as other students! It is taking me a long time to get my degree, but that doesn't mean that I am any less committed to goal of obtaining my final objective of getting a degree.
- I would like to thank SELU for an awesome degree in Education. The teaching candidates complete many classes that cover every aspect of teaching and learning about the diverse learner. SELU Education Department has thought of every aspect needed to be an effective educator. I feel when I graduate this December I am well prepared for my future classroom and meeting the needs of all learners.
- Faculty is great, administrative staff is horrible
- Prescription coverage is an important factor when I consider insurance providers.
- More technology outreach to older students returning to school who may not have computer savy because that's not what they did in the past decade. In the beginning, LEONET,

Blackboard, Excel, Word and power point was very stressful, maybe that anxiety could be lessened with an introductory course, workshop, online seminar, etc.

- Please provide more classes offered in the evenings for the full time working student in all areas that are mainly required in all concentrations.
- I would like to see easier access to temporary physically disabled students e.g. post-surgery. I would like to experience greater understanding and cooperation from some, (all), instructors for older students returning to college. It would be a vast improvement if records from 20 years ago were valid and returning students did not have to beg other universities for repeat copies of transcripts that were provided when returning students were originally admitted to SELU.
- I do not take courses on the Southeastern campus. I am currently only enrolled in online courses.
- Regarding the health insurance option, I would only be interested in purchasing insurance if guaranteed that limited (only the necessary) tax dollars would be used in this offering to students. That being said, if deficits are incurred in this area I would protest the program.
- I find that more and more in the classrooms that LIBERAL values are being taught, discussed, and used. While CONSERVATIVE values are NOT accepted or a loud for discussion!!!!!!
- I hope these answers help your survey, it was very lengthy but I understand you want to improve the quality of the university. Good Luck!!!
- I think the music program (production and quality of instruction) is one of the greatest assets not only to SELU but to the community. And I'm a business major, not a music major.
- Parking on campus feels like a scheme just to make money off of the students. There are signs that do not indicate properly the use of a space, i.e. the Gallery One Hour Parking spot that should be indicated as visitor since only visitors can park there regardless of use of gallery. Furthermore, the inability to back into a parking spot costing \$25 is frivolous and outrageous. I have not received a ticket for that infraction, yet I think it's a ploy to make money. I also do not understand why the fountain in memorial of the Hurricanes never functioned properly. The fountain was actually built broken, it's somewhat embarrassing to the university.
- Considering the caliber of performance the Southeastern Theatre routinely presents on the Vonnie Borden stage, this school should put serious effort into pursuing the establishment of a Theatre major.
- SELU is a great school. I've experienced a lot and met lots of great people since I've been attending here. I think for such miscellaneous services that some students don't use, for example the shuttle bus, a small refund should be given back. I also think there should be a better financial aid process whenever it's time to register for school. Sometimes I have to drive to Hammond just to ask one question that could've been answered over the phone. Also, by me having a small child, I think some type of family housing should be available on campus to parents, as well as their child, and spouse.
- I have been very pleased with the quality of education that I have received in my particular department as a graduate student, but have been very dissatisfied with the university. Especially with financial aid, the university health center, not being able to make copies without a card, and the few library hours offered.

- Southeastern's tuition should be less expensive for what is offered. Also, advisors should be quicker to respond. I am still waiting on an advisor to reply to me and it's been two weeks. I haven't received quality service from any advisors at SLU thus far.
- I have been disappointed with the English departments choice of literature (Flight) and the strong content of profanity--I feel student's should be given alternative assignments when they are offended by content.
- I believe there should be more consideration and credit for life experiences of non-traditional students. There are things that I will never use in the field of my degree but I am required to take just as a student coming directly out of high-school where things such as math are still fresh in their minds. Making non-traditionals take SE 101 is absolutely ridiculous. Many universities around the country give credit for life experiences and waive certain courses for non-traditional students.
- the campus needs more parking!!!!!!!
- math 92a is set up for many students to fail, more than half my class has proved this true with 3 weeks left there will be more. This unacceptable if you want me to continue attending this college this must be fixed.
- SLU also need to make a bigger parking lots. Strict on tickets. Get a tutoring lab for the math, Accounting, Economic courses at SLU. More internship that doesn't require a GPA.
- Please add additional parking
- I wish there were more grants for anyone who is involed in police department work.I am a police cadet in denham,with a rank as captian.I seen there was a grant for police cadets but you had to graduate from a tangapohioa school.
- I was called a few times to take a survey over the telephone. I decided to take the survey. Now I've received yet another survey. This will be the last one for a while. Southeastern lately has been asking a lot of questions about technology. Unfortunately a lot of things on campus don't work. WiFi signals are often extremely weak. There are long lines at computer labs, but nowhere for people with laptops to print anything. D Vickers hall appears to have had a master clock system at one time, but the clocks are gone. All of these things I've mentioned in other surveys but nothing ever seems to be done about it.
- Overall, SLU is a good school to attend. Other than attitudes and lack of organization from those who work in the campus offices, I have no other complaints.
- Thanks for having this survey. I hope it helps make Southeastern even better!!! :D
- The academic advisors act as if they are doing you a favor to answer any questions, despite their inflated salaries. They are interested in you spending money on classes, and nothing else. The faculty at this school are excellent teachers in the classroom. However, it took a month for me to get an appointment with my advisor.
- I would like Southeastern to lower their prices in the bookstore for clothing items, if they did this, more people would but them. Also, I think Southeastern should allow for available classes for pre-registration. I have two options for each class so far, and none of them work with my schedule. SLU should know that more people tend to commute on Tu/Thu classes, therefore, there would be alot more options available.
- PLEASE find a qualified teacher to teach physics of acoustics for musicians. The instrutor needs to not just understand physics of sound, but also understand music!
