
General Catalog

Southeastern Louisiana University

Hammond, Louisiana

Effective June 1, 2023

This document is not the officially recognized version of the University Catalog.

For the official version, please see: <http://www.southeastern.edu/catalog>

The Southeastern Louisiana University catalog is reflective of an academic year that begins with the summer semester and ends with the spring semester.

For the 2023-2024 academic year, the catalog will include the summer 2023, fall 2023, spring 2024 AND summer 2024 semesters.

This is to allow for the transition from Peoplesoft to Workday Student.

The Catalog for the 2024-2025 academic year will include fall 2024 and spring 2025 only.

The Catalog will return to the summer, fall, spring cycle effective the 2025-2026 academic year.

Edited Date: 2.16.24

Registration Procedures

Terminology, Definitions, and Responsibilities

Priority Registration: The first opportunity to schedule classes for the next semester. Usually a one-week period during the semester prior to the registration semester during which students are assigned a registration appointment based on the number of hours a student has earned and/or other priority conditions (i.e. disability status, honors program, athletics, veterans, etc.). All students and applicants, except freshmen applicants for the next semester, are expected to register for classes during Priority Registration. Academic advising, when required, is available to all students prior to Priority Registration.

Open Registration: The period following Priority Registration and lasting until the Final Schedule Adjustments Deadline. All eligible students, including those who did not register during Priority Registration, may register anytime 24 hours/day, 7 days/week during this period. Academic Advisors are not always available during this period so students should contact their department to schedule an advising appointment.

Freshman Orientation: Required of all beginning freshmen and transfer freshmen. Orientation is a program that provides an overview of university policies and procedures, academic advising, and course registration.

Fee Payment Deadline: Students who have not paid by the Fee Payment Deadline will not have access to other university services such as textbook rentals, ID services, parking decals, housing, meal plans, etc. Students are responsible for tuition and fees for all courses that remain on their schedule after this deadline. Students who need assistance with dropping their classes or canceling their enrollment by this deadline may email the Office of the Registrar at Registrar@southeastern.edu or call 1-800-222-SELU or 985-549-2066.

Cancellation: Students who have not paid by the Fee Payment Deadline will be cancelled from their classes. Payment must be received and posted to the student's account. Students whose classes are paid with anticipated aid must drop all their classes before the first day of classes if they do not plan to attend.

Schedule Adjustment: The final opportunity for all students to register for classes, make schedule changes, or cancel enrollment before classes begin. Students should check their schedule for any classes removed due to low enrollment. Students who decide not to attend must drop all their classes. Students will be financially responsible for all classes remaining on their schedule once Schedule Adjustment ends.

First Day of Classes: Once classes begin, schedule changes will be handled as follows:

- Requests for schedule changes must be submitted to the student's academic dean and must be due to extenuating circumstances.
- Students wishing to withdraw:
 - Receive a grade of "W"
 - Pay the tuition and fees for the class
- Students wishing to resign:
 - Receive a grade of "W" in all classes
 - Are refunded 75 to 0 percent of their tuition (based on University refund schedule)

Add/Drop Period: During the add/drop period, a student may make schedule adjustments without receiving a "W" grade for each class dropped. However, a student will not be able to drop all of their classes. To drop their last class, students will need to resign from the university and will receive a "W" grade for the last class.

Final Fee Payment Deadline: Students are responsible for tuition and fees for all courses that remain on their schedule.

Assistant Athletic Director for Sports Information	Kemmler Chapple, B.A.
Assistant Athletic Director for Broadcast Services	Damon Sunde, B.G.S.
Assistant Athletic Director for Sports Medicine.....	Cruise Dunn, M.S.
Assistant Athletic Director for Student Services	Vacant
Baseball.....	Bobby Barbier, B.S., Head Coach
Basketball (Men)	David Kiefer, M.B.A., Head Coach
Basketball (Women).....	Ayla Guzzardo, M.S.E., Head Coach
Football.....	Frank Scelfo, M.Ed., Head Coach
Golf.....	Lawrence Allan, B.S., Head Coach
Soccer	Nathan Gillespie, M.S., Head Coach
Softball	Richard (Rick) P. Fremin, III, M.S., Head Coach
Spirit	Catherine Lawrence, B.S., Director
Sports Performance	Kyle Vagher, B.S., Director
Tennis.....	Jason Hayes, B.S., Head Coach
Track and Field/Cross Country	Michael Rheams, B.G.S., Head Coach
Volleyball	Jeremy White, M.S., Head Coach
Economic and Business Development	William Joubert, Ph.D., Director
Office of Technology	John Burris, Ph.D., Chief Information Officer
Client Connectivity Services	Ray DeJean, M.S., Deputy CIO for Computing Systems & Security
Client Services	Becki Starkey, M.B.A., Help Desk Manager
Programming & Database Administration.....	Matthew Johnston, B.S., Director
Systems Administration.....	Greg Calamia, M.S., Application Security Administrator

Provost and Vice President for Academic Affairs

Tena L. Golding, Ph.D.

Chief Enrollment Management Officer	A. Kay Maurin, Ph.D.
Admissions	Anthony M. Ranatza, M.B.A., Director
Financial Aid.....	Mandy Hoffman, M.A., Director
Military and Veteran Success	Emily Anthony, M.Ed., Director
Registrar.....	Aime Anderson, M.S., Registrar
Assistant Vice President for Academic Programs	Jeffrey Temple, Ph.D.
College of Arts, Humanities, and Social Sciences	Karen A. Fontenot, Ph.D., Dean
Assistant Dean	James B. Worthen, Ph.D.
Communication and Media Studies.....	James O'Connor, Ph.D., Department Head
The Southeastern Channel	Rick Settoon, M.A., Station Manager
English.....	David Hanson, Ph.D., Department Head
FANFARE/Columbia Theatre.....	James Winter, M.F.A., Artistic Director
General Studies Program	Rebecca Hite, M.A., Director
History and Political Science.....	William B. Robison, Ph.D., Department Head
Music and Performing Arts.....	Jeffrey Wright, Ph.D., Department Head
Psychology	Paula Varnado-Sullivan, Ph.D., Department Head
Sociology and Criminal Justice	Kenneth H. Bolton, Jr., Ph.D., Department Head

Southeastern Louisiana University

Visual Art + Design	Dale Newkirk, M.F.A., Department Head
World Languages and Cultures	Lucia Harrison, Ph.D., Department Head
College of Business.....	Tará Lopez, D.B.A., Dean
Assistant Dean	Russell McKenzie, Ph.D.
Accounting and Finance	Robert Braun, Ph.D., Department Head
Management and Business Administration	Yun-Chen "Jen" Morgan, Ph.D., Interim Department Head
Marketing and Supply Chain Management	Minh Huynh, Ph.D., Interim Department Head
MBA Program.....	Matthew Alford, Ph.D., Interim Director
EMBA Program	John Cresson, Ph.D., Director
College of Education	Paula Calderon, Ph.D., Dean
Educational Leadership and Foundations	Thomas DeVaney, Ph.D., Department Head
Teaching and Learning	Susan Zimlich, Ph.D., Interim Department Head
Laboratory School	Stephen Labbe, M.Ed., Director
College of Nursing and Health Sciences.....	Ann Carruth, D.N.S., Dean
Assistant Dean	Kenneth Tillman, Ph.D.
Health and Human Sciences	Jacqueline Guendouzi, Ph.D., Department Head
Kinesiology and Health Studies	Charity Bryan, Ph.D., Department Head
School of Nursing.....	Lindsay Domiano, Ph.D., Department Head
University Health Center	Andrea Peevy, M.S.N., Director
College of Science and Technology	Daniel McCarthy, Ph.D., Dean
Assistant Dean	Brian Crother, Ph.D.
Biological Sciences	Justin Anderson, Ph.D., Department Head
Chemistry and Physics.....	Patrick Moyer, Ph.D., Department Head
Computer Science.....	Bonnie Achee, Ph.D., Interim Department Head
Industrial and Engineering Technology	Mohammad Saadeh, Ph.D., Department Head
Mathematics.....	Timothy Hudson, Ph.D., Department Head
Turtle Cove Research Station.....	Robert Moreau, Ph.D., Manager
College of Honors & Excellence.....	Claire Procopio, Ph.D., Interim Dean
Office for First-Year Success	Mindy Notariano, M.A., Assistant Director
Honors Program	Amber Narro, Ph.D., Interim Director
Academic & Career Exploration Office	Brad Bergeron, M.Ed., Assistant Director
Tinsley Learning Center	Marie Bernard, M.Ed., Assistant Director
Assessment and Accreditation	Alexandra Anderson, Ph.D., Director
Center for Faculty Excellence	Mary Ballard, Ph.D., Director
Graduate Studies	John Boulahanis, Ph.D., Director
Institutional Research	Michelle Hall, Ph.D., Director
Library	David Sesser, M.L.I.S., Ed.D., Director
Livingston Literacy & Technology Center	Krystal Hardison, M.Ed., Director
Sponsored Research and Programs.....	Cheryl Hall, J.D., Director
Study Abroad and Global Engagement.....	Lucia Harrison, Ph.D., Director
TRIO Programs and Special Projects	Duane Donald, Ph.D., Director

Vice President for Student Affairs **Eric J. Summers, Ph.D.**

Dean of Students	Gabe Willis, Ph.D., Dean
Recreational Sports and Wellness	Eric Aymond, M.A., Director
Student Advocacy and Accountability.....	Curtis Meyers, M.Ed., Director
Student Engagement	Marjorie Parker, M.A., Director
Transportation Services.....	Gary Prescott, B.A., Director
Career Services	Vacant, Director
Student Accessibility Services.....	Kimberly Bergeron, M.Ed., Director
University Counseling Center	Peter Emerson, Ed.D., Director
University Police	Michael Beckner, B.S., Director

General Information

Vice President for University Advancement

Wendy Johns Lauderdale, M.A.

Foundation Gift HistoryMichelle Speaser, B.S., C.P.A., Affiliate Accounting/Gift History
Alumni ServicesVacant, Executive Director
University Marketing and Communications.....Robert Rivault, M.B.A., M.Ed., Director

Vice President for Administration and Finance

Sam Domiano, Jr., M.B.A.

Assistant Vice President for Operations and Auxiliary Services..... **Connie Davis, M.B.A.**
Campus Card Operations Vacant, Director
Marketing and Strategic Initiatives Robin Parker, M.B.A., Director
Student Union Calyn Landaiche, M.A., Director
University Center Scott Nunez, M.B.A., Director
University Housing Amanda McDaniel, M.Ed., Director
Auxiliary Programs and ServicesKeonta Johnson, M.B.A., Assistant Director
Document Source Print and Mail Center Chester Winburn, B.S., Director
Event and Conference Services Alyssa Reynolds, M.A. Interim Director
Community Music School Jivka Duke, M.A., Director
Assistant Vice President for Systems..... **Judy K. Bowles, M.B.A., C.P.A.**
Assistant Vice President for Finance.....**John Paul Domiano, B.S., C.P.A.**
Controller Khalli Hagan, M.B.A., C.P.A.
Purchasing and Property Control Richard P. Himber, M.B.A., Director
Budget Office Vacant
Environmental Health and Safety.....**Jeremy Brignac, M.S., Director**
Facility Planning**Ken Howe, B.A., Director**
Human Resources..... **Tara Dupre, M.S., Director**
Physical Plant Services**Christopher Asprion, M.S., Director**

Faculty

*Denotes Member of the Graduate Faculty

†Denotes Member of the Honors Faculty

A

- Achee, Bonnie**, *Instructor of Computer Science*, B.S., Southeastern Louisiana University; Ph.D., Louisiana State University
- Acosta, Amy Tavidian**, *Instructor of English*, B.A., University of Michigan - Ann Arbor; M.A., California State University - San Bernardino; M.L.S., Louisiana State University
- Acosta, Daniel J.**, *Associate Professor of Mathematics*, B.S., Spring Hill College; Ph.D., Tulane University
- ***Adams, Aimee**, *Instructor of Communication Sciences & Disorders*, B.S., M.A., Louisiana State University
- ***Adhikari, Subash**, *Assistant Professor of Accounting*, B.B.A., Tribhuvan University; M.B.Z., McNeese State University; Ph.D., University of North Texas
- Aggarwal, Sita**, *Instructor of Biological Sciences*, B.S., M.S., Ph.D., Panjab University
- ***Agosta, Lucie J.**, *Associate Professor of Nursing*, B.S., Southeastern Louisiana University; M.S., University of Texas Health Science Center - Houston; Ph.D., Louisiana State University
- Ahmed, Mohammad**, *Assistant Professor*, B. A., Bangladesh University of Engineering and Technology, DHAKA; M. S., Florida State University; Ph. D., Florida State University
- Ainsworth, Mary**, *Instructor of Curriculum & Instruction*, B.S., University of Southern Mississippi; M.Ed., Southeastern Louisiana University; M.Ed., Ph.D., Louisiana State University
- Alexander, Andrea**, *Instructor of Library Science*, B.A., M.L.I.S., Louisiana State University; M.A., University of Virginia
- Alford, Matthew**, *Instructor of Economics*, B.A., Ph.D., Mississippi State University
- ***Alkadi, Ghassan**, *Professor of Computer Science*, B.S., Southeastern Louisiana University; M.S., Ph.D., Louisiana State University
- Allain, Ashley**, *Instructor of Mathematics*, B.A., University of Alabama; M.A., North Carolina State University
- Allain, Rhett Jason**, *Associate Professor of Physics*, B.S., Benedictine University; M.S., University of Alabama; Ph.D. North Carolina State University
- Allen, Wendy**, *Instructor of Teaching and Learning*, B.S., M.Ed., Northwestern State University
- Anderson, Alyssa**, *Instructor of English*, B.A., M.A., Southeastern Louisiana University
- Anderson, Angie**, *Instructor of History*, B.A., M.A., Southeastern Louisiana University
- Anderson, Justin**, *Professor of Biological Sciences*, B.A., Ripon College; Ph.D., University of Notre Dame
- Andrus, Stephen**, *Instructor of Mathematics*, B.S., Southeastern Louisiana University; M.S., University of Louisiana at Lafayette
- ***Armand, David**, *Assistant Professor of English*, B.A., M.A., Southeastern Louisiana University; M.F.A., University of Arkansas
- Artigues, Rachel**, *Instructor of Health and Human Sciences*, A.A., Pearl River Community College; B.S.N., McNeese State University; M.S.N., Southeastern Louisiana University
- Austin, Jennifer**, *Instructor of Nursing*, B.S.N. Louisiana State University; M.S.N., Southeastern Louisiana University
- Auzenne, Lana Lee**, *Instructor of Nursing*, B.S.N., M.S.N., Southern University

B

- Babson, Anne**, *Instructor of English*, B.A., Sarah Lawrence College; M.A., City University of New York City
- Baczeski, Kathryn**, *Assistant Professor of Ceramics*, B.A., University of Connecticut; M.F.A., Indiana University
- ***Bahadir, Mehmet Emre**, *Assistant Professor of Industrial Technology*, B.S., Marmara University; M.A., D.I.T., University of Northern Iowa
- Baham, Jamie**, *Instructor of Mathematics*, B.A., Spelman College; M.A., Rice University; Ph.D., Rice University
- ***Baiamonte, Brandon**, *Assistant Professor of Psychology*, B.S., Louisiana State University; M.A., Southeastern Louisiana University; M.S., Ph.D., University of New Orleans
- Baldwin, Yvette**, *Instructor of Operations Management*, B.A., M.B.A., Southeastern Louisiana University
- ***Ballard, Mary**, *Professor of Counseling*, B.A., Southeastern Louisiana University; M.Ed., Ph.D., University of New Orleans
- Bankens, Johnnie**, *Assistant Professor of Music and Performing Arts*, B.M., McNeese State University; M.M., D.M.A., Louisiana State University
- ***Bankston, Pamela**, *Instructor of Communication Sciences and Disorders*, B.A., M.S., Southeastern Louisiana University
- Baptist, Amy**, *Associate Professor of Library Science*, B.A., Millsaps College; M.S., M.L.I.S., Louisiana State University
- Baraya, Aristides**, *Instructor of Management*, B.A., D.D.S., University of Cartagena (Columbia); M.A., University of Valle (Columbia); M.S., Tulane University

General Information

- Barbee, Dominique**, *Instructor of English*, B.A., Lawrence University; M.A., University of South Carolina
- Barry, Jill**, *Instructor of Teaching & Learning*, B.A., M.Ed., Southeastern Louisiana University
- Bass, Anna**, *Instructor of Management*, B.A., Hendrix College; M.B.A., Southeastern Louisiana University
- ***Beachy, Christopher**, *Professor of Biological Sciences*, B.A., College of Wooster; M.S., Western Carolina University; Ph.D. University of Louisiana at Lafayette
- ***Beckers, Gerlinde**, *Associate Professor of Education*, B.A., M.Ed., Southeastern Louisiana University; Ed.S., Ph.D., Louisiana State University
- ***Bedell, Jack**, *Professor of English*, B.A., M.A., Northwestern State University; M.F.A., University of Arkansas; Ph.D., University of Southwestern Louisiana
- Belko, Natalie**, *Instructor of Nursing*, B.A., M.S., Southeastern Louisiana University
- ***Bell, Jeffrey**, *Professor of Philosophy*, A.B., Occidental College; M.A., Ph.D., Tulane University
- Bellavia, Michelle**, *Instructor of English*, B.A., Nicholls State University; M.A., Louisiana State University
- Bentley, Christine**, *Associate Professor of General Studies*, B.A., M.Ed., Ed.S, Southeastern Louisiana University
- ***Bernard, Arthur**, *Instructor of Teaching and Learning*, B.S., M.Ed., Louisiana State University; Ed.D., Southeastern Louisiana University
- ***Billingsley, Louise D.**, *Associate Professor of Nursing*, B.S., M.B.A., Southeastern Louisiana University; M.S.N., Louisiana State University; D.N.P, University of South Alabama
- ***Bisciglia, Michael**, *Associate Professor of Criminal Justice*, B.A., North Carolina Wesleyan College; M.A., Old Dominion University; Ph.D., Louisiana State University
- Biscegila, Brett**, *Instructor of English*, B.A., University of California, Santa Barbara; M.F.A., Texas State University
- Blakeney, Anthony**, *Instructor of Industrial Technology*, B.S., Southeastern Louisiana University; M.S., Purdue University
- ***Blanchard, Gerard**, *Professor of Physics*, B.A., Rice University; M.S., Ph.D., University of California - Los Angeles
- ***Bolton, Kenneth H. Jr.**, *Associate Professor of Criminal Justice*, B.A., George Mason University; M.A., University of North Carolina - Charlotte; Ph.D., University of Florida
- Booth, Eric**, *Instructor of Chemistry*, B.S., Morehead State University; M.S., Ph.D., Rice University
- ***Booth-LeDoux, Suzanne M**, *Assistant Professor of Psychology*, B.S., McNeese State University; M.A, Ph.D., Louisiana State University
- ***Bossart, Janice**, *Professor of Biological Sciences*, B.A., West Virginia University; M.S., Ph.D., Michigan State University
- Botsford, Heather B.**, *Instructor of English*, B.A., M.A., Southeastern Louisiana University
- Boucree, Candice**, *Assistant Professor of Accounting*, B.S., Xavier University; M.B.A., Tulane University; Ph.D., Louisiana State University
- †**Boudreaux, Fay**, *Instructor of Communication*, B.A., Southeastern Louisiana University; M.A., University of South Alabama
- ***Boulahanis, John**, *Professor of Criminal Justice*, B.A., Illinois State University; M.A., Ph.D., Southern Illinois University
- ***Bouton, Reine**, *Associate Professor of English*, B.A., M.A., University of New Orleans; Ph.D., University of Southern Mississippi
- Bouquet, Jennifer**, *Instructor of Visual Art + Design*, B.A., Louisiana Tech University; M.F.A., University of Essex
- ***Bowes, David Robert**, *Associate Professor of Economics*, B.A., Trinity University; M.B.A., Tulane University; Ph.D., Georgia State University
- Bradley, Rena**, *Instructor of English*, B.A., University of Mississippi; M.A., University of New Orleans; Ph.D., University of Houston
- Branham, Janie**, *Assistant Professor of Library Science*, B.S.W., Morehead State University; M.L.S., University of Kentucky
- ***Braun, Robert L.**, *Professor of Accounting*, B.S., Kansas State University; Ph.D., Louisiana State University
- Breaux, Cheryl**, *Instructor of English*, B.A., M.A., Southeastern Louisiana University
- Brooks, Lily**, *Assistant Professor of Visual Art + Design*, B.F.A., Massachusetts College of Art & Design; M.F.A., University of Texas at Austin
- Brothers, Michael**, *Instructor of Music and Performing Arts*, B.M., Loyola University; M.M., Northwestern University
- Brou, Robin**, *Instructor of Nursing*, B.S.N., William Carey College; M.S.N., University of Phoenix
- Broussard, Michaelyn**, *Instructor of Biological Sciences*, B.S., Centenary College; M.S., Southeastern Louisiana University; Ph.D., Louisiana State University
- ***Bryan, Charity**, *Professor of Kinesiology*, B.S., Samford University; M.A., University of South Alabama at Birmingham; Ph.D., Louisiana State University
- Buccere, Constance**, *Instructor of Nursing*, B.S., Southeastern Louisiana University; M.S.N. University of Alabama at Birmingham
- Budden, Connie**, *Instructor of Management*, B.S., M.B.A., Auburn University – Montgomery
- Budden, Heather**, *Instructor of Marketing & Supply Chain Management*, B.A., M.B.A., Southeastern Louisiana University
- ***Budden, Michael C.** *Professor of Marketing*, B.S., Louisiana State University; M.B.A., Southeastern Louisiana University; Ph.D., University of Arkansas
- Bunch, Summer**, *Instructor of Nursing*, B.S., Louisiana Christian University; M.B.A., Southeastern Louisiana University; Ph.D., Southeastern Louisiana University
- ***Burley, David**, *Associate Professor of Sociology*, B.A., M.A., Ph.D., University of New Orleans
- ***Burns, Joseph E.**, *Professor of Communication*, B.A., Westminster College; M.A., Shippensburg University; Ph.D., Bowling Green State University

Southeastern Louisiana University

Burns, Scott, *Assistant Professor of Economics*, B.A., Louisiana State University; M.A., Ph.D., George Mason University

***Burris, John**, *Associate Professor of Computer Science*, B.S., Louisiana Tech University; Ph.D., Louisiana State University

Busekist, David, *Instructor of Mathematics*, B.S., Chadron State College; M.Ed., Southeastern Louisiana University

Butler, Tim, *Associate Professor of Marketing*, B.A., University of New York; M.S., Ph.D., University of Alabama

C

***Caillouet, Lindsey**, *Assistant Professor of Teaching & Learning*, B.G.S., M.A.T., University of New Orleans

Calamia, Darryl K., *Instructor of Nursing*, B.S., M.S., Southeastern Louisiana University; Ph.D., William Carey University

Calloway, Suzanne Elizabeth, *Instructor of English*, B.A., Louisiana State University; M.A., Southeastern Louisiana University; Ph.D., University of Louisiana - Lafayette

***Campbell, Kathleen**, *Professor Educational Leadership & Technology*, B.A., M.A., Ph.D., University of New Orleans

Campo, Frank, *Instructor of Biological Sciences*, B.S., M.S., Southeastern Louisiana University

***Cannon, G. Alan**, *Professor of Mathematics*, B.S., B.S., M.S., Ph.D., Texas A&M University; B.A., M.A., Southeastern Louisiana University

***Cappel, Sam D.**, *Professor of Management*, B.S., University of South Mississippi; M.B.A., Southeastern Louisiana University; D.B.A., Memphis State University

***Carruth, Ann K.**, *Professor of Nursing*, B.S., Southeastern Louisiana University; M.S.N., University of Mississippi; D.N.S., Louisiana State University Health Sciences Center

***Caserta, Melissa**, *Instructor of Health and Human Sciences*, B.A., Louisiana State University; M.S., Southeastern Louisiana University

Castillo, Ryan, *Instructor of Library Science*, B.A., Carroll University; M.L.I.S., University of Wisconsin - Milwaukee

Castro, Russell, *Instructor of Sociology*, B.A., M.A., University of Colorado

†**Cavell, Samantha**, *Assistant Professor of History and Political Science*, B.B.A., Queensland University of Technology; M.A., Louisiana State University; Ph.D., University of Exeter, United Kingdom

Centeno, Vanessa, *Instructor of Visual Art+ Design*, B.A., San Francisco Art Institute; M.F.A., University of New Orleans

***Chae, Young Ju.**, *Assistant Professor of Sociology and Criminal Justice*, M. A., Kyonggi University; M.S., Florida State University; Ph.D., Northeastern University

Chanda, Prem, *Assistant Professor of Chemistry*, B.S., M.S., Tribhuvan University; M.S., Western Illinois University; Ph.D., Purdue University

***Charrier, Danielle**, *Associate Professor of Nursing*, B.S., M.S.N., Southeastern Louisiana University; Ph.D., William Carey University

Chauvin, Munson, *Instructor of History*, B.A., M.A., Southeastern Louisiana University

***Chernoff, William.**, *Assistant Professor of Sociology and Criminal Justice*, B.S., Chapman University., M.S., Ph.D., Kansas State University

Cho, James, *Assistant Professor of Chemistry and Physics*, B.A., University of Kansas; Ph.D., University of Oklahoma

Cicale, Coleen N., *Instructor of Health and Human Sciences*, B.S.W, Ph.D., University of Central Florida; M.S.W., University of South Carolina

Clark, Rosemary Becker, *Instructor of Biological Sciences*, B.S., North Central College; M.S., Southeastern Louisiana University; Ph.D., Louisiana State University

Clifton, Sarah Beth Trattler, *Instructor of Mathematics*, B.A., Florida Atlantic University; M.S., Florida International University

***Coats, Susan E.**, *Associate Professor of Psychology*, B.S., University of Washington; M.S., Ph.D., Purdue University

***Coffey, Donna**, *Associate Professor of Nursing*, B.S.N., M.S.N., Northwestern State University; Ph.D., Louisiana State University

Coleman, William, *Instructor of Chemistry and Physics*, B.S., Southeastern Louisiana University; M.A., Naval Postgraduate School; Ph.D., Louisiana State University

Collins, Linda, *Associate Professor of Health and Human Sciences*, B.S.N., M.S.N., Middlesex University (England); Ph.D., University of Southampton (England)

Cope, Rachelle F., *Professor of Information Systems*, B.S., Nicholls State University; Ph.D., Louisiana State University

***Cope, Robert III**, *Professor of Operations Management*, B.S.E.E., M.B.A., Ph.D., Louisiana State University

Corbello, Michael K., *Associate Professor of Political Science*, B.S., University of Southwestern Louisiana; M.A., Ph.D., University of New Orleans

Corbin, Theresa, *Instructor of Library Science*, B.A., University of South Alabama; MLIS, Louisiana State University

Correa-Cruz, Victor, *Assistant Professor of Music*, B.M., Real Conservatorio de Madrid (Spain); M.M.U., Indiana University; D.M.A., University of South Carolina

Costa, Keith, *Instructor of Dance*, B.A., Southeastern Louisiana University; M.F.A., The George Washington University

Courville, Craig, *Instructor of Mathematics*, B.S., M.S., Nicholls State University

***Cowart, C. Danelle**, *Assistant Professor of English*, B.A., University of New Orleans; M.A., Ph.D., University of New York - Stony Brook

Craft, Bruce, *Instructor of English*, B.A., Tulane University; M.A., Northwestern State University; J.D., Louisiana State University Law School

Craig, Sherri, *Instructor of English*, B.A., M.A., Southeastern Louisiana University

General Information

*Crain, Mindy L. Dorough, *Professor of Educational Leadership & Foundations*, B.S., M.A., M.A.S., Ph.D., Louisiana State University

*Cresson, John, *Associate Professor of Finance*, B.S., M.B.A., Loyola; Ph.D., Texas A&M University

Crook, Matthew, *Assistant Professor of Finance*, B.S., University of Missouri-Rolla; M.B.A., Arkansas State University; Ph.D., University of Missouri

*Crother, Brian I., *Professor of Biological Sciences*, B.A., California State University - Dominguez Hills; Ph.D. University of Miami

Cunev, Irina, *Instructor of Music*, B.A., Moldova State University; M.M., Southeastern Louisiana University; D.M.A., Louisiana State University

Cunha, Kirsten, *Clinical Assistant Professor*, B.S., Sacred Heart University; Ph.D., University of Florida

D

Danna, Megan, *Instructor of Nursing*, B.S.N., M.S.N., Southeastern Louisiana University

Dardis, Deborah A., *Associate Professor of Biological Sciences*, B.S., M.S., Southeastern Louisiana University; Ph.D., University of Southern Mississippi

Dargahi, Rambod, *Assistant Professor of Marketing*, B.S, University of Tehran; M.B.A. Sharif University of Technology; Ph.D., University of Houston

*Dasgupta, Priyadarshini, *Assistant Professor of Industrial and Engineering Technology*, B.Sc., M.Sc. University of Calcutta (India); M.S. Universite De Technologie De Compiegne (France); Sc.D. University of Massachusetts

Dave, Lauren, *Instructor of Nursing*, B.S.N., University of Holy Cross; M.S.N., University of Phoenix

Davis, Harold E., *Associate Professor of Accounting*, A.S., B.S., M.B.A., Southeastern Louisiana University; D.B.A., Louisiana Tech University, CPA

Davis, Jamie, *Assistant Professor of Nursing*, A.N., Louisiana State University at Alexandria; B.S.N., Louisiana State University; M.S.N., Northwestern State University of Louisiana, Ph.D., University of Southern Mississippi

*Davis, Rebecca, *Associate Professor of Communication Sciences & Disorders*, B.A., Nicholls State University; M.C.D., Louisiana State University; A.U.D., University of Florida

DeAlwis, Tilak, *Professor of Mathematics*, B.S. (Honors), University of Colombo (Sri Lanka); M.S., Ph.D., University of Minnesota

*DeCoux, Brandi, *Assistant Professor of Kinesiology & Health Studies*, B.S., Louisiana Tech University; M.S., Texas Woman's University; Ph.D., Auburn University

Del Rio, Evelyn, *Instructor of Kinesiology & Health Studies*, B.A., M.A., Southeastern Louisiana University

Devun, Robert, *Instructor of Mathematics*, B.S., Louisiana State University; M.S., Southeastern Louisiana University

*DeVaney, Thomas, *Professor of Educational Leadership & Foundations*, B.S., M.Ed., University of West Alabama; Ph.D., Mississippi State University

*DiGregorio, Dean, *Associate Professor of Accounting*, B.B.A., University of Massachusetts; Ph.D., University of Houston, CPA

Diller, Benjamin, *Instructor of Art*, B.F.A., Cleveland Institute of Art; M.F.A., University of California – Davis

DiMattia, Laura, *Instructor of Communication and Media Studies*, B.A., Southeastern Louisiana University; M.A., Southeastern Louisiana University

*Domiano, Lindsay S., *Associate Professor of Nursing*, B.S., M.S.N., Southeastern Louisiana University; Ph.D., William Carey University

Donley, Irma, *Instructor of Spanish*, B.A., Universidad Veracruzana; M.A., University of New Orleans

DosRamos-Schulter, Nicole, *Instructor of English*, B.A., M.A., Southeastern Louisiana University

Doughty, Lauren, *Instructor of History*, B.A., Troy State University; M.A. Southeastern Louisiana University; Ph.D., Louisiana State University

Doughty, Michael, *Professor of Chemistry*, B.S., Ph.D., Louisiana State University

Downing, Corie, *Instructor of Nursing*, B.S.N., Southeastern Louisiana University; M.S.N., Southern University and A&M College

*Drescher, Victor, *Instructor of Music*, B.M., B.M.E., M.M., Louisiana State University

†Dries, Mark, *Assistant Professor of History*, B.A., Arizona State University; M.A., University of Chicago; Ph.D., University of California

Drouant, George, *Instructor of Engineering Technology*, B.S., M.S., University of New Orleans; M.S., M.Eng., Tulane University

Dubreuil, Heidi, *Instructor of Nursing*, B.S.N., M.S.N., Southeastern Louisiana University

Dugas, Louis, *Instructor of Kinesiology*, B.A., M.A., Southeastern Louisiana University

Dugas, Timothy, *Instructor of Psychology*, B.A, M.A., Southeastern Louisiana University

*Duggal, Rakesh, *Professor of Finance*, M.A., Panjab (India); M.B.A., Ph.D., University of Arkansas – Fayetteville

Duncan, Laura, *Instructor of English*, B.A., University of Georgia; M.A., University of Tennessee at Chattanooga

Duos, Bronwyn, *Instructor of Biological Sciences*, B.S., Louisiana State University; M.S., Southeastern Louisiana University

Dutsch, Catelyn Ashley, *Instructor of English*, B.A., Elizabeth City State University, M.A., Oakland University

Dutsch, Ryan, *Instructor of Mathematics*, B.S., Southeastern Louisiana University; M.S., Louisiana State University

Dykes, Heather C. *Instructor of Family & Consumer Sciences*, B.S., M.S., Louisiana State University

E

Southeastern Louisiana University

*Echols, Celina, *Professor of Teaching & Learning*, B.A., University of Southern Mississippi; Ph.D., University of Akron
Edwards, Carrie, *Instructor of Physical Education*, B.S., Mississippi University for Women; M.A., Southeastern Louisiana University
Effler, Rebecca, *Instructor of Biological Sciences*, B.S., M.S., Southeastern Louisiana University; Ph.D., Louisiana State University
*Elder, Adam, *Assistant Professor of Educational Leadership*, B.S., Auburn University; M.A., Ph.D., Louisiana State University
*Elliott, Charles, *Instructor of History*, B.S., Louisiana State University; M.A., Southeastern Louisiana University
*Emami Piri, Fereshteh, *Assistant Professor of Chemistry*, B.S., Razi University; M.S., Ph.D., Bu-Ali Sina University
Emas, Jonathan, *Instructor of Supply Chain Management*, B.S. Arizona State University; M.S., Pennsylvania State University
*Emerson, Peter M., *Associate Professor of Counseling*, B.S., Brigham Young University; M. Counseling; Ed.D., Idaho State University
Escobar, Luz, *Instructor of Foreign Languages*, B.A. D.D.S., University Javeriana (Columbia); M.A., Ed.S., University of Valle (Columbia); M.A., Tulane University

F

Faciane, Brina B., *Instructor of Music*, M.M, Arizona State University; M.M., Louisiana State University
Faucheux, David, *Instructor of Marketing*, B.A., M.B.A., Southeastern Louisiana University
Fayed, Ahmad, *Assistant Professor of Industrial and Engineering Technology*, Ph.D., University of Nevada
*Fazio-Griffith, Laura, *Associate Professor of Health and Human Science*, B.S., Spring Hill University; M.P.A., University of West Florida; M.Ed., Ph.D., University of New Orleans
Felder, Mary, *Instructor of Teaching & Learning*, B.A., M.Ed., Southeastern Louisiana University
Filo, Gina, *Assistant Professor of English*, B.A., University of Evansville; Ph.D., University of Oregon
*Finley, Keith, *Assistant Professor of History*, B.A., Gettysburg College; M.A., Southeastern Louisiana University; Ph.D., Louisiana State University
Finley, Kimberly D., *Associate Professor of Visual Arts*, B.A., Otterbein College; M.F.A., Bowling Green State University; Ph.D., Ohio State University
Floyd, Stephanie, *Instructor of Mathematics*, B.S., Southeastern Louisiana University; M.S., University of Southern Mississippi
Fluker, Shawndee, *Instructor of Communication*, B.A., M.A., University of Louisiana - Monroe
*Fontenot Jr. Clifford, *Instructor of Biological Sciences*, A.S., B.S., M.S., Southeastern Louisiana University; Ph.D., University of California - Santa Barbara
*Fontenot, Karen, *Professor of Communication*, B.A., M.A., Ph.D., Louisiana State University
*Fotie, Jean, *Professor of Chemistry*, B.S., M.S., Ph.D., University of Yaounde (Cameroon)
Foto, Paige, *Instructor of Mathematics*, B.S., Louisiana State University; M.S., University of New Orleans
Fowler, Tonya, *Instructor of Nursing*, B.S., M.S.N., Southeastern Louisiana University
Fox, Anne-Liese, *Instructor of Visual Art + Design*, B.F.A, New York University; M.Ed., University of New Orleans; Ph.D., Louisiana State University
Frederick Jr., Randall, *Instructor of English*, B.S., M.A., Northwestern State University; M.A., Fuller Theological Seminary
*Fuller, Samuel, *Assistant Professor of English*, B.A., University of South Carolina; M.A., Ph.D., Clemson University

G

*Garcia, Stacy, *Instructor of Teaching & Learning*, B.S., Louisiana State University; M.Ed., William Carey University; Ph.D., University of Southern Mississippi
*Gardner, Lara, *Associate Professor of Economics*, B.A., M.S., Florida State University; Ph.D., University of North Carolina - Chapel Hill
Genre, Christopher, *Instructor of English*, B.A., M.A., Southeastern Louisiana University
Genzale, Jean, *Assistant Professor of Nursing*, B.S., Louisiana State University; M.S., PhD, Southeastern Louisiana University
Ghimire, Srijana, *Instructor of Chemistry & Physics*, M.S., Western Illinois University; Ph.D., Purdue University
Gibbs, Barbara, *Instructor of Nursing*, B.A., M.S.N., Southeastern Louisiana University
Gibson, Alice, *Instructor of Kinesiology and Health Studies*, B.A., M.A., Southeastern Louisiana University
†Gibson, George, *Instructor of English*, B.A., University of New Orleans; Ph.D., Louisiana State University
*Gilbert, Kellen, *Professor of Anthropology*, B.A., Denison University; Ph.D., Rutgers University
Golding, Tena L. *Professor of Mathematics*, B.S.Ed., M.Ed., Delta State University; Ph.D., Louisiana State University
*Gonzalez-Perez, Margaret C., *Professor of Political Science*, B.A., M.A., University of Louisville; M.A., Ph.D., Louisiana State University
Gratton, Peter, *Assistant Professor of Philosophy*, B.A., Stony Brook University; M.A., Ph.D., DePaul University
Graves, Myia, *Assistant Professor of Kinesiology & Health Studies*, B.S., M.A., University of Alabama; Ph.D., University of Cincinnati

General Information

Green, Deatrice, *Assistant Professor of Health and Human Sciences*, B.S., Xavier University of Louisiana; M.H.S., Louisiana State University Health Sciences Center; Ph.D., University of Holy Cross

***Green, Ryan**, *Assistant Professor of Kinesiology*, B.S., Salisbury State University; M.S., Ph.D., Louisiana State University

Griffey, Shirley, *Assistant Professor of Nursing*, B.B., M.S.N., D.N.S., University of South Alabama

***Guendouzi, Jacqueline**, *Professor of Communication Sciences & Disorders*, B.A., Ph.D., Cardiff University (Wales)

Guidry, Brandon, *Instructor of English*, B.A., Southeastern Louisiana University; M.A., Louisiana State University; M.A., McNeese State University

Gurney, David R. *Assistant Professor of Mathematics*, B.S., Harvey Mudd College; M.S., Western Washington University; Ph.D., University of North Texas - Denton

***Gutthy, Agnieszka**, *Professor of Foreign Languages*, M.A., Maria Curie - Sklodowska University (Poland); M.A., Warsaw University (Poland); Ph.D., Temple University

H

Hall, Carol, *Instructor of Family & Consumer Sciences*, B.S., Southern University; M.S., University of California at Davis; Ph.D., Iowa State University

Hanible, Jerrie, *Instructor of Biological Sciences*, B.S., Xavier University; M.S., Tulane University

***Hanson, David C.**, *Professor of English*, B.A., Earlham College; M.A., Ph.D., University of Chicago

Hardison, Krystal L. *Instructor of General Studies*, B.A., M.A., Southeastern Louisiana University

Harmeyer, Rachel, *Assistant Professor of Art History*, B.A., School of the Art Institute of Chicago; M.A., University of Houston; Ph.D., Rice University

***Harrison, Lucia**, *Professor of Foreign Languages*, Ph.D., University of Verona (Italy); M.A., Ph.D., University of Kentucky

Hart, Denise, *Instructor of Nursing*, B.S., Southeastern Louisiana University; M.S.N., University of Southwest Louisiana

***Hatcher III, John**, *Assistant Professor of Educational Leadership & Technology*, B.A., M.A., Kean University; Ed.D., Regent University

Hebert, Corie, *Associate Professor of Health & Human Sciences*, B.S., M.S.W., University of Alabama; Ph.D., Louisiana State University

***Hebert, Edward**, *Professor of Kinesiology*, B.S., University of Southwest Louisiana; M.S., Baylor University; Ph.D., Louisiana State University

Hecker, Penny M., *Associate Professor of Library Science*, B.A., University of New Orleans; M.L.I.S., Louisiana State University

Helluin, Stella, *Instructor of Accounting*, B.A. Louisiana State University; M.B.A. University of Houston; C.P.A.

Hendricks, Leslie, *Instructor of Biological Science*, B.S., M.S., Southeastern Louisiana University

Henry, Meghan, *Instructor of English*, B.A., Centenary College of Louisiana

Hernandez, Luisa, *Assistant Professor*, B.A., University of Houston, M.F.A., Universidad de Bogota Tadeo Lozano - Columbia

Hester, Bridget, *Instructor of Political Science*, B.A., Southeastern Louisiana University; M.A., University of Mississippi

Hess, Zhaoxia, *Instructor of Mathematic*, M.S., University of West Florida; M.S., Ph.D., Louisiana State University

Higginbotham, Nancy, *Instructor of Biological Sciences*, B.S., M.S., Southeastern Louisiana University

Hite, Rebecca W., *Instructor of English*, B.A., Southeastern Louisiana; M.A., Louisiana State University

Hoffman, Erin, *Instructor of Nursing*, B.S.N., Louisiana State University Health Sciences Center; M.S.N., Loyola University

***Hollander, Daniel**, *Professor of Kinesiology*, B.A., Metropolitan State College of Denver; M.S., Kansas State University; Ph.D. West Virginia University

***Holtzman, Nicholas**, *Assistant Professor of Psychology*, B.A., Loyola University; M.A., Ph.D., Washington University in St. Louis

***Honoree, Andre**, *Professor of Management*, B.A., Southeastern Louisianan University; M.B.A., Louisiana State University; Ph.D., University of Mississippi

***Hornsby, Elizabeth**, *Assistant Professor of Communication & Media Studies*, B.G.S., M.A., Southeastern Louisiana University; Ph.D., Regent University

***Horzelski, Erin J.** *Associate Professor of Biological Sciences*, B.A., Western Washington University; Ph.D., Louisiana State University

Hudson, Timothy D., *Professor of Mathematics*, B.S., Northeast Louisiana University; M.S., Ph.D., Texas A&M University

Hutchinson, Robyn, *Instructor of Teaching and Learning*, B.S., Judson College; M.S., University of West Alabama

Huynh, Minh Q., *Associate Professor of Information Systems*, B.A., Franklin & Marshall College; B.S., University of Maryland; Ph.D., State University of New York - Binghamton

***Hyde Jr., Samuel C.**, *Professor of History*, B.A., Tulane University; M.A., University of New Orleans; Ph.D., Louisiana State University

I

lhachi, Moses, *Instructor of Chemistry*, B.S., Moi University (Kenya); Ph.D., Louisiana State University

J

Jahani, Mona, *Instructor of Chemistry*, B.S., Moi University (Kenya), Ph.D., Louisiana State University

***Johansen, David**, *Professor of Music*, B.M., Fort Hays State University; M.S., University of Illinois; D.M.A., University of Iowa

***Johnson, Jay**, *Associate Professor of Economics*, B.S., University of Mississippi; M.A., M.B.A, Ph.D., University of Houston

Southeastern Louisiana University

Johnson, Lauren, *Instructor of Mathematics*, B.S., Louisiana State University; M.A., Louisiana State University, Shreveport; M.S., Southern University; Ph.D., Southern University

***Johnson, Monica**, *Assistant Professor of Health & Human Sciences*, B.S., University of Mississippi; M.S., Ph.D., University of Louisiana at Lafayette

***Jones, Henry**, *Professor of Music*, B.A., Yale University; D.M.A., Louisiana State University

Jones, Michael, *Professor of Marketing*, B.A., M.S., Louisiana State University; Ph.D., University of Missouri - Columbia

Joseph, Jessica, *Instructor of Library Science*, B.A., Grambling State University; MLIS, Louisiana State University; M.A., University of Phoenix

***Juban, Rusty L.** *Associate Professor of Management*, B.A., M.B.A., Southeastern Louisiana University; Ph.D., University of Texas - Arlington

K

***Kabza, Konrad**, *Instructor of Chemistry*, B.S., Barry University; Ph.D., Texas A&M University

Kabza, Lucyna, *Professor of Mathematics*, B.S., Barry University; Ph.D., Texas A&M University

***Kandalepas, Demetra**, *Instructor of Biological Sciences*, B.S., University of Toronto; M.S., Southeastern Louisiana University; Ph.D., Louisiana State University

Kelly, John C., *Instructor of Library Science*, B.A., Quincy College; M.A., University of Maryland; M.L.I.S., Louisiana State University

Kelsey, Paul, *Assistant Professor of Library Science*, B.A., Colorado College; M.L.I.S., University of Texas - Austin

Kemp, April, *Assistant Professor of Marketing*, B.A., M.B.A., Southeastern Louisiana University; Ph.D., University of South Alabama

Kerber, Patrick, *Instructor of Music*, B.M.U., Loyola University; M.M.U., University of New Orleans

***Kihm, Holly**, *Professor of Health & Human Sciences*, B.S., Ohio State University; M.A., University of Akron; Ph.D., Louisiana State University

Kimball, Elizabeth, *Instructor of Chemistry*, B.S., Southeastern Louisiana University; M.S., Louisiana State University

***Kinchen, Laurie**, *Associate Professor of Nursing*, B.S., Southeastern Louisiana University; M.S.N., Ph.D., University of South Alabama

Kirker, Jason M., *Instructor of English*, B.A., University of Notre Dame; M.A., State University of New York at Binghamton

***Klein-Ezell, Colleen E.**, *Professor of Teaching & Learning*, B.A., Louisiana Tech University; M.Ed., Southeastern Louisiana University; Ph.D., University of Southern Mississippi

Knight, Eric, *Instructor of Accounting*, B.S., Louisiana State University; M.S., University of North Texas, CPA; D.B.A., Baker College of Flint

Koutsougeras, Cris, *Professor of Computer Science*, B.S., National Tech University (Athens, Greece); M.S., University of Cincinnati - Main; Ph.D., Case Western Reserve University

***Krenn, Mario**, *Assistant Professor of Management*, B.A., Bundeshandels Akademie (Austria); M.S., Johannes Kepler University (Austria); M.B.A., Southeastern Louisiana University; Ph.D., Louisiana State University

Kuada, Emmanuel, *Instructor of English*, B.A., University of Ghana; M.A., University of Louisiana at Lafayette; Ph.D., University of Louisiana at Lafayette

***Kuhn, Lisa**, *Assistant Professor of Mathematics*, B.S., Louisiana College; M.S., Ph.D., Louisiana Tech University

***Kulkin, Heidi S.**, *Associate Professor of Health & Human Sciences*, B.A., Rhode Island College; M.S.W., Ph.D., Tulane University

Kunow, Marianna, *Instructor of Foreign Spanish*, B.A., Southeastern Louisiana University; M.A., Ph.D., Tulane University

L

Ladogana, Santino, *Instructor of Chemistry*, B.A., University of Dallas; Ph.D., University of North Texas

Lambert, Lauren, *Instructor of English*, B.A., M.A., Southeastern Louisiana University

***Landrum, Jason**, *Professor of English*, B.A., Texas A&M University; M.A., Texas Tech University; Ph.D., Oklahoma State University

Landry, Chantelle, *Instructor of Mathematics*, B.S., College of Saint Mary; M.S., University of Nebraska – Lincoln

Landry, Sharon D., *Instructor of Nursing*, B.S., M.S.N., Southeastern Louisiana University

Larsen, Keri S., *Assistant Professor of Health Studies*, B.A., Louisiana State University; M.Ed., Ph.D., University of New Orleans

Laurent, Dianna V., *Instructor of English*, B.A., M.A., Southeastern Louisiana University; Ph.D., University of Mississippi

***LeBlanc, Monique**, *Associate Professor of Psychology*, B.A., University of Southern Mississippi; M.A., Ph.D., Louisiana State University

Le Guyader, Louis, *Associate Professor of Accounting*, A.D. Princeton University; M.B.A, M. Phil., Ph.D., Columbia University

Lee, Ho-Hoon, *Professor of Industrial Technology*, B.S., M.S., Yonsei University (Seoul, Korea); Ph.D., California Institute of Technology

***Lee, Oscar**, *Associate Professor of Nursing*, B.S., University of Southern Mississippi; M.S.N., University of Southern Alabama; Ph.D., University of Southern Mississippi

***Lee, Sang Hyup**, *Professor of Economics*, B.S., M.A., Korea University; Ph.D., University of Florida

***Lee, Shanna Caprice**, *Assistant Professor of Health & Human Sciences*, B.S., M.S., Southeastern Louisiana University; Ph.D., Howard University

General Information

***Leeman, Michael**, *Assistant Professor of Health & Human Sciences*, B.A., Piedmont College; M.S., Brenau University; Ph.D., Georgia State University

***Lemoine, Melanie**, *Instructor of Special Education*, B.G.S., M.Ed., Ph.D., University of New Orleans

Lenoir, April, *Instructor of English*, B.A., State University of New York at Binghamton; M.A., University of Southern Mississippi

Lewis, Danielle, *Associate Professor of Finance*, B.A., University of Kansas; M.A., Ph.D., Kansas State University

Little, Georgina, *Instructor of Chemistry*, B.S., Russell Sage College; Ph.D., Yale University

Ljustina, Oliver, *Instructor of Biological Sciences*, B.S., Florida International University; M.S., Southeastern Louisiana University

Lopez, Terri T., *Associate Professor of Marketing*, B.A., M.B.A., Southeastern Louisiana University; D.B.A., Louisiana Tech University

Luquette, Maci, *Instructor of Biological Sciences*, B.S., M.S., Southeastern Louisiana University

M

Magee, Jamie, *Instructor of Health & Human Sciences*, B.A., Newcomb College; M.S.W., Tulane University

Manzoni, Alexander, *Instructor of English*, B.A., McMaster University; M.A., York University

Marchiafava, Kristen, *Assistant Professor of Music & Performing Arts*, B.A., Loyola University New Orleans; M.A., Mannes College Then New School for Music; Ph.D., Louisiana State University

Marino, Kristin, *Instructor of Nursing*, B.S., Southeastern Louisiana University; M.S.N., University of South Alabama

***Marino, Reschelle**, *Associate Professor of Health & Human Sciences*, B.S., Southeastern Louisiana University; M.Ed., Ph.D., University of New Orleans

Mars, Dell G., *Assistant Professor of Nursing*, B.S., M.S., Southern University; Ph.D., Hampton University

Marsh, Sean, *Instructor of English*, B.A., M.A., Southeastern Louisiana University

Martin, Christina, *Instructor of Health & Human Sciences*, B.S., Louisiana State University; M.S., Louisiana Tech University

***Massawe, Ephraim**, *Associate Professor of Industrial & Engineering Technology*, B.S., University of Dar es Salaam (Tanzania); M.S., Murdoch University (Australia); M.S., Sc.D., University of Massachusetts

Mauerman, Lawrence, *Instructor of Industrial & Engineering Technology*, A.S., Delgado Community College; B.A., University of Utah; M.S., John Hopkins University

Mayberry, Michele, *Instructor of Teaching & Learning*, B.A., M.Ed., Southeastern Louisiana University

McBride, Kristina, *Instructor of English*, B.A., M.A., Northwestern State University

McCarthy, Daniel R., *Professor of Physics*, B.S., Case Western University; Ph.D., University of Maryland

McCloskey, Ryan, *Instructor of Nursing*, A.S., Delgado Community College; B.S., M.B.A., University of New Orleans; B.S.N., Our Lady of the Lake College; M.S., McNeese State University

McDermott, Joshua, *Assistant Professor of Sociology*, B.A., Utah State University, M.A., New Mexico State University, Ph.D., University of Pittsburgh

McDowell, Patrick M., *Professor of Computer Science*, B.S., University of Idaho; M.S., University of Southern Mississippi; Ph.D., Louisiana State University

***McGraw, Molly J.**, *Professor of Sociology and Criminal Justice*, B.S., M.S., Ph.D., Louisiana State University; M.A., University of New Orleans

McKenzie, Russell, *Associate Professor of Economics*, B.S., M.S., University of Southern Mississippi; Ph.D., Oklahoma State University

McLaughlin, Sandi, *Instructor of Psychology*, B.A., University of New Orleans; M.A., Ph.D., Louisiana State University

McNeill, Gerald, *Instructor of Sociology and Criminal Justice*, B.A., M.A., University of New Orleans

***McNulty, Matthew**, *Instructor of Computer Science*, B.S., M.S., University of Mississippi

***Mense, Evan G.**, *Professor of Educational Leadership & Technology*, B.S., Missouri Southern State University; M.S., Pittsburgh State University; Ed.D., St. Louis University

***Merino, Dennis I.**, *Professor of Mathematics*, B.S., University of the Philippines; M.S., Ph.D., Johns Hopkins University

Meyer, Thomas O., *Associate Professor of Finance*, B.A., M.B.A., University of Toledo; M.A., Ph.D., Ohio State University

Mickey, Jeffrey, *Professor of Visual Arts*, B.F.A., Arkansas State University; M.F.A., University of Memphis

Miller, DeShea, *Instructor of Mathematics*, B.S., M.Ed., Southeastern Louisiana University

Miller, Elizabeth, *Instructor of Mathematics*, B.S., Southeastern Louisiana University; M.S., University of South Mississippi

Milne, Jerry, *Instructor of Mathematics*, B.S., Southeastern Louisiana University; M.S., Louisiana State University

Milsted, Ernest C., *Professor of Visual Arts*, B.G.S., B.A., Nicholls State University; M.F.A., University of Notre Dame

Milton, Noel, *Instructor of Biological Sciences*, B.S., M.S., Southeastern Louisiana University

***Mitchell, Christine M.**, *Associate Professor of English*, B.A., California State University - Fullerton; M.A., University of California - Riverside; Ph.D., University of Southwestern Louisiana

Molina, Cristina, *Associate Professor of Art*, B.A., B.F.A., Florida International University; M.F.A., University of Florida

Southeastern Louisiana University

- Monarrez, Judith**, *Instructor of English*, B.A., College of Southern Nevada; M.A., Southern New Hampshire University

General Information

Petrakis, Peter, Associate Professor of Political Science, B.A., University of Tennessee; M.S., University of Southern Mississippi; Ph.D., Louisiana State University

***Piller, Kyle R.**, Professor of Biological Sciences, B.S., University of Illinois; M.S., Southern Illinois University; Ph.D., Tulane University

Pitre, Leilya, Assistant Professor of English, B.A., M.A., Zaporizhya State University; Ph.D., Louisiana State University

***Place, Logan**, Instructor of Music, B.M.E., Henderson State University; M.M.U., D.M.U., University of North Texas

Prats, Amy, Instructor of Teaching & Learning, B.A., M.M.U., Southeastern Louisiana University

***Procopio, Claire**, Professor of Communication, B.A., M.A., Louisiana State University; Ph.D., Indiana University

***Prude, Susan**, Assistant Professor of Nursing, B.S., Southeastern Louisiana University; M.S.N., Loyola University; Ph.D., William Carey University

Q

Queen, Christopher, Assistant Professor of English, B.A., University of Arkansas at Fayetteville, M.A., Purdue University, Ph.D., University of California, Riverside

R

Randon, Elizabeth, Instructor of Marketing, B.A., Southeastern Louisiana University; M.S., Georgia State University; M.B.A., Georgia State University

***Rashidian, Ziba**, Associate Professor of English, B.A., Humboldt State University; M.F.A., American University; Ph.D., State University of New York

Rashun-Williams, Earnestine, Instructor of English, B.A., Alverno College; M.A., Alcorn State University

Reed, Michelle, Instructor of Nursing, B.S., University of Mississippi Medical Center; M.S.N., Southeastern Louisiana University

Reeves, Gregory, Instructor of Kinesiology & Health Studies, B.A., M.A., Southeastern Louisiana University

Reeves, Taylor, Instructor of Nursing, B.S., Southeastern Louisiana University, MA, Southeastern Louisiana University

Regis, Paulo, Assistant Professor of Computer Science, B.S., Universidade Regional de Blumenau; Ph.D. University of Nevada, Reno

Reno, Jared, Instructor of industrial Technology, B.S., M.S., Southeastern Louisiana University

Reyes, Edgar N., Professor of Mathematics, B.S., M.S., University of the Philippines; Ph.D., Louisiana State University

Reynolds, Matthew, Instructor of Athletic Training, B.S., M.S., Southeastern Louisiana University

Rhodes, Lauren, Instructor of Library Science, B.S. Spring Hill College; M.L.I.S., Louisiana State University

***Riddle, Kristi**, Assistant Professor of Nursing, B.S., M.S.N., Southeastern Louisiana University

Ritter, Mary, Assistant Professor of Nursing, B.S., Southeastern Louisiana University, M.A., University of Southern Mississippi, M.A., University of Oklahoma, Ph.D., University of South Alabama

Roberts, Brittany, Instructor of English, B.A., University of Florida; M.A., University of Chicago; Ph.D., University of California-Riverside

Robison, William B., Professor of History, B.A., M.A., Ph.D., Louisiana State University

***Rock, Wendy**, Assistant Professor of Health & Human Sciences, B.S., Loyola University; M.Ed., University of Texas at Austin; Ph.D., University of Holy Cross

***Rode, Edward**, Instructor of Industrial Technology, B.A., University of Southwestern Louisiana; M.A., Virginia Polytechnic Institute

***Rode-Fiorello, Erin**, Instructor of General Studies, B.A., M.Ed., Southeastern Louisiana University

Rolling, Peggy C., Professor of Family & Consumer Sciences, B.S., Southeastern Louisiana University; M.S., Ph.D., Louisiana State University

Rollins, Elizabeth, Instructor of English, B.S., M.A., Southeastern Louisiana University

Root, Teri L., Associate Professor of Marketing, B.A., University of California - Santa Barbara; Ph.D., Louisiana State University

***Ross, Levi**, Associate Professor of Kinesiology and Health Studies, B.S., University of West Florida, M.A., University of Alabama at Birmingham, Ph.D., University of Alabama at Birmingham

Rufini, Amanda, Instructor of Nursing, B.S., M.S.N., Southeastern Louisiana University

Russell II, Steele, Instructor of Computer Science, B.S., M.S., M.S., University of Louisiana - Lafayette

S

Saadeh, Mohammad, Associate Professor of Mechanical Engineering, B.S., University of Jordan; M.S., International Islamic University (Malaysia); Ph.D., University of Nevada - Las Vegas

Sabin, Joseph, Assistant Professor of Kinesiology and Health Studies, B.S.B.A., M.S., University of Southern Mississippi; J.D., University of Mississippi

Saleh, Ahmed, Instructor of Industrial and Engineering Technology, B.S., Alexandria University; M.S., Alexandria University; Ph.D., Virginia Commonwealth University

***Saucier, Craig**, Assistant Professor of History, B.A., M.A., Ph.D., Louisiana State University

***Sawyer, Paul**, Professor of English, B.A., University of Missouri; M.A., Northwestern Louisiana University; Ph.D., Illinois State University

Sawyer, Susan, Instructor of Teaching & Learning, B.A., Northwestern State University; M.S., Texas A&M University

Schepker, Steve, Professor of Theatre, B.S., Lindenwood College; M.F.A., Western Illinois University

Southeastern Louisiana University

Scherer, Mary Ellen, *Instructor of Teaching & Learning*, B.S., Louisiana State University; M.Ed., Southeastern Louisiana University

Schillage, Sarah E, *Instructor of English*, B.A., M.A., MBA, Ed.D., Southeastern Louisiana University

***Schuessler, Philip**, *Instructor of Music*, B.M.U., Birmingham Southern College; M.M.U., University of Miami; Ph.D., State University of New York - Stony Brook

Schwartz, Robert, *Assistant Professor of Music/Director of Bands*, B.A., Duquesne University; M.A., University of North Texas; Ph.D., University of Colorado Boulder

Segalla, Ashley, *Instructor of Mathematics*, B.S., M.B.A., Southeastern Louisiana University

***Sekeroglu, Kazim**, *Assistant Professor of Computer Science*, B.S., Gazi University; M.E., Southern University and A&M College, Ph.D., Louisiana State University

Sesser, David, *Associate Professor of Library Science*, B.A., Henderson State University; MLIS, University of Southern Mississippi; Ed.D., University of Little Rock

***Settembrino, Marc**, *Assistant Professor of Sociology*, B.A., M.A., University of South Florida; Ph.D., University of Central Florida

Settoon, Ronni, *Instructor of Mathematics*, B.S., Louisiana State University; M.A., Rice University

Sewell, Allanagh, *Instructor of Computer Science*, B.A., M.B.A., Southeastern Louisiana University

***Shaffer, Gary P.**, *Professor of Biological Sciences*, B.A., M.A., University of California - Santa Barbara; Ph.D., Louisiana State University

Sherman, Bruce, *Instructor of Earth Science*, B.S., Purdue University; M.S., Tulane University

Sherman, Dayne A., *Professor of Library Science*, B.A., M.A., Southeastern Louisiana University; M.L.S., Louisiana State University

Shively, Christa, *Instructor of English*, B.A., M.F.A., Colorado State University

***Shockett, Penny**, *Professor of Biological Sciences*, B.A., Bowdoin College; Ph.D., University of Massachusetts – Worcester

***Shrock, Peter**, *Associate Professor of Criminal Justice*, B.A., Wesleyan University; M.A., Indiana University; Ph.D., State University of New York, University at Albany

***Simpson, Richard W.**, *Associate Professor of Accounting*, B.A., M.T., Baylor University; Ph.D., University of Houston; CPA

***Sirikul, Bovorn**, *Associate Professor of Kinesiology*, B.G.S., M.S., Louisiana Tech University; Ph.D., University of Alabama

***Slack, Chelsea**, *Instructor of Languages & Communications*, M.A., University of Memphis; M.A.T., B.A., Southern Arkansas University

Smith, Deirdre, *Instructor of Geography*, B.S., California State Polytechnic University, M.S., Ph.D., Louisiana State University

Smith, Jeffie, *Instructor of Nursing*, B.S.N., Alcorn State University; M.S.N., University of Southern Mississippi

Smith, Jill, *Instructor of Nursing*, B.S.N., Southeastern Louisiana University, M.S.N., Western Governors University

Smith, Leah, *Instructor of Management*, B.A., Southeastern Louisiana University; M.B.A., Regis University

Smith, Peter, *Instructor of Arts*, B.A., University of Wisconsin-River Falls; M.A., Syracuse University

Smith, Roy Wade, *Assistant Professor of Education Leadership and Foundations*, B.S., Louisiana State University; M.Ed., Southeastern Louisiana University; Ph.D., Louisiana State University

***Sohr-Preston, Sara**, *Associate Professor of Psychology*, B.A., University of New Orleans; M.S., University of Louisiana - Lafayette; Ph.D., University of New Orleans

Sommerfeld, Thomas, *Professor of Chemistry*, Ph.D., University of Heidelberg (Germany)

***Soysal, Omer**, *Assistant Professor of Computer Science*, B.S., Hacettepe University; M.S., Inonu University; M.S., Southern University and A&M College; Ph.D., Louisiana State University

Speakman, Brittney, *Instructor of General Studies*, B.G.S., M.S., Southeastern Louisiana University

St. Romain, Theresa B., *Instructor of Nursing*, B.S., University of Louisiana - Monroe; M.S.N., Southeastern Louisiana University

***Stedrak, Luke**, *Associate Professor of Educational Leadership and Foundations*, B.S., Pennsylvania State University; M.A., West Virginia University; Ed.D., University of Florida

***Stillier, Volker**, *Associate Professor of Biological Sciences*, M.S., University of Gottingen (Germany); Ph.D., University of Bayreuth (Germany)

Stoulig, Tara, *Instructor of Biological Sciences*, B.S., Southeastern Louisiana University; Ph.D., Louisiana State University Health Sciences Center

Stovall, Julie, *Instructor of Accounting*, B.S., M.B.A., Southeastern Louisiana, CPA

Strickland, Kimberly, *Instructor of English*, B.A., M.A., Southeastern Louisiana University

Stutts, James, *Instructor of Industrial Technology*, B.S., M.S., Southeastern Louisiana University

***Suber, Stephen Carter**, *Professor of Music*, B.A., Principia College; M.A., Mills College; MUS.D., Indiana University

Swaim, Victor, *Instructor of Mathematics*, B.S., Middle Tennessee State University; M.S., Ph.D., Louisiana State University

Szeto, John N., *Instructor of Mathematics*, B.S., M.Ed., Southeastern Louisiana University

T

Temple, Jeffrey S., *Associate Professor of Chemistry*, B.S., Ph.D., University of Southern Mississippi

General Information

Tenhundfeld, Maggie, *Instructor of Health and Human Sciences*, B.S., Southeastern Louisiana University, M.A., Southeastern Louisiana University

Terranova, Christine Cox, *Instructor of Mathematics*, B.S., Southeastern Louisiana University; M.S., University of Louisiana - Lafayette

Thakur, Garima, *Assistant Professor of Graphic Design*, B.A., Apeejay Institute of Design, New Delhi, India, M.F.A., University of Florida

***Thomas, Penny**, *Assistant Professor of Nursing*, B.S., M.S.N., Southeastern Louisiana University; D.N.P., University of South Alabama

***Tillman, Kenneth R.**, *Professor of Nursing*, B.S., University of South Alabama; M.S.N., University of Texas Health Science Center; Ph.D., Louisiana State University

Toups, Daniel, *Instructor of Kinesiology*, B.S., University of Louisiana – Lafayette; M.B.A., University of New Orleans; M.A., Southeastern Louisiana University

***Tran, Quoc-Nam**, *Professor of Computer Science*, B.S., University of Ho Chi Minh, M.S., Asian Institute of Technology, Ph.D., Johannes Kepler University

***Traver, Andrew G.**, *Professor of History*, B.A., Eckerd College; M.S.L., Pontifical Institute of Medieval Studies; M.A., Ph.D., University of Toronto

Traylor, Ronald, *Instructor of History*, B.A., Southeastern Louisiana University; M.A., Ph.D., University of Houston

***Tufts, Susan**, *Instructor of Health Systems Management*, B.S.N., Louisiana State University Health Sciences Center; M.S.N., Loyola University

Tusa, Pamela S., *Instructor of Nursing*, B.S., William Carey College; M.S.N., Southeastern Louisiana University

Tuxhorn, Rebecca, *Instructor of Sociology*, B.A., University of Illinois; M.A., Southern Illinois University

***Tyson, Cara**, *Assistant Professor of Health and Human Sciences*, B.A., Howard University; M.A., University of Texas at Austin; Ph.D., Louisiana State University

U

***Underwood, Renee**, *Assistant Professor of Kinesiology and Health Studies*, B.A., Southeastern Louisiana University; M.A., Southeastern Louisiana University; Ph.D., Louisiana State University Health Sciences Center

***Uzoaru, Florida**, *Assistant Professor of Health and Human Sciences*, B.T., Federal University of Technology, Owerri; M.S., Queen Mary University of London; Ph.D., Saint Louis University

V

Valentino, John, *Professor of Visual Art*, B.A., Ithaca College; M.F.A., State University of New York - Buffalo

***Valverde, Roldan**, *Professor of Biological Sciences*, B.S., Universidad Nacional Costa Rica; Ph.D., Texas A&M University

VanDusen, Kristina, *Instructor of Mathematics*, B.S., University of New Orleans; Ph.D., Tulane University

†Varnado, Jonathan, *Instructor of Criminal Justice*, B.G.S., Southeastern Louisiana University; M.S., University of Cincinnati Main

***†Varnado-Sullivan, Paula**, *Professor of Psychology*, B.S., M.A., Ph.D., Louisiana State University

Vicknair, Jamie, *Instructor of Management*, B.A., M.B.A., Southeastern Louisiana University

***Vitter, Cherissa**, *Instructor of Teaching & Learning*, B.M.E., M.M. Ed., Northwestern State University of Louisiana; Ed.D., Southeastern Louisiana University

Voegel, Phillip, *Associate Professor of Chemistry & Physics*, B.A., Wabash College; Ph.D., University of Louisville

W

Waggenspack, John, *Instructor of Chemistry*, B.S., Louisiana State University; M.S., Southern Methodist University

***Waikar, Avinash M.**, *Professor of Operations Management*, B.S., M.E., Nagpur University (India); M.S., Ph.D., University of Oklahoma

Wallace, Dawn D., *Associate Professor of Management*, B.S., M.B.A., Southeastern Louisiana University; Ph.D., Louisiana State University

Waller, Ashley, *Instructor of English*, B.A., Southeastern Louisiana University; M.A., Southeastern Louisiana University

Walls, Gary, *Associate Professor of Mathematics*, B.A., M.A., University of Utah; Ph.D., University of Kansas

Walls, Rebecca, *Instructor of Mathematics*, B.S., University of Southern Mississippi; M.S., West Texas A & M University

***Walters, Letitia**, *Instructor of Curriculum & Instruction*, B.A., Southeastern Louisiana University; M.A., Simpson University; Ph.D., University of Southern Mississippi

Walton, Thomas, *Instructor of Painting*, B.F.A., Rhode Island School of Design; M.F.A, Pennsylvania Academy of the Fine Arts

Waters, Alexandra, *Instructor of English*, B.A., Lee University; M.A., York University

Weatherford, Emily, *Instructor of Nursing*, B.S., M.S.N., Southeastern Louisiana University

Webb, Nancy, *Instructor of Kinesiology and Health Studies*, B.S., Louisiana State University; M.A., Southeastern Louisiana University

Webre, Daniel, *Instructor of English*, M.A., McNeese State University; M.A., Ph.D., Princeton University

Welch, Stephanie, *Instructor of Earth Science*, B.S., M.S., Louisiana State University

Wen, Florence, *Instructor of Biological Sciences*, B.S., Syracuse University; M.S., Southeastern Louisiana University

White, Jennifer, *Instructor of Biological Sciences*, B.S., College of Charleston; M.S., Southeastern Louisiana University

White, Juliana, *Assistant Professor of Marketing*, B.S., Florida A&M University; M.S., University of South Florida; Ph.D., Louisiana State University

Southeastern Louisiana University

***White, Mary**, *Professor of Biological Sciences*, B.S., Ph.D., University of Texas - Austin

***Whitty, Kristin**, *Associate Professor of Nursing*, B.S., Ph.D., Louisiana State University; M.S.N., Southeastern Louisiana University

Wicker, Ashley, *Assistant Professor of Education Leadership and Foundations*, B.A., M.E.D., Ph.D., University of Southern Mississippi

Williams, Brandy, *Instructor of Health & Human Sciences*, B.S., M.S., Louisiana State University

Williams, June, *Associate Professor of Health & Human Sciences* B.S., Louisiana State University; M.Ed., Ph.D., University of New Orleans

Williams, Troy, *Instructor of Physics*, B.S., M.S., Ph.D., Southern University

Williams, Rashun, *Instructor of English*, B.A., Alverno College; M.A., Alcorn State University

Willingham, Rebecca, *Instructor of Nursing*, B.S., M.S.N., Southeastern Louisiana University

Wills, Randall G., *Associate Professor of Mathematics*, B.A., Lake Forrest College; M.S., Ph.D., University of Iowa

Wilson, John, *Instructor of English*, B.A., University of South Florida; M.A., Ph.D., Aberystwyth University, Wales

Winter Jr. James, *Associate Professor of Theatre*, B.A., Baldwin-Wallace College; M.F.A., University of New Orleans

[†]**Winters, Chad**, *Instructor of Theatre*, B.A., Baldwin-Wallace College; M.F.A., Pace University

Wohl, Nancy, *Instructor of English*, B.A., Oklahoma State University; M.A., Tulane University

Wood, Angela, *Assistant Professor of Health and Human Sciences*, B.S., M.S., Southern Illinois University; Ph.D., Tulane University

***Wood, Ralph J.**, *Professor of Health Studies*, B.A., M.S., Ph.D., Southern Illinois University

Woodard, Ashley, *Instructor of Health and Human Sciences*, B.S.W., Southeastern Louisiana University; M.S.W., Louisiana State University

Woodsley, John, *Associate Professor of Operations Management*, B.S., M.S., Ph.D., Louisiana State University

***Worthen, James B.**, *Professor of Psychology*, B.A., Southwest Texas State University; M.A., Ph.D., Texas Tech University

***Wright, April**, *Assistant Professor of Biological Sciences*, B.A., St. Olaf College; Ph.D., University of Texas at Austin

Wright, Jeffrey, *Associate Professor of Music & Performing Arts*, B.M.A., DePauw University, M.A., Ph.D., University of North Carolina at Chapel Hill

Wyld, David C., *Professor of Management*, B.B.A., M.B.A., Stephen F. Austin State University; D.B.A., Memphis State University

Y

Yang, Kuo-Pao, *Professor of Computer Science*, B.S., Tamkang University (Taiwan); M.S., Ph.D., Illinois Institute of Technology

***Yates, Camille**, *Associate Professor of Teaching & Learning*, B.S., Mississippi University for Women; Ed.S., M.Ed., Delta State University; M.S., Ph.D., University of Southern Mississippi

***Yoshida, Sanichiro**, *Professor of Physics*, B.S., M.S., Ph.D., Keio University (Japan)

Yuan, Lu, *Associate Professor of Occupational Safety, Health, & Environment*, B.E., Beijing Institute of Technology (China); M.S., Sc.D., University of Massachusetts - Lowell

Z

Zee, Susan, *Professor of Operations Management*, M.B.A., University of Oklahoma; Ph.D., Louisiana State University

Zeidan, Mohamed, *Associate Professor of Engineering Technology*, B.S., M.S., Alexandria University (Egypt); Ph.D., University of Nevada - Las Vegas

Zeng, Xiaodan, *Assistant Professor of Management*, M.B.A., Oklahoma State University; Ph.D., University of Missouri

***Zimlich, Susan**, *Associate Professor of Teaching and Learning*, B.S., Lewis & Clark College; Ed.S., M.A., Ph.D., University of Alabama

Adjunct Faculty and Scholars /Artists in Residence

Many, Kyle, *Adjunct Instructor of History and Political Science*, B.S., United State Military Academy at West Point

***Norton, William N.**, *Adjunct Professor Emeritus/Scholar –in-Residence of Biological Sciences*, B.S., Troy State University; M.S., Mississippi State University; Ph.D., Texas A&M University

***O'mara, Michael**, *Adjunct Faculty of Biological Sciences*, B.S. Grand Valley State University; M.S., Ph.D., Arizona State University

Shorter, Joseph, *Adjunct Instructor of History and Political Science*, B.A. Louisiana State University

Yokum, Robert, *Adjunct Instructor of History and Political Science*, B.A. Southeastern Louisiana University

Retired Faculty Members

A

- Acosta Danny J.**, *Professor of Biological Sciences*, B.S., Southeastern Louisiana University; M.S., Oklahoma State University; Ph.D., University of Southern Mississippi
- ***Adams, Nan Butcalis**, *Professor of Educational Leadership and Technology*, B.S., Centenary College; B.S., Louisiana State University; M.Ed., Ph.D., University of New Orleans
- Adelmann, Headley C.**, *Professor of Biological Sciences*, B.S., M.Ed., Southeastern Louisiana University; Ph.D., Texas A & M University
- Adelmann, Virginia**, *Instructor of Mathematics*, B.A., M.A., Southeastern Louisiana University
- Ahn, Bonnie**, *Associate Professor of Social Work*, B.S., EWHA Women's University; M.S.W., California State University - Los Angeles; Ph.D., Louisiana State University
- Alessi, Hunter Downing**, *Professor of Counseling*, B.A., M.Ed., Southeastern Louisiana University; Ph.D., University of New Orleans
- Alexander, Claudia B.**, *Associate Professor Emeritus of English*, B.A., San Jose State University; M.A., Santa Clara University; Ph.D., Kansas State University
- Allen, Barbara R.**, *Associate Professor of Transitional Studies Mathematics*, B.S., M.Ed., Southeastern Louisiana University; Ph.D., Louisiana State University
- Anderson, Barbara**, *Professor Emeritus of Health and Physical Education*, B.S., M.A., Texas Woman's University
- Anzelmo-Skelton, Nicki**, *Associate Professor of Education*, B.A., M.Ed., Wichita State University; Ed.D., Southern University
- Ashy, Madge H.**, *Associate Professor of Kinesiology and Health Studies*, B.S., M.S., Ph.D., Louisiana State University
- Athey, Bing**, *Instructor of Kinesiology and Health Studies*, B.Ed., Beijing University of Physical Education; M.A., Southeastern Louisiana University; Ph.D., University of Southern Mississippi

B

- Badeau, Jean**, *Associate Professor of Library Science*, B.A., New Mexico Institute of Mining and Technology; M.A., Northern Illinois University
- Baker, Betty S.**, *Professor of Kinesiology and Health Studies*, B.S., University of Montevallo; M.A., Ed.D., University of Alabama
- Bailey, Sandra**, *Instructor of Education*, B.A., M.Ed., Southeastern Louisiana University
- Baldwin, Beatrice O.**, *Professor of Education*, B.A., Clemson University; M.A., Ph.D., Louisiana State University
- Bancroft, Keith**, *Associate Professor of Biological Sciences*, B.S. (Honors), University of Nottingham (England); M.S., Ph.D., University of Georgia
- Bartels, Kathleen**, *Assistant Professor of Special Education*, B.A., M.C.D., Louisiana State University; Ph.D., University of New Orleans
- Bass, Charles R.**, *Associate Professor of Industrial Technology*, B.S., M.S., Northwestern State University of Louisiana
- Bass, William C.**, *Assistant Professor of English*, B.A., M.A., Stephen F. Austin State University
- Beauvais, Michael**, *Assistant Professor of Industrial Technology*, B.S., M.S., Louisiana State University; Ed.D., Texas A&M University
- Bedwell, Carole A.**, *Instructor of English*, B.A., M.A., Northeast Louisiana University
- Bellas, Stephen**, *Instructor of Communication*, B.A., Southeastern Louisiana University; M.A., University of New Orleans
- ***Bettagere, Ramesh**, *Associate Professor of Communication Sciences and Disorders*, B.S., India Institute of Speech & Hearing; M.A., Karnatak University; M.S., Baylor University; Ph.D., Ohio University
- Billings, Marie M.**, *Instructor of Nursing*, B.S.N., Northwestern State University; M.N., Louisiana State University
- ***Bidner, Sara**, *Associate Professor of Education*, B.S., University of Illinois; M.M.E., Ph.D., Louisiana State University
- Bitner, Joe L.**, *Professor of Educational Leadership & Technology*, B.B.A., M.Ed., Sam Houston State University; Ed.D., University of North Texas
- ***Blackwell, E. Harold**, *Professor of Kinesiology & Health Studies*, B.S., Delta State University; M.Ed., University of Memphis; Ed.D., University of Southern Mississippi; B.B.A., M.Ed., Sam Houston State University; Ed.D., University of North Texas
- Blackwood, C. Roy**, *Professor of Art*, B.S., Fort Hays Kansas State University; M.F.A., University of Colorado
- Blalock, Mary**, *Associate Professor of Management*, B.S., University of Southwestern Louisiana; M.S., Ph.D., Louisiana State University
- Black, Pamela**, *Instructor of Nursing*, M.S.N., Northwestern State University
- ***Bond, Emily O.**, *Professor Emeritus of Nursing*, B.S., Southeastern Louisiana University; M.S., Ph.D., University of Southern Mississippi
- Bond, William P.**, *Professor Emeritus of Biological Sciences*, B.S., Southeastern Louisiana University; M.S., Ph.D., Louisiana State University
- Bonnette, John Roy**, *Associate Professor of Industrial Technology*, B.S., M.S., Louisiana State University; Ph.D., University of New Orleans
- ***Booth, Donnie F.**, *Professor of Nursing*, B.S., Southeastern Louisiana University; M.P.H., Tulane University; Ph.D., University of Southern Mississippi

Southeastern Louisiana University

- Bostic, M. Louise**, *Professor of Industrial Technology*, B.A., Southeast Oklahoma State University; M.S., Florida State University; Ph.D., East Texas State University
- Bourg, Tammy**, *Professor of Psychology*, B.A., University of New Orleans; M.A., Ph.D., University of Houston
- *Bradford, Judith Y.**, *Professor of Nursing*, B.S.N., University of South Alabama; M.S.N., University of Texas Health Science Center - Houston; D.N.S., Louisiana State University
- Brar, Jagjit S.**, *Professor of Economics*, B.Sc., M.Sc., Panjab University (India); Ph.D., Oregon State University
- Brocato, Lori**, *Assistant Professor of Education*, B.S., M.A., Ed.S., Ph.D., Louisiana State University
- Brooks, Virginia**, *Instructor of Education*, B.A., University of New Orleans; M.Ed., Southeastern Louisiana University
- Broussard, Francis P.** *Instructor of English*, B.A., University of Southwestern Louisiana; M.A., Tulane University
- Brown, Dennis K.**, *Associate Professor of Biological Sciences*, B.A., M.A., University of Omaha; Ph.D., University of Nebraska (Lincoln)
- Brumfield, Donal James**, *Assistant Professor of Physics*, B.S., M.S., Louisiana State University
- Brumfield, Helen C.**, *Director Emeritus of Testing and Orientation*, B.A., Newcomb College; M.Ed., Louisiana State University
- *Burke, Mary Ann**, *Associate Professor of Nursing*, B.S.N., University of Southern Mississippi; M.S.N.; Southeastern Louisiana University; Ph.D., Louisiana State University
- Burns, Barbara**, *Instructor of History*, B.A., M.Ed., Southeastern Louisiana University
- Burns, Van**, *Instructor of Sociology*, B.A., Southeastern Louisiana University; M.A., University of New Orleans
- *Burstein, Alvin G.**, *Professor of Psychology*, A.B., A.M., Ph.D., University of Chicago
- Butler, Robert D.**, *Professor of Counseling*, B.S., M.Tch., Southwestern State College; Ph.D., East Texas State University
- Butler, Walter**, *Professor of Education and Department Head*, A.A., Jones Junior College; B.A., Millsaps College; M.A., Ed.D., University of Southern Mississippi
- C**
- Campbell, Suzanne**, *Instructor of English*, B.A., M.A., Emporia State University; M.A., Kansas State University
- Campo, Delta**, *Associate Professor Emeritus of Nursing*, B.S., M.Ed., Teachers College, Columbia University; Ph.D., University of Southern Mississippi
- *Canfield, Brian S.**, *Professor of Counseling*, B.A., M.A., Louisiana Tech University; Ed.D., Texas A & M University-Commerce
- *Capron, Earl W.**, *Professor of Psychology*, A.B., Rutgers University; M.A., Ph.D., University of Connecticut
- Carlile, Glenda J.**, *Assistant Professor of Nursing*, B.S., Northwestern State University of Louisiana; M.S., University of Maryland
- *Carr, Sonya C.**, *Professor of Special Education*, B.S., University of Southwestern Louisiana; Ed.M., Boston University; Ph.D., University of New Orleans
- Carruth, Paul J.** *Professor of Accounting*, B.S., Louisiana State University; M.S., University of New Orleans; Ph.D., Louisiana State University, CPA
- Carver, Belford**, *Professor Emeritus of Business Administration*, B.A., M.Ed., Southeastern Louisiana University; Ed.D., Arizona State University; C.A.M.; C.D.E.
- Causey, Patsy**, *Associate Professor and Vice President for Student Affairs*, B.A., M.Ed., Northwestern State University; Ed.D, Mississippi State University
- *Ceasar, Paul T.**, *Associate Professor of Counseling*, B.A., St. John's Seminary; M.A., Notre Dame Seminary; M.R.E., Seattle University; Ed.D., E. Texas State University
- Champagne, Wilcy J.**, *Assistant Professor of Industrial Technology*, B.S., M.S., Northwestern State University of Louisiana
- *Childers, Gary W.**, *Professor of Biological Sciences*, B.S., Southeastern Louisiana University; M.S., Ph.D., Mississippi State University
- Cole, Diane**, *Instructor of Kinesiology and Health Studies*, B.S., Bishop Otter College (England); M.A., Southeastern Louisiana University
- Cosby, Andree**, *Instructor of English*, B.A., University of New Orleans, M.A., Southeastern Louisiana University
- Couvillion, Arnold V.**, *Director of Student Publications and Instructor in Journalism*, B.A., Northwestern State University; M.A., Southeastern Louisiana University
- Coxe, Judith**, *Instructor of Nursing*, B.S., Southeastern Louisiana University; M.S.N., Louisiana State University
- Crain, John L.**, *Professor of Accounting*, B.S., M.B.A., Southeastern Louisiana University; Ph.D., University of Mississippi, CPA
- Crawford, Paul G.**, *Instructor of English*, B.S., University of Florida; B.S.E., University of Arkansas-Little Rock; M.A., University of Central Arkansas
- *Creel, Eileen L.**, *Professor of Nursing*, B.S., Southeastern Louisiana University; M.S.N., D.N.S., Louisiana State University Health Sciences Center
- Crisp, Jr., Delmas S.**, *Associate Professor Emeritus of English*, B.A., M.A., Ph.D., University of Southern Mississippi
- *Cudd, Robert M.**, *Professor of Finance*, B.S., M.B.A., Mississippi State University; Ph.D., University of Arkansas
- Culver, Lester C.**, *Instructor of Psychology*, B.A., Southeastern Louisiana University; M.S., University of New Orleans; Ph.D., New School for Social Research

General Information

*Currie, Paula S., *Associate Professor of Communication Sciences & Disorders*, B.S., Louisiana State University; M.C.D., Louisiana State University Health Sciences Center; Ph.D., University of New Orleans

D

Daigle, Babetta F., *Instructor of Management*, B.S., Mississippi State University; M.B.A., Southeastern Louisiana University

Davis, Evelyn M., *Assistant Professor of Nursing*, B.S., M.S.N., Northwestern State University of Louisiana

Davis, James B., *Director of Institutional Research and Evaluation*, B.S., M.S., Ph.D., University of Southern Mississippi

Davis, Lawrence H., *Professor Emeritus of Mathematics and Department Head Emeritus*, B.S., M.S.Ed., M.S., Northwestern State University of Louisiana; Ph.D., Louisiana State University

*Day, Rebecca R., *Associate Professor of Family & Consumer Sciences*, B.S., M.S., Northwestern State University; Ed.D., Oklahoma State University

DeFranceschi, James, *Instructor of Accounting*, B.S., M.S., Louisiana State University, CPA

Deeb, Robert, *Instructor of Industrial Technology*, B.S., Purdue University; M.S., Southeastern Louisiana University

Dembowski, Frederick, *Professor of Educational Leadership & Technology*, B.S., M.S., State University of New York – Oswego; Ed.D., University of Rochester

DesRoches, Marlene, *Instructor of Communication Sciences & Disorders*, B.A., M.Ed., Southeastern Louisiana University

Didier, Jacqueline, *Instructor of Family & Consumer Sciences*, B.S., M.S., Louisiana State University

DiMaio, Carlo, *Professor Emeritus of Foreign Languages and Literatures and Department Head Emeritus*, B.A., M.A., Ph.D., Louisiana State University

Domma, Pearl, *Associate Professor of Nursing*, Diploma, Our Lady of the Lake School of Nursing; B.S.N., University of Southwestern Louisiana; M.N., Emory University

Dorrill, George T., *Associate Professor of English*, B.A., Catholic University of America; M.A., Ph.D., University of South Carolina

*Dowie, William, *Professor Emeritus of English*, A.B., M.A., Spring Hill College; M. Div., Western College (School of Theology); Ph.D., Brandeis University

Dranguet, Charles A., *Professor of History & Political Science*, B.A., M.A., Louisiana State University

Dugopolski, Mark J., *Professor Emeritus of Mathematics*, B.S., Michigan State University; M.S., Northern Illinois University; M.S., Ph.D., University of Illinois

Dunn, James S., *Associate Professor of Biological Sciences*, B.S., University of Georgia; M.S., Purdue University; Ph.D., University of Georgia

E

Edwards, Cheryl, *Associate Professor of Education*, B.A., University of Florida; M.Ed., E.D.S., Southeastern Louisiana University; Ph.D. Louisiana State University

Effler, Charles, *Instructor of Music*, B.M.U., M.M.U., Southeastern Louisiana University

Elbers, Don C., *Associate Professor of Chemistry*, B.S., Southeastern Louisiana University; Ph.D., Louisiana State University

*Elliott, Cynthia, *Professor of Education*, B.A., Louisiana Tech University; M.Ed., Louisiana State University; Ph.D., Texas Women's University

*Ennis, Willie III, *Associate Professor of Teaching and Learning*, B.A., M.Ed., Southern University; Ph.D., Kansas State University

*Evans, Elizabeth D., *Professor of Special Education*, B.S., M.Ed., Louisiana State University; Ed.D., The University of Alabama

*Evenson, David N., *Professor of Music*, B.M., M.M., Indiana University; D.M.A., University of Arizona

F

*Faust, Joan D. *Professor of English*, B.A., Nicholls State University; M.A., Ph.D., Louisiana State University

Fellom, Martie, *Professor Emeritus of Dramatic Arts*, B.A., M.A., Southeastern Louisiana University; Ph.D., New York University

*Fick, Thomas H., *Professor of English*, B.A., Reed College; M.A., Ph.D., Indiana University

*Fiumara, Francesco, *Associate Professor of Foreign Languages*, B.A., University of Messina (Italy); University of Salamanca (Spain); Ph.D., John Hopkins University

*Forrest, Barbara C., *Professor of Philosophy*, B.A., Southeastern Louisiana University; M.A., Louisiana State University; Ph.D., Tulane University

Fortenberry, Warren D., *Professor of Special Education and Department Head*, B.S., M.A., E.D., University of Southern Mississippi

Four net, James F., *Associate Professor Emeritus of Foreign Languages*, B.A., Southeastern Louisiana University; M.A., Louisiana State University

France, Edwin J., *Assistant Professor of Foreign Languages*, B.A., University of Southwestern Louisiana; M.Ed., Louisiana State University

Tabor, Karen, *Second Grade Teacher*, B.S., M.Ed., Ed.S., Louisiana State University

Taggant, Theresa, *Third Grade Teacher*, B.A., M.Ed., Southeastern Louisiana University

Turner, Andrea L., *Second Grade Teacher*, B.A., M.Ed., Southeastern Louisiana University

Whisenhunt, Johnnie, *Fifth Grade Teacher*, B.A., M.Ed., Southeastern Louisiana University

General Information

Historical Sketch of the University

Southeastern Louisiana University began as a grass-roots movement by the people of Hammond and the surrounding area who recognized the need for an institution of higher education in order to further the educational, economic, and cultural development of southeast Louisiana. What began as a junior college supported by local taxes has developed into a major university as Southeastern has grown to meet the evolving needs of southeast Louisiana.

1925

Voters overwhelmingly approved a bond issue that created Hammond Junior College.

Operated under the auspices of the Tangipahoa Parish School Board, President Linus A. Sims opened the doors to 40 students with a faculty of three women and two men.

The two-year, co-educational institution offered basic undergraduate work in arts and sciences that culminated in a teaching certificate.

1927

Voters supported the purchase of the Hunter Leake estate on Hammond's north end.

1928

Hammond Junior College became Southeastern Louisiana College, formally adopted into the state educational systems under the control of the State Board of Education.

The purchase of sixty acres adjoining the original fifteen-acre plot provided the space to develop a suitable campus.

1934

A state bond issue provided for the construction of McGehee Hall and a gymnasium.

1937

The State Board of Education authorized curricula for four-year programs in liberal arts, teacher education, business administration, music, social sciences, and physical education.

1938

Voter approval of Act No. 388, an amendment to the 1920 Louisiana Constitution, granted Southeastern Louisiana College the same legal status as other four-year colleges. The amendment did not, however, require the state to fund Southeastern at the level of other institutions of higher education, despite strong local support

1939

The first baccalaureate degrees were conferred.

1946

The State Board made available funds to purchase seven city blocks east and west of the campus, and 275 acres of land north and northwest of the campus, increasing Southeastern's total area to approximately 365 acres.

Southeastern was formally approved and accepted into full membership in the Southern Association of Colleges and Schools (SACS) as a four-year degree-granting institution.

1948

After World War II, returning GIs caused exponential growth of the college, necessitating construction of classrooms, a student union, a cafeteria, a health center, dormitories, apartments for married students and many surplus temporary buildings donated by the federal government. The U.S. Navy contributed two steel barracks for use as dormitories.

1960

The State Board authorized Southeastern to offer master's degrees through the newly formed Division of Graduate Studies.

1967

Southeastern Louisiana University

Southeastern began awarding the Education Specialist degree.

1970

Governor John J. McKeithen signed into law the legislative act turning Southeastern Louisiana College into Southeastern Louisiana University.

Early 1970's

D Vickers Hall, the Athletics Building and the C.E. Cate Teacher Education Building were constructed.

1986

A group of faculty members launched Fanfare, a festival celebrating the arts, humanities and sciences. Since then, Fanfare has become an acclaimed month-long event, drawing nationally and internationally recognized artists and providing recognition for those closer to home. In addition to providing entertainment for the Northshore, Fanfare has an educational outreach program that works closely with local schools.

1997

More than 15,000 students registered to attend Southeastern for the fall semester.

2000

Southeastern celebrated its 75th anniversary.

2000-2001

The Southeastern Village Complex, Fayard Hall and the Claude B. Pennington, Jr., Student Activity Center were completed.

2001

Southeastern received full approval from the Board of Regents for its first new graduate degree program in more than a decade, a Master of Science in Integrated Science and Technology.

2003

Southeastern hit a record enrollment of 15,662 students.

Southeastern saw the return of football to Strawberry Stadium after an 18-year hiatus. The Lions completed the season 5-7.

2004

Southeastern began implementing portions of the Board of Regents Master Plan admissions criteria, a full year ahead of schedule and before any other schools in the state.

2005

Southeastern began its first year under the full Board of Regents Master Plan admissions criterion.

Fanfare proudly celebrated its 20th anniversary.

On August 29, just six days into the semester, Hurricane Katrina hit southeast Louisiana, devastating the parishes of St. Bernard, Orleans, Jefferson, Plaquemines and St. Tammany, as well as the Mississippi Gulf Coast. Southeastern fared well and suffered no major structural damages (although the University campus did lose many trees). After the storm, Southeastern was able to play an instrumental role in the relief effort by providing housing for the National Guard, disaster relief teams from across the country and utility workers. The University also provided housing for its displaced faculty, staff and students as it re-opened its doors on September 6. In addition, the University re-opened enrollment and provided housing for many displaced students from other universities and community colleges in the disaster area; this also included the hiring of several displaced faculty from these institutions. By the 14th class day, in spite of Katrina, Southeastern had again enrolled a record-breaking number of students: 16,068.

2006

Southeastern was given approval to offer its first doctoral level program: a doctorate in educational leadership designed to prepare a new generation of school principals, district superintendents and other administrators. The program is offered in consortium with the University of Louisiana at Lafayette.

General Information

2007

Southeastern dedicated a new campus fountain as a memorial to the victims of hurricanes Katrina and Rita and to the citizens who responded in the wake of the sister storms that ravished the Gulf Coast region in 2005.

Southeastern launched a free shuttle bus service called Lion Traxx to transport students, faculty and staff across campus.

2008

Southeastern began offering a 100 percent online bachelor's degree in nursing to registered nurses who hold associate degree or diploma programs. The program is part of a statewide adult learning initiative known as CALL (Continuum for All Louisiana Learners).

2009

Dr. John L. Crain was invested as Southeastern's 14th president.

ACT scores among incoming freshmen reached 21.7, an increase over both state (20.1) and national (21.1) averages.

2010

Southeastern announced an increase in admissions standards for the fall semester.

Southeastern's GRAD Act agreement was approved by the Louisiana Board of Regents.

2011

Southeastern announced its 100 percent online family nurse practitioner program offered through the Intercollegiate Consortium for a Master of Science in Nursing, a partnership involving Southeastern, the University of Louisiana-Lafayette and McNeese State University.

2012

Southeastern began offering a doctor of nursing practice degree in consortium with the University of Louisiana at Lafayette.

2013

Southeastern began offering a new accelerated bachelor's degree in information technology program to meet local workforce demands.

Southeastern's football team competed in and won the first NCAA playoff game in school history.

2014

Southeastern's School of Nursing celebrated its 50th anniversary.

The first phase of the \$32 million Student Union renovation and construction project opened.

2017

New Computer Science and Technology Building opens on campus. The 70,000 square foot facility houses computer science, information technology, engineering technology, industrial technology, and occupational safety, health and environment programs.

Southeastern named one of the lead higher education institutions of a public-private partnership to meet workforce demands created by the arrival of DXC Technology, the world's leading independent Information Technology (IT) services and solutions company, in southeast Louisiana.

2018

Southeastern opens two new residence halls, Ascension Hall and Twelve Oaks Hall, which feature a hybrid geothermal system that draws from 220 geothermal wells situated 300 feet underground to heat and cool 556 rooms. That system is the first of its kind for any university or state building in Louisiana and the second largest site in the country to use such a system. It is projected to reduce energy costs by more than 50 percent, and will also serve as a learning laboratory for real world experiences for students in various disciplines.

2020

COVID marked 2020 above all else. Starting on March 12, Southeastern successfully pivoted from a normal vast majority face-to-face instruction to a completely online instruction model with the global lockdown due to COVID-19. Faculty, staff and students quickly adapted to an entirely virtual structure with the resilience that marks Southeastern. Fall 2020 offered more face-to-face classes, but was still predominantly online. During this time, Southeastern successfully grew overall enrollment and reached record-breaking retention in multiple student categories.

2021

As COVID continued to affect the campus experience during 2021, Hurricane Ida made a nearly direct hit on Southeastern. The Category 4 storm caused significant damage to Southeastern, including downed trees and damage to several campus buildings. Despite the damage and extended power outages, Southeastern was able to welcome students back and resume classes in less than three weeks.

2023

Dr. William S. Wainwright was invested as Southeastern's 15th president.

Since 1925, many dedicated individuals have led Southeastern from a junior college to the vibrant university it is today: Linus A. Sims, 1925-1933; Y. L. Fontenot, 1933-1937; J. Leon Clark, 1937-1944; George W. Bond, 1944-1945; Gladney J. Tinsley, 1945-1951; Clark L. Barrow, 1952-1953; Luther Dyson, 1953-1967; J. B. Wooley, 1967-1968; Clea E. Parker, 1968-1980; J. Larry Crain, 1980-1986; G. Warren Smith, 1986-1995; Sally Clausen, 1995-2001; Randy Moffett, 2001-2008; John L. Crain, 2009-2023; William S. Wainwright, 2023-present.

University Role, Scope, and Mission

The following is the University Role, Scope, and Mission as stated in the Louisiana MASTER PLAN FOR PUBLIC POSTSECONDARY EDUCATION IN LOUISIANA 2011-revised 2012
https://regents.state.la.us/assets/docs/2013/03/MasterPlan_Revised_04-12.pdf.

The mission of Southeastern Louisiana University is to lead the educational, economic, and cultural development of Southeast Louisiana.

Southeastern Louisiana University is primarily a teaching institution whose mission is successful education of undergraduate students and services to the employers and communities in its region. Southeastern uses a traditional admission process based on courses completed, GPA, and standardized test scores.

1. Audiences

Southeastern is Responsible for Serving

- a. Residents of the greater metropolitan region, especially those of the Northshore parishes who have completed high school and are seeking either a college degree or continuing professional education.
- b. Two-year college transfer students, particularly those from Northshore Technical Community College.
- c. Regional employers, both public and private, including school districts, health care providers, local governments, private businesses, and community agencies seeking technical assistance and applied research.
- d. Economic development interests and entrepreneurs in the region.
- e. The area community, by providing a broad range of academic and cultural activities and public events.

2. Array of Programs and Services

- a. Baccalaureate arts and science programs appropriate to a teaching university with a predominantly undergraduate student body.
- b. Baccalaureate and master's level programs in the professional fields of communications, computer science, education, criminal justice, nursing and allied health, business, and social work.
- c. Limited collaborative doctoral programs focused on practice doctorate degrees to address needs of the regional audience.
- d. Support for area K-12 schools seeking college general education courses for advanced students and assistance in ensuring that their graduates are college and career ready.
- e. Services specifically designed to meet the needs of regional economic development.

3. Special Programs/Features

- a. K-12 collaboration and education through teacher and administrator education programs through the doctorate.
- b. Nursing and Allied Health programs designed to meet regional health care needs, including traditional, online, and accelerated delivery formats.
- c. Business/economic development assistance for regional start-up and existing business through academic programming, the Southeast Louisiana Business Center, and non-credit workforce education and training.
- d. Academic programs and research with direct scientific and technological applications relevant to the environment and economic development of southeast Louisiana.
- e. Unique cultural facilities and programming make Southeastern the hub of creative arts and culture in the Northshore region.

Southeastern Louisiana University's Vision 2025

Mission Statement

The Mission of Southeastern Louisiana University is to lead the educational, economic and cultural development of southeast Louisiana.

Core Values

Core Values are the underpinning of a university's culture and character, and serve as the foundation on which everything else is built. Southeastern Louisiana University's core values of Excellence and Caring reflect who we are and what you can expect from us.

Excellence:

Continually striving for the highest level of achievement; overcoming challenges with reflection, improvement, innovation and reinvention.

Caring:

Serving the needs of others with respect, understanding and compassion; affirming the differences among individuals, values and ideas.

Strategic Priorities

1. To engage a diverse population of undergraduate and graduate learners with powerful experiences.
2. To enrich and strengthen faculty and staff support and morale.
3. To increase and manage resources effectively.
4. To advance Southeastern's brand, strengths and value to all audiences.
5. To expand Southeastern's distance education offerings in response to student and programmatic needs.
6. To foster a physical environment and efficiently allocate space in a way that directly affects higher rates of recruitment and retention of students, faculty, and staff.

Strategic Priorities with Goals

1. To engage a diverse population of undergraduate and graduate learners with powerful experiences.
 - 1.1 The University will expand an aggressive and effective recruiting program that attracts and enrolls highly qualified and diverse students.
 - 1.2 The University will provide relevant curricula, emphasizing scholarship and an innovative, engaging pedagogy that creates an intellectually stimulating environment.
 - 1.3 The University will pursue non-traditional markets and non-traditional delivery methods.
 - 1.4 The University will provide programs, services, and resources and infrastructure that maximize student success.
 - 1.5 The University will create an academic environment supported by well-qualified and diverse faculty and staff.
 - 1.6 The University will create an environment that promote accessibility and safety, and supports understanding and acceptance of individual differences.
 - 1.7 The University will offer a broad array of non-degree, mission-appropriate activities that meet the needs of the region.
2. To enrich and strengthen faculty and staff support and morale.
 - 2.1 The University will provide programs, services, resources and infrastructure that support professional development.
 - 2.2 The University will recognize and reward efforts to recruit, support and engage students.
 - 2.3 The University will enhance collaborative university governance.
 - 2.4 The University will promote open and interactive communication.
3. To increase and manage resources effectively.
 - 3.1 The University will increase the number of external relationships and explore various opportunities for private philanthropic support.
 - 3.2 The University will pursue new markets and funding sources.
 - 3.3 The University will expand sustainability efforts as a means of reducing costs and enhancing educational opportunities.
4. To advance Southeastern's brand, strengths and value to all audiences.
 - 4.1 The University will engage in ongoing assessment and validation of its brand identity.
 - 4.2 The University will enhance efforts to gather narratives from the campus community to better illuminate Southeastern's brand.
 - 4.3 The University will evolve and expand its digital presence.
 - 4.4 The University will develop and launch brand advertising to targeted audiences and markets.
 - 4.5 The University will ensure consistency among all external and internal marketing and communications.
 - 4.6 The University will use innovative relationship building to enhance stakeholders' engagement.
5. To expand Southeastern's distance education offerings in response to student and programmatic needs.
 - 5.1 The University will promote and market distance education offerings.
 - 5.2 The University will increase access to and participation in distance education.
 - 5.3 The University will establish a comprehensive centralized center to support distance delivery.
 - 5.4 The University will implement focused strategies to strengthen the foundation for quality distance education.
 - 5.5 The University will increase distance learning programs for working adults.
6. To foster an environment and efficiently allocate space in a way that directly affects higher rates of recruitment and retention of students, faculty, and staff.
 - 6.1 The University will enhance the appearance and usability of campus.
 - 6.2 The University will expand and/or upgrade access to technology.
 - 6.3 The University will develop and implement a strategy for optimizing use of facilities.

University Classifications

Southeastern is categorized as a SREB Four-Year 3 institution, as a Carnegie Master's College and University I, and a SACSCOC Level V institution.

Degrees

Southeastern Louisiana University offers fifteen baccalaureate and advanced degrees: Bachelor of Arts, Bachelor of Business Administration, Bachelor of Science, Bachelor of Science in Nursing, Bachelor of Music, Bachelor of General Studies, Master of Education, Master of Arts, Master of Arts in Teaching, Master of Music, Master of Science, Master of Science in Nursing, Master of Business Administration, Doctor of Education, and Doctor of Nursing Practice. The degree awarded depends upon the major field and the department. A major is that part of a degree program which consists of a specific group of courses in a particular discipline(s) or field(s). The name of the major is usually consistent with the degree subject area. A major usually consists of 25 percent or more of total hours required in an undergraduate curriculum. Establishment of a major requires prior approval by the Board of Regents. In some cases, students can choose an area of concentration, which is an alternative track of courses within a major or option, accounting for at least 30 percent of the major requirements.

The University offers one two-year degree: Associate of Applied Sciences.

Accreditations

Southeastern Louisiana University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate, baccalaureate, master and doctoral degrees. Southeastern Louisiana University also may offer credentials such as certificates and diplomas at approved degree levels. Questions about the accreditation of Southeastern Louisiana University may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, Georgia, 30033-4097 or calling 404-679-4500, or by using information available on SACSCOC's website (www.sacscoc.org).

SACSCOC accreditation affirms the university dedicates sufficient resources, programs and services to accomplish our mission and entitles the university to receive federal funds, including research grants, scholarships and loans.

For accreditation purposes, Southeastern is a Level V institution and as such is accredited to award doctoral degrees in three or fewer academic or professional disciplines.

Specialty Accreditations

In addition to institutional accreditation, a number of degree programs in specialized fields or disciplines also have accrediting bodies. Listed below are the accrediting agencies and the Southeastern degree programs with specialized accreditation.

- [Accreditation Board for Engineering and Technology](#)

Civil Rights Compliance

It is the policy of Southeastern Louisiana University not to discriminate on the basis of race, color, religion, sex, sexual orientation, sexual identity, national origin, political affiliation, age, disability, veteran status, or genetic information in its admission and recruitment of students, educational programs and activities or employment policies. The University, in its relationship with students, faculty, and staff, always treats with absolute fairness all those who apply for membership in the Southeastern community.

This policy reflects the requirements of the Title VII of the Civil Rights Act of 1964, as amended; the Equal Employment Opportunity Act of 1972; Executive Order 11246; Title IX of the Educational Amendments of 1972; Sections 503/504 of the Rehabilitation Act of 1973, as amended; Vietnam Era Veterans Readjustment Assistance Act of 1974; Louisiana Executive Order JBE 16-11; the American's With Disabilities Act of 1990; the Civil Rights Act of 1991; and the Genetic Information Non-Discrimination Act.

Honors Program

The Honors Program is designed to prepare students to know and understand the significant ideas and events that have shaped our world and will shape the future; to have confidence in their abilities to think independently, write clearly, and speak effectively, and to be leaders in their communities and professions. It aims to prepare responsible individuals to be perpetual learners who realize their potential for a fully human, ethical, and prosperous life.

General Information

Honors students benefit from interaction with a community of peer scholars who are equally interested in achieving the most in their college careers. Additionally, under the direction and mentoring of a faculty member, Honors students culminate their college career with a significant 90 Southeastern Louisiana University research experience or artistic endeavor during their senior year. Sophomore Honors Distinction, Senior Honors Distinction, and an Honors Diploma may be earned by students in the program.

Students must apply to join the Honors Program and may do so on the Honors website (www.southeastern.edu/honors) or by contacting the Honors office. The Honors Program is open to any beginning freshman with an ACT Composite of 24 or higher and high school GPA of 3.0 or higher. University students already having 12 hours of credit or more need a university GPA of 3.0 to apply.

Study Abroad and Global Engagement

The Study Abroad and Global Engagement Office is charged with promoting Southeastern's international programs and projects. These initiatives offer opportunities for students and faculty to participate in activities with students, universities, and other institutions abroad. They afford an international dimension to the academic, cultural, and professional growth of the university and the regional community that better prepares us to play constructive roles in today's global society.

Towards these ends, the Study Abroad and Global Engagement Office collaborates with a number of administrative offices and academic departments to implement a variety of international programs. These include study abroad programs and academic and development programs in cooperation with international organizations and universities and agencies overseas.

Faculty-Led Study Abroad Programs are offered every year in several different countries for academic credits in a variety of disciplines. More than \$50,000 in scholarships for study abroad are awarded each academic year.

Linus A Sims Memorial Library

The University Library, named in memory of the institution's first president, is a modular four-story building of approximately 138,000 square feet. The building, occupied in 1986, is located near the center of campus.

The Library contains a collection of more than 1,000,000 print and electronic volumes and streaming videos, and provides access to over 400,000 print and electronic journals and newspapers. Sims Memorial is a partial depository for federal government publications. The Library participates in a state-wide network, LOUIS, providing access to the online catalogs of 47 academic libraries within Louisiana and to other electronic databases and catalogs. Sims participates in the LOUIS reciprocal borrowing program, which extends borrowing privileges to Southeastern faculty and students at participating universities throughout the state, and in the LOUIS Distance Education agreement which ensures library services to students enrolled in distance education classes.

Both traditional library services and state-of-the-art information technology, including electronic resources which may be searched remotely, are provided by Sims Library. Service to off-campus students is provided through the Library's Reference Department. Formal and informal instruction in library research skills is provided by professional librarians. The Library, open 76 hours a week, seeks to provide a safe environment conducive to research and study while also providing a culturally-rich environment to enhance the Southeastern experience. Group and private study areas are available throughout the Library. Exhibits, lectures, readings, and presentations are regularly scheduled in open areas of the Library. The Library houses a computer lab, the Archives and Center for Southeast Louisiana Studies, a mathematics lab, the iHub, and a coffee shop.

Sims Library also provides an on-site collection to support the research needs of the Turtle Cove Environmental Research Station.

Sustainability Center

Southeastern Louisiana University is committed to conserving resources and reducing the impact we have on the environment. We are making our campus greener by encouraging recycling on campus, using alternative fuel and energy sources such as geothermal and solar. Southeastern has a dedicated sustainability center, among other initiatives.

The state-of-the-art outreach center is an educational learning experience designed to introduce sustainable initiatives including a geothermal heating and cooling system, solar thermal panels, solar photovoltaic panels, wind turbine, and water reclamation ponds. Students experience an introduction to sustainable practices, LEED program, and view firsthand the functional concepts of these efforts. Visitors venture into a nonconventional, energy-neutral classroom and delve into the internal workings of each renewable-energy system. This space is air-conditioned with a pond-loop geothermal system and utilizes captured rainwater to irrigate landscape beds and flush the toilet. Sustainability Center is also the

site of the Southeastern Community Garden maintained by various student organizations.

Contact the Sustainability Office at (985) 549-3333 or email us at sustainability@southeastern.edu to learn more about sustainable initiatives and scheduling a tour of Southeastern's Sustainability

Turtle Cove Environmental Research Station

The Turtle Cove Environmental Research Station is a field research and university education and outreach program of Southeastern Louisiana University, with facilities located on two sites at Galva Canal in Manchac and on Pass Manchac in the Lake Pontchartrain estuarine ecosystem's Manchac Wildlife Management Area (WMA). Turtle Cove consists of buildings and infrastructure, equipment and supplies, and a fleet of boats of all shapes and sizes that are necessary to conduct activities in the Pontchartrain Basin, including a 40-foot pontoon boat that can carry groups of up to 30+ people. Along with these resources, Turtle Cove staff help support a variety of interdisciplinary programs at Southeastern--and other universities around the region--primary among them biology, but also including chemistry/physics, education, history, and the arts, among others. Turtle Cove's extensive university education and public outreach programs are widely renowned across the region. The main guest house (i.e., "Turtle Cove") on Pass Manchac was constructed in 1908 by Mr. Edward Schlieder, a businessman and outdoorsman from New Orleans. The estate was donated after his death to the State of Louisiana's Department of Wildlife and Fisheries (LDWF) with whom Southeastern now leases the land and facilities from since 1981 via a 99-year lease with a 25-year option. The mission of Turtle Cove is to facilitate a better understanding of the local wetland environments of Southeast Louisiana through research, university education, public outreach, and restoration activities. For more information on the station and its programs, or to make a donation, please visit our website, www.southeastern.edu/turtlecove, or contact the manager at 985-549-5008.

Baton Rouge Nursing Center

A multi-million-dollar facility for the School of Nursing was completed in December 1981, and occupied in January 1982. The building is located at 4849 Essen Lane. It provides space and resources for teaching-learning and research activities. The majority of the upper division activities of the School of Nursing are conducted at this center.

Southeastern Livingston Center

Opened in fall 2005 as a cooperative venture with the Livingston Parish School System and the citizens of Livingston Parish, the Southeastern Livingston Center, a 39,000 square foot facility, is located at 9261 Florida Boulevard in Walker, Louisiana. The mission of the center is to improve the level of education and quality of life for the citizens of Livingston Parish. The center offers a variety of educational programs including credit courses, business training, community music programs, youth programs, and summer academic camps. Link for [Southeastern Livingston Center](#).

University Health Center

The University Health Center provides care to students currently enrolled at Southeastern. The University Health Center provides treatment for minor illness and injury, physical exams, women's health, some immunizations and other services. Health promotion and wellness information are available during appointed clinic hours. All patient information is completely confidential. Medications prescribed by the practitioner must be obtained from a pharmacy at the student's expense. Any laboratory work, x-rays and certain extraordinary services may be done at a local hospital or doctor's office which also has to be paid by the student. All appointments are made on line. Please visit our website, www.southeastern.edu/health, to schedule appointments and for additional information. In case of accident or severe illness, students may report to any hospital emergency room for treatment through their personal insurance coverage.

University Counseling Center

The University Counseling Center (UCC) offers professional mental health counseling services to assist with personal and social concerns. Individual, couples, marriage, family and group counseling are available to all students, faculty and staff. The UCC staff also provides services after hours for on-campus mental health emergencies. Professional services are confidential except in cases of danger to self or others, evidence of child/elder abuse or neglect, court order, written permission of the client to disclose, or if the counselor is legally challenged by the client. The UCC staff adheres to the American Counseling Association's Code of Ethics and the Code of Ethics of the Louisiana Licensed Professional Counselors Board of Examiners. The UCC is accredited by the International Accreditation of Counseling Services.

Student Insurance

The University recommends that all students have adequate health and accident insurance. Insurance is required for all International Students.

Athletics

Intercollegiate athletics is an integral part of the university which supports the overarching mission and vision of the university.

Policies governing the intercollegiate athletic program are established by the Athletic Committee. The university is a member of the National Collegiate Athletic Association and competes at the Division I level as a member of the Southland Conference.

General Information

The Vision of the Athletic Department is to be the premier athletic department in the Southland Conference.

The mission of Southeastern Athletics is: committed to excellence in the CLASSROOM, in the COMMUNITY, and in COMPETITION with the Core Values of: Discipline, Honesty, Integrity, Respect, Accountability, and Loyalty as foundational pillars of the department.

Further information about Southeastern Athletics can be found at the following social media locations: <http://lionsports.net/>, Instagram@LionUpAthletics; Twitter@LionUpAthletics; Facebook@Southeastern_Athletics.

University Advancement

The Division of University Advancement operates to promote Southeastern, enhance its reputation, and foster volunteer involvement and private investment by creating and stewarding meaningful relationships. Advancement is comprised of five components: Advancement Services, Affiliate Accounting, Alumni Relations, University Marketing and Communications, and Development. Working closely with the Southeastern Alumni Association, the Southeastern Foundation, and the Lion Athletics Association, Advancement collaborates with the campus and external communities to advance and support the university's mission. Responsibilities of the entire division include fundraising, external university marketing and communications, and supporting programs that develop lifelong alumni connections.

University Advancement is currently located in Dyson Hall; phone number is [985-549-2239](tel:985-549-2239).

The Alumni Association

With over 72,000 graduates across the country, the Southeastern Louisiana University Alumni Association provides a lifelong connection to the University and fellow graduates through a variety of programs, services and engagement opportunities. Among the projects of the Alumni Association are Alumni Awards Banquet, class reunions, Homecoming, football and baseball tailgates, Lion4Life Launch party for graduating seniors and many chapter events. The Alumni Association also sponsors Southeastern Connect, an online community for mentorships and career development, as well as the official Southeastern ring and Lion Legacy programs.

As of July 2020, dues are no longer required to join the Southeastern Alumni Association. All graduates automatically become a part of the alumni family and are able to participate in the core engagement activities of the organization. For more information about events, chapters in your area or how to get more involved, call [1-800-SLU-ALUM](tel:1-800-SLU-ALUM), or check our website at www.southeastern.edu/alumni. We invite you to follow us on Facebook, Twitter, Instagram and LinkedIn, and keep up with what is going on at our university.

The Development Office and Southeastern Louisiana University Foundation

The Development Office connects Southeastern Louisiana University alumni and friends to philanthropic opportunities that advance the University's mission. Development staff secure these private gifts and accept them on behalf of the University through the Southeastern Louisiana University Foundation (the Foundation), which is a 501 (c) 3 corporation charged with securing, managing and stewarding private gifts in support of the University. Private support increases Southeastern's impact and extends its reach both within and beyond the region by helping make Southeastern education accessible to the greatest number of students. Together, the Development Office and the Southeastern Louisiana University Foundation serve as catalysts to transform lives by uniting generosity and vision, one relationship at a time.

For information about philanthropic opportunities at Southeastern, call [985-549-2239](tel:985-549-2239) or visit southeasternfoundation.org.

The Southeastern Channel

The Emmy-winning Southeastern Channel is Southeastern Louisiana University's official television channel, which can be seen by a potential viewing audience of 250,000 on Spectrum Cable Channel 199 in Tangipahoa, St. Tammany, Livingston and St. Helena parishes. The live 24/7 webcast and Video on Demand archives are currently viewed in 46 states and 47 countries monthly at www.thesoutheasternchannel.com. The Southeastern Channel is also streamed live on Roku, Apple TV and Amazon Fire TV. The channel can also be found on Facebook, Twitter, YouTube, and Instagram.

The Southeastern Channel has been honored as first place in the nation 11 times by College Broadcasters, Inc. at the National Student Production Awards. It's been named first-place "Best College TV Station in the South" eight times and is the only university TV station in Louisiana history to have won Emmy Awards. With a variety of educational, entertainment, informational, community, sports and student programming, the channel provides a valuable educational asset for the citizens of southeast Louisiana, as well as for the students of Southeastern, demonstrating the University's commitment to education, its students and the entire southeast Louisiana region.

The Southeastern Channel's broadcast lineup is comprised almost entirely of original programming with over 50 original series produced by staff and students, winning over 400 national, international and regional awards, including 17 awards from the Emmys, in its 19 years of existence. With its state-of-the-art facilities located at the University Center, the channel works as part of the Department of Communication and Media Studies to train students, equip them, and advance their job opportunities in the fields of television, video and film production and broadcast journalism. Channel graduates now hold jobs both on-camera and behind-the-camera at television stations and film and video production companies throughout the country and in virtually every market of the region. The channel's main mission is to help lead the educational, economic and cultural development of our region.

Office of Technology

The Office of Technology includes: Client Services, Software Development and Database Administration, and Client Connectivity. The Client Services group consists of the Customer Service Center, Desktop Support, Telephone/Data Support Center (data and phone), Student Technology Center, and Computer Equipment Resales. The Software Development and Database Administration group consists of the Database Administration Team and the Development Team. The Client Connectivity group consists of Systems Engineering, Network Development, Data Center Operations, and Telephone Operations. The mission of the Office of Technology is to enhance and effectively utilize a progressive technological infrastructure, including the enterprise resource planning system, content management system, learning management system, and communication systems; and to ensure that students, faculty and staff have the opportunity to take advantage of current and emerging technology resources in alignment with the university's mission of leading the educational, economic, and cultural development of Southeast Louisiana.

The Office of Technology serves the university as an administrative and instructional facility, providing computer support for students, faculty and staff, and supports other technology services required by the university. The Office of Technology supports more than 200 physical servers, over 200 virtual servers, 700 virtual desktops, and more than 200 terabytes of storage. These servers are used to host the university's administrative applications, the learning management systems, as well as other academic and administrative systems. As some systems are migrated to cloud services in the next few years, the number of onsite servers may be reduced. Many of the new systems rely on virtual servers and cloud-based systems.

A fiber optic backbone connects every building on campus and serves local and remote labs, classrooms, faculty, and staff offices. Fiber-optic lines to Baton Rouge, Livingston, Ruston, and downtown Hammond provide Internet and network connectivity for users and systems at those campuses. Through the use of compressed video, the university is also connected to any other campus in the state included in the Board of Regents Video Network. Three uninterruptible power supplies and redundant natural gas generators allow the data center to continue functioning in the event of a power failure. In the event of a disaster that incapacitates the data center, core administrative and academic applications can be moved quickly to back-up systems at our Business Continuity Center. University telephone services are provided through TDM and VOIP systems.

The above systems support a variety of software for programming (COBOL, C, C#, perl, python, php), database development (Oracle, PeopleSoft, MS-SQL, MySQL). Statistical packages available include SPSS and SAS.

The Southeastern network gives personnel access to supercomputers and other services via e-mail, remote access, and WWW. A 2Gbps connection through Hunt Communications serves as the primary Internet bandwidth for the main campus and dorms. A 1Gb connection through Charter provides internet access for our wireless users. A redundant multi Gb Internet connection is also available through LONI, the Louisiana Optical Network Initiative.

All students, faculty and staff are automatically assigned a network account upon registration or employment. Information about the Office of Technology and education in the use of technology is provided through online information, short courses and consultation with Client Services. Web services include HTML, php and multimedia streaming. Students are allowed to establish personal web pages under Google web services. Southeastern can be found on the web at www.southeastern.edu. The voice system can be reached at [1-800-222-7358](tel:1-800-222-7358) or [985-549-5800](tel:985-549-5800). The Office of Technology's web page is located at www.southeastern.edu/admin/technology.

High speed Internet and wireless access is also available in all university housing facilities. A secure wireless network is available to all Southeastern students, faculty and staff. Visitors and guests may also have access. To find out more about connecting to the wireless network, visit <http://www.southeastern.edu/admin/cc/wireless/index.html>.

Additional computing support is offered through local area networks and associated file servers. These networks make available word processing software and permit faculty and staff to send and receive electronic mail. Google Workspace has also been made available.

There are approximately 50 computer labs on- and off-campus for support of the students, faculty and staff. The equipment in these labs range from virtual computing stations to multi-media PCs and printers.

Open labs with 76 seats available to all students and majors are available in the Student Technology Center. A list of all labs, as well as a full list of services, can be found on the Student Technology Center website <http://www.southeastern.edu/admin/sps/>.

The Student Technology Center, which is managed by Student Productivity Services, offers an equipment checkout service to actively enrolled students. Laptops, tablets, projectors, digital cameras, digital video cameras, graphing calculators, audio recorders, device chargers and tripods are available for checkout. For a specific list of the items available and to find out how to check out this equipment visit <http://www.southeastern.edu/admin/sps/manemedia/index.html>.

A Student Computer Help Desk, also a part of the Student Technology Center, provides phone support for Southeastern students in various aspects of technology including online course issues, Internet questions, Southeastern-related information, Student Technology Fee supported software applications and e-mail account questions. Moodle, Gmail, and LEONet training are available to actively enrolled students. To schedule a session, students can sign up online at <http://www.southeastern.edu/admin/sps/training/registration/index.html>. The Student Computer Help Desk, as well as any other services provided by the Student Technology Center, can be reached by calling 985-549-2700.

General Information

Student Productivity Services is responsible for staffing and maintenance of all computer labs operated under the Student Technology Fee. Student Technology Assistants and Graduate Assistants are hired and trained to assist students with technology needs.

Southeastern employs the latest A/V technology in more than 130 classrooms throughout the campus, thus enabling instructors to deliver content-rich multimedia lectures and presentations. Webcams and PCs or laptops have also been added to all classrooms to provide virtual learning capabilities from/in all classrooms.

Center for Faculty Excellence

The Center for Faculty Excellence was established in the Fall of 1997 to promote and facilitate an environment in which teaching and learning are the subjects of serious discussion, debate, and inquiry among faculty, thereby producing a campus climate where both teaching and research are recognized as significant scholarly work. Our mission is to facilitate the professional development of faculty in their pursuit of excellence in teaching, research, and service. We achieve our mission by providing professional development opportunities in the areas of teaching and learning; sponsoring workshops, info sessions, discussions, and webinars on a variety of topics; providing instructional and technical support for electronic learning; assisting in the production of audio, video, photographic and graphic media for instructional use; and promoting appropriate pedagogical use of technologies.

Southeastern Online

Southeastern Online is a division of the Center for Faculty Excellence and works to assist the University in building quality online programs and to connect students to those programs. Southeastern Online oversees the faculty and online course certification process, as well as the Teaching Online at Southeastern course.

The Orr Research Fund

The Orr Research Endowment was established in 1984 by Dr. Guss Orr, former Dean of the School of Humanities, in memory of his parents, William H. Orr and Leona Hubbard Orr. The income from the fund is used to offset certain costs associated with the research, scholarly or creative activities of tenured faculty. The endowment is administered by the Center for Faculty Excellence and the Southeastern Foundation.

Student Accessibility Services

The mission of Student Accessibility Services is to ensure access for qualified students with disabilities, promote self-advocacy skill development, and provide guidance to the university community to enhance the understanding and support of students with disabilities.

In accordance with applicable law and University policy, Southeastern Louisiana University ensures equal opportunity for all qualified students with disabilities, without regard to disability, in the programs and services provided by the University.

SAS provides disability-related accommodations to students who are qualified and self-identify with the office. These services may include classroom accommodations, testing accommodations and the use of auxiliary aids. We work closely with other departments to facilitate these accommodations. The office also provides outreach and education to increase disability awareness within and around the Southeastern Louisiana University community.

To receive accommodations, students with disabilities must self-identify by providing current documentation from an appropriately licensed professional on official stationery regarding the nature and extent of the disability and the recommended accommodation(s). Detailed self-authentication, documentation and accommodation request information is available from Student Accessibility Services by contacting by phone at 985-549-2247 or by visiting our website at www.southeastern.edu/sas.

Policy for Official Communication by Email

Southeastern will use the university-provided e-mail accounts for addressee-specific official university communications to and among faculty, staff and students. Such e-mail would include individually-addressed messages about university business-related issues, as well as "group mail" messages such as payroll advice notices, registration appointments, notices of registration holds, etc. Requests to substitute non-Southeastern e-mail addresses for purposes of official communications will not be honored.

Email Account Ownership and Network ID Policy

Electronic mail is an information vehicle for communications within the University and between the University community and others worldwide, which provides communications and collaboration, reliability, security, and business continuity.

When a Southeastern affiliate (student, faculty, staff, etc.) no longer has an active role at the University, their University network ID and email account will be deactivated. Students who graduate from Southeastern (alumni) will retain their email account as long as it is actively used. Non-email services, such as document sharing, calendar, images, etc., will be deactivated upon non-affiliation, regardless of alumni status.

The full policy is available at https://www.southeastern.edu/resources/policies/policy_detail/network_id_email_account_deprovisioning.html.

Computer Policies

The university's computer policies for the general use of computing equipment and facilities and for World Wide Web publishing are posted on the university's website. It is the responsibility of all faculty, staff and students to be familiar with the policies and to abide by them.

SOUTHEASTERN LOUISIANA UNIVERSITY'S WORLD WIDE WEB HOME PAGE IS AN OFFICIAL PUBLICATION OF SOUTHEASTERN LOUISIANA UNIVERSITY. UNLESS OTHERWISE INDICATED, INFORMATION CONTAINED ON OFFICIAL UNIVERSITY PAGES MAY BE FREELY USED FOR NON-COMMERCIAL PURPOSES UNDER THE CONDITION THAT THE SOURCE OF THE INFORMATION BE PROPERLY ACKNOWLEDGED. TEXT AND GRAPHICS APPEARING ON OFFICIAL PAGES THAT ARE THE EXCLUSIVE PROPERTY OF SOUTHEASTERN LOUISIANA UNIVERSITY WILL BE DULY NOTED AND SHOULD NOT BE REPRODUCED WITHOUT WRITTEN PERMISSION.

Admission Criteria and Academic Regulations

This catalog is intended to give such a description of the work of the University and such a digest of its rules as are needed by the students. By the end of the academic year, a new catalog will have been issued superseding all previous catalogs. The catalog year will begin on June 1st each year.

Student Responsibility

All colleges and universities establish certain requirements which must be met before a degree is granted. These requirements concern courses, majors, minors (if needed), grades, grade point average(s), senior residency, and other stipulations with which the student must comply. Advisors, department heads, and academic deans will help a student meet these requirements, but the student is responsible for fulfilling them. It is the student's responsibility to schedule needed courses, complete prerequisites where necessary, and plan ahead so that all requirements will be fulfilled. Upon the completion of required course work, personnel of the University will determine whether or not the student has met the requirements for a degree. If the requirements have not been met, the degree will be refused until such time as they have been completed. For this reason, it is important for each student to become acquainted with the degree requirements and to remain informed of subsequent changes.

Also, it is necessary in the general administration of a university to establish broad policies and to lay down certain regulations and procedures by which they may be carried out. It is important that a student understand the policies and know the regulations and procedures which must be followed.

This catalog is presented, therefore, not only to enable prospective students and others to learn about Southeastern Louisiana University, but to state policies, requirements, regulations, and procedures in such form as will be helpful to the student. Students must abide by the current catalog for all University rules, regulations and policies.

The University Year

The University year is divided into three semesters: summer, fall, and spring. The summer semester begins in June and is completed in July. The fall semester begins in August and is completed in December. The spring semester begins in January and is completed in May. For more information, see the online University Academic Calendar.

Admission to the University

The University administers all admission programs in compliance with policies established by the University of Louisiana System Board of Supervisors and Louisiana's Board of Regents. The University reserves the right to deny admissions in instances which would be detrimental to the student or which would interfere with the capacity of other students to benefit from the educational experience. The Admissions and Readmissions Committee has the responsibility and final authority to review any question pertaining to admission and readmission.

All undergraduate applicants entering through any type of application for admission or readmission must submit the application and non-refundable application fee online via the application portal based on the following schedule.

Summer

Apply by May 1

\$20 application fee

Apply between May 1 – May 15

\$20 application + \$50 late fee

No applications accepted for Summer after May 15

Fall

Apply by July 15

\$20 application fee

Apply between July 15 – August 1

\$20 application + \$50 late fee

No applications accepted for Fall after August 1

Spring

Apply by December 1

\$20 application fee

Apply between December 1 – December 15

\$20 application + \$50 late fee

No applications accepted for Spring after December 15

Graduate applications may meet earlier deadlines. Check the graduate school websites for graduate program dates.

International students must meet earlier deadlines. See the International Student section of this catalog for specific dates.

Applicants who file early will receive information regarding early registration and orientation options. All application inquiries should be directed to: Office of Admissions, SLU 10752, Hammond, LA 70402, or admissions@southeastern.edu.

Definitions of Entry Status

Beginning Freshman – Applicant who has never attended any college or university after completing high school requirements and/or who has earned 0-29 college/university credit hours.

Transfer Student – Applicant who has attended one or more colleges or universities, other than Southeastern, after completing high school requirements.

Readmission Student – Applicant who has previously attended Southeastern after high school graduation.

Graduate Student – Applicant seeking admission to graduate studies as a new, readmission or transfer graduate student (See section on Graduate Studies).

Guest Student – Applicant seeking admission for one semester only with the intention of returning to their “home” institution.

Admission Criteria and Academic Regulations Undergraduate Applicants

To be admitted to Southeastern, the following criteria must be met:

Beginning Freshman Admission Criteria

To be fully admitted to Southeastern, first-time freshmen must complete a high school degree from a public or private high school, or a state-approved homeschool. Students must meet one of the following criteria options (A, B, C, or D):

- A. Students who complete the full 19 units of Board of Regents Core classes must meet the following criteria:
 1. Have a minimum cumulative grade point average of 2.35 on a 4.0 scale
 2. Meet one of the following criteria:
 - a. ACT composite score of at least 21
OR
 - b. GPA on Regents Core Classes of 2.0 on a 4.0 scale
OR
 - c. Complete 12 hours of Dual Enrollment credit hours with at least a 2.0 GPA
OR
 - d. SLU Dual Enrollment passing credit in any course
 3. Placement in college-level Math AND college-level English
OR
Placement in corequisite Math OR corequisite English
OR
Placement in corequisite English AND no more than 2 hours of corequisite Math
- B. Students who complete 17 or 18 units of Board of Regents Core classes must meet the following criteria:
 1. Have a minimum cumulative grade point average of 2.35 on a 4.0 scale
 2. Meet of the following criteria:
 - a. ACT composite score of at least 23
OR
 - b. GPA on Regents Core Classes of 2.5 on a 4.0 scale
OR
 - c. ACT composite score of at least 20 AND Regents Core GPA of at least 2.0 on a 4.0 scale
OR
 - d. Complete 12 hours of Dual Enrollment credit hours with at least a 2.25 GPA
OR
 - e. SLU Dual Enrollment passing credit in any course.
 3. Placement in college-level Math AND college-level English
OR
Placement in corequisite Math OR corequisite English
OR
Placement in corequisite English AND no more than 2 hours of corequisite Math
- C. Students who complete less than 17 hours of Board of Regents Core classes must meet the following criteria:
 1. Have a minimum cumulative grade point average of 2.35 on a 4.0 scale
 2. Meet one of the following criteria:
 - a. ACT composite score of at least 23
OR
 - b. GPA on Regents Core Classes of 2.5 on a 4.0 scale
OR
 - c. Complete 12 hours of Dual Enrollment credit hours with at least a 2.25 GPA
OR
 - d. SLU Dual Enrollment passing credit in any course
 3. Placement in college-level Math AND college-level English
OR
Placement in corequisite Math OR corequisite English
OR
Placement in corequisite English AND no more than 2 hours of corequisite Math
- D. Students who have GED or HiSET credentials must meet the following criteria:

Admission Criteria and Academic Regulations

1. HiSET score of at least 15 on any subtest AND score of 4 on HiSET essay
OR
NRS score level 6 on NRS approved assessment
2. Meet one of the following criteria:
 - a. ACT composite score of at least 20
OR
 - b. GPA on Regents Core Classes of 2.0 on a 4.0 scale
OR
 - c. Complete 12 hours of Dual Enrollment credit hours with at least a 2.0 GPA
OR
 - d. SLU Dual Enrollment passing credit in any course
3. Placement in college-level Math AND college-level English
OR
Placement in corequisite Math OR corequisite English
OR
Placement in corequisite English AND no more than 2 hours of corequisite Math

Additional Documentation

Beginning Freshman:

- If you graduated from a Louisiana high school before 2004 or from an out-of-state high school, you will be required to submit an official copy of your high school transcript upon applying to the university. Initial admissions decisions may be based on your six or seven-semester transcript. An official final high school transcript containing proof of high school diploma must also be submitted after graduation.
- If you took the GED, a copy of your scores and your diploma must accompany your application.
- Students must have completed the Board of Regents Core Curriculum in place at the time of their high school graduation.
- Students who graduate from a home study program must submit a copy of their home-school transcript.
- Test scores are a requirement for admission and are used for placement in English and Math. See "Placement in English" and "Placement in Mathematics" sections in this catalog for more information.
- International applicants who graduate from a non-U.S. high school must demonstrate English Language proficiency using approved test scores and must qualify for admission to a comparable university in their respective country.

All Applicants:

- All applicants must complete and submit the Proof of Immunization Compliance to the Admissions Office before full admission to the University can be granted.
- All applicants must submit official, final transcripts from all colleges and universities attended, including credit received through Dual Enrollment.

Definitions

Developmental Courses Defined

- Students earning an ACT Math component score of 18 or below will need developmental Math.
- Students earning an ACT English component score of 17 or below will need developmental English.

Developmental Course Completion Requirement

A student required to enroll in a developmental Math or English course may be required to complete the course with another college or university. Southeastern currently has a partnership with Northshore Technical Community College (NTCC) in which students may take NTCC developmental courses on Southeastern's main campus.

Regents Core Curriculum Defined

Subjects	Units	Courses
English	4	English I, II, III, and IV
Mathematics	4	One unit of Algebra I, One unit of Algebra II. One unit of Geometry. One unit from Pre-Calculus, Functions and Statistics, Calculus, Probability and Statistics, Algebra III, Trigonometry, Advanced Pre-Calculus, or a comparable advanced math.
Science	4	One unit of Biology. One unit of Chemistry. Two units from: Physical Science, Physics I, Biology II, Chemistry II, Earth Science, Environmental Science, Physics II, Agriscience II, Anatomy and Physiology, or a comparable science.
Social Studies	4	One unit of Civics or Government. One unit American History. Two units from: World History, Western Civilization, World Geography, European History. One unit from Psychology, Sociology, African American Studies, Religion I-IV (for nonpublic schools), History of Religion, Economics, or a comparable social studies.
Foreign Language	2	Two units in the same language.

Art	1	Fine Arts Survey or one unit of Art, Dance, Music, or Theatre, or a comparable art course. One combined unit of Speech III and IV.
Total	19.0	

Certain IB and AP credits may be substituted for Core courses. Contact an Admissions Counselor to get more information on possible substitutions.

Accuplacer (NG) Exam

Accuplacer is a computer-based test designed to assess an individual's knowledge of subject areas. Southeastern administers one subject area: English. This exam is used to remove developmental requirements placed on a student based on ACT scores. The Accuplacer exam may not be used in place of the ACT test that is required for Admission. The Accuplacer exam is not timed. Accuplacer exams are administered Monday through Thursday, by appointment in the Office of Testing. Students may not place out of developmental requirements if they have earned a final grade in the course (or its equivalent) at an accredited college or university. A non-refundable administrative fee of \$10 is assessed for each exam.

ACT and Accuplacer (NG) Placement Score Guide for English

Course	ACT English Score	Accuplacer NG Writing Score
English 200-Level Courses	Combined ACT composite and ACT English score of ≥ 65 and advanced standing exam	N/A
English 102	≥ 29	N/A
English 101	≥ 18	OR ≥ 254 (Effective Sept. 1, 2021)
English 100/101 – Co-Requisite	≤ 17	N/A

ALEKS Placement, Preparation and Learning (ALEKS PPL) Assessment

Southeastern Louisiana University accepts ALEKS Placement, Preparation and Learning (ALEKS PPL) Assessment to determine readiness for mathematics courses. ALEKS PPL is a web-based program that uses artificial intelligence to map a student's strengths and weaknesses. The Placement Assessment is up to 30 questions and generally takes 60-90 minutes to complete. After the Placement Assessment, an individualized Prep and Learning Module is available for students to refresh their knowledge on forgotten topics. Students then have the opportunity to reassess and improve their placement. Students pay for ALEKS with a credit card before beginning the assessment. The current fee is \$25 and includes the initial, unproctored placement assessment, the Prep and Learning Module, and four proctored assessments.

ACT and ALEKS Placement Score Guide for Mathematics

Course	ACT Math Score	ALEKS Score
MATH 100/105 OR MATH 100/107 - Co-Requisite	≥ 18	For the most recent eligibility scores, contact the Mathematics Department.
MATH 105	≥ 19	
MATH 107/108	≥ 19	
MATH 161	≥ 22	
MATH 175	≥ 25	
MATH 200	≥ 28	

Admission Appeal

Students who do not meet the regular admission criteria listed above will have an opportunity to appeal the admission decision. Admission under alternative criteria may be granted, based on life experiences, exemplary leadership, artistic ability, or a student's ability to succeed. Alternative criteria appeal forms may be obtained from the Office of Admissions. Alternative criteria appeal applications, as well as the decision made on those appeals, are honored for only the semester of original application and may not be forwarded to a future semester should the student choose not to attend. The Alternative Criteria Application and all appeal documentation must be submitted to the Office of Admissions before an appeal decision will be made by the committee.

Freshman Orientation

Freshman Orientation is a program designed to transition new students to the university environment, and it is required of any student enrolling in Southeastern for the first time and classified as a freshman (29 or fewer transferable hours earned).

The ACT

Southeastern requires official scores on the ACT from all beginning freshmen and transfer students who have fewer than 18 earned hours of college credit (non-developmental). Test results may also be required of upper-class transfer students if developmental and general education needs cannot be determined from transfer credit. The ACT battery of test scores is used for admission and placement purposes. The test may be taken more than once in order to improve scores. Southeastern's ACT college code is 1608.

The test is administered at a number of centers in Louisiana as well as centers in other states and foreign countries. Administration dates can be found on the ACT website, www.act.org, or by contacting the Office of Testing at Southeastern. Normally, the ACT is offered on a Saturday each September, October, December, February, April, and June. High school juniors and seniors who plan to enter Southeastern should register to take the test at one of these times. The necessary materials for registering to take the test may be obtained from the high school counselor, the high school principal, or the Southeastern Office of Testing. All beginning freshmen must have taken the ACT prior to registering for classes. Athletes must have taken the ACT no later than June for Fall registration and October for Spring registration. Applicants may submit official SAT scores in place of ACT. SAT scores will be converted using the concordance tables provided by College Source. Southeastern's SAT college code is 6656.

Special Program Options for High School Students and Recent High School Graduates

Dual Enrollment Program

The Dual Enrollment Program at Southeastern has entered into cooperative agreements with high schools and school systems in the region to offer dual enrollment opportunities to qualified high school students. Dual enrollment courses are hybrid courses with all content delivered online OR in person via a Southeastern Instructor/Professor. The high school teacher serves as a facilitator by assisting with student registration and enrollment, proctoring exams as necessary, and through supplemental instruction, serving as a daily learning resource for students as they assimilate course content. The Southeastern Instructor/Professor serves as the instructor of record for all dual enrollment courses. Students will earn both high school and college credit for the courses in this program with final grades appearing on the permanent transcripts of both high school and Southeastern Louisiana University. Students can earn a maximum of 36 hours of college credit through Southeastern's Dual Enrollment program. Interested students should consult with their high school counselor or principal to determine if their school has a cooperative agreement with Southeastern.

Early Admission

Early admission will be allowed if a high school student has made a B (3.0) or better average during six semesters of high school, and has an ACT composite score of at least 25, have no more than one developmental course requirement (See definition of Developmental Courses), and has been recommended by their high school principal. Upon earning 24 semester hours of college credit, the student may be granted a high school diploma upon approval by the appropriate Board of Education. The student should initiate the process by speaking with their high school counselor and then contacting the Office of Admissions. Federal (Title IV) financial aid is not available for students participating in this program.

Program for Gifted-Talented Youth

Southeastern Louisiana University offers a program for gifted-talented youths who may desire to take courses on a more advanced level in a college-oriented environment.

Selection of students is restricted to secondary grades. Students must present evidence of high intellectual or creative abilities and should possess the maturity to succeed in an adult competitive setting.

Documentation should include scores on standardized tests showing results in the 95th percentile/higher or grade placement at the 12.0 grade/higher level, or an ACT composite score of 22 or higher with no more than one developmental course requirements (See definition of Developmental Courses), and a high school transcript with at least 3.0 GPA. Evidence of creative abilities can be documented by awards in competitive performances or by recommendation of teachers. Recommendation of teachers in the specific area of desired curriculum should accompany the application. Granting of high school credit for university work is based on the applicant having met parish and state criteria for gifted-talented students and the parish regulations governing the same.

Applicants must secure written recommendations and approval of the school principal, parents or legal guardian, the department head, and the instructor of the specific course(s) in which enrollment is desired. For additional information, contact the Office of Admissions.

All fees regularly charged to part-time students will also apply to the Gifted-Talented Program. Students may enroll for a maximum of two courses per semester. Federal (Title IV) financial aid is not available for students participating in this program.

Transcripts will be maintained in the Office of Admissions and will note the nature of the program and the admission status (Gifted-Talented Program). College credit will be reserved until graduation from high school or until early admission as provided for by action of the University of Louisiana Board of Supervisors. High school students who do not successfully complete a course may not be permitted to re-enroll until graduation from high school.

Special Program for Adults (SPA) Non-Degree

Persons wishing to pursue credit courses without meeting the full requirements for admission to undergraduate status may apply to the Special Program for Adults (SPA) by completing a regular application for admission and submitting all the necessary documentation by the appropriate

deadlines. Adults who have not attended high school or college for at least three years, excluding within the last academic year SPA enrollment, may apply for participation in this non-degree program and may enroll in one or two undergraduate courses for personal growth. Applicants must have a high school diploma or the equivalent. A person who has previously attended an institution of higher education must be eligible to return to that institution to qualify for the program. Louisiana residents 60 years of age or older will be allowed to take 3 credit hours tuition-free. Admission under the SPA program is for two consecutive semesters. A new application for continuation must be submitted for additional semesters.

If accepted to the program, all university deadlines, fees, and other regulations apply to SPA enrollment. All courses taken carry full academic credit and will appear on the transcript. Courses taken during enrollment in the Special Program for Adults, however, may or may not apply to a degree should the student decide to pursue a degree in the future. The student should consult with the department head of their intended major if they decide to pursue a degree. SPA students will be required to have ACT scores on file or proof of prerequisite completion prior to scheduling any English or Mathematics courses. Students may contact the Office of Admissions for more information about the Special Program for Adults. Federal (Title IV) financial aid is not available for students participating in this program.

Special Projects/TRIO

TRIO Grants are designed and implemented to promote the educational and cultural preparation, development, and advancement of diverse populations to assist in academic success for junior high, secondary and post-secondary students. Pre-college preparation, assistance in post-secondary enrollment, and services that enhance academic and non-academic student success are included in the comprehensive array of services available for student involvement.

The Classic Upward Bound program provides the academic strength, skills, and motivation in high school students to ensure success in post-secondary education. During the school year, on certain Saturdays and during a six-week on-campus summer program, participants receive instruction in literature, composition, foreign language, mathematics, and science. Qualified high school juniors and seniors can earn college credit while working with the program.

Math-Science Upward Bound provides a center to offer a mathematics and science curriculum to high school students in a five-parish area for the purpose of preparing them to enroll in high school mathematics and science courses, and upon graduation, to enroll in a post-secondary institution in a math science curriculum. These students participate throughout the academic year through Internet-based assignments and attend a six-week summer residential program where college professors' mentor and guide their learning and research. Qualified high school juniors and seniors can earn college credit while working with the program.

The Educational Talent Search Program assists students in persisting with and completing secondary school, as well as enrolling in a post-secondary educational program. Academic and social needs of high school juniors and seniors are addressed by offering academic tutoring, LEAP remediation, and workshops in the areas of financial aid, personal and career counseling, ACT testing, enrollment, and essential life skills.

The Educational Opportunity Center targets adult citizens 19 and older by providing educational preparation through tutoring, workshops, and pre/post-testing for entrance into institutions of higher education. Other services include career exploration and financial aid assistance.

Veterans Upward Bound provides veterans with assistance and services to obtain the skills and motivation necessary to pursue a program of post-secondary education. Academic and career assessment, academic instruction and tutoring, enrollment and admission services and other enrichment activities are provided to veterans at both the main campus and at the Baton Rouge Center.

Southeastern Scholars Programs

Southeastern Louisiana University permits enrollment to superior high school students who have a proven high academic record. High school students who have an ACT composite of 24 or higher and a high school GPA of a 3.0 or better and no more than one developmental course requirement (See definition of Developmental Course requirements) can begin their college coursework at Southeastern during the summers and throughout the school year while they are still attending high school. Scholarships are available for part-time enrollment for qualified students who participate. A student may not be enrolled in Dual Enrollment courses while also enrolled as a Southeastern Scholar.

Students should not schedule any courses at the University in any subject where high school graduation requirements have not been met. Credit may be applied toward a degree when the student meets regular admission standards, including graduation from high school. Federal (Title IV) financial aid is not available for students participating in this program.

Students participating in the program must earn a minimum 3.0 cumulative and semester GPA on all Southeastern course work in order to continue receiving the scholarship. Students who are eligible to continue at Southeastern, but failed to maintain the 3.0 GPA, can continue in the program but will not receive the benefit of the scholarship. Students may request a reinstatement of the scholarship at the point that the minimum GPA requirements have been met. Students should apply for admission to the university following the appropriate application deadlines as listed.

Summer Start Program

Qualified high school graduates who have a 23 or higher ACT and 3.0 or better high school GPA, have no more than one developmental course requirement (See definition of Developmental Courses), and want to get a jumpstart on their college coursework may enroll in the Summer Start Program. Scholarship funding may be available to assist during the summer following high school graduation.

Transfer Students from Other Universities or Colleges

Eligibility

Students transferring to Southeastern from another university or college must be eligible to re-enter the college or university from which they are transferring, and they must meet the minimum scholastic standards set forth elsewhere in this Catalog for Southeastern student. Students must have their official transcripts from all institutions previously attended sent directly to the Office of Admissions (if hand carried, the transcript must be in an officially sealed envelope from the issuing institution). If a student is a veteran and was suspended, the student must be counseled by a VA representative before certification for entitlement. All suspensions from another university will be counted in the total number of suspensions. In

the absence of academic action from the last session of attendance at a previous college or university, the same standards for suspension and dismissal will be applied as for Southeastern students.

Southeastern will admit transfer students based on the following criteria:

Transfer Students with fewer than 18 transferable hours of college credit (excluding developmental / corequisite courses):

To be eligible for full admission to Southeastern, transfer students with less than 18 hours of transferable college credit earned must meet the following criteria:

- Meet the same criteria for beginning freshmen as listed in the Admission Criteria for Undergraduate Students section of this catalog AND be eligible to return to the last college or university attended.

Transfer Students with 18 or more hours of transferable college credit (excluding developmental courses):

To be eligible for full admission to Southeastern, transfer students with 18 or more hours of transferable college credit earned must meet the following criteria:

1. Transfer an associate degree or higher from a regionally accredited institution
OR
2. Meet the following criteria:
 - a. Have a minimum 2.0 cumulative transferable grade point average on all college work (excluding developmental courses)
And
 - b. Must have successfully completed a college-level English and a college-level mathematics course designed to fulfill general education requirements with a grade of "C" or better in both
OR
3. Meet the same criteria for beginning freshmen as listed on the Admission Criteria for Undergraduate Students section of this catalog AND be eligible to return to the last college or university attended.

Entry options for Transfer Students with 18 or more transferable hours that need one or more developmental courses:

Students having a 2.0 cumulative transferable grade point average, but are required to take one or more developmental courses may be admitted through an alternative path after completing one of the following options:

1. Continue enrollment at a prior institution or enroll in a community college to complete the developmental requirements prior to applying for admission as a transfer student to Southeastern.
2. Take the Accuplacer exam and obtain a passing score in all developmental requirements if no attempts at those courses have been previously made.

Note: Transfer students with 18 or more transferable hours may be required to provide official ACT scores to verify whether developmental requirements have been met.

Additional Documentation

Transfer students with fewer than 18 transferable hours earned:

See "Additional Documentation for Beginning Freshmen and Transfer Students with fewer than 18 transferable hours earned" located after the beginning freshmen criteria in this section of the catalog.

All Transfer Applicants:

All transfer applicants must provide official transcripts from all previously attended colleges and universities. International transcripts may require a course by course evaluation by an accredited agency listed with the National Association of Credential Evaluation Services (NACES) or the International Association of Universities (IAU). Transfer students are encouraged to have official transcripts from all prior colleges and universities sent 30 days before classes begin.

Evaluation of Transfer Credit

Courses evaluated by Southeastern for transfer credit from regionally accredited institutions will carry the grade earned at the institution where the courses were taken if the grading system used is comparable to Southeastern's grading system. However, credits earned at foreign colleges and universities will carry the grade of "P." Technical and vocational credits are not accepted, nor is credit accepted for varsity sports. Transfer students should become familiar with sections of this Catalog concerning the grading system, course repeat policy, and other academic regulations. The extent to which any transfer courses may be applied toward a degree at Southeastern is determined by the Academic Dean and Department Head.

A transfer student may complete requirements for graduation in the Southeastern catalog in effect at the time of enrollment as a freshman in a regionally accredited institution of higher education or any Southeastern catalog within seven years of that date, unless the student elects to change to another curriculum, or there is a break of one calendar year or more in attendance at Southeastern. If there is a break of one calendar year or more in attendance, the student is subject to the catalog in effect when re-entering, or any in effect for seven years thereafter. Students who change their curriculum will be subject to the catalog in effect when change of major occurs, or any catalog in effect for seven years thereafter.

Students who wish to transfer credits to Southeastern which were earned in a nontraditional manner, i.e., CLEP, Advanced Placement, IB Credits, or Departmental Examinations, will have these evaluated by the Office of Testing and the Office of Records and Registration. Credit will be granted for Departmental Examinations and CLEP Examinations if the course(s) are listed on the student's official transcript with a passing grade or the equivalent, and are within the policies for credit at Southeastern Louisiana University.

Advanced placement credit will be given in areas in which Southeastern normally grants such credit as shown elsewhere in this Catalog. Indication of the advanced placement credit must appear on the student's official transcript.

Transfer students who have questions concerning their transfer evaluation may request a review of the evaluation by their academic dean, their department head, the Director of Admissions, and/or the head(s) of the department in which the course(s) are offered at Southeastern. Requests must be made in writing to the Director of Admissions and must list the specific course(s) in question. The student may be required to furnish course descriptions and may be required to appear before the appropriate college or department personnel.

In order to facilitate a more efficient transfer of courses among public colleges and universities, the Louisiana Board of Regents has established a Master Course Articulation Matrix. This matrix indicates transfer equivalences of courses among Louisiana's public college and universities, and may be accessed through the Board of Regents' webpage at <https://regents.la.gov/divisions/planning-research-and-academic-affairs/academic-affairs/louisiana-transfer-degree-lt/>. It remains, however, the prerogative of the receiving institution as to whether a course will count toward a particular major, whether a particular grade is required, or whether the course will satisfy general education requirements. Students should therefore always contact Southeastern prior to transferring courses.

Questions concerning transfer credits should be referred to the Director of Admissions, SLU 10752, Hammond, LA 70402.

Acceptance of Credit Earned at a Non-Regionally Accredited Institution

In evaluating credits earned at a non-regionally accredited institution of higher learning, Southeastern considers the transfer acceptance practices of a major university or state educational agency within the state where the institution is located. Transfer Credit Practices of Designated Educational Institutions (American Association of Collegiate Registrars and Admissions Officers) is used as a guide for this purpose.

Community or Junior College Transfer Credits

All academic hours earned at a community or junior college will be posted on the Southeastern transcript upon the student's transfer. However, applicability of transfer credit to the student's Southeastern degree program is determined by the academic departments and colleges. No credit earned at a community or junior college may be used for credit at the 300 or 400 course level.

Concurrent Registration

Any Southeastern student who wishes to take courses at another college or university should obtain prior approval (Course Elsewhere Form) from the dean and department head to ensure transferability and degree credit. Work taken concurrently will independently be subject to the same regulations as transfer work, and must meet the minimum scholastic requirements as set forth for Southeastern students elsewhere in this catalog. It will be at the discretion of the dean/department head of the student's major to determine if a course not previously approved may be used toward degree credit.

The Office of Admissions will prepare Course-Elsewhere Approval Forms and, to the extent possible, cross reference numbers for the courses the student desires to take at another college/university and have transferred back to Southeastern. These forms must be signed by the student's dean and department head and returned to the Office of Admissions.

Cross-Enrollment

Southeastern has entered into cross-enrollment agreements with the following institutions: Baton Rouge Community College, Delgado Community College, Northshore Technical Community College, Nunez Community College, River Parishes Community College, Louisiana State University (Army and Air Force ROTC courses only), Southern University at Baton Rouge (regular courses as well as Navy and Marine ROTC), and Southern University of New Orleans.

Southeastern students may enroll in courses at the host institution if the courses are not offered at the home institution during the cross-enrollment semester. Southeastern students may take one course for each course taken at Southeastern, with a maximum of two courses per semester.

To cross-enroll, a Southeastern student must obtain a Cross-Enrollment Form from the Office of Admissions, work with an admissions counselor to complete the form, and then take it to the student's department head and academic dean of the student's major for approval signatures. The student should return the form to the Office of Admissions to process the request. The Cross-Enrollment Form is signed by the Director of Admissions at Southeastern and then forwarded to the host institution to complete the enrollment process. The student is registered for the course(s), and the tuition/fees for the cross-enrolled course(s) are added to the Southeastern fee statement. Any special fees (book fees, lab fees, etc.) associated with the cross-enrolled courses will also be assessed.

The Admissions Office will forward the approved form to the host institution to complete the enrollment process.

To withdraw from cross-enrolled classes, Southeastern students must follow the withdrawal procedures at the host institution. The host institution will notify Southeastern of the withdrawal and Southeastern will process the withdrawal. The withdrawal deadlines of the host institution will apply. The fee payment deadlines and refund policy of the home institution (Southeastern) will be honored. All withdrawals will be processed based on the withdrawal date provided by the host institution.

Guest Students

Students who are pursuing a degree at another institution but would like to take courses at Southeastern for one semester may be admitted as "guest students," provided they are in good standing at their "home" institution. A letter of good standing from the home institution will be required in lieu of academic transcripts. In cases of courses require prerequisites, transcripts may be required. Guest students are not eligible for Federal (Title IV) financial aid.

Readmission of Former Students

Students who have not been enrolled at Southeastern for the twelve (12) months prior to the term for which admission is sought, and students who wish to return after earning a degree at Southeastern, must file an application for readmission. Students on suspended status must also file an

Admission Criteria and Academic Regulations

application for readmission if they are returning after the required suspension period. However, students under suspension are not required to file an application for readmission if they are returning to attend a summer semester that falls within their suspension period. In addition to filing the application for readmission, former students must also have sent directly to the Admissions Office any credits they earned since last enrolled at Southeastern (if hand carried, must be in an officially sealed envelope from the issuing institution). Students must be eligible to return to the school previously attended in order to readmit to Southeastern. A non-refundable application fee is required of all students who apply for readmission to the University. An additional late fee is charged if the application is received after the established deadline.

Applicants for readmission who file early may be entitled to early register for the next semester.

International Students

All students who are not citizens of the United States or who do not possess a resident alien card are classified as international students.

All foreign nationals applying for admission to Southeastern Louisiana University should contact International Services, SLU 10752, Hammond, LA 70402, USA, or email: international@southeastern.edu for admission information. Foreign applicants must submit the following materials before eligibility for admission can be determined:

1. Application for admission accompanied by a non-refundable \$30 (thirty-dollar) U.S. currency fee.
2. Statement of financial responsibility, giving name and address of sponsor. International students are not eligible for Federal (Title IV) financial aid. Each applicant must show that they will be fully supported either by private or governmental sources.
3. An official copy of TOEFL (Test of English as a Foreign Language) or IELTS scores for all whose official language is not English. TOEFL/IELTS scores will be accepted only from the testing companies, not from the student.
4. Complete and official transcripts of high school and college work, translated into English. Where appropriate, college transcripts will require course by course evaluations completed by an agency recognized by the National Association of Credential Evaluation Services (NACES) or the International Association of Universities (IAU).

All international applicants must meet the following admissions criteria:

Beginning Freshmen

To be eligible for full admission to Southeastern, international beginning freshmen students must meet ALL of the following criteria:

1. Must have completed a recognized secondary school program with a minimum Grade Point Average of 2.35.
2. Must have taken the TOEFL or IELTS *:
 - a. Minimum TOEFL scores required - 500 paper-based, 173 computer-based, or 61 internet-based.
 - b. Minimum IELTS score required – 6.0 overall band.
3. Must have taken the ACT or SAT:
 - a. Minimum Verbal SAT of 450 or minimum 460 in Math (old format)
Minimum Writing and Language of 25 or 500 in Math (new format)
 - b. Minimum English ACT of 18 or minimum Math ACT of 19

Note* Any student who has studied in the United States for one full year in an academic program is not required to take the TOEFL or IELTS.

Transfer Applicants

Transfer students with less than 18 hours of U.S. college credit:

1. Must meet the beginning freshman admission criteria above, and
2. Must have a cumulative grade point average of 2.0 or higher on all college level work.
3. Must be eligible to return to the last college or university attended.

Transfer students with 18 or more hours of U.S. college credit:

1. Must have a cumulative grade point average of 2.0 or higher on all college level work.
2. Must be eligible to return to the last college or university attended.
3. Must have taken the TOEFL or IELTS *:
 - a. Minimum TOEFL scores required - 500 paper-based, 173 computer-based, and 61 Internet-based.
 - b. Minimum IELTS score required – 6.0 overall band.
4. Must have completed college level Math that meets the General Education Requirements.
5. Must be eligible to enroll in English 101 (those students transferring from a non-U.S. institution must submit ACT or SAT scores to determine eligibility).

Note* Any student who has studied in the United States for one full year in an academic program is not required to take the TOEFL or IELTS.

Graduate Applicants

Students wishing to seek a Master's level degree at Southeastern:

1. Must have completed a four-year U.S. bachelor's degree or a comparable degree program in a foreign country.
2. Must have taken the TOEFL or IELTS*:
3. Must meet minimum scores required by the individual departments on standardized tests (GRE, GMAT, Praxis, etc.)

4. Must meet all other requirements as set forth by the individual departments. Please see the Research and Graduate Programs page for further information. Conditional admission cannot be offered to an international student on the F1 or J1 visas.

Note* Any student who has studied in the United States for one full year in an academic program is not required to take the TOEFL or IELTS.

- Minimum TOEFL scores required - 500 paper-based, 173 computer-based, and 61 Internet-based.
- Minimum IELTS score required - 6.0 overall band.
- To gain admission into the MBA program, a student must have at least - 525 paper-based, 195 computer-based, or 75 Internet-based or IELTS score of 6.5 overall band.

In addition, all international transfer students must follow U.S. Citizenship and Immigration Service regulations in effecting the transfer of schools.

All materials must be received by the Office of Admissions, SLU 10752, Hammond, LA 70402, USA, by the following deadlines:

- For Fall Semester Entry June 1
- For Spring Semester Entry October 1
- For Summer Semester Entry March 1

University regulations require that all international students be covered by health, accident, and repatriation insurance programs. It is necessary that each international student show proof that they are currently insured by a valid health, accident, and repatriation policy from a U.S. insurance company, or enroll in the Southeastern Student Health Program at the time of registration.

International students must maintain full-time status at all times in order to comply with U.S. Citizenship and Immigration Service regulations. All international students should report to the International Services Office as soon as possible after arrival on campus.

New international students with less than 30 credit hours are required to attend the freshman orientation program as required by University regulations. All new international students are also required to attend the international orientation program.

Student-Athlete Eligibility and Retention

In order to participate in the varsity athletic program and receive athletically-related aid, a Southeastern Louisiana University student must conform to the applicable rules of the Southland Athletic Conference (SLC) and the National Collegiate Athletic Association (NCAA). In addition, the student-athlete must demonstrate good academic standing by being enrolled in twelve (12) or more hours, and demonstrate satisfactory progress by fulfilling the requirements as stated in the NCAA Manual.

Academic Renewal

The purpose of Academic Renewal is to disregard a student's previous academic coursework that does not satisfy eligibility criteria.

Academic renewal provides an opportunity for persons in this situation to apply for a fresh undergraduate start at Southeastern Louisiana University on the basis that their prior undergraduate record be disregarded. Students begin their college study again with no credits attempted and no quality points earned. Academic Renewal may be awarded to a student only once and is applicable only to students enrolled at Southeastern.

Prior to applying for academic renewal, at least three years must have elapsed since the end of the semester in which the applicant was last in attendance at a college or university. The applicant must present evidence that the conditions, which caused the poor academic record, have changed so there is now a reasonable expectation that the applicant will perform satisfactorily if approval is given.

The Director of Admissions will consult with the appropriate academic dean for advice on specific questions. Students showing competency in any area may be allowed advanced standing (without credit) or a waiver of requirements, just as any entry-level student.

Note that the prior record remains a part of the student's overall academic record, but none of it carries forward as part of a degree program. The date of the Academic Renewal will be entered on the student's transcript along with a statement prohibiting the use of previously earned credits and quality points in meeting degree requirements, computing grade point average, graduation status, or academic honors. The student will remain subject to University policies on probation, suspension and dismissal. Students are cautioned that graduate and professional schools often compute grade point average over all hours attempted when considering applicants for admission. Students should also be aware that other institutions to which they apply may or may not accept academic renewal granted at this institution.

Application forms are available in the Office of Admissions. The deadline for applying for academic renewal is the last day that the student may resign with a grade of "W" in the first semester of the student's return to school. Supporting documentation and official transcripts from other schools must be on file to comply with the deadline.

Academic Renewal at Another University

A student who has enrolled at another regionally accredited institution of higher education under an Academic Renewal Plan (e.g., Academic Amnesty or Bankruptcy) may be considered for Academic Renewal at Southeastern provided that:

1. The Academic Renewal Plan at the previous institution meets all the provisions of the Academic Renewal Plan at Southeastern.
2. Credits earned since the student entered the program at a previous institution will be evaluated in the same manner as credits for other transfer students.

Non-Resident Fee Waiver

Out-of-State Fee Waiver Scholarship: Option 1

The University of Louisiana System approved an out-of-state fee waiver scholarship for new non-resident beginning freshmen and undergraduate transfer applicants who meet the following University of Louisiana System-defined criteria:

1. First-time freshman (less than 18 transferable credit hours completed) shall have an ACT composite score of 21 (or an equivalent SAT score) **and** a cumulative high school grade point average of 2.25 or higher. Such students must also have no need for developmental courses. Students with transfer credit must have a 2.0 transferable cumulative grade point average on all college-level work.
2. Transfer students (at least 18 transferable credit hours completed) shall have at least a 2.5 transferable cumulative grade point average on college-level course work **and** no remaining developmental course requirements. Students must be eligible to return to their previous institution.

To continue receiving the out-of-state waiver in subsequent semesters, including summer, a student must meet **all** of the following criteria:

1. Maintain status as a full-time student
2. Remain in "good" academic standing
3. Maintain satisfactory academic progress

To drop below full-time status, to stay out of school for a fall or spring semester, or to be placed on academic probation or suspension will forfeit the waiver. A student may reapply after the completion of one regular semester of full-time enrollment in "GOOD" academic standing.

Note: The following categories of students are not eligible for the waiver: Graduate students; students who have already earned a bachelor's degree; and international students.

Out-of-State Fee Waiver Scholarship: Option 2 – Performance

A student with high achievement in dance performance, debate, visual arts, music performance, or theatre performance may be granted a waiver if that student's presence will improve the educational opportunities of other students. Cheerleaders, flag corps, university-recognized or sponsored spirit groups that perform at athletic game activities, and the SGA president, as well as certain others may also be considered in this group. The applying student must meet each of the following criteria:

1. Demonstrate high achievement in the appropriate performance area.
2. Have a cumulative minimum grade point average of 2.5 on a 4.0 scale in high school, if applying prior to entering college, or on at least 24 semester hours of college work.
3. Demonstrate leadership.
4. Receive a satisfactory rating in an interview (personal or by telephone). Interview must be documented.
5. Commit to participate in the appropriate area (dance performance, debate, music performance, theatre performance) at the granting institution.

To continue receiving the out-of-state waiver in subsequent semesters, including summer, a student must meet the following criteria:

1. Maintain satisfactory participation and performance in the appropriate collegiate activity. Failure to maintain satisfactory participation and performance in one semester will result in forfeiting the waiver for subsequent semesters. After reestablishing satisfactory performance for at least one semester (not a summer semester), the student may reapply for the waiver. A student may be exempted from this requirement by an appropriately designated official of the university after one academic year of performance.
2. Maintain status as a full-time student.
3. Maintain a semester and cumulative 2.0 grade point average. If the semester or cumulative GPA falls below 2.0, the student may retain the waiver for the succeeding semester, but will forfeit the waiver if the semester or cumulative GPA is below 2.0 at the close of that succeeding semester.

Note: The following categories of students are not eligible for the waiver: Graduate students; students who have already earned a bachelor's degree; and international students.

Out-of-State Fee Waiver Scholarship: Option 3 – International

The University of Louisiana System approved an out-of-state fee waiver scholarship for new international undergraduate student applicants who meet the following System-defined criteria:

1. First-time freshmen (under 18 credits of college-level work completed)
 - a. Minimum TOEFL score of 525 paper, 195 computer 75 Internet-based or IELTS Band 6.0, and
 - b. Have completed a recognized secondary program comparable to U.S. high school graduation with a cumulative high school GPA of 2.25 or higher, and
 - c. Have no need for developmental course work.
2. Transfer students (have completed at least 18 credits of coursework in the U.S.)
 - a. Cumulative GPA of 2.5 on college level work, and
 - b. Have no need for developmental course work, and
 - c. Be eligible to return to their previous institution.

International students for whom English is a second language are required to demonstrate college-level English proficiency by submitting the minimum required TOEFL Score. International students whose official language is English shall be expected to satisfy the same requirements as students from the United States.

To continue receiving the out-of-state waiver in subsequent semesters, including summer, a student must meet all of the following criteria:

1. Maintain status as a full-time student*
2. Remain in "good" academic standing
3. Maintain satisfactory academic progress

*To drop below full-time status, to stay out of school for a fall or spring semester, or to be placed on academic probation or suspension will forfeit the waiver. A student may reapply after the completion of one regular semester of full-time enrollment in "GOOD" academic standing.

Note: The following categories of students are not eligible for the waiver: Graduate students; students who have already earned a bachelor's degree; and currently enrolled non-resident students who enrolled prior to the effective date of this scholarship (Spring 2002).

Registration Procedures

Registration

The University will allow only students in good financial standing with the University to register for classes. This policy will be enforced by the Controller's Office and will include delinquent loans, delinquent receivables, NSF checks, and other financial matters managed by the Controller's Office.

All continuing, upper-class transfer, and re-entry students are expected to participate in Priority Registration in accordance with the plans of registration established for the current year.

Students should seek advisement from their academic departments in preparing their class schedules; however, each student is responsible for understanding their curriculum and should register each semester according to its requirements.

Beginning freshmen are not permitted to participate in Priority Registration. Advising and registration for incoming freshman and transfer students (with fewer than 30 transferable hours) occurs during the Orientation Program.

Terminology, Definitions, and Responsibilities

Priority Registration: The first opportunity to schedule classes for the next semester. Usually a one-week period during the semester prior to the registration semester during which students are assigned a registration appointment based on the number of hours a student has earned and/or other priority conditions (i.e. accommodation status, honors program, athletics, veterans, etc.). All students and applicants, except freshmen applicants for the next semester, are expected to register for classes during Priority Registration. Academic advising, when required, is available to all students prior to Priority Registration.

Open Registration: The period following Priority Registration and lasting until the Final Schedule Adjustments Deadline. All eligible students, including those who did not register during Priority Registration, may register anytime 24 hours/day, 7 days/week during this period. Academic Advisors are not always available during this period so students should contact their department to schedule an advising appointment.

Freshman Orientation: A program required of all beginning freshmen and transfer freshmen to provide an overview of university policies and procedures, academic advising, and course registration.

Fee Payment Deadline: Students who have not paid by the Fee Payment Deadline will not have access to other university services such as textbook rentals, ID services, parking permits or hangtags, housing, meal plans, etc. Students are responsible for tuition and fees for all courses that remain on their schedule after this deadline. Students who need assistance with dropping their classes or canceling their enrollment by this deadline may email the Office of the Registrar at Registrar@southeastern.edu or call 1-800-222-SELU or 985-549-2244.

Cancellation: Students who have not paid (payment received and posted to the student's account) by the Fee Payment Deadline will be cancelled from their classes. Students whose classes are paid with anticipated aid must drop all their classes before the first day of classes if they do not plan to attend.

Schedule Adjustment: The final opportunity for all students to register for classes, make schedule changes, or cancel enrollment before classes begin. Students should check their schedule for any classes removed due to low enrollment. Students who decide not to attend must drop all their classes. Students will be financially responsible for all classes remaining on their schedule once Schedule Adjustment ends.

Add/Drop Period: During the add/drop period, a student may make schedule adjustments without receiving a "W" grade for each class dropped. However, a student will not be able to drop all of their classes. To drop their last class, students will need to resign from the University by submitting a Resignation Request with the Office of the Registrar. The Resignation Request and more details about the process can be found at <http://www.southeastern.edu/admin/registrar/forms-reg/resignation/index.html>. At the completion of the resignation process, students will receive a "W" grade for the last class.

Final Fee Payment Deadline: Students are responsible for tuition and fees for all courses that remain on their schedule.

First Day of Classes: Once classes begin, schedule changes will be handled as follows:

- After the add/drop period, requests for schedule changes must be submitted to the student's academic dean and must be due to extenuating circumstances.
- Students wishing to withdraw:
 - Receive a grade of "W"
 - Pay the tuition and fees for the class
- Students wishing to resign:
 - Receive a grade of "W" in all classes
 - Are refunded 75 to 0 percent of their tuition (based on University refund schedule)

Auditing Classes

Students may register for courses for credit only, or for audit only, or combined credit and audit. Courses for audit count in total hours taken to determine fees to be paid, but do not count as enrolled hours in determining enrollment status or eligibility for financial aid or scholarships.

Instructors will determine attendance regulations for classes being audited and will inform students of the regulations at the beginning of the semester.

A student wishing to change from credit to audit or audit to credit must contact the Office of the Registrar to request that change. Requests should occur within the add/drop period. Requests for change after this timeframe, must have Dean's approval.

Adding and Dropping Courses

Students may add and drop courses during all registration periods (see the online University Academic Calendar). When a course is "dropped," it no longer appears on the student's record.

After the last day of the add/drop period, and before the "last day to withdraw or resign from the University" (see the online University Academic Calendar), a student can withdraw from a course online using the self-service options in LEONet. Some students are not allowed to withdraw from courses without prior approval (graduating seniors, international students, student-athletes, graduate students). Upon submission of the online request by the deadline posted in the online University Academic Calendar, a grade of "W" is assigned to each course. Although "W" grades do not affect the grade point average, excessive withdrawals reflect negatively on the student's record, interfere with the student's progress toward graduation, and may result in the loss of scholarships and other types of financial aid. Therefore, it is recommended withdrawals be limited as described below:

Classification	Hours Earned	Maximum Number of Withdrawals
Freshman	0-29	3
Sophomore	30-59	2
Junior	60-89	1
Senior	90-119	1
Senior	120 or more	1

Laboratory and lecture classes must be taken concurrently. If during the drop/add period or during the semester, a student drops/withdraws from the lecture course, the laboratory course must also be dropped/withdrawn. Exceptions apply if the student has prior credit for the lecture course or permission from the department head of the student's major.

After the "last day to withdraw or resign from the University," a student who cannot complete a course due to circumstances beyond the student's control may contact the academic dean of their major no later than the last day of classes for that semester to determine if the criteria are met for receiving a retroactive withdrawal. Refer to the online University Academic Calendar for semester deadlines.

Changes in Major

To change a major from one curriculum to another, an undergraduate student must submit a Change of Major request using the self-service options in LEONet. If a major is being changed from "Undecided" to a degree program, the student's catalog year will not change. If a major is being changed from one degree program to another degree program, the student's catalog year will change to the catalog in effect on the date the Change of Major is submitted.

Resignation from the University

Students who must leave the University before the end of a semester should review the Resignation Procedure as outlined on Southeastern's website at <http://www.southeastern.edu/admin/registrar/forms-reg/resignation/index.html>. Prior to the last day to withdraw or resign from the University, students may submit a Resignation Request with the Office of the Registrar via this site. Upon completion of the resignation process, a grade of "W" is assigned to each course.

Students who leave the University without officially resigning from the University are considered absent for the remainder of the classes and will receive the appropriate grade(s). These grades affect the student's academic standing and may jeopardize the student's eligibility to reenter the University, receive financial aid, or transfer to another accredited institution. In addition, students leaving officially or unofficially prior to the 60 percent point in the semester are obligated to return a portion of the federal aid received for that semester.

After the last day to withdraw or resign from the University, a student who cannot complete the semester due to documented circumstances beyond the student's control may contact the academic dean of their major to determine if the criteria are met for receiving a retroactive resignation.

Leave of Absence

Southeastern considers continuous progress of an undergraduate toward his or her degree highly advisable. Departments have designed programs so that students will schedule approximately one-eighth of their degree credits each semester in an orderly and identifiable sequence. "Dropping in" and "dropping out" are permitted without formal request and without penalty except (1) when a student wishes to schedule coursework for credit in another university during a summer semester, (2) during a semester while he or she is in residence at Southeastern, or (3) in a junior college after he or she has attained rank as a junior. Students returning to Southeastern after being out a year are required to return under the current catalog unless they have, prior to their dropping out, received a leave of absence for personal reasons or for doing coursework at another institution.

When a student intends to schedule coursework at another institution during a summer semester or during a regular semester in residence, he or she must secure permission of the department head and the academic dean of their college so that both the student and the University may be assured that the work taken is creditable toward the degree program. Some departments may not grant students permission to schedule major courses elsewhere during their junior and senior years.

A student who transfers to another institution for one semester or more with the intention of returning to Southeastern should secure permission from the department head and the academic dean so that both the student and the University will be assured that the work scheduled elsewhere is creditable at Southeastern. Forms for scheduling classes elsewhere are available through the Office of Admissions.

In case of a prolonged absence from classes because of illness, injury, or pregnancy, students should discuss the situation with their academic dean. The dean will work within the University and departmental policies concerning leaves of absence for students.

Classification

Classification of students is based upon the number of semester hours earned.

The following rules govern the classification of a student:

1. Students are classified as freshmen until they have successfully completed thirty semester hours. Courses numbered 0-199 are primarily for freshmen.
2. Students are classified as sophomores after they have successfully completed at least thirty semester hours of credit. Courses numbered 200-299 are primarily for sophomores.
3. Students are classified as juniors after they have successfully completed at least sixty semester hours of credit. Courses numbered 300-399 are primarily for juniors.
4. Students are classified as seniors after they have successfully completed at least ninety semester hours of credit. Courses numbered 400-499 are primarily for seniors.

The term upperclassmen as used in this catalog refers to sophomores, juniors, and seniors.

Courses numbered 500 and above are for graduate students only and cannot be counted toward undergraduate degree credit.

Scholastic Ratings

Grading System

Students are graded on the following basis:

A – work of the highest degree of excellence

B – good work

C – average work

D – work that meets only the minimum requirements for passing

F – failing work

P – passing (certain courses only) will not carry quality points, will not be computed in the student's average, and will not at any time for any purpose be translated into grade A, B, C, or D.

I – For undergraduate courses the grade of "I" means "incomplete" and is given when the student's work to date in the course is of passing quality and the student has completed substantially all of the course requirements, but, due to circumstances beyond the student's control, an exam or other course requirement is missing. "I" grades should not be assigned unless the faculty member has knowledge of the exact circumstances (e.g., prolonged illness, accident, etc.) and believes the student can make up the work in the required time frame. The deficiency must be met by the last day of open registration of the next regular semester or summer semester unless extended by the student's academic dean. "I" grades are removed only by completion of the course work, not by repeating the course. "I" grades are computed as "F" grades until changed to a final grade. "I" grades that are not resolved by the deadline and have not been extended by the dean will be changed to a grade of "F" (or "U" if appropriate) at the conclusion of final registration. The extension of "I" grades may be for a maximum of 12 months. After an extension of 12 months following the time it was assigned, the "I" grade will be changed to an "F" (or "U" if appropriate).

AU – Courses for audit count in total hours taken to determine fees to be paid, but do not count as enrolled hours in determining enrollment status or eligibility for financial aid or scholarships.

NC – No Credit. Given when a student enrolls in a course for which he/she is ineligible to receive credit.

Students who earn credit through the College Level Examination Program (CLEP), advanced placement (AP), departmental examinations (DCE), the College Entrance Examination Board exam (CEEB) Advanced Placement Program, or IB Credit will receive a grade of "P." This grade will not be computed in the student's average, will not carry quality points, and cannot be translated into grade "A," "B," "C," or "D."

Quality Points and Grade Point Average

The quality of work is indicated by quality points. Students passing a course with a grade of "A" will receive four quality points for each semester hour credit to which the course entitles them; with a grade of "B," three quality points for each semester hour credit; with a grade of "C," two quality points for each semester hour credit; with a grade of "D," one quality point for each semester hour credit; and an "F" carries no quality points. Grade "I" is counted as an "F" until resolved into a final grade for undergraduate students.

The grade point average computed on all hours attempted is the Cumulative Grade Point Average. Hours attempted is defined as all courses completed and those courses not completed in which the grade of "F" was received. Grades of "I" are computed as "F" grades until changed to a final passing grade. Graduate students should consult the Graduate section of this Catalog for probation and suspension criteria. The Cumulative Grade Point Average is the only Grade Point Average that will appear on the academic transcript prior to graduation. The Degree Grade Point

Admission Criteria and Academic Regulations

Average is calculated using the last grade earned for courses within a curriculum and is used to determine a student's eligibility for an undergraduate degree.

A ratio of 2.0 between quality points earned and semester hours attempted is interpreted as a 2.0 (C) grade point average. To be eligible for graduation, a student must have a minimum Cumulative Grade Point Average of 2.0 (C) on all hours attempted, all required coursework in the major field, and on all Southeastern hours attempted; or, a minimum Degree Grade Point Average of 2.0 (C) on all coursework applicable to the student's curriculum; on all required course work in the major field; and on Southeastern coursework applicable to the student's curriculum. Individual academic departments or colleges may set higher grade point average requirements for graduation and/or admission into specified programs. Policies regarding requirements in specific degree programs may be found in the appropriate academic section of this catalog.

Repeating Courses

The following policy outlines the rules for repeating courses at Southeastern and details the use of repeated courses in the calculation of the different grade point averages.

1. A student who has earned a grade of "A" in any individual course is not eligible to repeat the course for additional academic credit or computation of any grade point average.
2. A student who has earned a grade of "B" or "C" in any individual course may repeat the course one time for credit in order to earn a higher grade. Both the first and second grades earned in the course will be computed in the student's Cumulative Grade Point Average. Only the last grade earned will be computed in the student's Degree Grade Point Average.
3. Any course in which a final grade of "D," "F" or "WF" has been earned may be repeated as many times as needed until a grade of "C" or better is earned. (A grade of "C" or "B" may then be repeated once. See #2 above).
4. After the course has been repeated, the last grade earned stands as the official grade. All grades for the course will appear on the student's transcript.
5. When determining academic standing, campus awards, and honors, all grades appearing on the student's transcript (Cumulative Grade Point Average) will be used.
6. Southeastern's professional schools and academic colleges may set higher repeat rules regarding admission into specified programs. Policies for admission to and graduation from specific degree programs may be found in the appropriate academic section of this catalog.
7. A student who is not eligible to repeat a course for additional academic credit but remains enrolled in this course will receive a grade of "NC" (No Credit).

Using Repeated Courses in the calculation of the Cumulative and the Degree Grade Point Averages:

Grade Point Average

All hours attempted and total quality points will be used in calculating the Cumulative Grade Point Average. Only the Cumulative Grade Point Average will appear on the academic transcript prior to graduation. Academic standing, campus awards, and honors will be determined by the Cumulative Grade Point Average.

Degree Grade Point Average

- The Degree Grade Point Average reflects only the last grade earned in courses required in the respective undergraduate degree. All prior attempts of courses repeated for credit are disregarded when calculating the Degree Grade Point Average.
- The Degree Grade Point Average in the major reflects only the last grade earned in all major courses required in the degree.
- The Degree Grade Point Average on courses taken at Southeastern reflects only the last grade earned in Southeastern courses applicable to the student's curriculum.
- The Degree Grade Point Average may be used as an alternative to the Cumulative Grade Point Average to determine a student's eligibility for an undergraduate degree. The Degree Grade Point Average is not reported with semester grades, nor does it appear on the academic transcript prior to graduation. It is not used to determine academic standing, campus awards, or honors.

Appeal and Change of Final Grade

After a final course grade is recorded in the Office of the Registrar, a change of grade must be approved in sequence by the instructor, the instructor's department head, and the academic dean of the college in which the course is offered. The online grade change request can be initiated through the instructor's LEONet Self Service. Only one electronic grade change request can be submitted on a student per course. A second grade change request would have to be completed on paper. If needed, a paper copy Change of Grade Form is available to the instructor in the Office of the Registrar. No student is ever to be in possession of a Change of Grade Form.

In the event of a contested final course grade, a student's written appeal of the grade must be submitted to the instructor within thirty (30) calendar days of final grades for the term being due, as reported in the current catalog. A letter of appeal and all materials to be considered should be provided to the instructor. The instructor will render a decision in writing within ten (10) working days or as soon thereafter as practical. If the appeal is not resolved with the instructor, within ten (10) working days, the student may submit a written appeal of the problem to the faculty member's department head, with a copy of all materials previously submitted to the instructor, with the instructor's decision. Likewise, if the department head's decision is in favor of the student, the faculty member may submit a written appeal to the department's academic dean within ten (10) working days. The department head will render a decision within ten (10) working days or as soon thereafter as practical. If the appeal is not resolved with the department head, within ten (10) working days, the student may appeal to the department's academic dean by submitting a written appeal and copies of materials previously submitted to the department head. The dean's decision will be rendered within ten (10) working days or as soon thereafter as practical. The academic dean's decision is final. (In the event the instructor is not available, the department head of the course may serve as proxy and work with the student to resolve the appeal.)

Academic Warning, Probation, Suspension and Readmission Regulations for Undergraduates*

Hours attempted is defined as all courses completed and those courses not completed in which the grade of "WF" was received. ("WF" grades were assigned at Southeastern prior to Summer 1990.) Grades of "I" are computed as "F" grades until changed to a final passing grade.

Graduate students should consult the Graduate section of this Catalog for probation and suspension criteria.

Warning

A student that has completed fewer than 30 credit hours is placed on academic warning when their semester Grade Point Average is between 2.0 and 2.4. This category of academic standing has no penalties and is merely a "guidepost" to alert the student that their Grade Point Average is approaching the point at which they would be placed on probation.

Probation

A student will be placed on academic probation whenever the student's Cumulative Grade Point Average is below a 2.0 average ("A"-4.0). A student will remain on probation until a Cumulative Grade Point Average of 2.0 or higher is achieved. Students on academic probation are eligible to return to the University and may continue to enroll in courses. Students should consult the Office of Financial Aid to see if academic probation will have an effect on their aid.

Suspension

A student on academic probation will be suspended at the conclusion of any semester in which the student's semester grade point average is less than 2.0. A beginning freshman may be put on probation at the end of the first semester of enrollment, but cannot be suspended. If a suspended student registered during the registration period for the next semester, the class schedule is cancelled. A student may appeal the suspension prior to the beginning of a regular semester. If the appeal is granted, the student reenters on academic probation.

Students suspended for the first time will be eligible to return at the end of the next regular semester (fall or spring). * Students who are suspended for the second or subsequent times will be suspended for one calendar year. * (See * exceptions below.) At the end of the suspension period, the student is eligible to return but must apply for readmission to the university before reentering.

A student may appeal a suspension for any semester during the suspension period. If the appeal is granted, the student reenters on academic probation. To be readmitted to any regular semester after two or more suspensions, the student must file an appeal. Any suspensions from another college or university prior to enrolling at Southeastern will be counted for purposes of determining the length of the suspension period.

An undergraduate student suspended from a University of Louisiana System university may not enroll in another university within the System, but may enroll in a community college. Credits earned under these conditions may be accepted for a degree at the suspending institution provided grades of "C" or higher are earned in each of the courses to be transferred. Credits earned at institutions other than a community college will not be accepted as transfer credit. To ensure minimal or no loss of credits upon return to the university, it is recommended that the student consult with their university advisor regarding the choice of courses to be taken at the community college.

Note: A student who has not attended a college or university for at least three years may wish to apply for Academic Renewal no later than the withdrawal deadline of the first semester the student returns to school. See Academic Renewal in the admissions section for specific details.

***Attending the Summer Semester While on Suspension.** Students are allowed to attend summer semester during their suspension period; however, the student is not eligible for financial aid. Students who wish to attend the summer semester during their suspension period do not need to reapply for admission to the University. If at the end of the summer semester, the student's cumulative GPA is raised to 2.0 or higher, the student is returned to good academic standing. The student may then return to the University without an appeal. However, if at the end of the summer semester, the student's cumulative GPA is not raised to 2.0 or higher, the student remains on suspension. In this case the summer suspension does not count toward the total number of suspensions. Any student who remains on suspension after the summer semester will be eligible to return based on their prior suspension period.

A student may elect to appeal the suspension to attend the summer semester. If the student is granted an appeal for the summer semester, the student returns on academic probation, and the guidelines for students on probation apply (see beginning of this section). The student must then appeal to the Financial Aid office for eligibility for aid. If a student returns to the University in the summer semester based on an appeal, and is then suspended at the end of the summer semester, the summer semester is counted in the total number of suspensions for the student.

Readmission after Suspension

A student must apply to the University for readmission at the end of any suspension period and pay the appropriate readmission fee before returning. However, the student should be aware that, after the third suspension, readmission to the University does not imply readmission to certain professional degree-seeking programs for which specific school or college requirements must be met. A student reentering the University at any time after being suspended enters on academic probation.

Information Shown on Transcripts for Students Transferring

Any transcript issued for a student on scholastic probation or suspension by an institution under the jurisdiction of the University of Louisiana Board of Supervisors shall show the effective date of such action and length of suspension.

Definition of a Full- and Part-Time Student

During a regular semester, an undergraduate student enrolled in at least twelve (12) semester hours is considered full-time. During a summer semester, a student enrolled in six (6) or more hours is considered full-time. Exceptions to this policy are the following: (1) student teaching, when this is the only course needed and when the course carries less than twelve hours credit; (2) a student enrolled in an internship course.

Interim (mini) courses (taught between semesters) are counted toward the next semester's hours.

Veterans attending the University under the G.I. Bill must maintain full-time status in any semester to be eligible for full benefits.

For students participating in an approved cross-enrollment program, the total hours enrolled at both Southeastern and the college/university at which the student is cross-enrolling will determine the students' full- or part-time enrollment status.

Maximum and Minimum Credit Hours

Full-time students may register for a maximum of nineteen (19) hours during a regular semester. If a student has an average of 3.0 on a full-time load for the previous regular semester, the student may appeal to their academic dean to request an exception to the policy. A 3.0 grade point average made during a summer semester will not be considered in interpreting this regulation. During the summer semester, the maximum number of hours for which a student may register is ten. A summer semester student may also appeal to their academic dean for an exception to this policy.

Students who hold scholarships must comply with the regulations in regard to scholastic requirements as stated in the Scholarships section of this catalog.

Students who are completing student teaching are not to register for more than fifteen semester hours during that semester.

Examinations

Final examinations are held at the end of each semester and term. No students (seniors or others) are exempt from final examinations.

Reports to Students

All students have access to their grades, unofficial transcripts, financial accounts, and other information at any time through Southeastern's web-based records and registration system, LEONet. Consequently, printed grade reports are not mailed to the students at the end of the semester.

Transcripts

Students who have attended Southeastern Louisiana University are entitled to an official transcript of the work they have completed, provided they have cleared any and all outstanding accounts with Southeastern. Students may request their official transcript through Parchment, the university's transcript provider. More information may be found at www.southeastern.edu/transcript.

Academic Integrity

The academic community relies upon a high standard of integrity in the relations among its members. To the extent that this standard is not maintained, the good of the community suffers, and injustice (sometimes serious injustice) may be done. One of the most important aspects of academic integrity concerns the just measure of each student's academic accomplishments. These are ordinarily evaluated through written examination or submitted work. For such modes of assessment to operate fairly, it is essential that the instructor be assured that the work used to evaluate the student's performance is genuinely the student's own. It is also the responsibility of the student to uphold the academic integrity of the University. The use of unauthorized material, communication with fellow students during an examination, attempting to benefit from the work of another student and similar behavior that defeats the intent of an examination or other class work is unacceptable. Cheating on examinations, plagiarism, improper acknowledgment of sources in essays and the use of a single essay or paper in more than one course without permission are considered very serious offenses and shall be grounds for disciplinary action.

If a faculty member suspects that a violation of academic integrity has occurred, the procedure below will be followed:

Academic Action - Within ten (10) working days of discovering the alleged violation the faculty member will notify the student in writing of the alleged charges and the right of appeal (see current catalog under "Appeal and Change of Final Grade"). No penalty will be imposed until the student has been informed of the charge and has been given ten (10) working days to respond and present a defense. The student must be given an opportunity to personally meet with the faculty member. In the event the faculty member is not available, the department head of the course may serve as proxy and work with the student to resolve the issue.

1. Agreement between the student and the faculty member that a violation has occurred, or no response from the student, will result in the assignment of a lower grade or an "F" to the test or assignment, or in the case of a serious violation, a lower grade or "F" for the course. This will be at the discretion of the instructor. A written report of the action taken must be filed with the department head and dean of the course involved. In addition, the dean of the course involved will provide a copy of the report to the dean and department head of the student's major and to the Office of Student Advocacy and Accountability.
2. If no agreement is reached between the faculty member and the student, the student may then appeal the decision to the department head of the course involved. The student has ten (10) working days to file such an appeal. The department head has ten (10) working days to render a decision.

3. If the student or faculty member chooses to appeal the department head's decision, the appeal is then submitted to the dean who has administrative authority over the course. The student or faculty member has ten (10) working days to file such an appeal. The dean has ten (10) working days to render a decision.
4. The appeal must be based on one or more of the following criteria:
 - a. The facts of the alleged violations were in error.
 - b. The sanction imposed was inappropriate.
5. If all appeals are denied, the original sanctions will be imposed and a written report of the action(s) taken will be filed with the Office of Student Advocacy and Accountability by the dean who has administrative authority over the course. The department head and dean of the student's major will also be provided a copy of the final report. In the event that a case cannot be resolved before the final grades are due in the Office of the Registrar, the grade of "I" will be assigned to the student for the course until the appropriate grade can be determined.

Judicial Sanctions - In addition to the academic actions described previously, if an act of academic dishonesty is particularly egregious or repeated, judicial sanctions may be imposed. If the faculty member, department head, or dean believes that a particular violation of academic integrity warrants disciplinary sanctions such as probation, suspension, or expulsion, the academic dean who has administrative authority over the course may file a written complaint with the Chief Conduct Officer for disposition of the matter through the procedures outlined in the Code of Student Conduct. If there have been repeated acts of academic dishonesty by the student, the dean of the student's major or the Chief Conduct Officer may initiate judicial procedures as outlined in the Code of Student Conduct. For the most current information, visit the Office of Student Advocacy and Accountability webpage at <https://www.southeastern.edu/admin/osaa/>.

Computer Use Policy

Southeastern Louisiana University has established a specific policy that governs the use and abuse of the university's computer resources. Students granted access to the university's computing facilities are required to abide by the established policy for computer use. A copy of the entire policy may be obtained on the University's website, www.southeastern.edu, or by contacting the Help Desk in Client Services.

The Computer Use Policy is a comprehensive policy dealing with all aspects of computer use and abuse, whether physical or logical. It applies to all university computing facilities including servers, network equipment, all client devices, and any other associated equipment, as well as software, whether developed by Southeastern or purchased. If abuse, actual or threatened, is suspected or detected, the matter will be referred to the appropriate law enforcement agency or university authority for disciplinary action. Confirmed abuse can result in criminal prosecution, dismissal, loss of computer use privilege and other such remedies as provided by established laws and policies of the university.

In general, abuse is defined as any improper use or treatment of computing facilities including, but not limited to: acts which, by mischief or carelessness, result in damage, defacement, or destruction of computing equipment; theft; unauthorized access or use; unauthorized alteration, substitution, or deletion of programs, command files, data files, documentation, or other material; wiretapping or any form of unauthorized signal interception; divulgence of confidential information or computer access methods to unauthorized persons; copyright or patent infringement; transmitting obscenities or libelous statements through or with computer systems; failure to safeguard computer systems in both their physical and logical aspects; and failure to notify management or security personnel of instances of abuse, either actual or threatened. The detailed and exact definition is specified in the university-published Computer Use Policy.

Class Attendance Regulations

Students are expected to attend regularly and punctually all classes in which they are enrolled.

Each instructor shall keep a permanent attendance record for each class through the census date (i.e. 14th class day for regular semesters and 7th class day for summer semester). Instructors should also monitor attendance throughout the semester to encourage students' attendance, participation, and retention. Attendance records should be kept for a period of five years and are subject to inspection by appropriate college or university officials.

Specific policies regarding (but not restricted to) the makeup of missed exams and/or assignments, submission of excuses for absences and the manner in which attendance and participation in class activities impact course performance shall be explicitly defined and expressed in instructors' syllabi or course information sheets. The procedure for determining attendance in online courses shall be outlined in instructors' syllabi and may include logging into class discussions and otherwise participating in class activities.

While class attendance is expected, the university recognizes there are legitimate reasons for absence from class, including, but not limited to, illness and injury, death in the immediate family, military obligations, and authorized University activities such as academic field trips, concerts or athletic events. The class instructor will determine the validity of a student's reason for an absence. An excused absence is one authorized by the University or one deemed so by the instructor. To obtain a university-excused absence, faculty and staff members in charge of university sponsored trips or activities must submit the [Off Campus Individual/Group Visitations form](#) to the Provost at least five working days prior to the trip or activity.

It is the responsibility of each student to make up necessary coursework missed by an excused absence. If a student wishes to withdraw from a class, he/she must complete the required process. A student does not withdraw from class by failing to attend. Faculty cannot withdraw students.

Credit by Examination and Advanced Placement

General

Southeastern Louisiana University assents to the opinion that persons having knowledge equivalent to that usually attained in specific courses should be advanced in level to afford a continuous challenge. In order to realize the fulfillment of this philosophy, certain policies and procedures have been adopted by the University regarding credit-by-examination and advanced placement.

Admission Criteria and Academic Regulations

Students may not receive credit through a national credit examination program such as CLEP, Dantes/ DSST, Accuplacer or through departmental credit examinations in courses in which the student has earned a final grade at an accredited college or university. Audited courses and courses taken at non-accredited institutions may be completed through credit examination.

Southeastern will accept a maximum of **45 semester hours** through non-traditional educational experiences including, but not limited to, departmental credit exams, CLEP, AP, IB, Cambridge International, military service credit, correspondence and/or extension credit. Additional information can be found in the tables following this section of the catalog.

Office of Testing

The Office of Testing is the assessment center for national and accommodation testing. Some of the major exams administered through this office include Accuplacer NG, the ACT, CLEP, DANTES/DSST (Defense Activity for Non-Traditional Education Support, DCE (Departmental Credit Exams), HISET (High School Equivalency Test), Independent Study Exams, NLN (National League of Nursing), Scantron/Castleworldwide, Praxis and the ParaPro. Students who need more information regarding these exams should contact the Office of Testing by accessing the office's website at: <https://www.southeastern.edu/admin/testing/>.

The Office of Testing also plays a major role in providing the necessary conditions for those students seeking special and/or accommodations testing. Some of the accommodations provided by the office include:

1. Low-distraction testing environment
2. Extended testing time
3. Test enlargement
4. Test reformatting
5. Orally-proctored tests

Those students seeking special and/or accommodations testing must first self-identify with the Student Accessibility Services office. More information about Student Accessibility Services can be found by visiting website at www.southeastern.edu/sas.

College Level Examination Program Subject Examinations (CLEP)

An enrolled or entering student at Southeastern may gain credit in a number of courses by completing certain subject examinations of the College Level Examination Program (CLEP) provided by Educational Testing Services and administered through the Office of Testing. CLEP examinations may be taken at Southeastern by appointment only. All tests are Computer Based, which allow for immediate test result(s) upon completion of testing. A non-refundable administrative fee is assessed for each exam.

Credit will be entered on a student's transcript upon receipt of an official score from ETS, provided the student achieves at or above the level score accepted by Southeastern. A grade of P will be given, and the course will not be computed in the student's grade point average. Unsuccessful attempts shall not be recorded against the student.

Subject examinations, acceptable scores, and credit hours currently approved for Southeastern courses are listed in the following table:

CLEP Subject Exam	Course and Number	Acceptable Score	Credit Hours
Financial Accounting	ACCT 200	50	3
American Government	POLI 201	50	3
American History I	HIST 201	50	3
American History II	HIST 202	50	3
American Literature	ENGL 232	60	3
*Biology, General	GBIO 106 and 107	50	6
College Algebra	MATH 161	50	3
English Literature	ENGL 231	60	3
College Composition	ENGL 101	59	3
*General Chemistry	CHEM 101 and 102 or CHEM 121 and 122	50	6
Information Systems and Computer Applications	CMPS 110	50	3
Introductory Sociology	SOC 101	50	3
Principles of Macroeconomics	ECON 201	50	3
**Principles of Management	MGMT 351	50	3
Principles of Marketing	MRKT 303	50	3
Principles of Microeconomics	ECON 202	50	3
Western Civilization I	HIST 101	50	3
Western Civilization II	HIST 102	50	3

*Subject examinations designed for two-semester courses

**Department Head approval required

Credits through the DSST Subject Standardized Test

Under an agreement between the Chauncey Group International (Chauncey), a subsidiary of Educational Testing Services (ETS), and the U.S. Department of Defense, Southeastern Louisiana University is allowed to administer the DANES Subject Standardized Tests (DSSTs). DSSTs may be taken in the Office of Testing at Southeastern by appointment only. A non-refundable administrative fee is assessed for each exam.

Credit will be entered on a student's transcript upon receipt of an official transcript from the Chauncey Group, provided the student achieves at or above the score accepted by Southeastern. A grade of P will be given and the course will not be computed in the student's grade point average. Unsuccessful attempts will not be recorded against the student.

Subject Examination, acceptable scores, and credit hours approved for Southeastern courses are listed in the following table:

DSST Subject Exam	Course and Number	Acceptable Score	Credit Hours
Astronomy	ESSC 102	400	3
Criminal Justice	CJ 101	400	3
Environmental Science	GBIO 281	400	3
General Anthropology	ANTH 101	400	3
Human/Culture Geography	GEOG 103	400	3
Lifespan Developmental Psychology	PSYC 204	400	3
Principles of Statistics	MATH 241	400	3

National League for Nursing

Any enrolled or entering student who meets the present criteria may gain credit in selected nursing courses by completing approved proficiency examinations provided by the National League for Nursing. Proficiency exams are taken online and are designed to offer credit for knowledge obtained as part of the enrollment and completion of a Licensed Practical Nurse Program. A non-refundable administrative or departmental credit fee is assessed for each exam.

Proficiency examinations currently approved are listed below. Further information can be obtained from the Director of Testing.

NLN Exam	Course and Number	Acceptable Score
Nursing Acceleration Challenge Exam (NACE) I: Foundations of Nursing ¹	NURS 371	75%
RN Achievement Exam – Physical Assessment ¹	NURS 314	75%

¹For Currently Licensed Practical Nurses

Southeastern Louisiana University Departmental Credit Examinations

Southeastern departmental credit examinations are administered in the summer, fall, and spring to Southeastern Louisiana University students and to entering students.

1. A student interested in taking departmental credit examinations may obtain the request forms at the academic department.
2. A student will have the request form approved by their department head, the dean of their college, and the head of the department administering the examination.
3. The University charges a non-refundable fee of \$25 per credit examination.
4. Credit examinations are given on the undergraduate level and on a limited basis in certain graduate degree programs.
5. Only courses passed will be recorded on the student's record. A grade of P will be given and the course will not be computed in the student's grade point average.
6. The department head in which the course is offered will set the dates of tests at their discretion.

Departmental Credit Examinations are available in:

Discipline	Course and Number	Acceptable Score	Credit Hours
Biology	GBIO 106	≥ 70%	3
	GBIO 107		3
	GBIO 151		3
	GBIO 153		3
Chemistry and Physics	CHEM 101	≥ 70%	3

Psychology	PSYC 101	≥ 70%	3
Sociology and Criminal Justice	CJ 101 SOC 101	≥ 70% major ≥ 60% non-major	3 3

Departmental credit examinations may be available in courses other than those listed above, provided the student obtains special permission from their dean and department head. Please contact the specific department for more information.

Credit through the College Board Advanced Placement (AP) Program

Southeastern participates with the College Board Advanced Placement Program. Students in selected high schools take college-level courses in high school and their examinations are graded by the staff of the College Board. The following list shows the Advanced Placement Courses, the required scores, and the equivalent Southeastern courses for which credit will be given at Southeastern.

AP Course	Minimum Grade Required*	Course Equivalent
Art History	3	Art 105 or 106
Biology	4	General Biology 151 and 153
Biology	3	General Biology 106 and 107
Chemistry	3	Chemistry 101 and 102 or 121 and 122
Computer Science A	3	Computer Science 101
Economics (Macro and Micro)	3	Economics 201 and 202
English		
Language and Composition	3	English 101
Language and Composition	5	English 101 and 102

C (Electricity and Magnetism)	3	Physics 222 and PLAB 224
Political Science U.S. Government and Politics	3	POLI 201
Comparative Government and Politics	3	POLI 2XX
Psychology	3	Psychology 101

*The readers' grades reflect their professional judgment of the candidate's achievement in advanced study according to the following scale.

- 5 – extremely well qualified
- 4 – well qualified
- 3 – qualified
- 2 – possibly qualified
- 1 – no recommendation

Cambridge International A-Level Coursework

Students that have completed Advanced-Level coursework through the Cambridge International Examination system may receive credit in the courses listed below:

A-Level Course	Grade	Southeastern Equivalent	Credit Hours*
Accounting	A-C	ACCT 200 and 225	6
Business	A-C	MGMT 141	3
Biology	A-C	GBIO 151 and BIOL 152	4
Chemistry	A-C	CHEM 121, 122, 261; CLAB 123, 124	11
Computer Science	A-C	CMPS 161/280	6
Computing	A-C	CMPS 101/120	6
Economics	A-C	ECON 201/202	6
English Language	A-C	ENGL 101	3
Literature in English	A-C	ENGL 230	3
Mathematics	A-C	MATH 200/241	8
Physics	A-C	PHYS 191/192/193/194	8
Psychology	A-C	PSYC 101/204	6

*All transfer credit is subject to individual examination.

Cambridge International A-Levels are recognized for placement at the time of matriculation. Please contact admissions at 800-222-SELU for additional details.

International Baccalaureate Credit

Southeastern Louisiana University values the International Baccalaureate (IB) Diploma Programme and welcomes applications from IB students. The IB Diploma Programme is a comprehensive two-year curriculum leading to examinations evaluated on international criteria. Students are encouraged to submit their IB diploma record or examination results with their application for evaluation. The official International Baccalaureate transcript is required to award credit.

IB Course	IB Score	Southeastern Course Equivalent	Credit Hours
Language A1: English	5 SL or 4 HL	ENGL 232	3
	5 HL	ENGL 231 & ENGL 232	6
Language B: Spanish	5 SL or 4 HL	SPAN 101	3
	6 SL or 5 HL	SPAN 101 & SPAN 102	6

Psychology	5 SL or 4 HL	PSYC 101	3

Correspondence and Extension Credit

Southeastern Louisiana University does not offer correspondence work, but will accept a maximum of 30 hours of correspondence and/or extension credit from accredited institutions which offer such work. Work taken by correspondence or at other institutions may not be used to satisfy the University's residence requirements.

In all instances a full-time or a part-time student at Southeastern Louisiana University who plans to take any work elsewhere (correspondence, extension, or resident) must obtain approval from their department head, their academic dean, and the Director of Admissions.

United States Armed Forces Institute (USAFI) Courses

Southeastern Louisiana University is a participating institution with the USAFI program. Credits earned may be recognized by a division of Southeastern Louisiana University in accordance with the recommendations of the American Council on Education. The credits must be acceptable to the curriculum in which the student enrolls and must not duplicate other college credit earned.

Military Experience

Honorably discharged veterans of the United States Armed Forces may be allowed credit for kinesiology and certain other courses upon presentation of a copy of their discharge (DD 214) to the Admissions Office.

Additional credit may be granted for service schools where equivalence in terms of college courses has been recommended for college credit in the "Guide to the Evaluation of Educational Experience in the Armed Services," published by the American Council on Education. Appropriate documents, including the Joint Services Transcript, must be submitted to the Admissions Office for an evaluation of these experiences. Credit is not granted for National Guard service. For assistance, it is recommended that students initially meet with the Office of the Military and Veteran Success.

General Education Requirements

The College and Department sections of this Catalog describe each curriculum leading to a degree. Awarding of an academic degree assumes that the recipient has submitted to rigors of intellectual inquiry, achieved specialized and general knowledge, and acquired motivations and abilities for life-long learning.

Each Southeastern Louisiana University baccalaureate degree is designed to help the student progress toward career goals and toward the following goals in general education:

- Students will effectively and intelligently communicate in writing in a variety of contexts.
- Students will demonstrate mathematical and analytical reasoning skills.
- Students will understand the universe through the study of life and physical sciences.
- Students will understand cultural traditions and/or the human condition through a humanities perspective.
- Students will understand human behavior and/or the relationship between individuals and their societies through a social/behavioral science perspective.
- Students will explore and value aesthetic creation and form as an essential means of conceiving and expressing the human experience through the fine arts.

Recognizing those general education goals, all baccalaureate curricula include the following minimum requirements based on the Statewide General Education Requirements of the Louisiana Board of Regents.

English Composition	6 hours and demonstrated proficiency
Mathematics/Analytical Reasoning	6 hours of Analytical Reasoning, at least 3 of which must be in Mathematics
*Natural Science	9 hours, to include a two-course sequence in biological or physical science with the remaining three in the area not covered by the sequence
Fine Arts	3 hours of Music or Visual Arts or Dance or Theatre

Humanities	9 hours to include 3 hours of Literature, 3 hours of History, and 3 hours Foreign Language above the introductory level or Philosophy or Speech Communication
Social/Behavioral Sciences	6 hours Anthropology or Political Science or Economics or Geography or Psychology or Sociology or Criminal Justice

Associate degree requirements include a minimum of three hours of English composition and demonstrated proficiency, three hours of Mathematics/Analytical Reasoning, three hours in the Natural Sciences, three hours in the Humanities, and three hours of Social/Behavioral Sciences.

Natural Science Two-Course Sequence

Possible Combinations

Graduation Requirements

Summary

A candidate for a degree must complete the following:

- Complete one of the curricula as outlined in the catalog, including demonstrated proficiency in English and mathematics as mandated by the Louisiana Board of Regents.
 - Have a minimum Cumulative Grade Point Average of 2.0 (C) on all course work, on all work attempted at Southeastern, and on all work in their major field.¹
- OR**
- Have a minimum Degree Grade Point Average of 2.0 (C) on all coursework applicable to the student's curriculum; on all required coursework in the major field; and on Southeastern coursework applicable to the student's curriculum.¹ Certain curricula as noted in the college and departmental sections of this Catalog have higher requirements.
 - Earn the semester hours listed below at Southeastern Louisiana University. No time limitation in years or weeks will be set.
 - Candidate for a Baccalaureate Degree
 - At least one-half of the hours required in the major field or fields
 - At least 25% of semester credit hours required for the degree must be earned at Southeastern
 Work taken through correspondence courses, credit examination or military experience may not be used to satisfy these requirements.
 - Candidates for the Associate Degree
 - At least one-half of the hours required in the major field or fields*
 - At least 25% of credit semester hours must be earned at Southeastern
 - Clear all University accounts.
 - Comply with the deadline for application for graduation for the anticipated completion semester and make late fee payment as applicable. Please visit <http://www.southeastern.edu/admin/registrar/graduation/grad-app/index.html> for details and deadlines regarding the Graduation Application Process.

Potential graduates for Spring must complete the graduation application process no later than February 15.

Potential graduates for Summer must complete the graduation application process no later than June 15.

Potential graduates for Fall must complete the graduation application process no later than September 15.

If the deadline falls on a University non-business day, the deadline will become the next University business day.

Admission Criteria and Academic Regulations

After the student completes the graduation application process, the Office of the Registrar will then post the application data to the student's record and forward the application and any accompanying documentation to the academic dean.

For a complete outline of graduation application fees, please see "Graduation Fees" under the Fees and Expenses section in this catalog.

7. Complete the exit survey administered through Institutional Research.
8. Students in teacher education programs, see the Requirements for Student Teaching Residency and additional College of Education graduation requirements found in this catalog.

¹See Scholastic Ratings in this Catalog, for explanation of calculation of grade point averages. The symbol "*" on each curriculum sheet identifies courses that are used in computing the major grade point average.

*Credit awarded for successful completion of academic work undertaken at another college or university may be used to fulfill these requirements provided that the student is a candidate for a degree at Southeastern and has obtained the prior written approval of the appropriate department head and dean before undertaking the academic work at another institution.

Candidates for a Second Baccalaureate Degree, Double Degree, Double Major, Minor

Students who hold a baccalaureate degree from Southeastern or from a regionally accredited institution other than Southeastern may earn a second baccalaureate degree by completing thirty (30) semester hours at Southeastern in addition to the requirements for the first degree and meeting all other requirements for the second degree. If the first degree is from Southeastern, it is not necessary that the thirty (30) hours be subsequent to the first degree.

Students who wish to pursue two baccalaureate degrees simultaneously at Southeastern must complete thirty (30) semester hours in addition to the requirements for the first degree and complete all requirements for both degrees. Students completing two baccalaureate degree programs at Southeastern must file a graduation application for each by the scheduled deadline.

If students choose to earn two majors or a major and minor they must be earned simultaneously. This can be accomplished by completing all requirements for both majors or by completing all requirements for the major and minor simultaneously. When earning two majors, students must designate a primary major, a secondary major and indicate on the graduation application the secondary major. Students will only earn the degree associated with the primary major. The secondary major or the minor will be entered on the transcript. Students may not earn a secondary major after graduating with a first major and degree unless they earn a secondary degree (30 additional hours). Students may not earn a minor with an Associate Degree or without simultaneously earning a baccalaureate degree.

To initiate the Double Degree/Double Major process, students should secure a form from their primary department.

Provided there is not a break of one calendar year or more in Southeastern attendance, students may meet requirements for the secondary major or minor according to any catalog in effect during enrollment for seven years prior to receiving the second degree, major, or minor.

There are special requirements regarding the General Studies Program and the College of Education. For further information, General Studies and Education majors should contact their director/department head. If a student wishes to earn more than one baccalaureate degree, one of which is a Bachelor of General Studies, the major concentration group in the General Studies degree cannot contain courses in the same subject as the major of any other baccalaureate degree earned or to be earned.

Credit Toward the Degree

Some courses are very similar in content to other courses. When a student takes two or more courses that have similar content, only one of the courses can be used toward the degree. Although the other course(s) cannot be used to satisfy a specific course requirement in the degree, all courses and grades will appear on the transcript and will be used in the calculation of the cumulative grade point average. In the calculation of the degree grade point average, however, since only the courses applicable to the student's curriculum are used, the other course(s) will not be included in the degree grade point average.

Descriptions of affected courses contain a phrase such as, "Credit toward the degree will not be granted for...". Students should read the course descriptions in the Course Description section in the back of the catalog, or consult with their academic department if there are questions about whether or not credit for a course will be applied toward the degree.

Participation in Student Assessment Activities

Since 1987, Southeastern Louisiana University has focused on outcomes assessment as one of the key components of our commitment to excellence. Considerable effort has been focused on refining and implementing a comprehensive, effective, and efficient assessment program to determine the extent to which students' learning needs are met. Assessments may consist of activities such as standardized tests, computerized exit surveys, paper-and-pencil questionnaires, exit interviews, and other means. Although not all students complete the same set of assessment activities, all students will be asked to participate at some points in their academic careers. Since student involvement is critical to the success of outcomes assessment, student participation in assessment activities is both necessary and required.

Graduation Under a Particular Catalog

A student may meet degree requirements as stated in any Catalog in effect during the years of enrollment provided:

1. The student has not changed their major.
2. There is not a break of one calendar year or more in attending Southeastern.
3. Seven years have not elapsed since entering the major.

A student who changes his or her major, or declares a second major, or does not attend Southeastern for one calendar year or longer, must meet the requirements of the Catalog in effect at the time of change of major, or declaration of a second major, or re-entry—or any Catalog in effect between that time and that student's graduation. The student may declare a second major in any semester prior to graduation, including the semester of graduation. At no time may a student use a Catalog in effect prior to the change in major, or declaration of a second major, or re-entry. The Catalog year begins on June 1 each calendar year.

These academic regulations and degree requirements are subject to revision at any time to accommodate changes in Board policies, occupational and licensure requirements, and other situations involving the quality of the program.

Conferring of Degrees

Eligibility for honors is based on the criteria outlined in the University's current catalog. This may not be the catalog the student is following for curriculum purposes. Students who have done superior work at Southeastern Louisiana University will be recognized in accordance with the following rules.

Honors before Graduation

Semester Honors

At the end of each semester, academic semester honors will be issued to all full-time undergraduate students who earn 12 or more semester hours in the Fall or Spring (6 or more in the Summer) with grades of "A," "B," or "C" and a semester grade point average of 3.000 or better. Students who receive grades of "D," "F," "U," or "I" in the given semester are not eligible for the honors. When an "I" grade is changed to a regular grade, students may qualify for honors at that time.

Students whose full-time enrollment (excluding developmental/transitional courses) includes a course or courses in which a grade of "P" is earned may also receive semester honors under the following conditions:

- Grades of "A," "B," or "C" and a semester grade point average of 3.00 or better must be earned on all other courses taken.
- Honors-level work as confirmed by the dean based on faculty recommendations must be performed in the course(s) with a "P" grade.
- The honor received will be based on the cumulative grade point average instead of the semester grade point average.

The semester grade point average (or cumulative for students with "P" grades) for academic honors before graduation at all universities in the University of Louisiana System are as follows:

- President's List 3.500 – 4.000
- Dean's List 3.200 – 3.499
- Honor Roll 3.000 – 3.199

Academic semester honors will be issued to part-time students (who earn 6 – 11 semester hours) in the Fall or Spring with grades of "A" or "B" and a semester grade point average of 3.5 or better. The academic semester honor of Provost's List will be awarded to students meeting these requirements.

Academic Honor Societies

1. The Thirteen Club. Seniors who fulfill the following requirements shall be formally recognized as members of the Thirteen Club:
 - a. They must be full-time students enrolled in the University.
 - b. They must have an overall 3.200 grade point average.
 - c. They must have earned no grade below "C."
 - d. They must have had all their academic work at Southeastern Louisiana University, excluding dual enrollment credits.
2. The National Honor Society of Phi Kappa Phi. Juniors, Seniors, and graduate students of sound character who fulfill the following requirements may be elected to membership in Phi Kappa Phi:
 - a. They must have been registered in the University for at least one year.
 - b. Juniors must rank in the top 7.5% of their class.
 - c. Seniors must rank in the top 10% of their class.
 - d. Graduate students must rank in scholarship in the top 10% of all graduate students at the time.

Academic Honors

Numerous academic honors are awarded each year in the academic departments and colleges.

¹See the Scholastic Ratings section of this Catalog, for explanation of calculation of grade point averages.

Honors at Graduation

The faculty will recognize as honor graduates those students who are receiving a baccalaureate degree who have earned a cumulative grade point average of 3.500 or better. The cumulative grade point average includes course work that was transferred from another institution.

Effective with the Summer 2003 semester, the cumulative grade point averages for honors at graduation at all universities in the University of Louisiana System are as follows:

Graduation Honors	GPA Averages
Cum Laude	3.500 – 3.699
Magna Cum Laude	3.700 – 3.899
Summa Cum Laude	3.900 – 4.000

Admission Criteria and Academic Regulations

That student who has the highest average in his College or School and is eligible to be graduated cum laude (3.500 or above) shall be awarded the President's Medal for Academic Excellence. A recipient who earns a second baccalaureate degree and again qualifies for the President's Medal will be awarded that Medal, provided sixty-five (65) semester hours have been earned at Southeastern after completing the first degree. Those sixty-five (65) hours must be in upper level courses or in courses required in the second-degree curriculum.

The faculty will recognize honor graduates of Associate Degree programs who have earned a grade point average of 3.5 or higher.

Family Educational Rights and Privacy Act

Students enrolled at Southeastern Louisiana University are hereby notified of their rights of access to their official records as described in the 1974 Family Educational Rights and Privacy Act (Section 513, P.L. 93-380, Educational Amendment of 1974, amending the General Education Provisions Act, Section 438, and amended by Section 2 of P.L. 93-568).

Students desiring access to their education records shall make a request in writing to the appropriate office. Requests concerning:

- (1) admissions and academic records should be made to the Office of the Registrar;
- (2) financial records should be made to the Controller;
- (3) financial aid records should be made to the Director of Financial Aid;
- (4) career services, counseling, disciplinary and security records should be made to the Vice President for Student Affairs;
- (5) school and departmental records should be made to the Dean of the appropriate college;
- (6) employment records should be made to the Director of Financial Aid;
- (7) health records should be made to the Head Nurse, Health Center.

Parents are permitted access to education records with the prior written consent of the eligible student or without the prior written consent of the eligible student if that student is a dependent. Additionally, the University reserves the right to contact parents of students who are under 21 years of age if the student has been involved in a violation of the University's alcohol or drug policies.

A student who wishes to ask Southeastern Louisiana University to amend a record should write the director of the appropriate office, clearly identify the part of the record the student wants changed, and specify why it should be changed. If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

Under the provisions of the Act, certain information designated as "Directory Information" concerning the student may be released by the University unless the student has informed the University that such information should not be released.

Southeastern Louisiana University may release the following directory information: The student's name, address(es), university email address, telephone number(s), dates of enrollment, college or school, classification, enrollment status, major, academic awards, honors, and scholarships, degrees earned, participation in officially recognized activities and sports, weight and height of members of athletic teams, most recently attended educational agency or school, and photograph.

Any person who wishes to have the above listed information withheld should submit a written request to the Office of the Registrar at any time. To keep the directory information from being included in various University publications, such requests should be made before the end of the drop/add period for each semester. Students who requested that their directory information be withheld may change their position at a later date by notifying the Office of the Registrar in writing. Please note: requesting to withhold the release of directory information means that a student's history at Southeastern Louisiana University will be suppressed in full, preventing the verification by future employers and others of degrees earned.

As provided in the Family Educational Rights and Privacy Act of 1974, Southeastern Louisiana University may disclose information to parents of students upon the parents' establishment of the student's dependency as defined by the Internal Revenue Code of 1954, Section 152. The required form of proof is a certified (notarized) copy of the parent's most recent Federal Income Tax form.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agency); a person serving on the Board of Supervisors; or a student serving on an official committee, such as disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

The University may also release personally identifiable information from the education records of a student to appropriate parties in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.

Southeastern Louisiana University

Students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by State Universities to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Ave., SW
Washington, DC 20202-4605

If further information is desired, contact the Office of the Registrar.

Fees and Expenses

All fees are current as of December 1, 2022 and are subject to change.

Payment of Fees

All tuition, mandatory fees and other University charges are due at the beginning of the semester. Any means of payment, other than cash, requires the inclusion of the student's name and ID number on the document. If a check, or electronic check is returned by the bank for any reason, a \$15 service fee will be assessed to the student's account. If a check, or electronic check, is returned that was written for payment of tuition and fees, the student for whom the payment is made will be placed on a "cash only basis" for all future transactions with the University. Returned paper checks will automatically be re-deposited once by the University's fiscal agent (bank). Electronic checks will not be re-deposited.

The University reserves the right to withhold future services (registration, transcript, diploma, etc.) to persons who have any outstanding obligation with the University.

Payments made at the Cashier's Office must be in the form of cash, check, cashier's check, or money order. Cash, cashier's check, or money order payments cannot exceed five thousand dollars (\$5,000) for security purposes. Loose or rolled coins will not be accepted for payment if the amount exceeds ten dollars (\$10). All electronic check and credit card payments must be made via the student's LEONet account. Credit cards accepted for payment of fees are VISA, MasterCard, American Express, and Discover via the online Southeastern web pay. If a student disputes a credit card payment to the University, it will result in an outstanding charge on their account and they will be put on restriction from all future credit card transactions. The University reserves the right to withhold future services to persons with outstanding obligations to the University. See Controller's Office website for web pay instructions <http://www.southeastern.edu/admin/controller/students/payonline/index.html>

Fee Schedule

General Fees: Students who register at Southeastern Louisiana University pay fees determined by the number of semester hours scheduled, including hours taken for audit. It is the responsibility of the student to assure that fees are paid by the fee payment deadline. Non-resident fees are in addition to tuition for both undergraduate and graduate students.

If a student does not plan to attend the University once they have enrolled in courses, it is the student's responsibility to drop all courses before the first day of classes. The student will be financially responsible for any courses that remain on their schedule once classes begin.

Classes may be cancelled for students whose fees are not paid by the fee payment deadline. Fees are considered paid if the student's outstanding balance is zero or if the current semester Anticipated (Pending) Financial Aid is greater or equal to the outstanding fees on the student's account as of the fee payment deadline.

Please visit our website <http://www.southeastern.edu/fees> to view the fee schedule.

Other Registration Fees

Textbook Rental Fee: All students who register at Southeastern Louisiana University will be charged a mandatory textbook rental fee of \$60 per class (no maximum) if a rental book is required for the course in which they are registered. This fee will appear as a separate line item on the student's fee statement. The last day to return rental textbooks with no penalties is the first business day following the last day of finals. A fine will be assessed on books returned from the second business day through the fifth business day following final exams of a semester. A purchase fee on the student account will be assessed for books not returned by the fifth business day following the last day of finals. The textbook rental fee is non-refundable except for students who drop courses during the drop/add period. Students who resign will receive a refund of the rental fee based on the current refund schedule.

ID Fee: All students are assessed a mandatory, non-refundable fee to validate their ID card each semester the student is enrolled.

International Student Services Fee: All international students are required to pay, in addition to regular tuition and non-resident tuition, a \$60 international student services fee each semester (\$30, Summer).

Course Specific Fees: Some courses require additional course specific fees. See course descriptions for additional information.

Nursing Professional Degree Program: There is an additional fee per semester for students enrolled in the Nursing Degree Program to cover the costs associated with these programs. A \$350 per semester fee will be charged for Graduate level students (\$250 for Undergraduate) enrolled in the Nursing Degree Program.

Application Fee: For information on application fees, please refer to the Admissions Criteria section of this catalog and/or refer to our website at <http://www.southeastern.edu/apply/index.html>.

Orientation Fee: A fee is not required of students participating in Orientation Programs. However, charges may be assessed for housing and certain meals.

Room Rent and Cost of Meals Per Semester

Housing**

For information on housing fees, please call University Housing at 985-549-2118 and/or refer to our website at: <http://www.southeastern.edu/admin/housing/index.html>.

**All fees are subject to change without notice.

Campus Dining Services

Southeastern Louisiana University has a continuing commitment to offer quality dining programs and facilities that reflect the lifestyles of today's college student. There are several locations around campus to serve students. The Mane Dish features an all-you-care-to-eat menu with entrees freshly prepared upon order. Numerous choices range from a salad bar, home-style entrees, burgers, deli sandwiches, and fresh pasta dishes, to name a few. Retail options, such as Chick-fil-A, Mooyah, Panda Express, and Taco Bell are offered in the Lion's Den food court. Other dining locations include Subway, Starbucks and five convenience stores.

Dining Services has an extensive list of meal plans that cater to the needs of all students. The meal plans consist of a straight declining balance program (Cub Cash) or a meal plan that is utilized primarily for meals served in the Mane Dish. It is mandatory for students who live on campus to purchase a meal plan. For more information on Dining Services, please refer to the Dining Services website at <http://www.southeastern.edu/dining>.

Other Expenses

Post Office Box Rental Fee: Mailboxes can be rented by non-resident students and the general public at a cost of \$16 per fall and spring semesters and \$8 for the summer semester. Mail services are included in the on-campus resident amenity package.

Graduation Fees

Transcript Fee: Before a transcript will be issued, all outstanding debt must be paid by cash, check, electronic check, credit card, cashier's check or money order. Non-cash payment will delay release of transcripts for seven business days.

Diploma Fee: Graduating students will pay a non-refundable diploma fee according to the following schedule.

Fee	Application Date	Graduation Semester
\$0	Through September 15	Spring (May Graduation)
\$15	From September 16 – December 1	Spring (May Graduation)
\$25	From December 2 – February 15	Spring (May Graduation)
<i>No applications accepted for Spring Graduation after February 15</i>		
\$0	Through February 15	Summer/Fall (December Graduation)
\$15	From February 16 – May 1	Summer/Fall (December Graduation)
\$25	From May 2 – June 15	Summer (December Graduation)
<i>No applications accepted for Summer Graduation after June 15</i>		
\$25	May 2 – September 15	Fall (December Graduation)
<i>No applications accepted for Fall Graduation after September 15</i>		

Students who fail to complete graduation requirements must reapply by filing another application and paying fees according to the above schedule. Graduating students are expected to be present at Commencement Exercises. Students must obtain a cap and a gown from the University Bookstore for the Commencement Exercises. This cost must be paid separately.

Motor Vehicle Registration

Registration Fee: All students who drive automobiles, trucks, or motorcycles/motorbikes on the campus must register the vehicle and pay a motor vehicle registration fee based on the schedule below.

Students who register motor vehicles will be charged the following fees according to the semester in which the annual motor vehicle registration begins. *

Commuters and Resident Students

Registration Begins	Motor Vehicle and Motorcycle Fee
Fall Semester	\$60
Spring Semester	\$40
Summer Semester	\$20

***Refund:** Once a vehicle is registered, there are no refunds.

Fees and Expenses

Refund of Fees

If a student does not plan to attend the University, it is the student's responsibility to drop all courses before the first day of class. The student is financially responsible for any courses that remain on their schedule as of the first day of class.

Reduction of tuition and other course related fees will be made on the following basis:

For Students Dropping Courses: Students who decrease their course load (drop hours) resulting in a lower tuition cost through the drop/add period, as defined in the current University calendar, will receive a reduction in fees. Students who reduce their course load (withdraw) after the drop/add period are not eligible for a reduction of tuition and other course related fees.

For Students Resigning: A student who officially resigns (withdraws from all classes) from the University may obtain a reduction of fees according to the following schedule:

Fall and Spring Semesters Amount of Refund (Reduction of Fees)

Prior to the first day of class	100%
First – Fifth day of class	75%
Sixth – Fifteenth day of class	50%
After the Fifteenth day of class	0%

Summer Semester Amount of Refund (Reduction of Fees)

Prior to the first day of class	100%
First – Third day of class	75%
Fourth – Eighth day of class	50%
After the Eighth day of class	0%

Students receiving federal aid will also receive a reduction in fees according to the Institutional Refund Policy as stated above. Any unearned aid determined at the time of resignation/withdrawal will be returned to the provider and will be the responsibility of the student to reimburse the University. This includes students who officially resign and those who cease attending without officially resigning (Unofficial Withdrawal).

To receive a 100% refund of fees previously paid, the student must drop all of their classes prior to the first day of classes.

If a student resigns on or after the first day of class, the student must complete the resignation process through The Office of the Registrar no later than the eighth class day in a summer semester, or the fifteenth class day of a fall or spring semester, to receive any reduction of fees. To resign from the University, please visit <http://www.southeastern.edu/admin/registrar/forms-reg/resignation/index.html>.

If a student is resigned by the University for any reason, they will be refunded according to the above schedule. The effective date of the resignation will determine which category of reduction of fees will apply. Students considering a retro-active resignation should inquire about the implications affecting their financial aid (if any) before making the request.

The rules of refund for motor vehicle registration fees, room rent and meal ticket costs are included under the respective captions in this catalog.

The above refund (reduction of fees) policy and drop dates apply to off-campus courses as well as on-campus courses.

Workshops and Institutes

The rules for refunding fees applicable at any time during an academic year, intersession, or summer semester are on a proportionate time basis for workshops and institutes. The refund should be requested through the appropriate department.

Issuance of Refunds

Southeastern Louisiana University has partnered with BankMobile Disbursements, to distribute student refunds for all Southeastern students.

A current mailing address is necessary since it is used for all correspondence from the Controller's Office. If there is a reason that a refund cannot be sent to BankMobile Disbursements, an email will be sent to the student's official university student email address.

Student refunds are sent according to the refund preference selected at BankMobile Disbursements. The student will make his or her choice within LEONet self-service. For more information visit: <http://www.southeastern.edu/admin/controller/studentrefunds/index.html>. For more information about BankMobile, visit the link: <http://bankmobiledisbursements.com/refundchoicessso/>.

Financial Aid Authorization

Students are also encouraged to acknowledge the Financial Aid authorization statement. This authorization is necessary if the student expects financial aid to pay any non-institutional charges. Such charges include but are not limited to parking tags, parking fines, library fines or books, Lion's Lagniappe, Southeastern Payment Plan, Emergency Loan, textbook rental fines or textbooks sold. If a student chooses not to accept the authorization, he or she will be obligated to pay any non-institutional charges out of pocket. This authorization must be completed on-line through the student's LEONet account. This authorization may be rescinded at any time in writing by certified mail to the Controller's Office.

Installment Plan

Southeastern is pleased to offer a financial planning option, the Southeastern Payment Plan (SPP), which allows students to pay their semester fees in three equal payments rather than in one lump sum for Fall/Spring and into two equal payments during the Summer Semester. The SPP program is managed by the Controller's Office.

In order to be eligible, a student must have not defaulted on any previous installment plan offered by the University. Students with prior semester debts may not be allowed to enroll in the University until such debts are paid. Additionally, academic records (transcripts, diplomas, etc.) may be withheld until the debts are paid in full.

Because the SPP is not a loan, there will be no interest charged. Under this plan, the minimum required down payment is 1/3 of the semester costs during fall/spring (1/2 of the semester costs during summer) plus a \$45 non-refundable processing fee and any outstanding balances are due by the fee payment deadline. Delinquent account balances and/or fines cannot be deferred. Examples of delinquencies are traffic fines, library fines, or any prior semester debts. These fees must be paid in addition to the down payment by the fee payment deadline.

The remaining balance is deferred into equal installment(s). It is the student's responsibility to make the designated payments on the SPP. However, the student authorizes the University to apply any prepayment, credit (i.e. Financial Aid), student/parent loan, and/or payroll check (employee or student employee) to any outstanding debt to the University before these funds are issued to the student. Any funds remaining after the debt is satisfied will be refunded to the student or parent (depending upon the type of loan check) as appropriate.

Students may enroll in the plan online during registration by accessing LEONet "Self Service" – "Campus Finances" – "Enroll in Payment Plan." Please refer to our website:

www.southeastern.edu/admin/controller/students/app/index.html for instructions. For any questions regarding the SPP, students may contact the Accounts Receivable section of the Controller's Office or e-mail: studentaccounts@southeastern.edu.

Students must follow University procedures when desiring to drop classes or to resign from the University. All published deadlines will apply. If the student moves from housing, discontinues use of meal plan, resigns or withdraws from the University, the student remains obligated to pay the remainder of any balance under this plan.

Any unpaid balance is subject to the same policy as any delinquent account.

Check Policy

For the convenience of students, the Controller's Office will accept personal checks in payment of fees, room rent, etc., and will cash personal checks for amounts up to \$25 per day for students (\$100 per day for faculty and staff) who can present a current ID card. Two-party checks will not be honored except those from parent to student or legal guardian to student.

Before presenting a check to the Controller's Office, the student should be certain that it is negotiable, displaying the student's I.D. number ("W" number), properly signed, drawn on the bank in which the student has funds, and is properly endorsed. Paper checks returned from the payees' bank will be presented twice by Southeastern's fiscal agent (bank) before being returned to the University. Electronic checks are not presented twice before being returned to the University. If a student's check is returned to the University for any reason, a handling charge of \$15 will be assessed to the student's account. If a student stops payment on a check presented to the Controller's Office for any reason, the account will be assessed the \$15 service fee and is subject to the same policy as any delinquent account.

Returned checks should be redeemed immediately. Returned checks must be redeemed by cash, credit card, cashier's check or money order for the full amount. No partial payments shall be accepted for returned checks. Failure to redeem a returned check, plus a handling charge, after receiving notice will be considered a violation of rules 14 – "Violation of other published University policies, rules or regulations," 15 – "Violation of federal, state, and/or local laws," and 16 – "Failure to comply" of the Standards of Student Conduct. Students disciplined by the University for violating its Standards of Student Conduct may be required to answer to civil authorities for the same act. Any returned check not redeemed promptly will be submitted to the District Attorney's Office and will be charged an additional \$10 fee plus any collection costs imposed by the District Attorney's Office.

Students who submit one check for tuition and fees or three checks for cash which are returned to the University or who fail to redeem returned checks promptly will be denied check cashing privileges and be placed on a "cash only" basis for future transactions with the University. Checks will not be cashed for students who do not present a current Southeastern Louisiana University ID card.

Delinquent Student Accounts

The University reserves the right to withhold services from anyone with a delinquent account.

Services that are discontinued may include, but are not limited to, the following: transcripts, student grades, diplomas, registration, and deferment plans. This policy will be administered by the Controller's Office and will include delinquent loans, delinquent receivables, NSF checks, etc., maintained within the Controller's Office.

Fees and Expenses

This policy will not prevent the student from receiving a priority registration appointment, but may block participation in the actual class selection process until the delinquent account is brought to a current status. In the event that priority registration is blocked, students will have to register during the open registration phase which normally starts the week following priority registration when the account is paid and the block has been removed.

The Controller's Office is on a quarterly billing cycle in order to bill those students who have delinquent accounts. Students requesting same day service for transcripts must pay all outstanding balances before the transcript will be released. Cash, credit card, check electronic check, cashier's check, or money order are acceptable forms of payment for these balances. Non-cash payment will delay release of transcripts for seven business days.

Any student who has any questions about his or her outstanding accounts and/or delinquent accounts may contact the Accounts Receivables section of the Controller's Office, or email studentaccounts@southeastern.edu.

Financial Responsibility Statement

Before registering for classes at Southeastern Louisiana University, all students are required to acknowledge the University's Financial Responsibility Statement. This statement confirms that by registering for classes at Southeastern, the student becomes a party to a contract with Southeastern Louisiana University and expresses agreement to the terms and conditions set forth by this catalog.

The Financial Responsibility Statement reads as follows:

By registering for courses at Southeastern Louisiana University ("Southeastern"), you hereby acknowledge that you are entering into a contractual arrangement with Southeastern, whereby you agree to comply with all laws, rules and regulations applicable to your registration, payment of fees, enrollment and attendance. Included in the rules and regulations that comprise the terms and conditions of this contract are those contained in any Southeastern General Catalog in effect during the years of your enrollment.

In addition to reading, agreeing with and accepting all of the terms and conditions set forth in the Southeastern General Catalog, you must specifically acknowledge the following:

- All fees and other University expenses are due before classes begin.
- It is the student's responsibility to cancel their registration by dropping all courses before classes begin if proper financial arrangements have not been made.
- The University reserves the right to withhold future services (registration, transcript request, diploma, etc.) to persons who have any outstanding obligations with the University.
- In the event that financial aid is reduced or cancelled, or in the event the student has not met the specified requirements for receiving such aid, the student will become responsible for the full balance of outstanding charges.
- If payment is in the form of a check and the check is returned by the bank for any reason, a \$15 service charge will be assessed to the student's account. If the check is not redeemed promptly, the returned check may be submitted to the District Attorney's office for collection. Upon transmittal for collection, the student will be responsible for a \$10 fee in addition to any other collection costs imposed by the District Attorney's office based on a percentage of the amount of the check.
- Students leaving Southeastern prior to the 60% point, officially or unofficially, in the semester are obligated to return the federal aid received for that semester proportionate to the student's attendance. Failure to return that portion of federal aid received upon demand may result in the amount owed being transferred to the State of Louisiana Attorney General's Office or other outside collection agency, for collection. Upon transmittal for collection, the student is responsible for collection/attorney's fees in the amount of thirty-three and one-third per-cent (33 1/3%) of the unpaid debt, and all court costs.
- Any debt owed to the university as a result of the student's failure to make required payments or failure to comply with the terms of the applicable program as governed by the Southeastern General Catalog will result in a violation of the terms and conditions of this contract. Failure to respond to demands for payment made by Southeastern may result in such debts being transferred to the State of Louisiana Attorney General's Office or other outside collection agency, for collection. Upon transmittal for collection, the student is responsible for collection/attorney's fees in the amount of thirty-three and one-third per-cent (33 1/3%) of the unpaid debt, and all court costs.

A student must accept this agreement by logging on to their LEONet account. If a student has not accepted this statement before registering classes through their LEONet account, the Financial Agreement page will automatically appear and must be accepted before registering classes. Any questions regarding the Financial Responsibility Statement should be directed to the Controller's Office.

Student Residence Regulations

Because residence classification is an important part of fee determination, admission regulations, and other policies of the University, it is important that the University have fair and equitable regulations which can be administered consistently, respecting the interests of both the students and the taxpayers of Louisiana. It is the responsibility of the student to provide the University with such evidence as deemed necessary to establish his residence status.

The residence status shall be determined in accordance with board rules and shall be based upon evidence provided in the application for admission and related documents. Residence status shall be determined by the Admissions Office after the completed application for admission has been submitted. The rules shall be based primarily on the location of the home and the place of employment. Residence status may not be

acquired by an applicant or student while residing in Louisiana for the primary purpose of attending school. Residence status, for fee purposes only, will be granted to non-resident graduate students registered for three semester hours or less and undergraduate students registered for six semester hours or less in any session, or all non-resident students enrolled in up to six semester hours of graduate or undergraduate courses offered through web-based instruction or other electronic instruction, when domiciled outside of the state of Louisiana and not enrolled in any other courses at the university. The following conditions may be used in determining residence status.

Definition of a Resident Student

A resident student for tuition purposes is defined as one who has abandoned all prior domiciles and has been domiciled in the State of Louisiana continuously for at least one full year (365 days) immediately preceding the first day of classes for the term for which residence classification is sought.

"Domicile," as the term is used in the context of residence regulations, is defined as an individual's true, fixed, and permanent home and place of habitation at which the individual remains when not called elsewhere for labor, studies, or for special or temporary purposes, and the place to which the individual returns after an absence. A non-resident student for tuition purposes is a student not eligible for classification as a resident.

The individual's physical presence within this state for one year prior to admission must be associated with the substantial evidence that such presence was with the intent to maintain a Louisiana domicile. Physical presence within the state solely for educational purposes without substantial evidence of the intent to remain in Louisiana will not be sufficient for resident classification regardless of the length of time within the state.

The residence status shall be determined in accordance with Board rules and shall be based upon evidence provided in the application for admission and related documents. The Office of Admissions shall determine residence status after the completed application for admission has been submitted.

The rules shall be based primarily on the location of the home and place of employment. Residence status may not be acquired by an applicant or student while residing in Louisiana for the primary purpose of attending school. Residence status, for fee purposes only, will be granted to non-resident graduate students registered for three semester hours or less and undergraduate students registered for six semester hours or less in any session, or all non-resident students enrolled in up to six semester hours of graduate or undergraduate courses offered through web-based or other electronic instruction, when domiciled outside of the state of Louisiana and not enrolled in any other courses at the university.

1. An applicant living with his parents is classified as a resident if the parents have established a bona fide residence in Louisiana. Ordinarily, a parent is considered to have established a residence in Louisiana if he actually resides and is employed full-time in the State. A parent who is unable to be employed or who is a housewife may be considered to have established a residence in Louisiana if there is convincing evidence that the person continuously resides in Louisiana. If only one parent qualifies as a resident of Louisiana, the student shall be classified as a resident provided that student resides with the parent who is a resident of Louisiana. An individual, who resides in Louisiana and is employed full-time in another state, may be classified as a resident. In such case, appropriate documentary evidence shall be presented.
2. A student residing with his parents who enrolls as a nonresident shall be classified as a resident if his parents move to Louisiana and acquire residence as defined in these regulations.
3. A student may be declared a resident if either parent is a graduate of Southeastern. A student who graduates with an associate or higher degree may be classified as a resident for subsequent enrollment at Southeastern. (Applicable only to U.S. citizens).
4. A person may be classified as a resident of Louisiana at the end of twelve consecutive months of residence if he has been employed in Louisiana and if during that period he has not been registered in an educational institution for more than six semester hours or its equivalent in any semester. A person who is unable to be employed and who has not been registered in any educational institution for more than six semester hours or its equivalent in any semester may acquire residence in Louisiana if there is convincing evidence that he continuously resided in Louisiana for twelve consecutive months immediately preceding registration.
5. A student who is married to a Louisiana resident may acquire the residence status of his or her spouse.
6. A person who resides in Louisiana for at least two years, exclusive of military service, and then moves to another state or foreign country shall retain the right to enroll himself or any of his dependents as a resident for a period equal to the number of years he resided in Louisiana, but the right shall expire upon the person's residing for a period of two years in another state or foreign country.
7. A member of the full-time armed forces (not reserve or guard) currently stationed in Louisiana and their dependents shall be classified as Louisiana residents. A serviceman who was stationed in Louisiana immediately prior to his release from active duty may enroll himself or his dependents as residents during a period not to exceed six months after the date of release provided that his term of active duty shall have been no less than 12 consecutive months.
8. A member of the full-time armed forces who was a resident of Louisiana immediately prior to entering the armed forces shall retain the right for himself or any of his dependents to be classified as a resident as long as he is in the armed forces and for a two-year period after leaving the armed forces.
9. A resident of Louisiana shall not lose the right to be classified as a resident during periods of employment in a foreign country.
10. An alien who has been lawfully admitted to the United States for permanent residence as an immigrant (proof of such status shall be possession of his Form I-151-Alien Registration Receipt Card or passport officially stamped "approved as resident alien") and who has established residence under any of the foregoing provisions shall be declared a resident of the State.
11. Non-resident students who hold graduate assistantships may be classified as residents for fee purposes only and only for the duration of the graduate assistantship.

The University has a Residence Appeal process. Any student classified as a non-resident may appeal the classification to the Office of Admissions. The student should be prepared to supply documentation to substantiate any appeal.

Appeals Committee

A student's residence status does not change automatically, and the burden rests with the student to file the appropriate documentation with the Director of Admissions, who is the chairman of the Residence Regulations Appeals Committee. To ensure completion of the reclassification action prior to fee payment deadline, the appropriate documentation should be filed with the Director of Admissions no later than three weeks prior to the fee payment deadline for that semester. Information received after that time may not be completed in time to ensure reclassification as a legal resident for fee payment purposes. Also, to be eligible for a refund of non-resident fees paid for a given semester, the documentation for non-

Fees and Expenses

resident reclassification must be filed no later than sixty (60) days into the semester for which the fees are applicable. Refund of non-resident fees will not be retroactively applied to prior semesters.

Veterans Access, Choice, and Accountability Act of 2014. 38 U.S.C.3679(c)

Effective January 1, 2016, the following individuals shall be charged the in-state rate, or otherwise considered a resident, for tuition and fees purposes:

- A Veteran using educational assistance under either chapter 30 (Montgomery G.I. Bill – Active Duty Program) or chapter 33 (Post-9/11 G.I. Bill), of title 38, United States Code, who lives in the State of Louisiana while attending a school located in the State of Louisiana (regardless of their formal State of residence) and enrolls in the school within three years of discharge or release from a period of active duty service of 90 days or more.
- Anyone using transferred Post-9/11 G.I. Bill benefits (38 U.S.C. § 3319) who lives in the State of Louisiana while attending a school located in the State of Louisiana (regardless of their formal State of residence) and enrolls in the school within three years of the transferor's discharge or release from a period of active duty service of 90 days or more.
- Anyone using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b)(9)) who lives in the State of Louisiana while attending school in the State of Louisiana (regardless of their formal state of residence) and enrolls in the school within three years of the Service member's death in the line of duty following a period of active duty service of 90 days or more.
- **Johnny Isakson and David P. Roe, M.D. Veterans Health Care and Benefits Improvement Act of 2020 (P.L.116-315)** Southeastern Louisiana University abides by Provision 1005 and provides in-state tuition to all Marine Gunnery Sergeant John David Fry Scholarship, CH 30, CH 31, CH 33, and CH 35 recipients.

Title 38 Policy

In accordance with Title 38 US Code 3679 subsection (e), Southeastern adopts the following provisions for students using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Ch. 33) or Vocational Rehabilitation & Employment (Ch. 31) benefits. To qualify for this provision, students may be required to:

- Produce the VA Certificate for Eligibility (COE) by the fee payment deadline;
- Provide a written request to be certified;
- Provide additional information needed to properly certify the enrollment as described in other institutional policies.

While payment to the institution is pending from the VA, Southeastern will not:

- Prevent the student's enrollment;
- Assess a late penalty fee to the student;
- Require the student to secure alternative or additional funding;
- Deny the student access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution.

Financial Aid General Information

Our goal at Southeastern Louisiana University is to provide the resources to help students finance their college education. With federal, state, and institutional assistance, students have the opportunity to accomplish their educational goals. Funding received through student aid programs is intended to help students cover educationally-related expenses including tuition and fees, books and supplies, housing, meals, transportation, and miscellaneous personal expenses.

Students interested in receiving financial assistance through federal programs must complete the Free Application for Federal Student Aid (FAFSA). The FAFSA may be completed on the web at www.fafsa.gov, or by requesting a paper form by calling 1-800-433-3243. Students should complete the FAFSA as soon as possible after October 1 to apply for financial aid. The financial aid year at Southeastern Louisiana University begins with the fall semester and ends with the summer semester each year. Students are strongly encouraged to submit their FAFSA Application each year by the following priority deadlines:

Summer Semester	March 1
Fall Semester	March 1
Spring Semester	October 15

While students may complete the Free Application for Federal Student Aid (FAFSA) before being admitted to the University, they will not be awarded financial aid until the request for admission has been granted. Processing time for all financial aid programs is approximately six weeks. It is strongly recommended that students meet the priority deadline date for the term they are seeking financial assistance.

Financial aid is administered as a "package," which may contain a combination of federal, state, and/or institutional grants, federal loans, federal work-study, and scholarships. Below are descriptions of the various financial aid programs. The amount of a student's eligibility in each of the programs will be based on the student's grades, financial aid preference, need analysis results, cost of attendance, enrollment status, and timeliness of the financial aid application. In order to receive federal financial aid, a student must maintain satisfactory academic progress and meet all other standard eligibility criteria.

Repeat Course Policy for Financial Aid (Undergraduates)*

Federal regulations require the Office of Financial Aid to monitor and adjust a student's enrollment level for Title IV aid if, or when, courses are repeated for which credit has already been earned and Title IV aid was paid.

The policy allows a student to receive financial aid under the following situations:

- To repeat any failed or withdrawn courses until a passing grade is received.
- To repeat one time for a grade in which a passing grade was previously received and Title IV aid was paid.

Once a student receives a passing grade of "D" or better, the student may attempt the class one additional time for a grade and have it count toward their Title IV aid eligibility.

Note* The repeated course policy for financial aid is separate from the institutional academic repeated course policy.

Federal Pell Grants

The Pell Grant Program makes funds available to eligible undergraduates who have not earned a bachelors or professional degree. To qualify for a Federal Pell Grant, students must submit the FAFSA application and have a specific degree of financial need, as defined by the U.S. Department of Education annually. The actual amount of the Pell Grant will be based on individual eligibility, cost of attendance, number of hours enrolled, and program funding.

Federal Supplemental Educational Opportunity Grant Program (SEOG)

The Federal Supplemental Educational Opportunity Grant is for undergraduates with exceptional financial need, as defined by the U.S. Department of Education. Students who are eligible for and actually receive a Pell Grant may also be eligible to receive these funds. This program is limitedly funded, and priority is given to students who fall into the highest need category. Students may be eligible if enrolled at least half-time at Southeastern. When applying for Federal Financial Aid, students are automatically considered for SEOG.

Teacher Education Assistance for College and Higher Education (TEACH) Grant

The Teacher Education Assistance for College and Higher Education (TEACH) Grant Program provides a student with up to \$4,000 a year in grant assistance if the student is completing or plans to complete course work needed to begin a career in teaching.

Financial Aid

As a condition for receiving a TEACH Grant, a student must sign an Agreement to Serve, promising to teach full-time in a high-need field at a low-income school or educational service agency, for at least four complete academic years within eight years after completing (or ceasing enrollment in) the course of study for which the grant was received.

If a student does not complete the teaching service obligation, the amounts of the TEACH Grants received will be converted to a Direct Unsubsidized Loan that must be repaid with interest charged from the date of each TEACH Grant disbursement. For detailed information on the grant, visit www.teachgrant.ed.gov.

Louisiana Go Grant

The Louisiana Go Grant is a need-based financial aid program aimed at making college more affordable for students from moderate- and low-income families. Louisiana resident students who are eligible for and receive the federal Pell Grant may also be eligible for a Louisiana Go Grant. Funding for this program is limited.

Luther L. Ricks Memorial Loans and Tinsley Memorial Loans (Emergency Loans)

The Luther L. Ricks Memorial Loan Fund and the Tinsley Memorial Loan Fund: In 1951 the faculty established a loan fund as a memorial to Gladney Jack Tinsley, President of the College from July, 1945 to December 8, 1951. Members of the faculty and staff and friends of Southeastern have contributed to this loan fund. Each semester students contribute a portion of their fees to these loan funds. These loan funds are awarded as emergency loans to students who have an overall "C" average. An emergency loan may be applied to tuition, fees, and textbook rental charges, but it does not include housing and meals.

On request, the Office of Financial Aid will furnish additional information. Students may apply online for an emergency loan via the student's LEONet account.

William D. Ford Federal (Direct Loan) Program

Loans made through this program are referred to as Direct Loans, as eligible students and parents borrow directly from the U. S. Department of Education at participating schools. Students must be enrolled at least half-time coursework each term to be eligible for a loan. Direct Loans include the following:

Direct Stafford Loans

- **Direct Subsidized Loans** – Students must have financial need to receive a subsidized loan, as defined by the U.S. Department of Education. The U.S. Department of Education will pay (subsidize) the interest that accrues on the Direct Subsidized Loan during certain periods.
- **Direct Unsubsidized Loans** – Financial need is not a requirement to obtain an unsubsidized loan. Students are responsible for paying the interest that accrues on the Direct Unsubsidized Loan.
- **Direct Subsidized and Unsubsidized Loan Limits** – The following chart provides maximum annual and aggregate (total) loan limits for subsidized and unsubsidized Direct Stafford Loans. For current interest rates and rebates, visit the Direct Loan Servicing website at: studentloans.gov

Year	Dependent Undergraduate Student (except students whose parents are unable to obtain PLUS Loans)	Independent Undergraduate Students (and dependent students whose parents are unable to obtain PLUS Loans)	Graduate and Professional Degree Students
First Year	\$5,500 – no more than \$3,500 of this amount may be in subsidized loans.	\$9,500 – no more than \$3,500 of this amount may be in subsidized loans.	\$20,500 – no more than \$8,500 of this amount may be in subsidized loans.
Second Year	\$6,500 – no more than \$4,500 of this amount may be in subsidized loans.	\$10,500 – no more than \$4,500 of this amount may be in subsidized loans.	
Third Year and Beyond (each year)	\$7,500 – no more than \$5,500 of this amount may be in subsidized loans.	\$12,500 – no more than \$5,500 of this amount may be in subsidized loans.	
Maximum Total Debt from Stafford Loans following Graduation (aggregate loan limits)	\$31,000 – no more than \$23,000 of this amount may be in subsidized loans.	\$57,500 – no more than \$23,000 of this amount may be in subsidized loans.	\$138,500 – no more than \$65,500 of this amount may be in subsidized loans. The graduate debt limit includes Stafford Loans received for undergraduate study.

Direct PLUS Loans (PLUS Loans) are credit-based loans parents and graduate and professional students may obtain to help pay the cost of education. A FAFSA must be completed to obtain a PLUS Loan. Parents and graduate students must obtain credit approval from the U.S. Department of Education in order for funding to be received. The amount borrowed can be up to the Cost of Attendance minus any other aid.

Federal Work-Study Program

The Federal Work-Study Program provides jobs on and off-campus for students who have financial need, as defined by the U.S. Department of Education, and who want to earn funding to assist with part of their educational expenses.

Students may work on or off campus. Jobs are also available as America Reads Tutors or Community Service Workers. America Reads Tutors work in area elementary schools helping at-risk students learn to read. Community Service Workers may choose from a number of community service agencies in several parishes.

The hours a student may work are limited and wages are determined by the job description. However, students will earn no less than the federal minimum wage. In order to be eligible, a student must demonstrate financial need, maintain satisfactory academic progress, and maintain a good work history. Students must be enrolled at least half-time.

State Work Study

The State Work Study Program provides on-campus jobs for students who want to earn part of their educational expenses. A variety of jobs are available in most departments. The hours a student may work are limited and wages are determined by the job description; however, students will earn no less than the federal minimum wage. Wages are determined by the job description. In order to be eligible a student must be enrolled at least half-time.

Satisfactory Academic Progress

In order to be eligible for federal financial aid, a student must meet the Satisfactory Academic Progress standards applicable to recipients of Title IV Programs, along with all required state and university academic policies. The Satisfactory Academic Progress policy is checked at the end of each fall, spring, and summer semester through three distinct qualitative and quantitative components:

1. Students must maintain the required cumulative grade point average (GPA);
2. Students must maintain the required percentage of completion;
3. Students must complete the degree or certificate within the maximum allowable time frame.

For undergraduate students, the following Satisfactory Academic progress policy has been established:

- Freshmen students must earn a minimum of 1.75 cumulative GPA
- Sophomore, Junior, and Senior students must earn a minimum 2.0 cumulative
- Students must earn a minimum of 67% of all credit hours attempted in their career.
- Students pursuing an associate's degree must complete their program within 90 credit hours attempted
- Students pursuing an undergraduate degree must complete their program within 90 credit hours attempted

For graduate students, the following Satisfactory Academic Progress policy has been established:

- Students must earn a minimum 3.0 Cumulative GPA
- Students must earn a minimum of 67% of all credit hours attempted in their career.
- Students pursuing a master's degree must complete their program within 54 credit hours attempted beyond an undergraduate degree.
- Students pursuing a doctoral degree must complete their program with 60 credit hours attempted beyond a master's degree or 7 years

Should a student not meet the criteria noted above, eligibility for federal, state, and institutional aid may be suspended. A student may appeal the loss of financial aid eligibility if extenuating circumstances interfered with the ability to meet satisfactory academic progress standards.

It is the student's responsibility to become aware and knowledgeable of the Satisfactory Academic Progress standards. The complete Satisfactory Academic Progress is available on the [Financial Aid website](#).

Scholarships

The University awards scholarships to students of high scholastic, creative, and athletic ability. While the University underwrites the vast majority of these scholarships, the Southeastern Foundation has many scholarships funded by generous alumni and friends.

Southeastern staff work with each donor to create criteria for their scholarship. The University requires that every scholarship recipient submits a thank you letter to donors before the funds are disbursed to the student's LEONet account.

For more information about available scholarships, please contact the Scholarship Office. To learn more about the Foundation scholarships generous donors, visit http://www.southeastern.edu/alumni_donors/foundation/students/scholarships/index.html.

The University is most appreciative of all of the generous donors who assist deserving students in achieving their educational goals.

Scholarships General Information

The following is a list of scholarships at Southeastern Louisiana University. (Please note that scholarship availability and selection criteria listed on the following pages are subject to change at any time.) To obtain additional information about scholarships, visit www.southeastern.edu/scholarships or contact the Office of Financial Aid & Scholarships.

Address:

Southeastern Louisiana University
Office of Financial Aid & Scholarships
SLU 10768
Hammond, Louisiana 70402

Phone: 1-800-222-SELU (7358) or 985-549-2244

Email: scholarships@southeastern.edu

Students interested in Southeastern scholarships should complete the Scholarship Inquiry Form within their LEONet Self Service account to be included in the scholarship database. Consideration for various University scholarships is given to students who complete this submission.

Academic Scholarships

Southeastern Priority Scholarship

Students who complete an application for admission as a beginning freshman by the priority deadline of January 15 for the Summer/Fall semester or by September 15 for the Spring semester, with a 23 ACT and a 3.5 cumulative high school grade point or a 24 or higher ACT and a minimum 3.0 cumulative high school grade point average will qualify for a Priority Scholarship at Southeastern. All scholarships are awarded for eight semesters. A Priority Housing Award is offered to students who live on campus beginning with their first semester.

Beginning freshmen who apply after the January 15 deadline will be eligible for the Honors Scholarship. The eligibility criteria are the same as the Priority Scholarship, so students are encouraged to apply before the priority deadline of January 15 for summer/fall or by September 15 for spring semester to maximize their awards.

To retain the Priority Scholarship or the Honors Scholarship a student must be enrolled as a full-time student each semester/term, earn 30 credit hours in an academic year, and maintain a cumulative 3.0 grade point average. For more information on retention requirements and for additional scholarship information, visit www.southeastern.edu/scholarships, or contact the Office of Financial Aid & Scholarships.

The Southeastern Promise

The Southeastern Promise Scholarship represents a new level of commitment to our students. Under the Southeastern Promise, students can graduate in four years at the same tuition rate. Students must be admitted as a full-time freshman in the fall semester of their first year, having already completed all developmental coursework, to apply for the Southeastern Promise. To maintain eligibility, students must meet the conditions as outlined on the Promise website including:

1. Require no developmental course or complete requirements prior to their first fall semester.
2. Enroll full time in the fall semester
3. Be admitted to a major or as an undeclared major student at the time of enrollment for the fall semester
4. Make progress of 30 hours (25%) per year requirement
5. Maintain good academic standing and a minimum 2.0 cumulative grade point average.

To students who choose to enroll in the Promise, Southeastern guarantees a fixed net tuition rate and a four year to degree commitment. For more information on the Southeastern Promise, visit www.southeastern.edu/promise.

Dual Enrollment 15+ Completion Award

Students who complete 15 or more Southeastern dual enrollment credit hours with a grade of "C" or better can receive a \$1000 (\$500 Fall, \$500 Spring) supplementary award for their first year at Southeastern only, contingent on the availability of funds. Students must be enrolled full-time for the first fall semester following their high school graduation to be eligible.

Early Graduates Summer Incentive Scholarship: Award of \$600 for the summer semester to juniors and seniors with the ability to graduate within 30 credit hours or no later than the spring semester. Applicants must have a minimum 2.0 cumulative grade point average. This award is for one summer only and the recipient must carry a minimum of six hours. This award is available to undergraduate students only. Applicants must supply a detailed graduation plan from their academic department or have an active graduation application on file. Applications are available in April of each spring semester. This scholarship is awarded on a funds-available basis. For more information, contact the Office of Financial Aid & Scholarships.

Prestige License Plates Scholarship: Award of up to \$600 to undergraduate students with the ability to graduate within one year of scholarship semester. This award is for one semester only and the recipient must be full-time for the fall or spring semester and at least half-time for the summer term (unless semester of graduation). Applicants must have a minimum 2.0 cumulative grade point average. Applicants must supply a detailed graduation plan from their academic department. Applications are available in April for the summer term and fall semester and November for the spring semester.

This scholarship is awarded on a funds-available basis. For more information, contact Office of Financial Aid & Scholarships.

EXCEL: Award of \$500 per semester for 8 semesters to beginning freshmen. Recipients must have a minimum high school GPA of 2.5 and be nominated by their principal and/or guidance counselor. To retain one of these scholarships, a recipient must show demonstrated leadership, citizenship, and community service from high school, participate in a Leadership class during the first semester at Southeastern, maintain a 2.5 GPA each semester, and maintain full-time status at the University. For more information, contact the Office of Student Engagement at 985-549-2120.

Non-Resident Fee Waiver Scholarship: The UL Board of Supervisors has authorized each college and university to identify and award non-resident fee waiver scholarships to academically talented students among out-of-state applicants to the university. The fee waiver is a privilege that is not necessarily awarded to every qualified student. To qualify, the student must meet standards listed under the "Waiver of Non-Resident Fees."

Completer Scholarship: Available to eligible graduate or undergraduate students who are within one year of degree program completion. Applicants must complete the Application for Completer Scholarship form and supply a detailed graduation plan from their academic advisor and academic department or have an active graduation application on file. This scholarship is awarded on a funds-available basis. For more information or to request an application, contact Office of Financial Aid & Scholarships.

Southeastern Assistance Grants: Award of \$500 per semester for 4 semesters to students who show expressed need, motivation, and have at least a 3.0 GPA and 20 ACT (for beginning freshman) or 3.0 GPA (continuing and transfer students). This scholarship is awarded on a funds-available basis and a student's scholarship total will be considered in the awarding process. For more information, contact the Office of Financial Aid & Scholarships.

Southeastern Merit Award: Award of \$1,000 per semester for eight semesters to entering freshman documenting status as a National Merit Finalist or Semi-Finalist. To retain one of these scholarships, a recipient must maintain full-time status in the University and a minimum 3.0 GPA each semester. For more information, contact the Office of Financial Aid & Scholarships.

Southeastern's Non-Traditional Scholarship: Award of \$500 per semester for eight semesters to undergraduate non-traditional student (25 or older) with a minimum cumulative GPA of 2.5 who is enrolled a minimum of six hours. This scholarship is awarded on a funds-available basis. For more information, contact Office of Financial Aid & Scholarships.

Phi Theta Kappa Honor Society Golden Opportunity Scholarship

In addition to the Senator Ben Nevers Transfer Scholarship, students who are PTK graduates can also receive a supplementary two-year scholarship to Southeastern Louisiana University, contingent on the availability of funds, upon meeting the following criteria:

- Student must have completed an associate's degree in the semester immediately prior to the first semester of enrollment at Southeastern with a 3.0 cumulative grade point average. Students who enter in the fall semester must have completed an associate's degree in the prior spring or summer semesters.
- Student must be an active PTK member at the time of graduation.
- Student must have completed a FAFSA for their first semester of enrollment.
- Student must have completed an application for admission to Southeastern.
- Student must enroll full-time at Southeastern no later than the first regular semester (fall or spring) following their completion of an associate's degree. Students enrolling during the summer semester, must enroll in 6 or more hours.

To maintain eligibility, students must earn a total of 30 credits or more at the end of each academic year and maintain a 3.0 semester grade point average.

The PTK Golden Opportunity Scholarship will be \$1,500 per year (\$600 fall; \$600 spring; \$300 summer) award for a maximum of two years. Summer enrollment is optional, but the summer award (\$300) will be forfeited if the student chooses not to attend the summer term.

Students must self-identify by emailing finaid@southeastern.edu with a copy of their Phi Theta Kappa membership card.

The Senator Ben Nevers Transfer Student Scholarships: The Senator Ben Nevers Transfer scholarship is offered to new transfer students at Southeastern. The scholarships are based on hours attempted and a cumulative grade point average of 3.00 or higher. (Transfer students with less than 18 hours attempted must have a minimum 23 or higher ACT and minimum 3.00 or higher cumulative grade point average as both their college and high school GPA). For additional information go to www.southeastern.edu/scholarships or contact the Office of Financial Aid & Scholarships.

To retain a Transfer Scholarship a student must be continuously enrolled as a full-time student each semester (minimum 12 hours), earn 24 credit hours (miscellaneous credits do not apply) per academic year, and maintain both a cumulative and semester 3.0 grade point average. For more information on retention requirements and for additional scholarship information, visit the website at www.southeastern.edu/scholarships or contact the Office of Financial Aid & Scholarships.

State Supported Scholarships

The Louisiana Office of Student Financial Assistance (LOSFA) administers various state and federal post-secondary scholarship and grant programs. The information listed below is a brief list of some of the scholarships offered by the state of Louisiana. This is not a complete list of all state supported scholarships in Louisiana. The criterion for each scholarship listed below has been condensed. Additional information and applications may be obtained by writing to the Louisiana Office of Student Financial Assistance (LOSFA), Post Office Box 91202 Baton Rouge, Louisiana 70821-9202, by email to custserv@la.gov, or by calling, 225-219-1012 or toll free 1-800-259-5626.

Louisiana TOPS Scholarship: LOSFA's primary scholarship program is the "Louisiana Taylor Opportunity Program for Students" (TOPS). LOSFA has three versions of the TOPS scholarship for traditional undergraduate enrollment: TOPS Opportunity, TOPS Performance (TOPS Opportunity + \$400 annually), and TOPS Honors (TOPS Opportunity + \$800 annually). The primary TOPS scholarship is the TOPS Opportunity award. To be eligible for the TOPS Opportunity Award, LOSFA requires the following:

1. Students must complete a Free Application for Federal Student Aid (FAFSA) each academic year by July 1
2. Students must have a single-test composite score of 20 on the ACT and a minimum 2.5 GPA on core courses
3. Students must be a Louisiana resident (domiciled in Louisiana for two years prior to graduation)
4. Students must have graduated from a Louisiana high school no earlier than May of 1997.
5. Certain high school core curriculum requirements as designated by LOSFA must also be met.
6. Students completing a home study program approved by BESE may also qualify for the TOPS Opportunity Award with a minimum single-test composite score of 22 on the ACT.

Students are required meet several criteria each semester and year to maintain their TOPS Opportunity award:

1. Students must maintain continuous full-time enrollment (12+ credit hours) each semester
2. Students must earn a minimum of 24 credit hours each academic year (Fall, Spring, Summer)
3. Students maintain a minimum 2.0 cumulative GPA in all semesters
4. Students must have earned a minimum cumulative GPA by the end of each Spring semester based on the following:
 - If the student has earned less than 48 credit hours: 2.3 cumulative GPA
 - If the student has earned 48 credit hours or more: 2.5 cumulative GPA

Students who receive the TOPS Performance or Honors awards must meet requirements 1-3 above. They are also required to maintain a 3.0 cumulative GPA by the end of each spring semester.

Students who do not meet the above criteria will have their TOPS award suspended and will be ineligible for payment unless granted an exception by LOSFA.

For any questions concerning TOPS eligibility, students should contact LOSFA at 225-219-1012 or 1-800-259-5626 Ext. 1012. High School Counselors should also have eligibility and information regarding the TOPS program.

Louisiana Rehabilitation Services: This is a joint Federal-State Agency that aids students who are physically or mentally handicapped in order to help them to become gainfully employed. Assistance in college training can be provided as part of the student's rehabilitation. Any student who feels he has an employment handicap should call Louisiana Rehabilitation Services at 800-520-0588.

Fee Waiver Scholarships

Summer Start

Students who recently graduated from high school students with an ACT composite score of 24 or higher, and a high school cumulative GPA of a 3.0 or higher are eligible to take advantage of attending the summer semester for between \$100 and \$300 per class (depending on the classes taken).

Summer Smart

Undergraduate students who attend Southeastern Louisiana University for the summer semester, and are enrolled in at least 1 credit hour, are eligible for a \$300 credit for that semester. Senior citizens who receive the senior citizen waiver must be enrolled in at least 4 or more credit hours to receive the grant. Study abroad students are not eligible for this grant.

Dependent Fee Waiver: Spouses and children of Faculty and Staff members who are employed full-time as of the last day of registration for the semester of enrollment may attend Southeastern Louisiana University. Waiver amounts are awarded to undergraduate students only with respect to hours registered. Generally, children who qualify will be limited to those who are eligible dependents for tax purposes during the calendar year in which the fee exemption is issued.

Faculty/Staff Fee Waiver: Faculty and Staff members who are employed full-time by the last day of registration for the semester in which enrollment is requested are eligible for a fee waiver. Waiver amounts are awarded with respect to hours registered.

Graduate Assistantships: Tuition and fee waivers are provided to graduate students who hold assistantships. A limited number of Graduate Assistantships are available to qualified graduate students. Assistantships are awarded at the discretion of the individual department heads, and assignments are made according to the needs of the university. Qualified graduate students may also be eligible for a limited number of graduate teaching fellowships. Graduate Assistants are appointed in accordance with the University of Louisiana System, Department of Civil Service and Southeastern policies.

National Guard Exemption: Award amount covers base tuition for a full-time student in fall and spring semesters, and the base tuition amount for the summer session. When a student becomes a member of the Louisiana Army or Air National Guard, the guard member completes a Unit STEP Request at their unit prior to the application deadline. For more information, contact your unit.

Senior Citizen Fee Waiver: Students who are 60 years of age or older (proof of date of birth is required) and are a resident of Louisiana are not charged general fees for three credit hours nor an ID fee. Other registration fees and special fees will not be waived under this policy, nor will individuals enrolled under this waiver be granted reductions in cost for materials and supplies required at the University Bookstore. This fee waiver will be limited to three credit hours only. In order to receive this waiver, first-time students must apply in the Controller's Office.

Southeastern Scholars Program: High school students with an ACT composite score of 24 or higher, high school cumulative GPA of a 3.0 or higher, and permission of their principal are eligible to receive a scholarship to assist with the tuition for up to six hours of enrollment per semester.

Office of Military and Veteran Success

Students seeking or receiving education benefits through the Veteran Administration should contact the Office of Military and Veteran Success (OMVS).

Address:

Southeastern Louisiana University
Office of the Military & Veteran Success
SLU 10870
Hammond, LA 70402

Phone: 1-800-222-SELU (7358) or 985-549-5041

Email: veterans@southeastern.edu

The following guidelines are set up so the veteran or eligible person will be in compliance with Veteran Administration regulations.

1. Make satisfactory progress toward a degree or certificate.
2. Comply with and meet all standards set forth within the University catalog.

The Veterans Administration Office will not pay for the following:

1. Audited Courses – Courses that are attended but not taken for a grade.
2. Repeated Courses – Courses that are taken by the student, but are not required to be retaken by their degree program.
3. Non-Major Courses – Courses that are not required in your major.

Each veteran and eligible person has the following responsibilities:

1. Read and understand the standards relating to achievement, progress, and conduct published by Southeastern Louisiana University that must be met and maintained in order to continue to receive V.A. benefits.
2. Submit class schedule to OMVS prior to each semester.
3. Notify University officials and Veteran Services immediately when he/she ceases to attend a class or if any other schedule adjustments are made.
4. Enroll in additional courses to ensure full-time status as a graduating student, allowed only in their final semester before graduation. (Does not apply to those using Chapter 31 benefits.)

Veteran/Service member students, their dependents and their spouse have the same priority class scheduling as athletes, honor students and students with accommodations.

Auxiliary Services

Housing and Living Accommodations

Off-Campus Housing Permission

All unmarried, full-time undergraduate students with less than 60 hours, regardless of age or whether or not they have been emancipated, are required to live in on-campus residence halls as long as space is available.

Students who are residing with parents, legal guardians, close relatives (defined as grandparents, married brother, married sister), or hardship cases as established by the Board of Supervisors for the University of Louisiana System may be exempt from the on-campus residency requirement. Exemption information and claim forms may be obtained from the Dean of Students' Office. Students found violating the policy as stated above will be required to move into the residence hall system and pay room rent plus an administrative fee for the semester in which the violation occurred. Refusal to do so will result in disciplinary action.

To be considered for exemption from the on-campus residency requirements, students must complete the appropriate application form. Forms must be submitted at least 25 days prior to the first day of registration for a semester in order to ensure full consideration. Action taken on applications received on time will be mailed no later than five days prior to the first day of registration for the semester. Forms are available in the Dean of Students' Office.

When a student is granted permission to reside off-campus, the University assumes no responsibility for the living arrangements and supervision of that student.

University Residence Halls

The University provides living accommodations for approximately 2,700 students in campus residence halls, apartments, and organizational housing. Continuous efforts are made to provide educational, social, and cultural advantages as part of the experience in group living for hall residents. The use of any forms of tobacco are prohibited on campus, including all residential facilities. First time Southeastern students must be fully admitted to the university prior to being accepted for University Housing. All continuing Southeastern students must have a 2.0 overall GPA or a 2.0 on 12 hours or more from the previous semester to remain in housing or apply to live in a residence hall or organizational house. A minimum 3.0 GPA is required for returning students to live in any of the three honors halls. In order to live in campus apartments, a student must have a minimum 2.3 GPA and at least 30 earned credit hours.

Students who live in the Southeastern Louisiana University residence halls are required to purchase a full meal plan. When a plan is chosen, the student agrees to abide by their choice for the full semester. If a resident student fails to select a meal plan during the registration process, the default meal plan will automatically be selected for him/her. Cub Cash (declining balance dollars) may be added at any time in increments of \$25. Cub Cash rolls over from fall to spring semesters only. Unused Cub Cash at the end of the spring semester will be forfeited. Meal swipes expire each semester. Prices are subject to change if conditions make it necessary. Only students with meal plans and students purchasing meals on an individual meal basis will be admitted to the cafeteria (Mane Dish). All purchases made on the student's account must be made by the individual whose name appears on the account.

Meal plans are non-transferable. Any student permitting someone to use their meal plan and/or borrowing another student's ID is subject to disciplinary action.

The administration of the residence halls is based on the premise that students are endeavoring to do their best, observing the democratic principles of consideration of others, so that students may pursue their chosen courses of instruction in a manner which will be both to their credit and to that of the University. Students who fail to comply with all residence hall regulations are subject to disciplinary action. University Housing has a zero-tolerance policy for harmful or disruptive behavior in and around the residential communities. Drugs, weapons, vandalism, fighting, alcohol and other serious behavior not conducive to the educational mission of the university and residential community will not be tolerated. Students in violation may be immediately removed from the residence hall and will receive no refunds.

Laws, regulations, and rules represent best efforts to create a livable society and to induce socially acceptable behavior. Students at Southeastern Louisiana University are expected to be mature, law abiding, and responsible in their general behavior. Accordingly, they are expected to obey national, state, and local laws; respect the rights and privileges of others; be forthright and honest in all their social and academic conduct, and in general, conduct themselves in a manner that brings credit to themselves and the University.

In addition to national, state, and local laws, students are expected to obey University regulations. These regulations clearly state what students must do and some specific things that students must not do if they wish to remain associated with the institution.

The University does not attempt to define every forbidden action by formal rules. In situations not covered by specific regulations, a student should use common sense and be sure that their conduct is at all times consistent with that expected of a mature, responsible individual who has high ethical standards.

In order to meet emergency situations, make routine maintenance inspections, maintain minimum health and safety standards, and to enforce University regulations, the University or their agent reserves the right to enter students' rooms.

Living-Learning Communities

A Living-Learning Community is a purposeful residential environment for students who share common academic, cultural, or social interests. Each community varies in organization, goals, and curriculums. University Housing, in partnership with several academic affairs units, offers living-

learning communities in Ascension Hall for students enrolled in the Honors Program and Twelve Oaks Hall for beginning freshmen majoring in any degree program within the College of Nursing and Health Sciences as well as beginning freshmen majoring in Chemistry, Physics, or Math. In these communities, students live together and participate in shared courses, special events, and service projects as a group. We also offer 24-hour quiet hours communities on two floors in Louisiana and Livingston Halls. Greek Village for students already in Greek Life and Village M for students interested in pursuing Sorority Life. Applicants interested in experiencing a Living-Learning Community or themed housing should select the corresponding hall when listing hall preferences on the University housing application.

Application for Rooms in University Housing Facilities

Only regular enrolled, full-time, unmarried students are eligible to live on campus without special permission. Students not enrolled as full-time may be granted special permission from the Director of University Housing to reside on campus.

With the exception of new freshmen, residents are required to have a 2.0 overall GPA at the time of application to the residence halls and organizational housing. All residents must maintain a 2.0 overall GPA to remain in the residence halls and organizational housing. Apartment residents must have a 2.3 overall GPA and sophomore standing at the time of application, and must retain 2.3 overall GPA to remain in Southeastern Oaks Apartments. Students who do not meet these criteria may file an appeal with the University Housing Academic Standards Committee.

The housing application portal can be found at www.southeastern.edu/liveoncampus by selecting the "Apply Now" link. Applications for University Housing must be submitted via this portal and must be accompanied by the processing fee (\$100) and room prepayment (\$300). The processing fee increases to \$150 if not submitted by posted deadlines. Students must be considered fully admitted to the University in order to access and complete the application. Students submitting a housing room application agree to live in housing and are responsible for all housing and meal charges through May commencement, unless only applying for summer semester housing. Please contact University Housing for details regarding Organizational Housing agreement terms.

Claiming University Housing Assignments

Southeastern Louisiana University does not guarantee assignment to a particular type of accommodation. Assignment to rooms in the residence hall will be made in accordance with the established policy for priorities and on the basis of available housing space. Room assignment is contingent upon final acceptance for admission. Organizational house room assignments are made by University Housing in conjunction with each organization's House Manager. Rooms are to be occupied only by the students to whom the rooms are assigned. Rooms may not be sublet to another person. Applicants are advised to apply early. Building and room assignments are based on; acceptance to the university, date of Housing application, and all fees and prepayment received. The university reserves the right to change the room assignment of any student, to deny residence to any student, or dismiss a student from a residence hall at any time such action is deemed necessary for the best interest of the residence hall system and/or its residents.

Dining Services

Southeastern Louisiana University has a continuing commitment to offer quality dining programs and facilities that reflect the lifestyles of today's college student. Our campus dining program provides a unique combination of specialty restaurants offering a variety of food choices. Two types of restaurants are featured in Dining Services: 1) The Mane Dish – an all-you-care-to-eat dining facility with entrees prepared in front of customers; 2) The Lion's Den – a food court which is host to retailers such as Chick-fil-A, Panda Express, Taco Bell, Mooyah, the Union Market featuring grab 'n go options and more. We also offer other retail locations including Starbuck's, Subway Café, and Java City Internet Cafe. In addition to the many restaurant options, we also offer six full-service convenience stores on campus. Mane Market is located in Louisiana Hall, Ascension Market in Ascension Hall, Mane Market Too is located in Garrett Hall, Union Market is located in the Lion's Den Food Court, and Mane Market North is located on North Campus.

Meal Plans

Southeastern Louisiana University has a mandatory meal plan policy for resident students.

Lion Unlimited 200: Provides unlimited all-you-care-to-eat meals per semester in the Mane Dish and \$200 in Cub Cash. This plan also includes one guest pass per week in the Mane Dish.

Lion Unlimited 300: Provides unlimited all-you-care-to-eat meals per semester in the Mane Dish and \$300 in Cub Cash. This plan also includes one guest pass per week in the Mane Dish. This is the default plan if a resident student does not choose a meal plan during registration. **Lion Unlimited 400:** Provides unlimited all-you-care-to-eat meals per semester in the Mane Dish and \$400 in Cub Cash. This plan also includes one guest pass per week in the Mane Dish.

Cub Plan: This plan is available only to students with a minimum of 30 earned credit hours and provides 150 all-you-care-to-eat meals per semester in the Mane Dish. This plan also includes 10 guest passes per semester in the Mane Dish.

Commuter 300: Gives commuter students and Southeastern Oaks residents access to any of the campus dining locations at any time. The commuter meal plan is all Cub Cash (declining balance dollars).

Green 200: For commuter students and Southeastern Oaks residents. It provides fifty (50) all-you-care-to-eat meals per semester in the Mane Dish and \$200 in Cub Cash (declining balance dollars).

Green 300: For commuter students and Southeastern Oaks residents. It provides fifty (50) all-you-care-to-eat meals per semester in the Mane Dish and \$300 in Cub Cash (declining balance dollars).

Auxiliary Services

Green 400: For commuter students and Southeastern Oaks residents. It provides fifty (50) all-you-care-to-eat meals per semester in the Mane Dish and \$400 in Cub Cash (declining balance dollars).

Gold 200: For commuter students and Southeastern Oaks residents. It provides eighty (80) all-you-care-to-eat meals per semester in the Mane Dish and \$200 in Cub Cash (declining balance dollars).

Gold 300: For commuter students and Southeastern Oaks residents. It provides eighty (80) all-you-care-to-eat meals per semester in the Mane Dish and \$300 in Cub Cash (declining balance dollars).

Gold 400: For commuter students and Southeastern Oaks residents. It provides eighty (80) all-you-care-to-eat meals per semester in the Mane Dish and \$400 in Cub Cash (declining balance dollars). This is the minimum plan required for all Organizational Housing and Greek students.

All students have until the Fee Payment Deadline to make meal plan changes in LEONet or by the second week of classes through the Dining Office located on the first floor of the Student Union. Requests can also be made via phone at (985) 549-2286.

To find out more about Cub Cash (declining balance) amounts or to purchase additional declining balance dollars, please visit the Dining Services office located on the first floor of the Student Union or call us at 985-549-2286. Visit www.southeastern.campusdish.com for additional details regarding meal plans.

Campus Dining Services Locations

- A. **The Mane Dish**— is the primary residential dining facility available to commuters, faculty, staff and guests as well, featuring an all-you-care-to-eat menu with food prepared custom ordered in front of consumers. Numerous choices range from a salad bar, home-style entrees, burgers, deli sandwiches, and fresh pasta dishes, to name a few.
- B. **Lion's Den** – a food court that features Chick-fil-A, Panda Express, Taco Bell, Mooyah and the Union Market featuring grab 'n go items. The Lion's Den also provides other food choices including sushi, snacks and more.
- C. **Subway Café** – featuring famous Subway subs, Subway Café also offers salads, pizza, Seattle's Best coffee and pastries. Located in Tinsley Annex.
- D. **Starbuck's** – full-service location featuring Starbuck's coffee, muffins, bagels, and more. Located in the Student Union.
- E. **Java City Internet Café** – a retail location in the library featuring designer coffee, pastries, and more.
- F. **Mane Market** – convenience store located in Louisiana Hall featuring snacks, drinks, fresh grab-n-go items and basic convenience store items.
- G. **Mane Market Too** – convenience store in Garrett Hall featuring fresh grab-n-go salads and sandwiches, as well as snacks, drinks and more.
- H. **Mane Market North** – convenience store kiosk in North Campus Main Building featuring fresh grab-n-go salads, sandwiches, and sushi, in addition to Starbuck's self-serve coffee, snacks, drinks and more.
- I. **Ascension Market** – convenience store with late hours located in Ascension Hall featuring fresh grab-n-go salads, salads, as well as hot items, snacks, drinks, and more.
- J. **Union Market** – convenience store located in The Lion's Den Food Court featuring fresh grab-n-go salads, sandwiches, and sushi, in addition to snacks, drinks, and more.

Once a student selects their meal plan during registration, the entire amount must be paid by fee payment deadline. All meals can then be accessed by presenting the Southeastern ID card.

Campus Card Operations

Every student enrolled at Southeastern Louisiana University must have a Student ID card and must carry the ID at all times. A government issued photo ID (ex. Driver's license, passport) is required when having an original Student ID card made (no exceptions). It is mandatory for a student to pay the non-refundable validation fee each semester the student is enrolled.

The Student ID card is used to access the Lion's Lagniappe Account. This is a campus-wide account established to reduce the need to carry cash while on campus. It is also accepted at select merchants throughout the Hammond area. The Lion's Lagniappe account can be established by selecting an amount *during* registration through the student's LEONet account, via cash deposit into one of the five (5) Lion's Lagniappe Value Terminals (located in the Student Union, Sims Memorial Library, Louisiana Hall, Greek Village and the Campus Card Operations office), or online using GET via the Campus Card Operations website or the GET Mobile free app. Lion's Lagniappe can be added *after* registration at the Controller's Office or using GET online or mobile or the cash to card Lion's Lagniappe Value Terminals.

Lion's Lagniappe funds will rollover from semester to semester as long as the student is enrolled. Students may request a refund of Lion's Lagniappe funds during the semester; however, a \$10 processing charge will be assessed. Refunds of accounts, which were paid with Financial Aid funds, will be reimbursed to the financial institution. Lion's Lagniappe balances will be credited upon separation from the university (i.e. graduation, resignation, etc.).

In addition to accessing Lion's Lagniappe, the Southeastern ID is used to access meal plans, door access, check out rental books and more.

Lost or stolen University ID cards (student, faculty, and staff) should be reported immediately to Campus Card Operations or the University Police Department. You may also report your card lost using your GET account. If you find your card, you can reactivate it in GET, unless you have already replaced the ID card with a new card. Once a card is reported lost to Campus Card Operations, it immediately becomes invalid. If a new card has been printed as a replacement, the previous card will no longer be valid and cannot be reactivated.

The cardholder assumes full responsibility for the safekeeping of the ID card. A \$15 fee is assessed to replace a lost, stolen or damaged ID card.

Southeastern Louisiana University

The ID card is restricted to the person to whom it is issued. The card will be confiscated if it is used by anyone other than the person to whom it was issued. Violation of this policy will result in disciplinary action including possible dismissal.

The ID card is the property of Southeastern Louisiana University. It becomes invalid upon termination or interruption of enrollment. If the student re-enrolls in the university, the same ID card will be reactivated automatically, if within one year. A \$15 fee will be assessed if a new ID card is required and the time does not exceed one academic year prior to re-enrollment.

For students or employees requesting a refund of their Lion's Lagniappe balance, a processing fee of \$10 or the balance on the card, whichever is less, will be assessed. Any funds in excess of the \$10 processing fee will be refunded to the student's account. For graduating students, any balance, minus a processing fee of \$10 or the balance remaining on the card, whichever is less, will be refunded after graduation.

Document Source Print and Mail Center

The Document Source is a full-service print/copy and mail center servicing Southeastern students, faculty, and staff, as well as the surrounding community. We offer professional quality services such as package shipping through USPS and FedEx along with printing, copying, binding, finishing, and wide format banners and signs. Mail boxes can be rented by commuter students at a cost of \$16 per semester (fall and spring) and \$8 (summer). Mail services are included in the on-campus resident amenity package. Residents should use the following address to receive mail and packages at The Document Source:

(Full Legal Name)
STUDENT RESIDENT
303 Union Ave. Suite 1401
Hammond, LA 70402

The Document Source is conveniently located in the Student Union next to Starbucks. We support all campus and departmental mail operations by providing access to stamps, metered mail, envelope printing and stuffing, and bulk mail delivery. When you are ready for graduation let us print your personalized graduation announcement and mail them for you. We can also produce your wedding invites and birthday party invites.

Textbook Rental

Follett Higher Education Group has partnered with the University to manage its Textbook Rental System which issues textbooks on a student fee system at a per course charge. The charge is included on the student invoice and is refundable only upon resignation on or before the last day of final registration, or when a course is dropped and the book is returned by the end of final registration.

Students are required to return the book that was issued to them in good condition and undamaged. Lost, wet, mildewed or damaged books must be purchased. Students will receive notification from Textbook Rental if books are deemed damaged and charges will be posted to the student's account. Books not claimed within three (3) weeks of notification will be subject to disposal. All purchases of rental textbooks are final.

Students must present their Southeastern Student ID card to check out their books. Students are required to return the book(s) issued to them by the first business day following the last day of final exams. A book drop return is available to students during times that the Textbook Rental office is closed. The book drop box will automatically lock when filled.

All drop books will be checked in the next business day following the drop.

For the fall and spring semesters, a \$7.50 per book fine will be assessed on books returned from the second business day through the fifth business day following final exams. Please refer to the Academic Calendar for summer rental return deadlines.

Non-returned books will be charged at the full retail price.

Any student resigning from the university or withdrawing from any class must return all rental textbooks prior to leaving.

Books can be returned by mail but must be post-marked by the scheduled return deadlines or late/overdue charges will be applied.

Students do have the option of purchasing textbooks. Rental fees will be refunded for textbooks purchased from Southeastern Textbook Rental within the first three (3) weeks of classes.

Prices are subject to change without notice. Books such as manuals and workbooks, which are not available through Textbook Rental, may be purchased from the University Bookstore or any other source the student chooses.

Textbook Rental Appeal Policy

Students with overdue rental books have the opportunity to file an appeal if they have an extenuating circumstance which prevented them from returning the books by the deadline. **The deadline to file an appeal is the fourteenth (14th) day of class following the semester the book(s) were not returned.** The appeals process includes the completion and submission of the online [Textbook Rental Appeal Form](#) found on the Textbook Rental Web site. The appeals process and form can be found in the Student Policies section of the Web site.

When completing the form, students must attach all pertinent information that will document clearly and concisely the extenuating circumstances resulting in the rental books not being returned by the posted deadlines (ex. medical records, military records, death certificate, etc.).

Auxiliary Services

This online appeal is reviewed by the Textbook Rental Appeals Committee which is comprised of faculty, staff, and students. The committee meets at various times throughout each semester. Committee decisions are emailed to the student's W#@southeastern.edu account as soon as the student's case has been reviewed.

Overdue accounts are due at the Controller's Office by the fee payment deadline. If an appeal is approved, the charges will be credited back to the student's account.

University Bookstore

Follett Higher Education Group has partnered with Southeastern for the operation of the University Bookstore. The bookstore carries a complete line of Southeastern gifts and accessories, greeting cards, office supplies, backpacks, textbooks, academically priced software, general reading books and art supplies.

The University Bookstore shall grant a full refund for textbooks returned during the first five (5) days of the fall and spring semester classes, with a receipt. Thereafter, a full refund is given through the twelfth (12th) class day with a receipt and a proof of withdrawal. A cash register receipt must accompany all refunds and returns.

1. Returns may be made within five (5) class days of each summer session.
2. Study guides, test preparations and manuals are non-refundable.
3. Computer items and software may be refunded or exchanged within three (3) days from the date of sale, with the original receipt, providing the merchandise is unopened.
4. All other merchandise may be returned within thirty (30) days of purchase with a receipt.
5. New materials must be returned in original condition.
6. Shrink-wrapped items may be returned for refund, if unopened.
7. Refunds for textbooks are not allowed during the week prior to, or during finals.

Cap and gown purchases are available in the fall and spring. College rings may be ordered at any time.

Visit the bookstore Web for store hours and any special sales and events throughout the school year at: www.southeastern.edu/liongear.

Event and Conference Services

We want you to have a positive experience when booking your event on Southeastern's campus. From start to finish, an event coordinator will assist you with planning your event to ensure it is executed flawlessly.

- Weddings
- Professional Development Conferences/Meetings
- Sports Camps
- Cheer and Dance Camps
- Seminars
- Corporate and Community Events

We provide a full line of services to customize to your event's needs. For example, on-site catering and dining options can be incorporated into your event plans as well as security, lighting and reserved parking. Overnight lodging is available during the summer semester for the convenience of our camp guests.

Student Union

The War Memorial Student Union is the community center of the University. The Student Union provides services and conveniences to students, faculty, and staff during their daily life on campus. Services available in the Student Union include the Mane Dish dining facility, the Lion's Den Food court, the Game Room, The Document Source Print and Mail Center, University Bookstore, and Starbucks. The Student Union also offers ballroom, conference and meeting room space.

The Student Union is home to the College of Honors and Excellence, University Counseling Center, Health Center, Career Services, Auxiliary Services, Campus Activities Board, the Office of Military and Veteran Success, Campus Tours, Dean of Students, Enrollment Express, Honors/International Student Affairs, Student Engagement, Student Government Association, Lion's Den Food Court, University Bookstore, meeting rooms and ballroom space.

University Center

The University Center is a versatile facility situated on 11 acres on the north side of Southeastern's campus. The "UC," as it is known, serves as the home for Southeastern basketball and volleyball as well as camps, expos, and local high school commencement ceremonies. Meeting rooms are also available in the University Center.

The Division for Student Affairs

Eric J. Summers, *Vice President for Student Affairs*

The Division for Student Affairs complements the University's academic mission by providing a safe and supportive campus that affords students with ample opportunities for development in addition to important services that add value to the campus experience. At the core of the Division's work is the belief that student involvement is critical to student success. As such, the Division serves as a resource to all students, regardless of major or classification.

Student Affairs Mission Statement

The Division for Student Affairs enhances growth of Southeastern students and fosters pride in the institution through the provision of superior campus services, meaningful opportunities for student development, and maintenance of a safe campus. The Division for Student Affairs oversees several services and programs as follows:

Dean of Students

The Office of the Dean of Students is a highly visible and accessible resource that provides advocacy, outreach, and developmental opportunities for all students that are designed to enhance the quality of student life. The Office of the Dean of Students strives to assist and advocate for students through personal hardships and matters that may negatively impact the college experience. The Office of the Dean of Students guides faculty, staff, students and parental figures to resources and programs and helps to explain processes that may facilitate informed decisions. The Office of the Dean of Students has direct oversight over various policies and procedures including free expression, alcohol and drugs, food policy, Registration of Events/Activities, new student orientation presentations, divisional on-call, and university-excused absence requests.

Recreational Sports and Wellness

The Department of Recreational Sports and Wellness provides students with opportunities to create and maintain healthy lifestyles through participation in programs and use of the Pennington Student Activity Center facility. The department offers a wide range of dynamic fitness equipment along with an indoor track. There are also group exercise studios that are available to all members along with a racquetball court and a multi-sport gymnasium. There are classrooms for student organizations to utilize and a lobby to take a mental break. Intramural Sports, Club Sports, Group Exercise Classes, Personal Trainers and special events are offered throughout the year.

Intramural Sports

Intramural Sports are designed to provide Southeastern Louisiana University students and employees who are members an opportunity to participate in a variety of competitive sports in a safe, fun, and structured environment. Some of the events are flag football, softball, basketball, soccer, racquetball and tennis.

Club Sports

Men's Lacrosse, Men's Rugby, and Tennis are all active club sports. If you have a passion for a sport and you would like to start a club, please talk with the Assistant Director of Competitive Sports and Fitness. A club sport is a student organization designed to serve individual interests in different sports and recreational activities. These interests can be competitive, recreational, or instructional. Clubs compete with other clubs, organizations, colleges, and universities but should not be confused with a varsity sport administered by the Athletic Department. Varsity teams must follow NCAA rules and regulations, are usually fully funded, have paid coaches and athletic trainers, practices and competitions are mandatory, and today's varsity sports usually require a full year commitment. Club Sports often compete with other universities but are not affiliated with the NCAA, the majority of their funds are self-generated, coaches are often volunteers, and the organization and administration of the club is determined by the club officers.

Fitness

Group exercise classes are workouts put to music for a fun, team-oriented approach to fitness led by our motivational instructors. These classes are a nice break from other modes of exercise. With a variety of classes and facility hours, there's truly something for everyone. Our qualified group fitness instructors will lead you safely and smoothly through the classes of your choice.

Personal Training

At The Rec, your success is our success! Our personal trainers hold a nationally recognized personal training certification and are fully equipped to help you accomplish your goals. Our personal trainers can assess and create custom exercise programs to suit your wants and needs.

Student Advocacy and Accountability

In pursuit of its educational mission, Southeastern Louisiana University seeks to teach students the value of good citizenship, to value others, and to respect the community. Students must familiarize themselves with the Student Code of Conduct and the University policies including, but not limited to, harassment, computer use, academic dishonesty, and traffic regulations. Students conduct themselves in a manner that supports the educational mission and functions of the University and comply with all federal, state, and local laws, and all applicable University policies.

Sanctions

The following sanctions shall be effective at all universities under the jurisdiction of the University of Louisiana System:

Student Affairs

1. Students responsible for violating the Student Code of Conduct are issued sanctions up to suspension dismissal, or expulsion. If the violation is severe, such student shall at minimum be suspended or dismissed for one academic year.
2. The University Police Department is authorized to bar any visitor who has committed an act that violates local, state, or federal laws. The visitor shall at a minimum be denied admission or employment for twelve months.
3. The President of the University or their designee is authorized to impose interim measures on student who has violated the Student Code of Conduct and whose presence on the campus constitutes an immediate threat to the physical safety of the campus community.

Separation from the University

Students who are found responsible for serious violations of the Student Code of Conduct or who habitually violate the Student Code of Conduct may receive a sanction that separates them from the University. Such sanctions could include the following:

1. Disciplinary Suspension is the involuntary separation of the student from the University for a definite period after which the student is eligible to return. The student is placed on Disciplinary Probation for a period following the return to the University. Students involuntarily separated from the University are restricted from visiting or entering Southeastern Louisiana University premises for the period during which their sanction is in effect without advance written authorization from the Chief Student Conduct Officer. Holds prevent the student's ability to register in the University and retrieve the student's involuntary separation records from the University for the period of separation. Students are responsible for dropping any classes and paying fees assessed on their student accounts. In addition, a notation will appear on the transcript stating the terms of the suspension period.
2. Disciplinary Dismissal is the involuntary separation of the student from the University for a definite period and without a guarantee of readmission. The Chief Student Conduct Officer establishes the terms of readmission, and readmission will be specified. Students involuntarily separated from the University are restricted from visiting or entering Southeastern Louisiana University premises during which their sanction is in effect without advance written authorization from the Chief Student Conduct Officer. Holds prevent the student's ability to register in the University and retrieve the student's involuntary separation records from the University for the period of the separation. The student is placed on Disciplinary Probation for a definite period following the return to the University. Students are responsible for dropping any classes and paying fees assessed on the student accounts. In addition, a notation will appear on the transcript stating the terms of the suspension period.
3. Disciplinary Expulsion is the permanent separation of the student from the University. Students can only visit or enter Southeastern Louisiana University premises if they receive written authorization from the Chief Student Conduct Officer. Holds prevent the student's ability to register in the University and retrieve the student's involuntary separation records from the University. Students are responsible for dropping any classes and paying fees assessed on their student accounts. In addition, a notation will appear on the transcript.

In certain circumstances where there is a perceived threat of safety to the University Community, the Vice President for Student Affairs, the Chief Student Conduct Officer, the Assistant Director of the Office of Student Advocacy and Accountability (OSAA), or designee, may impose a University or residence hall suspension before the final disposition of the matter. Upon issuance of an Interim Suspension, the Chief Student Conduct Officer, the Assistant Director of OSAA, or designee, shall endeavor to contact the student, advise the student that an Interim Suspension is in effect, and provide the Student with an opportunity to address the alleged misconduct.

University jurisdiction and authority are limited to conduct on University premises, at University sponsored events, or off-campus conduct that adversely affects the University community or has a detrimental impact on the University's education function. Jurisdiction applies to all University locations, including where the University extends to distance education, such as study abroad, service trips, experiential learning opportunities, athletic, club sports, and other group travel. Jurisdiction also applies to behavior conducted online, via email or through electronic mediums in cases where the behavior excludes freedom of expression. The University does not regularly search for online information but may take action if such information is available to University Officials.

Student Engagement

The Office for Student Engagement encourages development through co-curricular and extracurricular experiences while providing an inclusive environment for the student body. We facilitate involvement and real-world readiness for our students through engagement in Student Organizations, Student Government Association, Leadership Development, Multicultural and International Student Affairs, Campus Activities Board and Fraternity and Sorority Life.

Student organizations are vital to Southeastern's campus life and provide varied opportunities for students to enhance classroom experiences through interaction with individuals of varied interests, ideas, and values. There are over 80 student organizations that include honor societies and departmental, religious, service, and special interest groups:

Student Government Association

Southeastern's Student Government Association (SGA), of which each student is a member, is the principal organization of the student body and is part of the Office for Student Engagement. The SGA provides student representation to the faculty, administration, and community. The SGA constitution provides for a three-branch system of government that includes executive, legislative, and judicial units. The heads of the branches (President, Vice President and Chief Justice) as well as student Senators are elected by the student body.

Departmental Organizations

Biology Graduate Student Organization (BGSO), Biology Undergraduate Society (BUGS), Delta Omega Alpha Pre-Professional Society, Financial Management Association, Institute for Supply Management, Kinesiology Student Association, Le Circle Francais (French Club), MBA Society, National Student Speech Language Hearing Association (NSSLHA), Pre-Law Students Association, Social Work Student Association,

Southeastern Louisiana University

Southeastern Ceramics Club, Southeastern Marketing Association, Southeastern Student Nurses Association, Spanish Club, Student Athletic Training Association (SATA), World Languages and Cultures Student Ambassadors.

Honor Societies

Chi Sigma Iota Sigma Lambda Upsilon, Gamma Beta Phi, Honor Student Association, Kappa Delta Pi, Pi Sigma Epsilon – Eta Tau, Psi Chi, Sigma Alpha Iota, Sigma Tau Delta/The English Club, Tau Alpha Pi Honor Society.

Religious

Baptist Collegiate Ministry, Catholic Student Association, Delight Women's Ministry, Fellowship of Christian Athletes, InterVarsity Christian Fellowship, Lions for the Lamb, Southeastern Gospel Choir.

Service Organizations

Campus Outreach, National Association for the Advancement of Colored People (NAACP), SLU Wesley Foundation

Special Interest

Sororities

Alpha Kappa Alpha, Alpha Omicron Pi, Alpha Sigma Tau, Delta Sigma Theta, Phi Mu, Sigma Gamma Rho, Sigma Sigma Sigma, Theta Phi Alpha, and Zeta Phi Beta.

Multicultural and International Student Affairs

The Office of Multicultural and International Student Affairs works to create a campus environment that encourages and welcomes diversity. The office coordinates a wide range of programs and services in cooperation with academic departments, student organizations and other student support units. These activities assist students in achieving academic success and provide the campus with avenues for learning about and celebrating new cultures and diverse ways of thinking.

Campus Activities Board

Southeastern recognizes the value of extracurricular and co-curricular activities both as an integral part of the educational process and as a means of relaxation and entertainment for students. The Campus Activities Board's (CAB) purpose is to enhance the educational process by allowing students to plan social, cultural, and entertainment programs for the campus community.

Office of Career Services

The Office of Career Services (CS) provides job search assistance and career counseling/coaching services to juniors, seniors, graduate students, and alumni. CS also provides assistance in locating off-campus part-time employment opportunities in the surrounding areas to all classifications of currently enrolled students.

Career counseling/coaching services include information and sessions to discuss career goals, develop resumes and cover letters, and polish job interview skills. Career assessment is also available to clarify interests and personality strengths as they relate to appropriate career choices.

Job search services include part-time job fairs, recruitment tables in the union, on-campus interviews, job vacancy postings, and campus-wide and specialized career fairs.

Students interested in any of these services should contact the Office of Career Services
– www.southeastern.edu/career - careerservices@southeastern.edu – 985-549-2121 – SU Annex, Room 2102.

Student Accessibility Services

The mission of Student Accessibility Services is to ensure access for qualified students with disabilities, promote self-advocacy skill development, and provide guidance to the University community to enhance the understanding and support of students with disabilities.

In accordance with applicable law and University policy, Southeastern Louisiana University ensures equal opportunity for all qualified students with disabilities, without regard to disability, in the programs and services provided by the University.

SAS provides disability-related accommodations to students who are qualified and self-identify with the office. These services may include classroom accommodations, testing accommodations and the use of auxiliary aids. We work closely with other departments to facilitate these accommodations. The office also provides outreach and education to increase disability awareness within and around the Southeastern Louisiana University community.

Student Affairs

To receive accommodations, students with disabilities must self-identify by providing current documentation from an appropriately licensed professional on official stationery regarding the nature and extent of the disability and the recommended accommodation(s). Detailed self-identification, documentation and accommodation request information is available from Student Accessibility Services by contacting by phone at 985-549-2247 or by visiting our website at www.southeastern.edu/sas.

University Counseling Center

The University Counseling Center (UCC) offers professional mental health counseling services to assist with personal and social concerns. Individual, couples, marriage, family and group counseling are available to all students, faculty and staff. The UCC staff also provides services after hours for on campus mental health emergencies. Professional services are confidential except in cases of danger to self or others, evidence of child/elder abuse or neglect, court order, written permission of the client to disclose, or if the counselor is legally challenged by the client. The UCC staff adheres to the American Counseling Association's Code of Ethics and the Code of Ethics of the Louisiana Licensed Professional Counselors Board of Examiners. The UCC is accredited by the International Accreditation of Counseling Services.

University Police Department

The Southeastern University Police Department strives to partner with the Southeastern Community to create a safe and secure inclusive campus for our students, staff, faculty, and visitors. The department consists of P.O.S.T certified sworn law enforcement officers commissioned pursuant Louisiana Revised Statute 17:1805 and handles all incidents that occur on campus property.

University Police provide community outreach and engagement by providing crime prevention classes, RAD self-defense classes, Coffee with a Cop events, social media engagement, and Blue and You events, to name a few.

University Police also partners with the Hammond Police Department and surrounding agencies on incidents that may affect the campus or students. The department, located in Pride Hall, operates 24 hours a day, 365 days a year.

In 2021, University Police introduced a new safety phone application, Lion Safe. This app is free to all users and includes safety features such as virtual and friend walks, mobile blue lights, and reporting crime tips. This app is monitored 24 hours a day, 365 days a year. The application is available for download in the Apple and Google Play stores.

In addition to the Lion Safe app, Southeastern also has stationary blue lights placed all throughout campus and inside the residential halls. These blue lights are for summoning assistance from the University Police Department. In addition, during an emergency, the University Police can be contacted by dialing 2222 on any university phone. Anyone calling 911 will be connected to Tangi 911. Callers should let the 911 operator know the emergency is located on Southeastern's campus. Callers will then be redirected to a University Police Department Communications Officer for further assistance.

University Police does have authority to make arrests and detentions for crimes. Individuals arrested for violations of law are transported to the Tangipahoa Parish Jail (felony) or the Hammond City Jail (misdemeanor) for booking. Violations of university regulations are reported to the Office of Student Advocacy and Accountability for further action.

Transportation Services

Shuttle Service

Students, faculty and staff may ride the Lion Traxx Shuttle 7 a.m. to 5:30 p.m., Monday through Thursday (no Friday Service). Riders must present their Southeastern ID to board. The main route covers the campus with shuttles making the loop around campus every 15 minutes. For time, stops, and more information, call 549- BUSS (2877).

Campus Parking Regulations

Campus parking regulations are explained in detail at: www.southeastern.edu/admin/transport/policies/assets/FY23parkingrules.pdf. Students are responsible for knowing and understanding the regulations, where they are authorized to park, the campus speed limits, and enforcement procedures.

Parking areas on Southeastern's campus are designated and marked specifically faculty/staff, resident student, freshman commuter, upper class commuter, and motorcycles. Handicapped and maintenance vehicle parking spaces are also clearly marked. All parking areas are indicated by color code on the Campus Map.

Students requiring the use of a handicapped parking space must have a state issued handicapped hangtag, placard, or license plate and a Southeastern handicapped hangtag. Those who fail to obtain a Southeastern handicapped hangtag will be issued a parking citation. In accordance with state law, unauthorized parking in a handicapped space will result in a \$275 parking citation.

Motor Vehicles

All students and employees of the University are required to purchase a parking permit prior to parking on campus. All visitors are required to register their vehicle with Transportation Services and receive a temporary parking tag. Any vehicle parked on campus without a current parking permit/tag will be issued a ticket.

Southeastern Louisiana University

Bicycle Registration

The University requires that every bicycle parked or stored on an approved campus bicycle rack be registered with the Office of Transportation Services. Mandatory registration helps the University gather data to determine if there are adequate bike racks and rack locations on campus. Registration is also the best way to help recover a bicycle in the event it is lost or stolen. This requirement applies regardless of whether the owner is a student, faculty, staff, or visitor to the University. The bicycle registration is at no cost. Failure to register a bicycle may result in a \$15 unregistered bicycle citation if parked on campus. Bicycle operators should register their bicycles at the Transportation Services Office located in Pride Hall, 1301 SGA Drive. Any individual with questions regarding the bicycle registration process may call 985-549-5695.

The College of Honors & Excellence

Claire Procopio, *Interim Dean*

The College of Honors & Excellence is focused on educating the whole student, bridging the gap between curricular and extracurricular learning, and ensuring effective student transition and success at the university to create a diverse community of undergraduate scholars. We are the launch pad for most incoming freshmen enrolling at Southeastern including students in our selective Honors Program. We have units dedicated to serving returning and transfer students and supporting student learning.

Office for First-Year Success

The Office for First-Year Success (FYS) works in partnership with the university academic departments and campus community to assist students in becoming active, responsible, and successful learners. FYS is committed to creating an environment that fosters student development and retention.

To fulfill this mission, FYS provides sustained advising throughout each student's first year. Professional academic advisors/coaches are assigned to assist all incoming freshmen (new and transfer students with less than 30 hours). First-year students meet individually with their professional advisor/coach throughout the semester to discuss academic and career goals, grades, obstacles, and other concerns. Advisors also help first-year students learn about and understand academic plans, curriculum and/or program requirements, general education requirements, prerequisites, and course selection.

Much of this advising is conducted through the Southeastern 101: Freshman Academic Success course. SE101, the University's required academic success course for beginning freshmen, is a two-credit hour graded success course that provides first-year students with the tools needed to manage the emotional, social, and academic transition to the university. It is designed to help cultivate effective and adaptable behaviors, develop successful academic strategies, and to connect students with professional advisors to explore career options, academic plans, and target the skills needed to be a successful college student.

Honors Program

The Honors Program at Southeastern is designed to prepare students to know and understand the most significant ideas, deeds, and events that have shaped our world and will shape the future; to have confidence in their abilities to think independently, write clearly, and speak effectively; and to be leaders in their communities and professions. It aims to prepare responsible individuals to be perpetual learners who realize their potential for a fully human, ethical, and prosperous life.

The Honors experience at Southeastern, as many of our alumni have testified, can make a profound difference in the value and effect of one's undergraduate education by broadening perspectives on the world and strengthening credentials for graduate, law, and medical schools and careers in education, government, business, research, and the health fields.

The Program provides highly motivated students a strong foundation in education and career preparation. In small classes, students enjoy conditions for learning at the peak of their abilities. The Honors curriculum, characterized by comprehensive and in-depth coverage of the material in a learning community environment, facilitates discussion, debate and intellectual friendship among students and with their professors. Rounding out the benefits of Honors education at Southeastern are priority registration, travel opportunities, extracurricular events and lectures, Honors residential accommodations, membership in the Honors Student Association, Honors academic credit shown on the transcript, the opportunity to earn a Sophomore Honors Distinction Award and notation on the transcript, the opportunity to earn a Senior Honors Distinction Award and notation on the transcript, and the ability to participate in the Senior Thesis process to earn the Honors Diploma.

Admissions Requirements: A composite score of 24 or higher on the ACT and a minimum 3.0 high school GPA qualify an entering freshman to join; a cumulative GPA of 3.0 or higher in 12 or more hours of university credit qualifies an advanced student to apply. Honors active status is not granted automatically but depends on the student applying to the Honors Program office, which serves as an advising center for students pursuing an Honors diploma. Each college may have special criteria for accepting students into its upper-division Honors curricula.

Staying in Honors: Students must maintain a 3.0 GPA to remain in the Honors Program. Freshman Honors Program students whose GPA at the end of their first semester is between 2.73 and 3.0 are allowed one probation semester in which they must establish a minimum 3.0 cumulative GPA to continue in the Program. Students must also show progress toward the Honors Diploma each academic year. Membership in the Honors Program is a privilege. Violations of the Student Code of Conduct can result in removal from the Honors Program.

Recognition Requirements:

Sophomore Honors Distinction: Recognition includes a notation on the transcript and a certificate awarded after the end of the fourth regular semester in college (does not count advanced placement or dual enrollment semesters). To receive the recognition, students must formally apply with the Honors Office the semester after meeting the requirements below:

- Completion of 15 hours of 100- and/or 200-level Honors credits chosen from at least three disciplines by the end of the fourth regular college semester with no grade lower than a "B" in any Honors course used towards the distinction, and
- A minimum of 3.0 cumulative GPA.

Senior Honors Distinction: Students receiving this distinction will receive recognition at the Honors Recognition Ceremony and on their transcripts. Students working toward senior honors distinction are expected to indicate their intention to the Honors Director during the first semester of the junior year (sooner if pursuing early graduation) for additional information on requirements including the following:

- Completion of thesis readiness program in the junior year designed to expose students to the concept of the senior thesis and lay the groundwork for senior research later,

Southeastern Louisiana University

- Completion of nine hours of upper-level Honors coursework including at least three (3) hours of 300- or 400-level HONR credit, and
- A minimum 3.2 cumulative GPA.

Honors Diploma

- Completion of 15 hours of 100- and/or 200-level Honors credits chosen from at least three disciplines;
- Completion of 9 hours of upper-level Honors coursework;
- Completion of a Senior Thesis following Senior Thesis guidelines, and
- A minimum 3.0 cumulative GPA with 'C' grade or better in all Honors courses applied to the Honors Diploma.

The Path to the Honors Diploma

To earn the University Honors Diploma, a student must successfully complete the following requirements:

1. Required Honors Freshman and Sophomore Coursework (15 hours)
 - 15 hours of freshman and/or sophomore Honors credit chosen from at least three academic disciplines.
2. Upper-level Honors Coursework (9 hours) chosen from any combination of the following:
 - 300- or 400-level HONR course(s)
 - 300- or 400-level H course(s) in the major
 - 300- or 400-level H-option of course(s) in the major
 - Up to 3 hours of university-sponsored Study Abroad
3. Senior Thesis
 - Thesis criteria available from the Honors Office, include a significant research or creative endeavor and an oral presentation of the project
 - Students enroll in HONR 300 (1 hour) the semester they will complete and present the senior thesis

Honors Courses

Required Honors Freshman and Sophomore Coursework: The foundation of the Honors experience takes place in the freshman and sophomore years when students work to complete at least 15 hours of Honors 100- and/or 200-level Honors coursework chosen from at least three academic disciplines. This shared academic experience helps to create a vital academic community among Honors students. They share their ideas beyond the classroom, whether over coffee or in the dorm, and extend their intellectual friendships from semester to semester. Students are encouraged to take Honors courses beyond the 15-hour minimum to satisfy additional General Education and Major requirements as appropriate.

Upper-level HONR Courses: These courses offer students an opportunity to study topics outside the standard curriculum. The courses are designed to deepen a student's knowledge about particular intellectual issues and to demonstrate the interconnectedness of academic disciplines. Topics are considered from the perspectives of the pure and applied sciences, the social and behavioral sciences, the arts and humanities, and business and finance.

H-Courses in the Major: Many programs have coursework specifically designated for juniors and seniors in their majors. Students should consult the schedule of classes, the catalog, and the major department for additional information.

Honors Options: By completing an Honors Option contract (H-Option) in a course, a student may earn Honors credit in a regular class. The student must contract with the professor to complete additional and/or more-in-depth assignments. Upon completion, the student earns Honors credit that can be used to partially satisfy the requirements for the Honors Diploma. Typically, no more than 6-hours of 100-/200-level credit earned through the H option process may be used toward the Honors Diploma. Contact the Honors Office for more information on the H-Option process.

Senior Thesis

The Honors diploma requires a senior thesis be done in the college in which a student majors. Under the direction of a faculty member from their major, each Honors student pursuing the Honors diploma selects a topic in the major, plans and completes a research project or creative endeavor, and presents the results in the form of a senior thesis. Credit for a senior thesis is approved by the Director of the Honors Program and overseen by enrollment in HONR 300 (1 hour). If a college or department does not designate a particular numbered course in which to do the senior thesis project, its students may select an appropriate 300-400 level course in the student's major.

Honors Research Scholars and Honors Creative Scholars

Honors Research Scholars or Honors Creative Scholars will complete a research/creative experience of at least two-semesters under the supervision of a faculty mentor in their discipline. The research/creative experience should culminate in a written thesis, publication, or other scholarly/creative product. The objective of the program is to involve highly motivated undergraduate students in an in-depth research/creative project that simulates the "graduate student" experience, to expose the student to the discipline appropriate academic research and publication environment or creative process, and to introduce the student to the scholarly/creative community.

Eligibility:

- Students must have completed at least 30 hours of undergraduate work.
- Have at least two semesters remaining before graduation.

College of Honors & Excellence

- Have at least a 3.0 GPA.
- Have identified a faculty member who is willing to mentor the student in their research/creative experience.
- Submit an application for the Honors Research or Creative Scholars program to the Honors Office.

Once accepted into the program, students must:

- Actively participate in an independent research/creative project under the guidance of their faculty mentor. The research/creative experience should last at least two semesters and must consist of work not required for the undergraduate degree.
- Produce an undergraduate thesis, refereed publication, exhibit, performance, or other scholarly product approved by the faculty mentor with the Honors Office. Students are strongly encouraged to submit written work for publication in an appropriate academic journal.
- Publicly present their results to the campus community at a department forum or public symposium such as the annual College Honors Convocations.

Interested students should contact the Honors Office for more details.

Academic & Career Exploration Office

Academic and Career Exploration (ACE) Coaches provide academic and career coaching for students in transition that are no longer served by first-year advisors. Students needing support reaching their academic goals can work with ACE coaches who help students in developing study strategies, study structure, and study habits. The ACE Coach works in collaboration with department heads, faculty advisors, and undergraduate coordinators to identify and support students that are not progressing in their degree program, unsure about their major, and/or need assistance researching other majors and related occupations.

The Transfer Student Coordinator provides transition assistance to incoming transfer students with over 30 credit hours working to create a transfer-friendly campus that prioritizes transfer enrollment and identifies specific strategies aligned with student needs and the university's goals. The Coordinator understands that transfer students are unique and works to eliminate "transfer shock" by providing information for transfer students pertaining to Southeastern policies, procedures, advising structures, terminology, learning platform, academic expectations, student engagement opportunities, etc. The Coordinator serves as an initial point-of-contact for transfer students referring students to appropriate departmental offices, academic departments, faculty, and support services. The Coordinator collaborates with admissions and academic departments to determine course equivalency determinations and appropriate major. The Coordinator also works with academic departments to establish clear paths for transfer students to pursue their major while maximizing their transfer credit.

For students that experience academic challenges, the ACE office offers an Academic Recovery Program where students can participate in staff-led groups and/or individual meetings with a CSE advisor/coach. The Academic Recovery Program is designed to help students identify and develop the tools, skills, and support necessary to recover their grade point average and to regain "good" academic standing with the University as quickly as possible. As an added resource, students are also eligible to enroll in the SE 102: Freshman Academic Coaching Seminar, which is a one-credit hour course that provides student-focused academic coaching by engaging and encouraging students to identify the personal and academic strategies necessary to succeed as college students. This class is offered to all classifications.

Tinsley Learning Center

The Tinsley Learning Center (TLC) is a nationally accredited learning center that assists Southeastern students through various academic resources. The TLC has attained the College Reading and Learning Association (CRLA) Level III Certification - the highest certification available. With this certification, our tutors must meet strict hiring guidelines and undergo rigorous tutor training. Our core values are: We Care, We Respect, We Strive for Excellence, and We See Learning as a Process Not a Product.

The TLC offers a variety of educational resources where students are engaged and empowered to cultivate the skills needed for academic success and life-long learning. Our tutors are trained in research-based learning strategies. These learning strategies are incorporated into the academic resource sessions that the TLC offers.

Some of the academic resources we offer include but are not limited to in-person and small group tutoring sessions; free access to NetTutor, an on-line tutoring service company; peer assisted study sessions; embedded tutoring for select courses; and a variety of study skill workshops.

Our academic sessions primarily focus on first- and second-year classes across many academic disciplines. All TLC resources are free to Southeastern students.

The College of Arts, Humanities and Social Sciences

Karen Fontenot, *Dean*
James Worthen, *Assistant Dean*

The College of Arts, Humanities and Social Sciences is comprised of the departments of Communication and Media Studies, English, History and Political Science, Music and Performing Arts, Psychology, Sociology and Criminal Justice, Visual Art + Design, and World Languages and Cultures. It also houses the General Studies program.

Graduation Requirements

To earn a baccalaureate degree in the College of Arts, Humanities and Social Sciences, a student must successfully complete two sets of academic requirements: University requirements and departmental requirements.

University Requirements:

The University requirements are listed in the Admission Criteria and Academic Regulations section of this catalog.

Departmental/Program Requirements:

Fulfillment of the requirements specified by the department offering the program of study in the student's major. These departmental requirements, including a curriculum outline, are located elsewhere in this section (chapter) of the General Catalog.

1. Courses in each curriculum which will be used in calculating the grade point average in the major are identified by a "††." The following departments require a grade of "C" be made in each of their major courses: Communication and Media Studies, Music and Performing Arts, Sociology and Criminal Justice, Visual Art + Design, and World Languages and Cultures.
2. All departments require that a cumulative or degree grade point average of 2.0 or higher be earned in the major.

Degrees Awarded

The degree of Bachelor of Arts is awarded upon the successful completion of a four-year curriculum in Communication, English, History, Political Science, Psychology, Sociology, Criminal Justice, Art, or World Languages. The degree of Bachelor of Music is awarded in Music and the Bachelor of General Studies is awarded in General Studies.

Honors Diploma in the Discipline

The college also offers upper-division honors curricula allowing students to earn an honors diploma in a specific discipline at graduation. For information about requirements and honors courses in your major, please contact the department in which you are majoring.

The Major and Minor Programs

The requirements for both the major and the minor (for degrees requiring a minor) are stated in the introductory section describing departmental curricula.

Pre-Professional Programs

Pre-professional study prepares a student to transfer to another institution for the completion of a professional degree. Because the specific requirements of professional schools vary considerably, students should obtain current catalogs from the schools in which they are interested. A pre-professional advisor at Southeastern Louisiana University will then help each student plan a suitable curriculum.

PRE-LAW: Department of History and Political Science, or Department of English, or Department of Sociology and Criminal Justice.

Students should plan to complete a baccalaureate degree before applying for admission to a law school. Major and minor fields may be chosen according to interest. Typical choices are business, criminal justice, economics, English, history, journalism, political science, and sociology.

Recommended courses include accounting, expository writing, ethics, logic, American constitutional law, British constitutional and legal history, business law, judicial politics, philosophy of law, and the American judicial process, criminal law, law and society, and criminology. Consult both Pre-Law and major advisors in planning a program.

NOTE: The Law School Admission Test should be taken early in the senior year.

Center for Southeast Louisiana Studies

The Center for Southeast Louisiana Studies/Archives preserves and promotes the history and the cultures of the Florida Parishes and surrounding environs, including southwestern Mississippi, within state, national and international contexts through scholarly research, lectures, film work, and publishing.

Over seven hundred separate archival collections document regional history with critical holdings on the area's farming, logging, railroading and maritime industries as well as extensive Native American artifact collections. Additional collections highlight the region's colonial development including the West Florida Republic era, antebellum development, Civil War operations, and the struggle for civil rights.

Extensive photographic collections, including the "Piney Woods People" and "Palmetto People" collections, depict turn-of-the-century families and folkways while other collections highlight African American culture and regional environmental concerns. Vintage maps, newspapers, census reports and oral histories complement the study of local and regional history.

The Center serves as headquarters for the Gulf South Historical Association and Southeast Louisiana Historical Association and produces the refereed journal *Southeast Louisiana Review* and annual newsletter *The Centerpiece*. Center staff also write and produce films such as the award-

College of Arts, Humanities, and Social Sciences

winning *American Crisis*, *American Shame: The National Consequences of Coastal Erosion* and a regional history cable television program *The Florida Parish Chronicles*. The Center maintains the Southeastern Louisiana University Archives and Special Collections and provides a closed-stack research library.

The Center hosts rotating and permanent exhibits in its display room and sponsors a variety of informational conferences including, the Plain Folk of the South Symposium, the James H. Morrison Lectures on Politics and Government, the Ford Family Lectures in American history, Teaching the West Florida Republic Conference, and the Southeast Louisiana Historical Associations History Lecture Series.

Department of Communication and Media Studies

James O'Connor, *Department Head*

Communication

The baccalaureate degree in Communication is designed to develop student competencies in oral, written, and visual communication by providing opportunities for focused study and application in the areas of organizational communication, television and multimedia journalism, sports communication and corporate training and development. Acquisition of communication skills will facilitate participation in the economy, development, and culture of southeast Louisiana and beyond.

Students who complete Southeastern's BA in Communication will:

1. Be able to communicate and create content for multimedia platforms.
2. Be able to perform critical thinking, data gathering, and academic research.
3. Be able to use digital communication tools and systems.
4. Understand the ethical and legal underpinning of the communication profession.
5. Demonstrate job preparedness and specific background training for professional communicators and candidates for graduate school.

Major

Students wishing to major in Communication must complete 39 hours of general education requirement, 33 hours of supporting course requirements, 27 hours of major course electives, and 18 hours of concentration requirements. Students must devote their communication electives to a minimum of 6-15 hours in each of the categories of media strategy, content creation and production, and communication theory; fifteen (15) hours of communication electives must be at the 300- or 400-level. The major in Communication leads to the degree of Bachelor of Arts. The one core requirement which all majors must complete with a "C" or better is COMM 151.

Concentrations

Concentrations are more extensive studies in a specific area and are designed to give students the opportunity for greater depth and breadth of knowledge within one area of study. Requirements for individual concentrations are listed in the following pages of the catalog. Students should meet with their advisors for guidance within their area of interest.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Minors

Students who wish to complete a minor will complete 18 hours of communication courses, including COMM 211.

Total Semester Hours Required

120

Southeastern 101 is not required of transfer or readmitted Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of free electives.

^G General Education Courses

††Major course; Grade of "C" or better required.

¹Students must complete a minimum of 6 hours in a two-semester sequence of biological science plus a physical science or a two-semester sequence of a physical science plus a biological science. Students must complete one of the natural science two-semester sequences listed in the Admissions Criteria and Academic Regulations section of this catalog.

²Twelve semester hours in one foreign language are required.

³Students must choose 27 credit hours of communication electives in each of the three categories, with at least 15 hours at the 300- or 400-level.

Media Strategy Communication Electives. Select three courses from: COMM 270, 272, 364, 411, 427, 430, 441, 451, 459, 466, 467, 476, 477, and 490.

Content Creation and Production Communication Electives. Select four courses from:

COMM 121, 213, 316, 321, 340, 344, 354, 357, 363, 401, 402, 408, 409, 413, 424, 425, 449, 460, 463, 465, 478, 495; ART 122, 190, 220.

Communication Theory Communication Electives. Select two courses from:

COMM 155, 159, 215, 328, 369, 376, 391, 410, 418, 433, 453, 456, 458, 461, 471, 475, 485, 493.

Total Semester Hours Required

120

Southeastern 101 is not required of transfer or readmitted Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of free electives.

^GGeneral Education Courses

††Major course; Grade of "C" or better required.

¹Students must complete a minimum of 6 hours in a two-semester sequence of biological science plus a physical science or a two-semester sequence of a physical science plus a biological science. Students must complete one of the natural science two-semester sequences listed in the Admissions Criteria and Academic Regulations section of this catalog.

²Twelve semester hours in one foreign language are required.

³Students must choose 27 credit hours of communication electives in each of the three categories, with at least 15 hours at the 300- or 400-level.

Media Strategy Communication Electives. Select four courses from: COMM 270, 364, 411, 427, 451, 459, 466, 467, 477.

Content Creation and Production Communication Electives. Select three courses from:

COMM 121, 213, 256, 257, 260, 316, 321, 340, 344, 354, 357, 359, 363, 401, 402, 408, 409, 413, 417, 424, 425, 430, 449, 460, 465, 478, 495;

ART 122, 190, 220.

Communication Theory Communication Electives. Select two courses from:

COMM 155, 159, 215, 328, 369, 371, 376, 378, 391, 410, 418, 433, 453, 456, 458, 461, 471, 475, 485, 493.

Department of English

David Hanson, *Department Head*

The Department of English at Southeastern Louisiana University fosters students' abilities to think analytically and creatively, write clearly and cogently, and integrate critical judgment with imagination in reading texts. The Department's tradition of concern for the individual student sustains a strong sense of intellectual community, diversity and vitality. To round out its commitment to education that is both engaged with the world and personally rewarding, the Department sponsors cultural events, serves external communities, and promotes global awareness. English faculty teach courses in basic composition and literature supporting the University's general education core, and undergraduate and graduate courses in literary studies, composition, creative writing, professional writing, publishing studies, pedagogy, and linguistics. All curricula are designed to provide humanistic education that prepares students for graduate study and develops their practical skills for professions, including education, law, professional writing, and the arts. For graduation, the Department requires a minimum of 120 semester hours properly distributed among the various disciplines of the University.

Candidates for the bachelor's degree in English must earn, at Southeastern, at least half of the semester hours required in the major field.

Placement in English

Placement of entering freshmen in English courses is based on the English score and the Composite score on the American College Test. (See American College Test in this catalog.) Students are not permitted to register for English until these scores are on file in the Office of Testing.

The American College Test is not used as an entrance examination. Rather, it is used as a means of determining the degree of preparation in English. The placement procedure, outlined below, ensures (1) that each entering freshman will begin their study of English at the highest level for which he/she is prepared at the time he/she enters Southeastern, and (2) that each one who is assigned placement in English will automatically receive credit for the prerequisite course or courses.

- **English 100:** ACT English score of 16-17 (must be taken concurrently with English 101). Credit for English 100 does not count toward graduation.
- **English 101:** ACT English score of 18 or higher.
- **English 102:** ACT English score of 29 or higher. Credit for English 101 with grade "P" upon successful completion of English 102.
- **English 101H (Honors):** Minimum ACT Composite score of 24 or minimum ACT English score of 24. Credit for English 101H in lieu of English 101.
- **English 102H (Honors):** A minimum grade of "C" in ENGL 101H or demonstration of superior ability in ENGL 101 or credit for ENGL 101 plus a minimum ACT Composite score of 24 or a minimum ACT English score of 29. Credit for English 102H in lieu of ENGL 102.
- **English 200-300-level courses:** A minimum combined ACT English and Composite score of 65 **AND** an advanced-standing examination (a composition administered and evaluated by the Department of English). Credit for English 101 and 102 with grade "P" upon successful completion of English 210H, 229, 230, 231, 232, 233, 291H, 292H, 300, 301, 303, 309, 310, 312, 315, 316, 317, 321, 322, 351, 352, 369, 370, 371, 372, 373, 374, 380, 392, 395, or 396.

Majors

The major in English consists of forty-two approved semester hours.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Minors

The Department of English offers minors in English, Creative Writing, Professional Writing, and Gender Studies that consist of 18 hours, and an Interdisciplinary Minor in Publishing that consists of 21 hours. They include the following course requirements:

1. Minor in English
Courses from two of the following groups:
230/351/352; 231/301/303; 232/395/396; 300; 210H; 291H; 292H; 312/413/414..... 6 hours
ENGL Electives (300-400)¹ 12 hours

¹At least six of the twelve hours of English electives must be in literature.

2. Minor in Creative Writing
ENGL 371 3 hours
ENGL 372 3 hours
ENGL 482 or 483 3 hours
300/400 level courses¹ 6 hours
Elective 300/400 level courses in English or Independent Study 3 hours

¹Three hours must be in modern or contemporary literature, as approved by the Department Head.

College of Arts, Humanities, and Social Sciences

3. Minor in Professional Writing
- ENGL 322 3 hours
 - ENGL 448 3 hours
 - English 492, 493, 494, or 495 3 hours
 - Document Design¹ Elective 3 hours
 - International Perspectives¹ Elective 3 hours
 - Discourse of the Professions¹ Elective 3 hours

¹Cross-disciplinary electives are subject to approval by the Professional Writing coordinator. See English Department for a list of approved classes.

4. Minor in Gender and Sexuality Studies
- ENGL 229 3 hours
 - ENGL 429 3 hours
 - SOC 215, 222, or 354 3 hours
 - HIST 468 or 469¹ 3 hours
 - Electives² 3 hours
 - Final Project: Independent study in English or home discipline producing substantive research or creative project centering gender and sexuality studies concepts and frameworks....3 hours

¹A History course at the 300-400 level with substantial focus on gender and sexuality may be used to satisfy this requirement with the approval of the English Department.

²Subject to the approval of the Department of English, Independent study or special topic course from any department may be used in this minor if a substantial amount of the course or of the student's research focuses on issues of gender and sexuality.

5. Interdisciplinary Minor in Publishing
- ENGL 309 3 hours
- One course each from the following core areas of publishing:
- Writing: English 321, 322, or 447; Communications 151 or 430 3 hours
 - Editing: English 492 3 hours
 - Visual Culture: English 449 or 486; or Communication 376; or CMPS 455 3 hours
 - Print Publishing: English 493; or Communication 321; or Visual Arts 361 3 hours
 - Online Publishing: English 494; Communication 417 or 419; Computer Science 420; or Visual Arts 459 3 hours
 - Elective¹ 3 hours

¹To be decided from any of the above courses not already fulfilling a component requirement or from an internship course in the student's major to serve as a publishing internship (English 495; English 499; Communication 459; Visual Arts 466; or Computer Science 495.)

⁴At least 3 hours of general electives must be 400-level courses.

⁵12 hours to be chosen from the following: ENGL 370, 371, 372, 380, 482, 483, 484.

College of Arts, Humanities, and Social Sciences
Department of History and Political Science

William Robison, *Department Head*

Major in History

Thirty-six (36) semester hours are required for a major in History. At least twenty-four (24) of these hours must be in 300- or 400-level courses in History for the History Concentration or in History and CRMP Specialization courses for the Cultural Resource Management Concentration.

Major in Political Science

Thirty-six (36) semester hours are required for a major in Political Science. At least twenty-seven (27) of these hours must be in 300- or 400-level courses.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Minors

- I. Minor in History
Eighteen (18) hours are required for a minor in History, with at least 6 hours in 300- or 400-level courses.
- II. Minor in Political Science
Eighteen (18) hours are required for a minor in Political Science, with at least 6 hours in 300- or 400-level courses.
- III. Minor in Philosophy
Eighteen (18) hours are required for a minor in Philosophy, with at least 12 hours in 300-level and 6 hours in 400-level courses.
- IV. Minor in International Studies
Eighteen (18) hours are required for a minor in International Studies, with 6 hours in a single foreign language at the 200-level or above and 12 hours as follows:
CJ 411; COMM 410, 458; GEOG 141, 142, 301, or 410 3 hours
ENGL 352, 487; FREN 314; GERM 314; ITAL 381; SPAN 314 or 324 3 hours
HIST 434, 440, 445, 446, 447, 448, 454, or 468 3 hours
POLI 420, 422, 424, 425, 426, 428, or 444 3 hours
- V. Minor in African Ethnic Studies
Eighteen (18) hours are required for a minor in African American Ethnic Studies as follows:
COMM 410 3 hours
ENGL 310 and 428 6 hours
HIST 489 3 hours
POLI 407 3 hours
SOC 411 3 hours

General Requirements for Courses

All 100 and 200-level History and Political Science courses require the use of department approved rental texts, on which students must be tested. All 300 and 400/500 level History, Political Science, and Philosophy courses require essay exams; term papers and/or book reviews; and book discussions and/or oral presentations by students.

Southeastern101 is not required of transfer or readmitted Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of free electives.

^G General Education Courses

††Major course requiring a grade of "C" or better.

¹Students must complete 18 hours (including the 9 hours of CRMP Electives) in one of the following specializations.

Anthropology: CRMP 411; Anthropology 101 and 301; 9 additional hours of Anthropology.

Fine Arts: CRMP 431; Art 105 and 106; 9 hours from Art 340, 344, 345, 346, 347, 348.

Public History: CRMP 411; Geography 103; Political Science 201; 9 hours from History 463, 466, 467, 483, 484.

²To be taken from Anthropology, Criminal Justice, Economics, Geography, Political Science, and Sociology.

³To include both Physical and Biological Sciences, at least 6 hours of which must be in a two-semester sequence.

⁴To include 12 semester hours in one foreign language taken sequentially.

⁵Field experience assignments for CRMP 491 and 492 and research topics for History 488 and 497 will be tailored to the student's area of specialization.

Southeastern 101 is not required of transfer or readmitted Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of free electives.

^G General Education Courses

††Major course requiring a grade of "C" or better.

¹Twelve (12) semester hours in one foreign language (taken sequentially) are required

²To include both Physical and Biological Sciences, at least six hours of which must be in a two semester sequence.

³To be chosen from Anthropology, Criminal Justice, Economics Geography, Psychology, Sociology.

⁴Majors will acquire an Experiential Learning experience by participating in an internship, a political poll, or Study Abroad, or by writing and presenting an Honors Senior thesis or independent research project.

⁵Majors planning to attend graduate or law school are encouraged to consider a Minor in Communication, Criminal Justice, English, Foreign Language, History, Geography, Philosophy, Psychology, or Sociology.

Department of Music and Performing Arts

Jeffrey Wright, *Department Head*

Bachelor of Music Degree

The Bachelor of Music degree is a professional degree for students desiring to specialize in music. The course of study may be taken in preparation for a career in performance, music education composition, private applied studio instruction, church music or as background leading to graduate study. Students entering this program should possess exceptional talent, the potential to develop high-level musicianship, artistic sensibilities, and a strong sense of commitment. Only students who are prepared to make a disciplined effort that must become a way of life beyond the degree years should enter the program. An audition in the student's primary performance medium (trumpet, piano, voice, etc.) is required for admission to the B.M. degree program.

Music Education

The Bachelor of Music with a Concentration in Vocal Music Education, and the Bachelor of Music with a Concentration in Instrumental Music Education degree meet state teacher certification requirements for grades K-12. The degree is designed for students preparing to become professional music educators.

Recitals and Concerts

Attendance at recitals, concerts, and music theatre productions is required for all music majors. Each student is required to accommodate attendance expectations when formulating their academic and personal schedule.

Ensemble Experience Requirements

Students in the Bachelor of Music or the Master of Music curriculum will be required to study at least one instrument in their primary performing medium and enroll in the appropriate applied instrument course throughout their program of study, except in the semester of full-time student teaching. Students are required to register each semester of full-time residence for specific major ensembles most closely related to their primary instrument(s). The choice of which instrumental or vocal ensemble will be made by the performance area directors. Pianists and guitarists can satisfy this requirement by selecting either a vocal or instrumental ensemble. Guitarists may also satisfy the requirement by performance in MUS 145/445 (Chamber Ensemble). Students must arrange personal and work schedules to avoid conflicts with ensemble commitments.

Upper-Division Performance Exam

All students majoring in music at the undergraduate level must pass an upper division qualifying performance exam. Successful completion of this exam will allow the student to enroll in 400 level applied music courses. The student will be expected to display technical proficiency and artistic maturity through repertoire approved by all faculty in each applied area (Keyboard, Instrumental, and Vocal).

The upper division performance exam should be taken at the end of the student's fourth semester of applied study at the 100 level. If the student does not pass the exam on the first attempt, he or she will be granted a probation period of no more than two semesters of required applied study to retake the exam. At the end of the probation, if the student has not passed the exam, he or she will not be allowed to continue as a music major.

Minor in Music

Students majoring in areas other than music and who possess sufficient aptitude and preparation may acquire a minor in music by completing twenty-four semester hours drawn from the areas of history, literature, theory and performance as follows: MUS 111/112 Music Theory are required, the remaining 18 credits to be selected from MUS 152 Introduction to Music Literature, MUS 354/355 Music History, and/or class piano, class voice, applied music, ensembles, or other appropriate courses as approved by the Head of the Department of Music and Performing Arts (MUS 151 Introduction to Music may not be applied to the minor in music).

Music Therapy

Students considering a career in Music Therapy should acquire a Bachelors of Music degree with a Concentration in Music Education, with additional courses in psychology and special education; consult the Department Head for special course recommendations.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Total Semester Hours Required

134

Southeastern 101 is not required of transfer or readmitted Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of free electives.

^o General Education Courses

[†] Requires a grade of "C" or better.

^{**} Requires a grade of "B" or better.

^{††} Major course. A grade of "C" or better is required.

¹ To be selected from Contemporary Guitar 150, String Methods 378, Woodwinds I 393, Woodwinds II 394, Brass 395, or Percussion 397.

² To be selected from 200 level or higher music or applied music courses. Cannot be ensembles or primary instrument applied music courses.

³ To be selected from Anthropology, Criminal Justice, Economics, Geography, Political Science, Psychology, or Sociology.

⁴ Ensemble assignments are directed by the needs of the department and will be assigned from: Music Theatre Performance 105/405, Chorus 131/431, Concert Choir 135/435, Bella Voce 137/437, or Chamber Ensemble 145/445.

Dance

Students who are interested in studying in dance should major in General Studies with a concentration in dance.

Minor in Dance and Contemporary Choreography

Students may elect to minor in Dance and Contemporary Choreography by completing eighteen hours of dance as specified below:

RESEARCH:

DNC 100 and 372 and 373..... 9 hours

PERFORMANCE:

DNC 300 OR DNC 350..... 3 hours

TECHNIQUE:

Select three courses

DNC 135, 235, 335, 435

DNC 155, 255, 355, 455

DNC 113, 308, 309 6 hours

TOTAL:..... 18 hours

Department of Psychology

Paula Varnado-Sullivan, *Department Head*

The Department of Psychology attempts to foster, among all students, a grasp and appreciation of the scientific method in the study of behavior, and to stimulate interest in the field of Psychology. An undergraduate major and minor in Psychology are offered as preparation for either graduate study or careers in which the science of behavior is applicable.

Majors

The major program in Psychology requires 46 semester hours in courses offered by the Department of Psychology, including 101, 102, 204, 210, 220, 221, 222, 335, 440, and 462, and six-3 hour psychology electives. Students for whom there is any possibility of graduate study in Psychology are strongly advised to pursue Psychology 365, 421 and 449.

Candidates for the bachelor's degree in Psychology must earn, at Southeastern, a minimum of 23 hours required in the major field.

Minors

A total of 18 semester hours is required for the minor in Psychology. These must include Psychology 101 and Psychology 102 and at least 6 semester hours at the 300- or 400-level.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Department of Sociology and Criminal Justice

Ken Bolton, *Department Head*

Candidates for the bachelor's degree in Sociology or Criminal Justice must earn at Southeastern a minimum of one-half of the hours required in the major field.

Major in Sociology

A Bachelor of Arts degree in Sociology may be earned upon the successful completion of 42 semester hours in Sociology. Twenty-one of these major hours must be earned at Southeastern Louisiana University, and a total of 120 hours as outlined in the four-year curriculum in Sociology.

Major in Criminal Justice

A Bachelor of Arts degree in Criminal Justice may be earned upon the successful completion of 42 semester hours in Criminal Justice. Twenty-one of these major hours must be earned at Southeastern Louisiana University, and a total of 120 hours as outlined in the four-year curriculum in Criminal Justice.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Minors

A minor will be awarded in Anthropology upon the completion of eighteen semester hours in Anthropology.

A minor in Criminal Justice will be awarded upon the completion of eighteen semester hours, which must include the following:

CJ 101	3 hours
CJ 201, 202, 204, or 205	6 hours
CJ Elective from 300- or 400-level courses	6 hours
CJ Elective	3 hours

A minor will be awarded in Geography upon the completion of eighteen semester hours in Geography.

A minor in Geographic Information Systems and Remote Sensing will be awarded upon the completion of eighteen semester hours, which must include the following:

GEOG 103	3 hours
GEOG 305, 335, or 473	3 hours
GEOG 343	3 hours
GEOG 370	3 hours
GEOG 443	3 hours
GEOG 470	3 hours

A minor in Sociology will be awarded upon completion of eighteen semester hours, which must include the following:

SOC 101	3 hours
SOC 310	3 hours
SOC 430	3 hours
SOC Electives from 300- or 400-level courses	9 hours

A student may gain credit in Sociology 101 by completing the CLEP Subject Examination in Introductory Sociology. Departmental examinations are offered in Sociology 101 and Criminal Justice 101.

Department of Visual Art + Design

Dale Newkirk, *Department Head*

Areas of Emphasis and Areas of Concentration

The Bachelor of Arts in Art degree offers areas of concentration and areas of emphasis—each supervised by a specific faculty member. All Visual Art + Design students are required to take (at minimum) a series of four studio courses beyond the required foundation core within one area of emphasis (including Senior Projects).

Concentrations are more extensive studies in a specific area and are designed to give students the opportunity for greater depth and breadth of knowledge within one area of study. Requirements for individual concentrations are listed in the following pages of this catalog. Students should meet with the designated faculty member/s for advising and guidance within their area of interest.

Students are required to pass Art 299 (Sophomore Review) prior to declaring an area of emphasis or concentration.

Art Minors

A minor program in Art consists of twenty-one semester hours.

ART 105	3 hours
ART 106	3 hours
ART 111	3 hours
ART 112	3 hours
ART 151	3 hours
ART 154	3 hours
ART 115, 117, 122, 153, 161, 190, 231, 281, or 443	3 hours

A minor program in Art History consists of eighteen semester hours with two introductory courses and four advanced courses.

ART 105 and 106	6 hours
-----------------------	---------

Two advanced courses from each of the following:

ART History 300 level.....	6 hours
ART History 400 level.....	6 hours

A minor program in Graphic Design consists of twenty-four semester hours.

ART 111	3 hours
ART 122	3 hours
ART 151	3 hours
ART 154	3 hours
ART 161	3 hours
ART 261	3 hours
ART 361	3 hours
ART 461	3 hours

A minor in New Media & Animation consists of twenty-four semester hours.

ART 111	3 hours
ART 122	3 hours
ART 151	3 hours
ART 154	3 hours
ART 190	3 hours
ART 290	3 hours
ART 390, 393, 394, 396, 397, or 493	6 hours

A minor in Photography consists of eighteen semester hours.

ART 122	3 hours
ART 124	3 hours
ART 220	3 hours
ART 322	3 hours
ART 347	3 hours
ART 117, 190, 218, 300, 321, 394, or 397	3 hours

A minor in Printmaking consists of twenty-four semester hours.

ART 111	3 hours
ART 122	3 hours
ART 151	3 hours
ART 154	3 hours
ART 117	3 hours
ART 217 or 218	3 hours
ART 317, 318, or 319	3 hours
ART 417.....	3 hours

For all minor programs, a minimum of 15 semester hours in Art must be taken at Southeastern. It is recommended that students selecting Graphic Design as a minor begin in the Graphic Design sequence, ART 161, in the Fall of their sophomore year.

A minor in Theatre consists of eighteen semester hours.

THEA 131	3 hours
THEA 201, 217, 231, 234, 240, 250, 332, 333, 335, 337, 341, 337, 338, 401, 402, 431	12 hours
TLAB 137/138, 237/238, 337/338, 437/438	3 hours

Honors Diploma in the Discipline

Total Semester Hours Required

120

Southeastern 101 is not required of transfer or readmitted Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of free electives.

^GGeneral Education Courses

^{††}Major course. Requires a grade of "C" or better in all courses in the major.

¹Must be in a two-semester sequence (i.e. 101-102 or 201-202).

²A two-semester sequence (beyond the core courses) is required in a studio area other than that of the concentration.

³Natural Sciences to include both Physical and Biological Sciences, at least 6 hours of which must be in a two-semester sequence.

Southeastern Louisiana University

⁴Anthropology, Criminal Justice, Economics, Geography, Political Science, Psychology, and Sociology.

⁵Must have nine hours in a single artistic area before attempting Senior Project.

⁶All degree candidates must present an ambitious body of art work, approved by the Visual Arts + Design Faculty for exhibition in the Graduating Seniors' Exhibition. Students must submit slides or CD of these works, which will be retained by the department.

⁶All degree candidates must present an ambitious body of art work, approved by the Visual Art + Design Faculty, for exhibition in the Graduating Seniors' Exhibition. Students must submit a CD of these works, which will be retained by the department.

Concentration in Art Education

Students seeking a Concentration in Art Education are required to become competent in studio art and art history as well as acquire the theoretical knowledge and practical skills necessary to become a proficient art teacher. The student will be prepared to teach art in elementary and secondary schools, recreational programs, parks, camps, and other special educational situations.

The Concentration in Art Education consists of fifty-four semester hours of course work in Visual Art + Design. Students must meet the following guidelines to graduate:

1. A grade of "C" or better is required of art education students in all art courses.
2. All sophomores must participate in Art 299 Sophomore Review. The review will take place in the semester following completion of 45 curriculum hours.

⁵To be selected from Foreign Languages (including Mythology), Philosophy, History, Speech Communication, or Literature.

⁶Theatre Lab is offered as follows: 138, 238, 338, 438 in Fall semester; 137, 237, 337, 437 in Spring Semester.

Department of World Languages and Cultures

Lucia Harrison, *Department Head*

The Department of World Languages and Cultures offers a B.A. in World Languages with concentrations in Spanish, Spanish Education, French, French Education, and Dual Language. Students may choose one or more concentrations. The major in World Languages features interdisciplinary, experiential curricula that prepare students for careers to meet today's workforce demands and allow them to interact and participate in a global environment. All students must complete sixteen hours of core requirements: FLAN 370, FLAN 401, FLAN 404, HUM 314, HUM 401 (3 hours each) and FLAN 498 (1 hour). All other required courses are listed within the individual concentrations.

Entrance into Foreign Language Courses

If you have taken two or more years of foreign language in High School or have grown up speaking one of the foreign languages taught in the department, you may seek entrance into World Languages courses numbered 102, 201, 202, and advanced level (300 and above) by receiving a passing grade on the departmental entrance test. Your test score will determine your placement in the appropriate course. If you place into a 200-level course, you will receive 6 hours of elementary language credit upon successful completion of a 200-level course in the same language. If you place into a 300-level course, you will receive 12 hours of intermediate and elementary language credit upon successful completion of a 300-level course in the same language. Placement test scores expire after one year. This means that you have one year from the date that you take the placement test to register for the course you place into. Placement tests are offered in the FLRC (Foreign Language Resource Center). Tests are free and may be taken only once. For more information about the placement test, email: FLRC@southeastern.edu

Majors

All World Language majors are encouraged to participate in a study abroad in a country where the language they are majoring in is spoken. A minimum of six (6) credit hours should be obtained through study abroad. World Language majors are, therefore, urged to complete a minimum of one summer Study Abroad program. To gain desired fluency, a full semester or a year abroad is recommended. Course approval for Study Abroad programs other than Southeastern programs must be obtained from the Department Head before departure.

Minors

Students wishing to minor in a foreign language offered in the department are required to complete twenty-one (21) semester hours, nine (9) of which must be at the 300-level or above.

In addition to a minor in a foreign language, the Department of World Languages and Cultures administers two interdisciplinary minors: Francophone and Creole Ethnic Studies and Hispanic Ethnic Studies. These minors consist of eighteen (18) hours each and include the following course requirements:

1. Minor in Francophone and Creole Ethnic Studies:

Required Courses:

FREN 201: Intermediate French I
FREN 202: Intermediate French II
FREN 324: Francophone Civilization and Culture

Nine additional hours must be chosen from the following:

FREN 326: Francophone Literature
FREN 314: French Culture and Civilization
GEOG 322: Geography of Louisiana
HIST 321: History of Louisiana
HIST 448: History of the Caribbean Area
HIST 488: Oral History Techniques

[Alternates for these courses must be approved by the Department Head]

2. Minor in Hispanic Ethnic Studies

Required Courses:

SPAN 201: Intermediate Spanish I
SPAN 202: Intermediate Spanish II
SPAN 314: Hispanic Civilization or
SPAN 324: Latin American Culture and Civilization

Nine additional hours must be chosen from the following:

ANTH 405: Indigenous Peoples of the Americas
GEOG 322: Geography of Louisiana
HIST 446: History of Latin America to 1820
HIST 447: History of Latin America since 1820
HIST 448: History of the Caribbean Area
HIST 449: History of Mexico
HIST 321: History of Louisiana
HIST 488: Oral History Techniques
MYTH 204: Mesoamerican Mythology
MYTH 205: South American Mythology
MYTH 423: Special Topics in Mythology

SOC 411: Race and Ethnic Relations
SPAN 423: Special Topics (when content is appropriate)
[Alternates for these courses must be approved by the Department Head]

Undergraduate Certificate in TESOL (Teaching English to Speakers of Other Languages)

This program is designed for individuals seeking certification in order to teach English to speakers of other languages abroad, in traditional and specialized schools, and in the US in non-profit and community settings, language institutes, and online. A TESOL certificate is the most commonly recognized qualification around the world for those wishing to provide English as a Second Language (ESL) courses to non-native speakers. For more information, please contact the department at (www.southeastern.edu/worldlanguages).

Required Courses:

ENGL 312: Advanced Grammar
ENGL 414: Introduction to Linguistics
COMM 210*: Communication in the Classroom
COMM 410: Intercultural Communication
FLAN 401*: Foreign Language Methodology
FLAN 404*: Experiential Learning, Development & Application
(Courses marked with an asterisk include field experience.)

Note: Requests to waive prerequisites of these courses will be considered by the Department Head on an individual basis. Alternates for all courses must be approved by the Department Head. The TESOL certificate does not lead to the Louisiana Teacher Certification in ESL.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult the University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Foreign Study Opportunities

The Department of World Languages and Cultures maintains ties with institutions of higher education in many countries. Summer course work through Southeastern Louisiana University is offered regularly in a variety of international locations.

Foreign Language Resource Center (FLRC)

The Foreign Language Resource Center (FLRC) at Southeastern Louisiana University is a computer lab, teaching facility, and study space designed specifically for students taking courses within the Department of World Languages and Cultures. The mission of the FLRC is to provide the students, faculty, and the community of Southeastern with an encouraging space for the promotion, study, and teaching of world languages and cultures. The students and faculty have access to various updated technology tools, educational resources, and to additional materials that accompany their current course textbook. The FLRC staff members are available to assist both students and faculty and tutoring is normally available to students in the various languages offered within the department.

English as a Second Language (ESL) Program

International students at any level of proficiency, with beginning to advanced English skills, are invited to participate in our English as a Second Language (ESL) program. Classes can be taken for credit (EGIS 97-98-107-108) or non-credit and are organized by levels of English mastery, determined by an initial placement test. In addition to attending class, students are encouraged to visit the ESL Computer Lab for conversational practice with a native English speaker, viewing and discussing English-language films and television programs, and accessing educational computer programs. For more information about ESL, email: esl@southeastern.edu.

**Curriculum in WORLD LANGUAGES
Leading to the Degree of Bachelor of Arts
Dual Language Concentration**

The Dual Language concentration offers students the opportunity to specialize in two of the languages offered by the department. Students who choose this concentration will develop proficiency in two languages as well as acquire cultural knowledge of more than one language area. The Dual Language concentration in the Bachelor of Arts in World Languages requires students to take 16 hours of common core courses, 24 hours in a first language and 21 hours in a second language.

General Studies Program

Rebecca Hite, *Director*

The General Studies Program provides students with educational opportunities, experiences, and career direction to meet their professional and academic goals. An interdisciplinary degree is often highly desirable in a rapidly changing world and provides greater flexibility in creating a curriculum for an undergraduate degree. The purpose of the degree program is (1) to provide flexibility to students with broad interests, (2) to offer an option to those with new interests or those changing their majors late in their academic careers, and (3) to prepare students for entry into graduate and professional programs.

General Studies Degree Program

The Bachelor of General Studies degree affords broader course choices than are available in traditional majors. Status as a General Studies major requires a curriculum plan created by the student and a faculty advisor in the General Studies Program. The degree is based on the conditions and requirements listed below:

1. A minimum of 120 semester hours of academic work with a minimum degree grade point average (cumulative and Southeastern) of 2.0.
2. Completion of the General Studies Core Curriculum requirements:
 - English Composition (English 101 and 102)⁶ 6 hours
 - English Literature Elective⁶ 3 hours
 - Mathematics/Analytical Reasoning (at least 3 hours in Mathematics)⁶ 6 hours
 - Natural Sciences (must include Physical and Biological sciences and must include a two-semester sequence)⁶ 9 hours
 - History Elective⁶ 3 hours
 - Arts (Music, Visual Arts, Dance, Theatre)⁶ 3 hours
 - Speech Communication Elective⁶ 3 hours
 - Electives from Anthropology, Criminal Justice, Economics, Geography, Political Science, Psychology, Sociology⁶ 6 hours
 - Career Planning 304 3 hours
 - Total 42 hours
3. Consultation with a General Studies faculty advisor to ensure completion of course work as outlined below:
 - Major Concentration: 30 hours from one of the concentration groups 1-5.
 - 2.0 degree GPA required
 - 15 hours must be completed at Southeastern
 - 15 of these 30 hours must be at or above the 300-level
 - Students choosing a major concentration in Group 1 or 2 must complete 6 hours of one foreign language either as elective hours or as part of a concentration. Students pursuing major concentrations in groups 4 and 5 must complete 6 hours of one foreign language, or 6 hours of Computer Science, or 6 hours of Business as elective hours or as part of a concentration.

Minor Concentration 1: 15 hours in a second concentration group below

Minor Concentration 2: 15 hours in a third concentration group below

Electives: 18 elective hours in additional courses that will enhance knowledge and enrich skills

Notes:

- A total of 36 hours of the degree program **must** be at or above the 300-level.
- No more than 30 hours of course work in Marketing, Management, Economics, Finance, Accounting, or Business courses may be applied to this degree program.
- Students must complete all general degree requirements for the University.

The College of Business

Tara' Lopez, *Dean*
Russell McKenzie, *Assistant Dean*

Degree Requirements

The College of Business is composed of the Departments of Accounting and Finance, Management and Business Administration, and Marketing and Supply Chain Management. Specific curricula leading to degrees have been designed by each department in the College. The curricula have been structured within the framework of the University requirements for graduation found elsewhere in this catalog.

Accounting and business programs in the College of Business are accredited by the Association to Advance Collegiate Schools of Business International (AACSB).

As part of the College of Business graduation requirements, each student must complete a general education core requirement and a College of Business core requirement. These requirements are listed below:

General Education Core Requirements for the College of Business

- Biological Science
- Communication 211
- English 101
- English 102
- English 229, 230, 231, 232 or 233
- History Elective
- Mathematics 105 or 107 or 161
- Mathematics 241
- Physical Science
- Second Natural Science Sequence
- Social/Behavioral Sciences (fulfilled by Economics classes required in the Business Core)
- Visual Arts, Music, Dance, or Theatre Elective

Business Core Requirements for Accounting and Finance, Management and Business Administration, and Marketing and Supply Chain Management

- Accounting 200
- Accounting 225 (Accounting majors take Accounting 331)
- Business Law 231 or 234
- Economics 201
- Economics 202
- Finance 381
- Management 101
- Management 240
- Management 351
- Management 425
- Management 464
- Marketing 303
- Operations Management and Information Systems 210
- Operations Management and Information Systems 320
- Operations Management and Information Systems 350
- Operations Management and Information Systems 430

For the College of Business, the majority of business credit hours required for a degree must be earned at Southeastern.

No student majoring in degree programs in other colleges will be allowed to receive academic credit for more than 30 hours of course work in the College of Business.

Degrees Granted

Upon successful completion of the appropriate curriculum, one of the degrees listed below will be awarded:

- Bachelor of Science
 - Accounting
 - Finance
 - Supply Chain Management
- Bachelor of Arts
 - Management
 - Marketing
- Bachelor of Business Administration

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Student Organizations

American Marketing Association (AMA)

The American Marketing Association's Southeastern Louisiana University Chapter is a strategic resource for career growth and development. It offers students of all majors the opportunity to meet new people, network with marketing professionals, and attend a wide variety of professional events with a focus on business and the marketing industry. AMA also allows students with common interests in marketing to share those interests with other students.

Association of Latin American Students (ALAS)

ALAS' purpose is to enhance the appreciation of diversity and cross-cultural awareness, leadership, ethics and cohesiveness of all members as well as to build a better understanding between Latin American students and the host community in the United States. Goals are to assist Latin American Students in their educational progress and adaptability within the university, to provide a permanent forum between Latin American students and the surrounding community to underscore the importance of intercultural and international relationships and to encourage students' competitiveness in order to achieve outstanding results in the areas of leadership and ethics among its members.

Beta Alpha Psi

Beta Alpha Psi is the national accounting honorary and professional fraternity. The purposes of the organization are (a) to encourage overall academic achievement and specifically the achievement of high standards in the field of accounting; (b) to sponsor professional development programs for students and faculty of the Department of Accounting and Finance; and (c) to promote, through fraternal activities, the association of accounting students and professional accountants. Beta Alpha Psi is an integral part of the instructional program in accounting.

The Theta Eta Chapter of Beta Alpha Psi received its national charter in 1993. The organization was formerly known as Sigma Chi Alpha Accounting Honor Society and was organized in 1966.

Membership in Beta Alpha Psi requires the satisfactory completion of a pledge period for students who have met the following criteria:

1. Accounting major with junior standing or above.
2. Grade point average of 3.00 or better, or have a 3.25 grade point average on the most recent 30 hours of course work completed.
3. Minimum of 6 semester hours of accounting courses numbered 221 or above.
4. Grade point average of 3.25 or above in all accounting courses.
5. All accounting courses taken at Southeastern Louisiana University or transferred from another university with approval of Department of Accounting and Finance Head.
6. Candidate of good moral character.
7. Membership approved by Accounting faculty and members.

Beta Gamma Sigma

Beta Gamma Sigma is a national scholastic honor society dedicated to principles and ideals essential to a worthy life as well as to a commendable business career. Only a college of business accredited by the Association to Advance Collegiate Schools of Business International (AACSB) is permitted to maintain a member chapter. Membership is by invitation and only open to business students who are in one of the following categories:

1. The top 7 percent of the junior class.
2. The top 10 percent of the senior class.
3. The top 20 percent of the MBA class.

College of Business Ambassadors

The College of Business Ambassadors assist in recruiting potential students through events and informing both parents and incoming students about the benefits of being a business major. Members of the organization also have the opportunity to develop and refine their leadership, public speaking, and interpersonal skills by interacting with their peers, faculty members, and the community.

Economics Club

The goal of the Economics Club is to apply the "economic way of thinking" to a wide variety of topics so that members can become more informed workers, business leaders, and citizens. We seek to engage students hosting debates on relevant real-world issues, workshops on topics that are of particular interest to our students, and by offering tutoring services. Through community involvement, members also seek to make a positive contribution to our region. Membership is open to anyone at the University.

Financial Management Association (FMA)

The Financial Management Association is an international organization whose mission is to broaden the common interests between academicians and practitioners; provide opportunities for professional interaction between and among academicians, practitioners, and students; and to enhance the quality of education in finance. The Southeastern FMA chapter, organized in 1966, is open to all majors. Activities include guest speakers from the local business community, tutors for beginning finance students, and social activities.

Institute for Supply Management (ISM)

The Institute for Supply Management is one of the largest and most respected supply chain management associations in the world. It exists to lead and serve the profession through its standards of excellence, research, promotional activities and education. The Southeastern ISM chapter was organized in 2010 to enhance and support the quality of education in supply chain management, and is open to all majors. Major activities of the group include field trips to major supply chain-related businesses, presentations by and interaction with professionals in the field at monthly meetings, research projects, and social events.

MBA Society

The Southeastern MBA Society was organized in 1990 to encourage and promote the scholastic, social, and professional growth and development of candidates in the Southeastern Master of Business Administration program. The Society promotes the association between MBA candidates and the business community on a local and national level. Membership is open to all graduate students enrolled in the MBA program at Southeastern.

NABA

Since 1969, the National Association of Black Accountants, Inc. has been the leader in expanding the influence of minority professionals in the field of accounting. The Southeastern chapter of NABA, organized in June of 2005, is open to all accounting and business majors at Southeastern. The purpose of this organization is to promote professional development and recruitment activities through the attendance of members at the Southern Chapter of NABA's regional conference each fall semester.

Pi Sigma Epsilon (PSE)

Pi Sigma Epsilon was installed as the Eta Tau chapter of the international organization in 2021. Its mission is to create a collegiate organization of high-performing students interested in advancing marketing, sales, and related business fields as a profession. PSE offers members opportunities to develop skills by participating in professional networking events, service projects, and competitions locally, regionally, and nationally.

Phi Beta Lambda

The Upsilon Alpha Chi Chapter of Phi Beta Lambda was chartered in 1985. The purpose of the organization is to provide opportunities for post-secondary and college students to develop vocational competencies for business, business technology, and communication. PBL is an integral part of the instructional program and promotes a sense of civic responsibility. The specific goals are to develop competent, aggressive business leadership; to strengthen the confidence of students in themselves and their work; to create more interest in and understanding of American business enterprise; to encourage scholarship and promote school loyalty; to assist students in the establishment of goals; and to facilitate the transition from school to work. Phi Beta Lambda is open to all majors.

Society for Human Resource Management (SHRM)

The primary mission of the Society for Human Resource Management (SHRM) is to provide professional and educational opportunities for its members. Key organizational activities include:

- Inviting HR professionals to speak at meetings
- Attending area professional chapter meetings
- Attending state and national SHRM conferences
- Providing shadowing and mentorship opportunities
- Distributing a resume' booklet to local and regional employers

SHRM at Southeastern is sponsored by the Northshore Society for Human Resource Management, a group of HR professionals, and is one of more than 400 student chapters nationwide.

Southeastern Accounting Society

Open to all majors at any classification, the Southeastern Accounting Society has four main objectives:

1. Social – To help students to form relationships that will sustain them through the program and beyond.
2. Mentorship – To provide the opportunity for more experienced students and faculty to guide newer students.
3. Scholarship – To encourage and enable academic success.
4. Professional – To provide information about careers in accounting and the means of achieving them.

Women in Business

The Women in Business organization serves to connect, support, and encourage students both personally and professionally. The organization offers networking opportunities with professional business women, social meetings, panel discussions and guest speakers, and leadership opportunities. In the fall and spring semesters, the organization hosts intimate group sessions for members, and various social and professional events designed to address issues of interest and importance to professional young women.

**Post-Baccalaureate Certificate in
Business Administration**

Individuals who have completed a baccalaureate degree in a non-business field are eligible to apply to the Post-Baccalaureate Business Administration Certification program, offered by the College of Business. This program will enhance the effectiveness of those who need basic business knowledge to be more effective in their professional capacity. Individuals who possess undergraduate degrees in non-business fields but who aspire to managerial or administrative positions, who are considering obtaining an MBA, or who need basic business knowledge to begin or sustain their own business or other entrepreneurial ventures may also be interested in this certificate.

Other factors considered for admission to the program include:

- A baccalaureate degree in a non-business field as verified by transcript submission.
- Formal application to the university is required.

Required Courses (15 hours; minimum time for completion: 1 semester)

ACCT 225: Managerial Accounting	3 hours
ECON 202: Principles of Economics (Microeconomics)	3 hours
MRKT 303: Principles of Marketing	3 hours
MGMT 351: Principles of Management	3 hours
Business Elective	3 hours

Department of Accounting and Finance

Robert Braun, *Department Head*

Major in Accounting

In addition to the general education core requirements, the major program in accounting consists of thirty-nine semester hours. These hours include the following: Accounting 200, 215, 221, 312, 313, 315, 331, 341, 407, 411, and nine hours of accounting electives to be selected from the following: Accounting 391, 395H, 400, 406, 432, 442, 444, or 495. Requirement for graduation is a 2.2 or better overall degree GPA and a 2.2 or better degree GPA in Accounting.

Selection and Retention Policies

Excluding progression to Accounting 225, students (regardless of major) must have a grade of "C" or better in each prerequisite Accounting course taken (Accounting 200, 221, 312, and 313) to progress and a "D" or better in each non-prerequisite Accounting course. Each accounting course numbered 221 and above (excluding 225) may be repeated only once, excluding course withdrawals. If a student repeats any course numbered 221 or above without obtaining the minimum grade listed above for that particular course, no other Accounting courses numbered 221 or above (excluding 225) may be taken.

The statements in the foregoing paragraph do not override the individual course prerequisites outlined elsewhere in this catalog. Also, the foregoing language does not reduce the GPA requirements that must be met in order to graduate with a B.S. degree in Accounting. A discussion of these GPA requirements can be found under the "Major in Accounting" section above.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult the University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Minor in Accounting

A minor in accounting will be given upon the satisfactory completion of eighteen hours of course work in Accounting. The required courses are as follows: Accounting 200, 221, 312, 313, 331, and 341. Students minoring in Accounting must obtain the approval of the Department Head. All rules discussed in the "Selection and Retention Policies" section apply to all students including minors in Accounting.

CPA Examination Education Requirement

The Louisiana State Board of Public Accountancy (Board) requires a bachelor's degree for an applicant to be eligible to sit for the Uniform Certified Public Accountant Examination. This degree must be from an accredited university recognized by the Board.

Southeastern Louisiana University maintains its accreditation with the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), which is recognized by the Board. The courses required to earn the Bachelor of Science degree in Accounting at Southeastern Louisiana University include all of the courses required to sit for the exam.

Information about the CPA Examination requirements can also be obtained from the Department of Accounting and Finance at Southeastern or from the State Board of Certified Public Accountants of Louisiana.

Yun-Chen "Jen" Morgan, *Interim Department Head*

Major in Management

In addition to fulfilling general education core requirements, students must complete 36 semester hours of major core courses. Majors must complete 15 semester hours in one of the concentration areas.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Minor in Management

Students from other departments who desire to minor in Management may do so by successfully completing 18 semester hours selected from the following courses: Management 351, 375, 420, 430, 435, 440, 457, 471, 472, 473, 475, 476, 478, and 485. Students minoring in Management must obtain the approval of the Department Head.

Minor in Administrative Supervision

Students enrolled in the University, other than business majors, may minor in Administrative Supervision within the Department of Management and Business Administration. The Administrative Supervision minor consists of Management 240, Management 351, Management 471, Management 473, Accounting 200, and Marketing 314.

The College of Education

Paula Summers Calderon, *Dean*

The College of Education administratively is composed of the Departments of Educational Leadership and Foundations; Teaching and Learning; the Laboratory School. In addition, students in the Departments of Biological Sciences, Chemistry and Physics, English, Music and Performing Arts, Visual Art + Design, History and Political Science, Kinesiology and Health Studies, World Languages & Cultures, and Mathematics, who are preparing to become teachers are enrolled in the College of Education.

Selective Admission and Retention in Teacher Education Policies and Procedures

The teaching profession is highly demanding and remarkably complex. A person desiring to become a teacher must maintain academic standards and demonstrate qualifications for successful teaching including satisfactory performance in clinical practice. Therefore, the College of Education at Southeastern Louisiana University is committed to recruiting, admitting, retaining and graduating in the Professional Program in Teacher Education only those students who show evidence of being capable of performing in an acceptable manner. Enrollment in the Professional Program does not guarantee that a student will receive the degree or certification sought simply because he/she completes a number of courses or clinical practice assignments. Certification requirements are specified by the State Legislature and/or the Board of Elementary and Secondary Education and coordinated by the State Department of Education. These requirements are subject to periodic modification, which may not occur at times feasible for inclusion in the annual publication of the University catalog. It is the responsibility of the students to make periodic checks for such changes with the academic advisors and/or department heads.

Students are required to submit an application for admission to the Professional Program in Teacher Education. Each candidate's application must be reviewed for compliance with the standards of Selective Admission and Retention in Teacher Education (SARTE) and by the Dean of the College of Education.

I. Admission Procedures

A. Students in the College of Education and other colleges that have approved teacher education programs must make application for admission to the Professional Program in Teacher Education at least four weeks prior to the end of any given semester in order to have their applications duly processed by the beginning of the following semester. The schedule for applying is the following:

1. Students in the College of Education and other colleges that have approved teacher education programs will normally be required to make application for admission as students in Education 202. Students who transfer in credit for EDUC 202 will apply for SARTE status at the Dean's Office in their first semester.
2. All students must have formally filed an application before enrolling in any professional courses that require Full SARTE status.

B. Students who make proper application will be screened and placed in one of the two categories described below:

1. **FULL STATUS:** Indicates all screening components have been met and the candidate is eligible to schedule remaining professional education courses (EDUC, EPSY, ECE, and SPED prefix courses). Criteria for *FULL STATUS* are:
 - a. Minimum 2.75 cumulative grade point average (based on a minimum of 30 credit hours. Students with a cumulative grade point average that is less than 2.75 who wish to obtain SARTE status will be put on a Performance Growth Plan for GPA. See the Undergraduate Coordinator for a GPA related Performance Growth Plan.
 - b. Achieve a grade of "B" or better in Education 202.
 - c. Have signed the Memorandum of Student Advisement and Counseling.

OR

2. **INELIGIBLE:** Indicates a student does not meet or maintain criteria for full SARTE status.

II. Retention Procedures

A. Ongoing screening of each student utilizing SARTE eligibility criteria will occur each semester of a student's enrollment in the professional program.

1. Maintain a cumulative grade point average of 2.75 or higher.
2. Students whose grade point average falls below 2.75 will be put on a Performance Growth Plan for GPA.

B. Students demonstrating behaviors or characteristics that make it questionable whether they can succeed in the teaching profession will be referred for Professional Performance Review. A review may result in:

1. No action being taken but further observations.
2. Recommendation of a Performance Growth Plan.
3. Referral to SARTE which may recommend:
 - a. Probation with specified conditions.
 - b. Temporary suspension from the Teacher Education program with specified conditions.
 - c. Expulsion from the Teacher Education program.

III. Appeal Procedures

Students who wish to appeal decisions of the SARTE Committee may do so in writing to the Dean of the College of Education.

Performance Growth Plans are a formal agreement made with the student acknowledging what difficulties must be addressed and what actions the student and faculty will take to address the difficulty or difficulties. These plans are monitored by the Undergraduate Coordinator and/or Center for Student Excellence, Teacher Development Center, or Office of Clinical Practice and Residency as appropriate to the reasons and plan for remediating the issue or issues of concern. Students who are having difficulty passing the required Praxis exams to meet checkpoints within the program will also be put on a Performance Growth Plan.

Policy for Electronic Assessment System College of Education

As part of the College of Education focus on performance-based outcomes, data will be incorporated into an assessment system for students enrolled in an approved Teacher Education Program. Students are required to submit products through a web-based system that provides candidates, faculty, and administrative staff a system to gather, demonstrate, and evaluate performance data. Candidates must use the online assessment system when they enroll in a course offered through the College of Education (EDUC, EPSY, EDL, ETEC, ECE, EDF, LSED, and SPED prefixes).

The electronic assessment system will (1) allow the student to demonstrate, how they meet knowledge, skills, and professional and ethical behavior required by the *Louisiana Requirements for Initial Certification* for certification through the Louisiana Department of Education; (2) provide a process by which a student can become a reflective practitioner to foster continuous improvement; and (3) document a student's growth being novice teacher candidate to being a competent teacher ready to have their own classroom. Through the electronic assessment process, evaluators will have an opportunity to identify areas for improvement at each level and develop a plan for remediation when necessary. By completing and submitting a product, students will gain an understanding that they are ultimately responsible for acquiring the knowledge and skills necessary for being an effective classroom teacher.

After successful completion of all requirements in the Certification program, students may be eligible for recommendation to the Louisiana Department of Education for teacher certification in their area of certification.

Additional College of Education Graduation Requirements

Students in the College of Education must meet the following requirements in addition to the general University requirements listed elsewhere:

Teacher Certification Programs (programs leading to a degree in teacher education and state certification).

- a. Earn a cumulative grade point average of 2.75 and a 2.75 cumulative or degree grade point average in work completed at Southeastern*
- b. Have no grade lower than a "B" in Education 202 and have no grade lower than a "C" in other professional courses (Education, Early Childhood Education, and Educational Psychology) and a "B" or higher in each teaching residency course.
- c. Meet the teaching performance competencies for teaching residency.
- d. Successfully complete either three semester hours in Reading (secondary curricula) or nine semester hours in Reading (elementary curricula).
- e. The College of Education defines computer literacy in the following ways:
 - i. The ability to instruct using computers to aid in learning, solving problems, and managing information.
 - ii. Knowledge of function, applications, capabilities, limitations, and related technology.
- f. Have completed passing Residency I and II Performance Assessments.

*See Scholastic Ratings, this Catalog, for explanation of calculation of grade point averages.

Degrees Conferred

The degree of Bachelor of Arts is conferred upon the completion of the curricula in the following fields:

English Education
Social Studies Education

The degree of Bachelor of Science is conferred upon the completion of the curricula in the following fields:

Early Childhood Education Grades PK-3
Elementary Education Grades 1-5
Health and Physical Education Teacher Education
Middle School Education Grades 4-8
Special Education Mild/Moderate for Elementary Education Grades 1-5
Special Education Mild/Moderate for Middle School Grades 4-8

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Alternative Teacher Certification Programs

The College of Education offers two alternative teacher programs: (1) Master of Arts in Teaching, and (2) Certification-Only Alternative Teacher Certification. A complete description of these programs is located in the Graduate Studies section of this Catalog.

Departmental Curricula

English
English Education
Kinesiology and Health Studies
Health and Physical Education Teacher Education

History and Political Science
Social Studies Education

Teaching and Learning
Early Childhood Education Grades PK-3
Elementary Education Grades 1-5
Middle School Education Grades 4-8
Special Education Mild/Moderate for Elementary Education Grades 1-5
Special Education Mild/Moderate for Middle School Education Grades 4-8

Requirements for Teaching Residency

The State Department of Education regulations for certification of teachers require that teacher candidates complete their student teaching residency under the control and supervision of the institution from which they expect to be graduated. To be eligible for student teaching residency, students must:

1. Classify as seniors (must have at least ninety hours of credit).
2. Enroll in classes within Southeastern's College of Education for at least three semesters.
3. Pass all Praxis II examinations in Principles of Learning and Teaching and Content Specialty Area Tests for the certification area being earned.
4. Have FULL SARTE status.
5. Have completed and earned a grade of "C" or better in all required professional courses: (ECE, EDUC, EPSY, LSED, SPED) as appropriate to the area of certification.
6. Have completed and earned a grade of "C" or better in all required courses in their first teaching courses. These courses are identified with a double or triple dagger on the curriculum sheets.
7. Have completed Education 202 with a grade of "B" or better.
8. Apply for teaching residency the **semester prior** to the residency. Applications are accepted during the fall and spring only.
9. Have approval of the Director of Clinical Practice and Residency.
10. Have a statement from their Department Head certifying that they are competent in the subject material in which they are seeking certification.
11. Students majoring in degrees in the Kinesiology and Health Studies Department may be required to participate in a drug screening program and/or submit information for criminal background checks as part of clinical/internship requirements.

Teaching Residency Semesters

Teacher residents (hereafter, "residents") will follow the school district's calendar and will report to the school in the summer when teachers arrive for the school year (or in December for the spring residents). This will be prior to the first day of class on the university academic calendar. Residents report at the designated time for school district teachers each day, and will remain at the school for a minimum of three days per week of placement school time during Residency I and five days per week during Residency II, and will remain at the school until regular dismissal of teaching personnel. Six hours are awarded for the first semester residency, and nine hours are awarded for the second semester residency.

Residents will complete their residency away from the campus community; therefore, residents must expect to make arrangement to be away from campus for part of the time during their first semester and full time during their second semester of residency. The Director of Clinical Practice and Residency will arrange a placement for each student teacher resident.

Residents take concurrent classes with their residency during the first semester, but they must request permission from the Director of Clinical Practice and Residency to schedule only one course with the second semester of residency. Any course scheduled in addition to second semester of residency must not conflict with their full-time participation in the schools. The hours involved in second semester of residency will be approximately 7:00 a.m. to 3:30 p.m. (i.e., the school hours for the residency site), Monday through Friday.

In order to remain in the residency, residents are expected to meet and maintain desirable professional, physical, and moral standards consistent with their positions in the public schools. They must also demonstrate proficiency in instruction, management, and planning. Residency courses must be passed with a "B" or better to count towards program completion.

Residents who fail or are directed to withdraw from residency must complete a Performance Growth Plan prior to a second residency experience. Students will not be granted a third attempt at a residency experience.

Department of Teaching and Learning

Susan Zimlich, *Interim Department Head*

The Department of Teaching and Learning of Southeastern Louisiana University is responsible for the development of undergraduate curricula in Early Childhood Education Grades PK-3, Elementary Education Grades 1-5, Middle School Education Grades 4-8, Special Education Mild/Moderate for Elementary Education Grades 1-5, Special Education Mild/Moderate for Middle School Education Grades 4-8, and in the supervision and preparation of teachers with majors in these areas.

The Department of Teaching and Learning provides professional courses for all majors in Education and Special Education curricula. As part of the course requirements, students complete clinical practice in diverse school settings prior to teaching residency. School assignments are made by the Director of Clinical Practice and Residency, and transportation to these sites is the responsibility of the student. A major role of the Department is to provide professional service and leadership to school systems within the University community. Another function of the Department is to offer curricula and instruction leading to Master's Degrees in Curriculum and Instruction, Special Education, and Master of Arts in Teaching. See the Graduate Studies section of the General Catalog for additional information.

Department of Teaching and Learning faculty members serve as advisors to undergraduate students majoring in Early Childhood Education, Elementary Education, Middle School Education, and Special Education Programs, and students in the graduate programs listed above.

Students majoring in degrees in the Kinesiology and Health Studies Department may be required to participate in a drug screening program and/or submit information for criminal background checks as part of clinical/internship requirements.

The Southeastern Laboratory School

The University maintains and conducts a Laboratory School in cooperation with Tangipahoa Public School System, which accommodates children in pre-K through the eighth grade. The Laboratory School is a part of the College of Education. The School is designed to provide a varied program of instruction and service to afford opportunities for student observations, pre-professional laboratory experience, in-service education, and research.

School Librarians

Students in the College of Education who are earning regular certification at the elementary or secondary level may earn additional certification in Library Science by completing the Louisiana State Department of Education requirements for the add-on certification. See the State Department website for the current requirements or consult the Graduate Coordinator for the Department of Teaching & Learning.

English as a Second Language

"English as a Second Language" will be added to the certificate of any teacher who holds a standard teaching certificate and successfully completes the Louisiana State Department of Education requirements for the add-on certification. See the State Department website for the current requirements or consult the Graduate Coordinator for the Department of Teaching & Learning. English as a Second Language certification will be valid only in the teaching area(s) in which one is certified. This is not TESOL, but a teaching certification specific to the State of Louisiana.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

International Baccalaureate (IB) Educator Certificate in Teaching and Learning: Primary Years Programme (PYP)

The department offers courses leading to the IB Educator Certificate in Teaching and Learning: PYP. Eligible students must take the following courses in addition to completing Teacher Candidate Residency at an IB World School: IB 405, IB 415, IB 425, IB 435. For information about eligibility and requirements, please contact the Department Head.

After successful completion of courses leading to the IB Educator Certificate in Teaching and Learning, candidates may apply for their level of certification through the International Baccalaureate Organization (IBO) in Geneva, Switzerland.

Department of Kinesiology and Health Studies

The Bachelor of Science in Health and Physical Education Grades K-12 fulfills Louisiana requirements for teacher certification in both health and physical education (K-12). Graduation requirements include a 2.5 GPA and earning a grade of "C" or better in all major courses plus courses in mathematics, English, and the sciences. Students must also earn passing scores on teacher licensure exams (Praxis), complete a professional portfolio, and meet other requirements of the University's teacher education program described in the College of Education section of this catalog. Students majoring in degrees in the Kinesiology and Health Studies Department may be required to participate in a drug screening program and/or submit information for criminal background checks as part of clinical/internship requirements.

The College of Nursing and Health Sciences

Ann Carruth, *Dean*
Kenneth Tillman, *Assistant Dean*

The College of Nursing and Health Sciences offers a variety of innovative curricula at the graduate and undergraduate levels that prepare graduates to meet the current and future wellness and health care demands of the region. Students have the opportunity to interact closely with faculty in programs that are challenging and exciting while developing the competencies required for functioning effectively in health-related disciplines.

The College of Nursing and Health Sciences is composed of the Departments of Health and Human Sciences, Kinesiology and Health Studies, and the School of Nursing.

The Department of Health and Human Sciences offers the following degree programs:

- Child Life – Master of Science
- Communication Sciences and Disorders - Bachelor of Science
- Communication Sciences and Disorders - Master of Science
- Counseling - Master of Science
- Human Sciences - Bachelor of Science
- Health Systems Management – Bachelor of Science
- Population Health Management – Master of Science
- Social Work - Bachelor of Arts

The Department of Kinesiology and Health Studies offers the following degree programs:

- Athletic Training - Master of Science
- Health Sciences - Bachelor of Science
- Health and Kinesiology – Master of Science
- Health and Physical Education, Grades K-12 - Bachelor of Science
- Kinesiology - Bachelor of Science
- Sport Management - Bachelor of Science

School of Nursing offers the following degree programs:

- Nursing - Bachelor of Science in Nursing
- Nursing - Master of Science
- Nursing Practice – Doctor

Curriculum for the Undergraduate Certificate in Population Health Management

Population health management has emerged as an important strategy for health care providers and payers. The undergraduate certificate in Population Health Management was developed to provide adult learners with job skills and knowledge that are in demand in today's workforce. The program is industry-based and employer-driven and was created to help fill the gaps in the current workforce talent pipeline. Certificate holders will be able to demonstrate needed labor skills supporting a growing health care industry. The Certificate in Population Health Management prepares adults to enhance skills to improve health within and across populations. Potential employment includes mid-level work settings, hospitals, health care clinics, consulting companies, government health services, insurance providers, community facilities, and not-for-profit as well as managed care organizations.

The certificate requires 21 hours and includes coursework in population health, chronic human disease states, health informatics, social determinants of health and health disparities, behavior change, data management, and practical experience in inter-professional education and practice.

Objectives:

Completers will acquire skills necessary to:

1. Identify determinants of population health that impact health outcomes in a community and apply the essentials of public health practice to design low-cost interventions.
2. Lead the formation of management of contemporary health care systems that consist of, and rely upon, diverse stakeholders in the organization and delivery of community-based models of care.
3. Communicate effectively through a variety of behavioral techniques to manage population groups in health promotion and chronic disease management.
4. Articulate and apply frameworks for collecting, analyzing, and using data to inform decisions, facilitate care coordination, and improve health outcomes of targeted populations within and outside the health system.
5. Develop effective collaboratives and support health systems and community agencies efforts in assessing health needs, quality of services, and strategies for improving health services delivery.
6. Understand and implement population health and VBP models or care ensuring privacy, security and confidentiality in the healthcare environment.

REQUIRED COURSES (21 HOURS)

*HS 312: Community and Population Health	3 hours
*NURS 313: Study of Human Diseases	3 hours
*HSM 375: Data Management	3 hours
*HSM 410: Health Informatics	3 hours
*HS 442: Social Determinants of Health	3 hours
*HUSC 401: Theories of Behavior Change	3 hours
*HSCI 499: Capstone Experience in Health & Human Sciences	3 hours

*Grade of "C" or higher is required.

Note: Requests to waive prerequisites should be made to the appropriate department head on an individual basis. HS 315/HS 316 (6 hours) can be substituted for NURS 313 (3 hours).

**Curriculum for the Undergraduate Certificate in
Digital Health Management**

The certificate is relevant for those seeking a degree or those who wish to enhance existing educational experience in digital health management. The purpose of this certificate is to prepare adult learners for careers in healthcare with high-demand knowledge and job skills related to electronic/personal health records, data management, data analysis, project management, and health informatics. Courses will explore the changing healthcare environment and the role of digital smart media in relation to three areas of telehealth: (a) direct to consumer, (b) remote telehealth, and (c) patient monitoring. The certificate requires 18 credit hours and includes coursework in technology, chronic disease management, data analytics, health informatics, and project management.

Objectives:

Completers will acquire skills necessary to:

1. Examine the use of technology for expanding the capacity to deliver health care services and education.
2. Explore major conceptual and methodological issues associated with designing, implementing, and evaluating the effectiveness of technology-enhanced interventions.
3. Identify technology to provide direct-to-consumer services as well as remote monitoring and care.
4. Assess and ensure confidential information is transferred and exchanged using technology within a secure platform.
5. Apply principles of data analytics to trended data collected through remote access and monitoring.
6. Demonstrate competencies with using technologies in a variety of health care settings.
7. Effectively combine clinical knowledge with digital data in decision-making.

REQUIRED COURSES (18 HOURS)

*HSM 215: Microcomputer Application for Healthcare	3 hours
*NURS 313: Study of Human Diseases	3 hours
*HSM 375: Data Management	3 hours
*HSM 410: Health Informatics	3 hours
*HSM 480: Project Management Fundamentals	3 hours
*HSCI 499: Capstone experience in Health & Human Sciences	3 hours

*Grade of "C" or higher is required.

Note: Requests to waive prerequisites should be made to the appropriate department head on an individual basis. HS 315/HS316 (6 hours) can be substituted for NURS 313 (3 hours).

Graduation Requirements

In order to obtain a baccalaureate degree in the College of Nursing and Health Sciences, a student must successfully complete two sets of academic requirements: University requirements and departmental requirements.

University Requirements: The University requirements are listed elsewhere in this General Catalog.

Departmental/Program Requirements:

Fulfillment of the requirements specified by the department offering the program of study in the student's major.

1. Courses in each curriculum which will be used in calculating the grade point average in the major are identified by a "††."
2. All departments require that a cumulative or degree grade point average of 2.0 or higher be earned in the major.

Honors Diploma in the Discipline

The College of Nursing and Health Sciences offers upper-division honors curricula allowing students to earn an honors diploma in a specific discipline at graduation. For information about requirements and honors courses in your major, please contact the department in which you are majoring.

Internship and Capstone Courses

Students in each undergraduate degree program offered by the College of Nursing and Health Sciences are required to complete internships and/or capstone courses. These experiences give students real-world training and prepare them for the workforce upon graduation.

The Department of Health and Human Sciences Capstone Courses

Communication Sciences and Disorders - Bachelor of Science

CSD 416. Management of Child Language Disorders. This course provides an overview of children's language disorders. Linguistic and extra linguistic characteristics associated with various disorders are discussed, and the bases for differential diagnosis are provided. General and specific strategies for intervention are introduced.

Human Development and Family Studies - Bachelor of Science

HDFS 487. Field Experience in Human Development and Family Studies. Students in this course gain an understanding the practice, administration and promotion of the principles of human development and family studies through supervised work experience.

HDFS 488. Field Experience in Nutrition Education and Promotion. Students in this course gain an understanding of the operation and management of Human Sciences career activities through supervised work experience in the area of Nutrition Education and Promotion.

HDFS 489. Field Experience in Fashion Merchandising. Students in this experience engage in practical work experience in an approved Fashion Merchandising site. A minimum of 120 hours of supervised work activities outside of the classroom are required.

Health Systems Management – Bachelor of Science

HSM 498. Internship in Healthcare Quality Improvement. This is a senior-level internship where students engage in practical experiences in the field. A minimum of 320 hours is required. Students will demonstrate the ability to apply concepts, methods and theories of healthcare quality improvement in a healthcare setting.

HSM 499. Internship in Care Coordination. This is a senior-level internship where students engage in practical experiences in the field. A minimum of 320 hours is required. Students will demonstrate the ability to apply concepts, methods and theories of medical case management in a healthcare setting.

Social Work - Bachelor of Arts

SW 497. Integrative Field Seminar. This course serves as an integrative seminar in conjunction with the field practicum experience. This is a capstone course; therefore, the material covered addresses all social work foundation areas from the perspective of a generalist social work practitioner. Emphasis on values and ethics, diversity and research are all addressed all throughout the course. Students are guided through course work and assignments to implement the generalist model with their various client systems in a rural practicum settings.

SW 498. Internship. This course consists of a minimum of 430 hours of field experience in a social agency under the direct supervision of a qualified social worker.

The Department of Kinesiology and Health Studies Capstone Courses

Athletic Training - Master of Science

ATLB 615. Clinical Experiences in Athletic Training. Students develop clinical reasoning abilities and athletic training clinical proficiencies in a practical environment under the supervision of a qualified clinical preceptor. The course has a lecture component. The focus is fitting, assembling, and proper use of equipment specific to football, as well as other training practices associated with the clinical placement.

Health and Physical Education, Grades K-12 - Bachelor of Science

EDUC 486: Student Teaching II: Secondary Schools. This course is an all-day, all-semester student teaching experience that includes observation, participation and a minimum of 180 actual clock hours of teaching (with a substantial portion of the 180 hours in full day teaching) under the supervision of the assigned cooperating school teacher.

Health Sciences - Bachelor of Science

HS 410. Internship in Health Sciences. This course is a senior-level field work experience that provides an opportunity for students to perform all the health promotion activities that a regularly-employed staff member would be expected to perform. The purpose is to prepare professionals with practical skills for promoting health-enhancing strategies in others. Students complete a minimum of 320 field-based hours.

Kinesiology - Bachelor of Science

KIN 410. Internship in Kinesiology. This course is a senior-level field work experience offered at a setting that directly relates to the student's academic preparation, intended employment or area of interest. The purpose is to provide an opportunity for students to perform and demonstrate professional competencies that a regularly employed staff member would be expected to perform. Students complete a minimum of 320 field-based hours.

Sport Management - Bachelor of Science

KIN 490. Internship in Sport Management. During the last semester of the senior year, a final field experience is required for all sport management students. Students will gain experience in methodologies, administration techniques and programs specific to the internship site.

The School of Nursing Capstone Courses

Nursing - Bachelor of Science in Nursing

NLAB 473. Nursing Care of the Childbearing Family Lab. This course provides clinical practice opportunities to synthesize nursing knowledge, use of the nursing process, and to reflect on learning experiences during the care of childbearing families and neonates. Focuses on therapeutic nursing interventions including patient care technologies, information systems and communication devices to promote, maintain, and restore families' health during the childbearing period. Provides activities for students to further develop critical thinking, decision-making, and communication skills. Includes learning experiences in a variety of health care settings with attention to existing health care policies and regulatory guidelines. Sixteen hours of laboratory per week.

NLAB 477. Nursing Care of Infants, Children, and Adolescents Lab. This course provides clinical practice opportunities to synthesize nursing knowledge, evaluate use of nursing process, and reflect on learning experiences during the care of infants, children, and adolescents. Focuses on therapeutic nursing interventions to promote, maintain, and restore health. Provides activities for students to further develop critical thinking skills, decision making skills, and communication skills. Includes clinical learning experiences in a variety of health care settings. Fifteen laboratory hours a week.

NLAB 488. Promoting a Healthy Community Lab. This course focuses on developing, implementing and evaluating health promotion, and disease prevention interventions for a target population within a community. Students collaborate with peers and members of the community to implement all phases of the nursing process within the community context informed by assessment data, socio-cultural characteristics, and environmental and political influences. Students function as managers and providers of nursing services to a target population within a community, documenting all phases of care and disseminating outcomes of planned target population interventions.

NLAB 489. Advanced Concepts in Nursing Practice Lab. This course provides opportunities to refine critical thinking, decision-making and communication skills in nursing care of diverse populations across the lifespan in an ever-changing and complex healthcare environment. Supports activities to synthesize nursing knowledge, apply appropriate nursing interventions and evaluate the use of phases of the nursing process. Integrates safety, quality improvement and healthcare policies throughout the course to reflect current standards of professional practice. Prepares each student to function effectively and efficiently in entry-level caregiver, manager and team member nursing roles. Fifteen hours of laboratory a week.

HSCI 499. Capstone Experience in Health & Human Sciences. Students will apply the culminating knowledge and skills acquired during their program to the completion of a project that will draw on their real world or field experiences. This class may require field work. (varies).

HUSC 401/ 501. Theories of Behavior Change in the Human Sciences. A study of the key dimensions of different theories of behavior change commonly used in human sciences and how those theories may be applied in various settings. (varies)

School of Nursing

Lindsay Domiano, *Department Head*

The School of Nursing is composed of the Bachelor of Science in Nursing degree, the Intercollegiate Consortium for a Master of Science in Nursing, and the Doctor of Nursing Practice programs. All programs are approved by the Louisiana State Board of Nursing. The baccalaureate degree program in nursing and the Doctor of Nursing Practice program at Southeastern Louisiana University are accredited by the Commission on Collegiate Nursing Education (<http://www.ccnaccreditation.org>). The master's degree program in nursing at Intercollegiate Consortium for a Master of Science in Nursing (Consortium of McNeese State University, Nicholls State University, Southeastern Louisiana University, and University of Louisiana at Lafayette) is accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.

Undergraduate Program Goals

1. To prepare professional nurses by providing nursing curriculum incorporating essential elements of baccalaureate nursing education, professional standards of care, research, and evidence-based nursing knowledge, enhanced by support courses in arts, sciences and humanities.
2. To prepare professional nurses as generalist providers and managers of nursing services within diverse healthcare environments, to prevent disease, and to promote and restore the health of individuals, families, groups, communities, and populations across the lifespan.
3. To prepare professional nurses to effectively utilize information management and patient care technology, and to communicate and collaborate with other healthcare professionals to achieve delivery of efficient, ethical, safe, high quality client care.
4. To prepare professional nurses as leaders in advocating for change to processes, policies, and regulations to improve healthcare delivery systems and client outcomes, and promote the values and advancement of the nursing profession.

Undergraduate Program Outcomes

Upon completion of the nursing program, graduates will:

1. Provide nursing care by incorporating knowledge from a liberal education in the arts, sciences, and humanities.
2. Demonstrate leadership and management skills in the design and implementation of nursing care.
3. Act as nurse advocates by considering factors related to safety and cost in implementing nursing care and in evaluating the quality and effectiveness of nursing care.
4. Incorporate research and evidence-based findings, current knowledge and competencies in nursing practice.
5. Demonstrate the ability to utilize information management and patient care technology in the delivery of nursing care.
6. Provide nursing care guided by professional nursing practice standards, healthcare policies, applicable statutes and regulations, and safe environmental health practices.
7. Use professional communication and collegiality when collaborating with interdisciplinary health team members.
8. Promote the health of individuals, families, groups, communities, and populations by participating in health promotion and disease prevention activities.
9. Incorporate professionalism and ethical principles in the delivery of nursing care.
10. Utilize each phase of the nursing process in the delivery of nursing care of individuals, families, groups, communities, and populations across the lifespan in diverse healthcare environments.

General Requirements

Additional School or Nursing Graduation Requirements

Students in the School of Nursing must meet the following requirements for graduation in addition to general University requirements listed elsewhere: Earn a degree GPA of 2.5, and a GPA of 2.3 in the major.

Selective Progression and Retention in the School of Nursing

The nursing profession has the responsibility of safeguarding the nursing care of society; therefore, the School of Nursing of Southeastern Louisiana University reserves the right to recruit, admit, and retain only those students who demonstrate evidence of being academically, physically, mentally, and emotionally capable of performing safe acts of nursing in a professional manner.

The School of Nursing will permit only those students who have been formally accepted for progression in the nursing program to register for required courses in nursing.

The number of students selected for progression each semester will vary according to the resources available to the School of Nursing.

Progression Procedures and Policy

1. Students are required to submit an Application for Progression in the School of Nursing and must be accepted before enrolling in nursing courses.
2. The Application for Progression must be on file in the office of the Department Head, Hammond Campus, by February 1 in the Spring Semester to enroll in the Fall Semester, and by September 1 in the Fall Semester to enroll in the Spring Semester.
3. All applicants for progression will be processed by the School of Nursing Progression and Retention Committee.

College of Nursing

4. All students in the School of Nursing must be formally accepted before enrolling in any required nursing courses.
5. Selection for admission is based on criteria established by the Progression and Retention Committee of the School of Nursing. Students are evaluated on criteria in place on the application deadline date. Students who meet the following criteria will be considered for progression:
 - a. Cumulative GPA of 3.0 or better in degree prerequisite courses.
 - b. A student must complete the sequence of the required GBIO 151, BIOL 152, ZOO 250, ZOOL 252, ZOO 251, and ZOOL 253 courses with a "C" or better, within 6 regular semesters, to be eligible to apply to the clinical coursework of the School of Nursing. Students will not be considered eligible for progression to apply for nursing clinical coursework if completion of these biology/zoology courses exceeds 6 regular semesters.
 - c. Grades of "C" or better in all prerequisite courses.
 - d. Current enrollment at Southeastern in all remaining prerequisite courses with documentation on file in the School of Nursing.
 - e. Evidence of health compatible with curriculum requirements.
6. A history and physical examination will be required prior to taking the first clinical course. Enrollment in Nursing 314, 315, 332, and 334 requires a student history and physical examination using forms furnished by the School of Nursing. The examination report must be submitted four weeks prior to the semester the student enters the course. The School of Nursing reserves the right to investigate situations which may affect the student's ability to function. In addition, a physician's release may be required.
7. Students who have health conditions that may prevent their meeting the objectives of the program or a course in the program or that may cause potential injury to that student or to the clients for whom he/she cares, will be required to have a personal interview with the Department Head or dean or with an appropriate School of Nursing Committee.
8. Drug testing will be required.
9. At the time of acceptance into the first semester of nursing courses, all students will be required to have a state and federal background check at their expense. As a current requirement of the Louisiana State Board of Nursing, students will be required to have a second criminal background check completed at the time of graduation and application for licensure.
10. Students who have had a license to practice nursing or to practice as another healthcare provider denied, revoked, suspended, or otherwise restricted, and students who have been arrested or convicted of a crime or offense or entered a plea of guilty or nolo contendere to a criminal charge regardless of final disposition of the criminal proceeding, including, but not limited to expungement or non-adjudication, shall petition the School of Nursing and the Louisiana State Board of Nursing for review and action regarding their right to practice as students of nursing in Louisiana prior to entry into the first nursing laboratory course. Students must immediately report to the School of Nursing Department Head any change in their status after being admitted with regard to the above statement.
11. Students enrolled in clinical nursing courses are further required to submit evidence every two years of certification in cardiopulmonary resuscitation (American Heart Association Health Care Provider Course). Any student not complying will be withdrawn from nursing laboratory courses.
12. Students who are transferring from another nursing degree program must submit a letter of good standing from the dean/director of all previously attended programs. Students not in good standing may appeal to progress by submitting a letter explaining the circumstances of failing to graduate from another nursing program, reasons for wanting to transfer to Southeastern's nursing program, and reasons why the student believes he/she will be successful if admitted to the program. Appropriate documentation to support the appeal should accompany the request for consideration.

Retention Procedures and Policy

1. After acceptance, students must maintain a degree GPA of 2.5 or better, a degree GPA 2.3 in the major, and achieve a "C" or better in each required nursing course to meet graduation requirements.
2. Students will be permitted to enroll in any nursing courses only twice.
3. Students will be permitted to repeat only two nursing courses.
4. A student who is in violation of progression in the School of Nursing may be granted Amnesty after 4 years. The student will be required to submit a new application to progress to nursing course work to the School of Nursing. The application will be processed based on the cumulative GPA on degree prerequisites in the same manner as all new applications. If cumulative GPA meets selection criteria, the student will be allowed to be admitted to progress as a new student. The student will be required to enroll in all nursing courses and earn a "C" or better to progress.

Equipment and Supplies

Students are responsible for providing the following equipment and supplies:

- Bandage scissors
- Uniforms: 2
- White shoes and socks or stockings
- White laboratory coat: 1
- Name pin
- Watch with sweep second hand
- Penlight
- Stethoscope
- Safety glasses/goggles

Fees

Once nursing students progress to the clinical component of the degree, a Professional Degree fee will be assessed each semester.

The Louisiana State Board of Nursing¹ may also assess various fees.

In addition to the regular University fees listed in the General Catalog, nursing students, prior to or upon program completion, must assume cost for the following:

- Louisiana State Board of Nursing Licensure fee
- National Council of State Boards of Nursing Examination fee

¹All fees to the Board of Nursing are subject to change as they are determined by the Board.

Class/Clinical Laboratory Experiences

Students will have clinical nursing experiences in selected health agencies located in the Southeast region of Louisiana. Students may have course work on both the Hammond Campus and Baton Rouge Center. Students are responsible for own transportation to and from all agencies.

Degrees

Upon successful completion of the prescribed course of study in the School of Nursing, the student will be granted the academic degree of Bachelor of Science and will be eligible to take the National Council Licensure Examination for licensure to practice in the state as a registered nurse. The School of Nursing hereby disclaims any warranty that the program completed by a student will guarantee that the student will pass any specific examinations for any course, degree, or occupational license.

Achievement Examinations

All students enrolled in the School of Nursing are required to take standardized achievement examinations in areas of Nursing selected by the faculty at appropriate times in the curriculum.

Baccalaureate Program in Nursing for Students with Prior Bachelor's Degree

The School of Nursing offers an accelerated option for students with a prior bachelor's degree. Students may receive credit for prerequisite course requirements using prior degree credits. Students are usually admitted in a spring or summer semester. Program length is approximately 18 months.

Baccalaureate Program in Nursing for Registered Nurses

Registered Nurses (R.N.), in Louisiana, with an associate degree or diploma, are eligible for admission to the baccalaureate degree in the Nursing program at Southeastern. Registered nurses seeking a Bachelor of Science in Nursing should follow the admission procedures specified elsewhere in this catalog to be granted acceptance into the School of Nursing. An admission application must be on file in the office of the Department Head, Hammond campus by January 1 to enroll in the spring semester or by August 1st to enroll in the fall semester. In addition, the following information applies:

R.N. students may receive credit through validation for nursing knowledge gained in their prior program or work experience. R.N. students may receive a 15 hour "block credit" based on prior learning and work experience as a R.N. to meet the prerequisite requirement to enter the R.N. to Bachelor of Science degree program. The 15 hour "block credit" for prerequisites may be granted for the following courses: CHEM 107, NUTR 251, LS 102, MATH 161, MICL 224, ZOOL 252, ZOOL 253, and BIOL 152 OR BIOL 155.

R.N. students must complete 31 nursing credit hours to meet the requirements for a baccalaureate degree. Twenty-two of those hours are earned through completion of the following required nursing courses: NURS 304, 319, 331, 332, 333, 378, 479, 482, 487, and NLAB 488. The remaining nine credit hours may be chosen by the R.N. with assistance from the faculty advisor.

A maximum of 30 hours may be awarded by transfer credit or transfer "block credit." The criteria for awarding 30 nursing credit hours for each option follows:

*30 Nursing Credit Hours by Direct Transfer

Thirty credit hours awarded by direct transfer of academic nursing course credit.

30 credit hours awarded by direct transfer of academic nursing course credit. Criteria for awarding direct transfer credit are as follows:

- Graduate of regionally accredited institution.
- Graduate of a program accredited by ACEN (formerly NLNAC) or NLN CNEA.
- Registered to practice nursing in Louisiana and in good standing with LSBN.
- One or more years of current nursing practice experience as determined by the Department Head.

*30 Credit Hours by "Block Credit"

Awarded by meeting one of the following two items:

- **Associate Degree Nurses:** An Associate Degree in Nursing (ADN) from a US institution that is both regionally accredited and accredited by ACEN (formerly NLNAC) OR NLN CNEA, with a GPA of 2.5 or higher in all coursework related to the ADN and any non-nursing courses that transfer into the Program.
- **Diploma Nurses:** Completion of a diploma program in nursing which is accredited by ACEN (formerly NLNAC) OR NLN CNEA from a regionally accredited US institution.

College of Nursing

Note: Individuals with an ADN or diploma from institutions that are not ACEN or CNEA accredited are not eligible for enrollment in the RN to BSN Program.

Baccalaureate Program in Nursing for Licensed Practical Nurses

To expedite the progression of the Licensed Practical Nurse within the curriculum, the Licensed Practical Nurse will be afforded the opportunity to challenge 11 hours of nursing courses either through proficiency examination and/or competency appraisal.

Criteria for awarding credit are as follows:

- Registered to practice nursing in Louisiana and in good standing with LSBPN.
- Graduate of approved LPN program.
- One or more years of current nursing practice.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Total Semester Hours Required

120

Southeastern 101 is not required of transfer or readmitted Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of electives.

⁶General Education Courses

^{††}Major course, grade of C or higher is required.

¹Grade of "C" or better required.

[‡]LPN's, see department for advising.

³Required to fulfill in part 22 hours of nursing credits required by the Registered Nurse to meet degree requirements. Additionally, nine hours of approved nursing electives must also be used to meet degree requirements.

⁴Courses required for Honors degree in nursing: NURS 333, 378, 471, 479.

Department of Health and Human Sciences

Jacqueline Guendouzi, *Department Head*

The Department of Health and Human Sciences, under the aegis of the College of Nursing and Health Studies, offers undergraduate programs in Communication Sciences and Disorders, Human Sciences, Health Systems Management, and Social Work and graduate programs in Child Life, Communication Sciences and Disorders and Counseling.

Internship, Clinical, and Field Study Requirements

Students majoring in any degree within Health and Human Sciences may be required to participate in a drug screening program and submit information for criminal background checks as part of clinical/internship/field study requirements. Students may also be required to receive a physical examination from a licensed and qualified health care professional, provide proof of current immunizations (measles, mumps and rubella, Hepatitis B and TB skin test), and maintain CPR certification (American Red Cross-Professional Rescuer or American Heart Association-Healthcare Provider). Additional fees may be associated with those requirements.

Bachelor of Science Communication Sciences and Disorders

The Communication Sciences and Disorders program offers an undergraduate curriculum leading to the degree of Bachelor of Science. This four-year curriculum prepares students to serve individuals with communication disorders. Clinical practica are required. Students should plan to pay a lab fee for each clinical course. Students enrolled in clinical practica courses will be subject to a criminal background check. The program also offers curriculum and external clinical practica leading to a Master of Science degree in Communication Sciences and Disorders. Please refer to the Graduate Studies section of this catalog.

Retention Policy and Procedures

1. Students must have a cumulative grade point average of 2.5 to enroll in CSD 300-400 level courses.
2. Students must earn a grade of "C" or better in CSD courses.
3. Students will be allowed to retake the required CSD course only once. If a grade of "C" or better is not earned in the retake of the course, termination from the Communication Sciences and Disorders program will occur.

Speech-Language-Hearing Clinic

The Communication Sciences and Disorders program operates the campus-based Speech-Language-Hearing Clinic. The Clinic serves as a teaching facility for the application of clinical methodology and sound theoretical principle. It also affords students the opportunity to employ scientific methodology of research to the clinical and supervisory processes. The clinic functions to provide quality services to individuals who have communication disorders.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

¹Grade of "C" or better required.

²Cumulative GPA of 2.5 or better is required prior to registration in upper level division CSD course work (300 or 400 level).

³Honors option; for information about requirements and honors courses in this department, please contact the Department Head.

⁴CSD 409, or approved related 300 or 400 MAJOR Elective taken from Communication Sciences & Disorders, Psychology, Health Studies, Human Development & Family Studies, or Education can be substituted for CSD 300 or CSD 410 with Department Head approval.

**Bachelor of Science
Human Sciences**

The Human Sciences undergraduate degree program includes study in the areas of child life, human development and family studies, and nutrition education and promotion. The educational goal is to provide instruction in areas of Human Sciences that will prepare students for advanced study in graduate programs, or to assume professional roles through careers in business, industry, agencies, hospitals, and educational settings.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

^GGeneral Education Courses

*Grade of "C" or better.

††Major Course Grade of "C" or better.

To be eligible for the National Child Life certification exam, students must complete a 3-credit hour (120 clock hours) Child Life Practicum (CL326) and a 12-credit hour (600 clock hours) Child Life Internship (HDFS 487). Placements are dependent on formal acceptance into a hospital-based Child Life practicum/internship program. By utilizing all electives for the practicum and internship courses, students will have the opportunity to complete the requirements necessary for exam eligibility within the HUSC 120-hour degree plan.

**Electives must be chosen from the following areas: HS, HSCI, KIN, KIN Lab, NURS, EDUC, PSYC, HDFS, CL, NUTR, or HUSC

Upon completion of this program, students will be eligible to take the certification exam as Nutrition and Wellness Educators through the American Association of Family and Consumer Sciences. Requirements include completing NUTR 253, 342, 345, 411, 421, 425, and 433, as well as passing the competency exam.

Minors

Students from other departments of the University may minor in Human Sciences. The minor in HUSC consists of 18 hours of CL/HDFS/HUSC/NUTR electives. Students minoring in HUSC must obtain the approval of the Department Head.

**Bachelor of Science
Health Systems Management**

This degree prepares students to understand current and future healthcare industry trends and issues; to develop, communicate and manage resources and solutions to challenges for healthcare systems; and to improve overall quality and outcomes of healthcare systems and services. Graduates of the Health Systems Management (HSM) program will be prepared to pursue employment in a variety of mid-level work setting including: hospitals, healthcare clinics, consulting companies, insurance providers, community facilities, and not-for-profit as well as managed care organizations.

 ‡Must be scheduled in final semester. Students will demonstrate the ability to apply concepts, methods and theories of healthcare management in a healthcare setting.

Bachelor of Arts Social Work

The undergraduate social work program is a professional program that has been designed to prepare students for social work practice in rural and small communities. The program is accredited by the Council on Social Work Education and follows a generalist practice model in which students are provided the knowledge and skills needed to work with clients with a variety of social problems on multiple levels.

Social Work Curriculum

Social work courses that must be taken are SW 101, SW 201, SW 202, SW 203, SW 204, SW 205, SW 303, SW 304, SW 305, SW 308, SW 360, SW 361, SW 402, SW 406, SW 425/525, SW 497, and 498. The courses SW 304, SW 305, SW 366, SW 402, SW 406, SW 425/525, SW 497, and SW 498 must be taken and successfully completed at Southeastern Louisiana University.

Initial Admission to the Social Work Major

Applicants for initial admission into the social work curriculum must meet the admission requirements for Southeastern Louisiana University and then declare themselves as social work majors. Applications for admission to Southeastern Louisiana University must be submitted to the University Admissions Office.

Admission to Professional Standing in Social Work

The social work profession has the responsibility to ensure that persons who graduate from its programs are capable of providing a high quality of service to clients and are capable of safeguarding and enhancing the welfare of society. Therefore, the Social Work faculty reserves the right to select and retain only those students who demonstrate that they have the requisite academic, ethical commitment, emotional and behavioral qualifications for rendering professional social work services.

Students are required to submit an application for admission to professional standing in social work. This application must be favorably acted upon by the Social Work faculty and by the Coordinator of the Social Work Program.

Application forms for admission into professional standing in the social work major may be obtained from the Social Work Program Moodle website. Completed application forms are to be submitted to the Department of Health and Human Sciences.

Admission Procedures for Professional Standing

1. Students generally make application into professional standing at least six weeks prior to the end of their sophomore year in order to have their applications duly processed by the beginning of the next semester. Students are responsible for contacting Social Work faculty to discern the deadline date each semester for turning in their applications. To make application, students must have successfully completed or presently be taking the following courses: ENGL 101 and 102, SOC 101 and 212, GBIO 106 and 107, SW 101, 201, 202, 203, 204, and 205, and PSYC 101.
2. Completion of the above noted social work courses, in curriculum sequence, with a grade of "C" or better.
3. All applications for admission will be processed by the Social Work faculty. A copy of the student's completed application and the status of the faculty's processing will be placed in the student's file.
4. Students who submit application for professional standing will be admitted without delay when they meet the following requirements and there is no waiting list:
 - a. Achievement of a degree GPA of 2.50 or higher.
 - b. Completion of an acceptable criminal background check.
 - c. Successful review of the Application for Admission to Professional Status by the Social Work faculty.
 - d. Earning a grade of "C" or higher in English 102, and all Social Work courses undertaken.
 - e. Submission of formal documentation and completed volunteer form demonstrating 20 service/volunteer hours (See the Social Work Handbook for a list of approved types of service/volunteer hours and the required form.).

College of Nursing and Health Sciences

- f. Submission of certificate of attendance for the mandatory Social Work Program Orientation.

The Social Work Program reserves the right to establish a waiting list for admission into professional standing, primarily for purposes of capitation to meet CSWE standards. If a waiting list is established, the following prioritized criteria will be used for admission:

- i. Length of time on the waiting list
 - ii. GPA
 - iii. Social work service/volunteer experiences
5. The Social Work faculty will make recommendations to the Social Work Program Coordinator for final review and approval regarding the admission status of applicants.

Students will be notified in writing as to their admission, conditional admission or non-admission. Applicants not admitted will not be allowed to schedule the following courses: SW 304, SW 305, SW 308, SW 402, SW 406, SW 425/525, SW 497, and SW 498. Likewise, students conditionally admitted must satisfy all conditions of their admission prior to being allowed to taking the professional courses noted above.

Applicants not admitted will not be allowed to schedule any professional course. Applicants who are not recommended for admission may:

1. Have their applications, and any needed additional information available, carefully reviewed by the Social Work faculty.
2. Be interviewed by the Social Work faculty.
3. Be asked to submit additional information.

Retention Procedures for the Social Work Program

The Social Work faculty will review the status of students formally admitted to the professional program in social work and take proper action in the following instances:

1. When advisors or other faculty members request the faculty to review the continued eligibility of a student.
2. When the grades of a student warrant such a review (consistent failing grades, failure to make normal progress, and failure to maintain a minimum 2.0 cumulative grade point average, a minimum 2.5-degree grade point average, and a minimum 2.5 residency degree grade point average.)
3. When a faculty member reports that the behavior of a student in social work indicates the need for review.
4. When the field supervisor, agency director, or the coordinator of field work indicates unsatisfactory progress in the field.

Termination Procedures

Students will be allowed to retake the required social work course only once. If a grade of "C" or better is not earned in the retake of the course, termination from the Social Work program will occur.

The Social Work faculty will review the status of students formally admitted to the professional program in social work and take proper action if a student's behavior is deemed unprofessional, unethical, illegal, and/or professionally unbecoming. At any time during the course of training (including coursework and field/internship), one or more of the following actions may be taken: reprimand, probation, suspension from the program, or termination from the program. The specific action taken will be determined by the degree of seriousness of the specific behavior and whether or not remediation is appropriate for such an offense.

Child Welfare Grants

Through the cooperation and efforts of the Offices of Community Services several competitive grants in the amount of \$6,500 are available to students who wish to pursue employment with the Department of Children and Family Services. Students must take SW 409/509 and 410/510 and agree to work for Child Protection for a minimum of one year upon graduation from Southeastern or after completion of their Master's Degree in Social Work. These students complete an internship with DCFS in their senior year. Applications must be made in the junior year to Dr. Corie Hebert, LMSW, PhD, Child Welfare Program Coordinator.

Discovery, the Southeastern Louisiana University
Family Resource Center

Located in Baton Rouge, the Family Resource Center serves foster children and family service cases from the Department of Children and Family Services (DCFS) and juveniles brought to the attention of The Families in Needs of Services (FINS) Program. The project also serves as a field laboratory providing internship placements for social work students from Southeastern and other nearby universities. The Project was created with funding through the Louisiana Department of Social Services, Department of Children and Family Services as part of the Adoption and Safe Families Act. It has also received support from the Casey Family Program of Baton Rouge, the GPOA Foundation, and Capital Area Law Enforcement. It has had working agreements with two AmeriCorps programs, VISTA and Delta Service Corps. Some social work interns are able to do their internship with service as Delta Service Corps members.

Total Semester Hours Required

120-122

Southeastern 101 is not required of transfer or readmitted Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of electives. All courses with a Social Work prefix (required or electives) are used in the calculation of the major field average.

^G General Education Courses

††Major course; grade of "C" or better required.

¹Students may utilize electives for Child Welfare grant requirements.

²Social Work, Sociology, Psychology, Political Science, Criminal Justice, Anthropology, Geography except 309, and Child Life 400-level courses.

³Enrollment in SW 497 and SW 498 requires the completion of all courses required in the degree, a minimum of a 2.0 cumulative GPA, and a minimum degree GPA of 2.5, or permission of the Department Head.

⁴Courses needed prior to acceptance into Professional Standing. Social Work 203 and Social Work 204, Social Work 204 and Sociology 212, Social Work 203 and GBIO 107, and Social Work 204 and GBIO 107 may be concurrent registration.

4 Students who submit application for professional standing will be admitted without delay when they meet the following requirements and there is no waiting list:

(a) Achievement of a degree GPA of 2.50 or higher.

(b) Completion of an acceptable criminal background check.

(c) Successful review of the Application for Admission to Professional Status by the Social Work faculty.

(d) Earning a grade of "C" or higher in English 102, and all Social Work courses undertaken.

(e) Submission of formal documentation and completed volunteer form demonstrating 20 service/ volunteer hours (See the Social Work Handbook for a list of approved types of service/ volunteer hours and the required form).

(f) Submission of certificate of attendance for the mandatory Social Work Program Orientation.

Department of Kinesiology and Health Studies

Charity Bryan, *Department Head*

The Department of Kinesiology and Health Studies offers 5 undergraduate degrees: Bachelor of Science in Athletic Training, Bachelor of Science in Health Sciences, Bachelor of Science in Health and Physical Education Grades K-12, Bachelor of Science in Sport Management, and Bachelor of Science in Kinesiology (with concentrations in Exercise Science and Fitness and Human Performance). The undergraduate degree in Kinesiology (Exercise Science concentration) is designed for students who desire to pursue graduate study for a career in physical therapy. The department also offers a master's degree in Health and Kinesiology – Master of Science, with concentrations in Exercise Science, Health Studies, Health Promotion & Exercise Science, and Kinesiology. Sport and fitness activity classes (KINL prefix) are available to all students. Students in majors other than those in the Kinesiology and Health Studies Department are recommended to take 100-level KINL courses because of their lifetime emphasis.

Students majoring in degrees in the Kinesiology and Health Studies Department may be required to participate in a drug screening program and/or submit information for criminal background checks as part of clinical/internship requirements.

Senior Internship

Undergraduate degrees in Health Sciences, Sport Management, and Kinesiology culminate with a senior internship course during which students engage in practical experience at field-based sites. Prerequisites for all students include: (1) a cumulative or degree GPA of 2.0 or higher, (2) a grade of "C" or higher in all indicated courses, (3) completion of specific prerequisite courses for the major, and (4) a maximum of 6 hours of coursework remaining to complete the degree. Courses remaining to complete the degree must be taken in conjunction with internship. The senior internship is an unpaid field experience, typically at a site in the area surrounding Hammond (e.g., Baton Rouge, Covington, Mandeville, New Orleans) and is completed during the final Fall or Spring semester of the degree. Out-of-region/state internships are allowed in specific cases. During the semester prior to graduation, students begin preparation for the senior internship. This includes submitting an application to intern, identifying potential internship sites, and completing a series of required tasks, including providing information and payment for a criminal background check using an agency specified by the department. Internship sites must be approved by the department. Deadlines are established for required tasks, including site identification and the completion of a contract between the department and the site. If an internship site has not been approved and a contract completed by the deadline for such, students are required to select a site for which a current contract exists. All students must attend an internship orientation session, usually scheduled during the week prior to the start of the semester, and participate in a drug screening program during the internship. Additional information and prerequisites for each degree/concentration are provided below.

BS in Health Sciences: Prerequisites for HS 410, in addition to the prerequisites for all students (above) are achieving a grade of C or higher in all English, Math, Science, Nutrition and Health Studies courses required in the degree.

BS in Kinesiology: Prerequisites for KIN 410, in addition to the prerequisites for all students (above), are achieving a grade of C or higher in all English, Math, and Zoology courses required in the degree as well as GBIO 151, BIOL 152, Chemistry 101/103 or 121/123, and KIN 321, 372, 392, and 436.

BS in Sport Management: Prerequisites for KIN 490, in addition to the prerequisites for all students (above), are achieving a grade of C or higher in all English, Math, and Science courses required in the degree, a grade of B or higher in KIN 232, and a grade of C or higher in ACCT 200, ECON 201 or 202, MGMT 210 and 351, and MRKT 303.

Honors Diploma in the Discipline

Students participating in the University Honors Program are required to complete 9 hours of upper-level honors courses. These may include a combination of 300-400 level HONR courses, study abroad, or H-option courses in the major. Courses that may be taken as H-option in the Department of Kinesiology are:

BS in Athletic Training: ATHT 333, 410, 462

BS in Health Sciences: HS 312, 360, 361, 401, 420, 440

BS in Health and Physical Education: KIN 251, 321, 351, 372, 392, 436

BS in Kinesiology: KIN 321, 372, 392, 424, 434, 436

BS in Sport Management: KIN 366, 380, 406, 451

Bachelor of Science in Athletic Training

Certified Athletic Trainers are healthcare professionals who collaborate with physicians to optimize activity and participation of patients and athletes. Athletic training encompasses the prevention, diagnosis and intervention of emergency, acute and chronic medical conditions involving impairment, functional limitations and disabilities. Athletic training is recognized by the American Medical Association as a healthcare profession. The Athletic Training Program (ATP) in the Department of Kinesiology and Health Studies at Southeastern Louisiana University is nationally accredited by the Commission on Accreditation of Athletic Training Education (CAATE). The mission of the ATP is to provide a comprehensive and progressive educational and clinical foundation to prepare the graduate for a career in athletic training. Through exposure to and participation in the didactic and clinical education program, the athletic training student becomes competent and proficient in the following content areas of athletic training:

- Prevention
- Clinical Evaluation and Diagnosis
- Immediate Care
- Treatment, Rehabilitation, and Reconditioning
- Organization and Administration
- Professional Responsibility

Total Semester Hours Required

120

Southeastern 101 is not required of transfer or readmit Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of electives.

^GGeneral Education Courses

¹Grade of "C" or higher is required.

^{††}Clinical Progression Course; grade of "C" or higher is required.

¹Class must be taken prior to formal acceptance into ATP or during the first semester of Clinical Progression.

²Provides the student with the opportunity to practice and apply the athletic training clinical proficiencies under the supervision of a Preceptor for a minimum of 150 hours per semester.

³Provides the student with the opportunity to practice and apply the athletic training clinical proficiencies under the direct supervision of a qualified Preceptor for a minimum of 225 clinical education hours per semester (approximately 15 hours per week).

⁴Social/Behavioral Science Elective must be sophomore level or higher, and selected from courses in Economics, Political Science, Criminal Justice, Psychology, Sociology, Geography, or Anthropology.

Athletic Training Selective Admission, Progression, and Retention Policy

Admission into Southeastern Louisiana University does not guarantee admission into the clinical progression portion of the ATP. Competitive admission is based on the applicant’s academic history, athletic training and/or relevant experiences, letters of recommendation, completion of a minimum of 85 hours of observation of athletic training, and results of personal interview. Ongoing assessments determine appropriateness for dismissal, probation, retention, or completion.

Students are admitted into the clinical progression portion of the ATP as a cohort starting each spring semester. Students seeking admission into the clinical progression portion of the ATP do so through a formal application. Student must attend an orientation meeting at the beginning of fall semester before starting observation hours. Applications must be submitted to the ATP office or other designated location by October 15. Students will be notified of their status regarding acceptance into the clinical progression portion of the program prior to the end of the fall semester.

To be eligible for admission into the clinical progression portion of the ATP, students must have a cumulative GPA of 2.5 or higher, and completed the following courses with a grade of “C” or higher:

- Southeastern 101 (2 hours)
- Health Studies 133 (3 hours)
- Mathematics 161 (3 hours)
- General Biology 151/152 (4 hours)
- Athletic Training 141 (3 hours)
- Mathematics 162, 163, or 241 (3 hours)
- Chemistry 101/103 or 121/123 (4 hours)
- Psychology 101 (3 hours)
- English 101 (3 hours)
- Zoology 250/252 (4 hours)
- English 102 (3 hours)

Other courses recommended for completion prior to clinical progression course work are: Communication 211; English 229, 230, 231, 232 or 233; History Elective; Nutrition 342.

Zoology 251/253 must be taken prior to formal acceptance into ATP or during the first semester of Clinical Progression.

NOTES: (1) Southeastern 101 is not required of transfer or readmitted Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of free electives. (2) If Zoology 251/253 is not completed prior to admission, it must be completed during the first semester of clinical progression course work.

Through the application and interview process, candidates should demonstrate:

- The ability to communicate effectively and sensitively with patients, athletes, and fellow AT students, faculty and staff, including individuals from different cultural and social backgrounds.
- Sufficient neuromuscular control, sensory function, and coordination to accurately perform appropriate physical skills safely and efficiently, as well as use equipment and materials during the evaluation and treatment of patients and athletes.
- The mental capacity to assimilate, analyze, synthesize, integrate concepts and problem solve to formulate assessment and therapeutic judgments and to be able to distinguish deviations from the norm.
- Affective skills and appropriate demeanor and rapport that relate to professional education and quality patient care.
- Flexibility and the ability to adjust to changing situations and uncertainty in clinical situations.
- The capacity to maintain composure and continue to function well during periods of high stress.
- The perseverance, diligence, and commitment to complete the athletic training education program as outlined and sequenced.

Other Program Requirements

Only those candidates that have been formally selected to the clinical progression portion of the ATP will be permitted to take the following clinical progression courses. Clinical progression courses are offered in a sequential order.

<u>1st Semester</u>	<u>2nd Semester</u>	<u>3rd Semester</u>	<u>4th Semester</u>	<u>5th Semester</u>
ATHT 206	ATLB 303	ATLB 317	ATHT 455	ATHT 466
ATHT 241	ATHT 372	ATHT 333	ATHT 462	ATHT 425
ATHT 205	ATHT 305	ATHT 340	ATHT 420	ATHT 410
ATLB 217	ATLB 300	ATLB 344		
ATLB 244	ATLB 370	ATLB 304		

Other courses to complete the degree of B.S. in Athletic Training include:

- Kinesiology 321, 372, 392, 426, and 436
- Music, Art, Dance or Theatre Elective
- Social or Behavioral Science Elective (200, 300, or 400 level course)

It is required that all students admitted to the ATP receive a physical examination from a licensed and qualified health care professional prior to the start of the first clinical progression course. Students must also demonstrate proof of current immunizations (measles, mumps and rubella [MMR], Hepatitis B and TB skin test). An annual TB skin test is required of all AT students enrolled in clinical progression courses. Students enrolled in the clinical progression portion of the ATP are also required to maintain CPR certification for the duration of the degree (American Red Cross-Professional Rescuer of American Heart Association-Healthcare Provider). Upon acceptance into the program, students are responsible for the fee associated with completing a criminal background check using the college’s approved provider.

Athletic Training Lab Fee:

Students admitted to the formal progression of the ATP are assessed lab fees in each semester not to exceed \$140. Fees are used for supplies, maintenance of equipment, student drug testing, and other costs associated with the program.

Field Experience Transportation:

Students are responsible for their own transportation to and from clinical sites.

Retention Procedure and Policy

After students have been formally accepted into the clinical progression portion of the ATP:

- Students must maintain a minimum cumulative GPA of 2.5 with a grade of “C” or higher in each required athletic training clinical progression course. Should a student drop below the required GPA, they will be on academic probation and need to apply for re-entry. Approval for re-entry is not guaranteed.
- Students who do not complete a clinical progression course with a grade of “C” or higher may not progress to the next semester of clinical progression courses.
- Students who do not complete an athletic training clinical progression course with a grade of “C” or higher will be permitted to repeat the course one time, but may not continue to the next clinical progression course for which the course is a prerequisite.
- Students who fail to maintain the required GPA, violate policies in the Southeastern Louisiana University Athletic Training Handbook, or violate codes of moral/ethical conduct may be dismissed from the clinical progression portion of the Athletic Training program. Policies may be found in the Student Handbook, Policies and Procedures of the various clinical sites, and the Code of Ethics of the National Athletic Trainers Association.

Bachelor of Science in Kinesiology

Students pursuing the Bachelor of Science in Kinesiology select from two concentrations: Exercise Science or Fitness and Human Performance. Graduation requirements of this degree include a 2.0 GPA and earning a grade of “C” or better in all major courses plus courses in mathematics, English, and the sciences.

Bachelor of Science in Health Sciences

The Bachelor of Science in Health Sciences degree prepares students to pursue a variety of career opportunities in public health, health education, health care and other health science related industries. Coursework focuses on evidence based public health strategies to prevent chronic disease and promote community population health. Graduates will be prepared with the skills and competencies of the Certified Health Education Specialist (CHES). Additionally, it provides students with a solid undergraduate foundation to pursue further graduate study and/or professional degrees (e.g., occupational therapy, physical therapy, physician assistant, dental hygiene, and public health).

²Business Electives: Select from ACCT 200+, BLAW 200+, ECON 200+, FIN 300+, MGMT 300+, MRKT 200+, OMIS 200+.

Health Promotion Minor

Students not majoring in Health Sciences may elect to minor in Health Promotion. It is strongly recommended that students meet with KHS department advisor before starting on the minor. Twenty-four hours in Health Studies are required for a minor in Health Promotion. Fifteen of these hours must be in 300-or-400 level courses. The following courses are required to complete this minor:

††Health Studies 133	3	††Health Studies 360	3
††Health Studies 312 or 362	3	††Health Studies 454	3
††Health Studies 420 (Fall only)	3	††Health Studies Electives	9
Total: 24			

Health Studies Electives must be selected from: HS 162, 200, 251, 252, 312, 315, 316, 331, 335, 351, 361, 362, 401, 430, 439, 440, 442, or 461. NUTR 342, 345, 411, 421, 424, or 433 may be used as one of the elective courses.

††Grade of "C" or higher is required

Adapted Physical Education Minor

1. Basic Requirements

Certification is required in Physical Education Teacher Education and the completion of the courses listed below.

††Special Education 200 or 600	3
††Kinesiology 431	3
††Kinesiology 321 or 612	3
Total	9

2. Specialized Requirements

In addition to basic certification, specialized Adapted Physical Education certification requires a minimum of 12 semester hours.

††Kinesiology 491 or 591	3	††Kinesiology 493 or 593	3
††Kinesiology 492 or 592	3	††Kinesiology 494 or 594	3
Total: 12			

††A grade of "C" or better is required.

Athletic Coaching Minor

It is strongly recommended that students meet with KHS department advisor before starting on the minor in Athletic Coaching. The following courses are required to complete this minor:

††Health Studies 131	2	††Kinesiology 300, 366, or 380	3
††Kinesiology Lab 113	1	Two courses selected from:	
††Kinesiology 235	3	††Kinesiology 301, 302, 303, 304, 305, 306	6
††Kinesiology 251, 321, 334, or 436	3		
Total: 18			

††Grade of "C" or better is required

Exercise Science Minor

Students not majoring in Kinesiology may elect to minor in Exercise Science. It is strongly recommended that students meet with KHS department advisor before starting on the minor in Exercise Science. The following courses are required to complete this minor:

††Kinesiology 321	3	††Kinesiology 426	3
††Kinesiology 372	3	††Kinesiology 424 or 434	3
††Kinesiology 392	3	††Kinesiology 436	3
Total: 18			

††Grade of "C" or better is required

Sport Management Minor

The minor in Sport Management consists of 18 semester hours. A grade of "C" or higher is required in all courses. In addition to KIN 232, students will complete 15 hours of electives, selected from the following courses:

††Kinesiology 332	3	††Kinesiology 380	3
††Kinesiology 333	3	††Kinesiology 406	3
††Kinesiology 334	3	††Kinesiology 451	3
††Kinesiology 366	3		
Total: 18			

††Grade of "C" or better is required

The College of Science and Technology

Daniel McCarthy, *Dean*
Brian Crother, *Assistant Dean*

The College of Science and Technology is composed of the Departments of Biological Sciences, Chemistry and Physics, Computer Science, Industrial & Engineering Technology, and Mathematics.

Graduation Requirements

In order to obtain a baccalaureate degree in the College of Science and Technology, a student must successfully complete three sets of academic requirements: University requirements, College of Science and Technology requirements, and departmental requirements.

University Requirements: The University requirements are listed elsewhere in this General Catalog.

College Requirements in Curricula offered in the following departments: Biological Science, Chemistry and Physics, Computer Science, Industrial & Engineering Technology, and Mathematics.

Associate Degree

The College Requirements are:

1. A minimum of sixty (60) semester hours.
2. Completion of 15 semester hours of General Education requirements as well as:
 - a. Mathematics 162 or 2413 hours
 - b. English 1023 hours

Baccalaureate Degree

The College Requirements are:

1. A minimum of one hundred twenty (120) semester hours.
2. Completion of the following General Education Requirements and a minimum of two hours of laboratory:
 - a. English Composition.....6 hours
 - b. Mathematics (must be at a level no less than Math 161)6 hours
 - c. Science¹ (Eight hours must be in a two-semester sequence with a minimum of 15 hours of science)
 - i. Biological (and)4-8 hours
 - ii. Physical (and)4-8 hours
 - iii. Biological or Physical.....3 hours
 - d. Humanities²
 - i. English Literature.....3 hours
 - ii. History3 hours
 - iii. Foreign Language, Communication, or Philosophy3 hours
 - e. Fine Arts.....3 hours
 - f. Social Sciences³ (must be selected from economics, geography, anthropology, psychology, sociology, or political science).....6 hours

¹ Earth and Space Science 101/103, 102/104 and Physical Science 101/102 may not be used to fulfill this requirement.

² Must include at least (3) semester hours at the Sophomore-level or above.

³ Except for Industrial Technology.

Departmental/Program Requirements are:

1. Fulfillment of the requirements specified by the department offering the program of study in the student's major. These departmental requirements, including a curriculum outline, are located in this catalog in the departmental section in which the student is majoring.
2. Courses listed in each curriculum, which will be used in calculating the grade point average in the major, are identified by a "††". The following departments require that a grade of "C" be made in each of these courses: Biological Sciences, Computer Science, and Mathematics.
3. All departments require that a cumulative or degree grade point average of 2.0 or higher be earned in the major.

Degrees Awarded

The degree of Bachelor of Science is awarded upon successful completion of any one of the following four-year curricula: Biological Sciences (Six areas of Concentration), Chemistry (Five areas of Concentration), Physics (Two areas of Concentration), Computer Science (Two areas of Concentration), Information Technology, Engineering Technology (Four areas of Concentration) Industrial Technology (Three areas of Concentration), Occupational Safety, Health, and Environment, and Mathematics (Five areas of Concentration), and Integrated Science and Technology.

The degree of Associate of Applied Science is awarded upon the successful completion of the two-year program in Industrial technology (Four areas of Concentration).

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

The Institute of Biodiversity and Interdisciplinary Studies

The Institute of Biodiversity and Interdisciplinary Studies (IBIS) was established in 2003 by the Louisiana Board of Regents and is administered through the College of Science and Technology. IBIS has a strong research focus; however, the Institute is unique in the sense that it is committed to the concept of significant interdisciplinary collaboration and the incorporation of educational and outreach components in all of its major research projects. Strong and continual links are maintained between IBIS and several colleges, departments and centers at Southeastern, including the Turtle Cove Environmental Research Station, the Center for Southeastern Louisiana Studies, the College of Education, the College of Business, and the College of Arts, Humanities, and Social Sciences.

The primary mission of IBIS is: 1) to increase our basic understanding of the biological diversity of the ecosystems that comprise the Gulf Coast, in general and the Lake Pontchartrain drainage basin, in particular; 2) to train a new generation of young scientists who will continue to address the significant environmental problems that confront society and teachers who will disseminate to their students' knowledge about sensitive ecosystems and the factors that disrupt them; 3) to foster interdisciplinary activities including research, formal education and outreach components that will provide opportunities for the participants to address environmental and biodiversity issues in a more comprehensive and inclusive manner; and 4) to educate the Louisiana public about the relationship between human activities and the health of the Lake Pontchartrain basin.

Interdisciplinary Environmental Studies Program

A minor is available through the Institute of Biodiversity and Interdisciplinary Studies*.

Program Description:

The minor in Environmental Studies at Southeastern focuses on a new and innovative interdisciplinary approach to the education of its students. A true understanding of complex environmental issues, such as global climate change, pollution, biodiversity, and the loss of coastal wetlands requires a multi-disciplinary approach. The wide array of natural, socio-economic, and business-related sciences offered at the University all play an integral role in the analysis and understanding of the causes, impacts and solutions to environmental problems that are currently of international concern. In order to ensure a multi-disciplinary approach, this program is housed within the Institute for Biodiversity and Interdisciplinary Studies (IBIS). Such a location enables students to access a multitude of courses, faculty, programs and facilities that transverse individual disciplines. Students will also be able to obtain the breadth and depth of knowledge that is needed to satisfy their own specific focus within the field of Environmental Studies.

Program Requirements:

The minor in Environmental Studies is available to any student enrolled at Southeastern. Individuals participating in the minor are required to take 18 hours of courses that are offered through the program, of which 9 hours are "core" courses and must be taken. The remaining 9 hours are considered to be electives and may be chosen from a wide variety of courses that represent a diverse field of disciplines. Consequently, students may customize their studies to accommodate their specific interests. Individuals interested in pursuing the minor in Environmental Studies should discuss the program with their department head. Students should pay particular attention to pre-requisites that are associated with the three core courses of the program. Examples of specific areas of concentration in Environmental Studies include the following topics:

Natural Science Application

- Diversity of life/conservation biology
- Chemical basis of life
- Population dynamics
- Theory of measurement
- Environmental issues in marine science

Economic Applications

- Environmental history and ethics
- Tools for environmental management
- Environmental law, economics, and policy
- Environmental impact assessment
- Land use policy and planning

Core Courses for the Minor (9 hours required)

- GBIO 281: Environmental Awareness
- SOC 360: Environmental Sociology
- ECON 328: Environmental and Resource Economics

Approved Electives (9 hours)

- OSHE 251: Environmental Laws and Regulations
- GEOG 322: Geography of Louisiana
- GBIO 395: General Ecology
- GBIO 406: Wetlands Ecology
- SOC 401: Population
- GEOG 401: Historical Geography of the U.S.

GEOG 410: Cultural Geography
 MIC 422: Microbiology of Water/Wastewater
 GBIO 439: Fresh Water and Estuarine Biology
 POLI 446: Politics and the Environment
 GBIO 481: Biogeography
 GBIO 442/542 Marine Biology

* Administered through the College of Science and Technology

Interdisciplinary Minor in Scientific Computing

The minor in Scientific Computing is available to any student enrolled at Southeastern, but it is especially appropriate for majors in the College of Science and Technology. Individuals participating in the minor are required to take 18 hours of courses that are offered in the College. The required courses for the minor include:

Required Courses:6 hours

CMPS 152: Introduction to Programming for Scientists 3 hours
 SC 200: Computational Methods for Scientists 3 hours

Discipline-Specific Project or Special Topics Course:3 hours

GBIO 493: Special Topics in Biology 3 hours
 CHEM 404: Special Topics in Chemistry 3 hours
 MATH 383: Independent Projects 3 hours
 PHYS 430: Special Topics in Physics 3 hours

Elective Courses:9 hours

GBIO 153 H: General Biology II Honors 3 hours
 GBIO 314: Genetics Laboratory 2 hours
 GBIO 408: Biological Data Analysis 4 hours
 GBIO 409: Internship 1-3 hours
 GBIO 411: Evolutionary Data Science 4 hours
 CHEM 491: Theoretical Chemistry 3 hours
 CHEM 492: Quantum Chemistry 3 hours
 CMPS 443: Simulation and Modeling 3 hours
 CMPS 451: Data Mining 3 hours
 CMPS 470: Machine Learning 3 hours
 MATH 360: Linear Algebra I 3 hours
 MATH 380: Mathematical Statistics I 3 hours
 MATH 392: Numerical Methods 3 hours
 MATH 402: Partial Differential Equations 3 hours
 MATH 415: Mathematical Modeling 3 hours
 MATH 480: Mathematical Statistics II 3 hours

Post-Baccalaureate Certificate in Sustainability

Program Description:

The sustainability of the earth's environment is crucial to the survival of all living organisms, including our human, social, and economic systems. The Post-Baccalaureate Certificate in Sustainability will provide coursework that focuses on the endurance of the environment and the associated human and economic implications. Because of the breadth of this topic, the curriculum will consist of three core courses that address the three pillars of sustainability: people, planet, and profit. Thus, the core will address the ecological, sociological, and economic aspects of sustainability. In addition, students will choose two sustainability elective courses that focus on the natural sciences, social sciences, or economics.

Program Requirements:

The curriculum consists of 15-17 semester credit hours (5 courses). Students will complete three core courses in environmental sustainability from a biological, sociological, and economics perspective each and two elective courses with direct relevance to sustainability.

Core (9 hours)

- **General Biology 281:** Environmental Awareness (3 hours)
- **Sociology 360:** Environmental Sociology (3 hours)
- **Economics 328:** Environmental and Resource Economics (3 hours)

Electives (6-8 hours)

- **Sociology 455:** Urban Sociology – (Course theme in urban environmental sustainability) – offered once every 3 semesters (3 hours)
- **Sociology 460:** Special Topics: Food, Sustainability, and Society – offered once every two semesters (3 hours)
- **Sociology 400:** Internship (in Environmental Sustainability) – offered every semester (3 hours)
- **Sociology 495:** Sociology Study Abroad in Cuba and Environmental Sociology in Cuba (Visits and tours with officials and organizations in Cuba to gain firsthand experience with philosophies, practices and daily system applications. There is a concentration on sustainable agriculture in Cuba compared to sustainable and industrial scale agriculture in the US.) (3 hours)
- **Sociology 470:** Vulnerable Populations and Disasters – offered every fall (3 hours)

Southeastern Louisiana University

- **Heath Studies 361:** Environmental Health (3 hours)
- **Communication 467:** Crisis Communication (Communication strategies involving natural disasters and resulting environmental concerns) (3 hours)
- **Communication 471:** Organizational Communication (Leadership Initiatives and Implementation of Environmental Initiatives in the Business Setting) (3 hours)
- **General Biology 395 and General Biology 397:** General Ecology and General Ecology Lab (4 hours)
- **General Biology 406:** Wetlands Ecology (4 hours)
- **General Biology 439:** Freshwater and Estuarine Biology (4 hours)
- **General Biology 485:** Conservation Biology (4 hours)
- **General Biology 442:** Marine Biology (4 hours)
- **Microbiology 423:** Environmental Microbiology (4 hours)
- **Economics 305:** Urban and Regional Economics (Sustainable growth and development of locations) (3 hours)
- **Economics 435:** Energy Economics, Markets, and Policy (Use and sustainability of traditional and alternative energy sources) (3 hours)

Pre-Professional

Pre-Agriculture – Department of Biological Sciences

Students who wish to complete a B.S. degree in agriculture or agri-business should plan to transfer after one or possibly two years at Southeastern. Students who earn a B.S. degree at Southeastern, in such studies as biology or chemistry, may apply for admission to graduate programs in agriculture. Consult advisor for specific course recommendations.

Pre-Dentistry – Department of Biological Sciences or Department of Chemistry and Physics

Students should plan to spend at least three years in pre-professional work or complete a B.S. degree in biology or chemistry. A typical freshman program includes Chemistry 121/123; GBIO 151/BIOL 152; GBIO 153/BIOL 154; Mathematics 161/162 or 175/200; English 101 and 102. Consult advisor for further recommendations.

Note: The Dental Admission Test must be taken prior to applying for admission to dental school, preferably during the first semester of the junior year.

Pre-Engineering – Department of Chemistry and Physics

Students must be chemistry or physics majors. Students should be aware that they must meet the transfer admissions requirements of the school of engineering at which they plan to complete the Bachelor of Science in Engineering degree.

Note: High school preparation should include as much algebra, trigonometry, and advanced mathematics as possible as well as courses in chemistry and physics.

Pre-Forestry – Department of Biological Sciences

Students should plan to transfer after one or two years at Southeastern. Typical first-semester courses include: GBIO 151/BIOL 152, GBIO 153/BIOL 154, Chemistry 121/123, English 101, and Mathematics 161. Consult advisor for further recommendations.

Pre-Medicine – Department of Biological Sciences or Department of Chemistry and Physics

Most medical schools recommend that a student complete four years of college before applying for admission. Traditionally, the majority of students accepted at Louisiana State University and Tulane Medical Schools have held the baccalaureate degree upon registering. Students should follow the curriculum outlined for a Bachelor of Science in Integrative Biology or Chemistry (Biochemistry concentration). Typical freshman courses include English 101/102; GBIO 151/BIOL 152; GBIO 153/BIOL 154; Chemistry 121/CLAB123 and CHEM122/CLAB124; Math 161/162; or 175/200. Consult a pre-medical advisor in the Biological Sciences department or Chemistry and Physics department for specific recommendations and to find out more about the Delta Omega Alpha (Δ OA) pre-professional student organization.

Note: Entry into medical schools is based on (1) the student's academic record, (2) the results of the Medical College Admissions Test, which should be taken in the spring of the junior year or fall of the senior year, and (3) recommendation and interviews. Students should also have a recommendation from Southeastern's MEC Board prior to application to any medical program. The degree programs outlined above will provide students with options for alternative career choices in the event that acceptance into medical school is not secured.

Pre-Occupational Therapy – Department of Biological Sciences

Most Occupational Therapy Programs are now at the Master's level so the Pre-Occupational Therapy student should complete the requirements for a baccalaureate degree in Biology or another major before applying. The student should consult with the Occupational Therapy School and their advisor to determine what additional courses are required.

Pre-Optometry - Department of Biological Sciences or Department of Chemistry and Physics

Students should plan to spend at least two years in undergraduate study; the majority of successful applicants have three or four years of college work. A typical first-semester program includes English 101, GBIO 151/BIOL 152, Chemistry 121/123, and Mathematics 161, 175, or 200. Consult advisor for further recommendations.

Note: The Optometry College Admission Test must be taken before or during the semester in which the student applies for acceptance into a school of optometry. Because of competition for the available places, students are urged to plan programs that will permit alternative career choices if acceptance into an optometry school is not secured.

Pre-Pharmacy - Department of Biological Sciences or Department of Chemistry and Physics

Although application may be made early, students should plan to complete a baccalaureate degree in Biological Sciences or Chemistry prior to admission into a Pharmacy program. A typical freshman program includes CHEM 121/CLAB123, MATH 175 or MATH 200, ENGL 101/102, GBIO 151/BIOL 152, ECON 201. Interested students should consult a Pre-Pharmacy advisor in the Biological Sciences department or Chemistry and Physics department for specific recommendations.

Note: Since requirements for pharmacy school vary by program, it is advisable that interested students check the general catalog for the particular Pharmacy School they wish to attend.

Pre-Physical Therapy – Department of Biological Sciences

Students should plan to spend at least three years in pre-professional work; a majority of the Louisiana applicants accepted have completed a baccalaureate degree. A typical freshman program includes GBIO 151/BIOL152, GBIO 153/BIOL 154 Chemistry 121/123 and 122/124, English 101 and 102, Mathematics 162, 163, (or higher). Consult advisor for further recommendations.

Pre-Veterinary Medicine – Department of Biological Sciences

Most schools of veterinary medicine require extensive experience with food animals, such as that gained through a farm background or working as an assistant to a veterinarian, as well as the completion of the Graduate Record Examination. Some schools in veterinary medicine may require courses (such as animal science and/or animal nutrition) which are not available at Southeastern. Because of competition for the available places, students are urged to plan programs that will permit alternative career choices if acceptance into a school of veterinary medicine is not secured.

Total Semester Hours Required

120

Total Minimum Semester Hours Required by Major

50

Southeastern 101 is not required of transfer or readmitted Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of free electives.

^G General Education Courses

*Grade of "C" or better

††A grade of "C" or better is required in these major courses.

¹Students have the choice of the following course sequences: Mathematics 161, 162, and 163 (9 credit hours); Mathematics 175 and 200 (10 credit hours); Mathematics 200 and 201 (10 credit hours). Students who take the first sequence are required to take one additional elective hour.

²Students must choose approved courses from TWO of the following six disciplines:

Biological Sciences, Chemistry, Computer Science, Engineering Technology, Mathematics, or Physics. Within each sub-discipline, students must take at least 15 hours and at least 9 of those hours must be at the 300 level or above, which must be chosen from courses required by the major. The total number of Major Elective must total 36 hours.

³Courses can be taken in music, visual arts, dance, or theatre.

⁴Courses can be selected in economics, geography, anthropology, political science, psychology, criminal justice, or sociology.

Department of Biological Sciences

Justin Anderson, *Department Head*

The Department of Biological Sciences offers a four-year curriculum in Biological Sciences with concentrations in Integrative Biology; Microbiology/Molecular Biology; Ecology, Environmental, and Evolutionary Biology; Biology Education; Plant Science; and Business. Pre-professional programs in medicine, dentistry, physical therapy, veterinary medicine, optometry, and pharmacy are also offered.

Students in Medicine and Dentistry are urged to complete the requirements for the degree before entering a medical or dentistry school. Those who do not plan to obtain a degree before seeking admission to a School of Medicine, Dentistry, or Pharmacy should confer with the Department Head or their advisors before scheduling their course work.

Major in Biological Sciences

Students wishing to major in Biological Sciences must complete 41 semester hours of biology. The required courses are listed within the various concentration options.

Selection and Retention Policies

Students who propose to major in the Biological Sciences must successfully complete GBIO 151 and 153, MATH 161 or 175 or 200, and CHEM 121, all with a grade of "C" or better. Exceptions can be made with the permission of the Department Head. In order to progress as a Major in the Department of Biological Sciences, students must receive a grade of "C" or better in all Biology courses and concentration electives. If the student receives a grade of less than "C" in any of these courses, the course may be repeated no more than twice. In addition, students majoring in the Biological Sciences must maintain an overall minimum grade point average (GPA) of 2.0 or better for all course work. Failure to meet these requirements will result in the student's no longer being eligible to register as a Major in Biological Sciences.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Minor

Eighteen semester hours are required for a minor. These must include GBIO 151-BIOL 152, GBIO 153-BIOL 154, and MIC 205-207 or MIC 223-224- and six-hours of 300/400 level biology courses. Students must receive a grade of "C" or better for all Biology courses to complete the Minor in Biology.

Electives

The curricula leading to the bachelor's degree provide a sufficient number of electives to permit a student to elect a minor in any one of several fields. Students should confer with their faculty advisors so that together they may consider courses that will benefit the student most in the specialized field.

Southeastern 101 is not required of transfer or readmitted Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of free electives.

^GGeneral Education Courses

¹Grade of "C" or better

^{††}A grade of "C" or better is required in these major courses.

¹Mathematics 175 and 200 (10 credit hours) may be taken in place of Mathematics 161, 162, and 163 (9 credit hours). Students who take MATH 175 and 200 should take one less hour of electives.

²Courses for the Ecology, Environmental, and Evolutionary Concentration (20 credit hours) selected from the following in consultation with advisor:

Group A - Fundamental courses (13 credit hours) – students in the Ecology, Environmental, and Evolutionary Concentration must take the following four courses – GBIO 377, 395, 397, and 405

Group B – Concentration Electives (7 credit hours) – BOT 205, 347, 426, 427, 429, 481, 482, GBIO 281, 404, 406, 408, 410, 418, 434, 439, 442, 481, 485, ZOO 301, 302, 352, 392, 409, 438, 456, 457, 458, 465,

470, 475, MIC 313, 423, 438. The following courses require PRIOR approval of the advisor and department head: GBIO 409 Internship 1-3 hours (3 hrs max); GBIO 450 Research Problems, 1-4 hours (4 hrs max);

GBIO 493 Special Topics, 2-4 hours. A maximum of 4 credit hrs may be earned from the following courses: CMPS 450, GEOG 495, POLI 446, SOC 360.

³Courses can be taken in music, art, dance, or theatre.

⁴Courses can be selected in criminal justice, economics, geography, anthropology, political science, psychology, or sociology.

⁵Students planning on attending medical, dental, or other professional or graduate schools, and students pursuing a minor in Chemistry should take Chemistry 265/267 and Chemistry 266/268. Also, Chemistry 265/267 can NOT be used as a prerequisite for Chemistry 281/283. Student who have completed CHEM 261/263 or 265/267 may take MIC 461 or GBIO 434 in place of CHEM 281/283 or 266/268.

Total Minimum Semester Hours Required by Major

41

Southeastern 101 is not required of transfer or readmitted Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of free electives.

Southeastern 101 is not required of transfer or readmitted Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of free electives.

^GGeneral Education Courses

*Grade of "C" or better

††A grade of "C" or better is required in these major courses.

¹Mathematics 175 and 200 (10 credit hours) may be taken in place of Mathematics 161, 162, and 163 (9 credit hours). Students who take MATH 175 and 200 should take one less hour of electives.

²Courses for the Microbiology/Molecular Biology Concentration (20 credit hours) selected from the following groups in consultation with advisor:

Group A - Fundamental courses (8 credit hours) Students in the Microbiology/Molecular Biology Concentration must take the following courses - MIC 325 and 461.

Group B - Concentration Electives (12 credit hours) - MIC 313, 338, 423, 436, 457, 460, 463, CHEM 482, CLAB 486, BOT 401, 426, GBIO 314, 377, 408, 434, ZOO 392, 455, 465, 471, 499. The following courses require PRIOR approval of the advisor and the department head: GBIO 409, Internship 1-3 hours (3 hrs max); GBIO 450, Research Problems, 1-4 hours (4 hrs max); GBIO 493, Special Topics, 2-4 hrs.

³Courses can be taken in music, art, dance, or theatre.

⁴Courses can be selected in economics, geography, anthropology, criminal justice, political science, psychology, or sociology.

Southeastern 101 is not required of transfer or readmitted Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of free electives.

^GGeneral Education Courses

^{††}A grade of "C" or better is required in all major courses.

^{*}A grade of "C" or better is required in these courses

¹Mathematics 175 and 200 (10 credit hours) may be taken in place of Mathematics 161, 162, and 163 (9 hours). Students who take MATH 175 and 200 have satisfied their required one hour elective.

²Courses for the Concentration Electives (minimum 20 credit hours required) selected from the following in consultation with advisor.

GBIO 377 is required for the Business Concentration

Group A – (minimum one course required). Students in the Business Concentration must take either GBIO 395 or GBIO 405. (Note: Biology majors taking GBIO 395 must additionally be concurrently registered in GBIO 397).

Group B – Concentration Electives – BOT 205, 347, 401, 426, 427, 429, 481, 482, GBIO 281, 314, 395, 397, 404, 405, 406, 407, 408, 410, 418, 434, 439, 442, 481, 485, 492, HORT 301, 315, 328, 412, 424, 426, 428, MIC 313, 325, 423, 436, 438, 457, 460, 461, 463; ZOO 301, 302, 331, 332, 352, 392, 409, 428, 438, 453, 455, 456, 457, 458, 465, 470, 471, 475, 483, 499. The following courses require PRIOR approval of the advisor and department head: GBIO 409, Internship 1-3 hrs (3 hrs max); GBIO 450 Research Problems, 1-4 hrs (4 hrs max); GBIO 493, Special Topics, 2-4 hrs. A Maximum of 4 credit hrs may be earned from the following courses: CHEM 281, 481, 482, CLAB 283, 485, 486. NOTE: If CHEM 281/283 is taken to fulfill Chemistry requirements, then it may not be used for elective requirements.

³Courses can be taken in music, art, dance, or theatre.

⁴ECON 201 and ECON 202 fulfill the Social Sciences requirement.

⁵Students planning on attending medical, dental, or other professional or graduate schools, and students pursuing a minor in Chemistry should take Chemistry 265/267 and Chemistry 266/268. Also, Chemistry 265/267 can NOT be used as a prerequisite for Chemistry 281/283. Student who have completed CHEM 261/263 or 265/267 may take MIC 461 or GBIO 434 in place of CHEM 281/283 or 266/268.

Department of Chemistry and Physics

Patrick Moyer, *Department Head*

The Department of Chemistry and Physics offers four-year curricula in both Chemistry and Physics. Since the Chemistry Department is approved by the American Chemical Society (ACS), chemistry graduates may receive diplomas certified by the ACS. Pre-professional programs in engineering, medicine, dentistry, optometry, and pharmacy are also offered.

Chemistry Safety Policy

Laboratories are an integral part of all curricula in the Department. A copy of the safety regulations is provided to every student during the first lab class. Any student who violates the safety policy of the Department is subject to dismissal from the laboratory and withdrawal from the course in which the violation occurred. Departmental policy also requires that any student who drops the lecture must also drop the corresponding laboratory.

Chemistry

Chemistry is the study of the composition and interaction of all substances. Areas of study range from chemical and instrumental analysis of mixtures to synthesis and characterization of polymers to molecular modeling to the chemistry of the human body and to computational chemistry. The degree program in chemistry at Southeastern is designed to offer the student comprehensive training in modern chemical principles in preparation for a career in industry or the health professions or for graduate study in chemistry or related fields. The study of chemistry is also important for fostering the scientific literacy of students in other disciplines, such as environmental science, law, education, and business.

A Major in Chemistry will be granted upon satisfactory completion of 45-57 hours of Chemistry. Candidates for a Major in Chemistry must obtain a minimum grade of "C" (or better) in the Chemistry core curriculum which includes CHEM 121, CHEM 122, CHEM 251, CHEM 265, CHEM 266, CLAB 123, CLAB 124, CLAB 256, CLAB 267 and CLAB 268.

A Minor in Chemistry may be obtained by completing 20 semester hours of chemistry with a GPA of 2.0 in those courses. Applicable courses for the minor are as follows: Chemistry/Chemistry Lab 121/123, 122/124, 221, 251/256, 265/267, 266/268, 271/274, 395/391, 396/392, 452/456, 471/476, 481/485, 482/486.

In order to better meet the needs of the diverse student population, three concentration areas are offered in chemistry. They differ primarily in the balance between the number of hours of chemistry and the number of elective hours required. Which one a given student should choose will depend on their career goals. Even if it is not a degree requirement, all students should consider the benefits of their involvement in supervised undergraduate research (CLAB 411) sometime during their Junior or Senior years.

Chemistry Progression Policy

Students pursuing the degree of Bachelor of Science in Chemistry must meet both of the following progression standards:

1. Students may not repeat any of the following courses more than once: CHEM 121, CHEM 122, CLAB 123, CLAB 124, and MATH 200.
2. Students must successfully complete CHEM 121, CHEM 122, CLAB 123, CLAB 124, and MATH 200 with a grade of "C" or better by the end of the 4th regular semester following the declaration of a major in chemistry.

Students with exceptional circumstances must have an alternative progression plan approved by the Department Head. Students who do not meet these standards will not be allowed to continue in the chemistry major.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Total Semester Hours Required

120

Southeastern 101 is not required of transfer or readmitted Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of free electives.

^G General Education Courses

Concentration 3 is recommended for those students who are planning to enter the workforce. The interdisciplinary electives are intended to develop a specialty in a field applicable to a sector of the chemistry workforce.

Students are encouraged to seek a minor in their interdisciplinary field.

¹All Chemistry courses specified above will be used to calculate the major GPA which must be a degree 2.0.

^{††}Chemistry core curriculum course; grade of "C" or better required. This course will also be used to calculate the major GPA which must be a degree 2.0.

[‡]Math 161 and 175 may be used as electives for those students whose Math ACT score is insufficient for direct entry into Math 200.

^{‡‡}Interdiscipline electives (20 hours) must be from no more than two departments and applicable to minors in those departments. At least 9 hours must be 300-level or higher.

^{‡‡‡}Chemistry electives (8 hours) can be any 300-level or higher †CHEM or †CLAB course.

^{‡‡‡‡}Must be selected from Visual Arts, Music, Theatre, or Dance.

Physics

The notion that all matter from subatomic particles to galactic clusters obeys a small set of principles that can be modeled mathematically is the fundamental premise of physics. The degree program in physics offers comprehensive training in all four major fields of physics: mechanics, electricity and magnetism, thermodynamics, and quantum mechanics. When combined with the numerous opportunities for undergraduate research in physics, the degree program produces students who are well prepared for a career in industry or for graduate study in physics or engineering.

A major in Physics in the College of Science and Technology will be given upon satisfactory completion of 46 semester hours of Physics.

A minor in physics will be granted upon satisfactory completion of 20 semester hours in physics at the 200 level or above, eight hours of which must be Physics 221-223 and Physics 222-224.

Physics Progression Policy

Students pursuing the degree of Bachelor of Science in Physics must meet both of the following progression standards:

1. Students must make successful progress every regular semester in the sequence of courses starting with the mathematics course determined by the "Placement in Mathematics" policy and culminating in MATH 200 and PHYS 221/PLAB 223. Students will be permitted to repeat only one of these courses one time.
2. Students must complete PHYS 221 and PLAB 223 by the end of the 4th regular semester following the declaration of a major in physics.

Students with exceptional circumstances must have an alternative progression plan approved by the Department Head. Students who do not meet these standards will not be allowed to continue in the physics major.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

⁴Must be 200-, 300-, or 400-level courses. Must be selected from courses applicable to a minor in the course's discipline.

⁵Must be selected from Visual Arts, Music, Theatre, or Dance.

Dual Degree Program in Engineering and Physics University of New Orleans/Southeastern Louisiana University

1. This is a program of undergraduate study at UNO and Southeastern whereby students may earn a Bachelor of Science (B.S.) degree in physics from Southeastern and a Bachelor of Science degree in civil engineering, electrical engineering, or mechanical engineering from UNO in a total of 5 years.
2. Students in this program will typically enroll at Southeastern for five semesters and enroll at UNO for five semesters.
3. After successfully completing the prescribed curriculum at Southeastern, the student will submit an application for transfer admission to UNO's Admissions Office.
4. The Department of Chemistry and Physics at Southeastern will advise dual-degree students while students are enrolled there to ensure that the requirements for the B.S. degree at Southeastern and the entrance requirements to the College of Engineering at the University of New Orleans are met. The Associate Dean of Engineering at UNO will be available for further advising and consultation. UNO's Admissions Office will ensure that UNO's requirements for the program are met.
5. Satisfactory preparation in coursework at both universities is defined as follows:
 - a. A grade of "C" or better in each course taken at Southeastern to satisfy degree requirements in the fields of mathematics, physics, chemistry, engineering and other fields necessary to satisfy degree requirements of UNO, and
 - b. An overall cumulative grade point average (GPA) of 2.25 or better earned at Southeastern for acceptance fulltime to the University of New Orleans.
6. The minimum requirements for awarding the B.S. in Physics from Southeastern in conjunction with the B.S. in Engineering from UNO are as follows:
 - a. Completion of at least 30 credit hours in residence at Southeastern;
 - b. Completion of at least 28 hours of physics courses at the 200-level or higher, of which at least 23 hours must be completed in residence at Southeastern, and which must be chosen from courses required of physics majors at Southeastern;
 - c. A grade point average of 2.0 in all courses used to satisfy the graduation requirements and in all required course work in the major field of physics;
 - d. Completion of the Louisiana Board of Regents general education requirements;
 - e. Successful completion of an engineering degree program at UNO.
7. Successful completion of the coursework at University of New Orleans means the following:
 - a. Achievement of a GPA of at least 2.0 in the student's selected major,
 - b. Achievement of a cumulative UNO GPA of at least 2.0,
 - c. Completion of at least 60 credit hours of coursework in residence at UNO unless otherwise approved by the Associate Dean for Student and Undergraduate Affairs at UNO, and
 - d. At least 50% of all major courses must be completed in residence at UNO.
8. At the beginning of the semester in which the student completes the requirements for graduation at UNO, the student must contact the Head of the Department of Chemistry and Physics at Southeastern and send an official UNO transcript (to the Department Head) and

College of Science and Technology

complete Southeastern's graduation application process. The College of Engineering at UNO shall verify to the College of Science and Technology at Southeastern that the student has completed the requirements for graduation from UNO. At the end of the semester, once the student has completed all courses for graduation from UNO, the student must send an official UNO transcript to Southeastern's Office of Admissions.

9. After successful completion of the coursework at University of New Orleans, the student will receive:
 - a. The degree of Bachelor of Science in the appropriate Engineering discipline from UNO, and
 - b. The degree of Bachelor of Science in Physics from Southeastern.

Southeastern Louisiana University
Department of Computer Science
 Bonnie Achee, *Interim Department Head*

Computer Science and Information Technology

The Department of Computer Science offers a four-year program leading to the Bachelor of Science degree in Computer Science and a four-year program leading to the Bachelor of Science in Information Technology. Both programs are accredited by the Computing Accreditation Commission of ABET, <https://www.abet.org>. These programs are designed to provide the foundation necessary for computer science graduates to succeed in the computing profession as well as in graduate school.

The department also offers courses designed to meet the needs of students in other disciplines.

Majors

Students wishing to major, or co-major, in Computer Science or Information Technology must complete the following:

1. Forty-eight or more hours of computer science course work as specified in the curriculum below.
2. Six or more semester hours of mathematics course work as specified in the curriculum below.
3. Fifteen or more semester hours of science course work as specified in the curriculum below.
4. Thirty or more semester hours of broad, general education course work.

Progression Requirements for the Discipline

Students intending to major in Computer Science or Information Technology should inform the Department of Computer Science of their intention as early as possible in their academic career. By the time they have earned 45 hours at Southeastern, * students wishing to continue a major in Computer Science or Industrial Technology must pass Computer Science 161 with a "C" or better, or they must declare another major. Students who have declared a Computer Science major must pass Mathematics 200 with a "C" or better by the time they have earned 60 hours at Southeastern. * If they are unable to achieve this milestone, they can change their major to Information Technology. Students with exceptional circumstances must have an alternative progression plan approved by the Department Head.

*Note that credit hours transferred from other institutions are not included in these total hours earned.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Minors

The Computer Science minor consists of the following eighteen semester hours of course work in Computer Science: CMPS 161, CMPS 257 or MATH 223, CMPS 280, CMPS 285, CMPS 390 and three credits from CMPS 401, 411, 439, or 450.

The Information Technology minor consists of eighteen semester hours of course work in Computer Science: CMPS 161, 280, 285, 294 and six credits from CMPS 315, 329, 339, or 394.

The Computer Technology minor consists of eighteen semester hours of course work in Computer Science: CMPS 101, 110, 120 and three courses from CMPS 204, 209, 210, 225, 233, 235, 333, or 335.

⁵Must be selected from CMPS 391, 401, 434, 441, 443, 470, 479, 493

⁶We recommend that this course be chosen as part of a cohesive group of courses that will focus on a particular application domain. Students may consult a computer science faculty member for advice on application domains, but this is effectively a free elective.

Southeastern Louisiana University
Department of Industrial and Engineering Technology

Mohammad Saadeh, *Department Head*

Engineering Technology

Engineering Technology is a profession in which knowledge of applied mathematics, natural sciences, and engineering methods gained by higher education and practice is used for the development of technological advances and for applications of existing technology to various industries. An Engineering Technology program is different from a classical engineering one in that it is devoted primarily to the utilization of available engineering techniques and methods to solve practical technological problems. The Engineering Technology program is accredited by the Engineering Technology Accreditation Commission of ABET, <https://www.abet.org>.

Engineering Technology Concentrations

Students must elect to study one of the Engineering Technology Concentrations: Computer Engineering Technology, Construction Engineering Technology, Electrical Energy Engineering Technology, Mechanical Engineering Technology, or Mechatronics Engineering Technology. A Bachelor of Science degree will be awarded upon successful completion of the required course work, which includes the Engineering Technology core curriculum, the required curriculum for each individual concentration, and the relevant technical electives.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Major

There are 33 credit hours of required core courses, 30 to 33 credit hours of concentration required courses, and an additional six to nine credit hours of technical elective courses required for the Bachelor of Science degree in Engineering Technology.

Industrial Technology

The Industrial Technology program is a management-oriented technical curriculum built upon a balanced program of studies drawn from a variety of disciplines related to manufacturing technology. Included are a sound knowledge and understanding of materials and production processes; principles of distribution and concepts of industrial management and human relations; experiences in communication skills, humanities, and social sciences; and a proficiency level in the physical sciences, mathematics, design, and technical skills to permit the graduate to resolve technical-managerial and manufacturing production problems.

The Industrial Technology graduate is a professional with a broad technical and managerial background. Typically included in this background are a functional knowledge and understanding of materials and production processes; industrial management and human relations; communication skills, the physical sciences, mathematics, and current technical skills to enable the graduate to effectively meet technical, managerial, and industrial requirements.

The Industrial Technology program at Southeastern Louisiana University is accredited by the Association of Technology Management and Applied Engineering (ATMAE), <http://www.atmae.org>.

Pre-Professional Program: Pre-Architecture

Students should plan to transfer after two years at Southeastern. Typical requirements include mathematics; physics; courses in design; English composition, and speech. Consult advisor, since specific requirements differ widely among schools of architecture.

Manufacturing Technology Concentrations

Students must elect to study one of the manufacturing technology concentrations: Automated Systems, Drafting/Design, and Supervision. Upon satisfactory completion of the Industrial Technology core curriculum and the concentration area, the student will be awarded a Bachelor of Science degree. Included in this section, are the curriculum sheets for the manufacturing technology concentrations.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Minors

In order to minor in Industrial Technology, the student must complete twenty-one (21) semester hours from the following:

- IT 111 – Engineering Drafting 3 semester hours
- IT 112 – Descriptive Geometry..... 3 semester hours
- IT 233 – Introduction to Basic Electricity and Electrons 3 semester hours
- IT 242 – Materials and Processes 3 semester hours
- IT 264 – Industrial Fluid Power..... 3 semester hours
- IT 308 – Production Planning and Control or IT 402 – Industrial Supervision 3 semester hours
- OSHE 111 – Intro to OSH&E or IT 311 – Industrial Design 3 semester hours

Bachelor's Degree Program in Industrial Technology

A minimum of 36 hours of required IT courses (with one course possibly being OSHE 111), 15 hours of IT Concentration Courses, and an additional 6 hours of IT electives are required for a Bachelor of Science degree in Industrial Technology for a total of 57 hours of Industrial Technology.

Associate Degree Program in Industrial Technology

The Associate of Applied Science Degree program in the Department of Computer Science and Industrial Technology is designed to enable graduates to enter various fields of industry after completing two years of study. Graduates may also elect to continue their education in the four-year degree Manufacturing Technology Concentrations. Graduates of the two-year curriculum will be awarded the degree of Associate of Applied Science.

¹Social/Behavioral Sciences course must be selected by students in consultation with their advisors.

Occupational Safety, Health, and Environment

The Bachelor of Science in Occupational Safety, Health, and Environment (OSH&E) program is designed to provide an academically comprehensive curriculum that prepares graduates with the ability and competency to become highly qualified safety, industrial hygiene, and environmental professionals. The OSH&E program is accredited by the Applied and Natural Science Accreditation Commission of ABET, <https://www.abet.org>.

Typical Elements

The OSH&E program prepares students to succeed as occupational safety, health, and environment professionals with a broad technical and managerial background. Typically included in this background are a functional knowledge and understanding of safety, health, and environment fundamentals; legal aspects of safety, health, and environmental practices; interactions of physical, chemical, biological, and ergonomic agents, factors, and/or stressors on the human body; basic principles of fire prevention and protection in the workplace; industrial and construction safety throughout work processes; industrial management and human relations; communication skills, mathematics, sciences, and statistics; and practical skills of basic laboratory techniques associated with industrial hygiene and basic sciences; fundamental exposure assessment sampling techniques; pollution fundamentals and control techniques; accident/incident investigation and analysis; measurement of safety performance; safety, health, and environment program management; performance of education and training for safety.

Minors

OSH&E Safety

The minor in OSH&E – Safety consists of the following eighteen credit hours (six courses) of coursework on OSH&E: OSHE 111, 112 or 121, 231, 261, 311 or 322 or 323 or 381 or 382, and 421 or 424.

OSH&E – Health

The minor in OSH&E – Health consists of the following eighteen credit hours (six courses) of coursework in OSH&E: OSHE 111, 141, 242, 322, 341, and 441.

OSH&E – Environment

The minor in OSH&E – Environment consists of the following eighteen credit hours (six courses) of coursework in OSH&E: OSHE 111, 141, 251, 341, 451, and 452.

Curriculum in OCCUPATIONAL SAFETY, HEALTH, AND ENVIRONMENT Leading to the Degree of Bachelor of Science

Total Semester Hours Required

120

Southeastern 101 is not required of transfer or readmitted Southeastern students with 30 hours or more. Those students will replace Southeastern 101 with 2 hours of professional electives.

^G General Education Courses

††A "C" or better (2.0 minimum GPA) must be earned in all major courses and professional electives.

¹Social/Behavioral Sciences course must be selected by students in consultation with their advisors.

²Professional electives must be selected by students in consultation with their advisors.

Southeastern Louisiana University
Department of Mathematics
 Timothy Hudson, *Department Head*

One of the oldest and most fundamental sciences, Mathematics is the science of quantitative relationships using numbers and symbols. Mathematicians use theory, algorithms, computational techniques, and the latest computer technology to solve problems in physics, engineering, science, business, and economics. Mathematics is usually referred to as pure (theoretical and abstract) or applied (practical problem solving). Mathematics includes numerous sub-disciplines, including analysis, abstract algebra, geometry, probability, statistics, and mathematics education. The overall educational objective of the Mathematics undergraduate degree program at Southeastern is to provide students with the opportunity to develop their analytical thinking, quantitative reasoning, and problem-solving skills that will prepare them to succeed in either graduate school or in a variety of careers in business, industry, government, or teaching.

Candidates for a Major in Mathematics must earn a minimum grade of “C” or better in all mathematics courses taken.

A Minor in Mathematics may be obtained by completing a minimum of 22 hours of mathematics courses as follows:

Math 200	5 hours
Math 201	5 hours
Math 223	3 hours
Math 312	3 hours
<u>Math 309, 350, 360, 370 or 400-level Math courses (Choose 2)¹</u>	<u>6 hours</u>

¹Math 447 and 486 may not be used to satisfy this requirement.

Placement in Mathematics

Since the Department of Mathematics uses the ACT Mathematics score for initial placement of students into their first mathematics courses, we must have their official ACT scores entered into Southeastern’s computer system before students can register for mathematics courses. Our placement procedure for admitted students is outlined below:

1. A student whose ACT mathematics score is 18 or below is required to concurrently enroll in either 100/105 or MATH 100/107.
2. Placement of beginning freshman according to the ACT mathematics score:
 - **MATH 100: ACT mathematics score of 18 or below.** (must be taken concurrently with either MATH 105 or MATH 107). Credit for MATH 100 does not count towards graduation.
 - **MATH 105:** ACT mathematics score of 19 or higher.
 - **MATH 107:** ACT mathematics score of 19 or higher.
 - **MATH 161:** ACT mathematics score of 22 or higher.
 - **MATH 175:** ACT mathematics score of 25 or higher.
 - **MATH 200:** ACT mathematics score of 28 or higher.
3. Advanced Placement Policies:
 - a. A student whose ACT Mathematics score is 28 or above is eligible to enroll directly in MATH 162, 163, 175, or 241 depending upon their choice of major. Upon completion of MATH 162, 163, 175, or 241 with the grade of “C” or better in the first attempt, the student will receive the grade “P” in MATH 161, with 3 credit hours.
 - b. A student whose ACT Mathematics score is 28 or above is eligible to enroll directly in MATH 200. Upon completion of MATH 200 with a grade of “C” or better in the first attempt, the student will receive the grade “P” in MATH 175, with 5 credit hours.
 - c. A student who earns credit in MATH 163, 200, or 241 via the AP, Cambridge International, or International Baccalaureate Calculus or Statistics exams will receive the grade of “P” in MATH 161, with 3 credit hours.
 - d. Students who transfer in a mathematics course at the level of trigonometry-based calculus or above with a grade of “C” or better will receive a grade of “P” for Math 161, with 3 credit hours.

Progression Policy

Students pursuing the degree of Bachelor of Science in Mathematics must meet both of the following progression standards:

1. Students may not repeat any of the following courses more than once: MATH 200, MATH 201, MATH 312, or MATH 223.
2. Students must successfully complete MATH 200 with a grade of “C” or better by the end of the 4th regular semester following the declaration of a major in mathematics.

Students with exceptional circumstances must have an alternative progression plan approved by the Department Head. Students who do not meet these standards will not be allowed to continue in the Mathematics major.

Honors Diploma in the Discipline

For information on earning Sophomore Honors Distinction, Senior Honors Distinction, or the Honors Diploma, please consult The University Honors Program section of this catalog, the Director of the Honors Program, and/or your Department Head.

Graduate Studies

John Boulahanis, *Director of Graduate Studies*

Initial Statement of Purpose

Graduate Studies promotes the professional competency of persons in schools, industry, and business, and prepares individuals to pursue further graduate education. Graduate degree programs are offered in the Colleges of Arts, Humanities and Social Sciences, Business, Education, Nursing and Health Sciences, and Science and Technology. Graduate Studies provides opportunities for students to:

1. Develop methods of scholarly research.
2. Improve competency in certain areas of specialization.
3. Develop a broader understanding of human knowledge.
4. Provide professional services and leadership for communities, school systems, and other organizations.
5. Prepare for advanced graduate studies.

Degrees

- The Master of Arts is granted in English, History, Psychology, and Strategic Communication
- The Master of Arts in Teaching is granted in multiple concentrations that lead to different certifications
- The Master of Business Administration is granted in Business Administration
- The Master of Education is granted in Curriculum and Instruction, Educational Leadership, and Special Education
- The Master of Music
- The Master of Science is granted in Athletic Training, Biology, Child Life, Communication Sciences and Disorders, Computer Networking and Administration, Counseling, Health and Kinesiology, Integrated Science and Technology, Population Health Management, and Applied Sociology
- The Master of Science in Nursing
- The Doctor of Education is granted in Educational Leadership
- The Doctor of Nursing Practice is granted by the School of Nursing

Admission to Graduate Studies

The University Admissions Office receives and processes all applications for Graduate Studies. The following points apply to all applicants regarding admission to a graduate degree program.

- Admission decisions are based on a variety of factors such as past academic performance and standardized test scores. In some cases, degree programs may have additional requirements such as a statement of purpose by the applicant or a restriction on the number of students that can be admitted based on accrediting agency requirements.
- Meeting the requirements for admission does not guarantee admission, only eligibility.
- An applicant is admitted to Graduate Studies upon acceptance and admission into a specific graduate degree program.
- Only those applicants who demonstrate the potential to successfully complete a degree program are admitted.
- The graduate coordinator of each program is authorized to determine if admission to the graduate program will be recommended.
- Only a written notice of admission is valid proof of admission.
- Admission is valid for the semester for which it is awarded. Deferment to the next semester requires written approval from the program graduate coordinator.
- A non-refundable application fee is required of all applicants.

Admission to Southeastern Louisiana University for graduate study is open to qualified students regardless of race, creed, color, natural origin, handicap, sex, or veteran status. To be considered for admission, all supporting materials should be in the Office of Admissions based on the schedule provided in the Application Procedures section of this publication.

Admission Procedure

An applicant for admission to Graduate Studies must submit a completed application, completed immunization form, non-refundable fee, official copies of all transcripts, official copies of the required standardized test scores, and all other required paperwork, to the Admissions Office prior to the established deadlines.

Individual departments may have their own deadline dates and standards for admission. These standards incorporate both qualitative and quantitative criteria more specific than those established by the University. Only individual program graduate coordinators/directors or graduate faculty advisors may recommend the admission of applicants into specific graduate degree programs. To be admitted to Graduate Studies, an applicant must meet the general University requirements and specific program/departmental requirements for which the applicant is applying. Admission to Graduate Studies is granted upon admission to a specific degree program or other graduate non-degree classification.

The categories of admission to Graduate Studies are Degree Status (Regular, Contingent, or Provisional) and Non-Degree Status (Classified or Unclassified). Individuals seeking admission to a degree program or non-degree status must have a bachelor's degree from an institution of higher education recognized by a regional accrediting agency.

Students seeking the Doctor of Education degree must comply with all admissions criteria listed under that degree in the catalog and on the website of the department of Educational Leadership and Foundations and in the "Doctoral Candidate Handbook" for the Consortium.

Admission Classifications

Degree Status

Degree Status includes all graduate students intending to pursue a graduate degree. The listing of regular, provisional, and contingent admission status does not mean that all programs admit students in each of the classifications.

A bachelor's degree is required of any individual admitted for graduate study.

Regular Admission

Graduate programs may prescribe requirements for regular admission in addition to those described below. In addition to holding an undergraduate degree, an applicant who receives regular admission status must satisfy one of the following minimum graduate admissions requirements based on the level of work completed at the time of the application and program/degree specific admission requirements.

1. 2.5 GPA on the undergraduate degree, or
2. 2.75 GPA on approximately 60-70 semester hours or 90-100 quarter hours of upper-level undergraduate academic course work earned during the last half of the degree, or
3. 2.75 GPA on 30 or more semester hours undergraduate credit after earning the first bachelor's degree, or
4. 2.75 GPA on approximately 60-70 semester hours or 90-100 quarter hours of undergraduate academic course work earned during the last half of the degree and a 3.0 GPA on fewer than 24 hours graduate course work, or
5. 3.0 GPA on 24 or more graduate hours, or
6. An earned master's degree or higher-level degree, and
7. Earned satisfactory scores on the standardized tests required by the individual degree program, and
8. Be in satisfactory academic standing at the last institution attended.

An applicant not satisfying the academic standards by not having the minimum GPA noted above may be admitted to a degree program as a provisional student if recommended by the graduate coordinator of the academic unit offering the degree program.

A student in a Regular admission status is eligible for a graduate assistantship.

Provisional Admission

The University offers provisional admission status to students who do not meet the one of the academic standards noted under regular admission. Some graduate degree programs do not admit students with provisional status; therefore, a student must check the specific program requirements. A student admitted in provision status must advance to regular status as prescribed below.

A student admitted to provisional status is eligible (not guaranteed) for advancement to regular status after receiving a 3.0 GPA on the first nine hours of regular graduate level courses taken during the first semester at Southeastern Louisiana University. Part-time students will be allowed a maximum of 12 consecutive months in provisional status in order to complete the required nine hours with a 3.0 GPA in all courses taken while in provisional status. A student must be continuously enrolled to achieve the nine-hour requirement. Graduate programs will specify for each student admitted in provisional status the academic requirements that must be met to advance to regular status. Once the required nine hours is met an admission decision will be made. Neither transfer credits nor credits earned while in Unclassified status can be used to satisfy this nine-hour requirement. A student in provisional status may be dismissed from the graduate program if the student does not complete the required 9 hours within 12 consecutive months, or if the required 3.00 GPA on all courses taken while in provisional status is not attained. Otherwise, the student's status will be changed to Regular or Unclassified as appropriate. Academic departments may set higher standards for students admitted provisionally into their programs. While in the provisional status, a student is not eligible to hold a graduate assistantship; however, an exception may be granted by the student's academic dean in well-justified cases if approved by the academic department head and/or graduate coordinator.

Contingent Admission

A student needing the final transcript recording the bachelor's degree or to provide particular scores, e.g., GRE, GMAT or Praxis scores, may be admitted in contingent status. The final transcript or satisfactory standardized test must be provided by the end of the initial semester of enrollment or the student will be dismissed. For example, if the applicant has met all admission requirements but is in the final semester of a bachelor's degree, the applicant will be admitted in contingent status until the official verification documents that the degree has been awarded, at that time the applicant will advance to regular admission status. A contingent admission can also be changed to regular when the University receives GRE/GMAT or other required test scores.

An applicant may also be admitted with one or more departmental contingencies, requirements the department expects the student to fulfill by a certain deadline. Departmental contingencies are monitored by the department and usually are prerequisite courses, standardized tests, or another similar requirement.

A student in the contingent status is eligible for a graduate assistantship. Continued eligibility for a graduate assistantship beyond the initial semester would require that any such graduate assistants advance to regular status by the completion of the initial semester. Students may not be moved from contingent status to provisional status. Failure to qualify for regular admission status will prevent the student from registering for the next semester.

Non-Degree Classified Admission

An applicant not wishing to pursue a graduate degree but wishing to achieve a special certification or Master's plus 30 credit hours for teaching purposes (applicant must have a Master's degree), would apply for admission to the University Studies for Non-degree-classified admissions. A student enrolled at least half-time in this status is eligible for specific types of financial aid. Individuals should contact the Student Financial Aid Office for additional information. Students seeking admission as non-degree classified must meet or exceed the university minimum requirements for admission (see minimum requirements stated under *Regular* admissions).

Non-Degree Unclassified Admission

A student wishing to pursue graduate-level study for purposes other than advanced degree, certificate program, or master plus 30 credit hours for teachers may be admitted in unclassified status. Upon completion of one semester in unclassified status a student wishing to be considered for admission to a degree is eligible to apply. No more than nine (9) graduate hours of work received as an unclassified student may be counted toward credit for a degree program. For courses taken in the unclassified status that are to be counted for credit toward a graduate degree the student must have earned a grade of B or A and the courses must be approved by the department graduate coordinator and department head. In cases where a student has a graduate advisory committee, approval of courses to count toward the graduate degree must be approved by the student's graduate committee and the departmental graduate coordinator. Hours completed in this status may not be used to satisfy provisional admission requirements. Financial aid may be limited for students in unclassified status. Contact the Student Financial Aid Office for additional information. Students seeking admission as unclassified must meet or exceed the university minimum requirements for admission (see minimum requirements stated under Regular admissions).

No more than 9 hours earned by a student in Provisional, Contingent, Non-Degree, or Unclassified Status may be counted towards a graduate degree, provided the credit is recommended by the appropriate graduate coordinator/director or graduate faculty advisor.

Change of Status

Changes in status from Provisional or Contingent status will occur automatically as a student completes course work or provides necessary documents. A change in status from Non-Degree Classified or Non-Degree Unclassified status to Degree status must be initiated by the student. This is accomplished by completing an application for admission to a degree program.

Application Procedures

*Individual departments or programs may have earlier deadline dates for consideration of applications. It is the applicant's responsibility to be aware of specific deadline dates.

The completed application form, payment of required fees, official transcripts, and official results of standardized tests should be submitted to the Admissions Office on or before the date noted* for the specific semester the student wishes to enroll. Applications must be accompanied by the payment of the non-refundable application fee.

*Applications received after this date may delay consideration until the following semester. No applications for graduate studies will be accepted after the regular University application deadlines published in the Admissions Criteria and Academic Regulations section of this catalog.

Readmission

Students previously registered at Southeastern who wish to resume their graduate studies after an absence of more than 12 months must submit an application for readmission together with official transcripts of all graduate work taken at other institutions to the Admissions Office. A student who does not attend Southeastern Louisiana University for one calendar year or longer must meet the requirements of the catalog in effect at the time of reentry.

International Students

Admission of international students is considered on an individual basis by the International Admissions Office *and* by the appropriate graduate coordinator/director or graduate faculty advisor. International students must meet all University and departmental requirements for Degree Status. In addition, international students must submit to the International Admissions Office the following documents:

1. An application and payment of the application fee.
2. Official, certified transcripts, certificates of degrees, etc., depicting all undergraduate and graduate courses taken and all grades received. A certified translation must accompany these documents if the language used is other than English.
3. A score of at least 500 on the Test of English as a Foreign Language (TOEFL), or a score of at least 173 on the computer-based TOEFL, for applicants whose native language is other than English. Some departments may have more stringent criteria.
4. Certification of the availability of funds to meet all the costs while the student is enrolled at Southeastern, according to INS regulations.
5. Official scores on all standardized tests as required by the individual departments.

Southeastern Louisiana University reserves the exclusive right to determine whether the documentation meets the minimum criteria necessary for the admission of international students to Graduate Studies.

International students are responsible for complying with all regulations of the Immigration and Naturalization Service (INS). Failure to do so will jeopardize their status as students.

General Regulations

Graduate students are responsible for being fully acquainted and complying with all requirements for Graduate Studies and for the respective degree programs. When a particular situation is not covered in this Graduate Studies section of the catalog, graduate students should refer to the General University Regulations.

Students seeking the Doctorate of Education degree (consortium arrangement) must comply with the following regulations unless otherwise specified under the Ed.D. section of the catalog, on the website of the department of Educational Leadership and Foundations and in the "Doctoral Candidate Handbook." The formatting of the dissertation must follow Southeastern's Theses and Dissertations Standards.

Grade Point Average

All references to grade point averages (GPA) regarding admission to graduate credit in degree programs refer to the cumulative grade point average as defined by the student's degree program and computed on all hours attempted.

Graduate Studies

Graduate Credit

A student may receive graduate credit only for work taken while enrolled as a graduate student or as a qualified senior undergraduate.

Graduate Credit for Southeastern Seniors

A Southeastern senior may register for graduate credit if he/she has at least a 3.2 cumulative GPA on previous undergraduate work attempted and lacks no more than 21 hours to complete the baccalaureate degree requirements, unless the department of the graduate program stipulates that the student must be closer than 21 hours from the baccalaureate degree. The student may earn no more than 12 graduate credit hours while completing baccalaureate degree requirements. Courses taken for graduate credit cannot be used to satisfy undergraduate requirements. The student retains undergraduate status until awarded the baccalaureate degree. The student shall maintain a minimum cumulative graduate GPA of 3.0 while in the concurrent program. In a regular semester, the student may register for no more than 15 hours, six of which may be at graduate-level. In a summer session, the student may register for no more than 10 hours, four of which may be at graduate-level.

Transfer Credit

After earning a minimum of twelve (12) hours of graduate credit at Southeastern, a student may appeal to the graduate coordinator/director or graduate faculty advisor for approval to apply for transfer credit from another university. That university must be an accredited institution that regularly grants the master's degree or an equivalent foreign institution. The student must be eligible for readmission to the institution from which credits are to be transferred and must have earned a minimum grade of "B" in each course to be transferred. No transfer credits may be used to remove a student from probation. No transfer credit may be earned for courses taken more than six years prior to the date of graduation. No more than one-third of the hours required for graduation may be transferred. The graduate coordinator/director or the graduate faculty advisor will recommend to the student's academic dean the courses to be transferred, and the academic dean will make the final determination as to whether any or all of the recommended courses will be accepted for transfer credit.

Off-Campus Credit

There is no limit to the number of graduate hours a student may earn in off-campus courses. The graduate coordinator/director or graduate faculty advisor will recommend to the student's academic dean the number of graduate hours earned in off-campus courses that will count towards a graduate degree.

Correspondence Study

No graduate credit is allowed for courses completed by correspondence study with any college or university.

Standardized Test for Admission

The appropriate standardized tests should be taken no later than March for Fall semester admission, September for Spring semester admission, and February for Summer admission. Scores are to be submitted to the Admissions Office. Information about the Graduate Record Examination, the Graduate Management Admission Test, and the Test of English as a Foreign Language is available from the Southeastern Office of Testing or from Educational Testing Service, P.O. Box 955, Princeton, NJ 08540. Applications to take any of these tests should be completed and forwarded to Educational Testing Service along with the examination fee at least one month in advance of the testing date.

Eligibility of Faculty and Staff for Graduate Degree

To be admitted to a degree program (any level) at Southeastern, an unclassified employee must secure the approval of their supervisor. All faculty members may become candidates for graduate degrees at Southeastern, provided the degrees are offered in a department other than the one in which the faculty member is employed. "Unclassified employees" includes all full-time faculty members holding rank and all twelve-month, unclassified personnel serving on the administrative staff.

Graduate Assistantships

A limited number of Graduate Assistantships are available to qualified graduate students. Assistantships are awarded at the discretion of the individual department heads, and assignments are made according to the needs of the University. Qualified graduate students may also be eligible for a limited number of graduate teaching fellowships. Graduate Assistants are appointed in accordance with the University of Louisiana System, Department of Civil Service, and Southeastern policies.

A Master's level graduate assistant is eligible for an assistantship or fellowship each semester during a period not to exceed twenty-four (24) consecutive months and a student pursuing a doctorate will be eligible to hold an assistantship or fellowship each semester during a period not to exceed forty-eight (48) consecutive months. Students in the Counseling Master's degree program, due to a sixty (60) hour requirement for the degree, are eligible for employment as a graduate assistant each semester during a period not to exceed thirty-six (36) consecutive months. In all cases the clock starts for consecutive months when the student is initially awarded an assistantship. A student receiving a university funded assistantship may receive a one-time one semester extension of the assistantship upon recommendation of the student's advisor and concurrence of the student's advisory committee, where applicable and upon notification to the student's academic dean. Any further extensions of university funded graduate assistantships must be approved by the student's academic dean. Externally funded assistantships shall be awarded according to the awarding agency or foundation guidelines, including the length of time a student can be awarded an assistantship.

Full-Time Status

For All Graduate Students, full-time status is defined as enrollment in at least nine (9) hours of course work or the equivalent during the fall and spring semesters, and at least six (6) hours during the Summer term. The full-time equivalent status for students receiving a graduate assistantship is 6 hours in the fall and spring semesters and 3 hours in the summer.

Course Loads

Graduate Students not holding Assistantships or Fellowships:

Maximum course load registration is 16 hours of course work during the Fall and Spring semesters and 9 during the Summer term.

Graduate Assistants and Teaching Fellows

Maximum course load registration is a combined total of 12 hours of graduate course work and/or undergraduate prerequisite course work during the Fall and Spring semesters and 9 hours during the Summer term.

Minimum course load registration is a combined total of 6 hours of graduate course work and/or undergraduate prerequisite course work during the Fall and Spring semesters and 3 hours during the Summer term.

All Graduate Students

Course load registration must be approved by the student's graduate coordinator/director or graduate faculty advisor. Appeals for increasing or decreasing the course load requirements should be made to the student's academic dean, whose decision is final.

Adding and Dropping Courses

A course may be added or dropped only during regular registration dates as indicated in the University Calendar. After registration is over, a student may withdraw from a class or resign from the University by completing the proper form(s) and obtaining the required signatures. Withdrawal/Resignation forms are available in the Records and Registration Office.

Combined Courses

Courses combining instruction of undergraduate and graduate students clearly differentiate the course requirements for both groups and require the graduate student to perform work at a substantially higher level of complexity and maturity.

The Graduate Grading System

A = 4 quality points per semester hour
B = 3 quality points per semester hour
C = 2 quality points per semester hour
D = 1 quality point per semester hour
F = No quality point value
P = Passing (See Pass-Fail Option)
I = Incomplete (See Incomplete Grades)
IP = In Progress (Thesis Courses Only)
W = Officially withdrawn as stipulated in the catalog

"D" and "F" Grades

No grade of "D" or "F" may be counted toward a degree.

A grade of "D" means unacceptable work, and all courses to be counted toward a degree in which a "D" is earned must be repeated with a grade of at least "C".

A grade of "F" means failure, and all courses to be counted toward the degree in which an "F" is earned must be repeated with a grade of at least "C."

No more than 6 hours of "C" grades may be counted toward a degree.

Incomplete Grades

A grade of "I" means incomplete and is given only for courses in which, because of circumstances beyond the student's control, cannot be completed during the semester in which the course is taken.

An "I" grade must be removed from a graduate student's transcript by the end of the next semester, including summers, unless extended by the student's academic dean. If the "I" grade is not removed, it will automatically be changed to an "F."

Pass-Fail Option

Thesis Courses

The grade of "P," with a maximum credit of 6 hours, shall be assigned to all Thesis courses, upon final approval of the Thesis by the faculty and by the appropriate authorities, and upon receipt of the final approved copy of the thesis in the Library.

Good Standing – Grade Requirement

A graduate student is in good standing and is considered to be making satisfactory progress if a 3.0 semester and 3.0 cumulative GPA is earned in all graduate courses.

Appeal and Change of Final Grade

After a final course grade is recorded in the Office of the Registrar, a change of grade must be approved in sequence by the instructor, the instructor's department head, and the academic dean of the college in which the course is offered. The online grade change request can be initiated through the instructor's LEONet Self Service. Only one electronic grade change request can be submitted on a student per course. A second grade change request would have to be completed on paper. If needed, a paper copy Change of Grade Form is available to the instructor in the Office of the Registrar. No student is ever to be in possession of a Change of Grade Form.

In the event of a contested final course grade, a student's written appeal of the grade must be submitted to the instructor within thirty (30) calendar days of final grades for the term being due, as reported in the current catalog. A letter of appeal and all materials to be considered should be provided to the instructor. The instructor will render a decision in writing within ten (10) working days or as soon thereafter as practical. If the appeal is not resolved with the instructor, within ten (10) working days, the student may submit a written appeal of the problem to the faculty member's department head, with a copy of all materials previously submitted to the instructor, with the instructor's decision. Likewise, if the department head's decision is in favor of the student, the faculty member may submit a written appeal to the department's academic dean within ten (10) working days. The department head will render a decision within ten (10) working days or as soon thereafter as practical. If the appeal is not resolved with the department head, within ten (10) working days, the student may appeal to the department's academic dean by submitting a written appeal and copies of materials previously submitted to the department head. The dean's decision will be rendered within ten (10) working days or as soon thereafter as practical. The academic dean's decision is final. (In the event the instructor is not available, the department head of the course may serve as proxy and work with the student to resolve the appeal.)

Probation, Suspension, Readmission, and Dismissal

Probation: Graduate students whose semester or term GPA and/or cumulative GPA in graduate courses falls below 3.0 shall be placed on probation. During their next semester or term of enrollment in Graduate Studies, students on probation *must* achieve a minimum 3.0 GPA for that semester/term and may not register for any courses on a Pass-Fail basis. Students will remain in Probation status as long as their cumulative GPA remains below 3.0.

Suspension: Students whose semester or term GPA falls below 3.0 for two semesters of enrollment, including summers, will be suspended from Graduate Studies.

Students suspended for the first time may not enroll in Graduate Studies for at least one semester following notification of Suspension status. A student may appeal the suspension prior to the beginning of a regular semester. If the appeal is granted, the student reenters on academic probation.

Attending the Summer Session While on Academic Suspension: Students are allowed to attend summer school during their suspension period; however, the student is not eligible for financial aid. Students who wish to attend the summer session during their suspension period do not need to reapply for admission to the University. At the end of the summer session, students *must* achieve a minimum 3.0 GPA for that semester/term. Students will remain on Probation as long as their cumulative GPA remains below a 3.0.

Readmission: After an absence of at least one semester, suspended students may apply for readmission by submitting a completed appeal form to the graduate coordinator/director or graduate faculty advisor. The graduate coordinator/director or graduate faculty advisor will submit the form, with a recommendation to readmit or not to readmit, to the department head. The department head will submit the form, with a recommendation to readmit or not to readmit, to the academic dean. The decision of the dean is final.

Upon a second suspension, students seeking readmission must follow the same procedure, except that the student will have been suspended from Graduate Studies for a minimum of one calendar year.

Dismissal: Graduate students with two suspensions must maintain a minimum 3.0 GPA each semester for the remainder of their graduate career, or be dismissed from Graduate Studies. This dismissal is final.

Graduate Faculty Advisor Committee

All Graduate Faculty in each degree-granting program will serve as members of the Graduate Faculty Advisory Committee. This Committee will have an opportunity to review the progress of all graduate students during meetings to be held at least once per year. Students deemed to be making insufficient progress toward their degrees will be notified of the problems identified by the committee, and will be given up to one semester to make improvements. How these problems are rectified will determine whether or not the student is permitted to continue in the program.

General Requirements for the Master's Degree Time Limitations

A student must complete all degree requirements in the graduate degree program within six (6) years immediately preceding the date on which the degree requirements are completed. An extension may be granted due to extenuating circumstances if approved by the Dean of the student's degree program.

Hours Required

A minimum of 30 semester hours of graduate course work is required in all master's degree programs. If a thesis option is chosen, the degree plan must contain at least twenty-four (24) hours of graduate course work and up to six (6) hours of thesis/research. If the non-thesis option is chosen, the degree plan must contain at least 30 hours of graduate course work. Each individual degree program has its own specific course requirements that students must follow.

Course Level

A student must earn at least one half of the course work in graduate courses for which there are no advanced undergraduate companion courses.

Student Advising

Each department has a graduate coordinator/director or assigned member of the graduate faculty who serves as advisor for all graduate students in the department. In some departments, additional graduate faculty members are used in advising graduate students. The graduate coordinator/director or graduate faculty advisor advises students about course selection, determines each student's specific degree plan, and may select the student's major professor and graduate faculty committee, schedule and administer comprehensive examinations, and supervise other matters related to graduate studies.

All graduate students must consult with the departmental graduate coordinator/director or assigned graduate faculty advisor before scheduling and registering for courses.

Degree Plan

The departmental graduate coordinator/director, graduate faculty advisor, or major professor will determine the degree plan for each graduate student in the respective departments. The degree plan *must* be finalized prior to a graduate student's registering for more than 12 hours of graduate credit. The degree plan will be formulated in accordance with the general regulations of the University, as well as those of the student's college and department. The degree plan will be filed in the Office of Records and Registration/Graduate Studies.

Effective Catalog

The degree plan shall be formulated according to the requirements published in the catalog in effect at the time of the student's admission to degree status or at any subsequent time during the six-year limit for completing the degree. A student may adopt a subsequent catalog only with the approval of the graduate coordinator/director or graduate faculty advisor, and of the student's academic dean. A student who does not attend Southeastern Louisiana University for one calendar year or longer must meet the requirements of the catalog in effect at the time of reentry.

Admission to Candidacy for the Master's Degree

All students seeking a master's degree must be admitted to candidacy for the degree. This entails the following:

1. Admission to candidacy for the master's degree provides official recognition that the student has attained a stage in advancement toward the degree.
2. Prior to admission to candidacy for the master's degree, students' satisfactory progress toward the degree will be attested by their:
 - a. Having achieved regular admission status.
 - b. Having completed 12 hours of graduate degree credit at Southeastern with a cumulative GPA of at least 3.0.
 - c. Having a degree plan approved by their graduate coordinator/director or graduate faculty advisor.
3. The application for admission for candidacy for the master's degree must be completed and signed by the student and by the graduate coordinator/director or graduate faculty advisor and retained in the student's degree program office.

Thesis

A student pursuing a thesis option Master of Arts or Master of Science degree is required to present a thesis. A master's thesis should demonstrate the student's ability to conduct independent research and to present the results of that research in a scholarly format. It should provide a significant contribution to knowledge in the discipline and reflect independent research of high quality.

The thesis defense shall include a presentation by the student, open to the public, and an oral examination on the thesis held before the Thesis Committee and other persons invited by the committee.

1. The student must register for departmental thesis courses for each semester the thesis is in progress and for each semester or term in which the student receives faculty assistance and/or uses University facilities and resources.

Graduate Studies

2. At the end of each semester in which a thesis is in progress, a grade of "IP" (In Progress) shall be assigned to the student. After final approval of the thesis by the Thesis Committee, and after the Thesis Committee certifies that the student has passed the defense, and after all copies of the thesis have been approved by the Office of Graduate Studies, a final grade of "P" shall be given.
3. The thesis format, style requirements, and other technical matters shall conform to the University's Theses and Dissertation Standards.
4. Following acceptance of the thesis by the Thesis Committee, the student will conduct a presentation open to the public and an oral defense of the thesis before the committee. After the defense, the Thesis Committee shall approve or reject the thesis. Students must make all corrections and changes in the thesis as agreed upon and recommended by the committee prior to final approval.
5. An original copy of the thesis on 20% cotton fiber paper must be submitted to the Office of Graduate Studies for binding. Upon return from the bindery, the bound copy will be housed in the Library permanently.
6. The University has an agreement with ProQuest Information and Learning Company (ProQuest) for the microfilming of all thesis and dissertations. Under this agreement, a copy of the completed thesis will be made and, if desired, the document will be copyrighted with the copyright in the name of the author. The microfilm will be published in the ProQuest Dissertations and Theses (PQDT) electronic database and the full document made available to subscribing institutions. Students will also have the option of purchasing bound copies directly from ProQuest.

Leave of Absence from Thesis

In certain circumstances, such as illness, pregnancy, or compelling economic pressures, a student may not be able to enroll in a thesis course on a continuous basis. The University will allow leaves of absence on an individual, non-discriminatory basis, provided the student receives written permission from the appropriate graduate coordinator/director or graduate faculty advisor and the student's academic dean.

The leave of absence policy does not affect in any manner the six-year time limit for completion of the degree.

Comprehensive Examination

All students must pass a comprehensive exam or its equivalent. A student should speak with their graduate coordinator about the comprehensive exam or equivalency policies.

Requirements for a Second Master's Degree

A student pursuing a second master's degree at Southeastern may, with approval of the degree committee, use credit from a previous master's Degree for up to a maximum of one-half of the total credit hours specified in the new degree plan. Credit will be given only for grades of "B" or better and must be approved by the new department head and academic dean.

Graduation Requirements for the Master's Degree

To be eligible to receive a master's degree, student's must:

1. Complete all requirements in their degree plan.
2. Have filed a completed Admission to Candidacy for the degree.
3. Have earned a cumulative GPA of 3.0 in all graduate work pursued, including their majors.
4. Have earned no more than 6 semester hours of "C" grades in course that count toward their degree.
5. Pass the comprehensive exam, except MBA students, who must earn a grade of "B" or better in MGMT 683, CSD students, who must earn a grade of "P" in CSD 770, or MSN students, who must earn a grade of "B" or better in all course work and earned a grade of "P" in NURS 699 or a grade of "B" or better in NURS 695.
6. Be recommended for the degree by the faculty committee, department head (or graduate director for Nursing students), and the student's academic dean.
7. Have filed the application for graduation.
8. Be approved for the degree by the student's academic dean.
9. Have settled all University accounts.

Individual degree programs have graduation requirements more stringent than the general requirements listed above. Additionally, students must meet all individual degree program requirements to be eligible for graduation.

Applying for Graduation

Students shall apply for graduation in the semester preceding the anticipated semester of graduation, according to the published deadlines.

Students who do not graduate in the anticipated semester of graduation must reapply for graduation and pay an additional application fee for each succeeding semester of application.

Students applying for graduation must:

1. Secure and complete the appropriate forms in the departmental office.
2. Pay the application fee.
3. Complete the online application procedure, including the exit survey.

Checklist for Graduate Students

The following represent the minimum steps required of all graduate students. Additional steps may be required by individual departments.

All Students

Southeastern Louisiana University

- Submit completed application, transcripts, fee payments, test scores, and any other required documentation, such as a valid teaching certificate, TOEFL scores, etc., prior to published deadlines.
- Meet with the graduate coordinator/director or graduate faculty advisor for admission status, degree plan, course scheduling, etc.
- Be admitted to candidacy for the degree.
- Pass the comprehensive exam or the equivalent.
- Apply for graduation within posted deadlines.
- Settle all financial accounts with the University.

Thesis Students

- Secure approval of thesis topic.
- Pass thesis defense.
- Upload thesis to Proquest
- Submit final copy on at least 20% cotton paper to the Office of Graduate Studies
- Secure final approval of thesis.

Certification-Only Alternative Teacher Certification Programs College of Education

Purpose

The purpose of the certification-only alternative teacher certification program is to offer an alternative teacher certification pathway for people seeking employment in positions requiring Louisiana teacher licensure.

Note: This program is for people who are not already certified and are seeking initial certification. For those who already have Louisiana state teaching certification and wish to add additional certifications, please contact the Graduate Coordinator for the Department of Teaching & Learning.

After successful completion of all requirements, students may be recommended for certification through the Louisiana Department of Education.

Admission Requirements

- Earned a bachelor's degree from a regionally accredited university with a cumulative GPA of 2.75 or higher on all undergraduate course work. In the case of a cumulative GPA that is 2.5-2.74, the candidate may interview for admission. For GPAs of less than 2.5, please consult program advisors.
- Passing scores on the Praxis II in the content area in which the candidate is seeking certification.
- Vocal or Instrumental Music: Those seeking admission for alternate certification in these areas must have at least a bachelor's degree in the content area. Those who do not have a degree in the content area must meet with the head of the Department of Music and Performing Arts for additional course work.
- Completed application for graduate admission to the University through the Office of Admissions for the non-degree Certification-Only Program.

Due to the coursework requirements typical of education courses, which frequently include clinical practice hours, the Department of Teaching & Learning considers fulltime enrollment to be 6 credit hours per semester for graduate students enrolled in programs through Teaching & Learning.

Selective Admission and Retention in Teacher Education (SARTE) Policies

A person seeking to become a teacher must maintain academic standards and demonstrate qualifications for successful teaching including satisfactory performance in clinical practice. Therefore, the College of Education at Southeastern Louisiana University reserves the right to recruit, admit and retain in the Professional Program in Teacher Education only those students who show evidence of being capable of performing in an acceptable professional manner. Enrollment in the professional program does not guarantee that a student will receive the degree of certification sought simply because they complete a number of courses or is in clinical practice for the required number of hours.

Certification requirements are specified by the State Legislature and/or the Board of Elementary and Secondary Education and coordinated by the State Department of Education. While programs at Southeastern are designed to meet the requirements of the State Department of Education, it is the State Department that grants certification. These requirements are subject to periodic modification, which may not occur at times appropriate for inclusion in the annual publication of the University catalog. It is the responsibility of the students to make periodic checks for such changes with their academic advisors and/or department head.

SARTE Status

To be considered for full SARTE status, an applicant must:

- Meet all requirements for admission to Graduate Studies.
- Make application for SARTE status during the first semester of enrollment by contacting the Dean's Office.
- Communicate with the Dean's Office to establish a certification file.
- Maintain a cumulative 3.0 graduate GPA with no grade below "C" and not more than one "C" grade.
- Receive a recommendation concerning educational professionalism from instructors of coursework for the first semester enrolled.

Determination of SARTE status will be determined following the posting of grades for the first semester of enrollment in the alternative certification program.

Ongoing screening of each student utilizing the standards of the Professional Program in Teacher Education will occur each semester of a student's enrollment.

Students demonstrating inappropriate behaviors for being successful in the teaching profession will be referred for a Professional Performance Review. A review may result in:

- No actions being taken but further observations.
- Recommendation of a Professional Improvement Plan (PIP) monitored by the Coordinator of the Teacher Development program.
- Referral to the SARTE Committee which may recommend:
 - Probation with specified conditions.
 - Temporary suspension from the Teacher Preparation Program with specified conditions.
 - Expulsion from the Teacher Preparation Program.

Electronic Assessment System

As part of the College of Education's focus on performance-based outcomes, students enrolled in the Teacher Preparation Program will submit products to the current electronic assessment system.

The products will allow students to demonstrate their understanding of how they meet the program outcomes; provide a process by which students can become reflective practitioners to foster continuous improvement; document growth in the program and demonstrate how the students meet the requirements for knowledge, skills, and professional and ethical behavior required by the state for initial certification.

Requirements for Student Teaching Residency

The Louisiana State Department of Education regulations for certification of teachers require that students complete their clinical practice teaching under the control and supervision of the institution in which they are enrolled. The Teaching Residency/Internship semesters must be then taken in the last Fall and Spring semesters of the program. To be eligible for teaching residency/internship, students must:

- Be enrolled as a major in a program plan that leads to Louisiana teaching certification.
- Apply for teaching residency/ internship by the deadline, which occurs one semester prior to teaching residency/internship experience. Please see the following sections describing teaching residency versus internship to determine the specific requirements for each. The Director of Clinical Practice and Residency assigns grade or subject and supervising teacher.
- Pass all Praxis exams appropriate to the content area prior to enrollment in the second semester of teaching residency/internship.
- Have full SARTÉ status.
- Have verification from the Graduate Coordinator that they are advised to take the residency/internship in the following semester.
- Receive approval from the Director of Clinical Practice and Residency.

In order to remain in the teaching internship, students are expected to meet and maintain desirable professional, physical and oral standards consistent with their positions in the public schools. A student who fails or is directed to withdraw from a teaching residency or internship must complete a one semester Professional Improvement Plan prior to a second residency/ internship experience. A student may not attempt a teaching residency/internship class a third time.

Once a student has entered either the residency or internship course sequence, the student may not switch from one to the other. Additionally, to be able to enroll in the second semester of the internship, students must

- Pass all required Praxis exams for the certification being earned.
- Earn a B or higher grade in the first semester of residency/internship.

To be recommended by Southeastern to the State Department of Education for full teacher certification, the following conditions must be met:

- All coursework must be completed
- All Praxis exam requirements for the certification must be passed.
- Completion of both semesters of teaching resident/internship with a grade of B or higher.

Teaching Residency

The teacher resident will follow the school district's calendar and will report to the school in the summer when teachers arrive for the school year (or December for the spring teacher resident). This will be prior to the first day of class on the University academic calendar. The teacher resident reports at the designated time for school district teachers each day and will remain at the school for at least 60% of the instructional time for the first semester. Teaching residency for the second semester is 100% of the instructional time, and the teacher resident will remain at the school until regular dismissal of teaching personnel. The hours involved in the second semester teaching residency will be approximately 7:00 a.m. to 3:30 p.m. (i.e. whatever the school hours are for the residency school), Monday through Friday.

The teacher resident will be assigned to complete their teaching residency away from the campus community; therefore, teacher residents must expect that they may be asked to make arrangements to be at the assigned teaching site for part of the time during their first semester and full time during their second semester of their residency. The Director of Clinical Practice and Residency will make the assignments for each teacher resident. The assignment is made with the cooperation of the hosting school district and school. While placements for teaching residents will be made as close to their official address as possible, some may have to travel to be able to reach a site with the appropriate placement requirements for the certification and hosting mentor teacher.

It is recommended that Certification-Only students take no more than two additional courses during their teaching residency. It is more important to ensure success in the courses taken than a speedy completion of the program.

Practitioner License

Students enrolled in the Certification-Only Alternate Program may be eligible to receive a Practitioner License (PL) 2 through the Louisiana Department of Education. The PL allows students to teach while pursuing alternate certification. The PL may be issued for one school year, renewed annually, and held for a maximum of three years while completing the program. To be eligible for renewal, students must remain enrolled in the program and complete nine hours each year, unless fewer hours are needed to complete the program. Please consult the State Department of Education website, the school district certification office, and / or the Dean's Office for current policies regarding the PL.

Internship Year

Students who hold a PL and are employed in a position meeting all requirements listed below, may complete two semesters of internship in lieu of the Teaching Residency. The internship should be completed as close to the end of the program as possible. Internship must be completed in a school approved by Southeastern. Principals at participating schools must sign an Internship Agreement with Southeastern.

Graduate Studies

It is highly recommended that people wishing to complete the internship have worked at least one semester at the school prior to beginning the official internship semesters. This will ensure that there is time to locate and train an appropriate mentor teacher and supports at the employing school for a successful teaching internship experience.

To qualify for an internship, a student must meet all of the requirements for the Teaching Residency and have:

- Successfully completed at least one semester of coursework at Southeastern.
- By the deadline, complete application for the internship the semester prior to the planned internship semester. Application for starting the internship in the Fall semester is made during the previous Spring semester, unless the intern is beginning the program during the Summer semester. Students beginning the program during the Summer semester who wish to intern in the consecutive Fall semester will apply by the deadline of their first semester of enrollment and must already be teaching at the school where they wish to intern. Application for starting the internship in the Spring semester must be made during the prior Fall semester. Please consult the Office of Clinical Practice and Residency for current deadlines.
- Have written recommendation from all the candidate's methods instructors verifying readiness for the teaching internship.

Additionally, the internship school and teaching intern will provide the Office of Clinical Practice and Residency:

- Verification that the school has a state approved classification.
- Verification that the school is accredited by the regional accrediting agency.
- Verification that the principal/assistant principal has certification in Principalship and training in supervision.
- Verification that the principal/assistant principal has served in this role for a minimum of three years.
- Signed Principal/Assistant Principal Internship Agreement form.
- Verification that a mentor, teacher, who has taught a minimum of three years in the area of the intern's certification will be assigned by the principal/assistant principal to assist the intern.
- Verification of minimum class size in the area of certification.
- Verification that at least 51% of the intern's teaching assignment is in the certification area in which the intern is seeking certification.
- Evidence of cultural diversity within the school population.
- A copy of the Signed Internship Agreement form.
- A copy of the contract or employment agreement after the internship has been approved.
- A copy of the teaching schedule signed by the principal/assistant principal.

The teaching intern will not be allowed to enroll in the teaching intern course if teaching position does not meet all of the requirements.

Additionally, students will not be allowed to enroll in the second semester of the internship until all required Praxis exams for certification have been completed.

Note: The candidate is responsible for submitting the above documents the semester prior to beginning the internship. A complete packet should be submitted rather than item by item. Authorization to register for an internship will not be granted until all documents have been submitted.

Curriculum for Alternative Certification

Please consult your advisor for the sequence of coursework.

Southeastern Louisiana University
Athletic Training (ATHT)
College of Nursing and Health Sciences
Leading to the Degree of Master of Science (M.S.)
Effective January 2022

Certified Athletic Trainers are healthcare professionals who collaborate with other medical professionals to optimize activity and participation of patients and athletes. Athletic training encompasses the prevention, diagnosis, and intervention of emergency, acute, and chronic medical conditions involving impairment, functional limitations and disabilities. Athletic training is recognized by the American Medical Association as a healthcare profession. The mission of the MSAT is to provide a comprehensive and progressive educational and clinical foundation to prepare the graduate for a career in athletic training. Through exposure to and participation in the didactic and clinical education program, the athletic training student becomes competent and proficient in the following areas of athletic training: Prevention; Clinical Evaluation and Diagnosis; Immediate Care; Treatment, Rehabilitation, and Reconditioning; Organization and Administration, and Professional Responsibility.

Purposes

The purposes of the M.S. in Athletic Training are to:

1. Provide the didactic educational foundation to prepare entry-level athletic training professionals.
2. Engage students in clinical experiences allowing them to develop practical skills.
3. Provide a foundation upon which students develop an understanding of research and evidence-based practice.

Admission Requirements

To be considered for admission to the graduate program in Athletic Training, an applicant must:

1. Initially satisfy all Southeastern Louisiana University's graduate admission requirements (Consult the Southeastern General Catalog for admission requirements).
2. Complete a Bachelor's degree with a minimum of a 2.50 GPA.
3. Completion of prerequisite undergraduates in biology (lecture + lab, 4 hours), human anatomy & physiology (lecture + lab, 8 hours), biomechanics or physics (3 hours), chemistry (lecture + lab, 4 hours), exercise physiology (3 hours), motor learning/development (3 hours), nutrition (3 hours), psychology (3 hours), and statistics (3 hours). A grade of C or higher is required in all prerequisite courses.
4. Submission of an application packet including (a) letter of intent stating why you want to pursue the profession of athletic training and why you are a good fit for the Master of Science in Athletic Training degree program; (b) undergraduate transcripts; (c) appropriate vaccinations; and (d) three (3) letters of recommendation (two letters from athletic trainers [one from the athletic trainer who supervised your athletic training observation experience] and one letter commenting on your character/personality/demeanor).
5. Completion of a minimum of 40 hours of observation of athletic training under the direct supervision of a BOC credentialed athletic trainer (or international equivalent).
6. Interviews with the Athletic Training Program faculty may be required.

Notes: Meeting the above requirements does not guarantee program admission. Applicants must submit application materials by a deadline designated by the program. The program's Admission committee considers applicants' materials and informs applicants of the decision regarding program admission. All students must submit information for a criminal background check to an agency associated with the university prior to admission and pay for the background check. Students must participate in a drug screening program upon entry and during each semester. Lab fees are charged for some courses in the program.

Requirements for Degree

To receive the M.S. in Athletic Training, the student must:

1. Complete 60 credit hours of required coursework as outlined below, earning the grade of "C" or higher in each course.
2. Earn a cumulative graduate school GPA of 3.0 or higher, and a grade of "C" in no more than 2 courses.
3. Complete a capstone research project and earn a passing grade for both the written project and presentation.

Retention and Progression Requirements

Cohort Progression: Students are admitted into the M.S. in Athletic Training as a cohort each summer. Students must enroll in all required courses as indicated in the degree, and pass all courses with a grade of "C" or higher. Students who do not meet this requirement will be dismissed from the program, and will be ineligible to register for further graduate Athletic Training courses.

Grade Retention Policy: Any graduate student, regardless of degree status, who makes a grade of "D" or "F" in any required course, or more than 2 "C" grades in required courses will be dismissed from the M.S. in Athletic Training graduate program, and will be ineligible to register for further graduate Athletic Training courses. A student dismissed from the program because of extenuating, non-academic reasons may appeal for readmission.

Performance standards of the M.S. in Athletic Training program are listed below. The program expects that all students possess and demonstrate the skills, attributes, and qualities set forth below, with or without reasonable dependence on technology or intermediaries. Students failing to meet these standards are subject to dismissal.

- a. The ability to communicate effectively and sensitively with patients, athletes, faculty and staff, including individuals from different cultural and social backgrounds.
- b. Sufficient neuromuscular control, sensory function, and coordination to accurately perform appropriate physical skills, as well as use equipment and materials during the evaluation and treatment of patients and athletes safely and efficiently.
- c. The mental capacity to assimilate, analyze, synthesize, and integrate concepts and problem solve to formulate assessment and therapeutic judgements, and to be able to distinguish deviations from the norm.
- d. Affective interpersonal skills, demeanor, and ethical behavior that relate to professional functions and quality patient care.

Graduate Studies

- e. Flexibility and the ability to adjust to changing situations and uncertainty in clinical situations.
- f. The capacity to maintain composure and continue to function well during periods of high stress.
- g. The perseverance, diligence, and commitment to complete the requirements of the athletic training, education program as outlined and sequenced.

Biological Sciences
College of Science and Technology
Leading to the Degree of Master of Science (M.S.)

Purposes

The purposes of the Department of Biological Sciences are to:

1. Provide a broad academic program on both the undergraduate and graduate levels for students of diverse biological interests.
2. Render various services to the community, schools, educational groups, business organizations, and all other interested groups within the geographical locale of Southeastern Louisiana University.

Admission Requirements

To be considered for regular admission to the Master of Science Degree program in Biological Sciences, an applicant must:

1. Meet all University admission requirements.
2. Satisfactorily complete at least thirty (30) semester hours of undergraduate biology courses.
3. Submit transcripts documenting a 3.0 undergraduate grade point average.
4. Submit two letters of recommendation, a curriculum vita, and a letter of intent to the Biological Sciences Graduate Coordinator, following procedures outlined on the department's web page.

Requirements for the Degree (Thesis Option)

1. All thesis students must pass the written biology entrance exam with a score of 70% or higher in the first semester of enrollment. Students have two chances to pass the exam. If a student does not pass the exam in the second attempt, he/she must switch to the non-thesis master's degree option.
2. All thesis students must have a thesis advisor.
3. All thesis students must choose a thesis committee consisting of the thesis advisor and two graduate faculty members from the department. Additional committee members from other departments or institutions may sit on the committee with the approval of the thesis advisor and/or graduate coordinator.
4. All thesis students must pass an oral exam in front of a committee consisting of the thesis committee and one or more additional faculty members from the department by the end of the second semester. Students have two chances to pass the exam. If the student does not pass the exam in the second try, he/she must switch to the non-thesis master's degree option or leave the program.
5. All thesis students must complete thirty hours of approved courses in Biological Sciences, including: six hours of Thesis (GBIO 770) and at least 12 hours in courses at the 600-level, which must include GBIO 601: Professional Aspects of Biology (one hour) and two or more hours (up to four) of GBIO 691: Graduate Seminar. (NOTE: 50% or greater of the total hours of all course work must be at the 600-level, excluding hours from GBIO 770); not more than 10 hours of transfer credit; and not more than two hours of Research Problems (GBIO 660). Graduate level courses at Southeastern outside of the biology department, can be taken with the approval of the Graduate Coordinator. All credit hours earned in the graduate degree program must be completed within six years with a cumulative grade point average of 3.0 in all graduate work pursued and not more than 6 hours with grades of "C" in the degree plan (grades below "C" are not acceptable for graduate credit).
6. All thesis students are encouraged to gain teaching experience while in the program. Biology Teaching Assistants are required to take GBIO 600 each of their first two semesters (maximum two hours credit). This requirement may only be reduced with the consent of the graduate coordinator and the Department Head.
7. All thesis students are required to present an oral defense of their thesis project that demonstrates independent research and competency in scholarly activity. The thesis must be approved by the student's thesis committee.
8. Requirements for awarding of the degree include the recommendation of the student's thesis committee, the Graduate Coordinator, the Department Head, and the Dean of the academic college, and completion of necessary paperwork including, but not limited to, the Degree Plan, the Application for Candidacy, and the Application for Graduation.

More detailed information on all of these requirements is listed on the departmental web page.

Requirements for the Degree (Non-Thesis Option)

1. All non-thesis students must complete thirty-six hours of approved courses in Biological Sciences, including four hours of Non-Thesis Research Problems (GBIO 661) and GBIO 601: Professional Aspects of Biology, and one or more hours (up to four) of GBIO 691: Graduate Seminar, with grades of "B" or better, at least one-half of total graduate credit in 600-level courses (i.e., no more than 50% of total course load can be in 500-level courses), and no more than 10 hours of transfer credit. Students may take up to eight hours of approved courses from other departments at Southeastern. All credits earned in the graduate degree program must be completed within six years. A cumulative grade point average of 3.0 in all graduate courses and not more than six hours with grades of "C" in the degree plan (grades below "C" are not acceptable for graduate credit). All course work must be approved by the Non-Thesis Coordinator and Graduate Coordinator.
2. All non-thesis students must arrange with a graduate faculty advisor to conduct a research project in conjunction with GBIO 661 (Non-Thesis Research Problems). The student must submit a brief research proposal for the project and the Non-Thesis Research Agreement form to the Non-Thesis Advisory Committee for approval before beginning the project. The research project must be completed no later than one semester before graduation.
3. All non-thesis students must submit a research paper based on the non-thesis research project conducted in GBIO 661. The graduate faculty advisor and the Non-Thesis Advisory Committee must approve the completed project and research paper before the departmental seminar can be scheduled.

Graduate Studies

4. All non-thesis students must present a seminar to the department describing the non-thesis research project. Students must contact the Non-Thesis Advisory Committee to arrange a seminar date and the seminar must be approved by the Non-Thesis Advisory Committee. Students have one opportunity to repeat the seminar in the event of an unsatisfactory performance prior to dismissal from the program.
5. All non-thesis students must pass a comprehensive oral or written exam based on their graduate course work after completing 30 credit hours or in their last semester. The exam is administered by three to four faculty members from whom the student has taken courses. To pass the exam, students must receive an overall average of 'satisfactory.' Students have two chances to pass the exam. Students not passing the exam on the second attempt will be dismissed from the program. Thesis students who have completed the written and oral entrance exams prior to switching degree plans to the non-thesis option are also required to pass the non-thesis comprehensive exam, i.e., prior oral and written exams do not exempt students from taking and passing the non-thesis comprehensive exam.
6. Requirements for awarding of the degree include the recommendation of the student's thesis committee, the Graduate Coordinator, the Department Head, and the Dean of the academic college, and completion of necessary paperwork including, but not limited to, the Degree Plan, the Application for Candidacy, and the Application for Graduation.

Southeastern Louisiana University
Business Administration
College of Business
Leading to the Degree of
Master of Business Administration (M.B.A.)

Purpose

The purpose of the Master of Business Administration curriculum is to prepare students to assume positions of leadership and responsibility in administrative positions in a globally competitive marketplace. The curriculum is designed to enhance the skills, knowledge, and analytical ability of the MBA students.

Objectives

The Master of Business Administration is offered as an interdisciplinary program by the various departments in the College of Business. Specific objectives of the MBA program are as follows:

1. To provide students with a common body of knowledge that is applicable to the management of private, public, and non-profit organizations.
2. To enhance student skills in the ability to identify problems, obtain relevant information, analyze alternatives, and implement appropriate solutions.
3. To provide students with experience in integrating the concepts and techniques from the various functional areas of business and applying them to organization-wide problems.
4. To promote student understanding of the problems and opportunities afforded by the various environmental forces confronting management in all types and sizes of organizations.

Admission Requirements

Only those students whose past academic performance and aptitude indicate promise of success will be admitted to the Master of Business Administration Program. Applicants to the Master of Business Administration program must meet the following criteria:

A bachelor's degree or higher from an accredited college or university, and one of the following:

1. A minimum cumulative grade point average (GPA) of 2.75 (4.0 scale) for all undergraduate work attempted,
2. **or** a minimum cumulative GPA of 3.0 (4.0 scale) on all upper-level coursework attempted,
3. **or** a minimum composite score of 1,100 based on the formula of (upper-level GPA x 200) + (GMAT or GRE) = 1,100. Either the Graduate Management Admission Test (GMAT) or its equivalent on the Graduate Records Examination (GRE) – using the ETS Published "GRE Comparison Table for Business Schools" will be considered.

International students must also demonstrate a minimum TOEFL score of 525 paper-based, 195 computer-based, or 75 internet-based, or IELTS score of 6.0 overall band.

General MBA Graduate Course Requirements

Completion of 33 semester hours of graduate work with a cumulative "B" average.

Required Courses (24 hours)

Course	Description	Hours
Accounting 625	Accounting for Business Decisions	3
Economics 613	Managerial Economics	3
Finance 653	Financial Policies I	3
Management 663	Organization Theory and Behavior	3
Management 683	Business Policy and Strategy (taken in last 12 hours)	3
Marketing 673	Marketing Administration	3
Operations Mgmt & Info Systems 600	Statistical Methods in Business and Economics	3
Management 695	Special Topics in Management	3
Total		24

General Elective Courses (9 hours)

Elective courses must be approved by the MBA Director and must be 600-level. A student may select one 3-hour elective course at the 500-level, provided the student has not taken the undergraduate equivalent of a particular 500-level course. No more than two 3-hour elective courses may be taken in a single discipline.

Total Required Hours for the MBA Degree – 33

Degree candidates may not have earned more than six (6) semester hours of graduate work with a grade of "C". Further, no grade below "C" will be accepted for graduate credit. Where a grade below "C" has been obtained, the student must repeat the course (in the case of a required course) or, in the case of an elective course, either repeats that course or chooses a new elective to study. If a student chooses to repeat a course in which a "C" has been earned, the same course may be repeated only once, and approval by the MBA Director must be obtained. In all cases,

the course in which the grade of "C" has been obtained will remain on the student's transcript and will be computed in the student's cumulative GPA.

Concentration in Accounting & Financial Analysis

Students can complete the Master of Business Administration program while pursuing a concentration in accounting and financial analysis. This concentration is designed to benefit students with different backgrounds who wish to achieve one or more of the following educational objectives:

- Students with an accounting background may wish to take courses to prepare for licensure as a CPA and a career in public accounting, industry, or government.
- Students with a finance background can further refine finance tools or gain new accounting skills.
- Students without accounting or finance backgrounds can select courses that will help them gain confidence to assume roles that use financial information for decision making.

Required Courses (21 hours)

- ACCT 625: Accounting for Business Decisions 3 hours
- ECON 613: Managerial Economics 3 hours
- FIN 653: Financial Policies I 3 hours
- MGMT 663: Organizational Theory and Behavior 3 hours
- MGMT 683: Business Policy and Strategy (taken in last 12 hours) 3 hours
- MRKT 673: Marketing Administration 3 hours
- OMIS 600: Statistical Methods in Business and Economics .. 3 hours

Students who pursue a concentration in accounting and financial analysis will select their electives from the following set of courses (12 hours):

- Accounting 500: Accounting for Govt & Not-for-Profit 3 hours
- Accounting 506: Accounting Theory 3 hours
- Accounting 542: Advanced Tax Accounting 3 hours
- Accounting 544: Valuation and Financial Analysis 3 hours
- Accounting 595: Special Topics 3 hours
- Accounting 620: Special Topics..... 3 hours
- Accounting 661: CPA Prep Review 3 hours
- Accounting 695: Special Topics 3 hours
- Finance 551: Investment Analysis 3 hours
- Finance 654: Financial Policies II 3 hours
- Finance 695: Special Topics 3 hours

Concentration in Managing Innovation & Technology

Students can complete the Master of Business Administration program while pursuing a concentration in managing innovation and technology. This concentration is designed to benefit students with different backgrounds who wish to develop leadership skills and strategic thinking to guide innovation and complex business decisions.

Completion of 33 semester hours of graduate work with a cumulative "B" average.

Required Courses (24 hours)

- ACCT 625: Accounting for Business Decisions 3 hours
- ECON 613: Managerial Economics 3 hours
- FIN 653: Financial Policies I 3 hours
- MGMT 663: Organizational Theory and Behavior 3 hours
- MGMT 683: Business Policy and Strategy (taken in last 12 hours) 3 hours
- MGMT 695: Special Topics 3 hours
- MRKT 673: Marketing Administration 3 hours
- OMIS 600: Statistical Methods in Business and Economics .. 3 hours

Students who pursue a concentration in technology and innovation will take the following courses (9 hours)

- ET 620: Quality Management and Control 3 hours
- CMPS 621: Cybersecurity Policy and Infrastructure..... 3 hours
- CMPS 689: Managing the Software Project Lifecycle 3 hours

Graduate Credit for Southeastern Seniors

A Southeastern senior may register for graduate credit if he/she has at least a 3.2 cumulative GPA on previous undergraduate work attempted, lacks no more than 9 hours to complete the baccalaureate degree requirements, and has taken the GMAT and received a minimum score of 430. The student may earn no more than 6 graduate credit hours while completing baccalaureate degree requirements. Courses taken for graduate credit cannot be used to satisfy undergraduate requirements. The student retains undergraduate status until awarded the baccalaureate degree. The student shall maintain a minimum cumulative graduate GPA of 3.0 while in the concurrent program. In a regular semester, the student may register for no more than 15 hours, six of which may be graduate course work. Students in this category will have to be advised by the MBA Director and will only be able to register during regular registration.

Transfer Credit

After having earned a minimum of 12 hours of graduate credit at Southeastern, a student may appeal to the graduate coordinator/director for approval to apply for transfer credit from another university. That university must be an accredited institution that regularly grants the master's degree or an equivalent foreign institution. The student must be eligible for readmission to the MBA program at the institution from which credits are to be transferred and must have earned a minimum grade of "B" in each course to be transferred. No transfer credits may be used to remove a student from probation. No transfer credit may be earned for courses taken more than six years prior to the anticipated date of graduation. No more than six hours required for graduation may be transferred. The graduate advising coordinator or director will recommend to the Graduate Studies the courses to be transferred, and the Dean will make the final determination as to whether any or all of the recommended courses will be accepted for transfer credit. Courses completed by distance learning must be from an AACSB accredited college or university.

Course Loads

Full-time students requesting to take more than 12 hours in a regular semester (fall or spring) or 9 hours in summer must receive approval from the Director of the MBA Program. In all cases, MBA students must be in their last 12 hours to schedule the capstone course (MGMT 683) and may not take more than 12 hours that semester.

Guest Student Policy

Enrollment in all MBA courses is limited to those formally admitted to the MBA Program with the following exception: Students who are in good standing in another MBA program from an AACSB school are allowed to take courses if seats are available. Students must obtain permission from their home institution, submit a Verification of Good Standing from the MBA Program they are currently enrolled in, and submit an official transcript. Guest Students are limited to 6 hours of credit from Southeastern's MBA Program.

Note: Eligibility to take courses does not guarantee that courses will be offered or are open. Class sizes are limited, and Southeastern students are given priority in class enrollment.

Executive MBA Program

The Executive MBA program is a 17-month general management program leading to the MBA degree. The program is designed to equip practicing managers and businesspersons with the knowledge and executive skills that will lead to professional success.

The curriculum covers the general business subjects required for the MBA degree; however, it is not restricted by traditional academic delivery. Instead, topics are presented in modules.

The sequence of eleven EMBA graduate courses begins each January, and degree completion is scheduled approximately seventeen months later. The EMBA class will have an opportunity to determine the electives to be offered.

The curriculum incorporates varied instructional methods to achieve an optimal blend of theory and real-world application. Additionally, classes are delivered in class and online to create a balanced program that allows participants to continue their careers while they study to master a broad range of functional and managerial skills.

Admission to the EMBA program is selective and is awarded based on several criteria. Factors considered for acceptance into the program include:

- Bachelor's degree or equivalent from an accredited college or university
- Score on the GMAT
- Professional experience (Five years or more of continuous, full-time, successful experience is preferred)
- Recommendation by the Graduate Business Programs Faculty Advisory Committee

Concentration in Health Care Management

Students can complete the EMBA program while pursuing a concentration in health care management. This concentration will prepare students to manage and lead in the health care environment by pursuing more specialized health-related interest through a range of elective opportunities.

ACCT 625: Accounting for Business Decisions	3 hours
ECON 613: Managerial Economics	3 hours
FIN 653: Financial Policies I	3 hours
MGMT 663: Organizational Theory and Behavior.....	3 hours
MGMT 683: Business Policy and Strategy (taken in last 12 hours).....	3 hours
MRKT 673: Marketing Administration	3 hours
OMIS 600: Statistical Methods in Business and Economics	3 hours
MGMT 695: Special Topics in Management.....	3 hours

Students who pursue a concentration in health care management will take the following courses:

MGMT 650: Health Care Law.....	3 hours
MGMT 656: Advanced Health Care Administration	3 hours
FIN 650: Health Care Financial Management.....	3 hours

Graduate Business Programs Faculty Advisory Committee

The Graduate Business Programs Faculty Advisory Committee consists of department and graduate faculty representatives. The committee approves graduate admission standards and changes in the MBA/EMBA curriculum (with appropriate input from departmental curriculum committees where specialized concentrations are concerned). After each semester, the committee shall determine whether or not each student will be permitted to continue in the MBA/EMBA program.

Child Life (CL)
College of Nursing and Health Sciences
Leading to the Degree of Master of Science (M.S.)

Child Life Program Overview

The purpose of the Child Life program is to prepare students to become advanced practitioners in Child Life by providing rigorous study of Child Life theory and application including assessment, therapeutic intervention, and multi-disciplinary collaboration. The Child Life program aims to provide high quality educational experiences that will further students' opportunities for placement in a range of relevant practicum and internship sites including competitive hospital-based Practicum and Internship programs, and prepare students to be successful on the National Child Life Certification Exam maintained by the Association of Child Life Professionals (ACLP).

Requirements for Admission

To be considered for admission to the graduate program in Child Life, an applicant must:

1. Initially satisfy all Southeastern Louisiana University's graduate admission requirements (Consult the Southeastern General Catalog for admission requirements).
2. Complete a Bachelor's degree with a minimum of a 3.25 GPA on the last 60 hours of course work.
3. Submit a portfolio that includes:
 - a. A personal statement (1500-word limit) including background information about professional / volunteer experiences, professional goals, and future plans.
 - b. A resume' that includes full name, address, phone numbers, email address, academic experiences, prior related work experiences, degrees held, honors, awards, special interests, and other appropriate information.
 - c. Two confidential letters of recommendation: One from the academic setting on one from the clinical setting. Confidential letters of recommendation must be sealed and signed by the recommender or submitted directly from the email address of the recommender.
 - d. Verification of the completion of at least 100 hours of volunteer or paid work experience with hospitalized children (ages birth to 18 years).
4. Completion of all prerequisite courses including:
 - a. Lifespan Development
 - b. Family Development
 - c. Research Methods
 - d. Statistics

Program Application Admission Deadlines

For Fall Admission, all application materials must be submitted to the Graduate Coordinator no later than August 15. For Spring Admission, all application materials must be submitted to the Graduate Coordinator no later than December 15. For Summer Admission, all application materials must be submitted to the Graduate Coordinator no later than May 15. Upon evaluation of application materials, qualified applicants will be invited to participate in an interview. Interviews may be on campus or held via video conferencing.

Admission Notification

Admission to the Child Life program is selective and requires a favorable evaluation by the Child Life Program Admissions Committee. After completion of the application process, applicants will be notified that they are either accepted or not accepted for admission.

Requirements for Degree

Student enrolled in the program will be required to complete all coursework, earning no less than a "B" in all courses; a passing score on the comprehensive examination; and the satisfactory completion of a master's thesis if the thesis is chosen.

Requirements for Program Retention and Progression

1. A student must earn a "B" in each course in the program to be eligible for progression.
2. A student who earns a grade below a "B" will be placed on probation and must repeat the course and earn at least a "B." If a grade below a "B" is earned in the subsequent course, the student may be dismissed from the program.
3. A student who earns more than two grades of "W" in the program is not eligible for progression. A student may appeal progression for extenuating circumstances. "W" grades received as a result of an approved resignation from the University are not included in this calculation.
4. A student who earns a "D" or "F" in any course taken for graduate credit may be ineligible for further graduate work. A student who earns a "D" or "F" because of extenuating, non-academic circumstances may appeal for readmission.
5. The College of Nursing and Health Sciences reserves the right to investigate situations which may affect the student's ability to function. In addition, a physician's release may be required. Students who have health conditions that may prevent their meeting the objectives of

the program or a course in the program or that may cause potential injury to the student or the patients for whom they care, will be required to have a personal interview with the Department Head or Dean or with an appropriate College of Nursing and Health Sciences committee.

6. Drug testing will be required.
7. Federal background check, including finger printing will be required.
8. Students enrolled in practicum and internship courses are required to meet other agency requirements.

Curriculum

There are four curricular paths students may choose from:

Option One: BS to MS Accelerated Program with Thesis. This option is available for professional who are currently Certified Child Life Specialists, or students who have completed their undergraduate degree at Southeastern majoring in Human Sciences with a concentration in Child Life. Students must have also completed both a Practicum and Internship during their 120-hour undergraduate degree plan. This option requires the satisfactory completion of a thesis.

HSCI 678: Advanced Research Methods in the Health Sciences.	3 hours
CL 630: Advanced Medical Play and Psychosocial Interventions.	3 hours
CL 521: Advanced Child Development.	3 hours
CL 602: Developmental Perspectives on Illness and Health.	3 hours
CL 504: Child Life Theory and Family-Centered Care.	3 hours
CL 608: Family Dynamics and Psychosocial Interventions.	3 hours
CL 522: Advanced Adolescent Development.	3 hours
CL 514: Child and Family Perspectives on Death, Dying, & Loss.	3 hours
CL 618: Communication Skills in Clinical and Therapeutic Settings.	3 hours
CL 628: Child Life Administration and Program Development.	3 hours
CL 770: Thesis.	6 hours
Total	36 hours

Option Two: BS to MS Accelerated Program, Non-Thesis. This option is available for professionals who are currently Certified Child Life Specialists, or students who have completed their undergraduate degree at Southeastern majoring in Human Sciences with a concentration in Child Life. Students must have also completed both a Practicum and Internship during their 120-hour undergraduate degree plan. This option does not require a thesis.

HSCI 678: Advanced Research Methods in the Health Sciences.	3 hours
CL 630: Advanced Medical Play and Psychosocial Interventions.	3 hours
CL 521: Advanced Child Development.	3 hours
CL 602: Developmental Perspectives on Illness and Health.	3 hours
CL 504: Child Life Theory and Family-Centered Care.	3 hours
CL 608: Family Dynamics and Psychosocial Interventions.	3 hours
CL 522: Advanced Adolescent Development.	3 hours
CL 514: Child and Family Perspectives on Death, Dying, & Loss.	3 hours
CL 618: Communication Skills in Clinical and Therapeutic Settings.	3 hours
CL 628: Child Life Administration and Program Development.	3 hours
Approved Electives.	6 hours
Total	36 hours

Option Three: Traditional MS Program, with Thesis. This option is available for students who have a Bachelor's degree in a related area, and have completed all prerequisite courses. This option requires the satisfactory completion of a thesis.

HSCI 678: Advanced Research Methods in the Health Sciences.	3 hours
CL 630: Advanced Medical Play and Psychosocial Interventions.	3 hours
CL 521: Advanced Child Development.	3 hours
CL 602: Developmental Perspectives on Illness and Health.	3 hours
CL 504: Child Life Theory and Family-Centered Care.	3 hours
CL 608: Family Dynamics and Psychosocial Interventions.	3 hours
CL 522: Advanced Adolescent Development.	3 hours
CL 514: Child and Family Perspectives on Death, Dying, & Loss.	3 hours
CL 618: Communication Skills in Clinical and Therapeutic.	3 hours
CL 622: Child Life Practicum.	3 hours
*CL 624: Child Life Internship or HSCI 580 Prior Learning Assessment in Health Science.	12 hours
CL 628: Child Life Administration and Program Development.	3 hours
CL 770: Thesis.	6 hours
Total	51 hours

*To be eligible for the Child Life certification exam, students must complete a 12-credit hour (600 clock hours) Child Life Internship. Placements are dependent on formal acceptance into a hospital-based Child Life internship program, and are not guaranteed by the University.

Option Four: Traditional MS Program, Non-Thesis. This option is available for students who have a Bachelor's degree in a related area, and have completed all prerequisite courses. This option does not require a thesis.

HSCI 678: Advanced Research Methods in the Health Sciences.	3 hours
CL 630: Advanced Medical Play and Psychosocial Interventions.	3 hours
CL 521: Advanced Child Development.	3 hours
CL 602: Developmental Perspectives on Illness and Health.	3 hours

Graduate Studies

CL 504: Child Life Theory and Family-Centered Care.	3 hours
CL 608: Family Dynamics and Psychosocial Interventions.	3 hours
CL 522: Advanced Adolescent Development.	3 hours
CL 514: Child and Family Perspectives on Death, Dying, & Loss.	3 hours
CL 618: Communication Skills in Clinical and Therapeutic Settings.	3 hours
CL 622: Child Life Practicum.	3 hours
*CL 624: Child Life Internship or HSCI 580 Prior Learning Assessment in Health Science.	12 hours
CL 628: Child Life Administration and Program Development.	3 hours
Approved Electives.	6 hours
Total	51 hours

*To be eligible for the Child Life certification exam, students must complete a 12-credit hour (600 clock hours) Child Life Internship. Placements are dependent on formal acceptance into a hospital-based Child Life internship program, and are not guaranteed by the University.

Communication Sciences and Disorders (CSD)
College of Nursing and Health Sciences
Leading to the Degree of Master of Science (M.S.)

Purposes

The purposes Communication Sciences and Disorders program are:

1. To provide a curriculum to develop professional competencies in communication sciences and disorders.
2. To develop students' awareness of the problems and needs of individuals with communication disorders.
3. To motivate the student toward scholarly research.
4. To prepare the student for further study in the field of communication sciences and disorders.
5. To provide those students majoring in communication sciences and disorders with the academic and clinical training required for the Certificate of Clinical Competency in Speech-Language Pathology (CCC-SLP) granted by the American Speech-Language-Hearing Association.

Communication Sciences and Disorders
Program Admission Requirements

Admission to the graduate program in communication sciences and disorders (CSD) is competitive and enrollment is limited. Meeting the minimum admission requirements listed below does not guarantee admission to the program. CSD allows students to enroll ONLY under Regular and Unclassified admission status. To be considered for regular admission to the Master of Science program in Communication Sciences and Disorders, an applicant must hold an undergraduate degree. In addition, an applicant must satisfy the following:

1. **Grade Point Average:** Minimum 2.75 cumulative GPA. Minimum 3.00 GPA on the last two years (approximately 60-70 semester hours or 90-100 quarter hours) of upper level undergraduate academic course work.
2. **Submit a GRE score for all three subtests:** Provide a Graduate Record Examination (GRE) score for Verbal Reasoning, Quantitative Reasoning, and Analytical Writing. An applicant must have a minimum score of 138 on the Verbal Reasoning, 138 on Quantitative Reasoning, and 3.0 on Analytical Writing.
3. **Calculation of Admission Score**
 - a. A score of at least 1225 based on the following formula: $(\text{Cumulative GPA} \times 100) + (\text{last 60 hours GPA} \times 100) + (\text{GRE verbal} \times 2.35) + (\text{GRE quantitative} \times 2.35) \geq 1225^*$
 - A total of 1225 points does not guarantee admission.
 - b. The Analytical Writing Score from the Graduate Record Examination (GRE) will be considered separately.
4. **Letters of Reference Forms:** Three Letter of Reference Forms must be submitted by individuals who are familiar with the student's potential for completing a graduate program in communication disorders (i.e. professors and employers).
5. **Writing Sample:** A 1-2-page writing sample with standard formatting (single-spaced, 1 inch margins, Times New Roman, 12 point font) in response to the following writing prompt: *"Share an experience that changed/shaped your thinking or actions. We would like you to tell us how and why it changed you."* The writing sample will be scored on organization and focus, originality, writer's voice, freedom from error, and overall writing success.
6. **Resume:** A resume of previous work and/or volunteer experience. Consideration will be given for applicants with previous clinical experience, research experience, awards, and other experiences.
7. **Application Deadline:** All application materials must be completed and on file by March 1st for fall admission and by October 1st for spring admission. The program's Graduate Admissions Committee determines admission to the CSD program.
8. **Criminal background check:** Students who have been accepted into the CSD program will be required to complete a criminal background check at their expense as a requirement of regular admission status.
9. **Essential Functions and Technical Standards:** Students who have been accepted into the CSD program will be required to meet the Essential Functional and Technical Standards requirements for speech-language pathology.

Application Consideration Procedure: The program's Graduate Admissions Committee determines admission to the CSD program. Applicants must have all application materials turned in by the deadlines to be considered. Applicants who meet minimum score requirements will be considered based on all application criteria: GPA, GRE, writing sample, resume, and letters of reference.

Requirements for Degree

The Program of Communication Sciences and Disorders offers the academic course work and clinical practicum experiences to meet both state licensure and the American Speech-Language-Hearing Association's requirements for the Certificate of Clinical Competence in speech-language pathology (ASHA CCC-SLP). Students pursuing State of Louisiana Ancillary Certification as a Speech Therapist should consult with a faculty advisor for specific requirements.

To receive the Master of Science degree the student must:

1. Complete thirty-six (36) hours in CSD course work including CSD 602, 606, 607, 613, 614, 616, 617, 632, 633, 634, 628, and 687. Clinical practicum hours vary depending upon previous experience. Students with no clinical experience must complete five (5) semesters of clinical practicum (CSD 500, 510, 611, 603 and 630). Students with a CSD background with some clinical experience but less than fifty (50) clinical hours must take four (4) semesters of clinical practicum (CSD 510, 611, 603 and 630). Students who have a CSD background from Southeastern Louisiana University with at least fifty (50) hours of clinical practicum must take three (3) semesters of clinical practicum (CSD 611, 603 and 630). Graduate students with a bachelor's degree in speech-language pathology from a university other than Southeastern who have obtained 50 transfer hours from an undergraduate and/or professional experience must complete CSD 510. Regular status students who do not have 25 observation hours must register for CSD 328.
2. Complete six (6) hours of CSD electives with no thesis or six (6) hours of thesis credit with thesis option. **THESIS OPTION:** Students will be allowed to enter the thesis option only with the consent of the Graduate faculty. The thesis is a major work of independent research of primary topics and will be supervised by the student's major professor and thesis committee.

Graduate Studies

3. Have no more than one (3 hours) "C" in CSD courses. A student who has earned a grade of "C" or lower in a course may not repeat the course in order to earn a higher grade. A student is in good standing and is considered to be making satisfactory progress if at least a minimum of 3.0 semester and a 3.0 cumulative GPA are earned in all graduate courses. Students must have a 3.0 cumulative GPA to be eligible for enrollment in clinical practicum courses, and the 3.0 cumulative GPA is a prerequisite for students to change degree status from Unclassified to Regular admission status.
4. Complete one semester as a full-time student, excluding summer.
5. Satisfactorily complete a comprehensive examination or complete at least six (6) hours of CSD 770 with a grade of "P." The program considers the thesis as an appropriate substitute for the comprehensive examination.
6. **Students Without a CSD Undergraduate Degree:** Students who have not completed an undergraduate program in speech, language and hearing must complete CSD 201, 205, 212, 213, 309, 327, 328, and 415.

Graduate Progression and Retention Policies

1. A student must be in good standing to be admitted with Regular status to the program. Students without regular status who are taking any CSD course and who earn a grade of "C" in any CSD course will not be admitted to the program until the course is retaken and passed with a grade of "B" or higher.
2. A student, regardless of status, who earns a "D" or an "F" grade in any CSD course will be dismissed from the CSD graduate program.
3. A student must earn a "B" grade or higher in each required course in the program to be eligible for progression. A student, *regardless of degree status*, who earns a "C" grade for any course will be put on academic program probation and must repeat the course at the next available opportunity without benefit of grade substitution. If a second "C" or lower grade is earned when the student repeats the course, the student will be dismissed from the program.
4. A student, regardless of status, who earns two "C" grades in one or more courses in their degree plan, regardless of course credit, will be dismissed from the program.
5. A student cannot withdraw from more than two graduate courses (i.e. In the same semester or two different classes). More than two W's may result in dismissal from the program. The program reserves the right to investigate situations which may affect the student's ability to function in an appropriate and professional manner in accordance with CSD's **Academic and Ethical Standards** and **Essential Functions and Technical Standards**. Students who are deemed to violate CSD's policies will be required to meet with the program's standing Academic Review Committee to determine whether an intervention plan is appropriate.
6. Intervention will be offered to students on a case-by-case basis and is dependent on the nature of the situation. Students who are offered individualized intervention plans and who fail to meet the requirements of the intervention will be dismissed from the program. Students who violate the program's Academic and Ethical Standards policy may be dismissed from the program without benefit of intervention.
7. Students who do not demonstrate, at any point of the program, one or more of the Essential Functions may be referred to a medical specialist for an examination and explanation of condition(s) related to one or more essential functions. Medical clearance may be required in order for the faculty to determine the student's eligibility to continue in the program.

Southeastern Louisiana University
Computer Science
College of Science and Technology
Leading to the Degree of Master of Science (M.S.)

Program Overview

The Computer Networking and Administration program at Southeastern Louisiana University is fundamentally different from traditional computer science programs. The program is built upon the same foundations as other graduate-level computer science programs but emphasizes both the knowledge and the technical skills needed for the workforce. The program examines the organizational and the technological issues involved in enterprise scale networking including emerging network technologies, network processing, high-performance computing, network programming, and security. The program will prepare graduates for jobs in the rapidly growing computer networking and administration industries. The degree prepares students for positions such as computer network administrator, network specialist, network design engineer, system software developer, and system administrator. Coursework is offered every Fall, Spring and Summer so that students can graduate in a timely manner. The program is 100% online.

Admission Requirements

Students are admitted as a cohort into the Master's CNA Program. To be considered for admission to the Computer Networking and Administration master's degree program, an applicant must:

1. Initially satisfy all Southeastern Louisiana University graduate admission requirements (Consult the Southeastern General Catalog for admission requirements).
2. A bachelor's degree or appropriate post-baccalaureate certificate in Computer Science or Computer Engineering from an institution with full regional accreditation for that degree.
3. A minimum cumulative undergraduate GPA of 2.7 on a 4.0 scale (or equivalent), or proven related professional experience.
4. Transcripts that show completion of courses in key areas such as general programming skills using languages such as C/C++ and Java, formal programming language foundations, data structures, algorithms, and discrete math.
5. If the undergraduate degree is not in Computer Science or Computer Engineering, students may be required to take the appropriate prerequisites.
6. Two letters of recommendation.

Application Consideration Procedure: The program's Graduate Admissions Committee determines admission to the MS program. Applicants must have all application materials turned in by the deadlines to be considered. Applicants who meet minimum score requirements will be considered based on all application criteria: GPA and letters of reference. Applicants who fail to meet any of the above criteria could still be granted conditional admission into the program if approved by the admissions committee.

Requirements for Degree

Graduation requirements:

1. The program requires a total of 33 credit hours beyond the baccalaureate degree.
2. Satisfactory complete all graduate work with a cumulative "B" average. Degree candidates must earn an average of "B" or better, both cumulative and in the major area of concentration, with not more than six (6) semester hours with a grade of "C" counted toward a degree. No credit below "C" will be accepted for graduate degree credit.
3. Fifteen (15) credit hours of core courses.
4. Twelve (12) or 18 credit hours of specialization coursework depending on the option.
5. The student can select from the following program options:
 - a. Thesis Option – 27 credit hours of course work and 6 credit hours of graduate thesis (CMPS 770). Students will be allowed to enter the thesis option only with the consent of Graduate faculty. The thesis is a major work of independent research and will be supervised by the student's major professor and thesis committee.
 - b. Non-Thesis Option – 30 credit hours of course work and 3 hours of graduate capstone project (CMPS 711). Students that opt for the non-theses option must work with a faculty member and complete a project in one semester.
 - c. A student may switch options provided they comply with the requirements and with approval from the department.

Curriculum

The curriculum combines coursework in the foundations of computer science as well as topics in the focus areas of computer networking and administration. Foundational or core courses have been limited to 15 credit hours in order to provide sufficient opportunity for students to develop a particular focus while maintaining a breadth of knowledge in the field. Below topics are listed for both the foundational coursework and the focus area coursework. Following are typical schedules and course rotations:

Semester 1 (Fall)

CMPS 580: Advanced Networking and System Administration Principles (core)3 hours
CMPS 609: Network Design and Performance (core).....3 hours
CMPS 620: Advanced Networking Concepts (elective)3 hours

Semester 2 (Spring)

CMPS 616: Advanced System Administration Concepts (core)3 hours
CMPS 635: Applications of Cyber Defense and Cryptography (core)3 hours
CMPS 650: Advanced Large-Scale Computing (elective).....3 hours

Semester 3 (Summer)

CMPS 615: Enterprise Computing (elective)3 hours

Graduate Studies

CMPS 631: Network Modeling and Analysis (elective)	3 hours
CMPS 651: Emerging Computing and Networking Technologies (elective)	3 hours
CMPS 770: Thesis (core).....	3 hours

Semester 4 (Fall)

CMPS 632: Network Management (elective).....	3 hours
CMPS 652: Advanced Storage Technologies (elective)	3 hours
CMPS 711: Capstone or CMPS 770: Thesis (core)	3 hours

Total.....33 hours

*Students typically take six hours in Semester 3. Project option: choose two electives.
Thesis option: one elective and CMPS 770.

Southeastern Louisiana University
Counseling
College of Nursing and Health Sciences
Leading to the Degree of Master of Science (M.S.)

Counseling Program Overview

The Counseling Program at Southeastern Louisiana University is designed to prepare graduates for professional practice in the field of counseling. There are three program concentration curricula in the Counseling Program (School Counseling, Clinical Mental Health Counseling, and Marriage, Couple, and Family Counseling). All program concentrations are nationally accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Graduates of all concentrations meet the current academic requirements for state licensure as a Licensed Professional Counselor (LPC) in Louisiana.

Admission Requirements

To be considered for admission to the Counseling master's degree program an applicant must:

1. Initially satisfy all Southeastern Louisiana University graduate admission requirements (Consult the Southeastern General Catalog for admission requirements).
2. Complete nine (9) hours of undergraduate or graduate study in behavioral studies (e.g. psychology, sociology, social work, etc.).
3. Submit a GRE score (for Verbal Reasoning, Quantitative Reasoning, and Analytical Writing).
4. Acquire an undergraduate cumulative GPA or a last 60 hour GPA of 2.8 (inclusive of graduate work).
5. Submit a completed application portfolio to the Counseling Program Admissions Committee by the specified due date, which includes the following:
 - a. A current resume including full name, address, phone numbers, e-mail address, academic experiences, prior related work experiences, degrees held, honors, awards, special interests, and other appropriate information.
 - b. Three (3) reference forms from individuals familiar with the applicant's academic abilities and potential for success as a professional counselor. At least two references should be professional references (past or current employer, supervisor, former or current instructor).
 - c. An autobiographical narrative showing evidence of life experiences and personal maturity indicating appropriateness for the counseling field.
6. Upon evaluation of program application portfolios by the Counseling Program Admissions Committee, selected applicants will be invited to participate in a mandatory one-day Admissions interview. (At the discretion of the Admissions Committee, international students, or individuals residing in distant states may be afforded a video interview in lieu of participation in the one-day on-campus interview.)

Program Application Admission Deadlines

The application portfolio submission due date for consideration for admission to the counseling program in the summer or fall semester of each year is April 1. The submission due date for the application portfolio for program admission in the spring semester of each year is November 1. All materials must be received by the Graduate Coordinator by these dates in order for the applicant to be considered for the admissions interview.

Admission Notification

Admission to the counseling program and each program concentration is selective and requires a favorable evaluation by the Counseling Program Admissions Committee. Within two weeks after participation in the program admission interview, applicants will be notified that they are either accepted for admission or not accepted for admission.

Guest Student Policy

Enrollment in counseling courses (i.e., COUN, MCFC, or SAC) is typically limited to those formally admitted to the Counseling Program. Those who fall in the following categories are also eligible to take classes if enrollment for the course has not reached maximum capacity.

- (1) Graduates of Southeastern's Counseling Program (clinical and non-clinical courses)
- (2) Graduates of other CACREP Counseling Programs (non-clinical courses only)
- (3) Graduates of Non-CACREP Counseling Programs who are certified school counselors, LPCs, or PLPC/PLMFT Interns (non-clinical courses only)
- (4) Counseling students currently enrolled at other universities (non-clinical courses only). Students from other programs need a letter of good standing from their program coordinator or advisor.

Those not meeting the requirements above, and/ or wishing to take clinical courses, may petition the Department Head for consideration.

Students seeking play therapy instruction and continuing education for special topics may be allowed to take COUN 627 (Introduction to Play Therapy), COUN 629 (Advanced Play Therapy), and COUN 670 (Special Topics). Prospective students must be licensed, provisionally licensed, or currently enrolled as a master's student in a mental health program. Currently enrolled students get preference for enrollment. For the purposes of interprofessional collaboration, these requirements may be waived by the counseling faculty in the case of an arrangement agreed upon between other disciplines.

Counseling Program Concentration Curricula
Counseling Program Core Courses – 39 hours (Required for all concentrations.)

COUN 600	3 hours
COUN 601	3 hours
COUN 604	3 hours
COUN 608	3 hours
COUN 625	3 hours

Graduate Studies

COUN 603	3 hours
COUN 605*	3 hours
COUN 607	3 hours
COUN 609	3 hours
COUN 610	3 hours
COUN 642	3 hours
SAC 619	3 hours
MCFC 621	3 hours

*A grade of "B" or better required.

Clinical Mental Health Counseling (21 hours) – Specialty Concentration

COUN 613	3 hours
COUN 627	3 hours
COUN, MCFC, or SAC Elective	3 hours
MCFC 626	3 hours
COUN 683	3 hours
COUN 693	6 hours

Only 1 course per semester can be taken with internship

Marriage, Couple, and Family Counseling (21 hours) – Specialty Concentration

COUN, MCFC, or SAC Elective	3 hours
MCFC 622	3 hours
MCFC 626	3 hours
COUN 627	3 hours
MCFC 683	3 hours
MCFC 693	6 hours

Only 1 course per semester can be taken with internship

School Counseling (21 hours) – Specialty Concentration

COUN 627	3 hours
COUN, MCFC, or SAC Elective	3 hours
COUN 611	3 hours
COUN 623	3 hours
COUN 680	3 hours
COUN 690	6 hours

Only 1 course per semester can be taken with internship

Southeastern Louisiana University
Curriculum and Instruction
College of Education
Leading to the Degree of Master of Education (M.ED.)

Purposes

The purposes of the Master of Education in Curriculum and Instruction are to:

1. Prepare highly qualified and effective teachers for Louisiana's PK-12 schools.
2. Provide candidates with opportunities to develop pedagogical content knowledge, content knowledge in their area(s) of certification, and competencies reflecting the knowledge skills and dispositions to reach their full potential.
3. Develop candidates' capabilities to provide professional services and leadership in schools, school districts, and professional organizations.
4. Offer curriculum and instruction for earning a master's degree that is guided by the high standards of state and national standards.
5. Provide intensive study in candidates' selected areas of concentration.
6. Enhance the candidates' potential for serving students, parents, colleagues, and others in the educational community.

Admission Requirements

To be considered for admission to the Master of Education degree program in Curriculum and Instruction, an applicant must:

1. Meet all University requirements, which include:
 - a. An application for admission.
 - b. Official transcripts from all colleges and universities attended.
 - c. Documentation of graduation with a baccalaureate degree (or its equivalent) from an accredited university.
 - d. Documentation of a grade point average (GPA) that meets the Southeastern Graduate Studies requirements for admission.
 - e. Documentation of satisfactory standing at the last institution attended.
 - f. A non-refundable fee to the Controller's Office prior to the established deadlines.
2. Submit a valid teaching certificate. This program does not lead to initial certification.

For add-on certification to an existing Louisiana teacher certificate, please contact the Graduate Coordinator or consult the Department of Teaching & Learning section of the catalog.

Due to the coursework requirements typical of education courses, which frequently include clinical practice hours, the Department of Teaching & Learning considers fulltime enrollment to be 6 credit hours per semester for graduate students enrolled in programs through Teaching & Learning.

As part of the College of Education focus on performance-based outcomes, students enrolled in the Teacher Preparation Program will submit products to the current electronic assessment system. The products will allow the students to demonstrate their understanding of how they meet the program outcomes; provide a process by which students can become reflective practitioners to foster continuous improvement, document growth in the program; and demonstrate how the students meet the requirements for knowledge, skills, and professional and ethical behavior required by the state certification in the selected area.

Please consult your advisor for the sequence of coursework.

Requirements for Degree

To receive the Master of Education degree in Curriculum and Instruction, a student must:

1. Complete all requirements stated in the catalog and the candidate's degree plan.
2. Submit products demonstrating proficiency of content pedagogical knowledge in the electronic assessment system to verify candidate mastery.
3. Satisfactorily complete all graduate work with a cumulative "B" average. Degree candidates must earn an average of "B" or better, both cumulative and in the major area of concentration, with not more than six (6) semester hours with a grade of "C" counted toward a degree. No credit below "C" will be accepted for graduate degree credit.
4. Satisfactorily complete an action research project with supporting products (e.g., written article, presentation).
5. Be recommended for the degree by the student's major professor.

Educational Leadership and Foundations College of Education Leading to the Degree of Master of Education (M.Ed.)

Purposes

The purposes of the Department of Educational Leadership and Foundations are:

1. To provide the best possible curricula and instruction to enable students to complete requirements for the degree(s) and/or certifications they are seeking at the University.
2. To develop the knowledge base of students to prepare them for leadership roles in the schools and communities.
3. To provide opportunities for personal achievement and the development of professional competence, technological expertise, integrity, intellectual curiosity, self-discipline, and ethical conscientiousness.
4. To help the student understand the place of the individual in a pluralistic society.

Program Description / Program Overview

The Southeastern Louisiana University Master of Education degree in Educational Leadership is a nationally recognized program designed to provide the essential foundation for educational leaders to assume the role of instructional leaders for effective school improvement. The program has been accredited by the National Policy Board for Educational Administration (NPBEA) and meets the Educational Leader certification requirements of the Louisiana State Department of Education.

Cohort Design

Upon admission to the program, applicants will be assigned to a cohort. The applicant will remain with the cohort for the duration of the program to ensure the validity of the networking and collaboration built into the program design and approved by the State. Students will not be permitted to change cohorts for personal convenience. If a student misses a term of study, it is the responsibility of the student to contact the Graduate Coordinator for reassignment to an existing cohort to complete the course of studies for the program.

Admissions Requirements

Admission to the Educational Leadership program is highly selective and prospective students must meet all admissions criteria prior to admittance. Students will be allowed to enroll in courses in this degree curriculum only after formal admission to the program. To be considered for admission for a Master of Education degree in Educational Leadership, an applicant must initially satisfy all the Southeastern Louisiana University graduate admission requirements.

Application Process: The prospective student must submit a completed application to study at Southeastern Louisiana University and satisfy all University graduate admission requirements including a completed immunization form, non-refundable fee, and official copies of transcripts. The University application must be submitted online at: <http://www.southeastern.edu/apply/graduate/index.html>.

Applicants for Regular Admission must have a 3.0 or higher cumulative grade point average on the undergraduate degree, verified by official transcripts. Cumulative grade point averages below a 3.0 will be considered on an individual basis and may receive Provisional Admission.

In addition to the grade point average requirement, applicants must submit the following documents through the University application portal:

1. Copy of valid teaching certificate.
2. Verification of a minimum of one year of teaching experience in either public or private schools.
3. Completed Recommendation Form from a school official who can attest to the applicant's leadership potential and likelihood of success in the program.
4. Mentor Information Form from a school official who will supervise the on-site field experiences.

Applicants who work in a district that does not have a standing Memorandum of Understanding must submit a completed Memorandum of Understanding Form signed by the designated school officials. The completed and signed form must be sent to the Graduate Coordinator. See the department website for the list of school systems with standing Memorandums of Understanding.

Admissions Decision: Admission to the Educational Leadership program is selective and requires a favorable evaluation by the Leadership Admissions Committee and is contingent upon the receipt of all required application documents. When all admissions requirements have been met, the Graduate Coordinator will complete the necessary notification/acceptance papers for graduate admissions.

Requirements for Completion of the Master of Education Degree in Educational Leadership

To receive the Master of Education degree in Educational Leadership, a student must:

1. Successfully complete all courses stated in the degree plan with grades of "B" or better in all course work. No grade below "B" will be accepted for graduate degree credit.
2. Successfully complete all field-based experiences and internship.
3. During the last semester of study, satisfactorily complete a comprehensive examination, to take the form of completion and defense of an electronic portfolio before the Leadership Faculty.

Southeastern Louisiana University

4. Successfully complete the School Leaders Licensure Examination.
5. Receive a favorable recommendation for the degree from the Educational Leadership faculty and the graduate coordinator.

Louisiana’s Certification Structure for Educational Leadership

The Southeastern Louisiana University Master of Education in Educational Leadership degree program is recognized by the Louisiana Department of Education, Board of Elementary and Secondary Education, and Louisiana Board of Regents as an approved Educational Leader preparation program for the Graduate Degree Pathway for Educational Leader Level 1 certification. The program is aligned with the following state and national standards:

- The Standards for Educational Leaders in Louisiana
- National Policy Board for Educational Administration’s Professional Standards for Educational Leaders (PSEL).
- The National Educational Leadership Preparation (NELP) Standards for Advanced Programs in Educational Leadership, the standards used by the Council for the Accreditation of Educator Preparation (CAEP) for the university program reviews.

Certification Levels

Teacher Leader Endorsement: The teacher leader certificate is an option for a teacher to be identified as a teacher leader and is not a state required credential for a specific administrative position.

*Candidates will be eligible for the Teacher Leader Endorsement upon completion of the first 6 credit hours of the master’s degree program.

Educational Leader Level 1: The educational leader level 1 certificate is an entry-level certificate for individuals seeking to qualify for school and/or district leadership positions such as assistant principals, principals, parish or city supervisors of instruction, supervisors of child welfare and attendance, special education supervisors, or comparable school/district leader positions.

Educational Leader Level 2: An individual advances from a level 1 to a 2 certificate after successfully meeting standards of effectiveness for three years pursuant to Bulletin 130 and R.S. 17:3902 and completing the required years of experience.

Educational Leader Level 3: The level 3 certificate qualifies an individual for employment as a district superintendent.

(See Louisiana Department of Education website and Bulletin 746: Louisiana Standards for State Certification of School Personnel for additional information and requirements.)

Educational Leadership Curriculum

Semester 1:

- EDL 610: Research Methods for Educational Leaders 3 hours
- EDL 612: Fostering Vision and Leadership in Educational Environments 3 hours

Semester 2:

- EDL 721: School Law..... 3 hours
- EDL 702: School-Community Relations 3 hours

Semester 3:

- EDL 642: School Personnel Administration 3 hours
- EDL 625: Organizational Management..... 3 hours

Semester 4:

- EDL 722: Curriculum Improvement 3 hours
- EDL 635: Supervision of Instruction 3 hours

Semester 5:

- EDL 723: Leading Change in Educational Organizations 3 hours
- EDF 600: Application of Educational Research 3 hours

Semester 6:

- EDL 725: Internship in Educational Leadership 3 hours
- ETEC 615: Technology Studies for Educational Leaders 3 hours

Total 36 hours

English
College of Arts, Humanities and Social Sciences
Leading to the Degree of Master of Arts (M.A.)

Purposes

The purposes of the Department of English are to:

1. Provide training in research techniques and critical writing.
2. Provide intensive study in certain areas of specialization.
3. Prepare the student for teaching and/or doctoral study.
4. Encourage and support advanced study of the humanities.

Admission Requirements

Regular Admission

Any person admitted to the Master's program in English must hold a bachelor's degree. An applicant who receives regular admission status must also meet the following requirements:

1. Completion of twenty-four (24) semester hours of undergraduate English courses, at least twelve (12) of which must be at the Jr./Sr. level.
2. Submit a GRE score (verbal and quantitative). The department requires a 150 minimum score of the verbal portion of the GRE.
3. One of the following minimum graduate admission requirements based on the level of work completed at the time of application:
 - a. 2.50 GPA on the undergraduate degree, or
 - b. 2.75 GPA on the last two years (approximately 60-70 semester hours or 90-100 quarter hours) of upper-level undergraduate academic course work, or
 - c. 2.75 GPA on 30 or more semester hours undergraduate credit after earning the first bachelor's degree, or
 - d. 2.75 GPA on the last two years (approximately 60-70 semester hours or 90-100 quarter hours) of undergraduate academic course work and a 3.00 GPA on fewer than 24 hours graduate course work, or
 - e. 3.00 GPA on 24 or more graduate hours, or
 - f. An earned master's degree or higher-level degree.

A student in a regular admission status is eligible for a graduate assistantship.

Provisional Admission

An applicant not satisfying the minimum GRE score and/or grade point average (GPA) may be admitted to a degree program as a provisional student if recommended by the graduate coordinator of the academic unit offering the degree program. Students below the GRE score of 148 on the verbal portion of the test and/or a GPA of 2.0 on the undergraduate degree will not be considered for provisional status. Students in provisional status must advance to regular status as prescribed by Graduate Studies rules outlined in the catalog.

Contingent Admission

A student may be admitted in contingent status when needing the final transcript recording the bachelor's degree, GRE scores, and/or the completion of undergraduate course deficiencies. Students in contingent status must advance to regular status as prescribed by Graduate Studies rules outlined in the catalog.

A student in the contingent status is eligible for a graduate assistantship. Continued eligibility for a graduate assistantship beyond the initial semester would require that any such graduate assistants advance to regular status by the completion of the initial semester. Students may not be moved from contingent status to provisional status. Failure to qualify for regular admission status will prevent the student from registering for the next semester.

Non-Degree-Classified Admission and Unclassified Admission

Students wishing to take graduate courses in English for purposes other than a graduate degree should review their options for Non-Degree-Classified Admission and Unclassified Admission as specified by Graduate Studies rules outlined in the catalog.

No more than 9 hours earned by a student in the Provisional, Contingent, Non-Degree, or Unclassified Status may be counted towards a graduate degree, provided Graduate Studies approves the credit that is recommended by the appropriate graduate coordinator/director or graduate faculty advisor.

Requirements for Degree

The M.A. in English consists of a core of literary studies with choices for professional development in all areas of English Studies, including concentrations in Creative Writing, Language and Literacy, Professional Writing, and Publishing Studies. Students may choose between Thesis- and Non-Thesis options:

Non-Thesis Option: Complete at least thirty-six (36) hours of English in an individually-designed curriculum. With the approval of the advisory committee, the student may take a maximum of six (6) graduate hours in a related field. All students choosing the non-thesis option must complete the following course work:

1. English 648: Graduate Studies Seminar.
2. One theory and methods course: ENGL 475/575, 477/577, or 485/585.
3. English 595: Internship.
4. At least twenty-one (21) hours of course work at the 600-level.

Thesis Option: Complete at least thirty-six (36) graduate hours of English, including six (6) hours of graduate credit from ENGL 770. The thesis must demonstrate the student's ability to do research and must show acceptable literary workmanship in organization, style, and content. With the approval of the advisory committee, students may take a maximum of six (6) graduate hours in a related field. All students choosing the thesis option must complete the following course work:

1. English 648: Graduate Studies Seminar.
2. One theory and methods course: ENGL 475/575, 477/577, or 485/585.
3. English 595: Internship.
4. ENGL 770 (6 hours): Thesis.
5. At least eighteen (18) hours of course work at the 600-level.

Concentrations: Students choosing the thesis option may write a thesis as a required part of a concentration in one area of English studies. Students must also complete courses in advanced writing and methods for their area. With the approval of the advisory committee, students may take a maximum of six (6) graduate hours in a related field. Four concentrations are offered:

Concentration in Creative Writing – Requires the permission of the Coordinator of Creative Writing. All students choosing this concentration must complete the following course work:

1. ENGL 475/575: Contemporary Criticism
2. ENGL 482/582: Intermediate Poetry Workshop
3. ENGL 483/583: Intermediate Fiction Workshop
4. ENGL 645: Creative Writing Workshop
5. ENGL 770 (6 hours): Thesis Research and Thesis

Concentration in Language and Literacy – Requires the permission of the Coordinator of Language and Literacy. All students choosing this concentration must complete the following course work:

Thesis:

1. ENGL 577: Foundations in Language and Literacy
2. ENGL 595: Internship
3. One course from the following: ENGL 620, 621, or 646
4. One course from the following: ENGL 564, 567, or 576
5. ENGL 770 (6 hours): Thesis Research and Thesis

Non-Thesis:

1. ENGL 577: Foundations in Language and Literacy
2. ENGL 595: Internship
3. One course from the following: ENGL 518, 620, or 646
4. One course from the following: ENGL 620, 621, or 646
5. Two courses from the following: 508, 524, 564, 567, or 576

Concentration in Professional Writing – Requires the permission of the Coordinator of Professional Writing. All students choosing this concentration must complete the following course work:

Thesis:

1. ENGL 585: Foundations in Publishing Studies and Professional Writing
2. ENGL 548: Advanced Technical and Professional Writing
3. ENGL 595: Internship
4. ENGL 651: Studies in Professional Writing
5. Electives (3 hours): as approved by the concentration coordinator
6. ENGL 770 (6 hours): Thesis Research and Thesis

Non-Thesis:

1. ENGL 585: Foundations in Publishing Studies and Professional Writing
2. ENGL 548: Advanced Technical and Professional Writing
3. ENGL 594: Publishing in Digital Humanities
4. ENGL 595: Internship
5. ENGL 651: Studies in Professional Writing
6. Electives (6 hours): as approved by the concentration coordinator

Concentration in Publishing Studies – Requires the permission of the Coordinator of Publishing Studies. All students choosing this concentration must complete the following course work:

1. ENGL 585: Foundations in Publishing Studies and Professional Writing
2. ENGL 592: Introduction to Literary and Technical Editing
3. ENGL 549: History of the Book or ENGL 586: Document Production and Design
4. ENGL 593: Practicum in Humanities Print Publishing or ENGL 594: Publishing in Digital Humanities
5. ENGL 595: Internship
6. ENGL 652: Studies in Publishing

All candidates for the M.A. in English must:

1. Demonstrate knowledge of a foreign language or language structure either through six (6) hours of undergraduate course work in one language, through completion of an approved graduate-level course on language structures, through demonstrated knowledge of a major computer language (such as C++, XML, or Java), or through passing the Princeton examination. The language requirement is waived for international students whose native language is not English.
2. Complete nine (9) hours of graduate course work in three broad literary periods: (1) ancient, medieval, and early modern literatures, (2) Eighteenth- and Nineteenth-Century literature, and (3) Twentieth-Century and contemporary literatures.
3. Pass all parts of the M.A. comprehensive examination in English.

**Health and Kinesiology
College of Nursing and Health Sciences
Leading to the Degree of Master of Science (M.S.)**

Purposes

The purposes of the Department of Kinesiology and Health Studies are to:

1. Provide intensive study in selected areas of concentration.
2. Enhance knowledge and skills in health, physical education, kinesiology, and sport management professionals.
3. Provide an educational foundation for scientific inquiry to inform practice and research.
4. Provide opportunities for developing the skills necessary for working with peers, students, clients, and patients from varied backgrounds and cultures, with diverse value systems.

Admission Requirements

To be considered for admission to the Master of Science degree program in Health and Kinesiology, an applicant must meet the following criteria:

1. Meet all University admission requirements.
2. Complete a baccalaureate degree in health, kinesiology, sport management or a related field. Students who pursue the concentration in Exercise Science must have completed undergraduate courses in human anatomy and physiology (lecture + lab, 4 hours) and exercise physiology (3 hrs).
3. Achieve either (a) a cumulative undergraduate GPA of 3.0 or higher, or (b) a cumulative undergraduate GPA between 2.50 and 2.99 and a combined Verbal and Quantitative score of 286 or higher on the General Test of the Graduate Records Exam (GRE).

Requirements for Degree

All candidates for a degree must complete a thesis or a satisfactory score on the comprehensive examination.

Grade Retention Policy: Any graduate student, who makes a grade of "D" or "F" on more than 6 hours of "C" grades in any course taken for graduate credit will be dismissed from the program and will be ineligible to register for further graduate courses in the department. A student dismissed from the program because of extenuating, non-academic reasons may appeal to the dean for readmission.

Adapted Physical Education Concentration

THESIS PROGRAM - Complete thirty-three (33) hours in an approved combination of courses that include:

Kinesiology 601 (Statistics in Kinesiology) [3 hrs]
Kinesiology 606 (Introduction to Research) [3 hrs]
Kinesiology 591 (Introduction to PE for Individuals with Disabilities) [3 hrs]
Kinesiology 592 (Perceptual Motor Development of Individuals with Disabilities) [3 hrs]
Kinesiology 593 (PE for Individuals with Disabilities and other Impairments). [3 hrs]
Kinesiology 594 (Curriculum Development for Adapted Physical Education) [3 hrs]
Kinesiology 612 (Motor Learning) [3 hrs]
Special Education 600 (Intro to the Education of Individuals w/ Exceptionalities) [3 hrs]
HS 775 (Writing for Publication in Health and Kinesiology) [3 hrs]
KIN 770 (Thesis) [6 hrs]

NON-THESIS PROGRAM—Complete thirty-six (36) hours in an approved combination of courses that include:

Kinesiology 601 (Statistics in Kinesiology) [3 hrs]
Kinesiology 606 (Introduction to Research) [3 hrs]
Kinesiology 591 (Introduction to PE for Individuals with Disabilities) [3 hrs]
Kinesiology 592 (Perceptual Motor Development of Individuals with Disabilities) [3 hrs]
Kinesiology 593 (PE for Individuals with Disabilities and other Impairments). [3 hrs]
Kinesiology 594 (Curriculum Development for Adapted Physical Education) [3 hrs]
Kinesiology 612 (Motor Learning) [3 hrs]
Special Education 600 (Intro to the Education of Individuals w/ Exceptionalities) [3 hrs]
Electives selected from Health Studies and Kinesiology courses. May include up to 6 hours of courses in a related field as approved by advisor. [12 hrs]

Exercise Science Concentration

THESIS PROGRAM—Complete thirty-three (33) hours in an approved combination of courses that include:

Kinesiology 601 (Statistics in Kinesiology) [3 hrs]
Kinesiology 606 (Introduction to Research) [3 hrs]
Kinesiology 612 (Motor Learning), 614 (Motor Development), or 621 (Biomechanics) [3 hrs]
Kinesiology 623 (Human Behavior in Exercise and Sport) or 624 (Applied Research in Exercise and Sport Behavior) [3 hrs]
Kinesiology 640 (Advanced Exercise Physiology I) [3 hrs]
Kinesiology 642 (Advanced Exercise Physiology II) [3 hrs]

Southeastern Louisiana University

Electives selected from Kinesiology 612 (Motor Learning), 614 (Motor Development), 621 (Biomechanics), 622 (Sports Performance Assessment and Analysis), 626 (Strength Development and Conditioning Programs), and 636 (Nutrition for Health and Physical Performance) [6 hrs]
Health Studies 775 (Writing for Publication in Health and Kinesiology) [3 hrs]
KIN 770 (Thesis) [6 hrs]

NON-THESIS PROGRAM—Complete thirty-six (36) hours in an approved combination of courses that include:

Kinesiology 601 (Statistics in Kinesiology) [3 hrs]
Kinesiology 606 (Introduction to Research) [3 hrs]
Kinesiology 612 (Motor Learning), 614 (Motor Development), or 621 (Biomechanics) [3 hrs]
Kinesiology 623 (Human Behavior in Exercise and Sport) or 624 (Applied Research in Exercise and Sport Behavior) [3 hrs]
Kinesiology 640 (Advanced Exercise Physiology I) [3 hrs]
Kinesiology 642 (Advanced Exercise Physiology II) [3 hrs]

Electives selected from Kinesiology 612 (Motor Learning), 614 (Motor Development), 621 (Biomechanics), 622 (Sports Performance Assessment and Analysis), 626 (Strength Development and Conditioning Programs), and 636 (Nutrition for Health and Physical Performance) [6 hrs]

Electives selected from Health Studies and Kinesiology courses. May include up to 6 hours of courses in a related field as approved by advisor. [12 hrs]

Health Promotion Concentration

THESIS PROGRAM—Complete thirty-three (33) hours in an approved combination of courses that include:

Health Studies 601 (Statistics in Health Studies) [3 hrs]
Health Studies 606 (Introduction to Research) [3 hrs]
Health Studies 608 (Introduction to Public Health) [3 hrs]
Health Studies 610 (Health Education Curriculum and Instruction) [3 hrs]
Health Studies 613 (Health Disparities) [3 hrs]
Health Studies 615 (Health Communication) [3 hrs]
Health Studies 637 (Epidemiology) [3 hrs]
Health Studies 638 (Program Planning and Evaluation) [3 hrs]
Health Studies 775 (Writing for Publication in Health and Kinesiology) [3 hrs]
Health Studies 770 (Thesis) [6 hrs]

NON-THESIS PROGRAM—Complete a minimum of thirty-six (36) hours in an approved combination of courses that include

Health Studies 601 (Statistics in Health Studies) [3 hrs]
Health Studies 606 (Introduction to Research) [3 hrs]
Health Studies 608 (Introduction to Public Health) [3 hrs]
Health Studies 610 (Health Education Curriculum and Instruction) [3 hrs]
Health Studies 613 (Health Disparities) [3 hrs]
Health Studies 615 (Health Communication) [3 hrs]
Health Studies 637 (Epidemiology) [3 hrs]
Health Studies 638 (Program Planning and Evaluation) [3 hrs]

Electives selected from Health Studies and Kinesiology courses. May include up to 6 hours of courses in a related field as approved by advisor. [12 hrs]

Sport Management Concentration

THESIS Program—Complete thirty-three (33) hours in an approved combination of courses that include:

Kinesiology 601 (Statistics in Kinesiology) [3 hrs]
Kinesiology 606 (Introduction to Research) [3 hrs]
Kinesiology 693 (Socio-Cultural Issues in Sport and Physical Activity) [3 hrs]
Kinesiology 694 (Sport Marketing and Media) [3 hrs]
Kinesiology 695 (Legal Issues in Sport and Fitness) [3 hrs]
Kinesiology 696 (Managing Events and Facilities in Sport and Fitness) [3 hrs]
Kinesiology 697 (Financial Management in Sport) [3 hrs]
Kinesiology 698 (Sport Administration) [3 hrs]
Health Studies 775 (Writing for Publication in Health and Kinesiology) [3 hrs]
Kinesiology 770 (Thesis) [6 hrs]

NON-THESIS PROGRAM---Complete thirty-six (36) hours in an approved combination of courses that include:

Kinesiology 601 (Statistics in Kinesiology) [3 hrs]
Kinesiology 606 (Introduction to Research) [3 hrs]
Kinesiology 693 (Socio-Cultural Issues in Sport and Physical Activity) [3 hrs]
Kinesiology 694 (Sport Marketing and Media) [3 hrs]
Kinesiology 695 (Legal Issues in Sport and Fitness) [3 hrs]
Kinesiology 696 (Managing Events and Facilities in Sport and Fitness) [3 hrs]
Kinesiology 697 (Financial Management in Sport) [3 hrs]
Kinesiology 698 (Sport Administration) [3 hrs]

Electives selected from Health Studies and Kinesiology courses. May include up to 6 hours of courses in a related field as approved by advisor. [12 hrs]

History
College of Arts, Humanities and Social Sciences
Leading to the Degree of Master of Arts (M.A.)

Purposes

The purposes of the Department of History and Political Science are to:

1. Increase the students' knowledge, train them in proper scholarly methods of research and writing, and prepare them for more effective teaching and for further graduate study.
2. Instruct students in the study of the past.

The purposes of the Master of Arts (M.A.) in History program are to:

1. Train students for careers in school teaching, government service, and business.
2. Prepare students for doctoral study in History.

Requirements for Admission

To be accepted for admission into the M.A. in History program, a student must:

1. Meet all University admission requirements.
2. Have satisfactorily completed at least 30 undergraduate hours of History.
3. Have a minimum cumulative grade point average (GPA) of 2.5 (4.0 scale) for all undergraduate course work attempted or a minimum cumulative GPA of 2.75 on all upper division undergraduate course work attempted.
4. Score a minimum of 290 (combined verbal and quantitative scores) on the General Test of the Graduate Record Exam (GRE).

Applicants for admission and for graduate assistantships should submit completed application forms, transcripts, and GRE scores by April 1. Applicants received after that date will be accepted, but priority in awarding assistantships and in scheduling graduate classes will be given to those who meet the April 1 deadline.

Degree Plan/Candidate Status/Application for Graduation

To remain in good standing in the M.A. in History program, all students must:

1. Obtain the Graduate Coordinator's approval for an individual degree plan prior to registering for their first semester of graduate course work. Changes in the degree plan may be made only with the Graduate Coordinator's approval.
2. Apply for status as a Candidate for the M.A. in History degree prior to completing 12 hours of graduate course work.
3. Apply for graduation by the appropriate deadline for the semester in which they will graduate.

Requirements for Registering for Courses

To register for courses in the M.A. in History curriculum, students must:

1. Have an approved up-to-date degree plan on file with the Department of History and Political Science.
2. Obtain the Graduate Coordinator's written authorization prior to registration each semester. Advising for all graduate courses is mandatory. After receiving authorization, students will then be registered in the department office.
3. Register during the early registration period for each semester. All 600-level courses in the M.A. in History curriculum have waiting lists. Students who do not register during the early registration period will have their names removed from the waiting lists for these courses.

Requirements for the History Degree

To receive the Master of Arts (M.A.) in History degree:

1. Satisfactorily complete 36 hours of graduate course work in one of the following Options with course work as specified under Course Requirements.
 - a. Thesis Option
 - b. Non-Thesis Option
 - c. Public History Option¹
 - d. Secondary Teaching Option²
2. Maintain a cumulative GPA of 3.0 on all course work.
3. Satisfactorily complete the Comprehensive Examination.
4. Satisfactorily complete an Internship if in the Public History Option.
5. Satisfactorily complete a Master's Thesis if in the Thesis Option.
6. Be recommended for the degree by the graduate faculty.
7. Meet all requirements within 6 years of enrolling in the M.A. in History Program.

Required for All M.A. Candidates

HIST 600: Historical Research 3 hours

American History (9-18 hours)

HIST 605: Seminar in American History to 1800 3 hours

HIST 606: Seminar in American History 1800-1900 3 hours

Southeastern Louisiana University

HIST 607: Seminar in American History Since 1900	3 hours
HIST 610: Seminar in Southern History.....	3 hours
HIST 611: Seminar in Louisiana History.....	3 hours
HIST 612: Seminar in American Military History.....	3 hours

European History (9-21 hours)

HIST 613: Global Military History	3 hours
HIST 630: Seminar in the History of Western Thought	3 hours
HIST 641: Seminar in British History to 1485	3 hours
HIST 642: Seminar in British History since 1485	3 hours
HIST 643: Seminar in Ancient European History.....	3 hours
HIST 644: Seminar in Medieval European History.....	3 hours
HIST 645: Seminar in Early Modern European History.....	3 hours
HIST 646: Seminar in Modern European History.....	3 hours

Elective (0-9 hours)

HIST 602: Readings in History	3 hours
HIST 621: Independent Study in History	3 hours
HIST 628: Theories of History	3 hours
HIST 698: Seminar in Selected Topics in History	3 hours

Non-History Elective (0-6 hours)

Option 1

POLI 600: Seminar: Special Topics in American Politics	3 hours
POLI 610: Seminar: Special Topics in International Politics.....	3 hours

Option 2

Graduate courses (not including UG lecture courses) approved in advance by the Graduate Coordinator in Anthropology, Art, Communication, Criminal Justice, Education and MAT, English, Foreign Language, Geography, Music, Philosophy, Psychology, or Sociology.

Required for Thesis-Option

HIST 770: Thesis Research and Thesis	6 hours
--	---------

Required for Public History Option¹

HIST 637: Internship in Public History	6 hours
--	---------

Required for Secondary Teaching Option²

EPSY 603: Classroom Management and Motivation	3 hours
MAT 660: Specialty Area Learning Methods I: Secondary Education	3 hours
MAT 661: Specialty Area Learning Methods II: Secondary Education	3 hours

Total:	36 hours
--------------	----------

¹Students in the Public History Option may also elect to do a Master's Thesis in addition to the required Internship.

²Students in Secondary Teaching Option may elect to simultaneously pursue Alternate Certification in Social Studies Education. Please consult the Alternative Certification section of the catalog and obtain advising from the College of Education for policies and courses to meet certification requirements. Note that a Practitioner's Licensee allows students to teach while pursuing Alternate Certification but is limited to 3 years. There is no limit for students who are not teaching while pursuing Alternate Certification; however, the M.A. in History must be completed within 6 years, and it is possible to complete both Alternate Certification and the M.A. in History in 3 years.

Comprehensive Examination

During or after their last semester of course work, students must satisfactorily complete a Comprehensive Examination on three historical fields determined in consultation with the Graduate Coordinator and each consisting of questions from two faculty members with whom the student has completed course work. Possible fields include Europe to 1500 (including Britain), Europe since 1500 (including Britain), America to 1877, America since 1877, and Political Science. A student who passes all three fields will have completed the process. A student who fails one field will take an oral exam on that field within ten working days of the written examination. A student who fails the oral exam must retake and pass the exam on that field within one year of the original exam or be dismissed from the program.

Master's Thesis

Students in the Thesis Option must defend their theses and receive approval from the Thesis Committee, Graduate Coordinator, Department Head, and the Dean of the College of Arts, Humanities and Social Sciences. Theses must conform to the style prescribed by the Graduate Council. Students must submit at least 2 copies of the final approved version to the Graduate Coordinator for binding by the Sims Memorial Library.

Graduate Faculty

All faculty in the Department of History and Political Science who are members of the University Graduate Faculty are members of the department's graduate faculty and are eligible to teach graduate courses, supervise Master's Theses, serve on Thesis Committees, and participate in Comprehensive Examinations. The University Graduate Council must renew member status for graduate faculty every six years. Temporary graduate faculty status must be renewed annually; adjunct faculty must be renewed each semester.

Graduate Studies

Graduate Coordinator

The Graduate Coordinator serves as academic advisor for all graduate students, supervises their progress toward the M.A. degree, approves all graduate degree plans, authorizes all students for registration in courses in the M.A. curriculum. The Graduate Coordinator supervises the work of all departmental graduate assistants, appoints the Major Professor and Thesis Committee for students in the Thesis Option, and approves Internship sponsors for students in the Public History Option.

Southeastern Louisiana University
Integrated Science and Technology
College of Science and Technology
Leading to the Degree of Master of Science (M.S.)

Purpose

The Master's in Integrated Science and Technology (ISAT) is an interdisciplinary program that emphasizes applications of chemistry, computer science, industrial technology, mathematics, and physics in a career enhancement degree. This degree has been devised to meet the specific needs of students attending regional universities and desiring technical employment. This degree will prepare students for the workplace by giving them experience in applying their knowledge of mathematics and science to projects of interest to business and industry. Individuals with experience and training in technology will gain a deeper understanding of the science and mathematics used in their fields. Students will learn these problem-solving skills through a core of interdisciplinary project-oriented courses that will extend and broaden training in each of the academic areas.

Objectives of the Program: Students who complete the ISAT degree at Southeastern Louisiana University will be able to:

- Integrate information and concepts across different scientific and technical disciplines.
- Apply specialized knowledge from chemistry, computer science, industrial technology, mathematics, or physics to solve problems that are critical to future growth of local business and industry.
- Work effectively with people who possess various educational and experiential backgrounds.
- Use appropriate technology in communication, information and knowledge management, modeling, forecasting, and decision making.

Students in the ISAT program will take a core of interdisciplinary, project-oriented courses that will extend and broaden their training in science and technology. In the course of their studies, these students will learn to use current problem-solving approaches from mathematics, chemistry, physics, computer science and industrial technology to solve problems from a wide variety of business and industrial settings.

Requirements for Admission

Applicants to the ISAT program must have completed an undergraduate degree program and have earned at least 30 semester hours in any combination of chemistry, computer science, industrial technology, mathematics, or physics. In addition, applicants to the ISAT program must have at least one of the following four items: 1) a cumulative undergraduate GPA of at least 3.0; 2) solid evidence of significant research work experience; 3) at least one year of professional work experience; or 4) a combined Verbal and Quantitative Score on the Graduate Record Exam of at least 280. As part of the application process, applicants to the ISAT program must submit a letter of introduction stating their goals for the ISAT program and beyond, three letters of recommendation and transcripts of previous undergraduate or graduate work.

Academic Standards Policy

1. Any student in the ISAT program who earns a grade less than a "C" in any course in the ISAT curriculum or who earns more than one (1) "C" in the curriculum must present a written appeal to the Program Coordinator no later than 10 working days prior to the beginning of the next full semester. An Academic Standards Committee will review these appeals. This appeal should address the student's perception of the reasons for this grade and the reasons why he/she should be allowed to repeat the course and remain in the ISAT program. Failure to submit the written appeal according to the above timelines will be interpreted by the Committee as a declaration that the student does not wish to continue in the program.
2. The Committee will meet with the student and respond to the student's appeal in writing before the beginning of the next full semester.
3. The Committee may invite the instructor(s) of the course and/or any other personnel who may have supervised components of class work to attend the appeal for information purposes. There will be no other course instructors present for the discussion.
4. The Committee will make one of the following recommendations to the students who submit a copy to the Dean of College of Sciences and Technology.
 - a. The student may repeat the course work with no ancillary conditions or restraints.
 - b. The student may repeat the course work but under certain specified condition, i.e., restricted course load, tutor or mentor help, etc.
 - c. The student will no longer be allowed to continue in the ISAT program.

Degree Requirements

The generalist concentration ISAT degree requires a total of 33 semester hours consisting of 6 applied science seminars, 12 hours from the core courses, 6 hours of discipline-specific courses, 3 hours in courses that are cross-listed with their discipline of study, and 6 hours of research project or thesis work.

The specialist concentration ISAT degree requires a total of 36 semester hours consisting of 3 hours of the first applied seminar course, 9 hours from the second applied seminar course and the core course, 18 hours of discipline-specific courses, and 6 hours of thesis work.

Proficiencies: One of the most positive characteristics of the ISAT program is the diversity of the students. So that all students in the program can succeed, there will be provided for the students a web-based review of introductory material in each of calculus, chemistry, computer science, industrial technology, and physics. All students admitted to the program will be asked to demonstrate proficiency in calculus, chemistry, computer science, industrial technology, and physics during their first year in the program. Proficiency will be comparable to the level of knowledge of having passed an introductory undergraduate course or courses in the area.

Curriculum for the Master of Science in
Integrated Science and Technology
Generalist Concentration

Seminar Courses

ISAT 600: Applied Science Seminar I.....	3 hours
ISAT 601: Applied Science Seminar II.....	3 hours

Core Courses

Four of the following eight courses outside the chosen discipline:

ISAT 605: Research and Development in Industrial Technology	3 hours
ISAT 615: Technology in Industry and Society	3 hours
ISAT 625: Applications of Computing in Science and Technology	3 hours
ISAT 635: Industrial Chemistry.....	3 hours
ISAT 645: Mathematical Modeling for Science and Technology	3 hours
ISAT 655: Error and Risk Analysis	3 hours
ISAT 690: Special Topics in Science and Technology.....	3 hours
ENGL 548: Advanced Professional and Technical Writing	3 hours

Discipline Specific Courses

Three courses in the chosen discipline.....	9 hours
---	---------

Thesis/Research Project

One of the following:

ISAT 770: Thesis or ISAT 771: Research Project.....	6 hours
---	---------

Total	33 hours
-------------	----------

Curriculum for the Master of Science in
Integrated Science and Technology
Specialist Concentration

Seminar Courses

One or both of the following:

ISAT 600: Applied Science Seminar I.....	3 hours
ISAT 601: Applied Science Seminar II.....	3 hours

Core Courses

If one Seminar Course is taken, then three of the following ten courses outside the chosen discipline. If two Seminar Courses are taken, then two of the following ten courses outside the chosen discipline.

ISAT 605: Research and Development in Industrial Technology	3 hours
ISAT 615: Technology in Industry and Society	3 hours
ISAT 625: Applications of Computing in Science and Technology	3 hours
ISAT 635: Industrial Chemistry.....	3 hours
ISAT 645: Mathematical Modeling for Science and Industry.....	3 hours
ISAT 651: Applied Knowledge Discovery for Engineering Science	3 hours
ISAT 655: Error and Risk Analysis	3 hours
ISAT 670: Pattern Recognition and Applications for Engineering and Science	3 hours
ISAT 690: Special Topics in Science and Technology.....	3 hours
ENGL 548: Advanced Professional and Technical Writing	3 hours

Discipline Specific Courses¹

Six courses in chosen discipline (Thesis).....	18 hours
Seven courses in chosen discipline (Research Project)	21 hours

Thesis/Research Project

One of the following:

ISAT 770: Thesis	6 hours
ISAT 771: Research Project.....	3 hours

Total	36 hours
-------------	----------

¹At least four out of the discipline specific courses have to be at the 600 level.

Core Courses: The core courses meet the dual challenge of broadening and extending training in the individual areas as well as providing experience in applying these individual disciplines to the design and development of products and processes within business and industry. The core courses introduce elements that will pervade the entire program and unify, or connect, the components of the program of study. A unique aspect of the ISAT degree program is the seamless integration of the social context of science and technology throughout the program's

curriculum. Students in this program will study all aspects of real systems regardless of their nature, including scientific, technical, social, informational and political characteristics.

Discipline of Study: Students will select discipline of study from: Chemistry, Computer Science, Data Science, Industrial Technology, Mathematics, Physics, or Scientific Computation.

Research Project and Theses: All ISAT students are required to complete a research project that investigates a significant interdisciplinary, applications-oriented topic centered in their area of concentration. Students will develop their research project topics in consultation with their advisor and Southeastern faculty members who have backgrounds in the proposed area of research. Research project topics must involve one or more ISAT disciplines and, at the completion of the research project, there must be evidence that the student has done sufficient work or followed an idea that was sufficiently unique to be worthy of an ISAT's master's degree. Research project topics should be chosen by the end of the student's second semester. In their last semester, all ISAT students are required to make a presentation of their research project results to the Degree Committee and invited guests. Students can opt to put together a detailed written description of their research work in a thesis that they will then be able to present to prospective graduate programs or employers. The student's advisor should help the student with the decision of whether or not to write a thesis. ISAT students writing a thesis are required to earn 6 hours of credit in ISAT 770. ISAT students who do not write a thesis are required to earn 6 hours of credit in ISAT 771.

Degree Committee: Each candidate for the ISAT degree will have a Degree Committee that will work with the student to select his or her course of study and the project or thesis for the research component of the degree. Each Degree Committee will consist of two faculty members from the student's major area, one faculty member from an area also involved in the degree, and a representative from business or industry is highly recommended. A student's Degree Committee will be selected no later than the second semester in the program. The research project topic will be chosen during the student's first year in the program, but after completion of the Applied Science Seminars. Students deemed to be making insufficient progress toward their degrees will be notified of the problems identified by the committee, and will be given up to one semester to make improvements.

Music
College of Arts, Humanities and Social Sciences
Leading to the Degree of Master of Music (M.MUS.)

Purposes

The purposes of the music program within the Department of Music and Performing Arts is to:

1. Provide professional preparation in music and teaching.
2. Provide a center of art, scholarship, and research.

Admission Requirements

For admission to the Master of Music degree program, the applicant must:

1. Meet all University admission requirements.
2. Demonstrate, by examination, skills and capacities in the following fields:
 - a. Theory-written, aural, and keyboard skills, including proficiency in sight singing and in melodic, harmonic, and rhythmic dictation.
 - b. The history and literature of music and the study of musical form.
 - c. The ability to play piano accompaniments and scores as needed in the work to be pursued.
 - d. Evidence of sufficient technical preparation and musicianship to satisfy demands of graduate studies in the fields of applied music. For singers, technical preparation includes diction.
3. Have a Bachelor of Music, Bachelor of Music Education, Bachelor of Arts in Music, or a Bachelor of Science in Music degree.
4. Have performed a Senior Recital to be admitted to the Master of Music in Performance degree program.

Requirements for Degree

The Master of Music degree is granted with concentrations in music theory, performance, instrumental conducting, and choral conducting.

Each graduate student is required to enroll in a major ensemble during each semester of full-time registration, and each graduate performance major is required to enroll in the appropriate applied music course during each semester of full-time registration, as per the "Ensemble Experience Requirements" policy detailed in the Department of Music and Performing Arts section of the Catalog.

Master of Music - Concentration in Instrumental Conducting

Instrumental Conducting – Complete thirty-four (34) hours of music as follows: Twelve (12) hours of instrumental conducting, score-reading, and wind band literature (to include MUS 650, 652, 654, and 656), MUS 661, MUS 641, MUS 555, and MUS 642 (a major project and paper related to the graduate recital), four (4) hours of ensembles, MUSA 650, and three (3) hours of music electives. No more than four (4) hours of ensemble will be considered within the degree plan.

Requirements for Degree

Complete thirty-four (34) hours as follows:

Styles and Analysis (MUS 661).....	3 hours
Seminar in Music History and Literature (MUS 641) or Seminar in Music History (MUS 553)	3 hours
Research in Music (MUS 555)	3 hours
Directed Individual Study (MUS 642).....	3 hours
Graduate Recital (MUSA 650).....	3 hours
Score Study and Analysis – Instrumental (MUS 650)	3 hours
Wind Band Literature (MUS 652)	3 hours
Advanced Instrumental Conducting I (MUS 654).....	3 hours
Advanced Instrumental Conducting II (MUS 656)	3 hours
Music Elective	3 hours
Southeastern Wind Symphony (MUS 525).....	4 hours

First Year of Study

Semester One

Research in Music (MUS 555)	3 hours
Seminar in Music History and Literature (MUS 641)	3 hours
Advanced Instrumental Conducting I (MUS 654)	3 hours
Southeastern Wind Symphony (MUS 525).....	1 hour

Total: 10 hours / 10 accumulated

Semester Two

Styles and Analysis (MUS 661).....	3 hours
Advanced Instrumental Conducting II (MUS 656).....	3 hours
Directed Individual Study (MUS 642).....	3 hours
Southeastern Wind Symphony (MUS 525).....	1 hour

Total: 10 hours / 20 accumulated

Second Year of Study

Semester Three

Score Study and Analysis – Instrumental (MUS 650)	3 hours
Music Elective	3 hours
Southeastern Wind Symphony (MUS 525)	1 hour
Total 7 hours / 27 accumulated	

Semester Four

Graduate Recital (MUSA 650).....	3 hours
Wind Band Literature (MUS 652)	3 hours
Southeastern Wind Symphony (MUS 525).....	1 hour
Total: 7 hours / 34 accumulated	

Master of Music – Concentration in Choral Conducting

Choral Conducting – Complete thirty-four (34) hours of music as follows: Twelve (12) hours of choral conducting, score-reading, and choral literature (to include MUS 651, 653, 655, and 657), MUS 661, MUS 641, MUS 555, and MUS 642 (a major project and paper related to the graduate recital), four (4) hours of ensembles, MUSA 650, and three (3) hours of music electives. No more than four (4) hours of ensemble will be considered within the degree plan.

Requirements for Degree

Complete thirty-four (34) hours as follows:

Styles and Analysis (MUS 661).....	3 hours
Seminar in Music History and Literature (MUS 641) or Seminar in Music History (MUS 553)	3 hours
Research in Music (MUS 555)	3 hours
Directed Individual Study (MUS 642).....	3 hours
Graduate Recital (MUSA 650).....	3 hours
Score Study and Analysis – Choral (MUS 651)	3 hours
Choral Literature (MUS 653)	3 hours
Advanced Choral Conducting I (MUS 655).....	3 hours
Advanced Choral Conducting II (MUS 657).....	3 hours
Music Elective	3 hours
Concert Choir (MUS 538) or Woman’s Chorale (MUS 539).....	4 hours

First Year of Study

Semester One

Research in Music (MUS 555)	3 hours
Seminar in Music History and Literature (MUS 641)	3 hours
Advanced Choral Conducting I (MUS 655)	3 hours
Concert Choir (MUS 538) or Woman’s Chorale (MUS 539).....	1 hour
Total: 10 hours / 10 accumulated	

Semester Two

Styles and Analysis (MUS 661).....	3 hours
Advanced Choral Conducting II (MUS 657).....	3 hours
Directed Individual Study (MUS 642).....	3 hours
Concert Choir (MUS 538) or Woman’s Chorale (MUS 539).....	1 hour
Total: 10 hours / 20 accumulated	

Second Year of Study

Semester Three

Score Study and Analysis – Choral (MUS 651)	3 hours
Music Elective	3 hours
Concert Choir (MUS 538) or Woman’s Chorale (MUS 539).....	1 hour
Total 7 hours / 27 accumulated	

Semester Four

Graduate Recital in Music (MUSA 650).....	3 hours
Choral Literature (MUS 653)	3 hours
Concert Choir (MUS 538) or Woman’s Chorale (MUS 539).....	1 hour
Total: 7 hours / 34 accumulated	

Master of Music – Concentration in Music Theory

Theory – Complete thirty-four (34) hours in Music as follows: Nineteen (19) hours of theory (to include Music 661, 662, 665 and 770), six (6) hours of music history and literature (to include Music 641), Music 555, three (3) hours of ensembles, graduate performance practicum (643) and three (3) hours of electives. No more than three (3) hours of ensemble will be considered within the degree plan.

Requirements for Degree

Graduate Studies

Complete thirty-four (34) hours as follows:

Styles and Analysis (MUS 661)	3 hours
Thesis Research and Thesis (MUS 770)	6 hours
Styles and Analysis (MUS 662)	3 hours
Music Theory and Composition Electives	3 hours
Composition (MUS 665)	3 hours
Seminar in Music History and Literature (MUS 641)	3 hours
Music History and Literature Elective	3 hours
Research in Music (MUS 555)	3 hours
Graduate Performance Practicum (MUS 643)	1 hour
Music Ensembles	3 hours
Music Elective	3 hours

First Year of Study

Semester One

Research in Music (MUS 555)	3 hours
Styles and Analysis (MUS 661)	3 hours
Seminar in Music History and Literature (MUS 641)	3 hours
Music Ensemble	1 hour

Total: 10 hours / 10 accumulated

Semester Two

Styles and Analysis (MUS 662)	3 hours
Music History and Literature Elective	3 hours
Music Elective	3 hours
Music Ensemble	1 hour

Total: 10 hours / 20 accumulated

Second Year of Study

Semester Three

Composition (MUS 665)	3 hours
Graduate Performance Practicum (MUS 643)	1 hour
Music Ensemble	1 hour

Total 5 hours / 25 accumulated

Semester Four

Music Theory and Composition Elective	3 hours
Thesis (MUS 770)	6 hours

Total: 9 hours / 34 accumulated

Master of Music – Concentration in Performance

Performance – Complete thirty-four (34) hours of Music as follows: six (6) hours of music theory (to include MUS 661 and 662), six (6) hours of music history and literature (to include MUS 641), MUS 555, nine (9) hours of 600-level applied music, four (4) hours of ensembles, Applied Music graduate recital (MUSA 650), and three (3) hours of Music electives. No more than four (4) hours of ensemble will be considered within the degree plan.

Requirements for Degree

Complete thirty-four (34) hours as follows:

Styles and Analysis (MUS 661)	3 hours
Styles and Analysis (MUS 662)	3 hours
Seminar in Music History and Literature (MUS 641) or Seminar in Music History (MUS 553)	3 hours
Music History and Literature Elective	3 hours
Research in Music (MUS 555)	3 hours
Applied Music	9 hours
Graduate Recital (MUSA 650)	3 hours
Music Ensembles	4 hours
Music Elective	3 hours

First Year of Study

Semester One

Applied Music	3 hours
Music Ensemble	1 hour
Research in Music (MUS 555)	3 hours
Styles and Analysis (MUS 661)	3 hours

Total: 10 hours / 10 accumulated

Semester Two

Applied Music	3 hours
Music Ensemble	1 hour

Southeastern Louisiana University

Seminar in Music History and Literature (MUS 641) or Seminar in Music History (MUS 553) 3 hours
Styles and Analysis (MUS 662) 3 hours
Total: 10 hours / 20 accumulated

Second Year of Study

Semester Three

Applied Music 3 hours
Music History and Literature Elective 3 hours
Music Ensemble..... 1 hour
Total 7 hours / 27 accumulated

Semester Four

Graduate Recital (MUSA 650)..... 3 hours
Music Elective..... 3 hours
Music Ensemble..... 1 hour
Total: 7 hours / 34 accumulated

Nursing
College of Nursing and Health Sciences
Leading to the Degree of Master of Science in Nursing (M.S.N.)

Intercollegiate Consortium for a Master of Science in Nursing
Description of the Program

The Intercollegiate Consortium for a Master of Science in Nursing program (ICMSN) is a cooperative venture among the nursing units at Southeastern Louisiana University, McNeese State University, Nicholls State University, and the University of Louisiana at Lafayette. The ICMSN is accredited by the Commission on Collegiate Nursing Education (CCNE), 655 K Street, NW, Suite 750, Washington DC, 20001, 202-887-6791.

The consortium structure allows students to enroll in courses at any one of the participating universities and receive credit toward the master's degree. Southeastern Louisiana University, McNeese State University, Nicholls State University, and the University of Louisiana at Lafayette offer concentrations in Family Nursing, Nursing Education, and Psychiatric/Mental Health Nursing. The advanced nursing role concentrations offered through the consortium are nursing education and nurse practitioner. Students successfully completing the MSN curriculum at Southeastern Louisiana University meet educational requirements to take the following national certification examinations:

- Nurse Practitioner Role: Family Nurse Practitioner, or Psychiatric/Mental Health Nurse Practitioner
- Nursing Educator Role: Nursing Education

Purposes

The purposes of the Master of Science in Nursing program are to:

1. Provide a base in nursing theory, nursing research, and issues relative to advanced nursing practice.
2. Provide for advanced clinical specialization in Family Nursing or Psychiatric/Mental Health Nursing.
3. Provide for advanced role preparation as a nurse practitioner or nurse educator.

Admission Requirements

All materials must be submitted, for review, by the deadline posted on the graduate nursing website, www.southeastern.edu/graduatenuing, for consideration to begin course work.

A. Regular Admission

1. A baccalaureate degree in nursing from an accredited undergraduate nursing program.
2. Transcripts from undergraduate school and any work attempted at the graduate level. Applicants must be in Satisfactory standing in graduate nursing program at last institution attended (if applicable).
3. Curriculum vita (resume) including the applicant's full name, address, telephone number(s), e-mail address(es), academic preparations, degrees held, honors, awards, special interest, work history, and other relevant information.
4. A minimum cumulative grade point average of 2.7 on 4.0 scale for all undergraduate work including courses repeated as indicated by a transcript.
5. Evidence of a valid, unencumbered Louisiana Registered Nurse license.
6. Completion of a course in introductory statistics with a minimum grade of "C" or equivalent.
7. Documentation of Physical Assessment skills for the following roles: Nurse Practitioner and Nurse Educator.
8. Letters of recommendation.
9. A statement of intent/purpose with rationale for pursuing study in selected concentration.

During the first semester of enrollment of regular admission the student must:

1. File a degree plan with the departmental graduate coordinator in accordance with the General Requirements for the Master's Degree in the Graduate Studies section of the General Catalog.
2. Submit a complete history and physical examination.
3. Submit current certification in CPR (every 2 years), submit annual TB results, and obtain immunizations determined appropriate by the Graduate Nursing Program.
4. Submit a negative drug screen.
5. Submit an acceptable background check.

B. Contingent Admission

- A graduating senior in an accredited BS nursing program may be admitted in contingent status and may register for graduate credit if he/she meets the criteria of Graduate Studies.
- A student may be admitted in contingent status when lacking the final transcript showing completion of a degree or when a satisfactory GRE score is not provided. Failure to qualify for regular admission status before the second semester of course work will prevent the student from registering for the next semester.

C. Non-Degree Classified Admission

Applicants not granted regular admission due to their GRE score may be allowed to register for graduate nursing courses in the non-degree classified status for one semester. Priority for registering for graduate nursing courses is provided to regular admission status students.

Retention and Progression Requirements

- A student must earn a "B" in each course in the program to be eligible for progression.
- A student who earns a grade below a "B" will be placed on probation and must repeat the course within two regular semesters and earn at least a "B." If a grade below "B" is earned in the subsequent course, the student will be dismissed from the program.

Southeastern Louisiana University

- A student who earns more than two grades of "W" in the program is not eligible for progression. A student may appeal progression for extenuating circumstances. "W" grades received as the result of an approved resignation from the University are not included in this calculation.
- A graduate student who makes a grade of "D" or "F" in any course taken for graduate credit will be ineligible to register for further graduate work. A student who receives a "D" or "F" because of extenuating, non-academic reasons may appeal for readmission.
- Prior to beginning any clinical/practicum course, the student must have evidence of one year of clinical practice experience in an area appropriate to the specialty concentration as an R.N.
- The School of Nursing reserves the right to investigate situations which may affect the student's ability to function. In addition, a physician's release may be required. Students who have health conditions that may prevent their meeting the objectives of the program or a course in the program or that may cause potential injury to that student or to the clients for whom they care, will be required to have a personal interview with the Department Head or Dean or with an appropriate School of Nursing Committee.
- Drug testing will be required.
- Students enrolled in practicum graduate courses are required to maintain current certification in CPR and meet other agency requirements.
- Any student who does not enroll in graduate nursing courses toward a degree for 2 consecutive regular semesters must reapply to the program. For reconsideration, students must submit any transcripts reflecting course work elsewhere during that time.

Admission Procedures

Students entering the Consortium must apply to the University and to Southeastern Graduate Nursing Program at the same time. See the Admission to the University section for application deadlines and fees.

Registration Procedures

- Registration for core and role courses will be held at each consortium institution according to their published dates and procedures. An advisor at each institution is available to assist students. Information and downloadable forms are available from the School of Nursing webpage, www.southeastern.edu/graduatenursing.
- The fees assessed a student will be those in effect at the institution offering the course(s) for which the student is registering. A Professional Degree fee will be assessed each semester of coursework. Students will also be assessed fees for proctored testing of online courses.
- All courses offered are subject to resources available and sufficient student enrollment.
- Full-time degree plans require from 7-10 credit hours per semester; part-time degree plans require 6 credit hours per semester.
- For limited course slots, preference will be given to regular admission status.

Graduation Requirements

Graduation from any of the member institutions is based on the satisfactory completion of an approved program of studies. In addition, students must meet all requirements of the institution from which specialty courses are taken.

Residency Requirements

All credit hours earned at any of the consortium institutions are applicable to residency requirements at each member school.

Requirements for Degree

To receive the Master of Science in Nursing (MSN) degree with a specialty concentration, the student must:

1. Complete all the requirements of the degree plan, including:
 - a. A minimum of 40-43 credit hours for the Nurse Education concentration.
 - b. A minimum of 42-45 credit hours for the Family Nurse Practitioner.
 - c. A minimum of 48-51 credit hours for the Psychiatric/Mental Health Nurse Practitioner concentration.
2. Complete a Focused Scholarly Project or a Thesis.
3. Achieve a grade of "B" or better in each course.

Concentrations

Concentration: Nursing Education – Complete 40-43 credit hours. The required courses are:

Semester 1

NURS 600: Theoretical Foundations of Advanced Nursing	3 hours
NURS 605: Applied Statistics for the Health Sciences.....	3 hours
NURS 618: Pathophysiology for Advanced Practice	3 hours
NURS 634: Nursing Education: Roles, Issues, and Foundations.....	3 hours

Semester 2

NURS 602: Generating Evidence for Nursing Practice	3 hours
NURS 607: Health Assessment and Diagnostic Reasoning for Advanced Practice	3 hours/60 hours lab
NURS 617: Pharmacotherapeutics for Advanced Practice	3 hours
NURS 635: Curriculum and Program Development.....	3 hours

Semester 3

NURS 636: Teaching Methodologies and Technologies.....	3 hours
NURS 670: Measuring Outcomes in Nursing Education.....	3 hours
NURS 644: Advanced Clinical Practicum in Nursing Practice.....	1 hour/60 hours lab
NURS 695: Focused Scholarly Project or NURS 699 Thesis.....	3 hours

Graduate Studies

Semester 4

NURS 609: Population Based Primary Care	3 hours
NURS 657: Advanced Nursing Education Practicum.....	3 hours/180 hours lab
*NURS 699: Thesis (if chosen)	3 hours

Total Credit Hours 40
 Total Clinical Hours 240
 Total Hours if Thesis is Chosen 43 credit hours/240 practicum hours

***Note:** All students must complete either Thesis (NURS 699) OR Focused Scholarly Project (NURS 695). Students who elect to enroll in Thesis will earn a total of 6 credits. Students who elect to enroll in Focused Scholarly Project will earn a total of 3 credits.

Concentration: Family Nurse Practitioner – Complete 42-45 credit hours. The required courses are:

Semester 1

NURS 600: Theoretical Foundations of Advanced Nursing	3 hours
NURS 605: Applied Statistics for the Health Sciences.....	3 hours
NURS 618: Pathophysiology for Advanced Practice.....	3 hours

Semester 2

NURS 602: Generating Evidence for Nursing Practice	3 hours
NURS 607: Health Assessment and Diagnostic Reasoning for Advanced Practice	3 hours credit/60 hours laboratory
NURS 617: Pharmacotherapeutics for Advanced Practice	3 hours

Semester 3

NURS 609: Population Based Primary Care	3 hours
NURS 682: Advanced Practice Nursing: Family Health I.....	5 hours credit/180 hours practicum

Semester 4

NURS 683: Advanced Practice Nursing: Family Health II.....	5 hours credit/210 hours practicum
NURS 681: Business, Leadership and Health Policy for Nurse Practitioners.....	3 hours
NURS 695: Focused Scholarly Project <u>OR</u> NURS 699: Thesis.....	3 hours

Semester 5

NURS 684: Advanced Practice Nursing: Family Health III Practicum.....	5 hours credit/210 hours practicum
NURS 699: Thesis (if chosen).....	3 hours

Total Credit Hours 42
 Total Clinical Hours 600
 Total Hours if Thesis is Chosen 45 credit hours/600 practicum hours

***Note:** All students must complete either Thesis (NURS 699) OR Focused Scholarly Project (NURS 695). Students who elect to enroll in Thesis will earn a total of 6 credits. Students who elect to enroll in Focused Scholarly Project will earn a total of 3 credits.

Concentration: Psychiatric/Mental Health Curriculum; Nurse Practitioner – Complete 48-51 credit hours. The required courses are:

Semester 1

NURS 600: Theoretical Foundations of Advanced Nursing	3 hours
NURS 605: Applied Statistics for the Health Sciences.....	3 hours
NURS 617: Pharmacotherapeutics for Advanced Practice	3 hours

Semester 2

NURS 602: Generating evidence for Nursing Practice	3 hours
NURS 607: Health Assessment and Diagnostic Reasoning for Advanced Practice	3 hours credit/60 hours laboratory
NURS 608: Diagnostic Considerations and Psychopharmacology for Psychiatric Disorders	3 hours

Semester 3

NURS 609: Population Based Primary Care	3 hours
NURS 618: Pathophysiology for Advanced Nursing Practice	3 hours
NURS 690: Psychotherapy for Advanced Practice Psychiatric Nursing (Fall Only)	3 hours credit/60 hours observation

Semester 4

NURS 691: Advanced Practice Nursing: Psych/Mental Health I (Spring Only).....	5 hours credit/180 hours practicum
---	------------------------------------

Semester 5

NURS 692: Advanced Practice Nursing: Psych/Mental Health II (Fall Only)	5 hours credit/210 hours practicum
NURS 681: Business, Leadership and Health Policy for Nurse Practitioners.....	3 hours
*NURS 695: Thesis (if chosen)	3 hours

Semester 6

NURS 693: Advanced Practice Nursing: Psych/Mental Health III (Spring Only).....	5 hours credit/210 hours practicum
*NURS 695: Focused Scholarly Project or NURS 699: Thesis (if chosen)	3 hours

Total Credit Hours 48
 Total Clinical Hours 600
 Total Hours if Thesis is Chosen 51 credit hours/600 practicum hours

***Note:** All students must complete either Thesis (NURS 699) OR Focused Scholarly Project (NURS 695). Students who elect to enroll in Thesis will earn a total of 6 credits. Students who elect to enroll in Focused Scholarly Project will earn a total of 3 credits.

Admission to the Family OR Family Psychiatric/Mental Health Nurse Practitioner concentration at Southeastern means that the MSN degree-seeking student is eligible to progress to the NP practicum courses when the following courses have been completed in the program of study.

- NURS 600: Theoretical Foundations of Advanced Nursing Practice (3 credit hours)
- NURS 602: Generating Evidence for Nursing Practice (3 credit hours)
- NURS 605: Applied Statistics for the Health Sciences (3 credit hours)
- NURS 607: Health Assessment and Diagnostic Reasoning for Advanced Practice (3 credit hours)
- NURS 617: Pharmacotherapeutics for Advanced Practice (3 credit hours)

Post-Master’s Certificate Program

The Post-Master of Science in Nursing Certificate Program is offered through an affiliation with the Intercollegiate Consortium for a Master of Science in Nursing.

Nurse Practitioner to Psychiatric/Mental Health Nurse Practitioner

This program is fully approved by the Louisiana State Board of Nursing and is accelerated, offering completion of the Post-Master’s Psychiatric/Mental Health Nurse Practitioner (PMHNP) Certificate in 4 semesters. Nurses currently holding a master’s degree in nursing from a nationally accredited graduate nursing program and a national certification as an Adult Nurse Practitioner, Family Nurse Practitioner, Geriatric Nurse Practitioner, Acute Care Nurse Practitioner, Women’s Health Nurse Practitioner, are eligible to apply to the Post-Master’s Psychiatric/Mental Health Nurse Practitioner (PMHNP) certificate program. The Post-Master’s Certificate Program will prepare completers as Psychiatric/Mental Health Nurse Practitioners (PMHNP) and make them eligible to apply for an advanced practice PMHNP license and to take the National PMHNP certification exam. Formal application to the University is required.

Other factors considered for admission to the program include:

- A minimum graduate GPA of 3.00 as verified by transcript submission
- A current unencumbered registered nurse license in the State of Louisiana
- Two professional references
- Current resume
- Transcript analysis and evaluation of prerequisite courses (i.e., Advanced Health Assessment, Advanced Pharmacotherapeutics and Advanced Pathophysiology) to determine adequacy of the full lifespan content

The didactic courses are offered online and practicum courses have an online didactic component plus a clinical experience component (120 – 240 hours in each) in which the student works with an approved advanced practice preceptor guided by a graduate faculty. The curriculum for Psychiatric/Mental Health Nurse Practitioners includes:

Fall Semester I

- NURS 608: Diagnostic Considerations and Psychopharmacology for Psychiatric Disorders 3 hours
- NURS 690: Psychotherapy for the Advanced Practice Nurse 3 hours

Spring Semester I

- NURS 691: Advanced Practice Nursing: Psychiatric/Mental Health (PMH) I 5 hours

Fall Semester II

- NURS 692: Advanced Practice Nursing: Psychiatric/Mental Health (PMH) II 5 hours

Spring Semester II

- NURS 697: Advanced Practice Nursing: Psychiatric/Mental Health (PMH) III 4 hours

- Total Credit Hours 20 hours
- Total Clinical Hours 510 hours

Population Health Management College of Nursing and Health Sciences Leading to the Degree of Master of Science (M.S.)

Purposes

The Master of Science in Population Health Management prepares students to be advanced practitioners in the emerging field of Population Health Management. Graduates of this program will be able to:

1. Analyze community and individual factors that influence health.
2. Develop innovative approaches and interventions to improve health outcomes.
3. Develop effective practice that reduces healthcare costs.

Admission Requirements

For full admission, the following must be met.

1. A completed health or science-related degree. The health and science related degrees could include Health Sciences, Human Sciences, Psychology, Physiology, Biology, Social Sciences, Kinesiology, Health Systems Management, Communication Science Disorders, Nursing, Social Work or related studies.
2. A minimum cumulative grade point average (GPA) of 3.0 on a 4.0 scale for all undergraduate work.
3. Completion of prerequisite courses with evidence of academic study and/ or acquired knowledge of:
 - a. Medical terminology
 - b. Research methods
 - c. Statistics
 - d. A course in human disease and/or pathophysiology.
4. A one-page letter of intent detailing your interest in Population Health Management.
5. Two letters of recommendation.

Requirements for Degree Program Retention and Progression

Students enrolled in the program will be required to complete all coursework, earning no less than a "B" in all courses; and earning a passing score on their capstone project.

Requirements for Program Retention and Progression

1. A student must earn a "B" in each course in the program to be eligible for progression.
2. A student who earns a grade below a "B" will be placed on probation and must repeat the course and earn at least a "B." If a grade below a "B" is earned in the subsequent course, the student may be dismissed from the program.
3. A student who earns more than two grades of "W" in the program is not eligible for progression. A student may appeal progression for extenuating circumstances. "W" grades received as a result of an approved resignation from the University are not included in this calculation.
4. A student who earns a "D" or "F" in any course taken for graduate credit may be ineligible for further graduate work. A student who earns a "D" or "F" because of extenuating, nonacademic circumstances may appeal for readmission.
5. The College of Nursing and Health Sciences reserves the right to investigate situations which may affect the student's ability to function. In addition, a physician's release may be required. Students who have health conditions that may prevent their meeting the objectives of the program or a course in the program or that may cause potential injury to the student or the patients for whom they care, will be required to have a personal interview with the Department Head or Dean or with an appropriate College of Nursing and Health Sciences committee.
6. Drug testing will be required prior to enrollment in the capstone course.
7. Federal background check will be required prior to enrollment in the capstone course.
8. Students enrolled in the capstone course are required to meet other agency requirements.

Program Application Admission Deadlines

For Fall Admission, all application materials must be submitted to the Graduate Coordinator no later than June 30. For Spring Admission, all application materials must be submitted to the Graduate Coordinator no later than November 1. Upon evaluation of application materials, qualified applicants will be invited to participate in an interview. Interviews may be on campus or held via video conferencing.

Admission Notification

Admission to the Population Health Management program is selective and requires a favorable evaluation by the Population Health Management Program Admissions Committee. Within two weeks after participation in the program admission interview, applicants will be notified that they are either accepted or not accepted for admission.

Curriculum

There are two paths students may choose from: Accelerated path or Traditional path. The Accelerated path may be completed in one year and will require full-time enrollment during the regular semesters along with summer and intersessions. The Traditional path may be completed in two years.

Southeastern Louisiana University

Accelerated Path

Fall Semester

PHM 601: Essentials of Population Health Science.....	3 hours
PHM 602: Research Science and Translation	3 hours
PHM 603: Introduction to Biostatistics	3 hours
PHM 605: Epidemiology and Health Determinants	3 hours

Fall Intersession

*Elective.....	3 hours
----------------	---------

Spring Semester

PHM 610: Wellness, Disease Prevention, and Management.....	3 hours
PHM 611: Healthcare Systems Management and Project Management.....	3 hours
PHM 612: Health Informatics	3 hours
PHM 613: Health Leadership, Economics and Policy	3 hours

Spring Intersession

*Elective.....	3 hours
----------------	---------

Summer Semester

PHM 621: Research Science and Dissemination	2 hours
PHM 635: Capstone Project.....	3 hours

Total	35 hours
-------------	----------

***Electives may include:**

PHM 625 Social Determinants of Health	3 hours
PHM 626 program Planning and evaluation for Population Health	3 hours
PHM 627 Global Health	3 hours
PHM 628 Health Navigation I: Theories and Methods of behavior Change.....	3 hours
HSCI 700: Communication Across Cultures, Professions, and Languages in Healthcare Settings.....	3 hours

Traditional Path

Students on the traditional path have some flexibility in scheduling courses and will work with the graduate advisor to design their degree path.

Students on the traditional path are required to take two courses per semester along with an intersession elective. Students are required to take a second research class and complete a capstone project to consolidate their learning during the final two semesters of their program. Students will complete 35 hours in total for their program.

Psychology
College of Arts, Humanities and Social Sciences
Leading to the Degree of Master of Arts (M.A.)

Purposes

The purposes of offering graduate study in the Department of Psychology are:

1. To prepare the student for a Ph.D. program in Psychology through a Master of Arts degree program providing knowledge and research skills.
2. To provide students not intending to pursue a Ph.D. degree with a variety of courses that will help prepare them for paraprofessional positions.

Requirements for Admission

To be considered for admission to the Master of Psychology degree program, the applicant must meet the following criteria:

1. Complete the university graduate application and meet all University admission requirements.
2. Have taken at least 18 semester hours of undergraduate credit in psychology and/or educational psychology, including at least three semester hours each in a statistics course and in a general experimental (laboratory) course.
3. An undergraduate grade point average (GPA) of 3.00 or higher in all psychology and/or educational psychology courses attempted is expected to be considered for regular admission and a minimum 2.50 is expected to be considered for provisional admission.
4. Under the Graduate Record Exam (GRE) scoring system instituted in 2011, a combined score of at least 294 on the Verbal and Quantitative sections of the GRE is typically expected in order to be considered for regular admission status. A combined score of at least 289 is typically expected to be considered for provisional status. A GRE score for the psychology subject test is not required, but may offset a low combined verbal and quantitative score.
5. Submit a personal statement and at least three appropriate, satisfactory letters of reference.
6. Applicants are reviewed in a comprehensive manner and admission to the program is selective and limited in order to guarantee progression through the program. Application materials such as the personal statement, letters of recommendation and relevant research experience are given serious consideration in addition to grades and GRE scores. To guarantee review, application materials should be received by March 15 for Fall admission and by October 15 for Spring admission.

Requirements for Degree

To receive the Master of Arts degree in Psychology, the student must:

1. Pass 38 hours of graduate courses, including 6 hours of thesis approved by student's thesis committee or 6 hours of non-thesis project approved by the non-thesis graduate faculty advisory committee. Psychology 649 Independent Skills Augmentation for Research may not be counted toward the required 38 hours. Hours completed in thesis (Psychology 770) will not count toward the required hours for non-thesis project (Psychology 771) and completed non-thesis project hours (Psychology 771) will not be counted toward the completion of the thesis (Psychology 770).
2. Maintain a 3.0 cumulative GPA with no more than two grades of "C" for the entire program. A grade of at least "B" is required for satisfactory completion of Psychology 635 and Psychology 636.
3. Pass comprehensive examinations administered by the Department. This requirement is satisfied by a grade of "B" or better on the final exam in Psychology 635, Psychology 636, Psychology 612, Psychology 613, and Psychology 614.

Course Requirements

Required Courses (26 hours)

PSYC 635: Experimental Design and Analysis	4 hours
PSYC 636: Non-experimental Design and Analysis	4 hours
PSYC 612: Learning, Memory, and Cognition	3 hours
PSYC 613: Physiological Psychology.....	3 hours
PSYC 614: Social Psychology	3 hours
PSYC 660: Special Topics in Psychology or PSYC 661: Special Topics in Industrial/Organizational Psychology	3 hours
PSYC 770: Thesis or PSYC 771: Non-Thesis Project	6 hours

Elective Courses (12 hours)

PSYC 521: History and Systems of Psychology	3 hours
PSYC 522: Abnormal Psychology	3 hours
PSYC 549: Individual Research in Psychology	3 hours
PSYC 552: Industrial Psychology.....	3 hours
PSYC 570: Organizational Psychology	3 hours
PSYC 582: Seminar in Psychology	3 hours
PSYC 615: Psychological Assessment	3 hours
PSYC 616: Theories of Personality	3 hours
PSYC 620: Developmental Psychology.....	3 hours
PSYC 679: Psychotherapy Techniques.....	3 hours
PSYC 668: Independent Readings in Psychology	3 hours
PSYC 683: Practicum	3 hours
PSYC 692: Psychopharmacology	3 hours

PSYC 660: Special Topics in Psychology or PSYC 661: Special Topics in Industrial/Organizational Psychology up to 9 hours

Concentration in Industrial/Organizational Psychology

First Year

First Semester

PSYC 635: Experimental Design and Analysis..... 4 hours
PSYC 614: Social Psychology 3 hours
PSYC 612: Learning, Memory, and Cognition 3 hours

Second Semester

PSYC 636: Non-experimental Design and Analysis 4 hours
PSYC 613: Physiological Psychology..... 3 hours
PSYC 661: Special Topics in Industrial/Organizational Psychology..... 3 hours

Second Year

First Semester

PSYC 615: Psychological Assessment 3 hours
PSYC 683: Practicum 3 hours
PSYC 770: Thesis or PSYC 771: Non-Thesis Project 3 hours

Second Semester

PSYC 661: Special Topics in Industrial/Organizational Psychology..... 3 hours
PSYC 683: Practicum 3 hours
PSYC 770: Thesis or PSYC 771: Non-Thesis Project 3 hours

Thesis Plan

Thesis Requirements

A complete description of the thesis requirements (as well as other departmental policies) can be found in the *Guide to Graduate Study in Psychology at Southeastern Louisiana University* given to all students when they first enter the program.

Thesis Committee

The student will be supervised by a thesis committee consisting of the major professor and a minimum of two other members from the Psychology faculty. Committees may include one member from outside the Department in addition to the required three members from the department. The committee should be chosen by the student in consultation with the major professor. Faculty chosen for the committee should not be asked to serve until the student and major professor have agreed on the exact topic for the thesis as well as the methodology to be used.

Major Professor

The major professor who directs the thesis project must be a member of the Psychology Department faculty and a member of the Graduate Faculty. A faculty member is limited to chairing three thesis committees at a time, with no more than two in the pre-proposal stage.

After 2 semesters, if the thesis proposal has not been accepted, the major professor's commitment to the project ends. In addition, if the entire thesis project has not been completed in 2 years, the major professor's commitment to the project ends. In the event that a student goes past one of the thesis deadlines, it may be necessary to change major professors and possibly thesis topic (this applies even to students who have thesis proposals approved).

Progression

Students who have not successfully proposed the thesis within 2 regular semesters of eligibility will be required to enroll in PSYC 649 Independent Skills Augmentation for Research each semester concurrently with thesis (PSYC 770) until the student has successfully proposed. Students who have not successfully defended the thesis within 2 regular semesters of proposing will be required to enroll in Psychology 649 Independent Skills Augmentation for Research each semester concurrently with thesis (Psychology 770) until the student has completed all requirements for the defense, including those outlined in the University's Thesis and Dissertation Standards.

Non-Thesis Plan

Non-Thesis Project Requirements

The non-thesis plan is designed for students specifically interested in paraprofessional positions, and not for students hoping to pursue Ph.D. program placement. Faculty will not write letters of recommendation for non-thesis plan students who apply to Ph.D. programs. A complete description of the non-thesis project requirements (as well as other departmental policies) can be found in the *Guide to Graduate Study in Psychology at Southeastern Louisiana University* given to all students when they first enter the program and posted online. The project should be developed to reflect the student's long-term career goals in a paraprofessional position and must be approved by the non-thesis graduate faculty advisory committee.

Non-Thesis Project Committee

Students who opt to complete a non-thesis project must also select a major professor to supervise the project. Students must submit a project proposal during a departmental seminar that must be approved by the non-thesis graduate faculty advisory committee the semester prior to its completion. All non-thesis students must also present a non-thesis project defense during a departmental seminar describing the non-thesis project the semester of its completion. This must at a minimum include a review paper on the area of study and a presentation before the non-thesis graduate faculty advisory committee. Students have one opportunity to repeat the seminar in the event of unsatisfactory performance. Departmental seminar dates will be made available at the beginning of each semester (see graduate guide or graduate coordinator).

Major Professor

The major professor who directs the non-thesis project must be a member of the Psychology Department faculty and a member of the Graduate Faculty. After 2 semesters, if the non-thesis project proposal has not been accepted, the major professor's commitment to the project ends. In addition, if the entire non-thesis project has not been completed in 2 years, the major professor's commitment to the project ends. In the event that a student goes past one of the non-thesis deadlines, it may be necessary to change major professors and possibly non-thesis topics (this applies even to students who have non-thesis proposals approved).

Progression

Students who have not successfully proposed the non-thesis project within 2 regular semesters of eligibility will be required to enroll in Psychology 649 Independent Skills Augmentation for Research each semester concurrently with non-thesis (Psychology 771) until the student has successfully proposed. Students who have not successfully defended the non-thesis project within 2 regular semesters of proposing will be required to enroll in Psychology 649 Independent Skills Augmentation for Research each semester concurrently with non-thesis (Psychology 771) until the student has completed all requirements for the defense.

Applied Sociology
College of Arts, Humanities and Social Sciences
Leading to the Degree of Master of Science (M.S.)

Purpose

Applied sociology is an academic area that applies social research and theory in real world settings such as planning, development, evaluation, and problem solving by organizations and agencies.

The purpose of Southeastern's Master of Science program in Applied Sociology is to:

1. Teach students how to use the theories and research methods of sociology to solve real world problems.
2. Train students to utilize the sociological perspective to research, analyze and develop strategies for the effective and efficient functioning of community institutions, organizations and groups of individuals.
3. Prepare students to deal with contemporary issues of multiculturalism and globalization that condition the problems and solutions with which such professionals will deal.
4. Prepare students to be able to work with diverse populations and develop a clear understanding of the extent, causes, consequences and potential solutions to the problems of inequality, prejudice and discrimination.
5. Promote an understanding of the dynamic relationship between the human population and the natural environment.

Admission Requirements

Applicants for admission to the Master of Science Degree Program in Applied Sociology must meet the following criteria:

1. Meet all University admission requirements including submitting a completed application for admission and payment of the application fee.
2. A Bachelor's degree from an accredited institution in Sociology, Criminal Justice, or a related field.
3. Satisfactory completion of prerequisite courses: sociological theory, social research methods and elementary social statistics. At the Graduate Faculty Committee's discretion, students may be required to take some or all prerequisite courses before being allowed to enroll in the department's 600 and 700 level classes.
4. Students with a GPA of 3.0 or higher (overall or last 60 hours) will be eligible for a waiver of the GRE from the department and allow for a regular admission status.
5. Students with an overall GPA of 2.8-2.99 for their last 60 hours of course work will be eligible for a waiver from the department on a provisional status. Acceptance under provisional admission means that the Department of Sociology and Criminal Justice will require that the admitted student earn a 3.0 GPA for their first nine hours, after which they will convert to a regular admission.
6. Students with a GPA below 2.8 must earn an admissions index score of at least 450 points for a provisional admission and a score of at least 500 points for a regular admission. The index score is calculated using the student's GPA (overall or last 60 hours, whichever is higher) multiplied by 100 plus the total GRE score (verbal and quantitative) multiplied by 0.85: $[(\text{GPA} \times 100) + (\text{GRE} \times 0.85)]$.
7. Students will be required as part of the application packet to submit a personal/autobiographical statement. This statement should provide background information on the applicant, such as educational and work background, their undergraduate studies and how they believe this has prepared them for graduate work. Additionally, this statement should include a discussion as to what drew them to the Masters of Applied Sociology program and how they see this degree aiding them on their future education/career path.
8. In addition to the above requirements, students will also be required to submit two (2) letters of recommendation. These letters of recommendation should speak to the student's potential to succeed in a graduate program. At least one letter of recommendation should be from a current or former instructor who can directly speak to the applicant's academic skills.

Review of Application and Supporting Materials by Graduate Faculty

Once a completed application has been received, it will be sent out for review (along with supporting documentation) to the Department of Sociology and Criminal Justice graduate faculty. A majority vote on the part of the graduate faculty will allow for admission to the graduate program.

Requirements for Registering for Class

To register for courses in the M.S. in Applied Sociology curriculum, students must:

4. Obtain the Graduate Coordinator's written authorization prior to registration each semester. Advising for all graduate courses is mandatory. Only after being advised by the Graduate Coordinator will students be allowed to register in the departmental office.
5. Have an approved up-to-date degree plan on file with the Department of Sociology and Criminal Justice.
6. Be in 'good-standing' (maintain a cumulative GPA of 3.0 on all coursework with no more than two "C" grades [6 credit hours]).

Requirements for the Applied Sociology Degree

To receive the Master of Science (M.S.) in Applied Sociology Degree, students must:

1. Satisfactorily complete 36 semester hours of graduate course work as outlined below.
 - a. No more than 6 hours of 500-level course work may be counted toward a degree.
2. Maintain a cumulative GPA of 3.0 on all course work.
 - a. No grade of "D" or "F" may be counted toward a degree. Any course to be counted toward a degree in which a "D" or "F" is earned must be repeated with a grade of at least "C."
 - b. No more than 6 hours of "C" grades may be counted toward a degree.
 - c. No grade of "C" in program core courses (601, 602, 603, 604, 605, 606) will count toward the M.S. in Applied Sociology degree. The student is required to retake any core class in which a grade of "C" was earned and earn a "B" grade or an "A" grade prior to being allowed to register for any section of 690, 760, and 770.

Graduate Studies

3. Complete either an Internship or Thesis Option as discussed below.
4. Be recommended for the degree by the Graduate Faculty Committee.
5. Meet all requirements for the M.S. in Applied Sociology degree within 6 years of enrolling the M.S. in Applied Sociology program.

Readmission Procedures

Students who have not been enrolled in classes or Thesis/Internship hours for more than one year MUST apply for readmission through the University and pay the application fee:

https://www2.southeastern.edu/external/online_app/app/step1

If required materials are still valid, (e.g., GRE scores, letters of recommendation, etc.) then it is at the discretion of the Graduate Coordinator to reaccept them either in full or in part. Returning students MUST be in good standing with the department to return. A student who is in good standing with the department is subject to a review of reapplication by the graduate committee for readmission and is subject to three possible outcomes:

1. Full Readmission: Student will be allowed to reenter the program and continue coursework or thesis/internship work.
2. Provisional Readmission: Student is readmitted to the program subject to the completion of specified requirements to be determined by the Graduate Coordinator and Major Professor if applicable. Provisional readmission will convert to full readmission so long as the student is making progress in the timeline established.
3. Denial of Readmission: Upon review, the graduate committee decides that the student in question has not made significant effort to complete their program in a timely and efficient manner or the student has failed to perform in a manner expected of a graduate student.

Applied Sociology Curriculum

SOC 601: Complex Organizations	3 hours
SOC 602: Social Stratification and Structured Inequality	3 hours
SOC 603: Applied Social Theory	3 hours
SOC 604: Applied Research Design and Methodology	3 hours
SOC 605: Advanced Statistics for Applied Sociology	3 hours
SOC 606: Evaluation and Assessment.....	3 hours
Concentration Electives ¹	12 hours
SOC 760: Field Internship Research or 770 Thesis Research and Thesis	6 hours
Total	36 hours

SOC 603, SOC 604, and SOC 605 should be taken within students' first 15 hours of graduate coursework.

Areas of Concentration

Criminal Justice

SOC 620: Applied Criminological Theory
SOC 630: Race, Gender, Class and the Criminal Justice System
SOC 635: Applied Mapping in the Social Sciences

Globalization and Sustainability

SOC 655: Applied Environmental Sociology
SOC 660: Participatory Research and Popular Education
SOC 665: Globalization and Social Transformation

The following may be used in any concentration when appropriate and approved by the Graduate Coordinator in the Applied Sociology program²:

All SOC 500 level courses
SOC 607: Public Policy
SOC 650: Applied Study Abroad
SOC 690: Independent Study in Applied Sociology³
SOC 698: Special Topics in Applied Sociology
ANTH 698: Applied Topics in Anthropology
CJ 698: Special Topics in Criminal Justice
GEOG 698: Special Topics in Geography

¹Electives must be selected from students' area of concentration. If not, electives may be selected with the approval of the Graduate Coordinator and the student's Major Professor.

²Other graduate courses in Sociology or a related field may be used with the permission of the Graduate Coordinator.

³To register for an independent study course, the student and the professor guiding the work must agree to the course requirements and submit a completed and signed "Independent Study Syllabus/Agreement" to the Graduate Coordinator. No student will be allowed to enroll in an Independent Study class with outstanding grades of "I" or "F" in other courses. Additionally, no student will be allowed to enroll in an Independent Study class with outstanding grade(s) of "C" in core classes (601, 602, 603, 604, 605, 606).

Internship Option

Taken after the completion of the required 30 hours of coursework. The internship involves application of sociological principles to work within an organization, agency, institution, or business setting, depending upon the student's area of interest. An Agency Supervisor, student's Major Professor and the Internship Committee supervise the work. Students may choose to register for 6 credit hours of SOC 760 for one semester or 3 credit hours of SOC 760 for two consecutive semesters. Students enrolled in this option will be required to meet with their Committee three times – once before the internship begins, a second time to defend a proposal and a third time to defend the final paper.

No student will be allowed to enroll in the Internship (SOC 760) with outstanding grade(s) of "I" or "F" in other courses. Additionally, no student will be allowed to enroll in the Internship with outstanding grade(s) of "C" in core courses (601, 602, 603, 604, 605, 606). All students choosing the internship option must adhere to the Graduate School's rule mandating continuous registration for all students researching and writing theses.

Thesis Option

Taken after the completion of the required 30 hours of coursework and the successful completion of the "Thesis Proposal Defense," the thesis is a major work of original and independent research on a topic of interest, undertaken by the student and supervised by the student's Major Professor and Thesis Committee. All students choosing the thesis option must adhere to the Graduate School's rule mandating continuous registration for all students researching and writing theses.

No student will be allowed to enroll in Thesis (SOC 770) with outstanding grade(s) of "I" or "F" in other courses. Additionally, no student will be allowed to enroll in Thesis with outstanding grade(s) of "C" in core courses (601, 602, 603, 604, 605, 606).

Strategic Communication
College of Arts, Humanities and Social Sciences
Leading to the Degree of Master of Arts (M.A.)

Purpose

The purposes of the Department of Communication and Media Studies are:

1. To prepare students to communicate and create content for multimedia platforms.
2. To enhance students' abilities to perform critical thinking, data gathering, and academic research.
3. To train students in the use of digital communication tools, and systems.
4. To teach students about the ethical and legal underpinning of the communication profession.
5. To enable students to demonstrate job preparedness and provide specific background training for professional communicators and candidates for doctoral study.

The Master of Arts in Strategic Communication will focus on teaching media planning skills combined with advanced digital media content creation and a solid grounding in the strategic use of communication data analytics.

Program Objectives

The Master of Arts in Strategic Communication will focus on teaching media planning skills combined with advanced digital media content creation and a solid grounding in the strategic use of communication data analytics.

Upon completion of the degree, students will be able to:

1. Plan and create multimedia content to be used in strategic communication campaigns.
2. Use data collection and analysis to develop quantitative measurements and evaluations of strategic communication plans.
3. Manage digital communication tools, systems and digital media platforms in the strategic communication mix.
4. Apply strategic models and frameworks to conduct situational analyses for strategic communication plans.
5. Develop, present and discuss a comprehensive strategic communication plan for a client.

Admission Requirements

To be considered for admission to the Master's in Strategic Communication, an applicant must:

1. Meet all University admission requirements.
2. Have a Bachelor of Arts or a Bachelor of Science degree from an accredited university. It is not essential that the undergraduate degree is in communication.
3. Possess a cumulative grade point average of no lower than 2.5 in their undergraduate degree for regular admission.
4. Applicants with a GPA under 2.5 must submit a writing sample, the focus of which will be described by the Graduate Coordinator.
5. Students with a GPA under 2.5 may be admitted provisionally. Provisional status students must maintain a 3.0 in the first 9 hours of coursework.

Requirements for Degree

The Master of Strategic Communication is a non-thesis degree, requiring a total of 36 semester hours of graduate credit. Fifteen credit hours make up the program's core requirements and 21 additional hours are to be taken as electives.

Strategic Communication Core Requirements

Fifteen (15) semester hours are required, which must include completion of COMM 621, 631, 648, 691, and 698.

COMM 621: Strategic Communication Campaigns	3 hours
COMM 631: Digital Communication	3 hours
COMM 648: Content Creation for Strategic Communication.....	3 hours
COMM 691: Quantitative Measurements for Strategic Communication	3 hours
COMM 698: Strategic Communication Capstone	3 hours
Total	15 hours

Electives

Students must take 21 semester hours, chosen from the following courses:

COMM 604: Independent Study in Strategic Communication	3 hours
COMM 610: Social Media Strategy	3 hours
COMM 616: Communication Training, Assessment, and Development.....	3 hours
COMM 620: Strategic Communication in a Multicultural Marketplace.....	3 hours
COMM 622: Digital Strategic Communication Analytics	3 hours
COMM 623: Strategic Integrated Marketing Communication	3 hours

Southeastern Louisiana University

COMM 624: Digital Audience Strategy	3 hours
COMM 626: Law and Ethics for Emerging Media	3 hours
COMM 630: Media Planning and Buying.....	3 hours
COMM 633: Strategic Communication Leadership	3 hours
COMM 640: Emerging Media Entrepreneurship	3 hours
COMM 642: Strategic Crisis Communication	3 hours
COMM 647: Strategic Communication in Global Networks.....	3 hours
COMM 649: Visual Design for Strategic Communication.....	3 hours
COMM 650: Strategic Communication for Non-Profits.....	3 hours
COMM 659: Communication Internship.....	3 hours
COMM 671: Applied Qualitative Research for Strategic Communication.....	3 hours
COMM 699: Special Topics.....	3 hours

Special Education
College of Education
Leading to the Degree of Master of Education (M.Ed.)

Purposes

The purposes of the Master of Education in Special Education are to:

1. Prepare highly qualified and effective teachers for Louisiana students with exceptionalities, from birth to 12th grade.
2. Provide candidates with opportunities to develop pedagogical content knowledge, expert knowledge of learners with special needs, and competencies reflecting the knowledge skills and dispositions needed to reach their full potential.
3. Develop candidates' capabilities to provide professional services, leadership, and advocacy for students with exceptionalities in schools, school districts, and professional organizations.
4. Offer curriculum and instruction for earning a master's degree that is guided by the high standards of state and national standards.
5. Provide intensive study in candidate's selected areas of concentration.
6. Enhance the candidates' potential for serving students with exceptionalities, parents, colleagues, and others in the education community.

Admission Requirements

To be considered for the Masters of Education degree in Special Education, an applicant must:

1. Meet all University requirements, which include:
 - a. An application for admission.
 - b. Official transcripts from all colleges and universities attended.
 - c. Documentation of graduation with a baccalaureate degree (or its equivalent) from an accredited university.
 - d. Documentation of a grade point average (GPA) that meets the Southeastern Graduate Studies requirements for admission.
 - e. Documentation of satisfactory standing at the last institution attended.
 - f. A non-refundable fee to the Controller's Office prior to the established deadline.
2. Submit a valid teaching certificate. This program does not lead to initial certification.

For add-on certification to an existing Louisiana teacher certificate, please contact the Graduate Coordinator or consult the Department of Teaching & Learning section of the catalog.

Due to the coursework requirements typical of education courses, which frequently include clinical practice hours, the Department of Teaching & Learning considers fulltime enrollment to be 6 credit hours per semester for graduate students enrolled in programs through Teaching & Learning.

As part of the College of Education focus on performance-based outcomes, students enrolled in the Teacher Preparation Program will submit products to the current electronic assessment system. The products will allow the students to demonstrate their understanding of how they meet the program outcomes; provide a process by which students can become reflective practitioners to foster continuous improvement; document growth in the program; and demonstrate how the students meet the requirements for knowledge, skills, and professional and ethical behavior required by the state certification in the selected area.

Please consult your advisor for the sequence of coursework.

Requirements for Degree

To receive the Master of Education degree in Special Education, a student must:

1. Complete all requirements stated in the catalog and the candidate's degree plan.
2. Submit products in the electronic assessment system to verify candidate mastery of content pedagogical knowledge.
3. Satisfactorily complete all graduate work with a cumulative "B" average. Degree candidates must earn an average of "B" or higher, both cumulative and in the major area of concentration, with not more than six (6) semester hours with a grade of "C" counted toward a degree. No credit below "C" will be accepted for graduate degree credit.
4. Satisfactorily complete an action research project with supporting products (e. g. written article, presentation).
5. Be recommended for the degree by the student's major professor.

Southeastern Louisiana University
Master of Arts in Teaching
College of Education
Leading to the Degree of Master of Arts in Teaching (M.A.T.)

Purpose

The purpose of the Master of Arts in Teaching (MAT) is to offer a Master's Degree level alternative teacher certification pathway for people seeking employment in positions requiring Louisiana teacher licensure.

After successful completion of all requirements, students may be recommended for certification through the Louisiana Department of Education.

Requirements for Admission to the MAT Program

To be considered for the Master of Arts in Teaching an applicant must:

1. Meet all University admissions requirements for graduate school.
2. Possess a Bachelor's degree with a 2.75 cumulative GPA from a regionally accredited university. In the case of a cumulative GPA that is 2.5-2.74, when the candidate interviews for admission to the program, the GPA will be addressed in the interview. A decision about the potential for success in the program will be determined. For GPAs of less than 2.5, please consult program advisors.
3. Achieve a passing score on Praxis II in the content area in which the candidate is seeking certification.
4. Vocal or Instrumental Music: those seeking admission to the MAT program in these areas must have at least a bachelor's degree in the content area. Those who do not have a degree in the content area must meet with the head of the Department of Music and Performing Arts for additional course work.
5. Complete an interview with the Graduate Coordinator or Dean's Office leading to a positive endorsement for suitability as a teacher.

Due to the coursework requirements typical of education courses, which frequently include clinical practice hours, the Department of Teaching & Learning considers fulltime enrollment to be 6 credit hours per semester for graduate students enrolled in programs through Teaching & Learning.

Please consult your advisor for the sequence of coursework.

If you are interested in post-baccalaureate certification without a full master's degree, please see the Certification-Only Alternative Teacher Certification Program section of the catalog.

Selective Admission and Retention in Teacher Education (SARTE) Policies
And
Procedures Applicable to the Master of Arts in Teaching Degree

A person seeking to become a teacher must maintain academic standards and demonstrate qualifications for successful teaching including satisfactory performance in clinical practice. Therefore, the College of Education at Southeastern Louisiana University reserves the right to recruit, admit and retain in the Professional Program in Teacher Education only those students who show evidence of being capable of performing in an acceptable professional manner. Enrollment in the professional program does not guarantee that a student will receive the degree or certification sought simply because he/she completes a number of courses or is in the clinical practice for the required number of hours.

Certification requirements are specified by the State Legislature and/or the Board of Elementary and Secondary Education and coordinated by the State Department of Education. While programs at Southeastern are designed to meet the requirements of the State Department of Education, it is the State Department that grants certification. These requirements are subject to periodic modification, which may not occur at times appropriate for inclusion in the annual publication of the University catalog. It is the responsibility of the students to make periodic checks for such changes with their academic advisors and/or department head.

SARTE Status

To be considered for full SARTE status to the Master of Arts in Teaching degree program, an applicant must:

- Meet all requirements for admission to Graduate Studies and to the Master of Arts in Teaching degree program.
- Make application for SARTE status during the first semester of enrollment by contacting the Dean's Office.
- Communicate with the Dean's Office to establish a certification file.
- Maintain a cumulative 3.0 graduate GPA with no grade below "C" and not more than one "C" grade.
- Receive a recommendation concerning educational professionalism from instructors of coursework for the first semester enrolled.

Determination of SARTE status will be determined following the posting of grades for the first semester of enrollment in the alternative certification program.

Ongoing screening of each student utilizing the standards of the Professional Program in Teacher Education will occur each semester of a student's enrollment.

Students demonstrating inappropriate behaviors for being successful in the teaching profession will be referred for a Professional Performance Review. A review may result in:

- No actions being taken but further observations.
- Recommendation of a Professional Improvement Plan (PIP) monitored by the Coordinator of the Teacher Development program.
- Referral to the SARTE Committee which may recommend:
 - Probation with specified conditions.
 - Temporary suspension from the MAT and the Teacher Preparation Program with specified conditions.
 - Expulsion from the MAT degree and the Teacher Preparation Program.

Practitioner License

Students wishing to become employed as a teacher while working on certification may apply for a Practitioner License. Practitioner Licenses are issued for one school year, renewed annually and held a maximum of three years while the holder completes an approved alternate program.

For a Practitioner License 1 (PL1) applicants must be admitted to and remain enrolled in a State-approved Practitioner Teacher Program, and fulfill all coursework, teaching assignments, and prescribed activities as identified by the University. Please contact the Office of Teacher Clinical Practice and Residency. To be eligible for renewal, students must remain enrolled in the program and complete nine hours each year unless fewer hours are needed to complete the program. Please consult the State Department of Education website, the school district certification office, and/or the Dean's Office for current policies regarding the PL.

All coursework, including teaching/internship coursework, and exam requirements must be met satisfactorily for students to be recommended by Southeastern to the State Department of Education for full teacher certification.

Requirements beyond the Master's Degree may be necessary if the student is deficient in certification requisites. Other certification areas may be added the MAT certification area with further coursework. Students wishing to pursue add-on certifications should consult with their faculty advisor or Department Head for requirements.

Electronic Assessment System

As part of the College of Education focus on performance-based outcomes, students enrolled in the Teacher Preparation Program will submit products to the current electronic assessment system.

The products will allow the students to demonstrate, their understanding of how they meet the program outcomes; provide a process by which students can become reflective practitioners to foster continuous improvement; and document growth in the program and demonstrate how the students meet the requirements for knowledge, skills, and professional and ethical behavior required by the state for initial certification.

Requirements for Teaching Residency/Internship

The Louisiana State Department of Education regulations for certification of teachers require that students do their clinical practice teaching under the control and supervision of the institution from which they expect to be graduated. The Teaching Residency/ Internship semesters must be taken in the last Fall and Spring semesters of the program. To be eligible for teaching residency/ internship, students must:

- Be enrolled as a major in a program plan that leads to Louisiana teaching certification.
- Make application for teaching one semester prior to the semester during which they plan to do their teaching residency/ internship. The Director of Clinical Practice and Residency will assign the grade or subject, and the supervising teachers under whom the student will work.
- Pass all required Praxis examinations prior to enrollment in the second semester of teaching residency/ internship.
- Complete all required MAT course work with a cumulative 3.0 GPA average with no grade below "C" and not more than one "C" grade on graduate work.
- Have verification from the Graduate Coordinator that they are advised to take the residency/ internship the next semester.
- Have approval of the Director of Clinical Practice and Residency.

In order to remain in a teaching internship, students are expected to meet and maintain desirable professional, physical and moral standards consistent with their positions in the public schools. A student who fails or is directed to withdraw from a teaching residency or internship must complete a one semester Professional Improvement Plan prior to a second residency/ internship experience. A student may not attempt a teaching residency/ internship class a third time.

Once a student has entered either the residency or internship course sequence, the student may not switch from one to the other. Additionally, to be able to enroll in the second semester of the internship, students must

- Pass all required Praxis exams for the certification being earned.
- Earn a B or higher grade in the first semester of residency/ internship.

Teaching Residency Semesters

The teacher resident will follow the school district's calendar and will report to the school in the summer when teachers arrive for the school year (or December for the spring teacher resident). This will be prior to the first day of class on the University academic calendar. The teacher resident reports at the designated time for school district teachers each day, and will remain at the school for 60% of the instructional time for the first semester. Teaching residency for the second semester is 100% of the instructional time, and the teacher resident will remain at the school until regular dismissal of teaching personnel. The hours involved in second semester teaching residency will be approximately 7:00 a.m. to 3:30 p.m. (i.e., whatever are the school hours for the residency school), Monday through Friday.

The teacher resident will be assigned to complete their teaching residency away from the campus community; therefore, teacher residents must expect that they may be asked to make arrangements to be at the assigned teaching site for part of the time during their first semester and full time during their second semester of their residency. The Director of Clinical Practice and Residency will make the assignments for each teacher resident. The assignment is made with the cooperation of the hosting school district and school. While placements for teaching residents will be made as close to their official address as possible, some may have to travel to be able to reach a site with the appropriate placement requirements for the certification and hosting mentor teacher.

It is recommended that MAT students take no more than two additional courses during their teaching residency. It is more important to ensure success in the courses taken than a speedy completion of the program.

In order to remain in the teaching residency, the teacher resident is expected to meet and maintain desirable professional, physical, and moral standards consistent with their positions in the public schools. The teacher resident must also demonstrate proficiency in instruction, management, and planning.

A teacher resident who fails or is directed to withdraw from teaching residency must complete a Professional Improvement Plan (Monitored by the Coordinator of the Teacher Development Program) prior to a second teaching residency experience. A student may not attempt a teaching residency a third time.

Internship Year

Students who hold a PL and are employed in a position meeting all requirements listed below, may complete an internship in lieu of the Teaching Residency. The internship should be completed as close to the end of the program as possible. Internships must be completed in a school approved by Southeastern. Principals at participating schools must sign an Internship Agreement with Southeastern.

Southeastern Louisiana University

It is highly recommended that students wishing to complete the internship have worked at least one semester at the school prior to beginning the official internship semesters. This will ensure that there is time to locate and train an appropriate mentor teacher and supports at the employing school for a successful teaching internship experience.

To qualify for an internship, a student must meet all of the requirements for the Teaching Residency, and have:

- Successfully completed at least one semester of coursework at Southeastern.
- By the deadline, complete application for the internship the semester prior to the planned internship semester. Application for starting the internship in the Fall semester is made during the previous Spring semester, unless the intern is beginning the program during the Summer semester. Students beginning the program during the Summer semester who wish to intern in the consecutive Fall semester will apply by the deadline of their first semester of enrollment and must already be teaching at the school where he/she/they wish to intern. Application for starting the internship in the Spring semester must be made during the prior Fall semester. Please consult the Office of Clinical practice and Residency for current deadlines.
- Written recommendation from all of the candidates' methods instructors verifying readiness for the teaching internship.

Additionally, the internship school and teaching intern will provide the Office of Clinical Practice and Residency;

- Verification that the school has a state approved classification.
- Verification that the school is accredited by the regional accrediting agency.
- Verification that the principal/assistant principal has certification in Principalship and training in supervision.
- Verification that the principal/assistant principal has served in this role for a minimum of three years.
- Signed Principal/Assistant Principal Internship Agreement form.
- Verification that at least 51% of the intern's teaching assignment is in the certification area in which the intern is seeking certification.
- Verification that a mentor teacher, who has taught a minimum of three years in the area of the intern's certification, will be assigned by the principal/assistant principal to assist the intern.
- Verification of minimum class size in the area of certification.
- Verification that at least 51% of the intern's teaching assignment is in the certification area in which the intern is seeking certification.
- Evidence of cultural diversity within the school population.
- A copy of the signed Internship Agreement form.
- A copy of the contract or employee agreement after the internship has been approved.
- A copy of the teaching schedule (Grades 1-5)-signed by the principal/assistant principal.

The teaching intern will not be allowed to enroll in the teaching intern course if the teaching position does not meet all of the requirements.

Note: The candidate is responsible for submitting the above documents the semester prior to beginning the internship. A complete packet should be submitted rather than item by item. Authorization to register for an internship will not be granted until all documents have been submitted.

Requirements to Receive the MAT Degree

To receive the Master of Arts in Teaching degree, a student must:

- Be recommended for the degree by the department's graduate coordinator upon completion of all requirements stated in the degree plan.
- Satisfactorily complete 39 hours of graduate work for the MAT program in which the candidate is enrolled.
- Satisfactorily complete the capstone Teaching Residency/Internship performance assessments, passing both internship/residency courses with a B or higher.
- Meet all Louisiana State Department requirements for the certification area and be recommended for certification.

Doctor of Education In Educational Leadership

Program Overview

The Doctor of Education in Educational Leadership program is designed to provide the following:

1. To enhance the knowledge and competencies of leaders so they provide optimal leadership for the education of all learners, both youth and adult.
2. To prepare leaders who are inquiring, reflective practitioners.
3. To prepare leaders who are competent in identifying and solving complex problems in education.
4. To prepare leaders who understand the multitude of leadership and management theories and practice related to their professional settings.
5. To prepare leaders who value, encourage, and facilitate the professional development of self and others in the organization.
6. To prepare leaders who demonstrate effective communication skills in both school and non-school settings.
7. To prepare leaders who value, understand, and support diversity in their school organizations.
8. To prepare leaders who make contributions to the profession.

Note: The doctoral program is NOT designed to lead to initial Administrative Certification for the State of Louisiana. Students who do not have a master's degree in school administration or the equivalent may be required to complete three to nine hours of course work in educational administration, either before or during the doctoral program. Students who have not completed a course in graduate statistics and research methods must include these courses in their program of study.

Program Admission Requirements

Application Process – Completed applications, including all documents listed below, must be received by the Doctoral Admissions Committee in the Department of Educational Leadership and Foundations by the time and date listed on the Southeastern Louisiana University doctoral program website.

1. Completed application form;
2. Official transcripts from all colleges attended;
3. Graduate Record Examination (GRE). The expected minimum scores are 145 Verbal/145 Quantitative (current scale) or 450 Verbal/450 Quantitative (old scale);
4. Master's Degree from an accredited university;
5. GPA of at least 3.0 on all graduate-level course work;
6. Professional resume;
7. A writing sample that the applicant believes is indicative of their ability to write on an academic or professional subject;
8. A formal letter of application that must provide:
 - a. An introduction of the applicant to the admissions committee;
 - b. An explanation of the applicant's interest in educational leadership, and;
 - c. Reasons why the applicant seeks admission to the doctoral program in educational leadership.
9. Names, addresses (office and e-mail), and telephone numbers of the following three individuals:
 - a. The applicant's direct supervisor;
 - b. A former university professor who can attest to the applicant's ability to successfully complete a doctoral program, and;
 - c. A third individual who has direct knowledge of the applicant's duties and performance in their profession.
10. For applicants whose native language is not English, a score on the English proficiency examination (TOEFL) of at least 24 on each of the components (Writing, Reading, Speaking, and Listening).
11. Verification of at least three (3) years of appropriate professional experience.
12. Have satisfactory standing in the last institution attended.

Program Admissions Process

After all application materials have been received, the Educational Leadership Doctoral Admissions Committee will jointly review the applicant's materials. The Committee will determine which applicants will move forward in the application process and schedule an interview on the Southeastern Louisiana University campus. This phase has two components:

1. Each applicant must draft an extemporaneous writing sample in response to a writing prompt that will be provided on site.
2. Following the exercise, the applicant will have a face-to-face interview.

Upon receipt of a letter of official acceptance into the program, the students must complete the following steps to complete enrollment into the doctoral program:

1. Submit Proof of Immunization and Application fee to Graduate Studies.
2. Participate in optional interview as requested by the Doctoral Admissions Committee.
3. Enroll in the initial courses for the program.
4. Attend the required orientation session.

Doctoral Program Curriculum

The Ed.D. degree program in Educational Leadership requires a minimum of 60 semester credit hours as follows:

Research Core: 18 credit hours (of 18 offered)

EDF 800: Introduction to Doctoral Program and Research Design

EDF 801: Writing for Research in Educational Leadership

EDF 802: Quantitative Methods in Educational Leadership

EDF 803: Qualitative Methods in Educational Leadership

EDF 804: Mixed Methods Research in Educational Leadership

EDL 880: Research Practicum

Educational Leadership: 30 credit hours, to be selected from the following course work:

EDL 810: Leadership Theory and Practice
EDL 811: Management of Educational Organizations
EDL 812: Supervision in Educational Settings
EDL 820: Legal Issues and Ethics in Educational Organizations
EDL 821: Politics and Community Relations
EDL 822: Policy Development and Analysis
EDL 823: Fiduciary Management of Educational Organizations
EDL 824: Legal Issues in Special Education
EDL 830: Foundations of Curriculum Theory and Design
EDL 831: Critical Analysis of Current Research on Effective Educational Practice
EDL 832: Educational Evaluation
EDL 834: College Teaching
EDL 840: Change Theory
EDL 841: Organizational Development for Learning Communities
EDL 842: Culture, Climate and Change Leadership
EDL 851: Administration and Management in Higher Education
EDL 852: Student Affairs in Higher Education
EDL 853: Governance and Legal Aspects of Higher Education
EDL 857: Academic Affairs in Higher Education
EDL 858: Community College Administration
EDL 861: History and Philosophy of Higher Education
EDL 862: Planning and Evaluation in Higher Education
EDL 871: Special Topics in Instructional Leadership
EDL 875: Special Topics in Educational Leadership and Management
EDL 897: Internship
ETEC 812: Leadership in Integration of Emerging Technologies

Doctoral Dissertation Seminar: Minimum of 12 credit hours

EDF 999: Doctoral Dissertation

Program Elements

Graduate Assistantship/Fellowship

Students who take six (6) or more hours per semester are eligible to be awarded a graduate assistantship and/or graduate fellowship. Please see the Doctoral Program Coordinator for more information.

Course Work Requirements and Transfer of Credits

Subject to approval by the doctoral advisory committee, a maximum of 6 hours of appropriate course work completed as part of another doctoral program may be transferred from other accredited institutions.

Academic Expectations

Students must maintain a minimum cumulative Grade Point Average of 3.00 in all doctoral course work. No more than two courses in which a grade of "C" has been earned may be applied toward the fulfillment of degree requirements.

Continuous Enrollment

The continuous enrollment requirement necessitates that candidates are enrolled each academic term including summer, fall, and spring until completion of all degree program requirements.

Residency Requirement

The residency requirement in graduate programs is intended to ensure that candidates become integrally involved in the academic life of their program and of the university. During the course of study for the Ed.D. degree, candidates are required to have an enrollment period of three (3) consecutive academic terms with a minimum of six (6) credit hours per academic term.

Admission to Candidacy and Time Limits

All degree requirements must be completed within six calendar years following admission to candidacy. An extension may be granted if approved by the Dean of the College of Education. Prior work applied to the degree (including transfer and locally-earned credits) must have been completed within nine calendar years immediately preceding the date on which the degree is conferred.

Prospectus Defense

All candidates are required to successfully defend their Prospectus before their committee.

Dissertation

All doctoral candidates are required to complete a dissertation which represents a significant contribution to the body of knowledge in the discipline. Doctoral candidates must (a) form a dissertation committee, (b) prepare and successfully defend a dissertation proposal before the dissertation committee, (c) complete data collection and analysis, and (d) prepare and successfully defend the final dissertation before the dissertation committee. All candidates must be officially enrolled for dissertation credit, whether the candidates are on or off campus.

Additional Requirements

Prospective and enrolled graduate students are reminded that the general academic, financial, and student conduct policies and rules as stated in the university catalogs remain in force and effect unless specifically modified by graduate rules and policies included in the graduate section of the catalog.

For More Information

Please contact the Doctoral Program Coordinator in the Department of Educational Leadership and Foundations at 985-549-5713 for additional information.

Doctor of Nursing Practice

The Doctor of Nursing Practice (DNP) is an academic partnership offered by Southeastern Louisiana University and the University of Louisiana Lafayette. The Doctor of Nursing Practice (DNP) is a terminal professional degree that focuses on the clinical aspects of nursing rather than academic research. The curriculum for the DNP program is consistent with the American Association of Colleges of Nursing (AACNE) Essentials of Doctoral Education for Advanced Nursing Practice.

Purposes

The purposes of the DNP program are to prepare graduate students at the highest level of nursing practice to:

1. Provide complex hospital and community-based care for patients and families.
2. Redesign and evaluate nursing and health care systems.
3. Address shortages of clinical nursing faculty to mentor and educate nurses.

Admission Procedures

Applicants to the DNP program must apply to the University and the Southeastern Graduate Nursing Program at the same time. See admission to the University section for application deadlines and fees.

Admission Requirements

Students are admitted as a cohort into the post-master's DNP Program. Cohorts will be admitted in fall semesters. Didactic courses are offered online; however, students will be required to participate in on-campus activities immediately prior to the start of the program and at the conclusion of the program when presenting synthesis projects. In addition, there are several courses in the curriculum (i.e., Residency, I-III) with practicum requirements. Prior to enrolling in Nursing 801: Biostatistics, students must provide evidence of completion of a graduate-level statistics course. The graduate-level statistics course must be approved by the DNP Program Coordinator.

Requirements for admission to the DNP program include:

1. A completed application form and payment of the application fee submitted on or prior to the application date.
2. Receipt of official transcripts from each degree-granting college or university previously attended.
3. An earned master's degree in one of the following areas of advanced nursing practice:
 - a. Nurse Practitioner
 - b. Clinical Nurse Specialist
 - c. Nurse Midwife
 - d. Registered Nurse Anesthetist
 - e. Nursing Administration/Leadership
4. Cumulative GPA of at least 3.30 on a 4.0 scale on master's-level course work.
5. Evidence of current, unencumbered U.S. nursing licensure (no restrictions).
 - a. RN license
 - b. APRN license if applicable
6. Three letters of recommendation from individuals who can attest to the applicant's capacity for doctoral study.
 - a. One letter must be from a former faculty member in a nursing program, a current or former nursing supervisor, or nursing leader.
 - b. One letter must be from someone who can attest to the competencies and expertise of the applicant at the advanced practice level.
 - c. The third letter is from an individual of the applicant's choice; however, the letter should address the applicant's ability to successfully complete a doctoral education in nursing.
7. Current resume' or vitae.
8. A document, prepared by the applicant, which addresses the applicant's:
 - a. Goals for doctoral study which are congruent with the DNP program (See the Essentials of Doctoral Education for Advanced Nursing Practice, which can be accessed at: <https://www.aacnnursing.org/DNP/DNP-Essentials>).
 - b. Focused area of interest for synthesis project.
 - c. Expression of how acquiring the DNP degree is important to fulfilling their career goals.
The document must be typewritten, double-spaced, in 12 point, Times New Roman font and should be no longer than three pages in length.
9. Completion of a telephone interview with the DNP program coordinator.
10. Prior to enrollment, students will be required to submit to background checks, drug and alcohol screening, and must meet program health requirements. These screenings will be conducted at the student's expense.
11. Students should be proficient with methodologies utilized in distance education and must possess computer equipment and technology which is compatible with University learning management systems such as Blackboard and Moodle.
12. Admission criteria for BSN prepared nurses with a non-nursing master's degree pursuing the Nurse Executive Leadership Concentration: Applicants must have a BSN degree and must have a current unencumbered Louisiana Registered Nurse License. The students may have a non-nursing master's degree but must be in a health-related field such as an MBA, MHA, MPH or MPM. The student must provide evidence of any supervised internship or practicum hours within their master's program.

Residency Requirements

Core courses taken at either school in the collaborative are applicable to requirements of each member institution. NURS 809: Advanced Directed Studies and practicum hours required in Residencies I, II, and III can only be taken at the home institution.

Registration Procedures

- Registration for core and role courses will be held according to their published dates and procedures. An advisor is available to assist students. Information and downloadable forms are available from the School of Nursing webpage, www.southeastern.edu/graduatenuersing.
- A Professional Degree fee will be assessed each semester of coursework. Students will also be assessed fees for proctored testing of online courses.
- All courses offered are subject to resources availability and sufficient student enrollment.
- Full-time degree plans require from 7-10 credit hours per semester; part-time degree plans require 6 credit hours per semester.
- For limited course slots, preference will be given to regular admission status.

BSN to DNP Curriculum

The BSN to DNP program consists of three concentrations: Family Nurse Practitioner, Nurse Executive Leadership, and Psychiatric/Mental Health Nurse Practitioner. The Family Nurse Practitioner concentration consists of a total 70 credit hours. The Nurse Executive Leadership concentration consists of a total of 70 credit hours. The Psychiatric/Mental health Nurse practitioner concentration is a total of 76 credit hours. The BSN to DNP curriculum maintains the core MSN degree courses. Students can opt to complete with an MSN degree after such degree requirements are met. All of the courses required in the DNP programs are delivered in distance accessible formats. Courses are designed to comply with the recommendations in the American Association of Colleges of Nursing's Essentials of Doctoral Education.

BSN to DNP Curriculum
Concentration in Family Nurse Practitioner

Semester 1, Summer

NURS 605: Applied Statistics for the Health Sciences..... 3 hours

Semester 2, Fall

NURS 801: Biostatistics 3 hours
 NURS 830: Advanced Practice Scholarly and Theoretical Foundations 3 hours
 NURS 618: Pathophysiology for Advanced Practice..... 3 hours

Semester 3, Spring

NURS 607: Health Assessment and Diagnostic Reasoning for Advanced Practice
 3 credit hours/60 laboratory hours
 NURS 617: Pharmacotherapeutics for Advanced Practice 3 hours
 NURS 602: Generating Evidence for Nursing Practice 3 hours

Semester 4, Summer

NURS 682: Advanced Practice Nursing: Family Health I5 credit hours/180 practicum hours

Semester 5, Fall

NURS 683: Advanced Practice Nursing: Family Health II5 credit hours/210 practicum hours
 NURS 804: Clinical Scholarship and Analytic Methods for Evidence Based Practice 3 hours
 NURS 831: Epidemiology and Preventative Care for Populations 4 hours

Semester 6, Spring

NURS 681: Business, Leadership and Health Policy for Nurse Practitioners 3 hours
 NURS 684: Advanced Practice Nursing: Family Health III5 credit hours/210 practicum hours
 NURS 803: Project Planning..... 3 hours

May Graduate with MSN

Semester 7, Summer

NURS 821: Residency I 2 credit hours/90 residency hours
 NURS 808: Ethics and Health Care Policy 4 hours

Semester 8, Fall

NURS 822: Residency II 4 credit hours/180 residency hours
 NURS 807: Organizational and Systems Leadership 4 hours

Semester 9, Spring

NURS 823: Residency III 4 credit hours/180 residency hours
 NURS 806: Health Care Informatics..... 3 hours

BSN to DNP Curriculum
Concentration in Nurse Executive Leadership

Semester 1, Summer

NURS 605*: Applied Statistics for the Health Sciences 3 hours
 NURS 648*: Nurse Leadership in Health Care Management..... 3 hours

Semester 2, Fall

NURS 801: Biostatistics 3 hours
 NURS 830: Advanced Practice Scholarly and Theoretical Foundations 3 hours

Graduate Studies

NURS 654**: Nurse Leadership and Admin Field Study I.....2 credit hours/80 practicum hours

Semester 3, Spring

NURS 649*: Health Care Workforce Management 3 hours
 NURS 658*: Fiscal and Economic principles for Nurse Leaders 4 hours
 NURS 602: Generating Evidence for Nursing Practice 3 hours

Semester 4, Summer

NURS 624***: Independent Study3 credit hours/100 practicum hours
 NURS 655**Nurse Leadership and Admin Field Study II3 credit hours/80 practicum hours

Semester 5, Fall

NURS 804: Clinical Scholarship and Analytic Methods for Evidence Based Practice 3 hours
 NURS 831: Epidemiology and Preventative Care for Populations 4 hours
 NURS 659**: Nurse Leadership and Admin Internship3 credit hours/160 practicum hours

Semester 6, Spring

NURS 803: Project Planning 3 hours
 NURS 809: Advanced Directed Studies Term3 credit hours/135 practicum hours
 NURS 681: Business, Leadership and Health Policy for Nurse Practitioners 3 hours

Semester 7, Summer

NURS 821: Residency I2 credit hours/90 residency hours
 NURS 808: Ethics and Health Care Policy 4 credit hours/optional 80 practicum hours

Semester 8, Fall

NURS 822: Residency II4 credit hours/180 residency hours
 NURS 807: Organizational and Systems Leadership 4 credit hours/optional 80 practicum hours

Semester 9, Spring

NURS 823: Residency III 4 credit hours/180 residency hours
 NURS 806: Health Care Informatics..... 3 hours

*These didactic courses may be substituted for students who have a non-nursing master's degree (i.e., MBA, MHA, MPH, MPM, etc.) and who have taken graduate level course work with similar content and credit hours.

**Practicum courses may be substituted for students who have a non-nursing master's degree (i.e., MBA, MHA, MPH, MPM, etc.) and who have taken graduate level course work with a supervised practicum experience in healthcare setting. Documentation of all practicum hours completed must be submitted.

***NURS 624, Independent Study, will focus on the student's individual learning needs based on results of a GAP Analysis, and include such content as roles of advanced nursing practice, inter-professional collaboration and practice, technology, digital health, cultural competency, MSN/DNP Essentials, ethics, healthcare policies and legal issues.

BSN to DNP Curriculum
 Concentration in Psychiatric/Mental Nurse Practitioner

Semester 1, Summer

NURS 605: Applied Statistics for the Health Sciences..... 3 hours
 NURS 617: Pharmacotherapeutics for Advanced Practice 3 hours

Semester 2, Fall

NURS 801: Biostatistics 3 hours

Semester 9, Spring

NURS 823: Residency III	4 credit hours/180 residency hours
NURS 806: Health Care Informatics.....	3 hours

Post-Master's DNP Curriculum

The post-master's DNP program consists of an aggregate degree for Post-MSN students that want a DNP degree which is 39 credit hours beyond the master's degree. These individuals should be licensed as an advanced nurse practitioner (nurse practitioner, clinical nurse specialist, certified nurse anesthetist, or certified nurse midwife) or have a nurse administration/leadership degree. An additional option is available to Post-MSN DNP students to obtain a DNP degree with a Post Masters' Certificate for Nurse Practitioners to Psychiatric/Mental Health Nurse Practitioner. These applicants must currently hold a master's degree from a nationally accredited graduate nursing program and a national certification as an Adult Nurse Practitioner, Family Nurse Practitioner, Geriatric Nurse Practitioner, Acute Care Nurse Practitioner, or Women's Health Nurse Practitioner. This option consists of 39 credit hours towards the DNP degree and 20 credit hours towards the Psychiatric/Mental Health Nurse Practitioner certificate. All of the courses required in the DNP programs are delivered in distance accessible formats. Courses are designed to comply with the recommendations in the American Association of Colleges of Nursing's Essentials of Doctoral Education.

POST-MSN DNP CURRICULUM

Semester 1, Fall

NURS 800: Scholarly Foundations for Advanced Practice.....	3 hours
NURS 801: Biostatistics	3 hours
NURS 803: Project Planning.....	3 hours
NURS 804: Clinical Scholarship and Analytic Methods for Evidence Based Practice	3 hours

Semester 2, Spring

NURS 802: Epidemiology	3 hours
NURS 806: Health Care Informatics.....	3 hours
NURS 821: Residency I	2 hours

Semester 3, Fall

NURS 805: Preventative Care for Populations	3 hours
NURS 807: Organizational and Systems Leadership	4 hours
NURS 822: Residency II	4 hours

Semester 4, Spring

NURS 808: Ethics and Health Care Policy	4 hours
NURS 823: Residency III	4 hours

As Needed

NURS 809: Advanced Directed Study	3-6 hours
---	-----------

Synthesis Project

Each candidate for the DNP is required to complete a synthesis project in the student's area of interest, which incorporates DNP course work and represents an evidenced based intervention, evaluation and dissemination of findings. A student actively engaged in a synthesis project must be officially enrolled in NURS 809: Advanced Directed Study, or a Residency course for credit.

POST-MSN DNP WITH A PSYCHIATRIC/MENTAL HEALTH NURSE PRACTITIONER CERTIFICATE CURRICULUM

NURS 823: Residency III	4 hours
NURS 692: Advanced Practice Nursing: Psychiatric/Mental Health (PMH) II.....	5 hours

Semester 6, Summer

NURS 697: Advanced Practice Nursing: Psychiatric/Mental Health (PMH) III.....	4 hours
---	---------

As Needed

NURS 809: Advanced Directed Study	3-6 hours
---	-----------

Synthesis Project

Each candidate for the DNP is required to complete a synthesis project in the student's area of interest, which incorporates DNP course work and represents an evidenced based intervention, evaluation and dissemination of findings. A student actively engaged in a synthesis project must be officially enrolled in NURS 809: Advanced Directed Study, or a Residency course for credit.

The student is awarded a DNP degree and a Post-Masters' Certificate of Nurse Practitioner to Psychiatric/Mental Health Nurse Practitioner upon completion of the program.

Course Descriptions

Listed below are the courses offered by departments of the University.

Courses numbered 100 to 199 are primarily for freshmen, 200 to 299 are primarily for sophomores, and 300 to 499 are primarily for juniors and seniors. Graduate credit is awarded for courses numbered 500, 600, 700, 800, and 900. Listing a 300 or 400 level course along with a companion 500 number indicates that undergraduate students register for the lower number and graduate students register for the upper number. Courses numbered 600, 700, 800, and 900 are open to graduate students only. Bracketed [] numbers indicate a previous identification of a course. Curricula are arranged so that students are to register for appropriate level courses each year. An H after a course number in this Catalog (e.g., English 101H, History 102H) designates an Honors course.

Common Course Numbering. Courses that are part of the Louisiana Statewide Common Course Catalog have a Louisiana Common Course Number, LCCN, bracketed [] with a Common Statewide descriptor, number, and course title. For example, [LCCN: CMAT 1213, College Algebra] is the cross-listing for Southeastern's college Algebra course. Additional information about Louisiana's Statewide Common Course Catalog can be found on the Board of Regents' website.

Credit Towards the Degree. Some courses are very similar in content to other courses. When a student takes two or more courses that have similar content, only one of the courses can be used toward the degree. Although the other course(s) cannot be used to satisfy a specific course requirement in the degree, all courses and grades will appear on the transcript and will be used in the calculation of the cumulative grade point average. In the calculation of the degree grade point average, however, since only the courses applicable to the student's curriculum are used, the other course(s) will not be included in the degree grade point average.

Descriptions of affected courses contain a phrase such as, "Credit toward the degree will not be granted for ...". Students should read the course descriptions in this section of the catalog, or consult with their academic department, if there are questions about whether or not credit for a course will be applicable toward the degree.

Minimum Length for Academic Courses. For one semester hour of credit, a class should meet approximately 750 minutes in no less than five days. For two semester hours of credit, a class should meet approximately 1,500 minutes in no less than ten days. A three-semester hour course should meet approximately 2,250 minutes in no less than 15 days. Final exam periods may be counted as class time when computing required minutes and required days.

Accounting (ACCT)

200. Introduction to Financial Accounting. [LCCN: CACC 2113, Introduction to Financial Accounting]. Credit 3 hours. Prerequisite: Sophomore standing. An introduction to corporate financial accounting systems including preparing, interpreting, and using financial statements. (Summer, Fall, Spring)

215. Applications of Technology for Accountants. Credit 3 hours. Prerequisite: "C" or better in ACCT 200. A study of the technological skills needed in common software applications used by accountants to reinforce accounting concepts and principles. A laboratory fee is required for this course. (Fall, Spring)

221. Intermediate Financial Accounting I. Credit 3 hours. Prerequisites: "C" or better in ACCT 200 and 2.1 cumulative GPA. A thorough review of the accounting information system emphasizing the accounting cycle, financial statements, and the environment of accounting. (Summer, Fall, Spring)

225. Managerial Accounting. [LCCN: CACC 2213, Introduction to Managerial Accounting]. Credit 3 hours. Prerequisite: ACCT 200. A study of managerial accounting including full cost, differential, and responsibility accounting systems. Emphasis is placed on procedures and methods designed to provide information for management decisions. (Not open to accounting majors). (Summer, Fall, Spring)

312. Intermediate Financial Accounting II. Credit 3 hours. Prerequisites: "C" or better in ACCT 221 and Junior standing. A continuation of ACCT 221 emphasizing accounting for the assets and liabilities of an entity. (Summer, Fall, Spring)

313. Intermediate Financial Accounting III. Credit 3 hours. Prerequisites: "C" or better in ACCT 312 and Junior standing. A continuation of ACCT 312 emphasizing accounting for leases, pensions, income taxes, corporate equity, accounting changes, statement of cash flows, and financial disclosures. (Summer, Fall, Spring)

315. Accounting Systems and Analytics. Credit 3 hours. Prerequisite: "C" or better in ACCT 215. A study of the systems that enable financial data to be collected, organized, and communicated; and a study of the tools and techniques used to analyze how financial and non-financial data are being used to make business decisions. (Fall, Spring)

320. Accounting Information Systems and Procedures. Credit 3 hours. Prerequisites: "C" or better in ACCT 221, OMIS 350, and Junior standing. A study of the system that enables accounting data to be collected, organized, and communicated in an efficient and effective manner. The course emphasizes the accountant's role in evaluating, designing, and controlling the flow of information. The course also develops skills in using common software applications used to automate accounting systems and perform other analyses. (Varies)

331. Cost and Managerial Accounting. [LCCN: CACC 3113, Cost Accounting (Upper Level)]. Credit 3 hours. Prerequisites: "C" or better in ACCT 221 and Junior standing. A study of the concepts, objectives, and procedures of cost and managerial accounting. Topics include cost volume-profit analysis; job costing and process costing systems; activity-based costing; standard costing and variance analysis; budgeting; and relevant information for decision making. (Fall, Spring)

340. Financial Statement Analysis. Credit 3 hours. Prerequisites: Junior standing and ACCT 225. Interpretation, analysis, and evaluation of financial reports primarily from the viewpoints of company managers, investors, and creditors. (Not open to accounting majors.) (Varies)

341. Tax Accounting. [LCCN: CACC 3213, Tax I (Upper Level)]. Credit 3 hours. Prerequisites: "C" or better in ACCT 221 and Junior standing. An introductory course in the fundamentals of federal income taxation. Coverage will primarily focus on the federal tax law as it relates to individuals. (Fall, Spring)

391. Accounting Internship I. Credit 3 hours. Prerequisites: "C" or better in ACCT 312 and 3.0 cumulative Accounting GPA. Provides training and experience through an assignment with a cooperative CPA firm, company, or government agency selected or approved by the Accounting Internship Coordinator. Students will earn three semester hours credit for their 300 hours of approved work experience. Accounting Internship is an accounting elective and will receive a grade of Pass or Fail only. (Summer, Fall, Spring)

393. Accounting Internship II. Credit 1-3 hours. Prerequisites: "C" or better in ACCT 312 and 3.0 cumulative Accounting GPA. Students can earn one semester hour of credit for each 100 hours of approved work experience. The work assignment must be different from that of ACCT 391, if ACCT 391 is taken. ACCT 393 does not count as an accounting elective in the accounting degree program and will receive a grade of Pass or Fail only. The course may be repeated for a total of six credit hours with approval of the Accounting Internship Coordinator. (Summer, Fall, Spring)

395H. Ethics, Judgment, and Decision Making. Credit 3 hours. Prerequisite: Active status in the University Honors Program or permission of Department Head. An honors course to help students answer the question, "What's the right thing to do?" In addition, students will explore the question, "Once I know what to do, how can I summon the organizational support to help me to act in accordance with my intentions?" The course will involve the study of theoretical perspectives on ethics, judgment, and decision making and the application of those perspectives in business and accounting. Open to all majors. (Varies)

400/500. Accounting for Governmental and Not-for-Profit Organizations. Credit 3 hours. Prerequisites: "C" or better in ACCT 312 and Senior or Graduate standing. A study of the specialized accounting, reporting, and auditing requirements applicable to governmental and not-for-profit organizations, as well as issues related to their performance evaluation. Additional work will be required for 500 credit. (Varies)

406/506. Accounting Theory. Credit 3 hours. Prerequisites: "C" or better in ACCT 313, Senior or Graduate standing. A study of past attempts to develop a coordinated statement of accounting theory; an examination of accounting theory with emphasis on financial accounting concepts; and a discussion of the application of accounting concepts to cost, revenue, income, assets, liabilities, and equities. Additional work will be required for 506 credit. (Varies)

407. Auditing. [LCCN: CACC 3313, Auditing (Upper Level)]. Credit 3 hours. Prerequisites: "C" or better in ACCT 313 and Senior standing. A study of audit theory and practice, internal control, audit program development, evidential matter; technology, and reporting. Emphasis will be given to discussion of the ethical, social, and economic forces informing audit judgment. (Summer, Fall, Spring)

411. Advanced Financial Accounting. Credit 3 hours. Prerequisites: "C" or better in ACCT 313 and Senior standing. A study of advanced accounting concepts including corporate consolidations, partnerships, international issues, and not-for-profit organizations. (Summer, Fall, Spring)

413. Independent Study in Accounting. Credit 3 hours. May not be repeated. Prerequisites: "C" or better in ACCT 313, Senior standing, and the permission of Department Head. A course designed primarily to study current accounting issues in an area mutually agreed upon by the instructor and student. (Varies)

432. Advanced Cost Accounting. Credit 3 hours. Prerequisites: C or better in ACCT 331 and Senior standing. A study of advanced topics in cost and managerial accounting include cost allocation, long and short-range budgeting, quantitative techniques for planning and decision making, cost and profit analysis, marginal income analysis, cost of quality, and generating new plans and making corrective actions. (Varies)

442/542. Advanced Tax Accounting. [LCCN: CACC 3223, Tax II (Upper Level)]. Credit 3 hours. Prerequisites: "C" or better in ACCT 341 and Senior or Graduate standing. A course in the federal income taxation of taxpayers other than individuals. Coverage will primarily focus on the federal tax law as it relates to corporations, shareholders, partnerships, and partners. Additional work will be required for 542 credit. (Varies)

444/544. Valuation and Financial Analysis. Credit 3 hours. Prerequisites: ACCT 200 and FIN 381. A study of methods of analytical approaches to financial statements for credit analysis and security valuation. (Varies)

495/595. Special Topics. Credit 3 hours. Prerequisite: "C" or better in ACCT 221. A course focusing on selected current issues in accounting. Course may be repeated up to two additional times for credit with new topics. (Varies)

605. Ethics in Accounting. Credit 3 hours. Prerequisites: ACCT 200 (or equivalent as determined by the department head) and Graduate Standing. A study of ethical perspectives and the application of those perspectives to judgment and decision making in business and accounting contexts. Students who have received credit for ACCT 395H are not eligible for credit. (Varies)

607. Advanced Auditing. Credit 3 hours. Prerequisites: "C" or better in ACCT 407 (or equivalent as determined by the Department Head) and Graduate standing. A study of audit theory and practice accomplished through the analysis of professional standards, current events affecting the professional environment, professional literature, technology, and significant cases impacting the profession. (Varies)

615. Data Analytics for Business and Accounting. Credit 3 hours. Prerequisites: "C" or better in ACCT 200 and Graduate standing. A study of the concepts, tools, and techniques used to analyze how financial and non-financial data are being used to make business decisions. (Varies)

620. Advanced Accounting Information Systems. Credit 3 hours. Prerequisites: "C" or better in ACCT 320 (or equivalent as determined by the Department Head) and Graduate standing. The study of advanced topics relating to accounting information systems including the analysis of selected professional standards; the evaluation, design and control of systems; and the development of skills using common software applications used to perform advanced analyses. (Varies)

625. Accounting for Business Decisions. Credit 3 hours. Prerequisites: "C" or better in ACCT 200 (or equivalent as determined by the Department Head) and Graduate Standing. The fundamental accounting concepts and techniques that relate to planning and control are reviewed. An investigation is made of the concepts that underlie cost behavior patterns, responsibility accounting, cost allocation, and cost systems. Techniques used in budgeting, long-range planning performance measurement and break-even analysis are developed. (Fall, Spring)

661. CPA Review. Credit 3 hours. Prerequisite: Graduate Standing and Department Head permission. A course focusing on preparing students for successful completion of the licensing exam to become a certified public accountant. Course may be repeated up to two times for transcript credit with new topics. The first 3 hours of ACCT 661 alone count towards the MBA degree. Pass or fail only. (Varies)

691. Accounting and Financial Analysis Internship. Credit 3 hours. Prerequisites: Graduate standing and registration in the MBA with a concentration in Accounting and Financial Analysis program or Department Head approval. A course to provide engagement with the profession through professional experience. Learners will earn three hours of credit for a minimum of 300 hours of paid experience. This course is graded on a pass/fail basis. (Varies)

695. Special Topics in Accounting. Credit 3 hours. Prerequisites: ACCT 200 (or equivalent as determined by the Department Head) and Graduate standing. A seminar course focusing on selected current issues in accounting. Course may be repeated for credit with new topic. (Varies)

Applied Computing Technology Software (ACTS)

472. Internet Programming 1. Credit 1 hour. Prerequisite: Junior standing or permission of the Department Head. An intensive course on basic coding in HTML and XML for online publishing. One to two hours of lecture and/or lab per week (based on 15-week semester). A laboratory fee is required for this course. (Varies)

473. Internet Programming 2. Credit 1 hour. Prerequisite: Junior standing or permission of the Department Head. An intensive course on coding in PHP, JavaScript, and jQuery for server-side interactivity in online publishing. One to two hours of lecture and/or lab per week (based on 15-week semester). A laboratory fee is required for this course. (Varies)

474. Web Management. Credit 1 hour. Prerequisite: Junior standing or permission of Department Head. A study of content management systems, introducing database and server management techniques for online publishing. One to two hours of lecture and/or lab per week (based on 15-week semester). A laboratory fee is required for this course. (Varies)

Anthropology (ANTH)

101. Cultural Anthropology. [LCCN: CATR 2013, Cultural Anthropology]. Credit 3 hours. A study of the nature and components of culture and the diversity of human cultures. (Varies)

110. Introduction to Physical Anthropology. [LCCN: CATR 2023, Biological Anthropology]. Credit 3 hours. Evolutionary processes, including adaptation and speciation; examination of fossil and archaeological records of non-human primate and human morphological and social-behavior evolution. (Varies)

301. Exploring Archaeology. Credit 3 hours. An introduction to the past as revealed by the archaeological record. (Fall)

352. Comparative Family Patterns. Credit 3 hours. Prerequisite: Sophomore standing. Also taught as SOC 352. A comparison of selected family patterns in various cultures. Attention given to role performance in each society and comparison of norms, values and attitudes related specifically to the family. Credit is not to be given for both ANTH 352 and SOC 352. (Varies)

400/500. Independent Study. Credit 1-3 hours. Prerequisites: Consent of the Department Head and Junior standing. Student works with an instructor on a one-to-one basis and prepares a research report on an appropriate topic. May be repeated in one to three-hour credits for a total of 6 hours. New materials are investigated in each repeat. (Varies)

401/501. Special Topics in Anthropology. Credit 3 hours. Prerequisite: Junior standing or consent of the Department Head. An in-depth study of a particular anthropological topic. May be repeated for a total of six hours. (Varies)

403. Archaeological Studies. Credit 3 hours. Prerequisite: ANTH 101. An examination of the goals, methods, techniques, and interpretation of archaeological investigation. (Spring)

405/505. Indigenous Peoples of the Americas. Credit 3 hours. Prerequisite: Anthropology 101, Junior standing, or instructor consent. Also offered as Geography 405/505. Examination of the origin, distribution, ecology, culture and social systems of indigenous populations of the New World. May not be used for credit with GEOG 405/505. (Fall)

410/510. Culture and the Environment. Credit 3 hours. Prerequisite: ANTH 101, Junior Standing, or permission of Department Head. A study of the diverse and complex interactions between human culture and the environment. (Varies)

411/511. Race and Ethnic Relations. Credit 3 hours. Prerequisites: SOC 101 or ANTH 101 and Junior standing or consent of the Department Head. Also taught as SOC 411/511. Designed to give an insight into the attitudes of groups, where interrelations are marked by antagonism, discrimination, and conflict. Influence on community welfare considered. Credit is not to be given for both ANTH 411 and SOC 411/511. (Summer, Fall, Spring)

698. Special Topics in Anthropology. Credit 3 hours. Selected topics in areas not available in existing courses. May be new or unique issues or contemporary anthropological topics relevant to various social issues. May be repeated for credit when different topics are studied. (Varies)

Visual Arts (ART)

105. Survey of World Art History I. [LCCN: CART 2103, Art History I]. Credit 3 hours. One semester chronological survey of world art and architecture from the Paleolithic to the Late Gothic eras. Emphasis varies with instructor. Three hours of lecture per week. (Summer, Fall, Spring)

106. Survey of World Art History II. [LCCN: CART 2113, Art History II]. Credit 3 hours. One semester chronological survey of the world art and architecture from the Late Gothic to the present era. Emphasis varies with instructor. Three hours of lecture per week. (Summer, Fall, Spring)

111. Basic Drawing. [LCCN: CART 2203, Beginning Drawing]. Credit 3 hours. An introduction to the materials, skills, and techniques of the drawing process. Six hours of studio a week. A laboratory fee is required for this course. (Summer, Fall, Spring)

112. Intermediate Drawing. [LCCN: CART 2213, Figure Drawing]. Credit 3 hours. Prerequisite: ART 111. Students will investigate the materials and techniques used in drawing – with emphasis on content, the relationship between media to surface, and presentation. The ability 'to see' will be developed through careful observation from life and the human figure, while formal approaches will challenge students to explore a variety of drawing processes. Six hours of studio a week. A laboratory fee is required for this course. (Fall, Spring)

115. Basic Ceramics. Credit 3 hours. A basic introductory course in the techniques of wheel-thrown and hand-built forms, exploration of glazes and glazing procedures, and firing of clay forms. Six hours of studio a week. A laboratory fee is required for this course. (Summer, Fall, Spring)

117. Printmaking I. Credit 3 hours. This course is an introduction to the methodologies and concepts of the relief, intaglio, and silkscreen printmaking techniques. Students will gain a working knowledge of the tools, materials, and equipment of a variety of traditional printmaking techniques while creating original prints in a professional studio environment. Six hours of studio a week. A laboratory fee is required for this course. (Summer, Fall, Spring)

122. Basic Digital Photography. Credit 3 hours. This course introduces students to the techniques and concepts of photography in a digital platform. Students will receive instruction in basic picture taking techniques, photographic composition, basic digital image correction and output in the digital studio. Assignments emphasize the creative use of photography and encourage enhanced visual literacy. Six hours of studio per week. A laboratory fee is required for this course. (Fall, Spring)

124. Basic Darkroom Photography. Credit 3 hours. Prerequisite: Art 122 or permission of Department Head. This course provides a technical foundation in photography using the traditional darkroom. Students are introduced to analogue techniques and equipment, learn to develop film and produce black and white prints. Assignments and critiques familiarize students with the importance of this equipment in contemporary practice as well as the history of the medium. Emphasis is placed on the connection between content and technique with a development of personal vision. A laboratory fee is required for this course. (Fall, Spring)

151. Foundations in Visual Language I: Introduction to Design + Color. [LCCN: CART 2303, Color Theory]. Credit 3 hours. This course is designed to introduce students to the fundamentals of design, color theory, and visual language, while identifying connections between traditional methods and contemporary practices. An emphasis will be placed on craft, vocabulary, and critique dialogue, as students develop studio working methods. Six hours of studio a week. A laboratory fee is required for this course. (Summer, Fall, Spring)

152. Intermediate 2/D Design [LCCN: CART 1113, Art Structure/2-D Design]. Credit 3 hours. Prerequisite: ART 151. Continuation of design techniques including color characteristics, intervals, and mixtures. Six hours of studio a week. A laboratory fee is required for this course. (Fall, Spring)

153. Basic 3/D Design. [LCCN: CART 2303, Color Theory]. Credit 3 hours. A course introducing spatial and formal techniques pertaining to real space and three-dimensional materials. Students will explore formal elements and principals of design in relation to structure, spatial awareness, sculptural materials and technical processes in the practice of three-dimensional design. Six hours of studio a week. A laboratory fee is required for this course. (Fall, Spring)

154. Foundations in Visual Language II: Digital Media, Concepts and Inquiry. Credit 3 hours. Prerequisites: ART 151 or permission of Department Head. This course continues to expand students' foundational understanding of design and color theory while exploring practices and applications of digital media. Students will explore a variety of disciplines such as photography, animation, video, graphic design, and interdisciplinary processes. An emphasis will be placed on technology used in art production, project management, invention, and execution. Six hours of studio a week. A laboratory fee is required for this course. (Summer, Fall, Spring)

160. Typography. Credit 3 hours. Prerequisites: ART 111 and 151 or permission of Department Head. This course introduces the fundamentals of typography and focuses particularly on how typographic form and visual arrangement create and support content. Course work employs both handwork and computer technology. Typographic history and theory are discussed in relation to course projects. Six hours of studio a week. A laboratory fee is required for this course. (Fall, Spring)

161. Print Design I. Credit 3 hours. Prerequisites: ART 111, 151 and registration in or prior credit for ART 160 or permission of the Department Head. This course is an introduction to the history and concepts of communication design including typography; integration of type and image; and compositional structures utilizing digital technology. Graphic design industry prepress standards will be introduced. Six hours of studio a week. A laboratory fee is required for this course. (Fall, Spring)

164. Painting I. Credit 3 hours. Prerequisite: Art 111 or permission of Department Head. This course focuses on providing students with a technical foundation in the craft of painting. Students will be introduced to the material and techniques of the painting process. Historical and contemporary examples of painting will be utilized to increase the students' understanding of painting methods. Six hours of studio per week. A laboratory fee is required for this course. (Fall, Spring)

190. New Media and Animation I. Credit 3 hours. Introduction to theory and practice of digital image manipulation and creation. Students will explore basics of using the computer as an expressive art-making tool including use of vector and raster graphic software, basic animation, an introduction to the web as an artistic medium and digital photography techniques. Six hours of studio a week. A laboratory fee is required for this course. (Fall, Spring)

215. Intermediate Ceramics. Credit 3 hours. Prerequisite: ART 115 or permission of the Department Head. Continuation of ceramic techniques in wheel throwing and hand building, glazing and firing. Six hours of studio a week. A laboratory fee is required for this course. (Summer, Fall, Spring)

217. Printmaking II. Credit 3 hours. Prerequisite: ART 117. This course will introduce the methodologies and concepts of photo-based and digital printmaking techniques. Students will gain a working knowledge of the tools, materials, and equipment of a variety of photo-based and digital printmaking processes. Students will create original prints in a professional studio environment. Six hours of studio a week. A laboratory fee is required for this course. (Summer, Fall, Spring)

218. Screen Printing. Credit 3 hours. This course is designed to teach students the principles and concepts of the screen-printing process. Students will explore the artistic and commercial applications of this process including image preparation, stencil making, screen mesh selection and screen exposure. Students will also explore a variety of printing techniques as well as ink and surface compatibility. Six hours of studio a week. A laboratory fee is required for this course. (Fall)

220. Intermediate Photography. Credit 3 hours. Prerequisite: ART 122 or permission of Department Head. This course is designed to refine the techniques and ideas of students working in photography at an intermediate level. Students will complete assignments to expand technical skills in all aspects of the workflow: from image capture, to image manipulation, to archival inkjet printing. Assignments, lectures and readings address theoretical concepts based in historical and contemporary discourses surrounding photography. Students work toward refining ideas and interests through a series of directed projects. A laboratory fee is required for this course. (Varies)

231. Sculpture I. Credit 3 hours. Prerequisite: ART 153. This course is an introduction to concepts and techniques practiced in contemporary sculpture. Through a continuation of experiences gained in ART 153, Three-Dimensional Design, students will expand their knowledge of spatial concepts pertaining to sculpture. Emphasis will be placed on creative problem solving and the development of skills in working with a variety of materials and techniques including welding, wood construction, assemblage and plastic media. Six hours of studio a week. A laboratory fee is required for this course. (Summer, Fall, Spring)

261. Print Design II. Credit 3 hours. Prerequisites: ART 160 and 161 or permission of the Department Head. Exploration of intermediate level graphic design for print with references to graphic design history. Emphasis is placed on complex digital pre-press print concerns. Six hours of studio a week. A laboratory fee is required for this course. (Fall, Spring)

281. Basic Painting. Credit 3 hours. Prerequisite: ART 111. Introduction to painting techniques, canvas preparation, and basic framing. Six studio hours per week. A laboratory fee is required for this course. (Fall, Spring)

284. Painting II. Credit 3 hours. Prerequisite: ART 184 or permission of Department Head. An exploration of the visual language of painting and its relationship to personal expression and content. Study is organized to consider painting techniques, materials, and methods. Work will be done from observation, memory, from imagination, and improvisation. Individual study of contemporary artists will also form part of the individual's exploration and conceptual development. Six hours of studio a week. A laboratory fee is required for this course. (Fall, Spring)

288. Special Topics – Painting and Drawing. Credit 3 hours. Prerequisites: ART 111, 151 and 117 or 281 or permission of Department Head. An exploration of specific topics related to drawing and/or painting. Content will change from semester to semester. May be repeated as topics change, for a total of six hours. Six hours of studio a week. (Varies)

290. New Media and Animation II. Credit 3 hours. Prerequisite: ART 190 or permission of the Department Head. A continuation in the study of computer-generated imagery, animation, interactive media and the Internet as an artistic medium. The course will focus on hyper narratives and an exploration of how electronic media are expanding and changing the role of the artist and the world in which s/he creates. Six hours of studio a week. A laboratory fee is required for this course. (Fall, Spring)

299. Sophomore Review. No Credit. Prerequisites: ART 105, 106, 151, 152, 153, 111, 112 or permission of Department Head. An assessment of student progress through foundation level classes. A committee of Visual Arts faculty will provide feedback on the student's progress and provide guidance in the selection of a specialty area. Students must present a selection of drawings, 2-D and 3-D artworks, and examples of artworks completed in their focus area. Students who do not earn a passing grade in ART 299 may repeat the course one time in order to earn a higher grade. Graded Pass/Fail. (Summer, Fall, Spring)

300. Special Topics – Studio. Credit 3 hours. Prerequisite: ART 299 or permission of Department Head. An inquiry into selected topics in visual art, including the theoretical and practical aspects of studio production. Content may vary from semester to semester. May be repeated for a total of nine credit hours, as topics vary. Six hours of studio a week. (Varies)

- 311. Advanced Drawing.** Credit 3 hours. Prerequisites: ART 112 and 299 or permission of Department Head. Investigation and involvement in a variety of materials and techniques. Emphasis is placed on the inter-relationship of fundamentals, creative techniques, and exploration. Six hours of studio per week. May be repeated for a total of six hours. A laboratory fee is required for this course. (Fall, Spring)
- 315. Advanced Ceramics.** Credit 3 hours. Prerequisites: ART 215 and 299 or permission of the Department Head. A continuation of hand-built and wheel-thrown forms, emphasis on glaze formulation and calculation kiln-firing and experimentation. Six hours of studio a week. May be repeated for a total of six credit hours. A laboratory fee is required for this course. (Summer, Fall, Spring)
- 317. Printmaking III.** Credit 3 hours. Prerequisites: ART 217 and 299 or permission of Department Head. Advanced and specialized study within the printmaking processes of intaglio, relief, silkscreen and lithography. Digital images will be adapted to traditional processes. Emphasis on refinement of technique and individual creative expression with the printmaking process will be stressed. The exploration of content and the development of student ideas will be addressed. An advanced studio course with directed studies. Six studio hours a week. May be repeated for a total of six hours. A laboratory fee is required for this course. (Fall, Spring)
- 318. Screen Printing II.** Credit 3 hours. Prerequisite: ART 218, 299, or permission of the Department Head. Advanced and specialized study within the screen-printing technique. Emphasis on refinement of technique and individual creative expression will be stressed. The exploration of content and the development of student ideas will be addressed. Six hours of studio a week. A laboratory fee is required for this course. (Fall, Spring)
- 319. Lithography.** Credit 3 hours. Prerequisite: ART 117, 217, 299, or permission of the Department Head. This course will introduce the methodologies and concepts of aluminum plate lithography. Students will gain a working knowledge of the tools, materials, and equipment involved in creating original prints in a professional studio environment. A laboratory fee is required for this course. (Fall, Spring)
- 320. Art and the Environment.** Credit 3 hours. Prerequisites: ART 299 or permission of the Department Head. This course asks students to examine the natural world as a subject for visual art as they consider the role artists can play in sustainability. Hands-on, field-based research in the local landscape will be supplemented by studio time, critique, and the exploration of artistic techniques and materials. Students will create a cohesive visual project informed by the interdisciplinary study of historic and contemporary ecocritical artists as well as regional and global environmental issues. A lab fee is required for this course. (Varies)
- 321. Advanced Photography.** Credit 3 hours. Prerequisites: ART 220 and 299 or permission of Department Head. This course investigates the artistic aspects and technical procedures used in advanced image making. Students will employ advanced techniques in chemical and digitally assisted imagery. Each student will complete a self-directed, exhibition quality final portfolio. Class includes bi-weekly critiques, lab work and lectures, and readings on various photographic techniques and the history of photography. Six hours of studio per week. A laboratory fee is required for this course. (Fall, Spring)
- 322. Photography on Assignment.** Credit 3 hours. Prerequisites: ART 122 and 299 or permission of Department Head. This course is designed to enhance students' exposure to industry-specific professional practices in photography and facilitate hands-on experience with photographic project management in real world applications. Students will examine discourse surrounding editorial photography, commercial photography, and portraiture as they execute a series of guided assignments. Topics covered will include portfolio preparation, file management, studio lighting, post-production, and subject/photographer relationships. Students will complete projects with focus on the technical, logistic, legal, and ethical concerns specific to photographic practices in the fields of commercial and editorial photography and their potential intersection with contemporary art practices. A laboratory fee is required for this course. (Varies)
- 333. Sculpture II.** Credit 3 hours. Prerequisites: ART 231 and 299 or permission of Department Head. This course will explore major sculptural traditions. Students begin defining and developing their visual vocabulary and technical skills while completing studio assignments in traditional media. Students will research sculptural concepts and participate in discussions and critiques. Six hours of studio a week. A laboratory fee is required for this course. (Summer, Fall, Spring)
- 334. Sculpture III.** Credit 3 hours. Prerequisite: ART 333. Individual studies in selected media. Emphasis is placed on individual development in contemporary methodologies, research, concepts and technical skills in order to produce a resolved body of work. Six hours of studio a week. A laboratory fee is required for this course. (Summer, Fall, Spring)
- 340. Greek and Roman Art.** Credit 3 hours. Prerequisites: ART 105 or 106 or permission of Department Head. This course surveys the art and architecture of the ancient Greeks and Romans and provides brief introductions of Aegean and Etruscan art. Course content is presented chronologically and considers the styles, techniques, and historical context of the art works. Three hours of lecture a week (Spring)
- 343. Art in Context.** Credit 3 hours. A variable content course. This course is an in-depth study of the art from a geographical region and/or historical period conducted as part of a study abroad program. May be repeated as topics vary. (Varies)
- 344. Special Topics in Art History.** Credit 3 hours. Prerequisites: ART 105 or 106, or permission of the Department Head. The course is a detailed examination of a selected topic. Content may vary from semester to semester. Offerings will include such diverse subjects as specific styles, themes, techniques, media, or artists and their art works. The material is presented as lectures, a research paper, and field trips as applicable. May be repeated once for credit. Three hours of lecture a week. (Varies)
- 345. Survey of Graphic Design History.** Credit 3 hours. Prerequisites: ART 105 or 106 and ENGL 101 or permission of Department Head. Investigation of graphic design, with the examination of its beginning to its current visual communication role. Included in this analysis will be its relationship to visual art, cultural influences, and technological developments. (Spring)
- 347. History of Photographic and Electronic Imaging.** Credit 3 hours. Prerequisites: ART 105 or 106 and ENGL 101 or permission of Department Head. A chronological examination of the significant developments in photography leading up through the development of electronic means of creating and manipulating images. The course will explore the nature of this evolving medium, its relation to the culture in which it exists with emphasis on its reciprocity with other mediums in visual arts. Three hours of lecture a week. (Fall)
- 348. Baroque Art.** Credit 3 hours. Prerequisites: ART 105 or 106 and ENGL 101 or permission of Department Head. This course presents European art of the seventeenth century by region, beginning with Italy and followed by Flanders, Spain, France, and the Netherlands. In conjunction with stylistic developments of individual artists, issues such as political geography, religious conflict, and changing social structures are addressed. Three hours of lecture a week. (Spring)
- 361. Print Design III.** Credit 3 hours. Prerequisites: ART 261 and 299 or permission of Department Head. Complex print design problems and digital pre-press exploration of contemporary communication in graphic design. These may include multi-page publication and package design. Six hours of studio per week. A laboratory fee is required for this course. (Fall, Spring)
- 362. Motion Design.** Credit 3 hours. Prerequisites: ART 261 and 299 or permission of Department Head. This course will investigate the use of motion within the context of typography and image in graphic design as this applies to client and product promotion and communication. Exploration will include branding, animation and contemporary communication design as applied to the movie and television industries. Six hours of studio per week. A laboratory fee is required for this course. (Spring)
- 371. Art for the Elementary Teacher.** Credit 3 hours. Prerequisite: Junior standing. Designed specifically for majors in Elementary Education. A critical analysis of past and present concepts of art education and a study of materials, techniques, activities, and curricula suitable for use in the

elementary school program. Lecture, studio, and competency-based clinical practice required. A laboratory fee is required for this course. (Summer, Fall, Spring)

373. Art Education in the Elementary School. Credit 3 hours. Prerequisite: ART 299. This course is a study of art education purposes, trends, policies, and art education's potential as a discipline. This course is an introduction to and exploration of media available for use by the elementary art educator. Students will earn a minimum of twenty (20) hours of direct teaching experience outside of class time. Lecture, lab, and competency-based clinical practice required. A laboratory fee is required for this course. (Spring)

374. Art Education in the Secondary School. Credit 3 hours. Prerequisite: ART 299. Theoretical and practical constructs in art curriculum development will be highlighted. Specific methodologies will be used to investigate traditional as well as contemporary modes of pedagogy. Media explorations appropriate to the secondary art program will also be highlighted. Students will earn a minimum of twenty (20) hours of direct teaching experience outside of class time. Lecture, lab and competency-based clinical practice required. A laboratory fee is required for this course. (Fall)

375/575. Arts and Crafts for Teachers of Special Education. Credit 3 hours. Prerequisites: Junior standing and ART 371 or permission of the Department Head. Experience with art materials and techniques for the physically handicapped, mentally retarded, learning disabled, and gifted children. Course structure also includes practical experience with special children. One hour of lecture and four hours of studio a week. (Varies)

383. Intermediate Painting. Credit 3 hours. Prerequisites: ART 281 and 299 or permission of Department Head. A combined study of the materials and techniques of painting with emphasis on innovative approaches to content and form. Six hours of studio a week. A laboratory fee is required for this course. (Fall, Spring)

384. Painting III. Credit 3 hours. Prerequisites: ART 299 and 284 or permission of Department Head. Advanced studio course with directed studies. Six hours of studio a week. May be repeated for a total of six hours. A laboratory fee is required for this course. (Varies)

385. Thematic Inquiry in Painting, Printmaking, and Drawing. Credit 3 hours. Prerequisites: ART 217 or 218 or 284 and 299 or permission of Department Head. This course introduces students to working in an interdisciplinary manner using researched-based practices. Students will have the opportunity to work across various media, such as: painting, printmaking and drawing. Students will work through directed thematic assignments, informed by a variety of topics and conceptual approaches, relevant to the history of art and contemporary practices. Six hours of studio a week. A laboratory fee is required for this course. (Varies)

386. Advanced Studio Practice in Painting, Drawing & Printmaking. Credit 3 hours. Prerequisites: ART 299 or permission of the department head. An advanced self-directed studio course emphasizing technical refinement and individual creative expression. This course is intended to develop independence and a personal vision of the creative process. Students produce a unified body of work while engaging in consistent studio practice and critique. Students will have the opportunity to explore the creative possibilities of mixed-media and interdisciplinary techniques within drawing, painting, or printmaking. Six hours of studio a week. A laboratory fee is required for this course. (Varies)

388. Special Topics – Drawing and Painting. Credits 3 hours. Prerequisite: ART 299 or permission of Department Head. An in-depth exploration of specific topics relating to drawing and/or painting. Content will change from semester to semester. May be repeated as topics change for a total of six hours. Six hours of studio a week. (Varies)

390. New Media and Animation III. Credit 3 hours. Prerequisites: ART 290 and 299 or permission of Department Head. An exploration of interactive multimedia technologies for the creation and distribution of artistic content using electronic means. Course work will concentrate on the development of interactive applications and game production for desktop and mobile devices. There will be a focus on both asset creation and scripting for these types of applications. Readings and discussions will focus on technical, aesthetic, and theoretical issues relating to this evolving art medium. Six hours of studio a week. May be repeated for a total of 6 credit hours. A laboratory fee is required for this course. (Varies)

393. Three-Dimensional Digital Media and Animation. Credit 3 hours. Prerequisite: ART 299 or permission of Department Head. A studio course focusing on the production and animation of three-dimensional objects on the computer and in real space. Students will be introduced to concepts of 3-D animation for cinema, video, sculpture, or interactive and Web markets. Movement in three dimensional XYZ coordinate space, timelines and intervals will be studied as well as modeling, lighting, and texture mapping. Students will learn to render virtual objects on the computer and in real space using CNC mill technology. Students will become familiar with the history of the medium and contemporary art practice through the presentation of works by various artists, discussions and readings. Six hours of studio a week. A laboratory fee is required for this course. (Fall, Spring)

394. Time-Based Digital Media I. Credit 3 hours. Prerequisite: ART 299 or permission of the Department Head. A studio course focusing on the production of digital video within a fine art context. Students will be introduced to basic video shooting skills, non-linear digital video, image animation, and the creation of multi-element imagery for video. Students will create their own digital video works, with an emphasis on artistic expression and experimentation in the use of the video medium for projection, or performance/installation works. Students will become familiar with the history of the video medium and contemporary art practice through screenings of works by various artists, discussions and readings. Six hours of studio a week. A laboratory fee is required for this course. (Varies)

395. Independent Study. Variable Credit: 1, 2, or 3 hours. Prerequisite: ART 299 or permission of Department Head. A written proposal of the subject area and procedures, to be approved by the Department Head and the instructor. Option 1-Studio: Private instruction directed to expand the student's technical and innovative skills. Student may select from any studio area. Option 2-Art History: The selection and investigation of a specific art history topic. May be repeated for credit. (Fall, Spring)

396. Advanced Web Arts. Credit 3 hours. Prerequisites: ART 290 and 299 or permission of Department Head. An advanced computer art course that focuses on creating art for presentation on a computer screen or the Internet. Advanced web-based artworks, 2-D animation, scripting, and streaming video will be explored. Students will examine the changing dynamics of the computer and the Web as artistic mediums that challenge contemporary notions of how art is presented and understood. Six hours of studio a week. A laboratory fee is required for this course. (Varies)

397. The Digital Print. Credit 3 hours. Prerequisites: ART 299 and ART 221, or ART 290, or ART 217, or ART 261 or permission of Department Head. An advanced course examining mechanical means of creating a fine art print. Various format digital print methods will be explored. Students will be encouraged to utilize digital tools to create prints and to combine these with traditional printmaking and photographic practices. Six hours of studio a week. May be repeated for a total of six credit hours. A laboratory fee is required for this course. (Varies)

411. Senior Project: Drawing. Credit 3 hours. Prerequisite: ART 311 or permission of Department Head. An intensive study in drawing or related two-dimensional media intended to develop independence, professionalism and a personal vision in drawing. Six studio hours a week. May be repeated for a total of six credit hours. A laboratory fee is required for this course. (Fall, Spring)

415. Senior Project: Ceramics. Credit 3 hours. Prerequisite: ART 315 or permission of Department Head. Intense study of advanced studio problems in clay with emphasis on development of professionalism and high performance. May be repeated for a total of 6 credit hours. Six hours of studio a week. (Summer, Fall, Spring)

417. Senior Project: Printmaking. Credit 3 hours. Prerequisite: ART 317 or permission of Department Head. An intensive study in printmaking intended to develop independence, professionalism, and a personal vision of printmaking. Six studio hours a week. May be repeated for a total of six credit hours. A laboratory fee is required for this course. (Fall, Spring)

421. Senior Project Photography. Credit 3 hours. Prerequisite: ART 321 or permission of Department Head. This course teaches students to develop a long-term body of work. Students will shape and edit their project with the aid of targeted reading and writing assignments, research on the history of art and bi-weekly classroom critiques. Each student will ultimately create an exhibition quality portfolio, a selection of which will be featured in his or her senior exhibition. An emphasis will also be placed on career development and professional practice. May be repeated for a total of 6 credit hours. The two sections of ART 421 required for the Photography concentration must be taken consecutively. Six hours of studio per week. A laboratory fee is required for this course. (Fall, Spring)

422. Senior Projects in Visual Art + Design. Credit 3 hours. Prerequisite: ART 315, 322, 334, 361, 385, 386, 393, 394 or permission of Department Head. This culminating studio course teaches students to develop a long-term, ambitious body of work in preparation for thesis exhibition and portfolio. This intensive exploration of a capstone visual art project is intended to develop independence, professionalism, and a personal vision. Students enter the class prepared with the technical and conceptual expertise of their area of concentration. The interdisciplinary setting of this course is designed to broaden students' exposure to contemporary artmaking practices with an emphasis on expanding communication skills, project management, and creative research practices. May be repeated for a total of 6 credit hours. For those concentrations requiring two sections, they must be taken consecutively. Six hours of studio per week. A laboratory fee is required for this course. (Fall, Spring)

426. Internship: Photography. Credit 3 hours. Prerequisites: ART 421 and permission of Department Head. Field placement within the photography industry will be implemented under the direct supervision of a professional staff member. This internship will give the student practical experience with the realities of the profession. (Summer, Fall, Spring)

433. Senior Project: Sculpture. Credit 3 hours. Prerequisite: ART 334 or permission of Department Head. This course is an intense involvement with a particular sculptural idea resulting in an ambitious body of work for the senior exhibition. Six hours of studio a week. A laboratory fee is required for this course. (Summer, Fall, Spring)

434. Sculpture IV. Credit 3 hours. Prerequisite: ART 334 or 393 or permission of Department Head. An advanced course requiring a strong commitment to sculptural practices resulting in a cohesive body of work. Emphasis is placed on contemporary methodologies including kinetic sculpture, installation, and public and site-specific art. Course may be repeated for up to six credit hours. Six hours of studio a week. A laboratory fee is required for this course. (Summer, Fall, Spring)

440. Nineteenth Century Art. Credit 3 hours. Prerequisites: ART 106 and ENGL 101 or permission of Department Head. Study of art, theory, and criticism in a cultural context from Neo-Classicism through the late 19th century. Three hours of lecture a week (Varies)

442. Early Twentieth Century Art. Credit 3 hours. Prerequisites: ART 106 and ENGL 101 or permission of Department Head. Study of art, theory, and criticism in a cultural context from the late 19th century to circa 1945. Three hours of lecture per week. (Fall)

443/543. Contemporary Art, Theory, and Criticism. Credit 3 hours. Prerequisites: ART 106 and ENGL 101 or permission of Department Head. Study of art, theory, and criticism from circa 1945 to the present. Three hours of lecture per week. (Fall, Spring)

444. Seminar in Art History. Credit 3 hours. Prerequisite: Nine hours in art history, with three hours at the 300-level or above, ENGL 102, or permission of Department Head. The course is an in-depth examination of a selected advanced art historical topic. Content may vary from semester to semester. Offerings will include such diverse subjects as specific styles, themes, techniques, media, or artists and their art works. The material is taught as lectures and readings in research and Methodologies, and includes a position paper. Instructors may also include presentations by visiting lecturers or field trips as they apply. May be repeated for a total of 6 credit hours. (Spring)

445. Western Medieval Art. Credit 3 hours. Prerequisites: ART 105 or 106 and ENGL 101 or permission of Department Head. Medieval Art surveys the visual arts from the end of the Ancient world to the Gothic period. Emphasis is placed on the original function of art works and the historical, cultural, and religious factors that informed their existence. Three hours of lecture per week. (Varies)

446. Northern Renaissance Art. Credit 3 hours. Prerequisites: ART 105 or 106 and ENGL 101 or permission of the Department Head. This course examines the development of art in Northern Europe (the Low Countries, Germany, and France) from the late fourteenth century to the mid-sixteenth century. Focusing on significant artists and art works, emphasis is placed on changing circumstances in artistic practices, function, iconography and patronage. Three hours of lecture per week. (Varies)

447. Italian Renaissance Art. Credit 3 hours. Prerequisites: ART 105 or 106 and ENGL 101 or permission of Department Head. This course is a chronological introduction to the major developments in painting, sculpture and architecture of Italy from the beginning of the fourteenth century to the end of the sixteenth century. Along with the careers and styles of the Renaissance" most brilliant artists, consideration will be given to the political, social, and religious dimensions of the art created. Three hours of lecture a week. (Varies)

449. Senior Thesis: Art History. Credit 3 hours. Prerequisites: Senior standing and completion of ART 443. Option 1: Directed research, based on contact with an art historical object or event, leading to the completion of a written thesis based on a specific investigation of the agreed upon topic. Topics are open and will be mutually agreed upon by directing faculty and student. Students are required to observe the chosen object or event in person. Option 2: Internship in an appropriate art historical setting, resulting in a paper documenting an art historical issue or inquiry, relating to the field work. Students are required to present their final paper in a departmental forum. (Fall, Spring)

456. Internship: Theatre Design. Credit 3 hours. Prerequisites: THEA 131, THEA 231, and permission of Department Head. Temporary field placement within the theatre, film, or television industry implemented and supervised by the program coordinator or another professional faculty member. This internship will provide the student with hands-on experience and networking opportunities that come with professional work in the field. (Summer, Fall, Spring)

459. Internet Design. Credit 3 hours. Prerequisites: ART 261 and 299. This course will explore World Wide Web design as it applies to graphic design. Successful integration of typography and image and a focus on integrity of design, client satisfaction, successful navigation of Web sites and technological mastery will be emphasized. Six hours of studio a week. (Fall)

460. Interactive and Environmental Design. Credit 3 hours. Prerequisite: ART 361 or permission of the Department Head. This course will explore client-based information systems for product introduction, demonstration, and promotion. Environmental and information design systems will be explored as they apply to contemporary technological media such as motion display and digital projection. Six hours of studio a week. A laboratory fee is required for this course. (Fall)

461. Senior Project: Graphic Design. Credit 3 hours. Prerequisite: ART 361. Professional-level contemporary communication design assignments including print, motion, Internet, interactive, sound and environmental design. This will be the culminating studio course which will include the creation of a print and digital portfolio for entry into the graphic design industry. Six hours of studio a week. A laboratory fee is required for this course. (Fall, Spring)

466. Internship: Graphic Design. Credit: 3 hours. Prerequisite: ART 461 and permission of Program Coordinator. Field placement within the design industry will be implemented under the direct supervision of a professional staff member. This assignment will give the student a hands-on experience with the realities of the profession. (Fall, Spring)

467. Photo Editing. Credit 1 hour. An intensive course on the principles, production practices, and software for photo editing and manipulation in print and online publishing. One to two hours of lecture and/or lab per week. (Varies)

469. Motion and Digital Animation. Credit 1 hour. An intensive course on the principles, practices, and copyright ethics for motion graphics and animation in the online environment. One to two hours of lecture and/or lab per week. (Varies)

471/571. Arts and Crafts for the Elementary School. Credit 3 hours. Prerequisite: ART 371 or Graduate standing. An in-depth exploratory course dealing primarily with methods and media used in teaching elementary arts and crafts. Media to be covered: clay, fiber, wood, and graphics. One hour of lecture and four hours of studio a week. (Varies)

479. Digital Illustration. Credit 1 hour. An intensive course on the production practices and techniques in illustration software for print and online publishing. One to two hours of lecture and/or lab per week. (Varies)

483. Senior Project: Painting. Credit 3 hours. Prerequisite: ART 384 or permission of Department Head. An intensive study in painting or related two-dimensional media intended to develop independence and professionalism. Six studio hours per week. May be repeated for a total of six credit hours. (Fall, Spring)

490. Senior Project: New Media and Animation. Credit 3 hours. Prerequisites: ART 390, ART 393, 394, 396, or 397 or permission of the Department Head. An intensive study of new media intended to develop a cohesive body of computer-based artworks. Through individualized assignments and group critiques students will develop a body of work in one of the following areas: digitally based still imagery, advanced interactive artworks, digital video, motion graphics, 3-D animation, large-format imagery, or web-based artworks. Students will work on developing a body of work for exhibition, and application to graduate study, or professional activity. May be repeated for a total of 6 hours. A laboratory fee is required for this course. (Fall, Spring)

491H. Honors in Art. Credit 3 hours. Prerequisites: Senior standing, a written project proposal, recommendation of the Art Faculty, and consent of the Head of the Department. An honors course in the Department of Art is designed for students who have demonstrated outstanding ability in studio or art history courses. The course will allow a student to choose one of the following areas: (1) select a concentration in one of the studio areas, (2) research a specific period of art history and/or artistic style, and (3) design and implement a research project which investigates artistic processes and techniques.

492. Senior Seminar in the Visual Arts. Credit 2 hours. Prerequisite: Registration in or prior credit for ART 422 or concurrent enrollment in ART 499. This course provides a forum for the examination of fine art issues as they relate to the preparation of artwork for exhibition and the marketing of an artist's work. Students will be taught how to document artwork, write an artist statement, create a resume, develop an exhibition proposal and create slide portfolios. The class will explore differences in exhibition forums, such as profit and non-profit galleries; university galleries; and museums. Various graduate programs will be explored and the application process reviewed. (Fall, Spring)

493. 3-D Digital Modeling and Animation II. Credit 3 hours. Prerequisite: ART 393 or permission of Department Head. A study of 3-D computer modeling and animation with an emphasis on modeling for gaming content creation or digital sculpture applications. Students will work with game engines and rapid prototyping technology to create 3-D artworks. Six hours of studio a week. May be repeated for a total of six credit hours. A laboratory fee is required for this course. (Fall, Spring)

494. Time-Based Media II. Credit hours 3. Prerequisite: ART 394 or permission of Department Head. Advanced creation and analysis of time-based artwork. Artistic concepts and audio-visual technologies utilized in various means of presentation, such as single channel video, experimental sound composition, and multi-channel installations will be explored. Complex artistic statements will be examined in relation to ephemeral art works, performance art, contemporary pop culture, sound art, and the history of video art. Related historical and theoretical readings will be required. A laboratory fee is required for this course. (Fall, Spring)

495/595. Independent Study. Variable Credit: 1, 2, or 3 hours. Prerequisites: All fundamental Visual Art courses through 281 and at least Junior standing or approval of the Department Head. A written proposal of the subject area and procedures, to be approved by the Department Head and the instructor. Option 1-Studio: Private instruction directed to expand the student's technical and innovative skills. Student may select from studio area. Option 2-Art History: The selection and investigation of a specific art history topic. Option 3-Art Education: Research into relationships to teaching and learning in the Visual Arts. Undergraduates may repeat the course for a total of 6 credit hours. Twelve credit hours of Visual Arts 595 will permit the graduate student to complete a selected cognate area. (Fall, Spring)

497. Internship: New Media and Animation. Credit 3 hours. Prerequisite: ART 490 and permission of Department Head. Field placement within the Animation, Film, Television, or other industry related to New Media and Animation will be implemented under the direct supervision of a professional staff member. This Internship will give the student a hands-on experience with the realities of the profession. (Varies)

499. Thesis Exhibition. Credit 1 hour. Prerequisite: Senior Projects or permission of Department Head. A course designed to prepare students to present an extensive and visually cohesive body of artwork that demonstrates conceptual maturity, technical proficiency, and an understanding of contemporary artistic practice. (Fall, Spring)

Athletic Training (ATHT)

141. Prevention and Management of Motor Performance Injuries. Credit 3 hours. A study of basic prevention, evaluation and management of motor performance injuries. (Fall, Spring)

205. Functional Anatomy for Athletic Trainers. Credit 3 hours. Prerequisite: Formal acceptance for progression into the athletic training curriculum. Functional human anatomy focusing on orthopedic anatomy, neuromuscular anatomy and the fundamental principles of human movement for the physically active individual. (Spring)

206. Athletic Training Foundations and Practice. Credit 3 hours. Prerequisite: Formal acceptance for progression into the athletics training curriculum. Guides students in the application of theory to clinical practice. Focuses on the development of cognitive, psychomotor, communication, and therapeutic interventions as applied to the healthcare of the physically active individual. Introduction to appropriate taping, wrapping, and bracing techniques. A laboratory fee is required for this course. (Spring)

241. Emergency Health Care for the Athletic Trainer. Credit 3 hours. Prerequisite: Formal acceptance for progression into the athletic training curriculum. The purpose of this course is to provide the athletic trainer with the knowledge necessary to help sustain life, reduce pain, and minimize the consequences of sudden injury or illnesses of the physically active individual. (Spring)

305. Lower Extremity Sports Injury Management. Credit 3 hours. Prerequisites: Formal acceptance for progression into the athletic training curriculum, ATHT 205 and concurrent enrollment in ATLB 300. A systematic examination of the fundamental principles and concepts of athletic training. Students will develop knowledge in the prevention, assessment, and rehabilitation of athletic injuries. Particular emphasis will be placed on injury management of the hip, knee, thigh, ankle, foot and lower leg. (Fall)

333. Therapeutic Exercise and Rehabilitation of Athletic Injuries. Credit 3 hours. Prerequisites: Formal acceptance for progression into the athletic training curriculum, ATHT 372, 305, ATLB 370, and concurrent enrollment in ATHT 340, ATLB 344 and ATLB 304. Appropriate use of therapeutic rehabilitation techniques for athletic injuries. Incorporates evidence-based practice for selection criteria, indications/contraindications, clinical applications and psychological aspects of rehabilitation in a variety of populations. (Spring)

340. Upper Extremity Sports Injury Management. Credit 3 hours. Prerequisites: Formal acceptance into the athletic training curriculum and concurrent enrollment in ATLB 344. A systematic examination of the fundamental principles and concepts of athletic training. Includes the

opportunity to develop knowledge in the prevention, assessment, and rehabilitation of athletic injuries of the head, spine, thorax, shoulder, upper arm, elbow, forearm, wrist, and hand. (Spring)

372. Therapeutic Modalities for Athletic Injuries. Credit 3 hours. Prerequisite: Formal acceptance into the athletic training curriculum. Investigates and analyzes indications, contraindications and biophysics of agents that aid in the healing of athletic injuries, reduction of pain, or assistance in the rehabilitation process. Laboratory activities included set-up and operational procedures of contemporary therapeutic modalities as they relate to the care and treatment of athletic injuries. (Fall)

410. Evidence-Based Practice for the Athletic Trainer. Credit 3 hours. Prerequisite: Formal acceptance for progression into the athletic training curriculum. Understanding of evidence-based practice concepts and terminology to maximize patient outcomes through critically analyzing research literature. (Spring)

420. Athletic Training Senior Clinical I. Credit 3 hours. Prerequisites: Formal acceptance for progression into the athletic training curriculum, ATHT 305, ATHT 340, ATLB 300, and ATLB 344. Students are responsible for integrating clinical skills learned in the didactic portion of the program into the clinical setting under direct supervision of a qualified preceptor. Students will build on skills and apply psychomotor/clinical proficiencies. This course has a lecture component. A laboratory fee is required for this course. (Fall)

425. Athletic Training Senior Clinical II. Credit 3 hours. Prerequisites: Formal acceptance for progression into the athletic training curriculum and ATHT 420. Students are responsible for assisting with the healthcare of athletes in the clinical setting under the direct supervision of a qualified preceptor. Students will build on skills and apply psychomotor/clinical proficiencies. Emphasis will be placed on preparing for the Board of Certification exam. This course has a lecture component. A Laboratory fee is required for this course. (Spring)

455. Medical and Pharmacological Aspects of Athletic Training I. Credit 3 hours. Prerequisite: Formal acceptance into the athletic training curriculum. Provides the students with an understanding of a comprehensive health care program and the athletic trainer's role within that program. This course will focus on identification and treatment of medical conditions of the respiratory, gastrointestinal, cardiovascular, and integumentary system. This course will also focus on pharmacological agents in relation to pharmacokinetic effects on body systems and therapeutic use. (Varies)

462. Administration and Psychosocial Intervention in Athletic Training. Credit 3 hours. Prerequisites: Formal acceptance into the athletic training curriculum and concurrent enrollment in ATHT 455. Focuses on the organizational and administrative aspects of athletic training programs. Areas of legal and ethical risks for the athletic trainer, measures to reduce those risks and appropriate professional behavior. Also includes content of psychological considerations of injury and illness. (Fall)

466. Medical and Pharmacological Aspects of Athletic Training II. Credit 3 hours. Prerequisites: Formal acceptance into the athletic training curriculum and completion of ATHT 455. Provides the students with an understanding of a comprehensive health care program and the athletic trainer's role within that program. This course will focus on the identification and treatment of medical conditions of the nervous, urinary, endocrine, and reproductive systems associated with the physically active individual. This course will also focus on pharmacological agents in relation to pharmacokinetic effects on body systems and therapeutic use. (Spring)

611. Foundations of Athletic Training. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of the department head. Focuses on the development of cognitive, psychomotor, communication, and therapeutic intervention skills as applied to the healthcare of the physically active individual. Introduction to taping, wrapping, and bracing techniques. Guides students in the application of theory to clinical practice. (Summer)

612. Emergency Care in Athletic Training. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. Provides the knowledge necessary to help sustain life, reduce pain, and minimize the consequences of sudden injury and/or illness of the physically active individual. (Summer)

615. Clinical Experiences I. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. Students develop clinical reasoning abilities and athletic training clinical proficiencies in a practical environment under the supervision of a qualified clinical preceptor. The course also has a lecture component. The focus is fitting, assembling, and proper use of equipment specific to football, as well as other training practices associated with the clinical placement. A laboratory fee is required for this course. (Summer)

621. Foundational Anatomy. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. Functional human anatomy focusing on orthopedic and neuromuscular anatomy, and fundamental principles of human movement for the physically active individual. (Fall)

622. Strength and Conditioning Programs. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. Physiological adaptations to strength and speed training, exercise prescription and testing for athletes, facility design and safety. (Fall)

623. Lower Body Pathology and Assessment. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. A systematic examination of fundamental principles and concepts of athletic training. Students will develop knowledge in the prevention, assessment, and rehabilitation of athletic injuries. Particular emphasis will be placed on injury management of the hip, knee, thigh, ankle, foot and lower leg. (Fall)

625. Clinical Experiences II. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. Students continue developing clinical reasoning abilities and athletic training clinical proficiencies in a simulated lab environment under the supervision of a qualified approved preceptor. The course also has a lecture component. Particular emphasis will be placed on exposure to sports and activities with lower extremity injuries. A laboratory fee is required for this course. (Fall)

631. Therapeutic Modalities. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. Indications, contraindications, biophysics, and use of agents that aid in the healing of athletic injuries, reduction of pain, or assistance in the rehabilitation process. Set-up and operational procedures of contemporary therapeutic modalities as they relate to the care and treatment of athletic injuries. (Spring)

632. Therapeutic Exercise. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. Use of common therapeutic exercises, equipment, and manual techniques. Also includes an examination of psychosocial and socio-cultural issues in athletic training and sports medicine and the role of the athletic trainer in the intervention, referral, and rehabilitation processes. Development of a complete rehabilitation process for a variety of populations following injury/surgery. (Spring)

633. Upper Body Pathology and Assessment. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. A systematic examination of fundamental principles and concepts of athletic training. Students will develop knowledge in the prevention, assessment, and rehabilitation of athletic injuries. Particular emphasis will be placed on injury management of the head, spine, thorax, shoulder, upper arm, elbow, forearm, wrist, and hand. (Spring)

635. Clinical Experiences III. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. Students continue developing clinical reasoning abilities and athletic training clinical proficiencies in a simulated lab environment under the supervision of a qualified approved preceptor. The course also has a lecture component. Particular emphasis will be placed on exposure to sports and activities with upper body injuries. A laboratory fee is required for this course. (Spring)

641. Evidence-Based Practice and Clinical Decision-Making I. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. Understanding of evidence-based terminology and practice, and research in athletic training to maximize patient outcomes. Critical analysis of research literature. Preparation begins for the capstone project. A laboratory fee is required for this course. (Fall)

642. Pharmacological and Medical Aspects of Athletic Training. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. Identification and treatment of medical conditions commonly associated with physically active individuals. Emphasis is placed on the role of the athletic trainer in the assessment and treatment of these conditions as directed by a team physician. Also includes an examination of pharmacological agents in relation to pharmacokinetic effects on body systems and therapeutic use. (Fall)

643. Organization and Administration Issues in Athletic Training. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. Focuses on organizational and administrative aspects of athletic training programs. Includes scope of practice, inter-professional relationships, legal and ethical risks for the athletic trainer, risk-reduction practices, and professional behavior. (Fall)

645. Clinical Experiences IV. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. Students continue developing clinical reasoning abilities and athletic training clinical proficiencies in a simulated lab environment under the supervision of a qualified approved preceptor. Integration of previous didactic and clinical knowledge, skills, and proficiencies. The course also has a lecture component. A laboratory fee is required for this course. (Fall)

651. Evidence-Based Practice and Clinical Decision-Making II. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. Examination, analysis, and application of current research in managing patient outcomes. Results in the development and presentation of a capstone project. A laboratory fee is required for this course. (Spring)

652. Integration of Athletic Training Knowledge and Skills. Credit 3 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. A review and re-examination of knowledge and skills, and preparation for the Board of Certification exam. Will also include Standards of Professional Practice, NATA Code of Ethics, and professional development requirements for the entry-level athletic trainer. (Spring)

655. Clinical Experiences V. Credit 6 hours. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. Students are responsible for assisting with the healthcare of athletes in the clinical setting under the direct supervision of a qualified preceptor. Students will build on skills and apply psychomotor/clinical proficiencies. This course also has a lecture component. A laboratory fee is required for this course. (Spring)

Athletic Training Lab (ATLB)

210. Clinical Experiences in Equipment-Intensive Sport, Bracing, and Padding. Credit 1 hour. Prerequisites: Formal acceptance into the athletic training curriculum and ATHT 206. The focus will be on fitting, assembling, and proper usage of pads and helmets specific to football. Padding, splinting and bracing application to the entire body will be covered as well. Students develop clinical reasoning abilities during preseason football under the supervision of a qualified preceptor. (Summer)

217. Clinical in Athletic Training. Credit 1 hour. Prerequisites: Formal acceptance for progression into the athletic training curriculum and concurrent enrollment in ATHT 206 and ATHT 205. Students develop clinical reasoning abilities and athletic training clinical proficiencies in a simulated lab environment, under supervision of a qualified preceptor, for a minimum of 150 hours per semester. Introduction to appropriate taping, wrapping, and bracing techniques. (Spring)

244. Emergency Health Care for the Athletic Trainer Lab. Credit 1 hour. Prerequisites: Formal acceptance into the athletic training curriculum and concurrent enrollment in ATHT 241. The purpose of this course is to provide the athletic trainer with the skills necessary to sustain life, reduce pain, and minimize the consequences of sudden injury to the physically active individual. A laboratory fee is required for this course. Two hours of laboratory a week. (Spring)

300. Lower Extremity Clinical Competency Lab. Credit 1 hour. Prerequisites: Formal acceptance into the athletic training curriculum and concurrent enrollment in ATHT 305. Guides students in the application of theory to clinical practice in the prevention, assessment, and rehabilitation of injuries to the knee, hip, thigh, ankle, foot, and lower leg. Two laboratory hours per week. A laboratory fee is required for this course. (Fall)

303. Clinical Integration and Field Experiences in Athletic Training Lab I. Credit 1 hour. Prerequisites: Formal acceptance for progression into the athletic training curriculum and concurrent enrollment in ATLB 358, ATHT 363, ATHT 372. Students continue developing their clinical reasoning abilities and athletic training clinical proficiencies in a simulated lab environment under the supervision of a qualified approved clinical instructor for a minimum of 225 hours per semester. Particular emphasis will be placed on exposure to upper and lower extremity sports. A laboratory fee is required for this course. (Fall)

304. Rehabilitation of Athletic Injuries Lab. Credit 1 hour. Prerequisites: Formal acceptance into the athletic training curriculum, ATHT 372, and concurrent enrollment in ATHT 333. Application of contemporary therapeutic rehabilitation techniques designed to meet specific treatment goals. During the course, students will use the results of on-going clinical examination to determine when the therapeutic intervention should be progressed, regressed, or discontinued. Two hours of laboratory per week. (Spring)

317. Clinical Integration and Field Experiences in Athletic Training Lab II. Credit 1 hour. Prerequisites: Formal acceptance for progression into the athletic training curriculum, and concurrent enrollment in ATLB 366, ATHT 333, and ATHT 367. Students continue developing their clinical reasoning abilities and athletic training clinical proficiencies in a simulated lab environment and under the supervision of a qualified approved clinical instructor for a minimum of 225 hours per semester. Particular emphasis will be placed on exposure to upper and lower extremity sports. A laboratory fee is required for this course. (Spring)

344. Upper Extremity Clinical Competency Lab. Credit 1 hour. Prerequisites: Formal acceptance for progression into Athletic Training curriculum and concurrent enrollment in ATHT 340. Guides students in the application of theory to clinical practice in prevention, assessment, and rehabilitation of injuries to the head, spine, thorax, shoulder, upper arm, forearm, elbow, wrist, and hand. A laboratory fee is required for this course. (Spring)

370. Therapeutic Modalities in Athletic Training Lab. Credit 1 hour. Prerequisites: Formal acceptance into the athletic training curriculum and concurrent enrollment in ATHT 371. Set-up and operational procedures of contemporary therapeutic modalities as they relate to the care and treatment of athletic injuries. Two hours of laboratory per week. (Varies)

613. Emergency Care in Athletic Training Lab. Credit 1 hour. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. A laboratory course accompanying ATHT 612. Provides skills necessary to sustain life, reduce pain, and

minimize the consequences and sudden injury or illness of the physically active individual. Three hours of laboratory a week. A laboratory fee is required for this course. (Summer)

624. Lower Body Pathology and Assessment Lab. Credit 1 hour. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. A laboratory course accompanying ATHT 623. Guides students in the application of theory to clinical practice in the prevention, assessment, and rehabilitation of injuries to the knee, hip, thigh, ankle, foot, and lower leg. Three laboratory hours per week. A laboratory fee is required for this course. (Fall)

634. Upper Body Pathology and Assessment Lab. Credit 1 hour. Prerequisite: Admission into the M.S. in Athletic Training program or permission of department head. A laboratory course accompanying ATHT 633. Guides students in the application of theory to clinical practice in the prevention, assessment, and rehabilitation of injuries to the head, spine, thorax, shoulder, upper arm, forearm, elbow, wrist, and hand. Three laboratory hours per week. A laboratory fee is required for this course. (Spring)

Botany (BOT & BOTL)

205. Introduction to Botany. [LCCN: CBIO 2314, Botany I Lec + Lab]. Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent. The biology of plants, emphasizing the ecology, evolution, morphology, and systematics of flowering plants. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Varies)

347. Vascular Plant Systematics. Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent and Sophomore standing, or permission of the Department Head. An introduction to the identification, naming, classification and evolution of vascular plants. Two hours of lecture and 4 hours of laboratory per week. (Varies)

401/501. Plant Pathology. Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent and Junior standing or permission of the Department Head. A study of the nature and causes of disease in plants, emphasizing the principal diseases in Louisiana crops. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Varies)

426/526. Plant Physiology. Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent, Chemistry 101/121-102/122 or equivalent and Junior standing or permission of the Department Head. A study of the life processes of plants emphasizing plant water relations, photosynthesis, transport process, and interactions with the environment. Three hours of lecture and three hours of laboratory per week. A laboratory fee is required for this course. (Spring)

427/527. Plant Stress Ecophysiology. Credit 4 hours. Prerequisite: Botany 426/526 or equivalent and Junior standing or permission of the Department Head. An advanced course in plant physiology with emphasis on the stress physiology of plants in coastal and changing environments. Topics include non-destructive indicators of plant growth, nutrient stress, drought stress, salt stress, flooding stress, and plant responses to global change, such as increased carbon dioxide concentrations and temperature stress. Three hours of lecture and three hours of laboratory per week. (Varies)

429/529. Native Plants of Louisiana. Credit 4 hours. Prerequisite: GBIO 153 or BIOL 154 or equivalent. An introduction to flowering plant diversity, with a focus on local Louisiana flora. The course will include lectures, laboratories, and field trips. Topics covered will include important plant families, flowering plant systematics, structure of plants with an emphasis on flowers, how to key out plants, use of herbarium specimens for identification, and identification and examination of representative specimens of plant families in the wild. Two hours of lecture and four hours of laboratory per week. (Summer)

433/533. Phycology. Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent and Junior standing or permission of the Department Head. A study of the freshwater algae of southeastern Louisiana, emphasizing the ecology, taxonomy, and morphology of natural collections. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Varies)

458/558. General Mycology. Credit 3 hours. Prerequisites: GBIO 153 and BIOL 154 and Junior standing or permission from the Department Head. A study of the morphology, taxonomy, and physiology of fungi. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Varies)

481/581. Plant Ecology. Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 and Junior standing or permission of the Department Head. A study of plants in relationship to their environments, with examples from recent publications in autecology, physiological ecology, population biology and plan community ecology, and with experience in the vegetation and habitats of Louisiana. Two hours of lecture and four hours of laboratory per week. (Varies)

482/582. Plant Anatomy. Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent and Junior standing or permission of the Department Head. A study of the anatomy and morphology of seed plants. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Fall)

Business Law (BLAW)

231. The Legal Environment of Business. [LCCN: CBUS 2003, Legal Environment]. Credit 3 hours. A survey of business in its legal environment including topics of ethics, courts, and alternative dispute resolution, torts and criminal law, intellectual property, contracts, sales and product liability, creditor-debtor relations and bankruptcy, business organizations, employment law and discrimination, administrative agencies, and consumer protection. Credit will not be given for both BLAW 231 and 234. (Summer, Fall, Spring)

232. Business Law. [LCCN: CBUS 2103, Business Law]. Credit 3 hours. A study of the laws affecting the operation of businesses. Topics include commercial paper (checks, promissory notes, certificates of deposit, etc.), credit transactions and security devices (mortgages, pledges, liens, etc.), agency, and bankruptcy. Credit will not be given for both BLAW 232 and 333. (Fall, Spring)

234. The Legal Environment of Business for Accountants. Credit 3 hours. Prerequisites: Major in Accounting and/or CPA candidate, Sophomore standing, and ACCT 200. Law and legal institutions in society, emphasizing areas of law relevant to business operations, such as federal agencies, courts, contracts, employment obligations, and business organizations; plus the effect of ethical considerations on such institutions and processes. Credit will not be given for both BLAW 231 and 234. (Summer, Fall, Spring)

333. Commercial Law for Accountants. Credit 3 hours. Prerequisites: Major in Accounting and/or CPA candidate, Junior standing, and BLAW 234. Legal concepts underlying the Uniform Commercial Code as applied in sales of goods, commercial paper, and secured transactions; applications of bankruptcy, agency, debtor/creditor relationships, insurance, real property, and an accountant's legal liability. Credit will not be given for both BLAW 232 and 333. (Fall, Spring)

Career Planning (CPL)

104. Career Planning. Credit 3 hours. Prerequisite: Freshman or Sophomore standing. A course designed for students to explore their abilities, goals, and values, to research and explore the opportunities offered in major areas of interest, and to develop the skills of making informed decisions. (Summer, Fall, Spring)

304. From College to Employment. Credit 3 hours. Prerequisite: Junior Standing. A course designed to assist students in the transition from the college environment to a related career setting. Students in this course learn job search, application and interviewing strategies using current technology. (Summer, Fall, Spring)

Chemistry (CHEM & CLAB)

Students who violate the departmental laboratory safety policy may be reported for violating the Student Code of Conduct.

Credit toward the degree will be granted for only one of the Chemistry courses in each of the following combinations: 101-107-121, 102-122, 103-123, 104-124, 261-265, 263-267, 281-481, 283-485.

101. General Chemistry I. [LCCN: CCEM 1103, Chemistry I (Non-Science Majors)]. Credit 3 hours. Prerequisite: An ACT score in Mathematics of 19 or greater or concurrent registration in or prior credit for MATH 105, 107 or 161. The first of a two-semester sequence covering the following general topics: metric and temperature conversions, density, calorimetry, mixtures/ compounds/ elements, chemical and physical properties, structure of the atom and electron configuration, periodic table, bonding, chemical formulas and nomenclature, moles, stoichiometry, chemical reactions, gas laws, and properties of gases, liquids and solids. This course is not recommended for students whose curricula require CHEM 251, 271, 265, 266, and courses numbered 300 and above. (Summer, Fall, Spring)

102. General Chemistry II. [LCCN: CCEM 1113, Chemistry II (Non-Science Majors)]. Credit 3 hours. Prerequisite: CHEM 101. A continuation of CHEM 101 covering topics such as: solutions, concentrations (% composition and molarity), acids/bases, pH, buffers, kinetics, equilibrium, solubility, oxidation/reduction, nuclear chemistry, and an introduction into organic chemistry and biochemistry. This course is not recommended for students whose curricula require CHEM 251, 254, 265, 266, and courses numbered above 300. (Summer, Fall, Spring)

103. General Chemistry Laboratory I. [LCCN: CCEM 1101, Chemistry I Lab (Non-Science Majors)]. Credit 1 hour. Prerequisite: Registration in or prior credit for CHEM 101. A series of laboratory experiments designed to illustrate the material studied in CHEM 101 covering such topics as density determination, chromatography, calorimetry, emission spectra, gas laws, chemical changes and data collection. Two hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

104. General Chemistry Laboratory II. [LCCN: CCEM 1111, Chemistry II Lab (Non-Science Majors)]. Credit 1 hour. Prerequisites: CLAB 103 and registration in or prior credit for CHEM 102. A continuation of CLAB 103 covering data collection, solutions chemistry, graphing, colligative properties, titrations, acid-base reactions, limiting reagents, kinetics, equilibrium, oxidation-reduction, organic chemistry syntheses, and qualitative analysis of inorganic and organic substances. Two hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

107. Survey of Chemistry. Credit 4 hours. Prerequisite: An ACT score in Mathematics of 19 or greater or current registration in or prior credit for MATH 105, 107 or 161. A survey course in the applied aspects of general chemistry with related topics in organic chemistry and biochemistry. This course is designed primarily for students majoring in the Colleges of Business, Education, Nursing and Health Sciences; and Arts, Humanities and Social Sciences. This course may not be used to satisfy the General Education sequence requirement in the Natural Sciences. (Summer, Fall, Spring)

108. Forensic Science. Credit 3 hours. Scientific aspects of law enforcement; role and functions of the crime laboratory. This course may not be used to satisfy the General Education sequence requirement in the Natural Sciences. Course consists of three hours of lecture and demonstrations a week. (Fall)

120. Critical Concepts in Chemistry. Credit 3 hours. Prerequisite: ACT Math score of 25 or completion of Math 161. A chemistry course designed to develop fundamental skills necessary for success in general chemistry for science majors through enhancement of problem solving, mathematical and reasoning skills. Topics include measurements, nomenclature, stoichiometry, and chemical equations. (Varies)

121. General Chemistry I for Science Majors. [LCCN: CCEM 1123, Chemistry I (Science Majors)]. Credit 3 hours. Prerequisite: ACT Math score of 25 or completion of MATH 161 with a grade of "C" or better, or completion of CHEM 120. First semester chemistry course designed for engineering, natural sciences, or life sciences majors. Topics include nomenclature, atomic and molecular structure, chemical equations and stoichiometry, and gas laws. (Summer, Fall, Spring)

121H. General Chemistry I for Science Majors Honors. Credit 3 hours. Prerequisites: ACT Math score of 25 or completion of MATH 161 with a grade of "C" or better, and active status in the University Honors Program or approval of the Department Head. First semester chemistry course designed for engineering, natural science, or life sciences majors. Topics include nomenclature, atomic and molecular structure, chemical equations and stoichiometry, and gas laws. Instructors may choose to assign an experiential project as part of the course. (Fall)

122. General Chemistry II for Science Majors. [LCCN: CCEM 1133, Chemistry II (Science Majors)]. Credit 3 hours. Prerequisite: Chemistry 121. A continuation of CHEM 121. Topics include intermolecular forces, properties of solutions, kinetics, equilibria, acids and bases, chemical thermodynamics, and electrochemistry. (Summer, Fall, Spring)

122H. General Chemistry II for Science Majors Honors. Credit 3 hours. Prerequisites: CHEM 121H or 121 with a grade of "B" or better, and active status in the University Honors Program or approval of the Department Head. A continuation of CHEM 121H. Topics include intermolecular forces, properties of solutions, kinetics, equilibria, acids and bases, chemical thermodynamics, and electrochemistry. Instructors may choose to assign an experiential project as part of the course. (Spring)

123. General Chemistry Laboratory I for Science Majors. [LCCN: CCEM 1121, Chemistry I Lab (Science Majors)]. Credit 1 hour. Prerequisite: Registration in or prior credit for Chemistry 121. This laboratory course is designed to illustrate materials studied in CHEM 121. Experiments involve mass/volume measurements and relationships, yield and stoichiometry, calorimetry and thermochemistry, and the manipulation and measurement of gases. Three hours of laboratory per week. A Laboratory fee is required for this course. (Summer, Fall, Spring)

124. General Chemistry Laboratory II for Science Majors. [LCCN: CCEM 1131, Chemistry II Lab (Science Majors)]. Credit 1 hour. Prerequisites: CLAB 123 and registration in or prior credit for CHEM 122. This laboratory course is designed to illustrate materials studied in CHEM 122. Experimental methods include quantitative, gravimetric and volumetric analysis, electrochemistry, plus kinetics with computer analysis of experimental data. Three hours of laboratory per week. A laboratory fee is required for this course. (Summer, Fall, Spring)

211. Introduction to Chemistry Research. Credit 1 hour. This course is open to all students. Prerequisite: Consent of faculty mentor and Department Head. This course will teach the fundamental skills necessary to conduct chemical research. This course is given as pass/fall only. Three contact hours per week. This course will be graded Pass/Fail only. A laboratory fee is required for this course. (Summer, Fall, Spring)

221. Mathematics for Chemists. Credit 3 hours. Prerequisites: CHEM 122 and MATH 200. Single and multi-variable calculus, ordinary differential equations, statistics, and computer modeling applied to problems in physical chemistry, analytical chemistry and biochemistry. (Spring)

251. Analytical Chemistry. [LCCN: CCEM 2303, Analytical Chemistry]. Credit 3 hours. Prerequisites: CHEM 122/CLAB 124. This course examines the analytical process from method selection and sample preparation to interpretation and presentation of results focusing primarily on wet chemical methods of quantitative analysis. In depth theoretical and practical aspects of equilibria and complexation chemistry, volumetric and gravimetric analyses, potentiometry, basic spectroscopy, and statistical analysis are included. (Spring)

256. Analytical Chemistry Laboratory. Credit 1 hour. Prerequisites: CHEM 122/CLAB 124 and concurrent enrollment in or prior credit for CHEM 251. This laboratory course emphasizes classical methods of quantitative analysis. Experimental methods including volumetric titration, gravimetric analysis, and elementary spectroscopy and potentiometry. Statistical treatment of data and presentation of results are essential. Three hours of laboratory per week. A laboratory fee is required for this course. (Spring)

261. Survey of Organic Chemistry. [LCCN: CCEM 2203, Organic Chemistry, Survey]. Credit 3 hours. Prerequisite: CHEM 102 or 122. An introduction to the nomenclature, preparation, properties, and reactions of organic compounds, with attention to biological significance. This course is designed for students in Biological and Applied Sciences who are required to take only one semester of organic chemistry. (Summer, Spring)

263. Survey of Organic Chemistry Laboratory. Credit 1 hour. Prerequisites: CHEM 102/CLAB 104 or CHEM 122/CLAB 124 and registration in or prior credit for CHEM 261. Designed to acquaint the student with some of the important laboratory operations and techniques in organic chemistry. Two hours of laboratory a week. A laboratory fee is required for this course. (Summer, Spring)

265. General Organic Chemistry I. [LCCN: CCEM 2213, Organic Chemistry I]. Credit 3 hours. Prerequisite: CHEM 122. A study of the compounds of carbon, including nomenclature, properties, structure, stereochemistry, transformations and reactions of organic compounds; principles of organic reaction mechanisms; and the importance of organic chemistry in real world applications. This course is the first half of a two-semester sequence and concentrates on the chemistry of alkanes, alkyl halides, alkenes, alkynes, and alcohols. A course designed for students in biological sciences, chemistry, and pre-professional curricula. (Fall, Spring)

266. General Organic Chemistry II. [LCCN: CCEM 2223, Organic Chemistry II]. Credit 3 hours. Prerequisite: CHEM 265. A study of the compounds of carbon, including nomenclature, properties, structure, stereochemistry, transformations, synthesis and reactions of organic compounds; principles of organic reaction mechanisms; and the importance of organic chemistry in real world applications. This course is the second half of a two-semester sequence and concentrates on the chemistry of alcohols, ethers, aromatics, ketones, aldehydes, amines, and carboxylic acids and their derivatives. A course designed for students in biological sciences, chemistry and pre-professional curricula. (Fall, Spring)

267. General Organic Chemistry Laboratory I. [LCCN: CCEM 2211, Organic Chemistry I Lab]. Credit 1 hour. Prerequisites: CLAB 124 and registration in or prior credit for CHEM 265. A course designed to acquaint the student with basic organic laboratory techniques including recrystallization, melting point determination, extraction, distillation, and column, thin layer and gas chromatography as well as basic synthetic techniques. A course designed for students in biological sciences, chemistry, and pre-professional curricula. This course is the first half of a two-semester lab sequence. Three hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

268. General Organic Chemistry Laboratory II. [LCCN: CCEM 2221, Organic Chemistry II Lab]. Credit 1 hour. Prerequisites: CLAB 267 and registration in or prior credit for CHEM 266. This course is the second half of a two-semester lab sequence. A course designed to acquaint the student with synthetic techniques and structure determination techniques including classical qualitative analysis and spectroscopic analysis including NMR and IR. A course designed for students in biological sciences, chemistry, and pre-professional curricula. Three hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

271. Introduction to Inorganic Chemistry. Credit 3 hours. Prerequisite: CHEM 122. An introduction to inorganic chemistry focusing on atomic/molecular structure, analytical techniques, coordination chemistry, and applications. (Spring)

274. Introduction to Inorganic Chemistry Laboratory. Credit 1 hour. Prerequisites: CHEM 122 and CLAB 124 and enrollment in or prior credit for CHEM 271. A series of laboratory experiments designed to illustrate the material studied in Chemistry 271 and to introduce the student to the experimental techniques of synthetic inorganic chemistry. Three hours of laboratory per week. A laboratory fee is required for this course. (Spring)

281. Survey of Biochemistry. Credit 3 hours. Prerequisite: CHEM 261 or 266. A one-semester survey of basic biochemistry covering the structures and functions of amino acids, proteins, enzymes, carbohydrates, lipids and nucleic acids, metabolism, and gene expression. Other topics include acid-base properties, buffers, enzyme kinetics, membrane structure and transport, and hormones. This course may not be used for a major or minor in chemistry. (Fall)

283. Survey of Biochemistry Laboratory. Credit 1 hour. Prerequisites: CHEM 263 and registration in or prior credit for CHEM 281. A one-semester laboratory to accompany CHEM 281 covering such topics as biochemical techniques; buffering capacity; amino acid titrations; detection of proteins, carbohydrates and lipids; enzyme kinetics and inhibition; gene expression and metabolism. This course may not be used for a major or minor in chemistry. Two hours of laboratory per week. A laboratory fee is required for this course. (Fall)

290. Survey of Physical Chemistry. Credit 3 hours. Prerequisites: CHEM 122/CLAB 124, PHYS 192/PLAB 194, and MATH 163 or 200. An introduction to the structure and physical states (gaseous, liquid, and solid) of matter, properties of solutions, electrochemistry, kinetics, and chemical thermodynamics. (Varies)

391. Physical Chemistry Laboratory I. Credit 1 hour. Prerequisites: CHEM 251/CLAB 256 and CHEM 221 and registration for or prior credit for CHEM 395. Experiments in kinetics and atomic and molecular spectroscopy along with numerical calculations and simulations. Three hours of laboratory per week. A laboratory fee is required for this course. (Fall)

392. Physical Chemistry Laboratory II. Credit 1 hour. Prerequisites: CHEM 395, CLAB 391, and registration for or prior credit for CHEM 396. A continuation of CLAB 391. Three hours of laboratory per week. A Laboratory fee is required for this course. (Spring)

395. Physical Chemistry I. Credit 3 hours. Prerequisites: CHEM 122/CLAB 124, MATH 201, and CHEM 221. A calculus-based study of physical chemistry. The two main topics of the course are (1) kinetics in the gas phase and in solution, and (2) quantum mechanics and its application to atoms and molecules. (Fall)

396. Physical Chemistry II. Credit 3 hours. Prerequisite: CHEM 395. Continuation of CHEM 395. A study of thermodynamics, its statistical foundation in atomic and molecular structure, and its application to kinetics and the chemical equilibrium. (Spring)

401/502. Chemistry Seminar. Credit 1 hour. Prerequisite: Senior standing in the Chemistry curriculum or permission of the Department Head. Attendance at departmental seminars, panel discussions, and related professional events and individual presentation of a topic of current research interest. (Spring)

404/504. Special Topics in Chemistry. Credit 1-3 hours. A reading course with topics and credit to be decided by agreement between the Department and student. This course may be repeated for a maximum of 9 credit hours if different topics are studied. (Fall)

410/510. Chemical Literature. Credit 1 hour. Prerequisite: CHEM 266 or permission of the Department Head. Familiarization with and review of the chemical literature designed to serve as preparation for CHEM 411. (Spring)

411/511. Chemical Research. Credit 1-4 hours. Maximum credit four hours. Prerequisites: Prior credit for CHEM 122/CLAB 124 and CHEM 211 (or equivalent research experience) and permission of Department Head. A course designed to give students experience in performing research in one of the fundamental areas of chemistry under the direction of a faculty mentor. Requirements include the keeping of an up-to-date laboratory notebook and the submission of a comprehensive final report. Three clock hours per week per credit hour. A laboratory fee is required for this course. (Summer, Fall, Spring)

412. Advanced Chemical Research. Credit 1-4 hours. Three in-lab hours per week per credit hours. Prerequisites: CHEM 395 and CLAB 411 (or equivalent research experience) with consent of the faculty mentor and Department Head. A course designed to provide an environment for students to devise, develop, and carry out an independent research project containing a substantial amount of novelty or originality. The final semester of 412 will culminate with a comprehensive written project report. May be repeated for a total of six credit hours maximum. A laboratory fee is required for this course. (Varies)

413. Chemistry Internship. Credit 1-3 hours. Prerequisites: CHEM 251, 266 and CLAB 254, 288, and permission of the Department Head. This course provides practical experience working with professionals in the field of chemistry. Students are responsible for finding a professional sponsor and a faculty mentor when enrolling in this course. Students must maintain an accurate record of work completed, submit a comprehensive final report, and give a seminar presentation. A minimum of 40 hours of supervised work is required per credit hour. May be taken for a total of up to 3 credit hours. (Varies)

452/552. Modern Instrumental Analysis. Credit 3 hours. Prerequisites: CHEM 251 and 266. This course provides a detailed examination of instrument components and design, methods of signal enhancement, methods of calibration, and spectral interpretation. Topics include advanced spectroscopy (AAS, FT-IR, UV-visible, and NMR), modern separations (GC, HPLC, ion chromatography and capillary electrophoresis), electro analysis (voltammetry, amperometry, coulometry, and chemically and enzyme modified electrodes), and mass spectrometry. (Fall)

456. Instrumental Analysis Laboratory. Credit 1 hour. Prerequisites: CLAB 256, 268 and concurrent enrollment in or prior credit for CHEM 452. This laboratory course emphasizes modern instrumental methods of analysis and hands-on operation of modern instrumentation. Experimental methods include spectroscopy, mass spectrometry, electro analysis, and chromatography. Three hours of laboratory per week. A laboratory fee is required for this course. (Fall)

462/562. Physical Organic Chemistry. Credit 3 hours. Prerequisites: CHEM 266/CLAB 268 and 396. Quantitative mathematical approaches to organic mechanisms; structure related to reactivity. (Varies)

471/571. Advanced Inorganic Chemistry. Credit 3 hours. Prerequisites: CHEM 266, 271, and enrollment in or prior credit for CHEM 395. An in-depth study of inorganic systems, including coordination chemistry, spectroscopy, and group theory. Advanced applications of inorganic systems will also be studied. (Fall)

476/576. Advanced Inorganic Chemistry Laboratory. Credit 1 hour. Prerequisites: CLAB 274 and registration in or prior credit for CHEM 471. A course designed to acquaint the student with important laboratory operations and techniques in inorganic and organometallic chemistry. An emphasis will be placed on synthesis and characterization of compounds including the manipulation of air-sensitive materials. Three hours of laboratory per week. A laboratory fee is required for this course. (Spring)

481/581. Biochemistry I. [LCCN: CBIO 3403, Biochemistry I (Upper Level)]. Credit 3 hours. Prerequisite: CHEM 266. A study of the structure and function of biological macromolecules with emphasis on proteins, enzymes, lipids, carbohydrates, and nucleic acids. A course designed for majors in biology and chemistry. (Fall)

482/582. Biochemistry II. [LCCN: CBIO 4413, Biochemistry II (Upper Level)]. Credit 3 hours. Prerequisite: CHEM 481/581. A continuation of CHEM 481/581 with emphasis on gene expression and metabolism. A course designed for majors in biology and chemistry. (Spring)

485/585. Biochemistry Laboratory I. [LCCN: CBIO 3401, Biochemistry I Lab (Upper Level)]. Credit 1 hour. Prerequisite: CLAB 268 and registration for or prior credit for CHEM 481. A laboratory to accompany CHEM 481. Experiments are designed to demonstrate the properties of amino acids, proteins, carbohydrates, lipids, and nucleic acids with emphasis on enzyme kinetics and protein purification. Three hours of laboratory a week. Students taking this course for graduate degree credit must complete an independent research project and a written research paper summarizing the project. A laboratory fee is required for this course. (Fall)

486/586. Biochemistry Laboratory II. [LCCN: CBIO 4411, Biochemistry II Lab (Upper Level)]. Credit 1 hour. Prerequisites: Registration for or prior credit for CHEM 482 and prior credit for CLAB 485. A laboratory to accompany CHEM 482. Experiments are designed to demonstrate some of the major metabolic pathways with emphasis on energy considerations and interrelationships of the pathways. It also emphasizes the flow of genetic information through replication, transcription, and translation. Three hours of laboratory a week. A laboratory fee is required for this course. Students taking this course for graduate degree credit must complete an independent research project and a written research paper summarizing the project. (Spring)

491/591. Theoretical Chemistry. Credit 3 hours. Prerequisites: CHEM 396 and PHYS 222/PLAB 224. Advanced treatment of fundamental principles of physical chemistry. Selected topics chosen from electro-chemistry, photochemistry, surfaces and colloids, solid state chemistry, crystallography, solutions (ideal and real), and statistical thermodynamics. (Varies)

492/592. Quantum Chemistry. Credit 3 hours. Prerequisite: CHEM 491. Fundamental concepts of quantum mechanics with application to atomic and molecular structure, the chemical bond, symmetry, and spectroscopy. (Varies)

610. Chemical Processes. Credit 3 hours. Prerequisite: CHEM 266 or equivalent. A course designed to study important chemical processes in industry. Examples from the commodity chemical, polymer, pharmaceutical and agricultural industries will be studied. The content will include basics in the scientific, legal, and economic issues associated with the industry such as petrochemical processing, costs associated with raw materials, scale-up marketing, energy, and process waste. (Varies)

650. Environmental Chemistry. Credit 3 hours. Prerequisite: CHEM 251 or equivalent. Critical phenomena in the environment will be studied. Topics include redox equilibria in natural waters, complexation in natural water, environmental chemistry of soil, atmospheric pollutants, and techniques for monitoring these phenomena. There will be a field component to this course. (Varies)

Child Life (CL)

100. Orientation to Child Life. Credit 1 hour. An orientation to the field of child life including requirements for clinical placements and certification. (Fall, Spring)

324. Theory and Guidance of Play. [FCS] Credit 3 hours. Prerequisite: HDFS 302. A study of the foundations of play theory, including the social, emotional, cognitive, and physical benefits of play for children and youth. (Fall)

325. Introduction to Child Life. [FCS] Credit 3 hours. Prerequisites: HDFS 302 and 321. A study of the child life profession, with emphasis on Child Life theoretical foundations, assessment, preparation, play, coping, and the role of Child Life within the healthcare setting. (Fall)

326. Child Life Practicum. [FCS] Credit 3 hours. Prerequisites: HDFS 302 and CL 325, and a cumulative GPA of 3.0 or higher. Fifteen hours per week of individual learning experiences with patients, their families and the hospital personnel in various hospital settings under the supervision and direction of a Certified Child Life Specialist. (Varies, Fall, Spring)

- 328. Child Life: Assessment, Preparation, and Therapeutic Play.** [FCS] Credit 3 hours. Prerequisite: CL 325. Advanced study of the assessment of the hospitalized child, focusing on therapeutic play skill development and pre-procedural preparation in a Pediatric setting. (Spring)
- 404/504. Child Life Theory and Family-Centered Care.** Credit 3 hours. Prerequisite: Permission of the Department Head. Advanced study of the research and literature on the psychosocial needs of children and their families in the pediatric health care setting. (Fall)
- 412/512. Parenting Children with Chronic Illness.** Credit 3 hours. Prerequisite: Permission of the Department Head. Advanced study of the theoretical approaches to parenting with an emphasis on parenting children with chronic illness. (Spring)
- 414/514. Child and Family Perspectives on Death, Dying, and Loss.** Credit 3 hours. Prerequisite: Permission of the Department Head. Examination of developmental and conceptual frameworks surrounding children's understanding of illness, dying, and death. Bereavement, grief, and loss will be discussed in the context of child and family development. (Spring)
- 421/521. Advanced Child Development.** Credit 3 hours. Prerequisites: HDFS 302, 320, 321, 322, and 3.0 or higher GPA, or permission of the Department Head. Advanced study of child development from the prenatal period through middle school. (Fall)
- 422/522. Advanced Adolescent Development.** Credit 3 hours. Prerequisites: HDFS 302, 320, 321, 322, and 3.0 or higher GPA, or permission of the Department Head. Advanced study of adolescent development from late middle childhood through emerging adulthood. (Fall)
- 430/530. Special Topics in Child Life.** Credit 3 hours. Prerequisite: Permission of the department head. The study of selected issues related to Child Life. Topics will be determined each semester based on current issues and trends related to Child Life. May be repeated for up to 6 credit hours if different topic areas are studied. (Varies)
- 516. Child Life Procedural Explanations and Interventions.** Credit 3 hours. Advanced study of medical play and psychosocial interventions used in the clinical and medical setting. (Varies)
- 602. Developmental Perspectives on Illness and Health.** Credit 3 hours. Prerequisite: Admission to the Child Life program or permission of the Department Head. An overview of developmental theories and psychosocial perspectives as they apply to children and adolescents experiencing injury or illness in the pediatric health care setting. (Fall)
- 608. Family Dynamics and Psychosocial Interventions.** Credit 3 hours. Prerequisite: Admission to the Child Life program or permission of the Department Head. Examination of family system dynamics and processes, with an emphasis on health-related factors that influence family functioning and well-being. (Spring)
- 618. Communication Skills in Clinical and Therapeutic Settings.** Credit 3 hours. Prerequisites: Admission to the Child Life program and permission of the Department Head. Examination of communication and interactions between children, families, health care professionals, and society, with emphasis on communication skills in pediatric healthcare settings that support clinical and therapeutic interventions across diverse populations. (Varies)
- 622. Child Life Practicum.** Credit 3 hours. Prerequisite: Admission to the Child Life program or permission of the Department Head. Fifteen hours per week of individual learning experiences with patients, their families and the hospital personnel in various hospital settings under the supervision and direction of a Certified Child Life Specialist. (Varies)
- 624. Child Life Internship.** Credit 3-12 hours. Prerequisite: Admission to the Child Life program or permission of the Department Head. In order to receive twelve credit hours, students must participate in six-hundred hours of individual learning experiences with patients, their families and the hospital personnel in various hospital settings under the supervision and direction of a Certified Child Life Specialist. (Varies)
- 628. Child Life Administration and Program Development.** Credit 3 hours. Prerequisite: Admission to the Child Life program or permission of the Department Head. An overview of the skills needed to plan, implement, and assess Child Life program. Administrative responsibilities, supervision of volunteers and students, and grant writing will also be addressed. (Spring)
- 630. Advanced Medical Play and Psychosocial Interventions.** Credit 3 hours. Prerequisite: Admission to the Child Life Graduate Program or permission of the Department Head. Advanced study of medical play and psychosocial interventions used in the clinical and medical settings. (Summer)
- 770. Thesis.** Credit 1-6 hours each semester, with six hours needed for graduation. Prerequisites: Admission to the Child Life program and permission of the Department Head. Independent study of a selected topic in Child Life requiring a written proposal, data collection and analyses, and resulting in a written thesis under the guidance of graduate faculty in the College of Nursing and Health Sciences. An oral defense of the thesis is required. The thesis is graded Pass/Fail. The student must enroll in this course each semester the thesis is in progress. (Varies)

Chinese (CHIN)

- 101. Elementary Mandarin Chinese I.** [LCCN: CCHIN 1013, Elementary Mandarin I]. Credit 3 hours. The beginning course for students with no knowledge of Mandarin. All appropriate elements of basic language learning are utilized for the purpose of providing a foundation in the language and culture of the provinces where Mandarin is spoken. Classwork supplemented by aural-oral drill in the language laboratory. Offered as the first of sequential courses (101 and 102) designed to provide an overall desired proficiency. (Summer, Fall, Spring)
- 102. Elementary Mandarin Chinese II.** [LCCN: CCHIN1023, Elementary Mandarin Chinese II]. Credit 3 hours. Prerequisite: CHIN 101 or equivalent. Continuation of the study of the Chinese language on the elementary level, with emphasis on the development of the basic communicative skills (speaking, listening, reading, writing) and grammatical structures. (Summer, Fall, Spring)
- 201. Intermediate Mandarin Chinese I.** Prerequisite: CHIN 101, 102, or equivalent. Continuation and review of basic elements of grammar; practice speaking, listening to, and writing the language. Reading material of moderate difficulty will be introduced. (Varies)
- 202. Intermediate Mandarin Chinese II.** Prerequisite: CHIN 101, 102, 201, or equivalent. Continuation and review of basic elements of grammar; practice speaking, listening to, and writing the language. Reading material of moderate difficulty will be introduced and discussed. (Varies)
- 314. Chinese Culture and Civilization.** Credit 3 hours. This course provides a survey of the geography, history, literature, art, music, educational system, economy of the Chinese people. (Varies)

Communication (COMM)

- 101. Orientation to the Study of Communication.** Credit 1 hour. Prerequisites: Open only to communication majors and communication education majors. Students who are undecided on a major may register for the course with the permission of the Department Head. An exploratory survey focused on socializing students to the discipline of communication. The course provides an overview of the fields of applied communication, electronic media, multi-platform communication, organizational communication, public relations and speech communication and an in-depth examination of the roles of producers, directors, managers, and journalists in an information society. Emphasis is also placed on developing an understanding of the importance of communication among people with diverse cultural backgrounds. (Fall, Spring)

102. Professional Traditions in Communication. Credit 1 hour. A preparation for advanced study of the field of communication. Students will examine the role of professional associations, become acquainted with professional literature, and investigate internship and cooperative employment opportunities. (Fall, Spring)

121. Photojournalism. Credit 3 hours. The course includes basic picture-taking techniques, the beginnings of photographic composition, basic camera-handling, basic lighting, photo documentation, and reporter-editor relationships. (Varies)

151. Writing for the Mass Media. Credit 3 hours. Prerequisite: English 101 eligibility. A study of basic information gathering and writing techniques for the Communication profession. (Fall, Spring)

155. Applied Digital Media. Credit 3 hours. A study and application of digital media tools for presentation design and display in the communication profession. Topics may include: cloud collaboration software, social media platforms, graphic design tools, still and video photography. (Varies)

159. Introduction to Communication and Media Studies. Credit 3 hours. Prerequisites: Successful completion of or concurrent enrollment in COMM 101 or permission of the Department Head. A survey of the influences of the mass media on our society and culture. This course examines the content of the news media and the entertainment industry and its effects on such areas as politics, social mores, public opinion and economics. The implications of present-day rapid communication technology are also examined. (Fall, Spring)

210. Communicating in the Classroom. Credit 3 hours. The course offers prospective teachers a study of basic communication skills and how they relate to the teaching and learning process. Students cannot receive credit for both COMM 210 and 211. This course competency-based clinical practice required. (Fall, Spring)

211. Introduction to Public Speaking. [LCCN: COMM 2013, Public Speaking] Credit 3 hours. Training in the organization of materials and the oral and physical aspects of delivery in various speaking situations. Intended to give the beginning student an understanding of and practice in public speaking. (Summer, Fall, Spring)

211H. Introduction to Public Speaking for Honors Students. Credit 3 hours. Prerequisite: Authorization by the Director of the Honors Program. Training in the organization of materials and the oral and physical aspects of delivery in various speaking situations. Intended to give the beginning student an understanding of and practice in public speaking, with in-depth examination of rhetoric and historic speeches. (Fall, Spring)

213. Debate. [LCCN: COMM 2113, Argumentation and Debate] Credit 3 hours. A study of the theory of argumentation and debate; class debating on vital local and national questions. (Varies)

215. Interpersonal Communication. [LCCN: COMM 2213, Interpersonal Communication] Credit 3 hours. Survey and application of intra-and interpersonal communication with special emphasis given to communication models, the message, the sender, and resulting behavior. (Fall, Spring)

249. Content Creation for Digital Media. Credit 3 hours. Students will develop the knowledge base and skills required for creating and distributing digital media content to attract and retain a clearly defined audience with the goal of engaging users, delivering messages and building relationships. (Varies)

256. Introduction to Audio Production. Credit 3 hours. A study of the techniques of audio production. Actual hands-on experience in studio program production procedures used in audio broadcasting. Studies will engage in practical work in all areas of production as well as several program formats. (Varies)

257. Introduction to Television Production. Credit 3 hours. A study of the techniques used in basic studio and remote productions including film-style productions. The course will concentrate on the use of equipment, providing actual hands-on experience in television production. Students will study all areas of production skills dealing with the major formats in programming. (Fall, Spring)

260. Field Video Production and Editing. Credit 3 hours. Prerequisite: COMM 257. An intermediate study of remote video preproduction, production and an introduction to postproduction technique. Concentration on producing, directing, film-style, videography, and editing. Practical application of shooting and interviews, stand-ups, and video segment footage to work in tandem with news, news magazine, entertainment-oriented and sports shows. (Fall, Spring)

270 [370]. Introduction to Public Relations Communication. Credit 3 hours. An introductory course that explores the role of communication in the field of public relations. Emphasis will be placed on public relations as a career that utilizes a variety of professional communication skills to help organizations build and maintain relationships with their publics. Students will learn about communication strategies, theories, roles, and opportunities within the context of public relations. (Varies)

272. Introduction to Strategic Communication. Credit 3 hours. In this course, students will develop a broad understanding of the technical, creative, and analytical skills required of professional communicators in the 21st century. (Varies)

276. Strategic Planning for Sports Communication. Credit 3 hours. Students will gain an understanding of the rapid change in the world of sports communication through the advent of digital and social media platforms which have shifted the power structure of the industry. Topics will include understanding name, image, likeness, branded content, strategic partnerships across the sports industry and on-platform monetization. (Fall, Spring)

316. Communication Approaches to Training and Development. Credit 3 hours. Prerequisite: Junior Standing. Emphasizes development of training sessions within organizations. Diagnostic methods for assessing needs and determining the utility of specific training are explored. Roles of consultants, in-house human resource trainer, and liaison with subject matter experts are differentiated. Students will develop training modules for communication skills training. (Varies)

320. Screenwriting. Credit 3 hours. Prerequisite: ENGL 102. In this course, students will learn how to write a screenplay from concept to treatment, outline and completed short script. The focus will be on developing character arcs, story structure and screenwriting format. Students will learn to develop their creative voice and write for film and television. (Varies)

321. Magazine Writing and Editing. Credit 3 hours. Prerequisite: COMM 151. An intensive study of non-fiction magazine writing and editorial methods. This course includes study of traditional magazines as well as developing electronic forms. (Varies)

328. Survey of Sports Communication. Credit 3 hours. A survey of the field of sports communication. Specific topics include models of sports communication, print and electronic media, sports advertising, public relations, media relations, and employment opportunities. Students will have the opportunity to critically assess the communication efforts of a sports organization as well as construct their own communications in the field of sports. (Varies)

329. Creating the Television Pilot. Credit 3 hours. Prerequisites: ENGL 102 and COMM 320. In this course, students will learn how to develop a serialized TV drama. The focus will be on developing long term storylines, what makes TV serials different from feature films and the genres of TV drama. The focus will be on understanding leads and supporting characters, the recurring storyline, season and the collaborative creative process of TV. Students will develop a show pitch and a pilot episode. (Varies)

340. Public Affairs and Depth News Reporting. Credit 3 hours. Prerequisite: COMM 151. Practice in precision journalism methods and in gathering and writing news stories on government, industry, education, and society. (Varies)

344. Feature Writing. Credit 3 hours. Prerequisite: COMM 151. Developing and writing human interest and in-depth articles. (Varies)

- 354. Copywriting, Sales and Promotion.** Credit 3 hours. Prerequisites: COMM 151 and 159. Writing of commercial and public service spot announcements; design of sales and promotion campaigns. The course will include designing a campaign for a local merchant. (Varies)
- 357. Television Studio Production.** Credit 3 hours. Prerequisites: COMM 151 and 257. A course designed to develop studio production skills for students seeking a professional career in television and video, including the study and operation of studio and control room positions for television news shows. Includes studio anchoring, producing, camera operation, computer graphics, and teleprompter operation. (Varies)
- 359. Podcasting and Digital Journalism.** Credit 3 hours. Prerequisites: COMM 151 and 159. The study and practice of news gathering and writing for podcasting, radio, and television. (Varies)
- 363. Television Reporting.** Credit 3 hours. Prerequisites: COMM 151 and 260. A course designed to develop reporting skills for future news, sports, and entertainment reporters and producers. This course is meant for students who seek professional careers as television journalists. Includes researching, writing, reporting, producing, shooting, and editing news sports, and entertainment stories and feature packages. (Varies)
- 364 Public Relations Case Studies.** Credit 3 hours. Prerequisite: Junior standing. Advances the student's knowledge of public relations through the exploration of case studies which exemplify the successful use of research, objectives, programming and evaluation in different types of public relations organizations. (Varies)
- 369. Film History.** Credit 3 hours. Prerequisite: Junior standing or permission of Department Head. A study of the history of film encompassing motion pictures' birth as an industry in the late 1800s and continuing through the present day. The course will study a timeline of film and technology of film focusing on films' ability to communicate ideas and emotions and how audiences can be influenced by filmmakers. (Varies)
- 376. Visual Communication.** Credit 3 hours. A study of the visual aspects of information within a framework of personal, technical, ethical, cultural, and critical perspectives. (Varies)
- 391 [291]. Communication Theory and Research.** Credit 3 hours. Prerequisite: COMM 101, and 102 or permission of the Department Head. Application of theories to communication examples and examination of research tools used in the study of communication. Recommended to be taken during the sophomore year. (Fall, Spring)
- 400. Special Topics in Communication.** Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A variable content course which treats subjects of special interest. The content will change from semester to semester and will be advertised in advance. May be repeated for a total of 15 hours as topics change. (Varies)
- 401. Scholastic Journalism.** Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A study of theories and practice in the teaching of mass media principles and/or advising of student newspapers, magazines, yearbooks, on-line operations and broadcast programming on the secondary school level. Variable content. May be repeated for a total of six hours. (Varies)
- 402. Television Sports Show Production.** Credit 3 hours. Prerequisites: COMM 151 and 260. Writing, reporting, producing, shooting, and editing sports stories and feature packages for television sports shows. (Varies)
- 403-404. Independent Study in Communication.** Credit 3 hours. Prerequisite: Junior standing and permission of the Department Head. Readings, conferences, reports, and/or special projects in one of the subject areas of the fields of Communication. (Varies)
- 408. On Camera Performance.** Credit 3 hours. Prerequisites: COMM 151 and 257. A course designed to develop talent for future performers on camera and on microphone. Course meant for students who plan to seek professional careers as on-air talent. Examination of past and current presentational styles and techniques through lectures and demonstration. Analysis of current professionals on the local, regional, and network levels of television and radio. (Varies)
- 409. News Magazine Show Production.** Credit 3 hours. Prerequisites: COMM 151, 159, 257, and 260. A study of what makes a memorable television news feature story for a general broadcast audience. Students are guided through the reporting, writing, and editing stages as they produce features to be aired on the award-winning quarterly news magazine show, "The Southeastern Times." (Fall)
- 410/510. Intercultural Communication.** Credit 3 hours. Prerequisite: Junior standing or permission of Department Head. A course designed to explore the various studies, theories, problems, and opportunities related to cross-cultural communication. Application of findings intended to enhance the student's knowledge of cross-cultural communication and to facilitate the student's communication abilities. (Summer, Fall, Spring)
- 411. Persuasion.** Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A contemporary study of persuasion offering a comprehensive examination of the nature of persuasion, persuasion theory, and its social influences with additional emphasis on techniques and strategies in persuasive communication. (Varies)
- 413. Business and Professional Speaking.** Credit 3 hours. Prerequisite: COMM 210 or 211. Advanced training in rhetoric, interviewing, group dynamics, leadership, and audience analysis. (Varies)
- 417/517. Web Page Communication and Design.** Credit 3 hours. Requires instructor authorization. The course deals with Hypertext Markup Language (HTML), design basics, and how the Web acts as a communication tool in today's business and social environment. This class teaches students Web page design and construction as it relates to the concepts of communication theory. Students will be required to have their own Internet Web account and construct a fully-functioning Web site that will be posted to the World Wide Web. This course will be offered in both an online and in-class format. Students will choose which format to take. (Varies)
- 418. Small Group Communication.** Credit 3 hours. Prerequisite: Junior standing. An investigation of the dynamics of small group communication, leadership, and decision-making, particularly as these groups function as subgroups of larger organizations. (Varies)
- 424. Television Advertising Design and Production Studio.** Credit 3 hours. Prerequisites: COMM 260 for Communication majors or ART 290 for Art majors or MRKT 303 for Marketing majors or permission of the Department Head. The marketing strategy and development, sale, design, and film-style production of video commercials, promotional spots, PSAs, infomercials and image campaigns for broadcast on television and the Internet. Includes broadcast graphics, animation, and design. Students design and produce spots and promotional programs for real-life clients. (Varies)
- 425. Variable Topics in Sports Media.** Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A variable content study of sports writing, public relations or broadcasting, which during alternating semesters, may focus on traditional sports news writing; public relations; or on radio or TV game coverage, announcing, producing, shooting, and editing for live sporting events. Can be repeated for credit twice with a change in focus. (Varies)
- 427. Field Study in Professional Communication.** Credit 1 hour (May be repeated for a total of 6 hours). Prerequisites: Junior standing, major in communication and permission of the Department Head. Intended to provide students with first-hand experience with various phenomena or organizations associated with professional communication. Students will focus their interests on areas related to the focus areas in the communication major. (Varies)
- 430. Convergence Media.** Credit 3 hours. COMM 151. This course will introduce students to convergence media. Students will participate in advanced journalistic writing and practice their skills through live, edited web blogging. The lectures will focus on technology in journalism and on adding multi-media elements to support stories. (Varies)
- 433. Leadership and Communication.** Credit 3 hours. Prerequisite: Junior Standing. An investigation into approaches to leadership from a communication perspective. Students enrolled in this course will learn about approaches to leadership and the theories emanating from these

approaches from both historical and contemporary sources; each student will complete a number of self-report leadership assessment instruments. (Varies)

441. Integrated Marketing Communication. Credit 3 hours. Prerequisite: COMM 272. The course emphasizes understanding the role of public relations, advertising, and other promotional tools in achieving effective campaigns based on clear objectives and audience segmentation within established time and cost parameters. (Varies)

449. Advanced Video Production and Editing. Credit 3 hours. Prerequisite: COMM 260. An exploration of advanced videography, lighting and audio techniques. Emphasis on field production using film-style shooting and editing. (Varies)

451/551. Media Management and Economics. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A study of legal regulations, audience analysis, marketing, administrative policies and financial conditions affecting the operation of print and broadcast media. (Varies)

453. Communication Law and Policy. Credit 3 hours. Prerequisite: COMM 159 or permission of the Department Head. This course will study the relationship between media and government. In its discussions, the course will study issues such as First Amendment Rights and those court cases which have shaped the present constitutional and legal environment of information gathering and writing for the mass media in America. (Summer, Fall, Spring)

456. Social and Ethical Issues in Mass Communication. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. Mass media from an ethical viewpoint. Includes the theory of mass communication, media functions, and the process and effects of mass communication. (Varies)

458. International Communication and Media. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A study of the history and development of current practices in international communication. Emphasis placed on objectives, policies, and problems of international communication. (Varies)

459. Communication Internship. Credit 3 hours. Prerequisite: Junior standing and approval by Communication Internship Committee. Provides training and experience in a working environment with a newsroom, station or other approved setting. Periodic reports and meetings with a faculty supervisor are required. (Varies)

460. Advanced Audio Production. Credit 3 hours. Prerequisite: COMM 256. To extend the student's mastery of the production techniques taught in the introductory course. Assignments are of greater length and difficulty, working toward professional broadcast quality productions through supervision, guidance, and critiquing. Topics may include: multi-track recording, advanced editing techniques, remote and studio productions, recording aesthetics, music technological advances, audio for film/TV. Six hours of lecture/laboratory per week. (Varies)

461. Media Criticism. Credit 3 hours. Prerequisite: Junior standing or permission of Department Head. An investigation of the critical process as it applies to the news media and entertainment industry in America. (Varies)

463. Writing for Public Relations. Credit 3 hours. Prerequisite: COMM 151. Writing of scripts, press releases and online items for educational organizations, government and business. Emphasis is placed on conceptualization, audience analysis, research, dialogue and visualization. (Varies)

465. Public Relations Campaigns. Credit 3 hours. Prerequisites: COMM 364 and 463. Gives students the opportunity to apply what they have learned of public relations strategies, writing and case studies in the creation of a public relations campaign. (Varies)

466. Special Events Planning. Credit 3 hours. Prerequisite: Junior Standing or permission of the Department Head. In this course, students will be provided the opportunity to plan, organize, manage, promote and evaluate special events such as festivals, conventions and trade shows. (Varies)

467. Public Relations Crisis Communication. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. The course will cover corporate crisis management, global crises and the cultural factors that affect them, product recall, issues management, creating a crisis response plan, internal and media relations during a crisis and the seven deadly sins of crisis response. (Varies)

471. Organizational Communication. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A course designed to explore the various theories, approaches, and opportunities relating to oral and nonverbal communication in organizations. (Varies)

475. Race and Gender Communication. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. Explores the various approaches, methodologies, issues, theories, and controversies related to race and gender communication. (Varies)

476. Social Media Communication. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. An examination of the underlying principles of social media used to accomplish communication goals. Emphasis on key concepts, best practices, data analysis, law and ethics – all needed to effectively communicate in social media space. (Fall)

477. Social Media Data Analytics. Credit 3 hours. Prerequisite: Junior standing or permission of Department Head. Students will examine the analytical process for social media as well as current technologies and software utilized to process data. (Spring)

478. Video Documentary Production. Credit 3 hours. Prerequisite: COMM 260 or permission of the Department Head. This course will act as a hands-on exploration of long-form documentary video. Students will create, videotape, and edit projects over the course of a semester. (Varies)

485. Health Communication. Credit 3 hours. Prerequisite: Junior standing. Health Communication is an emerging specialty in the field of communication. The study is concerned with human interaction in the health care process. (Varies)

490. Digital Audience Research and Behavior. Credit 3 hours. Prerequisite: COMM 476. This course will prepare students for the field of consumer and audience analytics with an emphasis on key metrics, data mining, data visualization, industry tools, software, and certifications. (Varies)

493. History of Mass Communication. Credit 3 hours: Prerequisite: Junior standing or permission of the Department Head. A lecture course emphasizing the development of print and broadcast media in the United States. (Varies)

495/595. Opinion Writing: Editorials and Critical Reviews. Credit 3 hours. Prerequisite: COMM 151 or ENGL 102. Practice in writing editorials and critical reviews of the arts for print, online, and broadcast, and a review of opinion/editorial and arts and entertainment media coverage policies. (Varies)

498. Professional Seminar in Communication. Credit 3 hours. Prerequisites: A major in communication with 100 or more credit hours earned which must include successful completion of COMM 151, 211, and a completed graduation application or permission of the Department Head. A study of the opportunities for professional growth and development within the student's chosen concentration. (Fall, Spring)

604. Independent Study in Strategic Communication. Credit 3 hours. Prerequisite: Graduate standing and permission of the Department Head. Readings, conferences, reports and/or special projects in one of the subject areas of the fields of Strategic Communication. (Varies)

610. Social Media Strategy. Credit 3 hours. This course will focus on strategically using social media to increase brand awareness, identify key audiences, generate leads, create personas, and build meaningful relationships with customers. Emphasis on identifying the social tools and technologies needed to utilize communication strategies and tactics to reach target audiences effectively. (Varies)

616. Communication Training, Assessment, and Development. Credit 3 hours. Prerequisite: Graduate standing. Covers topics such as diversity awareness, media relations, intercultural communication, leadership, conflict management, and creativity as well as covers theories of

learning and motivation, needs assessment, learning environments, and instructional technology. Students taking COMM 616 will be required to complete a project in which they conduct an analysis and needs assessment of an organization. (alternating Fall semesters)

620. Strategic Communication in a Multicultural Marketplace. Credit 3 hours. Prerequisite: Graduate standing. This course examines strategic communication and organizational culture and diversity. It will apply intercultural and critical communication theories to situations and issues that arise in multicultural organizations and multicultural marketplaces. Special attention will be given to the intersection of internal and external communication strategies, culture in communication, motivation, negotiation and conflict resolution. (Varies)

621. Strategic Communication Campaigns. Credit 3 hours. Prerequisite: Graduate standing. Students will research, create, produce, execute and evaluate a number of campaigns for real clients for all media. They will address the essential elements in devising a strategic issues management and communications campaign. The focus will be on how strategic communication can be used to proactively address 1) a company or an organization's reputation, and 2) stakeholders in terms of creating or regaining a positive brand in the eye of the public, the media and key opinion leaders. (Spring)

622. Digital Strategic Communication Analytics. Credit 3 hours. Students will develop a managerial understanding of web and social media analytics measures and operations to perform web performance optimization. Using tools and statistical programming languages, students will learn applications of web analytics, social network analysis, network representation, visualization, cohesion, clustering and semantic tree analysis. (Varies)

623. Strategic Integrated Marketing Communication. Credit 3 hours. This course will provide students a grounding in consumer behavior and decision making in the context of customer relationship management. Emphasis will be placed on planning and creating integrated, seamless messaging content based on competitor and audience analysis (Varies)

624. Digital Audience Strategy. Credit 3 hours. This course will provide digital audience research skills by investigating digital communication platforms and technologies used to evaluate online consumer behavior. Emphasis on using data to advance organizational objectives by developing strategic plans to reach target markets, including customers, users, influencers, and other core audiences. (Varies)

626. Law and Ethics for Emerging Media. Credit 3 hours. Prerequisite: Graduate standing. This course will examine the laws and ethics pertaining to new and emerging technologies of internet and social media, exploring such topics as accountability, employee voice, legitimacy, copyright protection, sexual harassment, age and gender discrimination, ADA requirements, and court decisions related to the evolving digital workplace. (Fall)

630. Media Planning and Buying. Credit 3 hours. This course covers the goal-oriented activities of planning, organizing and buying within the framework of the creation and distribution process for information or entertainment content in media enterprises. Student will develop commercial, strategic, and managerial skills to be successful in an industry constantly in a state of innovation and change. (Varies)

631. Digital Communication. Credit 3 hours. Prerequisite: Graduate standing. Students will be introduced to digital media tools, including online content creation, SEO, website management, email marketing, social media engagement, digital advertising, analytics and emerging technologies that are used to create and build integrated digital campaigns for engagement. This course will provide students with the ability to actively use digital communication tools, a foundational understanding of creating content across a wide range of media platforms and knowledge of using digital media platforms in a strategic communication mix. (Alternating Spring semesters)

633. Strategic Communication Leadership. Credit 3 hours. This course will study collaborative leadership models used to create a strategic vision of robust communication for an organization. Emphasis will be placed on data-driven decision making, ethical and inclusive practices, community relations and the global environment. (Varies)

640. Emerging Media Entrepreneurship. Credit 3 hours. Prerequisites: COMM 631 and 691. This course covers the process of identifying a new, digital media enterprise and quantifying market opportunities, then conceptualizing, planning, and executing a detailed business plan for a media startup. (Varies)

642. Strategic Crisis Communication. Credit 3 hours. Students will learn the practical application of crisis communication principles using various tools, techniques and technology to anticipate, identify and navigate crises as part of conducting an effective communication strategy. (Varies)

647. Strategic Communication in Global Networks. Credit 3 hours. Students will gain the knowledge and skills necessary to be strategic communicators in a global media environment that encompasses cross border connectivity, international commerce and policy. This course will address trade, border policy, regulation and culture. (Varies)

648. Content Creation for Strategic Communication. Credit 3 hours. Prerequisite: Graduate Standing. Provides practical training in the planning and creation of content to be used in strategic communication campaigns. (Fall)

649. Visual Design for Strategic Communication. Credit 3 hours. Prerequisite: Graduate Standing. Students develop analytical skills in visual communication. They also learn the visual approaches and techniques that enhance message exposure, awareness, and behavioral change. (Spring)

650. Strategic Communication for Nonprofits. Credit 3 hours. Prerequisites: COMM 631 and 691. Students will gain the knowledge and skills in communication, public relations and digital media as they are used in the nonprofit sector. They will also learn current strategies and techniques for successfully positioning the nonprofit organization and developing a strategic communication program that will augment the organization's vital fundraising efforts. (Varies)

659. Communication Internship. Credit 3 hours. Prerequisite: Graduate standing. Provides training and experience in an approved working environment. Periodic reports and meetings with the faculty supervisor are required. (Varies)

671. Applied Qualitative Research. Credit 3 hours. Prerequisite: Graduate standing. Explores the various qualitative theories, methods, approaches, and opportunities related to strategic communication in modern organizations. Emphasis on relationship between research and practice (Spring)

691. Quantitative Measurements for Strategic Communication. Credit 3 hours. Prerequisite: Graduate standing. This course is designed to acquaint students with the common quantitative measures utilized in strategic communication research. Emphasis will be placed on the design, execution, theories, and evaluation of quantitative methods and measures. (Fall)

698. Strategic Communication Capstone. Credit 3 hours. Prerequisite: Graduate standing. This is the culminating course in the Master of Arts in Strategic Communication Program. Students will synthesize and apply knowledge and skills from previous courses to demonstrate competence in a specialized area of strategic communication of interest. The Capstone project proposal must be approved by the instructor. It must be taken in the student's last semester or with permission of the Department Head. (Summer, Fall, Spring)

699. Special Topics. Credit 3 hours. Prerequisite: Graduate standing and approval of Department Head. A variable content course, which treats subjects of special interest. The content will change from semester to semester and will be advertised in advance. May be repeated once for a total of 6 hours credit. (Varies)

Communication Sciences and Disorders (CSD)

101. Introduction to Communication Sciences and Disorders. Credit 3 hours. A study of etiology, types, and characteristics of communication problems. An overview of the profession and concepts are presented. (Fall, Spring)

201. Introduction to Audiology. Credit 3 hours. The course is designed to provide students with a study of hearing, hearing disorders/impairments, hearing tests, and hearing management. Basic instruction in pure-tone air and bone conduction audiometry, masking, speech audiometry, and physiological procedures are included to acquaint students with the entire field of audiology. (Fall, Spring)

203. Introduction to Language. Credit 3 hours. This course will introduce the student to the basic concepts of language structure. Practice in discovering and describing language patterns will support the development of an objective approach to language differences. The course will include a survey of related topics such as animal vs. human communication and neurological and psychological issues in the study of language. (Fall, Spring)

205. Phonetics. Credit 3 hours. A study of the physical bases of sound production and perception, with emphasis on analysis, description and transcription of the phonological patterns of normal and disordered speech. (Fall, Spring)

212. Speech Sound Development and Disorders. Credit 3 hours. Prerequisites: CSD 101, 203, 205, and 213. This course will include a review of phonetics, the study of the development of the speech sound system and an examination of the identification, evaluation, and treatment of speech sound disorders. (Fall, Spring)

213. Anatomy and Physiology of the Speech and Hearing Mechanism. Credit 3 hours. Structure, function, and control of the anatomy and physiology involved in the speech and hearing mechanism. (Fall, Spring)

300. Beginning Clinical Practicum in Speech, Language, and Hearing. Credit 1 - 6 hrs. Prerequisites: CSD 201, 203, 327, 328, and minimum cumulative GPA of 2.5. Students conduct assessments, write treatment plans, and plan and implement therapeutic procedures for clients with communication disorders. Attendance at clinical staffing is required. A laboratory fee is required for this course. (Summer, Fall, Spring)

309. Beginning Assessment in Communication Disorders. Credit 3 hours. Prerequisites: CSD 101, 205, 212, and 213 and cumulative GPA of 2.5 or higher or permission of the Department Head. Introduction to the terminology, major theories, types and methods of assessment used in speech-language pathology. Students will explore assessment materials, observe clinical assessment procedures, and practice professional report writing. (Fall, Spring)

326. Acoustics and Speech & Hearing Science. Credit 3 hours. Prerequisites: CSD 201 and cumulative GPA of 2.5. The course is designed to provide students with basic principles concerning sound and speech production, transmission, modification, analysis and reception. The course is also designed to address the relationship of these principles to the practice of speech language pathology and audiology. (Fall)

327. Introduction to Clinical Methods for Communication Disorders. Credit 3 hours. Prerequisites: CSD 101, 205, 212, 213, 415, concurrent enrollment in or prior credit for CSD 328 and a cumulative GPA of 2.5 or permission of the Department Head. This course presents information on the fundamentals of clinical methods in speech-language pathology. Course content covers clinical procedures to prepare students for subsequent clinical experiences with individuals with a variety of speech and language disorders. (Fall, Spring)

328. Introduction to Clinical Experiences. Credit 1-3 hrs. Prerequisites: CSD 101, 203, 205, 212, and 213, 415, concurrent enrollment in or prior credit for CSD 327, cumulative GPA 2.5 or permission of the Department Head. This course introduces students to clinical experiences across the life span and from culturally/linguistically diverse backgrounds. Twenty-five hours of observations of clinical sessions are required. Graduate students with regular admission who do not have 25 observation hours must register for this course. (Fall, Spring)

329. Introduction to Voice and Fluency Disorders. Credit 3 hours. Prerequisites: CSD 212, 213, and cumulative GPA of 2.5 or permission of the Department Head. This course is designed to provide a broad overview of pertinent anatomy and physiology, theories, etiologies, characteristics, assessment and treatment methods for common voice and fluency disorders. (Fall)

365. Behavior Management Strategies for Individuals with Communication Disorders. Credit 3 hours. Prerequisites: CSD 101 and cumulative GPA of 2.5 or higher or approval of Department Head. This course focuses on a continuum of effective clinical approaches for solving behavioral problems in individuals with communication disorders. Emphasis will be placed on strategies for discovering the underlying reasons for problematic behaviors, as well as crafting the communication component of behavioral intervention. Students will develop and demonstrate positive behavior management plans. (Varies)

409. Directed Readings in Communication Science Disorders. Variable credit: 1, 2, or 3 hours. Prerequisite: Cumulative GPA of 2.5. Directed individual study of selected area(s) in speech, language, and hearing. Area(s) of study to be designated by instructor. Students may repeat the course for a total of 6 credit hours. Number of credit hours will be determined by the instructor based on the complexity and depth of the subject matter. (Varies)

410. Intermediate Clinical Practicum in Speech, Language and Hearing. Credit 1 - 6 hrs. May be repeated for credit. Prerequisites: CSD 300 and 309, and a minimum cumulative GPA of 2.5, and 35 clinical contact hours. Students acquire more advanced skills in the therapeutic and assessment processes and in writing various types of professional reports. Attendance at clinical staffing is required. A laboratory fee is required for this course. (Summer, Fall, Spring)

411. Aural Habilitation and Rehabilitation. Credit 3 hours. Prerequisites: CSD 201, CSD 326, and a cumulative GPA of 2.5, or permission of the Department Head. Exploration of communication training options for individuals with congenital and acquired hearing loss. Credit cannot be given for both CSD 411 and CSD 511. (Spring)

413. Public School Speech, Language, and Hearing Services: Methods and Materials. Credit 3 hours. Prerequisites: CSD 212, 300, 309, 327, 328, 415, and cumulative GPA of 2.5 or permission of the Department Head. This course presents a study of the organization and delivery of SLH services in the public-school setting. Course content emphasizes practical information regarding the foundation, implementation and maintenance aspects of conducting a public school SLH program. Topics to be covered include: legislation program structure, diagnostic and therapeutic methods, inclusion, the speech pathologist as a consultant and data manager. Development of I.E.P. and I.F.S.P. plans included. Credit cannot be given for both CSD 413 and CSD 513. (Varies)

415. Speech and Language Development. Credit 3 hours. Prerequisites: CSD 203, CSD 205 and a Cumulative GPA of 2.5 or permission of the Department Head. A study of the major theories of language acquisition. The normal sequence of child development will be highlighted. Cultural and linguistic differences will be discussed. Credit cannot be given for both CSD 415 and CSD 515. (Fall, Spring)

416. Management of Child Language Disorders. Credit 3 hours. Prerequisites: CSD 415 or CSD 515 and cumulative GPA of 2.5. This course provides an overview of children's language disorders. Linguistic and extra linguistic characteristics associated with various disorders are discussed, and the bases for differential diagnosis are provided. General and specific strategies for intervention are introduced. Credit cannot be given for both CSD 416 and CSD 516. (Spring)

430. Introduction to Manual Communication. Credit 3 hours. An introduction to fingerspelling and sign language, including applications for individuals with disabilities. Supervised practice in fingerspelling and signing vocabulary. (Varies)

440. Intermediate Assessment in Communication Disorders. Credit 3 hours. Prerequisites: CSD 309 and a cumulative GPA of 2.5 or higher or approval of Department Head. This course is designed to provide pre-professional students with the knowledge to understand assessment in the following areas: communication, educational performance, cognitive aspects of communication, and adaptive behavior. Students will demonstrate assessment skills consistent with the scope of practice for speech-language pathology assistants. (Varies)

447. Intermediate Manual Communication. Credit 3 hours. Prerequisite: CSD 430 or 530 or permission of Department Head. A continuation of beginning manual communication with emphasis on American Sign Language. Applications for working with individuals with hearing impairments. Concentrated supervised practice in signing for functional communication. (Varies)

451. Introduction to Augmentative/Alternative Communication. Credit 3 hours. Prerequisite: Cumulative GPA of 2.5. Course presents an overview of communication and the role of augmentative and alternative communication in educational/therapeutic programs. Attention is focused on service delivery for individuals with severe communication disorders. Assessment, intervention, program development, and expansion of existing augmentative and alternative communication systems are included. Credit cannot be given for both CSD 451 and CSD 551. (Varies)

500. Introductory Clinical Practicum in Communication Disorders. Credit 1-6 hours. Prerequisites: CSD 201, 327, 328, 615, and in good academic standing, or permission of the Department Head. Designed for students without a bachelor's degree in speech-language pathology who are at beginning level of clinical competency and who are seeking licensure and/or certification as a speech-language pathologist. Students conduct assessments, write and implement treatment plans. Attendance at clinical staffing is required. A laboratory fee is required for this course. (Summer, Fall, Spring)

510. Beginning Clinical Practicum in Communication Disorders. Credit 1-6 hours. May be repeated for credit. Prerequisites: 25 observation hours, CSD 309, 327, and 500, and in good academic standing, or permission of Department Head. Designed for students at a beginning level of clinical competency and who are seeking licensure and/or certification as speech-language pathologists. Students acquire additional skills in therapeutic and assessment processes and write various types of professional reports. Attendance at clinical staffing is required. A laboratory fee required. (Summer, Fall, Spring)

511. Aural Habilitation and Rehabilitation. Credit 3 hours. Prerequisite: CSD 201 or permission of the Department Head. Exploration of communication training options for individuals with congenital and acquired hearing loss. Credit cannot be given for both CSD 411 and 511. (Varies)

513. Public School Speech, Language, and Hearing Services: Methods and Materials. Credit 3 hours. Prerequisites: CSD 212, 309, 327, 328, 415 and 500 or permission of Department Head. This course presents a study of the organization and delivery of speech language and hearing services in the public-school setting. Course content emphasizes practical information regarding the foundation, implementation and maintenance aspects of conducting a public-school speech language and hearing program. Topics to be covered include: legislation program structure, diagnostic and therapeutic methods, inclusion, the speech pathologist as a consultant and data manager. Development of I.E.P. and I.F.S.P. plans included. Credit cannot be given for both CSD 413 and CSD 513. (Varies)

514. Clinical Practicum. Credit 1 hour. Participation in supervised direct clinical activities dealing with audiometric evaluation and rehabilitation. Credit cannot be given for both CSD 400 and CSD 514. (Varies)

515. Speech and Language Development. Credit 3 hours. A study of the major theories of language acquisition. The normal sequence of child development will be highlighted. Cultural and linguistic differences will be discussed. Credit cannot be given for both CSD 415 and 515. (Varies)

516. Management of Child Language Disorders. Credit 3 hours. Prerequisite: CSD 415 or CSD 515. This course provides an overview of children's language disorders. Linguistic and extralinguistic characteristics associated with various disorders are discussed, and the bases for differential diagnosis are provided. General and specific strategies for intervention are introduced. Credit cannot be given for both CSD 416 and CSD 516. (Varies)

530. Introduction to Manual Communication. Credit 3 hours. An introduction to fingerspelling and sign language, including applications for individuals with disabilities. Supervised practice in fingerspelling and signing vocabulary. (Varies)

535. Advanced Hearing Testing. Credit 3 hours. Prerequisite: CSD 201 or permission of the Department Head. Emphasis on site of lesion tests and testing procedures that require additional information beyond the standard audiometric evaluation. Interpretation of the test results and clinical applications will be included. (Varies)

547. Intermediate Manual Communication. Credit 3 hours. Prerequisite: CSD 430 or 530 or permission of Department Head. A continuation of beginning manual communication with emphasis on American Sign Language. Applications for working with individuals with hearing impairments. Concentrated supervised practice in signing for functional communication. (Varies)

551. Introduction to Augmentative/Alternative Communication. Credit 3 hours. Course presents an overview of communication and the role of augmentative and alternative communication in educational/therapeutic programs. Attention is focused on service delivery for individuals with severe communication disorders. Assessment, intervention, program development, and expansion of existing augmentative and alternative communication systems are included. Credit cannot be given for both CSD 451 and CSD 551 or SPED 457/557. (Varies)

552. Computer Applications for Individuals with Special Needs. Credit 3 hours. A course designed to provide an overview of microcomputers and other technology with an emphasis on applications for special populations. Topics include: basic computer operations/adaptations, learning theories related to educational/clinical uses of technology, computer-managed instruction, and computer-assisted instruction. Awareness of technology-related ethical issues and knowledge of resources useful to computer users will be components of the course. Credit cannot be given for both CSD 452 and CSD 552 or SPED 458/558. (Varies)

560. Oral Reporting/Professional Communication Skills for Speech-Language Pathologists. Credit 3 hours. Prerequisites: CSD 213, 309, 327, 328, 415, or permission of Department Head. Students will be trained to perform a variety of oral reports, ranging from brief informal discussions to highly prepared formal case presentations and grand rounds. Students will also become skilled at organizing and writing clinical reports, educational programs and computerized report writing. Credit cannot be given for both CSD 460 and CSD 560. (Varies)

600. Psycholinguistics. Credit 3 hours. Prerequisites: CSD 602 and 624. A survey of the processes involved in encoding and decoding language at four levels of structure: phonology (the sound system), lexicon (words), morpho-syntax (phrases and sentences), and discourse (conversation), with specific attention to disturbance affecting the normal functioning of each of these levels. (Varies)

602. Aphasia. Credit 3 hours. Prerequisite: CSD 606 or permission of the Department Head. A study of aphasia syndromes, etiologies, assessment strategies and treatment options. (Fall, Spring)

603. Advanced Clinical Practicum in Communication Disorders. Credit 1-6 hours. May be repeated for credit. Prerequisites: CSD 602, 606, 611, 614, 200 clinical hours, and in good academic standing, or permission of Department Head. Designed for graduate students in good standing, performing at an advanced level of clinical competency and seeking licensure and/or certification as speech-language pathologist. Students administer assessment, write treatment plans, plan and implement therapeutic procedures. Emphasis is on adults with communication disorders. Attendance at clinical staffing is required. A laboratory fee is required for this course. (Summer, Fall, Spring)

604. Speech Science and Perception. Credit 3 hours. Prerequisite: Admission to the master's program or permission of the Department Head. A study of the production, transmission, and perception of speech signals; anatomy, physiology, phonetics, acoustic, psychoacoustics, and acoustic cues. Laboratory experience and clinical applications will be included. (Varies)

606. Neurophysiological Bases of Human Communication. Credit 3 hours. Prerequisite: Admission to the master's program or permission of the Department Head. Advanced principles in anatomy and physiology of the nervous system will be reviewed with an emphasis on usage in medical speech-language pathology. (Fall, Spring)

607. Seminar in Audiology. Credit 3 hours. Prerequisites: CSD 201 and admission to the master's program, or permission of the Department Head. The course is designed to provide students with an understanding of audiology specific to the scope and practice of speech language pathology. Diagnosis and management of hearing loss will be discussed, with a focus on acoustics, clinical procedures, and the impact of hearing loss on speech, language, and communication. (Fall, Spring)

608. Craniofacial Anomalies. Credit 3 hours. Prerequisite: Regular Admission to the CSD graduate program or permission of the Department Head. A study of craniofacial anomalies as they affect speech production. Assessment and management will be studied within the context of a team approach. (Varies)

609. Independent Research in Communication Sciences and Disorders. Credit 3 hours. Students will design, carry out, and write, in journal style, a research project with guidance of the instructor. (Varies)

610. Phonological Processes and Disorders. Credit 3 hours. The course presents an in-depth study of the phonological component of the linguistic system with an emphasis on the assessment and treatment of phonological disorders in children. (Varies)

611. Intermediate Clinical Practicum in Communication Disorders. Credit 1-6 hours. May be repeated for credit. Prerequisites: CSD 510, 617, 100 clinical hours, and in good academic standing, or permission of Department Head. Designed for students at an intermediate level of clinical competency and who are seeking licensure and/or certification as speech-language pathologists. Students acquire additional skills in therapeutic and assessment processes and the writing of various types of professional reports. Emphasis is on children with communication disorders. Attendance at clinical staffing is required. A laboratory fee is required for this course. (Summer, Fall, Spring)

612. Instrumentation in Hearing, Speech and Voice. Credit 3 hours. Principles for applying instruments in the field of speech and hearing with an emphasis on clinical approaches to speech and hearing pathologies. A survey of the principal equipment and instrumentation which will be available to speech pathologists and audiologists in their professional activities within a variety of settings. (Varies)

613. Motor Speech Disorders. Credit 3 hours. Prerequisite: CSD 606. Advanced survey of perceptual and physio-acoustic dimensions of dysarthria and apraxia. The course will include in-depth training in differential diagnosis of each of these disorders. In addition, applications for treatment will be addressed. (Fall, Spring)

614. Dysphagia. Credit 3 hours. Prerequisite: CSD 606 or permission of the Department Head. The study of swallowing disorders in all age groups from newborns to the elderly that result from a variety of medical conditions. An in-depth review of the literature will include pre-feeding skills of infants as well as the disorders of deglutition and aging. Students will learn to evaluate radiographic examinations and make recommendations for therapy to be carried out by a team of experts that could include physicians, nurses, caregivers, occupational and physical therapists and nutritionists. (Fall, Spring)

615. Structure and Processing of Language. Credit 3 hours. Prerequisite: Admission to the master's program or permission of the Department Head. This introductory survey will examine the structural properties of language (both universal and language-specific) in relation to the diagnosis and treatment of language and articulation disorders. The course will cover the core areas of phonetics, phonology, morphology, syntax, semantics, and pragmatics, along with psycholinguistic and sociolinguistic perspectives. Rudimentary training in the computerized analysis of language data will be included. (Varies)

616. Language and Literacy. Credit 3 hours. The course emphasizes the interactive processes of language and literacy. Factors affecting the acquisition and development of literacy will be reviewed. Training in assessment procedures and intervention techniques for individuals with language-learning disorders will be stressed. (Fall, Spring)

617. Advanced Diagnosis of Communicative Disorders. Credit 3 hours. Prerequisites: CSD 606 and 624 or permission of the Department Head. Advanced instruction in the theory, methods and current research in diagnosis of communication disorders. Clinical assignment(s) is/are a component of the class. (Fall, Spring)

618. Augmentative and Alternative Communication Intervention. Credit 3 hours. Prerequisite: CSD 451/551 or permission of the Department Head. The course emphasizes intervention for individuals in need of augmentative or alternate communication (AAC) systems. Intervention includes the processes of assessment and program development for individuals with severe communication disorders. Variables that affect the development and implementation of AAC systems in various service delivery settings will be a major component of the course. (Varies)

619. Bilingualism. Credit 3 hours. This introduction to bilingualism will focus primarily on children. Bilingualism will be viewed from social, psychological and linguistic perspectives; both advantages and potential problems associated with bilingualism will be considered. Specific analysis will be devoted to the acquisition, use and loss of two languages. (Varies)

621. Principles of Communication Sciences and Disorders. Credit 3 hours. The course presents an advanced study of concepts and methods in the field of communication disorders. (Varies)

622. Speech Disorders. Credit 3 hours. Prerequisite: CSD 604 or consent of the Department Head. This course provides a detailed examination of the etiology, characteristics, assessment and intervention for articulation, fluency, voice and resonance disorders. (Varies)

623. Special Topics in Communication Sciences and Disorders. Credit 1-3 hours. Prerequisite: Permission of the Department Head. Selected topics in the field of communication sciences and disorders will be presented. Current issues and trends as well as traditional practices will be explored. May be repeated for a total of six hours credit. (Summer, Fall, Spring)

624. Advanced Seminar in Language Disorders and Differences. Credit 3 hours. Prerequisite: Admission to the Master's program or permission of the Department Head. This course provides an expanded view of normal language development with an emphasis on cross-cultural comparison and contrast. Developmental and acquired language disorders will be differentially examined. Best practices for non-biased assessment, clinical intervention, and the ethical support of linguistically/culturally diverse populations will be explored. (Varies)

626. Autism Spectrum Disorders. Credit 3 hours. A study of the nature of autism, including current thinking relative to etiology, cognition, and various behavioral aspects, with emphasis on communication and socialization. Practical applications for assessment and intervention will be highlighted. (Varies)

627. Neuropathologies of Communication. Credit 3 hours. Prerequisite: CSD 606. Advanced survey exploring a variety of developmental and acquired neurogenic communication disorders, including cerebral palsy, dementia, right hemisphere syndrome and traumatic brain injury. Emphasis is on such clinical applications as dynamic assessment, differential diagnosis, and approaches to intervention. (Varies)

628. Language Intervention for Infants and Toddlers. Credit 3 hours. This course is a concentrated study of current models of language intervention with infants and toddlers. Topics will include a review of the normal prelinguistic and early linguistic periods, etiological issues, and dynamic assessment procedures designed for very young children. Practical applications for intervention will be emphasized throughout. (Fall, Spring)

629. Advanced Clinical Methods for Communication Disorders. Credit 3 hours. Prerequisite: Admission to the master's program. This course provides an extensive review of the methods of outcomes assessment and intervention for people with various types and severities of communication disorders. Emphasis is placed on evidence-based clinical practice and an oral and written communication skills necessary for effective professional practice. (Varies)

630. Advanced Specialty Clinical Practicum in Communication Disorders. Credit 1-6 hours. May be repeated for credit. Prerequisites: CSD 611 and/or CSD 603, more than 200 clinical hours and in good academic standing, or permission of the Department Head. Designed for students seeking licensure and/or certification as speech language pathologists and who are performing at an advanced level of clinical competency. Students administer assessments, write treatment plans, plan and implement therapeutic procedures. Emphasis is on children and/or adults with communication disorders. Attendance at clinical staffing is required. A laboratory fee is required for this course. (Summer, Fall, Spring)

631. Counseling in Communication Disorders. Credit 3 hours. Prerequisite: CSD Major or permission of Department Head. The course emphasizes active listening and interpersonal communication principles and counseling approaches that are within the scope of practice in speech-language pathology and audiology to guide decision-making by individuals with communication disorders and their families. (Varies)

632. Seminar in Voice and Resonance. Credit 3 hours. Prerequisites: CSD 606 and 607, or permission of Department Head. A study of the etiologies, characteristics, assessment strategies, and treatment procedures associated with disorders of voice and resonance in pediatric and adult populations. (Fall, Spring)

633. Seminar in Fluency. Credit 3 hours. A study of the etiologies, characteristics, assessment strategies, and treatment procedures associated with disorders of fluency in pediatric and adult populations. (Fall, Spring)

634. Developmental and Acquired Cognitive-Communication Disorders. Credit 3 hours. Prerequisite: CSD 606. Advanced survey exploring a variety of developmental and acquired neurogenic communication disorders, including intellectual disabilities, dementia, right hemisphere syndrome and traumatic brain injury. Emphasis on prevention, formal and informal assessment, differential diagnosis, and approaches to evidence-based interventions. (Fall, Spring)

687. Research Methods in Communication Sciences & Disorders. Credit 3 hours. Principles, procedures, and techniques of research with an intensive survey of scientific investigations in communication sciences and disorders and related fields. Emphasis on practical application for clinicians. (Fall, Spring)

770. Thesis. Credit 1-6 hours each semester, with six (6) hours needed for graduation. The student must enroll in the thesis course each semester the thesis is in progress. The thesis is graded Pass/Fail. (Varies)

Computer Science (CMPS)

101. Introduction to Computer Science. Credit 3 hours. Introduction to the major areas of computer science including operating systems, machine architecture, programming languages, data representation and storage, and algorithm development. Includes major emphasis in problem solving and simple programming concepts. (Summer, Fall, Spring)

105. Computers in Society. Credit 3 hours. Topics include historical, modern, and future developments, as well as an overview of a computer system's hardware, software and people. Issues concerning security, privacy, and ethics will be discussed. Includes practical application of using communication software networks, including the Internet and the World Wide Web. (Summer, Fall, Spring)

110. Computer Fluency. Credit 3 hours. An introduction to modern computer hardware and software. Software includes an operating system, human-computer interaction, networking and the web, word processing, and electronic spreadsheets. Credit toward the degree will not be granted for both CMPS 110 and MGMT 210. (Summer, Fall, Spring)

120. Visual Programming. Credit 3 hours. Prerequisite: Registration in or prior credit for MATH 161 or 175. An introduction to visual programming using a modern, visual programming language. Topics to include programming fundamentals such as variables, looping, and arrays, as well as graphical user interface (GUI) design and event-driven programming. (Summer, Fall, Spring)

121. Principles of Cybersecurity. Credit 3 hours. An introduction to the basics of modern cybersecurity at the individual and organizational level. This course will explore modern best practices, technologies and threats in the field. Past breaches will be examined to determine how they happened, how those breaches were managed by the individual or organization, and how such breaches can be prevented. (Varies)

152. Introduction to Programming for Scientists. Credit 3 hours. Prerequisite: MATH 161 or permission of the Department Head. An introductory programming course designed for technology, mathematics, natural science, and life science majors. Topics include problem solving, algorithms development, and library usage as applied to scientific applications. (Fall)

161. Algorithm Design and Implementation I. Credit 3 hours. Prerequisite: Eligibility to enroll in MATH 161, or permission of the Department Head. Basic concepts of computer programming, problem solving, algorithm development, and program coding using a high-level, block-structured language. Credit may be given for both CMPS 110 and 161. (Summer, Fall, Spring)

173. Software for Management of Data. Credit 3 hours. Prerequisite: MATH 161 or permission of the Department Head. Concepts of acquisition, organization, exchange and storage of quantitative data through the use of visual languages and packages. (Summer, Fall, Spring)

204. Fundamentals of Information Technologies and Systems. Credit 3 hours. Survey course to provide a foundation for understanding Computer Information Technology. Coverage of the fundamentals of information system and information technology concepts, strategies and skills. (Summer, Fall, Spring)

209. Introduction to Applied Networking. Credit 3 hours. An introduction to networking from an applied perspective. Includes configuration and physical setup of both wired and wireless local area networks using popular platforms. Also covers client/server basics. File and printer sharing, and basic network security settings. (Summer, Fall, Spring)

210. Social Software. Credit 3 hours. An application-based introduction to development of Social Software. Blogs, microblogs, podcasting, social networking and related issues will be examined. Emphasis will be on gaining hands-on experience in the use of content authoring tools. (Fall)

225. Advanced Spreadsheets, Programming and Applications. Credit 3 hours. Use of software to perform data analysis, graphing, macros, datasets, financial, and specialized functions. (Summer, Fall, Spring)

233. Desk Top Publishing. Credit 3 hours. Topics include assembling, and design of document, fonts, art layout, photos, black and white images, shading, colors, graphics, using microcomputers, scanners, and other peripheral devices. (Summer, Fall, Spring)

234. An Introduction to Applications of Database Management Systems. Credit 3 hours. A course covering relational database basic structure, method of design, implementation and manipulation. Student will design and implement a major database project using a production version database management system. (Summer, Fall, Spring)

235. Website Design and Construction. Credit 3 hours. Design and construction of websites using modern website design software tools. Includes tools for creation of HTML/XHTML, visual elements and inclusion of turn-key interactive and dynamic components. Also covers selection and use of typical website hosting services. (Summer, Fall, Spring)

257. Discrete Structures. Credit 3 hours. Prerequisites: CMPS 161 and MATH 161 or 175. Introduction to discrete structures of computing. Topics include sets, relations, functions, digraphs, matrices, recursion, partially ordered sets, Boolean Algebra, artificial languages, and finite state machines. (Summer, Fall, Spring)

273. Software for Storing and Analyzing Data. Credit 3 hours. Prerequisites: MATH 175 or 241 and CMPS 173 or permission of the Department Head. Topics include methods for designing database schema and spreadsheet programs based on quantitative data analysis requirements; implementation of spreadsheet programs and database schema using integrated methodologies with visual languages and software packages. (Summer, Fall, Spring)

280. Algorithm Design and Implementation II. Credit 3 hours. Prerequisite: CMPS 161 and eligibility to enroll in MATH 175. An intensive capstone of the material covered in CMPS 161 and an introduction to elementary data structures, searches and complex sorts, and objects. (Summer, Fall, Spring)

285. Software Engineering. Credit 3 hours. Prerequisite: CMPS 280 or SC 200 or permission of the Department Head. Introduction of the methods used for specifying, designing, implementing, and testing medium and large-scale software systems; methods for organizing and managing software development projects; professionalism and ethical responsibilities in software development. (Summer, Fall, Spring)

290. Computer Organization. Credit 3 hours. Prerequisite: CMPS 280 or ET 212. An introduction to the structure and function of computing machines. The primary components of the computer are examined from an organizational and logical standpoint. Topics include introduction to digital systems; machine level representation of data; assembly level machine organization; memory system organization and architectures; and introduction to language translation. Credit toward the degree will not be granted for both CMPS 290 and 293. (Summer, Fall, Spring)

293. Introduction to Assembly Language. Credit 3 hours. Prerequisite: CMPS 120 or CMPS 280 or ET 212. Fundamentals of assembly language programming. Topics include machine representation of data, fixed point, floating point, and decimal arithmetic, macros, address modification, bit manipulation, and subroutine linkage. Credit toward the degree will not be granted for both CMPS 290 and 293. (Summer, Fall, Spring)

294. Internet Programming. Credit 3 hours. Prerequisite: CMPS 280 or ET 221. This course concerns the art and science of programming for WWW Internet applications from a client-side perspective. Basic and advanced HTML will be covered, with emphasis on current scripting technologies. (Spring)

295. Special Problems. Credit 1-3 hours. Prerequisite: CMPS 110 or equivalent. Independent investigation and application of computing software that is not covered in existing courses. May be repeated for up to 3 hours credit. (Varies)

297. Digital Logic. Credit 3 hours. Principles of digital logic, to include gates, combinational circuits, flip-flops, registers, counters, timers, memory, buses, input/output interfaces and microprocessors. (Fall)

315. System Administration. Credit 3 hours. Prerequisite: CMPS 285. This course teaches skills and concepts that are essential to the administration of operation systems, networks, software, various computing support systems, and system documentation, policies, and procedures. This also includes education and support of the users of these systems. (Fall)

321. Embedded Computing with Microcontroller and IOT based Systems. Credit 3 hours. Prerequisite: CMPS 290 or 293 or ET 215 or permission of Department Head. An introduction to embedded computing covering various types of microcontrollers; IOT: Internet-of-Things; IOT devices as servers and appropriate server-side programming and administration; IOT system design and interfacing. (Varies)

329. Computer Networking and Security. Credit 3 hours. Prerequisite: CMPS 290 or 293 or ET 215. Topics include protocols used in local area and wide area networks, network administration, and the conceptual and technical aspects of computer security and information assurance, especially as it impacts computer networks and the Internet. (Spring)

333. Advanced Desktop Publishing and Multimedia. Credit 3 hours. Prerequisite: Registration in or prior credit for CMPS 290 or CMPS 293. Students will develop various informative and promotional materials. Emphasis will be on independent work, and developing concepts with outside clients when possible. Projects will include work with traditional print media as well as digital media. Credit toward the degree will not be granted for Computer Science majors. (Spring)

335. Advanced Web Publishing. Credit 3 hours. Prerequisites: CMPS 235 and one introductory programming course or permission of the Department Head. Topics include using a variety of markup languages and scripting techniques for both server and client WWW applications. (Fall, Spring)

339. Database Administration. Credit 3 hours. Prerequisite: CMPS 280 or SC 200. A hands-on comprehensive study of database administration and applications to include selecting, installing, configuring, tuning, maintaining, and reviewing modern database systems. (Fall)

340. Introduction to Data Science. Credit 3 hours. Prerequisites: CMPS 280 or SC 200 and eligibility to enroll in MATH 200, or permission of Department Head. Topics include basics of programming for data science, data science libraries, random variables, descriptive statistics, basic linear algebra, scaling and plotting data, model assessment, introduction to supervised and unsupervised learning. (Summer, Fall, Spring)

355. Object-Oriented Programming. Credit 3 hours. Prerequisite: CMPS 280. Introduction to the Object-Oriented Paradigm, including data abstraction, encapsulation, polymorphism, inheritance, and garbage collection. Implementation of these concepts using an Object-Oriented language. (Varies)

375. Computer Architecture. Credit 3 hours. Prerequisite: CMPS 280 or ET 215. Hardware organization and implementation of computer architecture. Instruction set considerations and addressing modes. System control concepts. CPU control, microprogramming, I/O interface and memory organization. Parallel and data flow architecture. (Spring)

383. Information Systems. Credit 3 hours. Prerequisite: CMPS 285. A study of file organization and management, analysis of the concept of information systems, approaches and techniques for evaluating information systems. Fourth generation languages will be explored. (Spring)

389. Computer Graphics. Credit 3 hours. Prerequisites: MATH 200 and CMPS 280. Introduction and techniques of computer graphics. Topics include interactive versus passive graphics, input-output devices, and programming techniques suitable for the visual representation of data and images. (Odd Year Spring Semesters)

390. Data Structures. Credit 3 hours. Prerequisites: CMPS 280 or SC 200. Further study of trees, including: balanced trees, B-trees, 2-3 trees, and tries; external sorting, symbol tables, and file structures. (Summer, Fall, Spring)

391. Numerical Methods. Credit 3 hours. Prerequisites: CMPS 280 and MATH 201. Computer-oriented numerical methods for scientific problems. Topics include error analysis, Taylor series, solutions of equations, linear simultaneous equations, and interpolation. (Even Year Fall Semesters)

394. Web Systems and Technologies. Credit 3 hours. Prerequisite: CMPS 294. This course covers the setup and management of important web-based services, server-supported programming technologies, and some other host-management issues such as user support, security, staffing, and purchasing. (Even Year Fall Semesters)

398. Cloud Software Applications Development. Credit 3 hours. Prerequisites: CMPS 285 and CMPS 390. A hands-on, comprehensive study of Cloud concepts and capabilities across the various Cloud service models including infrastructure as a Service (IaaS), Platform as a Service (PaaS), Software as a Service (SaaS), and Business Process as a Service (BPaaS). IaaS topics start with a detailed study the evolution of

infrastructure migration approaches from VMWare/Xen/KVM virtualization, to adaptive virtualization, and Cloud Computing / on-demand resources provisioning. Mainstream Cloud infrastructure services and related vendor solutions are also covered in detail. (Varies)

400. Internship. Credit 1-6 hours. Prerequisites: CMPS 390 and permission of the Department Head. Student must be an integral part of a software project team in industry during the semester. Graded as Pass/Fail only. Can be counted as a general elective only, not as a Computer Science Elective (300-400). May be taken more than once for up to 6 credit hours. (Varies)

401. Survey of Programming Languages. Credit 3 hours. Prerequisite: CMPS 390. Involves the formal study of programming languages, specification, and analysis in terms of data types and structures. (Fall)

408. Ethical Hacking. Credit 3 hours. Prerequisite: CMPS 329. An introduction to the techniques of modern ethical hacking. This course will explore how an offensive mindset to network security can be leveraged to provide effective defenses for current network environments. This course will include the tools and techniques of penetration testing, social engineering, system hacking and evasion. The legal, ethical, and policy implications will be examined as well. (Varies)

409. Advanced Computer Networking. Credit 3 hours. Prerequisite: CMPS 329. Topics include security, optimization, custom modules, protocols, information flow management, disaster recovery, wireless applications, and legal and ethical issues. (Fall)

411. Capstone I. Credit 3 hours. Prerequisite: CMPS 390. This course must be taken in the academic year in which the student intends to graduate. Through participation in a major capstone project, this course presents a formal approach to the top-down design, development, and maintenance of software systems. Topics include organization and management of software projects, security, programmer teams, validation and verification. (Fall, Spring)

412. Capstone II. Credit 3 hrs. Prerequisite: CMPS 411. This course provides for direction to students wishing to extend a completed capstone experience from CMPS 411. Students are expected to make a substantial change or improvement that extends their basic capstone experience. (Varies)

415. Integrated Technologies for Enterprise Systems. Credit 3 hours. Prerequisite: CMPS 390. This course provides an introduction to several current technologies, and how they can be used to integrate software solutions into a functional large interconnected system. The course will focus on contemporary technologies used for enterprise software development. (Spring)

420. Human Computer Interaction. Credit 3 hours. Prerequisite: CMPS 390. Designing, implementing, and evaluating computer systems. Task analysis, prototyping, usability evaluation, dialogue specification, interaction styles and techniques, human factors, virtual reality, multimedia, and hypermedia systems. (Fall)

431. Operating Systems. Credit 3 hours. Prerequisites: CMPS 390 and registration in or prior credit for CMPS 375. Design and implementation of operating systems. Topics include process management, processor management, memory management, device management, file management, process synchronization and inter-process communication, and user interface. Other issues such as distributed computing and system performance may be discussed. (Fall, Spring, Summer)

434/534. Fundamental Algorithms. Credit 3 hours. Prerequisites: CMPS 257 or MATH 223, and CMPS 390. The design, implementation, and complexity of algorithms analysis. (Fall)

439/539. Database Systems. Credit 3 hours. Prerequisite: CMPS 340 or 390. Design and implementation of database systems. Topics include hierarchical, relational, and network models, normalization of relations, data integrity and security, and database administration. A programming project using a relational DBMS is required. (Spring)

441. Artificial Intelligence. Credit 3 hours. Prerequisite: CMPS 340. Introduction to intelligent processes and their performance by a computer. Topics include computer representation of knowledge, problem solving, game playing, knowledge and reasoning, and natural language. (Varies)

443/543. Simulation and Modeling. Credit 3 hours. Prerequisites: CMPS 390 and MATH 380. Construction and use of computer and mathematical models, parameter estimation, simulation techniques, applications of simulation, examples, and cases and studies taken from physical, social and life sciences, engineering, business and information sciences. (Even Year Fall Semesters)

447. Introduction to Robotics. Credit 3 hours. Prerequisite: CMPS 280. An introduction to robotics including the history of robots, the sense-plan-act paradigm, any-time learning systems, and the three-layer architecture. The class will emphasize concepts and practical application of robotics. (Even Year Fall Semesters)

450/550. Spatial Database and Applications. Credit 3 hours. Prerequisite: CMPS 390. Topics include introduction to GIS, map projections and coordinate systems, spatial data structures, data entry, spatial database management, spatial analysis, remote sensing, GPS and GIS, Internet GIS, and GIS scientific applications. (Odd Year Fall Semesters)

451/551. Data Mining. Credit 3 hours. Prerequisite: CMPS 340 or permission of Department Head. Topics include need for data mining, preparing data, data exploration tools, basics of classification, association rule mining, similarity measures, and cluster analysis. A programming project that utilizes a data mining library is required. (Fall)

455/555. Computational Aspects of Game Programming. Credit 3 hours. Prerequisites: MATH 175 and CMPS 280. This course will investigate computational aspects of game programming, and students completing the course will have sufficient technical background, well founded in science, to be able to successfully develop computer video games. Topics covered include coordinate systems, geometric elements, transformations, hyperspace, numerical analysis, rendering, graphics, lighting, code optimization, and other system design and programming issues related to game programming. (Varies)

458/558. Expert Systems. Credit 3 hours. Prerequisite: CMPS 340. An introduction to expert systems. Topics include artificial intelligence techniques for Expert Systems, knowledge bases, knowledge representation, inference engines, system shells, natural language processing, heuristic techniques, rule-based systems, and meta level languages. (Varies)

460. Design and Implementation of Neural Networks. Credit 3 hours. Prerequisites: CMPS 340 and MATH 200. An introduction to neural networks. Topics include connections, processing elements, n-dimensional geometry, self-adaptive equations, data transformation structures, mapping networks, and neurocomputing applications. (Varies)

470/570. Machine Learning. Credit 3 hours. Prerequisites: CMPS 340 or MATH 241 or MATH 380 or permission of Department Head. Topics include preprocessing, model assessment and regression, K-NN, neural networks, decision trees, support vector machines, and basics of statistical learning. A programming project that utilizes a machine learning library is required. (Spring)

473/573. Introduction to Computer Vision. Credit 3 hours. Prerequisites: CMPS 340 and MATH 200 or permission of Department Head. Topics include formation of images, image features, color spaces, image operators, mathematical morphology for images, digital signal processing, and image segmentation. (Spring)

479. Automata and Formal Languages. Credit 3 hours. Prerequisites: CMPS 257 or MATH 223 and senior standing. Introduction to computing device capabilities through study of abstract machines and corresponding formal languages. Topics include Turing machines, recursion, Chomsky grammars, context-free languages, regular languages, and finite automata. (Spring)

481. Seminar. Credit 1 hour. Prerequisite: Senior Classification. Discussion of social, ethical, and professional issues. Students present reports on topics of current interest in Computer Science. (Varies)

482. Current Trends in Computer Science. Credit: 3 hours. Prerequisites: Senior Classification and registration in or prior credit for CMPS 411. Topics include computer and information ethics, social implications of technology, current trends in computer science and information technology applications and development, professional issues, and emerging trends and current topics in computer science research. (Summer, Fall, Spring)

491/591. Special Topics. Credit 1-3 hours. Prerequisite: Permission of Department Head. Special topics in computer science that are appropriate for major electives in the Scientific and Data Science concentrations. Any combination of 491/591, 493/593, and 494/594 may be taken for up to 9 hours of credit, provided that the specific topics are different. (Varies)

493/593. Special Topics in Computer Science Theory. Credit 1-3 hours. Prerequisite: Permission of the Department Head. Special topics in computer science that are appropriate for a Theory elective in the Information Technology concentration. Any combination of 491/591, 493/593, and 494/594 may be taken for up to 9 hours of credit, provided that the specific topics are different. (Varies)

494/594. Special Topics in Information Technology. Credit 1-3 hours. Prerequisite: Permission of the Department Head. Special topics in computer science that are appropriate for an Information Technology elective in the Information Technology concentration. Any combination of 491/591, 493/593, and 494/594 may be taken for up to 9 hours of credit, provided that the specific topics are different. (Varies)

495/595. Special Problems. Credit 1-3 hours. Prerequisite: Permission of Department Head. Permits work by students on special projects in Computer Science. May be taken more than once for credit.

580. Advanced Networking and System Administration Principles. Credit 3 hours. Prerequisite: Graduate standing or permission of the Department Head. This course examines system administration and networking topics and technologies that serve as the basis for later course work in both areas. Topics covered include: the role of the system administrator in an organization, determining the needs of an organization, the ethical and legal considerations that must be made, networking principles related to maintaining a complex network and computer system, user privileges, and managing operations. (Varies)

609. Network Design and Performance. Credit 3 hours. Prerequisite: Graduate standing or permission of the Department Head. This course will examine the design and performance of networks. Students will learn to design networks based on identified needs and analyze the performance of that network. The designs include site, campus, and enterprise networks. WAN technologies will be combined with LAN technologies in the design of enterprise networks. Students will learn to assess the business goals and their application to the network goals. Students will learn to evaluate the security goals of the network and to integrate these goals in the design. (Varies)

615. Enterprise Computing. Credit 3 hours. Prerequisite: Graduate standing or permission of the Department Head. This course explores enterprise systems (clouds, server farms, etc.) from the environment, networking, storage, security, and system administration perspectives. Students in this course gain an understanding of the knowledge and concepts needed to manage and administrate those enterprise systems. (Varies)

616. Advanced System Administration Concepts. Credit 3 hours. Prerequisite: Graduate standing or permission of the Department Head. This course examines the role of the system administrator and their duties. Topics include: determining an organization's computing and networking needs, evaluating and optimizing performance, user provisioning, managing an organization's servers, desktop, and mobile equipment. (Varies)

620. Advanced Networking Concepts. Credit 3 hours. Prerequisite: Graduate standing or permission of the Department Head. This course will cover the principles of both wired and wireless networking with a focus on algorithms, protocols and implementation with a focus on advanced networking concepts. The course will begin with in-depth background in architecture and protocols at physical, MAC, IP, and transport layers. Also, theoretical aspects of network challenges are discussed with a research focus. The course also explores the realm of technologies such as peer-to-peer networks, future internet, real-time applications, smart grid and IPv4 and IPv6 integration and translation. Students will learn about these technologies through lectures and explore some of them through class projects and exercises. (Varies)

621. Cybersecurity Policy and Infrastructure. Credit 3 hours. An in-depth look into the issues and strategies that are involved in the establishment and enforcement of cybersecurity infrastructure and policy. Course topics include: Governance, Compliance, Risk Management, Strategy and Implementation. The focus of these topics will center both on the organizational effectiveness concerns and ethical issues involved. (Varies)

626. Industrial Applications for Data Science. Credit 3 hours. Prerequisite: CMPS 340 or permission of Department Head. This course aims to provide a practical hardware component for data science and a view into the infrastructure that facilitates data science practical application in the field. The main learning focus is on data acquisition, manipulation, and storage. The collection and pre-processing of data using sensors and microcontrollers is emphasized. Topics include Data acquisition methods and hardware, types of sensors, A/D and D/A conversion, microcontrollers (Raspberry-pi) and the GPIO, scientific computation environment, remotely accessing the GPIO via HTTP, data transmission and storage, data processing methods. (Varies)

631. Network Modeling and Analysis. Credit 3 hours. Prerequisite: Graduate standing or permission of the Department Head. The course provides comprehensive exposition of the core concepts in network modeling and simulation. It will cover both graph theoretical and statistical models of complex networks such as the Internet and social networks. It also introduces different types of modeling techniques and simulation tools. The course also systematically addresses some practical and theoretical consideration for developing complex modeling. It offers real world examples to illustrate the process of modeling to address specific problems. (Varies)

632. Network Management. Credit 3 hours. Prerequisite: Graduate standing or permission of the Department Head. This course introduces network management concepts with hands-on laboratory exercises in developing network management applications and using it to study and analyze the performance of networks, data communications hardware and software, and use of these components in computer networks. Topics include, but are not limited to, introduction to network management, performance management, accounting management and security management; introduction to SNMP and its versions; remote monitoring and different network management architectures. (Varies)

635. Applications of Cyber Defense and Cryptography. Credit 3 hours. Prerequisite: Graduate standing or permission of the Department Head. This course provides a look at theoretical and practical approaches to firewalls, intrusion detection systems, and cryptography. In addition to technical approaches, this course contextualizes cybersecurity threats and responses in national and international law while recognizing the limits of current law, the need for further policy evolution, the real-world impacts of different legal and policy options, and ethics. Topics include: configuration, implementation, rule creation, and filtering for firewalls and intrusion detection systems, classical and contemporary ciphers, cryptographic protocols, applications of cryptography, and hardware/software fault tolerance. (Varies)

650. Advanced Large-Scale Computing. Credit 3 hours. Prerequisite: Graduate standing or permission of the Department Head. This course explores in-depth, large-scale systems (mainframes, clusters/grids) from an advanced perspective in the environment, networking, storage, security, and system administration. Students in this course gain the ability needed to design, justify and administer those large-scale systems. (Varies)

651. Emerging Computing and Networking Technologies. Credit 3 hours. Prerequisite: Graduate standing or permission of the Department Head. Students will research the current state of the most significant emerging technologies. The course will consist of a combination of lectures where technologies will be presented and explained; independent labs, modeling and simulation exercises that will reinforce the

students' understanding of the technologies by allowing them to work with them in a hands-on fashion, and independent literature research to serve as a foundation for future work in this degree program. (Varies)

652. Advanced Storage Technologies. Credit 3 hours. Prerequisite: Graduate standing or permission of the Department Head. This course explores the spectrum of storage technologies ranging from DAS to JBODS to SANs. Media types including Ramdisk, Flash, SSD, magnetic, optical, and other emerging technologies will be investigated. The issues to be faced as systems grow to enterprise scale will also be addressed. Features of local, distributed, and networked storage including SANs will be introduced as well as issues such as capacity planning, virtualization, decentralized storage, security, crash recovery and load balancing, and maintenance of support of high-performance systems. (Varies)

672. Deep Learning. Credit 3 hours. Prerequisite: CMPS 340 or permission of Department Head. This course treats the topic of machine learning to generalize patterns extracted in collected data, and thus perform automated tasks of prediction, classification, sequence learning utilizing different learning frameworks of supervised or unsupervised algorithms, attention models, and sequence modelling. Topics include regression, Neural Networks, optimization basics, Recurrent Neural Networks, Long/Short Term Memory, Convolutional Neural Networks and advanced deep learning models such as Autoencoders, Generative Adversarial Networks, and Residual Networks. (Varies)

685. Software Engineering for Data Science. Credit 3 hours. Prerequisites: CMPS 340 and 390. Topics include project management, software disciplines (requirements, analysis, design, implementation, testing), application of Software Engineering in Data Science including Python Enhancement Proposal process, cloud-based software application development, software application development for big data systems. Students work in teams to develop a significant software system related to data science. (Varies)

689. Managing the Software Project Lifecycle. Credit 3 hours. An in-depth look into software project management as objectives, a defined software life cycle, cost and performance outcomes. Content focuses on managerial tasks required at various stages of the software development life cycle with the corresponding level of effort as well as the computer-aided software engineering tools necessary to perform the tasks. The SCRUM development methodology will be explored in depth. (Varies)

690. IoT for Data Science. Credit 3 hours. Prerequisite: CMPS 409 or permission of Department Head. Topics include network protocols, IoT architectures, sensor networks, edge, fog and mobile computing, IoT security, IoT applications and use cases. (Varies)

691. Advanced Special Topics. Credit 1-3 hours. Prerequisite: Permission of Department Head. Special topics in advanced computer science that are appropriate for graduate students with a computer science background. May be taken multiple times, provided that the specific topics are different. (Varies)

711. Computer Science Capstone. Credit 3 hours. Prerequisite: Graduate standing or permission of the Department Head. To provide exposure to a specific area within Computer and Network Security, semester-long projects are designed allowing students to gain real-world experiences at a level appropriate to graduate study. Projects must focus on the area of computer and network security and require the application of sound project management principles in order to be developed on time, on budget, and on specification. This course takes students through the nine knowledge areas of modern project management and the utilization of project management principles in both traditional and agile environments. (Varies)

770. Thesis. Credit 1-6 hours. Prerequisite: Graduate standing or permission of the Department Head. The student must enroll in the thesis course each semester the thesis is in progress. The thesis is graded Pass/Fail. A formal treatise presenting the results of study submitted in partial fulfillment of the requirements for the applicable degree. The process requires one-on-one interaction between the candidate and professor with more limited interaction between and among the candidate and other members of the committee. (Varies)

Construction Technology (CTEC)

101. Construction Industry Systems. Credit 3 hours. A study of construction systems providing an understanding of how construction impacts life, socially and professionally. Industry fundamentals through analysis of architectural and engineering plans, specifications, and documents used in the planning, bidding, pre-construction, construction, and closeout phases of a typical construction project. (Fall, Spring)

111. Construction Graphics. Credit 3 hours. An introduction to construction graphics the reading of blueprints; covering types of construction, specifications, site work, structural steel construction, reinforced concrete construction, mechanical and electrical systems, and finish construction. (Varies)

121. Construction Materials. Credit 3 hours. Prerequisite: CTEC 111. An introduction to construction principles, materials, and methods in the construction industry, graphics covering site work, concrete, masonry, metals, wood, plastic, doors and windows, and finishes. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall)

171. Survey Principles. Credit 3 hours. Prerequisites: CTEC 111 and IT 111. Theories and principles of traditional and state-of-the-art techniques in surveying as applied to the construction industry. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Spring)

201. Project Management. Credit 3 hours. Prerequisite: CTEC 101. An introduction to project management: covering human relations, labor law and relations, problem solving and decision making, construction planning, project scheduling, and quality control. (Varies)

202. Project Supervision. Credit 3 hours. Prerequisite: CTEC 121. An introduction to project supervision: covering orientation to the job, construction documents and documentation, cost awareness and control, resource control, and safety. (Varies)

203. Computer Planning and Scheduling. Credit 3 hours. Prerequisites: Credit for or enrollment in CTEC 202 and 271. Analysis and application of scheduling techniques. The use of critical path method (CPM), program evaluation and review (PERT), and PRIMAVERA. (Spring)

271. Construction Estimating I. Credit 3 hours. Prerequisite: CTEC 121. An introduction to residential construction estimating: covering construction estimating, productivity records, cost accounting, project owner's estimate, pre-construction design estimates, detailed construction estimate, quantity surveying, how to determine direct cost for the project, and integrating estimating with project planning and control. (Spring)

Counseling (COUN)

600. Research Methods and Designs. Credit 3 hours. Prerequisite: Admission to the Counseling Program or permission of Department Head. Principles and foundations of designing and conducting research are examined. Major topics covered in the course include basic statistics, types of research, literature reviews, needs assessment, program evaluation, and legal and ethical considerations regarding research. Students are required to conceptualize, design, and complete a behavioral research project. (Fall, Spring)

601. Legal, Ethical, and Professional Issues. Credit 3 hours. Prerequisite: Admission to Counseling Program. Presents current legal, ethical, and professional information necessary for competent professional practice in the mental health field. The course includes an overview of the historical and current societal context of professional practice in counseling, marriage and family therapy, and related fields. The course will assist students in developing a work plan, referral guide, credential file, declaration statement, and curriculum vitae specific to their work setting and area of professional concentration. (Summer, Fall, Spring)

- 603. Counseling Theory.** Credit 3 hours. Prerequisite: Admission to Counseling Program. Major theories and approaches to counseling are analyzed along with the essentials of counseling and therapeutic processes and the nature of the counseling relationship. Skill building through dyadic exercises and feedback is included. (Summer, Fall, Spring)
- 604. Group Process.** Credit 3 hours. Prerequisites: COUN 601, 603, and 605. Major approaches to group dynamics and counseling, including theoretical assumptions and basic principles and techniques, are covered. A weekly lab component is required. (Fall, Spring)
- 605. Pre-Practicum/Counseling Techniques.** Credit 3 hours. Prerequisite: Admission to Counseling Program. Counseling experience in the university counseling laboratory. Aspects of the counseling process/relationship and specific techniques of individual counseling are stressed. (Summer, Fall, Spring)
- 607. Career Development/Information Services.** Credit 3 hours. Prerequisite: Admission to the counselor education program or permission of the Department Head. An introduction to the theories of career development and the processes by which occupational/educational and personal/social information may be integrated for career/life planning. (Summer, Spring)
- 608. Human Growth & Development.** Credit 3 hours. Prerequisite: Permission of the Department Head. Study of the emotional, physical, social, and intellectual factors of development across the lifespan. (Summer, Fall)
- 609. Assessment in Counseling.** Credit 3 hours. Prerequisites: COUN 600, 601, 603, and 605. An introduction to major intellectual, psychological, achievement, interest, and sociometric assessment goals and techniques available for the study of the individual. (Fall, Spring)
- 610. Introduction to Diagnosis and Treatment of Psychopathology.** Credit 3 hours. Prerequisites: COUN 600, 601, 603, 605, and 609. This course provides students with basic skills for evaluating behaviors, writing of diagnostic reports, and planning intervention strategies. Students will examine specific disorders and the utilization of various methods for identifying and treating these disorders. (Summer, Fall)
- 611. School Counseling & Consulting.** Credit 3 hours. Prerequisites: COUN 601, 603, 604, and 605. This course will focus on the role of the school counselor as well as the philosophy and practical application of counseling theory and techniques with school-age populations. The student will develop a specific counseling program that will address the needs of a diverse student, staff and community population in which the school counselor is expected to function. (Fall)
- 613. Clinical Mental Health Consultation & Staffing.** Credit 3 hours. Prerequisites: COUN 601, 603, and 605. Primary theories of consultation with emphasis on conflict management, delivery of mental health services and therapeutic intervention with varied client populations. (Fall)
- 623. Advanced School Counseling.** Credit 3 hours. Prerequisite: COUN 611. This course will provide students with an in-depth examination of the roles and functions school counselors assume as school leaders, student advocates, system change agents, personal/social counselors, consultants, and collaborators. The application of counseling theories, as well as prevention and intervention programs, in school settings is also presented. (Summer)
- 625. Cross-cultural Issues.** Credit 3 hours. Prerequisites: COUN 601, 603, and 605. This course is designed to help counselors maximize their effectiveness in today's pluralistic society by understanding: value systems and ways of life of culturally diverse groups; similarities and differences of various cultural groups; dynamics of multicultural interaction and communication; and processes of cultural transmissions in the "global village." (Spring, Summer)
- 627. Introduction to Play Therapy.** Credit 3 hours. Prerequisites: COUN 601, 603, 605, and 608. This course is designed to provide students with basic information related to play therapy. The primary goal of this course is to introduce students to interventions and strategies that focus on various theoretical orientations and play therapy techniques for use in counseling children and families. Students will have the opportunity to receive supervised experience as they use various strategies in class and assignments. (Fall, Spring)
- 629. Advanced Play Therapy.** Credit 3 hours. Prerequisite: COUN 627. This course is designed for those students who have had previous training in basic play therapy and who desire to enhance their understanding and refine their skills in play therapy. Advanced interventions and strategies will focus on aspects related to various theoretical orientations and creative approaches to working with children and adolescents. Students will have the opportunity to receive supervised experience as they practice and observe play therapy techniques. (Fall, Spring)
- 642. Crisis Intervention and Grief Counseling.** Credit 3 hours. Prerequisites: COUN 601, COUN, 603, and COUN 605. This course will encompass the influence of crises, disasters, and events in individuals' lives that cause stress-induced trauma. The response to crisis and trauma by emergency management personnel and the impact on individuals, families, and communities will be examined. Suicide assessment, intervention and prevention strategies will be addressed. Students will also explore the concept of grief. (Summer, Fall)
- 670. Special Topics in Counselor Education.** Credit 3 hours. Prerequisite: Admission to the counselor education program or permission of the Department Head. May be repeated for up to 6 hours credit. Permission of Instructor. A review of pertinent current research and literature related to specific selected topics within counselor education. Each student will select a particular area of interest for extensive research and discussion in class will focus on the selected area. (Varies)
- 680. School Counseling Practicum.** Credit 3 hours. Prerequisites: COUN 604, 607, 608, 609, 610, and 611. This course is designed to guide students in their first field-based experience in pre-K-12 school. This site-based experience requires the completion of a minimum of 40 hours in a school setting, in which components of the Comprehensive School Counseling Program (CSCP) will be implemented. This practicum is graded Pass (P) Fail (F). (Fall, Spring)
- 683. Clinical Mental Health Practicum.** Credit 3 hours. Prerequisites: COUN 604, 607, 608, 609, and 610. Supervised experience in counseling with applications of principles, techniques, and strategies acquired in previous course work. The class will focus upon skill acquisition and demonstration of competencies. This practicum is graded Pass (P) Fail (F). (Fall, Spring)
- 685. Independent Study in Counseling.** Credit 3 hours. Prerequisites: COUN 600 and advanced standing in the counseling program, or permission of the Department Head. Examination and in-depth study, research, and evaluation of contemporary problems in counseling. (Varies)
- 690. School Counseling Internship.** Credit 3 hours. Prerequisite: COUN 680. Supervised on-the-job experience in a school setting emphasizing competencies in: individual counseling, group counseling, and educational, vocational, and personal testing. Students complete 600 clock hours over the course of their final two semesters and must register for 3 hours each semester for a total of 6 credit hours. This internship is graded Pass/Fail. (Fall, Spring)
- 693. Clinical Mental Health Counseling Internship.** Credit 3 hours. Prerequisite: COUN 683. Supervised experience in a clinical mental health setting emphasizing competencies in individual counseling, groups, assessment, diagnosis, and treatment. Students must complete 600 clock hours over the course of their final two semesters, and must register for 3 hours each semester for a total of 6 credit hours. This internship is graded Pass (P) Fail (F). (Summer, Fall, Spring)
- 770. Counseling Thesis.** Credit 1-6 hours each semester, with 6 hours needed for graduation. The student must enroll in the thesis course each semester the thesis is in progress. The thesis is graded Pass-Fail. Prerequisite: Completion of the Counselor Education program or permission of the Department Head. Original research project designed, implemented and summarized by the student under the direct supervision of counseling faculty. (Varies)

Criminal Justice (CJ)

101. Introduction to Criminal Justice. [LCCN: CCRJ 1013, Introduction to Criminal Justice]. Credit 3 hours. The criminal justice system. Study of the historical development of criminal justice. Overview of the functions and responsibilities of law enforcement, the judiciary and corrections. (Summer, Fall, Spring)

201. Criminal Law. [LCCN: CCRJ 2213, Criminal Law]. Credit 3 hours. Prerequisite: CJ 101 or consent of the Department Head. A general approach to laws relating to crimes and offenses and the punishment of their violation. (Summer, Fall, Spring)

202. The American Judicial Process. Credit 3 hours. Prerequisite: CJ 101 or consent of the Department Head. An overview and analysis of the legal transactions involved in the accusation, arrest, adjudication, and disposition of criminal offenders. (Summer, Fall, Spring)

204. Contemporary Law Enforcement. [LCCN: CCRJ 2313, Introduction to Policing]. Credit 3 hours. Prerequisite: CJ 101 or consent of the Department Head. An examination and discussion of selected topics dealing with contemporary problems affecting law enforcement. (Summer, Fall, Spring)

205. The Corrections Process. [LCCN: CCRJ 2013, Introduction to Corrections]. Credit 3 hours. Prerequisite: CJ 101 or consent of the Department Head. The systematic study of all the official ways in which society reacts to persons who have been convicted of committing criminal acts, including persons handled by the juvenile courts. (Summer, Fall, Spring)

206. Comparative Criminal Justice Systems. Credit 3 hours. Prerequisite: CJ 101 or consent of the Department Head. A study and comparison of the world's major justice systems. (Varies)

207. Psychology of Criminal Justice. Credit 3 hours. Prerequisites: CJ 101 and PSYC 101, or consent of the Department Head. Also offered as Psychology 205. Applications of psychology to the criminal justice system. Topics will include: theories of violence, eyewitness testimony, jury selection and procedures, expert testimony, victims, and prisons. Credit cannot be given for both Criminal Justice 207 and Psychology 205. (Varies)

213. International Human Trafficking. Credit 3 hours. Prerequisites: CJ 101, 201, 202, 204, and 205 or permission of Department Head. This course examines how national and international laws prohibiting human trafficking are created, interpreted, and applied. (Spring)

214. Juvenile Justice. [LCCN: CCRJ 2413, Juvenile Justice]. Credit 3 hours. Prerequisites: CJ 101, 201, 202, 204, and 205, or consent of Department Head. This course explores the legal mechanisms that have evolved to control delinquent behavior. Specific attention is devoted to the juvenile court system, law enforcement, custodial and treatment institutions, and community treatment. (Spring)

296 [336]. Deviance and Social Control. [LCCN: CCRJ 2513, Deviance]. Credit 3 hours. Prerequisites: CJ 101, 201, 202, 204, and 205, or consent of Department Head. This course introduces students to non-normative behavior and its social construction. Theories of deviance and institutional responses to deviant behavior are also addressed. (Summer, Fall, Spring)

302. Criminal Investigation. Credit 3 hours. Prerequisites: CJ 101, 201, 202, 204, and 205 or permission of the Department Head. Fundamentals of investigation; duties and responsibilities of the detective; interrogation techniques; search; techniques of protecting the crime scene; collection and preservation of evidence; modus operandi system; scientific aids and other sources of information; court preparation and case follow-up. (Spring)

303. Criminal Justice Administration. Credit 3 hours. Prerequisites: CJ 101, 201, 202, 204, and 205 or permission of the Department Head. This course focuses on the analysis of problems, procedures, organization, and functions of all the criminal justice components. (Fall)

304. Victimology. Credit 3 hours. Prerequisite: Prerequisites: CJ 101, 201, 202, 204, and 205 or permission of the Department Head. This course examines the criminal process from the perspective of the victim. The probability and effects of victimization will be discussed; the effectiveness of victim support programs will be analyzed. (Varies)

305. Homeland Security. Credit 3 hours. Prerequisites: CJ 101, 201, 202, 204, and 205 or consent of the Department Head. An examination of homeland security focusing on the post-September 11, 2001 period including theories, agency missions, and laws and regulations governing the homeland security enterprise. We will explore threat scenarios, existing countermeasures and the underlying reasons for constructing an extensive homeland security system. (Varies)

310. Community Corrections. Credit 3 hours. Prerequisites: CJ 101, 201, 202, 204, and 205 or permission of the Department Head. A survey of the history, development, current status of probation, parole, and related forms of community-based corrections with emphasis on supervision and treatment of criminal offenders. (Varies)

313. Private and Public Sector Security. Credit 3 hours. Prerequisites: Completion of CJ 101, 201, 202, 204, and 205 or consent of Department Head. This course provides an overview of the vulnerability of business, industrial and government sectors to criminal infiltration and compromise from both internal and external sources, with special emphasis on threats to cyber-security, and protection of physical assets and employees/agents. (Varies)

333. Crime in America. Credit 3 hours. Prerequisites: CJ 101, 201, 202, 204, and 205 or permission of the Department Head. A study of the types of crime and criminal offenders peculiar to the American culture. This course emphasizes the nature of conventional crime as well as the growth and development of contemporary work-place crime. (Varies)

343. Law and Society. Credit 3 hours. Prerequisites: CJ 101, 201, 202, 204, and 205 or permission of the Department Head. The course examines the social, economic, and political conditions under which laws are created, interpreted, and enforced; the social organization of law; and the legal profession. (Spring)

353. Criminal Justice Ethics. Credit 3 hours. Prerequisites: CJ 101, 201, 202, 204, and 205 or permission of the Department Head. An overview of philosophical, theoretical, and practical considerations bearing on the moral conduct of participants in the criminal justice process, including police, court, and correctional personnel. (Varies)

363. Drugs, Crime and Social Policy. Credit 3 hours. Prerequisites: CJ 101, 202, 202, 204, and 205 or permission of Department Head. This course focuses on the study of sociological and social psychological explanations of drug using behaviors and of the legal and medical control of drugs. Topics include changes in the legal status of drugs, cross-cultural and historical variations in the control of drugs, and social epidemiology of drug use in contemporary society. (Fall)

400/500. Independent Study. Credit 1-3 hours. Prerequisite: Consent of Department Head. Student works with an instructor on a one-to-one basis and prepares a research report on an appropriate topic. May be repeated in one to three-hour credits for a total of six hours. New topics are investigated in each repeat. (Varies)

405/505. Criminal Justice and the U.S. Constitution. Credit 3 hours. Prerequisites: Completion of CJ 101, 201, 202, 204, and 205 or consent of Department Head. An investigation and analysis of basic constitutional problems involving criminal justice procedures with an emphasis on landmark U.S. Supreme Court decisions. Credit cannot be given for both CJ 405/505 and POLI 405/505. (Fall)

408. Serial and Mass Murder. Credit 3 hours. Prerequisites: CJ 101, 201, 202, 204, and 205 or permission of Department Head. This course examines serial and mass murder, including an in-depth examination into the typical offenders, victim selection, criminal justice system response, and the theoretical explanations that provide an understanding of these offences. (Fall)

411. Transnational Crime and Terrorism. Credit 3 hours. Prerequisites: CJ 101, 201, 202, 204, and 205 and junior/senior standing, or consent of department head. This course provides an overview of threats to internal security including organized criminal enterprises, and state and non-state terror activities. (Fall)

412/512. Criminology. Credit 3 hours. Prerequisites: Completion of CJ 101, 201, 202, 204, 205, and 336 or permission of Department Head. Also offered as SOC 412/512. A study of the incidence, nature, factors influencing, and social treatment of crime. May not be used for credit with SOC 412/512. (Summer, Fall, Spring)

415/515. Health, Justice, and Criminology. Credit 3 hours. Prerequisites: CJ 101, 201, 202, 204, and 205 or consent of Department Head. This course investigates the nexus of health, crime, and the criminal justice system and how to improve effectiveness in the areas of crime prevention, clinical intervention, and policy. (Varies)

418. White-Collar Crime. Credit 3 hours. Prerequisites: CJ 101, 201, 202, 204, and 205 or permission of Department Head. This course provides an overview of the nature and causes of the various types of white-collar crime, and of private and public strategies that might be employed to control it. (Fall)

420/520. Crime and the Media. Credit 3 hours. Prerequisites: CJ 101, 201, 202, 204, and 205 or permission of Department Head. This course takes a social constructionist approach in examining the depiction of crime in the media and the effects these depictions have on public perception, fear of crime and the creation of public policy. (Spring)

432/532. Crime Mapping and Analysis. Credit 3 hours. Prerequisites: CJ 101, 201, 202, 204, 205, SOC 305 and 310 or permission of Department Head. This course exposes students to the uses of geographic information systems in policing and crime analysis. Students use real crime and policing data to identify hot spots, predict crime patterns and empirically test criminological theories. (Fall)

440/540. Juvenile Delinquency. Credit 3 hours. Prerequisites: Completion of CJ 101, 201, 202, 204, 205, and 336 or permission of Department Head. Also offered as SOC 440/540. A scientific study of the nature, extent and causes of delinquency. Methods of prevention, treatment, and correction will be analyzed. Designed especially for teachers, social workers, police and correctional workers. May not be used for credit with SOC 440/540. (Summer, Fall, Spring)

444. Internship in Criminal Justice. Credit 3 hours. Prerequisites: Consent of the instructor and Department Head; an adjusted GPA of 3.0 or higher; and completion of 90 or more credit hours toward the degree including all core courses. Provides upper level students the opportunity to perform as participant observers in established criminal justice agencies at the local, state, and federal levels. (Varies)

495/595. Special Topics Seminar. Credit 3 hours. Prerequisites: Completion of CJ 101, 201, 202, 204, and 205 or consent of Department Head. An in-depth study of selected topics in Criminal Justice that are not covered in existing courses. May be repeated for a total of six hours credit. (Varies)

698. Special Topics in Criminal Justice. Credit 3 hours. Selected topics in areas not available in existing courses. May be new or unique issues or contemporary criminological topics relevant to various social issues. May be repeated for credit when different topics are studied. (Varies)

Cultural Resource Management (CRMP)

411. Historic Preservation. Credit 3 hours. Basic techniques and procedures in historic preservation. (Varies)

431. Arts Administration of Non-Profit Organizations. Credit 3 hours. Prerequisite: Junior Standing or permission of the Department Head. This course will explore the management and organizational structure of non-profit organizations including museums, performing arts organizations, and historic and commemorative sites. (Varies)

491. Field Training. Credit 3 hours. Prerequisite: Senior standing and permission of program coordinator. Should be taken concurrently with CRMP 492. Field placement in a cultural agency or organization under the direct supervision of a professional staff member. A weekly seminar will be conducted in conjunction with the placement. (Summer, Fall, Spring)

492. Field Training. Credit 3 hours. Prerequisite: Senior standing and permission of program coordinator. Should be taken concurrently with CRMP 491. Field placement in a cultural agency or organization under the direct supervision of a professional staff member. A weekly seminar will be conducted in conjunction with the placement. (Summer, Fall, Spring)

Dance (DNC)

100. Introduction to Dance. [LCCN: CDNC 1013, Dance Appreciation]. Credit 3 hours. A non-technical course open to all interested persons. A study of the art and language of dance. Through lecture, observations, and discussions, this course is designed to develop appreciation, awareness and insight of dance as an art form and as a movement point of view. Opportunities provided to attend concerts and demonstrations. (Summer, Fall, Spring)

113. Introduction to Movement Studies. Credit 2 hours. A technical course open to all interested persons. A study of the art and language of movement as a personal point of view. Through lecture, various movement techniques, choreography, improvisation, observations, and discussions, this course is designed to develop an experiential approach to the appreciation, awareness, creation, and performance of dance as an art form. Opportunities provided to attend concerts and demonstrations. (Fall)

135. Contemporary Dance I. Credit 2 hours. An introduction to basic principles of Contemporary Dance technique with an emphasis on the development of the body as an instrument of expression. May be repeated once for credit. (Fall/ Spring)

155. Contemporary Ballet I. Credit 2 hours. An Introduction to basic physical and intellectual principles of Ballet technique and contemporary vocabulary with an emphasis on the development of the body as an instrument of artistic expression, communication, and dance as an art form. May be repeated once for credit. (Fall/ Spring)

162. Theatre Dance. Credit 1 hour. An introduction to dramatic movement design and dance steps used in musical theatre choreography. Three hours per week. (Varies)

200. Dance for the Community. Credit 3 hours. This course is designed to provide students with (1) knowledge of dance and movement activities that meet the needs and characteristics of special community groups and (2) practical application in working directly with these groups. (Varies)

235. Contemporary Dance II. Credit 2 hours. The study of intermediate physical and intellectual principles of Contemporary Dance technique with an emphasis on the development of the body as an instrument of artistic expression, communication, and as an art form. May be repeated once for credit. (Fall/ Spring)

255. Contemporary Ballet II. Credit 2 hours. The study of intermediate physical and intellectual principles of Ballet technique and contemporary vocabulary with an emphasis on the development of the body as an instrument of artistic expression, communication, and dance as an art form. May be repeated once for credit. (Fall/ Spring)

300. Dance Performance Project. Credit 1 hour. Prerequisite: Permission of Department Head. This ensemble course emphasizes the difference between displaying movement and communicating it to an audience. The building of concentration, awareness of stylistic differences, and the establishment of professional behavior are developed in the rehearsal and performance processes. Rehearsals and performances in a theatre setting provide experiences in stage terminology and production techniques. Audition required for possible class enrollment. May be repeated for a maximum of 8 credits. Three hours per week. A laboratory fee is required for this course. (Fall, Spring)

301. Introduction to InterARTS Performance. Credit 3 hours. A variable content course that will engage visual and performance arts as overlapping endeavors in the creation of art. The course will investigate the relationships among the arts with the aim of generating work that blurs boundaries between the visual arts and performance. May be repeated for a total of 9 hours as topics vary. (Varies)

302. History and Survey of Dance. Credit 3 hours. Historical development of dance as an art form, spectacle, and entertainment from ancient societies to the present. (Varies)

305. Dance Anatomy Movement Lab. Credit 3 hours. Study of scientific and somatic principles affecting the anatomical structure of the human body by way of movement application. Hands-on experiential movement exercises will be explored using body/mind alignment, placement, posture, and the practice of teaching movement technique and choreography for dance. (Fall)

308. Site Specific Dance. Credit 2 hours. The creation and performance of dance design exclusively for selected sites. Students will study the physical layout, features and history of sites for the purpose of creating unique movement vocabulary. May be repeated once for credit. (Varies)

309. Partnering and Improvisation. Credit 2 hours. Exploration of ensemble and partnering work through spontaneous movement problem-solving. The course is designed to evoke the student's creative individuality. May be repeated once for credit. (Varies)

335. Contemporary Dance III. Credit 2 hours. The study of advanced physical and intellectual principles of Contemporary Dance technique with an emphasis on the development of the body as an instrument of artistic expression, communication, and dance as an art form. May be repeated once for credit. (Fall/ Spring)

350. Special Topics in Dance. Credit 1-3 hours. A variable content course in subjects of special interest in dance. The course content will change from semester to semester. Credit hours earned will be either one or three depending on topic and course requirements for that subject. May be repeated for up to twelve (12) hours of credit. (Varies)

355. Contemporary Ballet III. Credit 2 hours. The study of advanced physical and intellectual principles of Ballet technique and contemporary vocabulary with an emphasis on the development of the body as an instrument of artistic expression, communication, and dance as an art form. May be repeated once for credit. (Fall/ Spring)

372. Choreography. Credit 3 hours. Theory and practice of fundamentals of dance composition. May be repeated once for credit. (Spring)

373. Dance Production and Arts Administration. Credit 3 hours. This course assists dancers and other artists in learning how to produce and promote their original work as well as exploring business careers in dance and the arts. Students develop concept packets that exhibit organization of the production elements of concert planning, timeline, administration, budget, costume selection, dance lighting, props, scenery, program make-up, and other promotional materials as well as a business plan for each artist's goals. (Spring)

405. Dance Studio Management. Credit 3 hours. Prerequisite: DNC 372. A thorough study on how to develop and run a performing arts studio. Course includes how to develop an artistic overview of the studio's mission aligned with proposals for studio design and equipment; class selection, schedule, calendar, and studio policies; business and budget plans; and promotion and public relations ideas. (Varies)

432. Directed Study in Dance Techniques. Credit 2 hours. Advanced training in the appropriate dance technique. Content varies. May be repeated once for credit. (Fall/ Spring)

435. Contemporary Dance IV. Credit 2 hours. The continued study of Contemporary Dance technique with additional emphasis on performance through improvisation, partnering, and composition. May be repeated once for credit. (Fall/ Spring)

452. Directed Study in Choreography. Credit 2 hours. Advanced training in dance choreography. Content varies. May be repeated once for credit. (Spring)

455. Contemporary Ballet IV (Pointe). Credit 2 hours. The study of advanced Ballet techniques and vocabulary with an emphasis on both contemporary and traditional pointe methods in relationship to performance. May be repeated once for credit. (Fall/ Spring)

460/560. Contemporary Dance Workshop. Credit 3 hours. This performance-based course explores the relationship of contemporary movement, improvisation, and choreography and the various ways in which they are artistically crafted. This workshop culminates with a student performance. One hour of lecture and three hours of lab. May be repeated once for credit. (Varies)

472. Advanced Choreography. Credit 3 hours. Prerequisite: DNC 372. Advanced theory and practice of dance composition. May be repeated once for credit. (Varies)

491/591. Independent Study in Choreographic Design. Credit 3 hours. Prerequisites: DNC 372 and DNC 230 or DNC 330 and Junior or Senior standing. The organization and presentation of an original dance piece including planning, developing, selection of theme, music, costume, staging, lighting public performance of final work and written thesis. (Fall, Spring)

495. Senior Performance. Credit 3 hours. Prerequisites: DNC 372 and Senior standing. Presentation of a public senior dance concert encompassing a collection of work. Student must direct auditions, rehearsals, choreographic process, and presentation of work. (Fall, Spring)

Design Drafter Technology (DDT)

113. Architectural Drafting. Credit 3 hours. Prerequisite: IT 111. Principles and practices of architectural drawing, terminology, and construction through residential planning and design, including floor plans, elevations, sectional details and plat plans. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

114. Technical Illustration. Credit 3 hours. Prerequisites: IT 111 and 215. The transmission of engineering drawings into three-dimensional drawings using principles and techniques of axonometric, perspective, and schematic drawing. Includes lettering, reproduction methods, color rendering, air brush techniques and various mechanical aids. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Varies)

211. Piping Drafting. Credit 3 hours. Prerequisites: IT 112 and 264. Piping design and drafting fundamentals as used in process industries such as refineries and petrochemical plants. The study, use and drafting of pipes, fittings, flanges, valves, equipment and structural systems using the latest industry-standard software. Students will use industry standards to create schematic, plan, elevation, isometric, spool, and 3-D drawings of various process piping components/systems. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall)

212. Parametric Modeling of Machine Parts/Assemblies. Credit 3 hours. Prerequisite: IT 111. Feature based parametric modeling of simple and complex machine parts, sub-assemblies, and assemblies. Fully documenting design projects according to industry standards, including video presentations, animations, project documentation, change orders, file management for design projects, reverse engineering and 3D printing. Two hours of lecture and two hours of laboratory per week. A Laboratory fee is required for this course. (Spring)

215. Light Commercial Building Drafting. Credit 3 hours. Prerequisites: IT 111 and DDT 113. Analysis and solution of basic problems in the design and construction of small commercial properties using a variety of materials and methods of construction. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Varies)

216. Civil Drafting Technology. Credit 3 hours. Prerequisite: IT 111. Basic concepts and techniques of civil technology, including leveling; longitude and latitude; map scales; symbols, directions; legal descriptions; plot plans, contours; profiles and highway cut and fill. Students will use Computer-Aided Design (CAD) software to complete projects relating to interpretation of survey data, profiles and cross sections, land subdivision, site and grading plans, and basic earthwork calculations. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Varies)

218. Special Topics in Drafting. Credit 3 hours. Prerequisites: A 2.0 adjusted major average, Sophomore standing and 15 semester hours of drafting or permission of the Department Head. A course designed to provide the student with an opportunity to gain greater specialization in a specific area or to develop skills in areas otherwise not covered in the curriculum. May be repeated for a maximum of six credit hours. (Varies)

311. Process Piping/Plant Design. Credit 3 hours. Prerequisite: DDT 211. The general concepts and principles of process plant layout and design, including plant layout specifications, equipment and component arrangement, and basic stress analysis using 3-D parametric plant design software. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall)

312. Advanced Machine Design Drafting. Credit 3 hours. Prerequisite: IT 111 or ET 111. Feature based parametric modeling of complex machine parts, sub-assemblies, and assemblies. Fully documenting design projects according to ANSI industry standards. Development of various design aspects including: video presentations, animations, project documentation, change orders, file management for design projects, reverse engineering and 3D printing. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Spring)

316. Advanced Computer-Aided Drafting and Design. Credit 3 hours. Prerequisite: IT 215 or ET 111. An advanced study of the terminology, concept and theory of solid model development and subsequent rapid prototyping. Includes an in-depth coverage of 3-D modeling, the production of these models through rapid prototyping technologies, and their relationship to traditional manufacturing techniques. Two hours of lecture and two hours of laboratory per week. Credit cannot be given for both IT 216 and DDT 316. A laboratory fee is required for this course. (Fall)

411. Industrial Design. Credit 3 hours. Prerequisites: IT 112, 215 and 242. A study of design principals as applied to product design, machine tool design and rapid prototyping. The use of graphic techniques for the interpretation and solution of design problems. Design for manufacturability with the use of concurrent engineering tools, CAD. Two hours of lecture and two hours of laboratory per week. Credit cannot be given for both IT 311 and DDT 411. A laboratory fee is required for this course. (Spring)

415. Fundamentals of MicroStation and GIS. Credit 3 hours. Prerequisite: DDT 216. A study of the concepts, tools, and features found in the MicroStation drafting environment and the evolution and basic operation of GIS. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Varies)

Early Childhood Education (ECE)

106. Service Learning for Early Childhood Education. Credit 3 hours. Participation in a service-learning program in an early childhood education setting. Emphasis is placed on weekly observations and interactions with young children and families, future teacher meetings, and reflection. The service-learning site must be approved by instructor. Field experience required. (Summer, Fall, Spring)

108. Developmentally Appropriate Practices in Early Childhood Education. Credit 1 hour. Readings, video demonstrations, participation in class discussions, and in-class demonstrations prepare early childhood education majors for working with children in structured settings. This course provides students with the purpose and value of Early Childhood Education. Topics include developmental domains, Developmentally Appropriate Practices, and awareness of the role educators play in Early Childhood Education. (Fall, Spring)

300. Curriculum and Instruction in Early Childhood Education (Pre-Kindergarten and Kindergarten). Credit 3 hours. Prerequisites: Full SARTE status, EDUC 307, and ECE 314. Must be taken concurrently with ECE 311 and 312 and EDUC 320 and 322. This course uses principles and methods of understanding and working with pre-kindergarten and kindergarten children to develop curriculum, plan instruction, and implement practices in the pre-kindergarten and kindergarten classroom settings. These standards must reflect current knowledge and shared beliefs in what constitutes high-quality, developmentally appropriate childhood education in the context within which services are delivered. Competency-based clinical practice required. (Fall, Spring)

304. [EPSY 304]. The Psychology of Early Childhood: Conception through Age Eight. Credit 3 hours. Prerequisites: Sophomore standing, 2.75 GPA, a grade of C or better in ENGL 102, or permission of the Department Head. Course will discuss major developmental theories as they relate to physical, psychosocial, and cognitive domains. Extensive applications for those who will teach and work with young children. Competency-based clinical practice required. (Summer, Fall, Spring)

311. Introduction to Developmental Assessment of Young Children. Credit 3 hours. Prerequisites: Full SARTE status, EDUC 307, and ECE 314. Must be taken concurrently with ECE 300 and 312 and EDUC 320 and 322. The course is designed to provide experiences to increase awareness of and knowledge about a variety of assessment procedures appropriate for use with children birth through eight years of age. Advantages and limitations of assessment techniques will be noted. Considerations used in the interpretation of findings and in making referrals will be discussed. This course provides opportunities to work with assessing children preschool through age eight years old and to develop prescriptive activity plans. Competency-based clinical practice required. (Fall, Spring)

312. Practice in Early Childhood Education (Pre-Kindergarten and Kindergarten). Credit 3 hours. Prerequisites: Full SARTE status, EDUC 307, and ECE 314. Must be taken concurrently with ECE 311 and EDUC 320 and 322. This course provides advanced practice that includes observation, participation, and teaching in the early childhood setting (specifically Pre-Kindergarten and Kindergarten). Emphasis is on program and curriculum planning including assessment for children in early childhood education. Competency-based clinical practice required. (Fall, Spring)

314. [EPSY 314]. Classroom Management for Beginning Teachers in PK-3. Credit 3 hours. Prerequisite: Full SARTE Status. A detailed investigation of behavioral and humanistic approaches in PK-3 classroom management and motivation. Included are topics such as preventing classroom disruptions, how and when to intervene when they occur, working with parents, and working with students in an inclusive environment. Competency-based clinical practice required. (Summer, Fall, Spring)

316. Language Arts and Literacy Methods for Early Childhood. Credit 6 hours. Prerequisites: ECE 300, 311, 312, EDUC 309, and Full SARTE status. Must be taken concurrently with ECE 318. Grades 1-3 language arts and literacy integrated course and practice with an emphasis on curriculum, knowledge, skills, dispositions, methods, and materials in the early grades, while working with and teaching children in the school environment. Competency-based clinical practice required. (Fall, Spring)

318. Teaching Science and Social Studies in Early Childhood (Grades 1-3). Prerequisites: ECE 300, 311, 312, EDUC 320, 322, 309, and Full SARTE status. Must be taken concurrently with ECE 316. Grades 1-3 science and social studies integrated course and practice with an

emphasis on curriculum, knowledge, skills, dispositions, methods, and materials in the primary grades. This is in conjunction with working with children in the school environment. Competency-based clinical practice required. (Fall, Spring)

400. Curriculum and Instruction in Early Childhood Education (Preschool and Kindergarten). Credit 6 hours. Prerequisites: EDUC 320, EDUC 323, Full SARTE status, and concurrent enrollment in ECE 411 and ECE 420. Development of curriculum and instructional practices in the preschool and kindergarten settings; principles and methods of understanding and working with preschool children. Field experience required. (Fall, Spring)

411. Introduction to Developmental Assessment of Young Children. Credit three hours. Prerequisites: EDUC 320, EDUC 323, Full SARTE status, and concurrent enrollment in ECE 400 and ECE 420. Experiences to increase awareness and knowledge about a variety of assessment procedures appropriate for use with children birth through eight years of age. Advantages and limitations of assessment techniques, interpretation of findings and referral procedures will be addressed. This course provides opportunities to work with assessing preschool through age eight children and to develop prescriptive plans. Field experience required. (Fall, Spring)

420. Practicum in Early Childhood Education (Preschool and Kindergarten). Credit 3 hours. Prerequisites: EDUC 320, EDUC 323, Full SARTE status, and concurrent enrollment in ECE 400 and ECE 411. This course is an advanced practicum that includes observation, participation, and teaching in the early childhood setting (specifically preschool and kindergarten). Emphasis is on program planning including assessment for children in early childhood education. Field experience required. (Fall, Spring)

422. Integrated Curriculum and Practicum in Early Childhood Education (Primary Grades 1-3). Credit 9 hours. Prerequisites: ECE 400, ECE 411, ECE 420, MUS 291, Full SARTE status, and concurrent enrollment in SPED 495. An integrated curriculum block (reading, language arts, sciences, social studies, visual arts, music, & physical education) as related to the needs of the children in the primary grades 1-3. Knowledge, skills, and dispositions in these curricular areas will be explored and refined with a primary emphasis focused on working with children in the school environment. Field experience required. (Fall, Spring)

427. Student Teaching II: Early Childhood Education (PK-3). Credit 9 hours. Prerequisites: See Requirements for Teaching Residency section in the Catalog. Student Teaching II is the second semester of a full year residency for student teaching, and is all day, all week following the assigned school district calendar. Student teaching experiences include observation, participation in school activities, management of classroom and student behaviors, daily lesson planning, instruction, and assessment under the supervision of an assigned mentor teacher from a partner school. Student teachers must receive a final grade of "Pass" (P) in order to graduate. (Fall, Spring)

448. Apprenticeship I in Early Childhood Education. Credit 9 hours. Prerequisites: Full SARTE status, successful completion of Introductory Portfolio, MUS 291, ECE 400, ECE 411, ECE 420, passing score on the Content Praxis II, minimum 2.5 GPA required with a 3.0 GPA preferred to make application, and permission of the Department Head and school district. This apprenticeship option provides the Early Childhood Education major with an assigned placement selected and approved by the University in partnership with a cooperating school/district. The content of this apprenticeship encompasses materials and methods including best practices and innovative teaching strategies in the teacher candidate's major field of certification that is engaged through on-the-job training in the school environment. Lesson planning, alternative assessment, classroom management, and education technology are topics addressed in the apprenticeship. Must be taken concurrently with SPED 495. Teacher candidates will earn nine hours of credit for a minimum of 500 hours of approved work experience that follows the school district calendar. Candidates must apply with written application, interview and be selected as an apprentice teacher. (Varies)

601. Advanced Child Development and Learning. Credit 3 hours. This course is an intensive study of child development (birth – 8 years) and the implications for children's learning. (Fall, Spring)

602. Assessment in Early Childhood Education. Credit 3 hours. An advanced-level course that features the theory, administration, and interpretation of instrumentation to assess family characteristics, and social/emotional, cognitive, motor, language, and sensory abilities of young children with particular emphasis on criterion referenced and developmentally based tests. (Varies)

603. Theory and Curriculum in Early Childhood Education. Credit 3 hours. The course focus will be on theory and curriculum appropriate for grades Pre K-3. Emphasis will be placed upon the early childhood educator as a reflective professional who makes informed decisions to best meet the needs of young children. (Varies)

630. Integrated Curricular Practices in Early Childhood Education. Credit 3 hours. Prerequisite: EPSY 605 or ECE 601. Principles and methods for developing the integrated curriculum in early childhood education that promote learning and growth in each of the following domains: aesthetic, cognitive, emotional, language, physical, and social. (Varies)

632. Practicum in Early Childhood Education. Credit 3 hours. An advanced practicum course designed to give practice in teaching, appropriate for Pre K–3. Experiences are provided for observation, teaching, and evaluation of young children. The candidate must apply to the Director of Student Teaching one semester in advance in order to enroll for this course. (Varies)

Earth and Space Science (ESSC & ESSL)

101. Earth and Space Science I. [LCCN: CGEO 1103, Physical Geology]. Credit 3 hours. An overview of geology and physical oceanography concepts. (Summer, Fall, Spring)

102. Earth and Space Science II. [LCCN: CAST 1113, Astronomy/Stars & Galaxies]. Credit 3 hours. An overview of meteorology, stellar systems, and stellar mechanics. (Summer, Fall, Spring)

103. Earth and Space Science Laboratory I. [LCCN: CGEO 1101, Physical Geology Lab]. Credit 1 hour. Prerequisite: Registration for or prior credit for Earth and Space Science 101. A series of activities to aid students in their understanding of geological formations and processes. Two hours of laboratory per week. (Summer, Fall, Spring)

104. Earth and Space Science Laboratory II. Credit 1 hour. Prerequisite: Prior credit for Earth and Space Science 102. A series of activities to aid students in their understanding of meteorology and celestial mechanics. Two hours of laboratory a week. (Summer, Fall, Spring)

Economics (ECON)

101. Economics of Current Issues. Credit 3 hours. An examination of important current social issues from an economics perspective. Topics to be examined include poverty, discrimination, health care, social security, education and politics, as well as environmental and legal issues, with a focus on the contribution of economics to potential solutions. Not open to students who have previously earned credit for ECON 201 or 202 or to Juniors and Seniors majoring in the College of Business. (Varies)

102. Elements of Economics. [LCCN: CECN 2113, Economic Principles]. Credit 3 hours. A course to give non-business students a comprehensive introduction to economic principles and problems. Attention given to problems of inflation, depression, markets, prices, profits, wages, and government finance. Not open to students who have previously earned credit for ECON 201 or 202 or to Juniors and Seniors majoring in the College of Business. (Fall, Spring)

201. Principles of Economics (Macroeconomics). [LCCN: CECN 2213, Macroeconomics]. Credit 3 hours. The nature of economics, economic concepts and institutions, monetary theory, national income theory, financing of business, population problems and economic stability. Credit will not be given for both ECON 201 and 102. (Summer, Fall, Spring)

202. Principles of Economics (Microeconomics). [LCCN: CECN 2223, Microeconomics]. Credit 3 hours. The theories of production, determination of price, distribution of income, problems of industrial relations, monopolies, comparative economics systems. Credit will not be given for both ECON 202 and 102. (Summer, Fall, Spring)

211. Economics of Consumption. Credit 3 hours. A study of consumer buying practices, management of personal and family finances, spending and saving, problems of consumer protection. (Varies)

212. Agricultural Economics. Credit 3 hours. A study of economic principles and practices as applied to agriculture; importance of agriculture in American life; economic, social, and political factors that influence rural institutions; records and accounts. (Varies)

301. Introduction to Labor Economics. Credit 3 hours. Prerequisites: ECON 201 and 202 and Junior standing, or ECON 102 and Junior standing. The development of present-day labor organizations, their aims and methods; primary issues in union and nonunion management relationships, such as wages, hours, substandard workers, seniority, and union shop. (Varies)

305. Urban and Regional Economics. Credit 3 hours. Prerequisites: ECON 201 and 202 and Junior standing, or ECON 102 and Junior standing. A brief description of the historical development of cities; location and spatial organization of economic activity; regional growth patterns and land use; analysis of particular problems such as transportation, housing, poverty, environment, and the urban public sector. Emphasis will be on both theory and policy. (Varies)

312. Health Care Economics. Credit 3 hours. Prerequisites: ECON 201 and 202 and Junior standing. An analysis of the demand for and supply of health care services, health insurance, managed competition, Medicare, Medicaid, cost containment, national health care policy, the role of technology, training and practice of nurses and physicians, and comparative health care systems. (Varies)

328. Environmental & Resource Economics. Credit 3 hours. Prerequisites: ECON 201 and 202 and Junior standing, or ECON 102 and Junior standing. The study of theory and tools of environmental and resource economics, ozone depletion and global warming, acid deposition, exhaustible resources including energy, minerals, materials and waste, renewable resources including fisheries, temperate forests, tropical forests, biodiversity and habitat, and water resources, government regulations and enforcement, and other topics such as clean technology, toxics in the ecosystem, the environment and economic growth in other countries, and prospects for the future. (Varies)

333. Introduction to Money and Banking. [LCCN: CECN 3113, Money, Banking & the Economy (upper Level)]. Credit 3 hours. Prerequisites: ECON 201 and 202 and Junior standing, or ECON 102 and Junior standing. Nature and functions of money; banking history; commercial banking; Federal Reserve System and its instruments of monetary policy; an introduction to financial markets, monetary theory and international monetary relationships. (Summer, Fall, Spring)

345. Economics of Industrial Organization and Public Policy. Credit 3 hours. Prerequisites: ECON 201 and 202 and Junior standing, or ECON 102 and Junior standing. A survey of market structures and performance and the role of antitrust policy in the manufacturing sector of the economy. Emphasis is placed on methods and techniques used in measuring market structures and performance, and on antitrust policy with regard to the control of market structures, price fixing agreements, and other restrictions on manufacturing firms' conduct. Public regulation is considered both in theory and in practice. (Varies)

362. Public Finance. Credit 3 hours. Prerequisites: ECON 201 and 202 and Junior standing, or ECON 102 and Junior standing. The development and growth of the public economy as part of the national economy; use of governmental expenditures and revenues; public effects of spending public funds and of government borrowing and debt payment; critique of fiscal policies and practices to achieve economic stability. (Varies)

375. Business Economics I. Credit 3 hours. Prerequisite: ECON 201 and 202. This course uses economic and financial tools to analyze data and address common decisions faced by business managers, policymakers, and researchers. Topics may include operations decisions, risk and uncertainty, capital investment outlays, and diversity. Emphasis is placed on using common office software to describe and summarize data, identify patterns and trends, and to create statistical measures of cause-and-effect relationships. (Varies)

391. Business Internship. Variable credit 1-3 hours. Prerequisites: Junior Standing, 2.5 Overall GPA, and permission of the Department Head. The Business Internship provides students with the opportunity to earn course credit while gaining experience in work assignments approved by the University and Department. Students will earn 1 credit hour for each 100 hours of approved work experience. May be repeated for up to three credit hours. Only Business Administration majors can receive credit for the Business Internship. All grades are assigned on a Pass/Fail basis (Summer, Spring/ Fall).

392. Business Internship II. Variable credit 1-3 hours. Prerequisites: Junior standing, 2.5 Overall GPA, and permission of the Department Head. A continuation of ECON 391. IN order to receive credit for ECON 392, the work assignment must be different than that of ECON 391. Students will earn 1 credit hour for each 100 hours of approved work experiences. May be repeated for up to three hours credit. Only Business Administration majors can receive credit for the Business Internship. All grades are assigned on a Pass/ fail basis. (Summer, Fall, Spring).

401. Macroeconomics for Managers. Credit 3 hours. Prerequisites: ECON 201 and 202 and Junior standing, or ECON 102 and Junior standing. The development of aggregative economic analysis and its application to national income theory, the level of employment and economic growth. Attention is given to the dynamic aspects of income and employment fluctuations and the adoption and application of economic policy. (Varies)

402. Managerial Economics. Credit 3 hours. Prerequisites: ECON 201 and 202 and Junior standing, or ECON 102 and Junior standing. The theory of consumer behavior in determining demand. The theory of the firm including production, costs, and supply relationships. Analysis of product and factor markets under conditions of perfect and imperfect competition. (Summer, Fall, Spring)

410. History of Economic Thought. Credit 3 hours. Prerequisites: ECON 201 and 202 and Junior standing, or ECON 102 and Junior standing. A survey of the development of economic thought from about 1500 A. D. to the present, a critical description of the various schools of thought and the contributions of leading economic writers. (Varies)

412. Comparative Economic Systems. Credit 3 hours. Prerequisites: ECON 201 and 202 and Junior standing, or ECON 102 and Junior standing. An analysis of the theories and practices of modern economic systems including Capitalism, Socialism, Communism, and Fascism. (Varies)

413. Applied Economic Analysis. Credit 3 hours. Prerequisites: ECON 102 and Junior standing, or ECON 201 and 202 and Junior standing or permission of Department Head. An examination of economic issues through independent research leading to the completion of a written paper and oral presentation. (Varies)

421. International Economics. Credit 3 hours. Prerequisites: ECON 201 and 202 and Junior standing, or ECON 102 and Junior standing. Principles of foreign trade. An examination of the monetary and real aspects of trade; including foreign exchange rates, balance of payments problems, and the theories concerning the reasons for trade. (Varies)

430. Economics Study Abroad. Credit 3 hours. Prerequisite: Junior standing. This course is designed to introduce students to the economic systems and institutions of other countries through the Business Study Abroad program. Students will experience, first-hand, the principles and practices of functioning in an international environment. (Summer)

435. Energy Economics, Markets, and Policy. Credit 3 hours. Prerequisites: ECON 201 and 202 and Junior standing or ECON 102 and Junior standing. Survey seminar course in energy issues. Topics will include the function of energy markets, their impact on the macroeconomy and business decision making, alternative energy options, environmental impacts of energy sources, and government policy effects on energy markets and the economy. (Varies)

441. Current Economic Issues. Credit 3 hours. Prerequisites: ECON 201 and 202 and Junior standing. A variable content course that covers selected unique topics relevant to the economy. The content may change from semester to semester and will be announced in advance. (Varies)

450/550. Applications of the Internet in Business and Economic Analysis. Credit 3 hours. Prerequisites: MGMT 210 or CMPS 110, ECON 201 and ECON 202, or ECON 102 and Junior standing. Use of the Internet to study business and economic subjects and issues such as production, consumption, economic conditions and indicators, federal government policies, job market, population characteristics, international business and economic development, and other relevant subjects. (Varies)

460. Econometrics. Credit 3 hours. Prerequisites: ECON 201 and 202, MGMT 210 or CMPS 110, MATH 241 or OMIS 200, and Senior standing. Introduction to model-building and statistical inferences to measure and test business and economic theories as well as to solve these problems. Emphasis will be placed on linear modeling, least squares estimation, linear programming and curvi-linear optimization. (Varies)

475. Business Economics II. Credit 3 hours. Prerequisite: ECON 375 or permission of the Department Head. This course is designed to introduce the application of economic reasoning and decision-making to common business problems. Emphasis is placed on designing innovative models for solving problems using common software packages. The course encourages students to develop critical thinking skills when approaching complex business decisions. (Varies)

613. Managerial Economics. Credit 3 hours. Prerequisites: ECON 201, 202, and Graduate standing. A study of management problems from an economic point of view. Includes analyses of demand, forecasting, cost and price relationships, price decisions, risk and uncertainty, and capital investment. (Summer, Fall, Spring)

630. Economics Study Abroad. Credit 3 hours. Prerequisite: Graduate standing. This course provides graduate students an in-depth look at the economic systems and institutions of other countries through the Business Study Abroad program. Students will experience, first-hand, the principles and practices of functioning in an international environment. Designed primarily for students in the MBA program. (Summer)

641. Seminar in Contemporary Economic Problems. Credit 3 hours. Prerequisites: ECON 201 and 202 and Graduate standing. An analysis of the causes and consequence of current economic problems including unemployment, budget deficits, inflation, merchandise trade deficits, and other leading issues of the day. Alternative approaches to alleviate these problems will be discussed and evaluated. (Varies)

695. Special Topics in Economics. Credit 3 hours. Prerequisite: Graduate standing. A seminar course focusing on selected issues in economics. (Varies)

697. Economic Analysis and Public Policy. Credit 3 hours. Prerequisites: ECON 201 and ECON 202 or consent of the Department Head. This course applies economic theory such as pricing, market structures, public goods, externalities, cost and benefit analysis, optimization, utility maximization, voter preferences, and others to examine selected public policy issues such as government finance, health care, social security, welfare, income distribution, regulation and deregulation, urban problems, investment in human capital, and other related subjects. (Varies)

699. Advanced Econometrics and Math Economics. Credit 3 hours. Prerequisites: Math 163, MGMT 261, and consent of the Department Head. A study of time series, the ADF unit root test, Johansen co integration test, vector error correction model, VAR, GARCH, optimization with constraints, and other related subjects. (Varies)

Education (EDUC)

Students wishing to enroll in professional courses beyond EDUC 204 must be admitted to the professional program in Teacher Education, have special permission from the Dean of the College of Education, or be regularly enrolled in a teacher education program at the graduate level. See Selective Admission and Retention in Teacher Education Policies and Procedures - College of Education.

101. Education for Teacher Aides. Credit 3 hours. A course developed for teacher aides including an understanding of children, preparation of teacher materials, preparation of room before and after classes, working with teachers, working with children, etc. (Varies)

103. Methods and Materials for Teacher Aides. Credit 3 hours. A program developed primarily to prepare teacher aides for activity within the classroom. Content will center around methods, techniques, and duties of the teacher aide with special emphasis on construction and use of materials beneficial to the teacher aide. (Varies)

200. The Language Arts in Early Childhood Education. Credit 3 hours. Course is designed for and limited to paraprofessionals. A study of current practices in teaching language arts in an early childhood education setting. Emphasis is placed on the practical application of various teaching methods. Cannot be used for credit in the Elementary Education degree program. (Varies)

201. Introduction to Education. Credit 1 hour. Prerequisites: Sophomore standing (30 hours), a 2.5 cumulative or degree GPA, a grade of C or better in ENGL 102 and prior credit or concurrent enrollment in EDUC 211. An introductory course to education and the profession of teaching. Special emphasis is placed on the guidance and screening of applicants into the professional program. Pre-student teaching professional laboratory experiences begin in this course. (Varies)

202. Introduction to Education: School and Society. Credit 3 hours. Prerequisites: Sophomore standing (30 hours), 2.75 cumulative or degree GPA, a grade of B or higher in ENGL 102 or ENGL 102H, or permission of Department Head. An introductory course to education and the profession of teaching. This course is designed to review factors which have influenced the development of education such as major social, political, religious, and intellectual movements; philosophical theories and systems; research and practice in education psychology; and behavioral and cognitive theories of learning. Competency based clinical practice required. (Summer, Fall, Spring)

203. Foundations of Education. Credit 2 hours. Prerequisites: Sophomore standing (30 hours), a 2.5 cumulative or degree GPA, a grade of C or better in ENGL 102, and prior credit or concurrent enrollment in EDUC 212 or its equivalent. An introductory course to the profession of teaching. Special emphasis is placed on the guidance and screening of applicants into the professional program. This course reviews factors that have influenced the development of education. Field experiences are required in this course. (Summer, Fall, Spring)

204. Seminar for the Prospective Resident Assistant. Credit 3 hours. Prerequisites: 2.0 minimum cumulative GPA. Course engages the theoretical and practical knowledge needed for the resident assistant position at Southeastern through both lecture and practicum work with current resident assistant trainer. Emphasis will be placed on the understanding of student and community development, leadership, communication and diversity theories. (Fall, Spring)

205. Advancing Diversity, Equity, and Inclusion Practices. Credit 1-3 hours. Topics include promoting increased understanding and awareness of the importance of diversity, equity, and inclusion in schools, our communities, and the overall workforce. Students will be introduced to a broad range of perspectives and deconstruct their own perspectives, experiences, and potential biases. This course focuses on cultivating

self-awareness that increases and individual's ability to problem solve and to effectively navigate the needs of a changing workforce. (Summer, Fall, Spring)

210. Teacher Certification Prep. Credit 1 hour. Prerequisite: Enrollment in a program leading to teacher certification or permission of the department head. This course assists students preparing for state-mandated certification requirements that are also required for entry into professional education programs at Southeastern. Students participate in a learning community and use knowledge of content and pedagogical theory to deconstruct and analyze their practice exam score (s) to create and implement an individualized study plan based on their data. With the permission of the department head, may be repeated for up to 3 hours credit. (Fall/Spring)

211. Diversity in Education. Credit 2 hours. Prerequisites: Sophomore standing (30 Hours), 2.5 cumulative or degree GPA, and take concurrently with EDUC 201 or prior credit. This course focuses on historical and current topics and issues in education relevant to providing appropriate and equitable education experiences for diverse populations of students. Observations and service-learning experiences are required to acquaint candidates with the needs and abilities of all students, best pedagogical practices, and laws and policies governing education. One and a half-hour lecture and one-hour laboratory per week. (Varies)

212. Diversity in the Classroom. Credit 1 hour. Prerequisites: Sophomore standing (30 hours), a 2.5 cumulative or degree GPA, a grade of C or better in ENGL 102, and prior credit or concurrent enrollment in EDUC 203 or its equivalent. An introduction to the topics and issues in education relevant to providing appropriate and equitable educational experiences for diverse populations of students. Field experiences are required in this course. (Summer, Fall, Spring)

220. Introduction to Substitute Teaching. Credit 3 hours. Focuses on social and legal factors related to PK-12 teaching, including school safety, ethics, legal aspects, and the roles and responsibilities of substitute teachers. (Summer, Fall, Spring)

221. Teaching Strategies for Substitute Teachers. Credit 3 hours. Planning, adapting, and implementing effective instructional practices and formatively assessing student performance in K-12 settings with diverse populations. (Summer, Fall, Spring)

222. Classroom Management for Substitute Teachers. Credit 3 hours. Instructional and classroom management strategies to optimize student learning and maximize the effectiveness of substitute teachers. (Summer, Fall, Spring)

304. The Teaching of Reading in the Elementary School. Credit 3 hours. Prerequisite: Full SARTE status. A study of the reading process as a fundamental aspect of the elementary school curriculum. Special attention will be given to the basic reading skills needed by emergent and mature readers. The newest techniques, methods, and materials will be appraised through study, observations, and demonstrations in actual classrooms. Clinical practice required. (Summer, Fall, Spring)

307. Instructional Planning and Assessment. Credit 3 hours. Prerequisite: Full SARTE status. This course provides pre-service teachers with the principles and techniques necessary to develop sound instructional lesson plans and assessments. Emphasis is on understanding the roles planning and assessment have in daily classroom practice. Course topics include developing standards-aligned instructional objectives, lesson plans, test items, performance based and alternative assessment techniques, and classroom evaluations. Students learn to analyze classroom assessment data and interpret standardized test information, including Louisiana school and district performance scores. Ethical issues related to assessment are discussed. Education majors only. (Summer, Fall, Spring)

308. Teaching Reading in the Middle School. Credit 3 hours. Prerequisite: Full SARTE status. This course is a study of the reading process as a fundamental aspect of integrated upper elementary and middle school curriculum. Special attention will be given to the basic reading skills needed by emergent and mature readers. The newest techniques, methods, and materials will be appraised through study, observations, and demonstrations in actual classrooms. Competency based clinical practice required. (Fall, Spring)

309. Integrating Music into the Early Childhood and Elementary School Classroom. Credit 3 hours. A study of how music can be integrated into classroom instruction in the early childhood and elementary grades. Planning and production of materials that allow for musical integration across the curriculum will be an integral part of this course. Students will also be given opportunities throughout the semester to build and enhance their own personal musicianship skills. Clinical practice required. (Summer, Fall, Spring)

313. Elementary Music Methods. Credit 3 hours. Prerequisites: EDUC 201 or 203, EDUC 211 or 212, EPSY 301, MUS 303, MUS 304 and Full SARTE status. Music curriculum for the elementary school. Includes study of current methods and materials, planning for music instruction, and presentation of music lessons to elementary school children. (Spring)

315. [EPSY 315] Classroom Management and Motivation for Beginning Teachers. Credit 3 hours. Prerequisite: Full SARTE Status. This course provides detailed investigation of behavioral and humanistic approaches to classroom management and motivation in the classroom. Included are topics such as classroom procedures and rules, consequences, individual and group motivation and rewards, preventive and supportive discipline, parent involvement, and classroom arrangement, set up and how these can influence student behavior. Students will also become well versed in working with students with disabilities, students from poverty and students from diverse backgrounds as well as students who speak English as their second language. Clinical practice required. (Summer, Fall, Spring)

316. Classroom Management for Secondary Teachers. Credit 3 hours. Prerequisite: Full SARTE status. A detailed investigation of behavioral and humanistic approaches to classroom management and motivation in the middle school and secondary classroom. Included are topics such as preventative, supportive, and corrective discipline techniques, parent teacher conferencing, and behavior modification. Clinical practice required. (Summer, Fall, Spring)

319. Foundations of Inquiry Teaching Strategies. Credit 3 hours. Prerequisites: Full SARTE status. This course includes the theoretical pedagogical foundations and current issues and perspectives of teaching using inquiry-based teaching strategies. It includes practice within middle school certification areas of articulating what students need to understand rather than be able to do, investigation of productive and unproductive beliefs and practices for teaching content, an introduction to inquiry-based constructivist teaching, and technology enhanced instruction. Clinical practice required. (Fall, Spring)

320. Foundations of PK-5 Mathematics Education. Credit 3 hours. Prerequisites: Full SARTE status, EDUC 307, and EDUC 315 or ECE 314. Early Childhood majors take concurrently with ECE 300, ECE 311, ECE 312, and EDUC 322; Elementary 1-5 majors take concurrently with EDUC 322 and LSED 401. This course includes the theoretical pedagogical foundations and current issues and perspectives of teaching early childhood and elementary mathematics with equity to diverse populations. This course, which provides a framework for the teaching of mathematics, includes practice articulating what students need to understand rather than be able to do in mathematics, investigation of productive and unproductive beliefs and practices in math, an introduction to inquiry-based constructivist teaching, and technology enhanced instruction. Clinical practice required. (Fall, Spring)

322. Diagnostic and Prescriptive Reading. Credit 3 hours. Prerequisites: Full SARTE status EDUC 307 and EDUC 315 or ECE 314. Early Childhood majors take concurrently with ECE 300, ECE 311, ECE 312, and EDUC 320; Elementary 1-5 majors take concurrently with EDUC 320 and EDUC 332. This course is designed to equip the student with knowledge of and skills in reading instruction for individual learners. Emphasis will be placed on the diagnosis of the learner's needs in reading and prescription of appropriate activities for advancement. Clinical practice required. (Fall, Spring)

323. Curriculum and Instruction in Grades PK-3. Credit 6 hours. Prerequisites: ECE 106, EDUC 304, EDUC 307, EDUC 315, MATH 177, MATH 277, an approved Introductory Portfolio, and Full SARTE status. This course includes the development of teaching competencies of mathematics and reading at the PK-3 grade levels. Primary emphasis is focused on developing the teaching skills and competencies of future

lower elementary and early childhood teachers with respect to topics found in these curricula areas. A key component of the course is Competency-based clinical practice with students in grades PK-3 settings. The needs of special populations as well as the integration of technology into instruction will be incorporated into all areas of the curriculum. Competency-based clinical practice required. Concurrent enrollment in EDUC 320 and prior credit or concurrent enrollment in LSED 401. Education Majors only. (Fall, Spring)

324. Dyslexia - Struggling Readers and Writers. Credit 3 hours. Prerequisites: Full SARTE status, "C" or higher in EDUC 322 or ECE 311. Emphasis will be placed upon the specific needs of struggling readers and writers who have characteristics of learning disabilities such as dyslexia, dysgraphia, oral and written language difficulties (OWL), etc. It will also address problems in mathematics due to poor reading/writing and/or dyscalculia and special populations who struggle in reading and writing such as English Language Learners (ELLs). Research-based, classroom interventions (e.g., multisensory instruction) and scientifically-based, specialized programs will be emphasized. (Fall, Spring)

326. Curriculum and Instruction in Grades 1-5. Credit 6 hours. Prerequisites: EDUC 304, EDUC 307, EDUC 315, MATH 177, MATH 277, an approved Introductory Portfolio, and Full SARTE status. This course includes the development of teaching competencies of mathematics and reading at the 1-5 grade levels. Primary emphasis is focused on developing the teaching skills and competencies of future elementary school teachers with respect to topics found in these curricular areas. A key component of the course is field experience with students in grades 1-5 settings. The needs of special populations as well as the integration of technology into instruction will be incorporated into all areas of the curriculum. Competency based clinical practice required. Concurrent enrollment in EDUC 320 and 322, and prior credit or concurrent enrollment in LSED 401 depending on the curriculum. Education majors only. (Fall, Spring)

327. Teaching Science and Social Studies in Elementary School. Credit 6 hours. Prerequisites: Full SARTE status, EDUC 307 and EDUC 315. Must be taken concurrently with EDUC 333. Best practices for instruction in science and social studies for grades 1-5. Topics include planning for inquiry-based teaching, planning appropriate assessment and classroom strategies for science and social studies content, planning for children's developmental readiness for concepts and process skills, use of resources and tools in each discipline, and developing reflective teaching practices. Clinical practice required. (Fall, Spring)

328. Curriculum and Instruction in Grades 4-8. Credit 6 hours. Prerequisites: EDUC 308, EDUC 307, EDUC 315, MATH 177, MATH 277, prior credit or concurrent enrollment in LSED 402, an approved Introductory Portfolio, and Full SARTE status. This course includes the development of teaching competencies of mathematics and reading at the 4-8 grade levels. Primary emphasis is focused on developing the teaching skills and competencies of future middle school teachers with respect to topics found in these curricula areas. A key component of the course is field experience with students in grades 4-8 settings. The needs of special populations as well as the integration of technology into instruction will be incorporated into all areas of the curriculum. Concurrent enrollment in EDUC 320, and prior credit or concurrent enrollment in LSED 402 depending on the curriculum. Field experience required. Education majors only. (Fall, Spring)

332. Current Topics in Technology for Elementary, Middle and Secondary Education. Credit 1 hour. Prerequisites: Full SARTE status, EDUC 307, EDUC 315, and prior credit for or concurrent enrollment in EDUC 322. An overview of current topics and latest trends of technology in both the elementary and secondary education classroom. This course may be repeated as topics vary for a maximum of nine credit hours. (Fall, Spring)

333. Elementary Curriculum and Instruction in Language Arts and Literacy. Credit 6 hours. Prerequisites: EDUC 322, Full SARTE status, EDUC 307, and EDUC 315. Must be taken concurrently with EDUC 327. This course includes the development of teaching competencies of language arts and literacy in grades 1-5. Teaching theories and practices for language arts and literacy will be explored through the use of research, observation, and hands-on activities and presentations. The needs of special populations as well as the integration of technology into instruction will be incorporated Clinical practice required. (Fall, Spring)

404/530. Kindergarten Education. Credit 3 hours. Prerequisites: EDUC 202 and EPSY 301. Development of the nursery, kindergarten, and primary schools; principles and methods of understanding and working with the preschool child; two hours per week of observation and participation in kindergarten. (Varies)

405/531. Kindergarten Education. Credit 3 hours. Prerequisites: EDUC 202 and EPSY 301. A continuation of Education 404/530. (Varies)

406. Historical and Philosophical Foundations of Education. Credit 3 hours. Prerequisite: Junior standing. A course designed to review major social, political, religious, and intellectual movements and philosophical theories and systems which have influenced the development of education. The material will be arranged chronologically and treated thematically. The contributions of leaders associated with each movement and philosophy will also be stressed. (Varies)

407/533. Tests and Measurements. Credit 3 hours. Prerequisite: Full SARTE status. Focus of the course is instructional alignment in which the objectives a teacher intends to teach match the lesson activities and are checked through appropriate assessments. Construction of lesson plans and teacher made assessments and the administration and interpretation of standardized tests and the Louisiana school district performance scoring are emphasized in this course. Clinical practice required. Education majors only. (Summer, Fall, Spring)

410. Elementary Curriculum and Instruction. Credit 10 hours. Prerequisites: EDUC 321, EPSY 301, and MUS 291. The content of this block includes: reading, language arts, sciences, social studies, and music, as related to the needs of the child. Teaching strategies in the curricula areas will be explored and refined through working with children in a school environment. Primary emphasis of this block is focused on the future teacher's performance in working with children. Evaluation techniques are reviewed and applied in the experiences gained in this block. KIN 331 must be taken concurrently. Five hours lecture and eight hours laboratory per week. (Varies)

415. Curriculum and Instruction in the Elementary School. Credit 9 hours. Prerequisites: Full SARTE status, Introductory Portfolio, MUS 291, EDUC 320, EDUC 322, and EDUC 326. The content of this block includes: reading, language arts, science, social studies, and music, as related to the needs of the child. Teaching strategies in the curricular areas will be explored and refined through working with children in a school environment. Primary emphasis of this block is focused on the future teacher's performance in working with children. Field experience required. SPED 495 must be taken concurrently. Evaluation techniques are viewed and applied in the experiences gained in this block. Education majors only. (Fall, Spring)

416/516. Methods for Teaching English as a Second Language. Credit 3 hours. This course will incorporate different methodology for teaching English as a Second Language (ESL) and academic content with exploration and development of lessons appropriate for students who are limited English proficient (LEP). This course will include methodologies and activities to make the English language and academic content comprehensible to students. This course will be for certified teachers and candidates enrolled in a teacher education program. (Fall, Spring)

425. Elementary and Mild/Moderate Impairments Professional Semester. Credit 12 hours. Prerequisites: See Requirements for Student Teaching section in the catalog. All-day, all-semester student teaching experiences including observation, participation and a minimum of 180 actual clock hours of teaching (with a substantial portion of the 180 hours in a full day teaching) under the supervision of the assigned cooperating school teacher. Students will teach one half semester in the regular classroom setting and one-half semester in the mild/moderate classroom setting. Available on a pass/fail basis only. (Varies)

426. Elementary Professional Semester. Credit 12 hours. Prerequisites: See Requirements for Student Teaching section in the Catalog. All-day, all-semester student teaching experiences including observation, participation and a minimum of 180 actual clock hours of teaching (with a substantial portion of the 180 hours in a full day teaching) under the supervision of the assigned cooperating school teacher. Available on a pass/fail basis only. (Varies)

427. Student Teaching in the Elementary or Middle School. Credit 9 hours. Prerequisites: See Requirements for Student Teaching section in the Catalog. All day, all semester student teaching experiences, including observation, participation, and a minimum of 180 actual clock hours of teaching (with a substantial portion of the 180 hours in a full day teaching) under the supervision of the assigned cooperating school teacher. Available on a pass/fail basis only. (Fall, Spring)

428/528. Curriculum Design for Teaching English as a Second Language. Credit 3 hours. This course includes theory and procedures for the practical application of second language learning as well as the use of learning strategies. Also, this course is for the design of curriculum and assessment for teaching language and content to limited English proficient (LEP) students. Students who enroll in this course will be required to have exposure to LEP students to become familiar with their linguistic and cultural needs. This course is for certified teachers and candidates participating in a teacher education program. (Fall, Spring)

429. Practicum for Alternate Certification Program. Credit 3 hours. To be repeated for a total of six hours. A practicum designed to meet the requirements for the Alternate Post-Baccalaureate Certification Program. Students will enroll in this course for both semesters of the internship year. Approval of the Director of Performance Assessment is required. Available on a pass/fail basis only. (Fall, Spring)

430. Practicum in Teaching. Credit 3 hours. Prerequisites: Louisiana Teaching Certificate for either elementary or secondary level; three years of successful teaching experience; approval of the Office of Student Teaching. Available at the secondary level for teachers previously certified on the elementary level, and at the elementary level for teachers previously certified at the secondary level. A field-based experience-centered course designed to acquaint the teacher with concepts and objectives, introduction to methods and procedures, psychological principles, and identification and application of evaluation techniques appropriate to the teaching-learning process at the selected level. Available on a pass/fail basis only. (Varies)

431. Practicum in Nursery School. Credit 3 hours. Prerequisites: EDUC 410 or 415, FCS 321 and 460. Observation, participation, and teaching in the nursery school. Emphasis on program planning for pre-kindergarten children. The student must apply to the Director of Performance Assessment one semester in advance in order to enroll for this course. Mornings are the only times available for the practicum. (Varies)

432/586. Practicum in Kindergarten. Credit 3 hours. Prerequisites: EDUC 404/530, EDUC 410 or 415 and FCS 321. An advanced practicum course designed to give practice in teaching appropriate for the kindergarten level. Experiences are provided for observation, teaching, and evaluation of kindergarten children. Seminars are held for planning, evaluation, and discussion. The student must apply to the Director of Performance Assessment one semester in advance to enroll for this course. (Varies)

433/550. Practicum in Second Language Teaching. Credit 3 hours. Prerequisites: EPSY 413/513 and EDUC 413/534. Primary emphasis of this semester will be placed on teaching children in both their native language and a second language, under the guidance of a cooperating teacher. Practicum experience will include curriculum and instruction in the use of two languages. (Varies)

436. Student Teaching in Mild/Moderate Impairments. Credit 3 hours. Prerequisites: See Requirements for Student Teaching section in the catalog. Observation, participation, and student teaching in the mild/moderate classroom. A minimum of six hours per week for the semester in the public or nonpublic schools plus any additional conference time that may be necessary. (Varies)

437. Student Teaching in Mild/Moderate Impairments. Credit 6 hours. Prerequisites: See Requirements for Student Teaching section in the catalog. Observation, participation, and student teaching in the mild/moderate classroom. A minimum of twelve hours per week for the semester in the public or nonpublic schools plus any additional conference time that may be necessary. (Varies)

438. Student Teaching in Severe/Profound Impairments. Credit 3 hours. Prerequisites: See Requirements for Student Teaching section in the catalog. Observation, participation, and student teaching in the severe/profound classroom. A minimum of six hours per week for the semester in the public or nonpublic schools plus any additional conference time that may be necessary. (Varies)

439. Student Teaching in Severe/Profound Impairments. Credit 6 hours. Prerequisites: See Requirements for Student Teaching section in the catalog. Observation, participation, and student teaching in the severe/profound classroom. A minimum of twelve hours per week for the semester in the public or nonpublic schools plus any additional conference time that may be necessary. (Varies)

447/547. Current Issues in Elementary/Secondary Education. Credit 1-3 hours. Seminar to clarify trends, methods, and/or material and curriculum with practical organizational procedures for implementation. May be repeated for a maximum total of 6 hours. (Varies)

448. Apprenticeship I in Elementary or Secondary Education. Credit 9 hours. Prerequisites: Full SARTE status, successful completion of Introductory Portfolio, passing score on the Content Praxis II, Minimum 2.5 GPA required with a 3.0 GPA preferred to make application, and permission of the Department Head and school district. Also offered as MAT 662. This apprenticeship provides the Elementary, Middle School, and Secondary Education major or alternative certification candidate with an assigned placement selected and approved by the University in partnership with a cooperating school/district. The content of this apprenticeship encompasses materials and methods including best practices and innovative teaching strategies in the teacher candidate's major field of certification that is engaged through on-the-job training in the school environment. Lesson planning, alternative assessment, classroom management, and education technology are topics addressed in the apprenticeship. Must be taken concurrently with SPED 495 for Elementary and Middle School Education majors. Teacher candidates will earn nine hours of credit for a minimum of 500 hours of approved work experience that follows the school district calendar. Candidates must apply with written application, interview, and be selected as an apprentice teacher. (Varies)

449. Mathematics Curriculum and Instruction in the Elementary Classroom. Credit 3 hours. Prerequisites: Must be taken concurrently with EDUC 452 and 453. This course includes the development of teaching competencies of mathematics at the elementary grade levels. Primary emphasis is on developing the teaching skills and competencies of future elementary teachers with respect to mathematics. The needs of special populations as well as the integration of technology into instruction will be incorporated. (Fall, Spring)

450. Student Teaching II: Elementary and Mild/Moderate Disabilities. Credit 9 hours. Prerequisites: See Requirements for Teacher Residency Section in the catalog. Student Teaching II is the second semester of a full year residency for student teaching, and is all day, all week following the assigned school district calendar. Student teaching experiences include observation, participation in school activities, management of classroom and student behaviors, daily lesson planning, instruction, and assessment under the supervision of an assigned mentor teacher from a partner school. Student teachers must receive a final grade of "Pass" (P) in order to graduate. (Fall, Spring)

452. Elementary Curriculum and Instruction: Literacy. Credit 3 hours. Prerequisites: Prior credit for or concurrent enrollment in LSED 401 if it is in the degree plan. Must be taken concurrently with EDUC 449 and 453. This course includes the development of teaching competencies of reading at the elementary grade levels. Primary emphasis is on developing the teaching skills and competencies of future elementary school teachers with respect to topics found in the area of literacy. The needs of special populations as well as the integration of technology into instruction will be incorporated. (Fall, Spring)

453. Teaching Residency. Credit 6 hours. Prerequisites: See requirements for Teacher Residency Section in the catalog. Early Childhood Education candidates take concurrently with EDUC 456 and 457. Elementary Education candidates take concurrently with EDUC 449 and 452. Middle School Education candidates must have prior credit for EDUC 494 and take concurrently with 468 or 469 depending on concentration area. Secondary and K-12 Education candidates must take concurrently with senior content methods course. Teaching Residency is the first semester of a full year residency for competency based clinical practice. Teacher residents will be placed in schools according to their certification

programs. The teacher resident will spend at least 60% of the instructional time in partnering schools under the supervision of an assigned mentor teacher. Through co-teaching with the mentor teacher, the teacher resident will work on instructional planning and implementation, classroom management and increasing student engagement and achievement. Residents must receive a B or higher for the course to count towards their program completion. (Fall, Spring)

456. Curriculum and Instruction in Early Literacy. Credit 3 hours. Prerequisites: Must be taken concurrently with EDUC 453 and 457. This course includes the development of teaching competencies of future early childhood and lower elementary teachers with respect to topics in literacy. The needs of special populations as well as the integration of technology in instruction will be incorporated. (Fall, Spring)

457. Curriculum and Instruction in Early Childhood Mathematics. Credit 3 hours. Prerequisites: Must be taken concurrently with EDUC 453 and 456. This course includes the development of teaching competencies of mathematics of future PK-3 grade teachers. Primary emphasis is focused on developing the teaching skills and competencies of future early childhood and lower elementary teachers with respect to topics found in these curricular areas. The needs of special populations as well as the integration of technology into instruction will be incorporated into all areas of the curriculum. (Fall, Spring)

467/563. Reading Instruction in Adult Education. Credit 3 hours. A course dealing with the study of the diagnosis of adult reading problems and methods/materials utilized to teach basic reading skills to illiterate adults. (Varies)

468. Teaching Science and Mathematics in Middle School. Credit 3 hours. Prerequisite: Must be taken concurrently with EDUC 453. Best practices for instruction in science and mathematics for the middle school grades. Topics include planning for inquiry-based teaching, planning appropriate assessment and classroom strategies for science and mathematics content, planning for children's developmental readiness for concepts and process skills, use of resources and tools in each discipline, and developing reflective teaching practices. (Fall, Spring)

469. Teaching Reading and Social Studies in Middle School. Credit 3 hours. Prerequisites: Prior credit for or concurrent enrollment in LSED 402. Must be taken concurrently with EDUC 453. Middle School Education candidates with a focus in English take with ENGL 467. Middle School Education candidates with a focus in Social Studies take with HIST 323. This course includes the development of teaching competencies of reading and social studies in the middle school grade levels. The needs of special populations as well as the integration of technology into instruction will be incorporated. (Fall, Spring)

472. Content Literacy Strategies and Supports for Dyslexic and Other Diverse Students. Credit 3 hours. Prerequisites: Full SARTE status, "C" or higher in ESPY 301 or PSYC 204. A course designed to provide middle school and secondary school teachers with a knowledge of Dyslexic and Other Diverse Students through content literacy strategies; methods and materials that can be implemented with various cultural groups; and skills for developing the reading abilities of students. Special emphasis will be given to reading in the content areas and research-based strategies to support students in those content areas. Clinical practice required. Education majors only. (Summer, Fall, Spring)

475/566. Current Issues in Elementary/Secondary Education. Credit 1 hour. Seminar to clarify trends, methods and/or materials in curriculum with practical organizational procedures for implementation. May be repeated for a total of 2 hours credit, with no more than 1 credit hour in any one semester. (Varies)

484. Upper Elementary Curriculum and Instruction. Credit 6 hours. Prerequisite: Full SARTE status, Introductory Portfolio, EDUC 320 and EDUC 328. The content of this block includes the development of teaching competencies in science, social studies, and language arts. Consideration of curriculum organization, behavioral and humanistic approaches to classroom management, methods and materials for meeting the needs of all learners at the upper elementary level; observation and application in grades 4-8. Concurrent enrollment in SPED 495. Field experience required. Education majors only. (Fall, Spring)

485. Special Methods in High School Subjects. Credit 3 hours. Prerequisite: Must be taken concurrently with EDUC 453. Emphasis will be placed on the materials and methods in the student's major field of certification. The focus of the course is on lesson planning, alternative assessment, classroom management, and educational technologies. (Fall, Spring)

486. Teaching Residency Capstone. Credit 9 hours. Prerequisites: A grade of B or higher in EDUC 453 (See Requirements for Teacher Residency section in the catalog). Teaching Residency Capstone is the final semester of a residency for competency based clinical practice and is all day, all week following the assigned school district calendar. Practice teaching experiences include observation, participation in school activities, management of classroom and student behaviors, daily lesson planning, instruction, and assessment under the supervision of an assigned mentor teacher from a partner school. Residents must receive a final grade of B or higher in order to graduate. (Fall, Spring)

487. Student Teaching in the Secondary Schools. Credit 12 hours. Prerequisites: See Requirements for Student Teaching section in this Catalog. All-day, all-semester student teaching experiences, including observation, participation, and a minimum of 180 actual clock hours of teaching (with a substantial portion of the 180 hours in full day teaching) under the supervision of the assigned cooperating school teacher. Available on a pass/fail basis only. (Varies)

488. Practicum: Field Experience in the Secondary Classroom. Credit 1 hour. Prerequisite: This course must be taken concurrently with EDUC 485. Full SARTE status, concurrent enrollment or prior credit for EDUC 407; EDUC 202, EPSY 311. The practicum provides experiences in classroom observations and supervised teaching, demonstration of classroom management techniques and utilization of educational technology in the secondary classroom (grades 7-12). (Varies)

490. Special Methods in High School Subjects. Credit 6 hours. Prerequisites: Full SARTE status and an approved Introductory Portfolio. This course must be taken prior to student teaching. Emphasis will be placed on the materials and methods in the student's major field of certification. Lesson planning, alternative assessment, classroom management, and educational technologies are topics covered in the course. Field experience component required. (Fall, Spring)

494. Methods in Middle School Subjects. Credit 6 hours. Prerequisites: Full SARTE status, EDUC 307 and EDUC 315. Emphasis is placed on materials and methods for teacher candidates in the grade levels for middle school certification. Topics include lesson planning, alternative assessment, classroom management, and educational technologies. (Fall, Spring)

499. Teacher Development Seminar. Credit 1-3 hours. Prerequisite: Permission of the Department Head. The support seminar must be taken based upon recommendation of the Office of Student Teaching when student teaching has not been successfully completed. This course addresses the relationships among three fundamental aspects of the educational process: the subject matter of the curriculum, the diverse capabilities of students, and the teacher's responsibilities to design and implement instruction. Emphasis will be placed on major issues facing teachers in establishing and maintaining a positive and productive learning environment, as well as the professional roles and responsibilities. (Varies)

516. Methods for Teaching English as a Secondary Language. Credit 3 hours. This course will incorporate different methodologies for teaching English as a Second Language (ESL) and academic content with exploration and development of lessons appropriate for students who are limited to English proficiency (LEP). The form of this course will include methodologies and activities to make the English language and academic content comprehensible to students. This course will be certified for teachers and candidates enrolled in a teacher education program. (Varies)

528. Curriculum Design for Teaching English as a Secondary Language. Credit 3 hours. This course includes theory and procedures for the practical application of second language learning as well as the use of learning strategies. Also, this course is for the design of curriculum and assessment for teaching language and content to limited English proficient (LEP) students. Students who enroll in this course will be required to

have exposure to LEP students to become familiar with their linguistic and cultural needs. This course is for certified teachers and candidates participating in a teacher education program. (Varies)

533. Test and Measurements. Credit 3 hours. Prerequisites: Full SARTE status. The focus of the course is instructional alignment in which the objectives a teacher intends to teach match the lesson activities and are checked through appropriate assessments. Construction of lesson plans and teacher-made assessments and the administration and interpretation of standardized tests and the Louisiana school and district performance scoring are emphasized in this course. Clinical practice is required. Education majors only. (Varies)

547. Current Issues in Elementary/Secondary Education. Credit 1-3 hours. Seminar to clarify trends, methods, and/or material and curriculum with practical organizational procedures for implementation. May be repeated for a maximum total of 6 hours. (Varies)

550. Practicum in Second Language Teaching. Credit 3 hours. Prerequisites: EPSY 413/513 and EDUC 413/534. The primary emphasis of this semester will be placed on teaching children in both their native language and a second language, under the guidance of a cooperating teacher. Practicum experience will include curriculum and instruction in the use of two languages. (Varies)

563. Read Instruction in Adult Education. Credit 3 hours. A course dealing with the study of the diagnosis of adult reading problems and methods/materials utilized to teach basic reading skills to illiterate adults. (Varies)

601. Educational Statistics and Research. Credit 3 hours. The study of basic statistical concepts. Students will be introduced to fundamental concepts and procedures in the scientific study of educational problems. Content will include the examination of principal research methods including action research, an analysis of research studies, and the application of research principles with emphasis on improvement in professional practice. (Varies)

605. Research Seminar in Gifted and Talented Education. Credit 3 hours. Prerequisite: EDUC 648. An in-depth study of research in the creative thinking and problem-solving curriculum development for gifted and talented students. Special emphasis will be placed on principles, methods, and evaluation of research as they relate specifically to the gifted and talented student. (Varies)

618. Counseling for the Gifted. Credit 3 hours. A study of the challenges of adjustment encountered by gifted and talented students and their families. Special emphasis placed on counseling and guidance techniques appropriate in facilitating personal and family adjustments. Experience component included. (Fall)

636. Mentoring Student Teachers. Credit 3 hours. Prerequisite: A valid Level 1 or Type C or higher teaching certificate, 2 years of successful teaching, and assignment of a student teacher to mentor. Designed for teachers who are interested in becoming state trained mentor teachers. Emphasis will be placed on the state-required mentor teacher training modules and mandated assessments. Additional information will focus on experiences that help student teachers in early childhood, elementary, middle, and secondary education, as well as special education and K-12 subject areas. (Varies)

645. Graduate Student Teaching/Clinical Practicum in Communicative Disorders in the Elementary and Secondary Schools. Credit 6 hours. Prerequisites: See Requirements for Student Teaching in this Catalog. Graduate standing and minimum 90 hours of previous school experience in a setting other than a public-school facility. All day, all semester clinical experiences, including observation, participation, I.E.P. and diagnostic report writing and parental counseling. One hundred twenty (120) hours student teaching will be conducted under the supervision of the assigned cooperating school therapist. Concurrent enrollment in Speech, Language, Hearing 625. (Varies)

646. Laboratory Practicum in Teaching the Gifted Child. Credit 3 hours. Prerequisites: EDUC 648 and 649 or permission of the Department Head. Lecture and supervised practicum with individuals and small groups. Includes informal assessment, curriculum planning, development and implementation, and counseling. (Spring)

647. Creativity in Gifted Education. Credit 3 hours. This course will explore the area of creativity, focus on relevant theories and research, and prepare teachers to nurture and develop creativity in their students. (Summer)

648. Characteristics of the Gifted Child. Credit 3 hours. An orientation of the student to the basic understanding of the gifted child with emphasis upon identification, characteristics, and implications for educational, social, physical, emotional, and psychological development. (Fall)

649. Methods and Materials in Education of the Gifted. Credit 3 hours. Prerequisite: EDUC 648. An examination of provisions currently available for gifted children with reference to the concepts of acceleration, grouping, concepts of curriculum enrichment, special schools and classes, as well as an exploration of research relative to the adaptation of newer techniques to meet their needs. (Spring)

650. Mathematics in the Elementary School. Credit 3 hours. A study of recent research findings concerning methods of teaching and the content of elementary school mathematics. Students will be expected to apply diagnosis and prescription techniques in order to individualize their teaching of mathematics. (Varies)

651. Social Studies in the Classroom. Credit 3 hours. A course designed to provide understanding of current best practices in teaching social studies and the importance of social studies to student development. Content, methods, materials, and general curricular implications will be considered. (Varies)

652. Science in the Elementary School. Credit 3 hours. A study of current approaches to teaching science in the elementary school. Special emphasis will be given to a various science studies being developed throughout the nation. (Varies)

653. Student Teaching in Early Intervention. Credit 9 hours. Prerequisites: See Requirements for Student Teaching section in this Catalog. Observation, participation, and student teaching in an early intervention setting. Available on a pass/fail basis only. (Varies)

654. Language Arts in the Classroom. Credit 3 hours. A course providing a review of current research and practices for teaching the language arts. Special emphasis is placed on teaching the writing process with appropriate strategies according to the developmental level of the students. (Varies)

655. Music in the Elementary School. Credit 3 hours. A study and application of current trends and materials in music education for the elementary school. Emphasis is placed on involving the child through singing, speech, movement, and playing instruments. (Varies)

656. Special Problems in the Elementary School. Credit 3 hours. Prerequisites: EDF 600 and 607, 615 or 616. Study of contemporary problems in elementary education. A review of pertinent research relating to these problems. Each student is expected to do intensive reading and reporting in areas deemed of particular interest and need, as identified by student and instructor. May be repeated for a total of six hours credit, with no more than three credit hours in any one semester. (Varies)

657. Reading in the Elementary School. Credit 3 hours. A course providing for extensive study of recent trends in materials and methods in reading in the elementary school, including significant research studies which relate to these. Specifically emphasized will be various learning styles, the discussion of specific methods and materials, and their cross-cultural applicability. (Fall, Spring)

658. Reading in the Secondary School. Credit 3 hours. A course providing for extensive study of recent trends in materials and methods of reading in the secondary school, including significant research studies which relate to these. Special materials will be considered for use and adaptation with various cultural groups. Specific methodology within the content area will be explored. (Fall, Spring)

659. Psychology of Reading. Credit 3 hours. Prerequisite: EDUC 657 for elementary majors or EDUC 658 for secondary majors. Provides teachers with an understanding of the psychological bases of the reading process—those underlying reading ability and disability. Applications of the findings and theories of the psychologist to classroom situations are studied through the use of actual case studies. (Varies)

660. Dimensions of Diversity for Education: Students, Families, Cultures, and Communities. Credit 3 hours. This is a core course for all students pursuing a master's degree in education. This course focuses on meeting the cultural, linguistic, and educational needs of diverse

learners in schools through differentiated instruction and assessment. It also focuses on positive partnerships that can be developed among schools, students, their families, and their communities to foster cross cultural interactions, cultural understanding, social and economic development, and academic achievement. Graduate students enrolled in this course will be required to participate in clinical practice required, including visits to culturally and/or linguistically different populations. (Summer, Fall, Spring)

661. Diagnostic and Prescriptive Reading. Credit 3 hours. Prerequisite: EDUC 657, EDUC 658, EDUC 677, EDUC 678, or SPED 663. This course will cover a variety of formal and informal reading assessments. Students will learn to administer them, to interpret them, and to use their results to plan and implement appropriate instructional sessions geared to children's diverse needs. Reflective and professional writing are key components of this course. (Spring)

662. Reading Research Seminar. Credit 3 hours. Prerequisites: EDF 600, EDUC 657 or EDUC 658 or equivalent, EDUC 659 and EDUC 661 or equivalent. Intensive investigation of current and/or classic research studies of recognized importance to the teacher of reading, with encouragement and guidance offered to the student pursuing action research in reading. (Varies)

664. Content Area Reading and Study Strategies. Credit 3 hours. A course designed to develop competencies in teaching strategies for content area subjects. Emphasis will be directed to teaching activities, specialized skills, and study strategies for learning substantive content through the reading of expository discourse and graphic representatives. Cross-cultural reading problems in the content areas and special methods for helping students overcome these problems will be discussed. (Summer)

665. Elementary Levels-Practicum in Reading. Credit 3 hours. Prerequisites: EDUC 657 and 661. An advanced laboratory course designed to give practice in developmental reading techniques appropriate to elementary levels. Experiences are provided in diagnosis, instructional planning, and evaluation of reading progress, using recognized practices presently available. (Summer)

666. Middle/Secondary Levels-Practicum in Reading. Credit 3 hours. Prerequisites: EDUC 658 and 661. An advanced laboratory course designed to give practice in the application of content area reading techniques at middle and secondary school levels. Experiences include diagnosis, instructional strategies and evaluation practices for determining reading progress. (Varies)

667. Readings in Secondary Education. Credit 3 hours. Prerequisite: EDF 600. An examination of current research and professional literature in secondary education. An in-depth semester project is to be developed by the student under the direction of the course instructor. (Varies)

668. The Junior High School. Credit 3 hours. The peculiar functions of the junior high school; its organization and place in the school system. (Varies)

669. Utilization of Audio-Visual Equipment. Credit 3 hours. Prerequisite: EPSY 301 or permission of the Department Head. A study of various media available for use in elementary and secondary schools, with special emphasis on new educational technology. Investigation and experimentation on multimedia approach for effective utilization of instructional materials. (Varies)

670. Media Production. Credit 3 hours. A study of methods and techniques of producing teaching materials. Students are taught production techniques and proper utilization of overhead transparencies, audio and video tapes, dry mounting and lamination and other materials which are useful in the elementary and secondary school classroom. Special emphasis is given to the correlation and fusion of Education Media in the instructional program. (Varies)

671. Instructional Television in the Schools. Credit 3 hours. An introduction to the various types of television usage which differentiate between commercial, educational, and instructional television. Lectures and laboratory experiences pertaining to the use of television in the classroom. Special techniques needed for teaching with television. Two hours lecture and two hours laboratory per week. (Varies)

672. Administration of Media Programs. Credit 3 hours. Prerequisites: EDUC 669 and EDUC 670. This course is designed to offer a survey of the general principles and practices in administering a media center at various levels-single building, system-wide, or college. Activities will be flexible and include practical problems, readings, and exploration of various areas in print and non-print materials. (Varies)

673. Independent Study. Credit 1-3 hours. Prerequisites: EDF 600 and permission of the Department Head. Student completes research study and report under direction of graduate instructor. The course may be repeated for a total of six hours, with no more than three credit hours in any one semester. A maximum of three hours of credit in Independent Study may be applied toward the Master of Education Degree. (Varies)

674. Readings in Education. Credit 3 hours. Prerequisites: EDF 600 and permission of the Department Head. Directed readings on selected topics in education. Area(s) of reading and study to be designated by instructor. Student may repeat the course for a total of six credit hours, with no more than three credit hours in any one semester. A maximum of three hours of credit in Readings may be applied toward the Master of Education degree. (Varies)

675. Special Topics in Elementary and Secondary Education. Credit 3 hours. An intensive examination of issues relevant to education and the schools. May be repeated as topics vary for a maximum of nine credit hours. (Varies)

677. Foundations of Early Literacy. Credit 3 hours. A practical course which focuses on developing a better understanding of how children learn to read and how to teach children to read by more closely observing student reading and writing behaviors; understanding more explicitly the reciprocity of reading and writing; learning how to "teach for strategies;" and exploring the reading process in order to foster independent readers and writers. A developmentally appropriate instructional literacy program based on current research, observation, and responsive teaching as a foundation for promoting literacy acquisition will be designed and implemented. (Fall, Spring)

678. Dyslexia and Related Disabilities in the Classroom. Credit 3 hours. A survey of theories, screening procedures, and teaching strategies to be utilized with students with dyslexia and related disabilities (e.g., dyslexia, dysgraphia, dyssomnia, etc.). Current research, specific characteristics, multisensory strategies, and management techniques will be discussed and applied. (Fall, Spring)

679. Perspectives and Practices for STEM Education. Credit 3 hours. This course will examine the curriculum, goals, methods, and materials for teaching the STEM (Science, Technology, Engineering, and Mathematics) curriculum in elementary and secondary schools. It will focus on methods for making these integrated subjects meaningful to students by promoting problem-based and project-based learning in a real-world context. Field components are required. (Varies)

688. Practicum in Elementary and Secondary Education. Credit 3 hours. Prerequisite: EDUC 693. Students will identify a specific area in which educational improvement is needed within an elementary or secondary educational setting. Students will develop a plan to facilitate improvement in the area of concern. Under the direction and supervision of a faculty member, students will implement the plan and evaluate its effectiveness at the end of the semester. (Varies)

690. Instructional Coaching in Schools. Credit 3 hours. Prerequisites: EDL 610 and EDL 612. A study of roles, responsibilities and practices of instructional coaches and mentors in schools are emphasized along with data-driven research-based instructional practices, differentiated instruction, and collaborating with school administrators and instructional personnel. Theories concerning adult learning, the social and psychological aspects of teacher career development are examined, along with the impact of school climate and culture on teacher collegiality. A clinical practice required. (Varies)

691. Curriculum Development in the Elementary School. Credit 3 hours. Study of the principles and procedures for validating educational objectives in the elementary school, selecting and structuring experiences, initiating and directing curricular change, and evaluating results of curricular planning. (Fall)

692. Curriculum and Instruction in the Secondary School. Credit 3 hours. A critical study of teaching techniques and strategies and reappraisal of the selection of experiences and content for the improvement of curriculum and teaching practices in the secondary school. Review and analysis of available reports of research in curriculum and instruction are emphasized. (Varies)

693. Leadership for Change. Credit 3 hours. Prerequisite: EDUC 601. This course is designed to provide advanced candidates with the knowledge and skills to become leaders for school improvement. Emphasis is placed on the practical applications of principles and procedures in the scientific study of educational problems. In this course, candidates will identify issues and develop a leadership portfolio. A location for clinical practice is required to provide context for developing leadership potential. (Fall, Spring)

694. Sociological Issues Impacting Today's Schools. Credit 3 hours. Societal issues that are having a major impact upon education will be addressed in this course. This course will help educators develop a cultural consciousness and assist them in developing multiple perspectives in school settings. The content of this course will provide the student with knowledge of prevailing factors that influence education and the curriculum in today's schools. (Varies)

695. Capstone Seminar. Credit 3 hours. Prerequisites: EDUC 601. This course is the second in a series of two research-based courses. Emphasis is placed on preparing educators with an advanced degree for the roles as teacher leaders and collaborators for change and improvement in districts and schools. Further, candidates will expand their knowledge of strategies that will prepare them to continue to be lifelong learners. The action research project requires access to a clinical practice site in which to frame and conduct research. As the capstone experience for the Master's of Education in Curriculum and Instruction, this course should be taken in the last Fall or Spring semester of program coursework. (Fall, Spring)

696. Curriculum Development for Middle School. Credit 3 hours. This course is a comprehensive examination of middle schools and the middle school movement. It covers history, philosophy, curriculum of middle schools, effective middle schools, organization, programs, and the essential characteristics of middle level learners. (Spring)

699. Global Partnerships for Fostering Cultural Pluralism. Credit 3 hours. A cultural partnership course offered as an enhancement to increase awareness, knowledge, understanding and appreciation of cultural pluralism. Learning experiences will address the multicultural and diversity needs of advanced candidates in teacher education. (Varies)

700. Internship for Teacher Leaders and Instructional Coaches. Credit 3 hours. Prerequisites: All concentration area courses. A supervised internship for teacher leaders and instructional coaches developed in collaboration with school districts. Students observe and participate in directing, guiding, and evaluating instructional processes and/or activities related to collaboration, school improvement, and change. Direct involvement with instructional personnel, school administrators and staff, parents, and community members is emphasized. (Varies)

706. Seminar in Reading. Credit 3 hours. Prerequisite: Advanced standing in the graduate program or permission of the Head of the Department. An intensive examination into the issues relative to the reading program. This course will be interdisciplinary in nature and will focus upon contributions of research, philosophy, history, and educational psychology as they apply to the resolution of major issues in reading. May be repeated for a total of six hours credit, with no more than three credit hours in any one semester. (Varies)

713. Independent Research Study. Credit 3 hours. Prerequisites: EDF 600 and advanced standing in the Specialist program. Examination and in-depth study, research, and evaluation of contemporary problems. (Varies)

714. Independent Research Study. Credit 3 hours. Prerequisites: EDF 600 and advanced standing in the Specialist program. Examination and in-depth study, research, and evaluation of contemporary problems. (Varies)

790. Specialist Thesis. Credit 1-6 hours each semester, with 6 hours needed for graduation. The student must enroll in the thesis course each semester the thesis is in progress. The thesis is graded Pass/Fail. (Varies)

Educational Foundations (EDF)

600. Application of Educational Research. Credit 3 hours. Prerequisites: EDL 635, EDL 722, and concurrent enrollment in EDL 723 or permission of Department Head. Principles and procedures in the scientific study of educational problems. Examination of principal research methods and application of research principles for educational leaders. (Varies)

607. Philosophy of Education. Credit 3 hours. A study of major philosophical systems and the educational theories associated with each system. (Varies)

615. History of Education. Credit 3 hours. The growth and development of education and educational institutions from prehistoric times to the seventeenth century. (Varies)

616. History of American Education. Credit 3 hours. The development of American education from the seventeenth to the twentieth century. (Varies)

620. Using Data for School Improvement. Credit 3 hours. This course is designed to assist education professionals with their use of data to guide decision making and planning. Topics focus on developing data analysis skills through a review of types of data and sources, strategies for analyzing and interpreting data, and methods for determining how these efforts can relate to school improvement. (Varies)

673. Independent Study. Credit 3 hours. Prerequisites: EDF 600 and permission of the Department Head. Student completes research study and report under direction of graduate instructor. The course may be repeated for a total of 6 hours, with no more than 3 credit hours in any one semester. A maximum of 3 hours of credit in Independent Study may be applied toward the Master of Education. (Varies)

674. Readings in Education. Credit 3 hours. Prerequisites: EDF 600 and permission of the Department Head. Directed readings on selected topics in education. Area(s) of reading and study to be designated by instructor. Student may repeat the course for a total of 6 credit hours, with no more than 3 credit hours in any one semester. A maximum of 3 hours of credit in Readings may be applied toward the Master of Education. (Varies)

701. Educational Statistics. Credit 3 hours. Prerequisite: EDF 600. Study of basic statistical concepts, both descriptive and inferential. Emphasis is placed on the use of these concepts in solving educational problems. (Varies)

713. Independent Research Study. Credit 3 hours. Prerequisites: EDF 600 and advanced standing. Examination and in-depth study, research, and evaluation of contemporary problems. The course may be repeated for a maximum of six hours of credit. (Varies)

800. Introduction to Doctoral Program and Research Design in Educational Leadership. Credit 3 hours. Prerequisite: EDF 600 or equivalent. The purpose of this course is to begin to prepare students to undertake a major research study, specifically the dissertation. Requirements and expectations of doctoral candidates, as well as technology that will be used for program delivery will be addressed. This course also presents and discusses quantitative and qualitative methodologies and processes used in applied research. (Varies)

801. Writing for Research in Educational Leadership. Credit 3 hours. Prerequisite: EDF 800. This course is designed to prepare the doctoral student for the conduct of scholarly inquiry and writing. Topics include refining writing style, avoiding plagiarism, adhering to APA style, conducting literature reviews, and critiquing. It is expected that students will have knowledge of and skills in the use of computer applications, research and statistics, and information literacy. (Varies)

802. Quantitative Methods in Educational Leadership. Credit 3 hours. Prerequisite: EDF 800. This course builds on the foundations of research and statistics and introduces advanced statistical techniques commonly used in educational research. Focus is on developing skills in parametric and non-parametric analyses through the use of statistical analysis software. (Varies)

803. Qualitative Methods in Educational Leadership. Credit 3 hours. Prerequisite: EDF 800. Students in this course will discuss future trends, issues and problems in academic educational systems, understanding and developing a qualitative research design. Their focus will be to identify potential problems and solutions and develop useful and relevant theory in qualitative research. (Varies)

804. Mixed Methods Research in Educational Leadership. Credit 3 hours. Prerequisites: EDF 800, EDF 802, and EDF 803 or permission of Department Head. A course that presents mixed methods research as a unique and separate research methodology integrating both the quantitative and the qualitative approaches. Candidates will be prepared to design, conduct, and critique mixed methods research. (Varies)

990. Doctoral Dissertation Seminar II. Credit 3 hours. Prerequisite: EDF 900. Students in this course will work on the collection of data and reporting on the analysis of the results of their study. This course may be repeated for a maximum of six hours of credit. This course will be graded Pass/Fail only. (Varies)

999. Doctoral Dissertation. Credit 3-9 hours. Prerequisite: Permission of Program Coordinator. The purpose of this course is to assist students through the dissertation process, including successful defense of prospectus and proposal, as well as defense and completion of final dissertation through submission and university approval. Course must be repeated until successful defense of the dissertation. This course will be graded on a Pass/Fail basis. (Summer, Fall, Spring)

Educational Leadership (EDL)

610. Research Methods for Educational Leaders. Credit 3 hours. Prerequisite: Concurrent enrollment in EDL 612. The course is designed for educational leaders to provide an introduction to concepts and issues in research methods and data analysis. Candidates will be required to collect, analyze, and present educational data. (Varies)

612. Seminar I: Fostering Vision and Leadership in Educational Environments. Credits 3 hours. Prerequisite: Concurrent enrollment in EDL 610. The course will cover organization theory. Principles of organizational development will be explored, and special attention will be given to the development of shared visions and goals, and the strategic planning required to achieve them. (Varies)

625. Organizational Management. Credit 3 hours. Prerequisites: EDL 702, EDL 721, and concurrent enrollment in EDL 642 or permission of Department Head. This course will cover the relationship among scheduling, resource allocation, shared decision-making, and technology to facilitate building management for effective school leadership. Field experiences required. (Varies)

626. Public School Administration. Credit 3 hours. The fundamental facts and procedures of school administration are emphasized. Theory and practice are fused in teaching the duties and responsibilities of administrative officials in the organization, administration, and supervision of a modern school system. Twenty hours of practicum experiences in the appropriate setting are required. (Varies)

627. Elementary School Principalship. Credit 3 hours. A study emphasizing the administrative roles and responsibilities of the elementary school principal. Emphasis is placed upon fusing theory and practice in elementary school administration. (Varies)

628. Secondary School Principalship. Credit 3 hours. Emphasis is placed upon the theory and practice of the roles and responsibilities of the modern secondary school principal. Special attention is given to administrative roles in staff relations, curriculum, instruction, discipline, community involvement, and fiscal management. (Varies)

635. Supervision of Instruction. Credit 3 hours. Prerequisites: EDL 625, EDL 642, and concurrent enrollment in EDL 722 or permission of Department Head. A study of the purposes, organization, and development of supervisory programs. Theory and practice of the principles, techniques, and procedures in the improvement of instruction at both the elementary and secondary school levels. Field experiences required. (Varies)

641. School Facilities Planning and Utilization. Credit 3 hours. A study of the duties and responsibilities of educational and non-educational personnel in the planning, construction and utilization of the school plant. (Varies)

642. School Personnel Administration. Credit 3 hours. Prerequisites: EDL 702, EDL 721, and concurrent enrollment in EDL 625 or permission of Department Head. Organization for personnel services; development of policy to govern selection, orientation, placement, remuneration, transfers, separation, and the development of morale among instructional and non-instructional personnel. Field experiences required. (Varies)

702. School-Community Relations. Credit 3 hours. Prerequisites: EDL 610, EDL 612, and concurrent enrollment in EDL 721 or permission of Department Head. Study of the public relations problems including reporting to parents and acquainting the community with the purposes, methods, accomplishments, and needs of the school. School-community activities that are initiated from within the school, those that are initiated from without the school, and those activities that are initiated jointly by the school and the community to improve relations are reviewed, analyzed and evaluated. Special emphasis is given to the importance of the role of the educational leader in school-community relations. Field experiences required. (Varies)

704. Supervision of Child Welfare and Attendance. Credit 3 hours. An outline of the responsibilities of the visiting teacher to include home and school visitation programs, an analysis of attendance and related problems, the promotion of home-school relationships, and maintenance of all necessary records. (Varies)

709. Practicum in Supervision. Credit 3 hours. Prerequisites: EDL 626 and 635; admittance to the program except for those already holding a master's degree and seeking add-on certification. A course designed to provide supervised practical experiences in supervision. Students observe and participate in direction, guiding, and evaluating the teaching-learning process and other aspects of supervisory activities. Attention is given to exploration and experimentation of different approaches to supervision. (Varies)

710. Public School Finance. Credit 3 hours. Study of the principles of taxation, local, state, and federal financing of public education and equalization of educational opportunity. Special emphasis given to the complete budget making process at the district level and a detailed study of school business management at the local school level. Sound accounting procedures reviewed and the student given experience in actual budget making and in setting up a sound business management program for a local school. (Varies)

721. School Law. Credit 3 hours. Prerequisites: EDL 610, EDL 612, and concurrent enrollment in EDL 702 or permission of Department Head. The course shall encompass an examination of the constitutional and legal bases of public education in the United States and Louisiana. Field experiences required. (Varies)

722. Curriculum Improvement. Credit 3 hours. Prerequisites: EDL 625, EDL 642, and concurrent enrollment in EDL 635 or permission of Department Head. A study of problems, trends, and procedures in curriculum improvement and development. Emphasis is given to educational leader's roles and responsibilities and innovations in curriculum improvement. Field experiences required. (Varies)

723. Leading Change in Educational Organizations. Credit 3 hours. Prerequisites: EDL 635, EDL 722, and concurrent enrollment in EDF 600 or permission of Department Head. This course is designed to provide leaders with an understanding of change facilitation in schools. Emphasis will be placed on theory-based change strategies to support school improvement initiatives. Field experiences required. (Varies)

725. Internship in Educational Leadership. Credit 3 hours. Prerequisites: EDF 600, EDL 723, and concurrent enrollment in ETEC 615 or permission of Department Head. Provides candidates opportunities to apply leadership knowledge and skills to demonstrate the capacity to promote the current and future success and well-being of each student and adult. Attention will be given to the experiential background of each candidate as opportunities are developed at the needed practicum level. (Varies)

730. Current Issues in Educational Leadership. Credit 3 hours. Prerequisite: Department Head Approval. An examination of recent and anticipated issues in education that affect school leadership and strategies for dealing with them. (Varies)

733. Advanced School Law. Credit 3 hours. Prerequisite: EDL 721 or the equivalent. An examination of recent court decisions and federal and state legislation affecting the educational leadership role in schools. (Varies)

810. Leadership Theory and Practice. Credit 3 hours. This course examines leadership as a primary force that provides purpose and direction, and shapes the quality and character of institutions. It presents a comprehensive examination of current research relating to effective educational leadership. Knowledge of past models of leadership is linked with an analysis of contemporary schools and with the skills required to assume the role and responsibilities of an administrator in restructured school environments. Course work is designed to serve as a basis for professional reflection toward the formulation of a personal theory of educational leadership. (Varies)

811. Management of Educational Organizations. Credit 3 hours. Prerequisite: EDL 810. This course is designed to examine the role of superintendents and central office directors in emerging social, economic, and political contexts that are changing the nature of schooling, altering how schools are viewed, and are transforming how they lead. A broad range of issues that are critical to the success of new superintendents and issues that can affect relationships and impact districts will be explored. Particular attention will be paid to issues of leadership in diverse organizations. (Varies)

812. Supervision in Educational Settings. Credit 3 hours. Prerequisite: EDL 810. This course examines advanced definitions and determinations of staffing needs, supervision, and management and coordination problems. Also addressed are policies for recruitment, selection, assignment, salary planning, scheduling, promotion, separation, grievances, reassignment, records, development programs, in-service training, evaluation, benefits and services. (Varies)

820. Legal Issues and Ethics in Educational Organizations. Credit 3 hours. Prerequisite: EDL 810. A study of federal and state constitutions, legislation, regulatory guidelines and court decisions related to the operation of educational organizations. Development of awareness and knowledge of legal parameters related to education. Students will be required to conduct legal research and apply and synthesize knowledge of case law and state and federal mandates in areas such as contractual requirements, church-state relationships, education of special needs students, students and parental rights, and tort liability. Ethics and morality in decision-making will also be examined. (Varies)

821. Politics and Community Relations. Credit 3 hours. Prerequisite: EDL 810. This course examines administrative factors of primary importance in developing community involvement in public schools. It emphasizes theory and skills related to school systems and individual communication. It uses social science theory and research to study the political context of educational policy making. (Varies)

822. Policy Development and Analysis. Credit 3 hours. Prerequisite: EDL 810. This course is designed for those who seek to increase their leadership potential through becoming familiar with important aspects of educational policy development, as it is used to accommodate the major social, economic, political, and behavioral aspects of an educational setting. The purpose of this course is to develop an understanding of the process by which decisions are made, and policy is formulated, analyzed, implemented, and evaluated. (Varies)

823. Fiduciary Management of Educational Organizations. Credit 3 hours. Prerequisite: EDL 810. This course examines the principles of taxation, local, state and federal financing of education and equalization of educational opportunity. Special emphasis is given to the complete budget making process at the district level and detailed study of business management at the local school level. Sound accounting procedures are reviewed. Additional topics include introduction to purchasing, transportation, food service operations and other business-related tasks and functions. (Varies)

824. Legal Issues in Special Education. Credit 3 hours. Prerequisite: EDL 810. This course will provide an in-depth study of the historical and legal foundations of disability law and its functionality within public schools. Information presented in this course is contextualized through various means including: understanding the unique educational needs of students who qualify for IDEA or Section 504 services, disability law and policy, and current research. From this course, students gain an understanding of the legal and ethical roles and responsibilities of an educational leader in meeting the unique needs of children with disabilities. (Varies)

830. Foundations of Curriculum Theory and Design. Credit 3 hours. This course examines curriculum theory with emphasis on the various approaches to curriculum design and development and other factors that impact curriculum. (Varies)

831. Critical Analysis of Current Research on Effective Educational Practice. Credit 3 hours. This course will focus on recent research on best practices of leadership for empowering teachers, creating communities of continuous learning, and increasing student achievement. The students will hone their critical thinking skills through analysis, synthesis and evaluation of research reporting. (Varies)

832. Educational Evaluation. Credit 3 hours. This course provides students with the research and evaluation skills required to implement various program evaluation models. It also provides the skills necessary for effectively using the standards of the National Joint Committee on Standards for Program Evaluation. (Varies)

834. College Teaching. Credit 3 hours. Prerequisite: EDL 810. This course provides an overview of teaching and learning in the college environment. The course focuses on understanding and addressing the needs of adult learners by investigating adult education theories, models for teaching and learning, and the design of college curricula. The course also differentiates teaching methods for undergraduate, master's, and doctoral student learning needs. (Varies)

840. Change Theory. Credit 3 hours. Prerequisite: EDL 810. This course examines the application of organizational development practices related to educational settings. It focuses on change theory and its implementation in schools. The course assists students in the understanding of change by utilizing some of the concepts of Kurt Lewin including field theory and action research. Course topics and instruction offer an examination of the fundamental concepts of change and behavioral analysis. (Varies)

841. Organizational Development for Learning Communities. Credit 3 hours. Prerequisite: EDL 810. This course is designed to focus on schools as learning communities, theories of leadership and organizational development, and strategies for creating communities of continuous learning. The course addresses current research on professional learning communities, collective responsibility, and teacher collaboration. (Varies)

842. Culture, Climate and Change Leadership. Credit 3 hours. Prerequisite: EDL 810. This course is designed to explore the concepts of continuously developing new knowledge about what is needed to initiate and sustain deep systemic changes in K-12 public education for improved learning for all students. It also examines sponsoring programs that strengthen the capacities of educational and change agents to implement systemic change and disseminate key concepts and ideas to diverse learning communities. (Varies)

851. Administration and Management in Higher Education. Credit 3 hours. Prerequisite: EDL 810. This course focuses on the effective administration of higher education institutions. Emphasis will be placed on planning, leadership, personnel administration, and facility planning. (Varies)

852. Student Affairs in Higher Education. Credit 3 hours. Prerequisite: EDL 810. This course examines the research and best practices on the development and management of services and education that enhance student success and growth in higher education. (Varies)

853. Governance and Legal Aspects of Higher Education. Credit 3 hours. Prerequisite: EDL 810. This course is designed to provide a basis of understanding for issues unique to the higher education settings. It intends to provide understanding of the organization dynamics of governance in higher education and the legal issues that guide the delivery of services to prepare leaders for this setting. (Varies)

857. Academic Affairs in Higher Education. Credit 3 hours. Prerequisite: EDL 810. Examination of issues relevant to university curriculum review, development, and new curricular initiatives; faculty hiring and promotion; support for faculty research and teaching; and the administration of all academic departments and programs in the modern university. (Varies)

858. Community College Administration. Credit 3 hours. Prerequisite: EDL 810. This course is designed to provide a basis of understanding for issues unique to the Community College. It intends to provide understanding for history, role, scope and mission of community and technical colleges. (Varies)

861. History and Philosophy of Higher Education. Credit 3 hours. Prerequisite: EDL 810. This course is a study of the history of higher education institutions to include an investigation of the philosophical belief systems that have driven and continue to drive higher education practice. (Varies)

862. Planning and Evaluation in Higher Education. Credit 3 hours. Prerequisite: EDL 810. This course provides a basis of understanding for planning and evaluation issues unique to higher education. (Varies)

871. Special Topics in Instructional Leadership. Credit 3 hours. This course provides an opportunity for an in-depth examination of selected topics in instructional leadership. Content may vary from semester to semester in an attempt to include topics of current interest and importance. The course may be repeated for a maximum of six hours of credit. (Varies)

875. Special Topics in Educational Leadership. Credit 3 hours. Prerequisite: EDL 810. This course provides an opportunity for an in-depth examination of selected topics in the leadership of educational organizations. Content may vary from semester to semester in an attempt to include topics of current interest and importance. The course may be repeated for a maximum of six hours of credit. (Varies)

880. Research Practicum. Credit 3 hours. Prerequisite: EDF 804. Practicum in quantitative and qualitative data collection techniques and procedures as well as data analyses and interpretations. The relationship among conceptual or theoretical frameworks, research questions, and instrumentation will be emphasized. (Varies)

897. Internship. Credit 3 hours. Prerequisite: EDL 810. The course is an internship that allows students to demonstrate their competence in an administrative position and to be involved actively in practice and administration. The course is designed to link in-class experiences with the world of professional work. Students, in collaboration with educational officials, will also select/identify a school improvement activity as part of the internship experience. Students are expected to complete a minimum of 150 clock hours of field experience, 50 of which are devoted to a school improvement project. (Varies)

899. Qualifying Paper. Credit 1 hour. Prerequisites: EDF 800 and 801. The student must enroll in this course each term until the successful defense of the Qualifying Paper by the student. The course is graded IP (In Progress) each term until the Qualifying Paper is completed at which time the course will be graded Pass/Fail. The course does not count as part of the 60-semester hour minimum program requirement. (Varies)

Educational Psychology (EPSY)

301. Educational Psychology of Children and Adolescents. [LCCN: CPSY 2613, Educational Psychology] Credit 3 hours. Prerequisites: Sophomore standing, 2.75 cumulative GPA, grade of C or better in ENGL 102, or permission of Department Head. An investigation of the cognitive, social, physical, and personality aspects of the child and adolescent as they apply to the teaching-learning process. Special attention will also be given to the characteristics and needs of exceptional children. Competency-based clinical practice required. (Summer, Fall, Spring)

303. Child Psychology. Credit 3 hours. Prerequisite: EDUC 202. An investigation of major forces in the cognitive, social, physical, and personality development of the child. (Varies)

311. Adolescent Psychology in the Classroom. Credit 3 hours. Prerequisites: EDUC 203, EDUC 212, and Provisional SARTE status. A study of physical, mental, social and personality development during adolescence as it applies in the classroom. The needs of special populations such as students with mild/moderate impairments will be considered. Field experience required. Education majors only. (Summer, Fall, Spring)

601. Cognitive and Linguistic Development in Children. Credit 3 hours. An examination of current knowledge regarding children's development of memory, language, and thought from infancy to adolescence. (Varies)

602. Adolescent Psychology. Credit 3 hours. The effects of physical, social, emotional, and personality development on the behavior and adjustment of the adolescent. (Spring)

603. Classroom Management and Motivation. Credit 3 hours. A detailed investigation of various models of classroom management and motivation. Included are such topics as behavior modification, assertive discipline, control theory, and the concept of the democratic classroom. (Fall, Spring)

605. The Psychological Foundations of Human Learning. Credit 3 hours. Investigation of the classic psychological principles of learning as well as contemporary theory and research. An overview of behavioral and cognitive learning processes is presented. (Varies)

606. Social and Personality Development in Children. Credit 3 hours. Exploration of the child's development of personality, self-concept, achievement motivation, moral judgment, and positive social values. (Varies)

614. Humanistic Psychology. Credit 3 hours. Prerequisite: EPSY 301 or 311 depending upon major field of certification or six hours in PSYC or EPSY. An advanced course covering the "third force," humanistic movement in psychology and education. Theories, research, applications and implications of such psychologists as Maslow, Rogers, Combs, May, Lecky, and Jourard. (Varies)

Educational Technology (ETEC)

305. Computer Applications in the School Setting. Credit 3 hours. Prerequisites: EDUC 202 or 201; and 211 or 203; and 212. Emphasis is placed on computer utilization in school setting. Topics include examinations of how schools use microcomputers to create a favorable microcomputer learning environment. Experiences in evaluating software and differentiating between computer managed instruction and computer assisted instruction will be provided.

306. Integrating Technology into the K-12 Classroom. Credit 2 hours. Prerequisites: EDUC 202 or 201; and 211 or 203; and 212. This course provides students with skills and knowledge necessary to be able to effectively and ethically infuse technology into the K-12 classroom. Students are required to successfully demonstrate their ability to effectively use productivity and pedagogically based software, and develop and use educationally appropriate Internet technology to enhance student learning.

310. Integrating Technology into the Secondary Computer Science Laboratory. Credit 3 hours. This course focuses on computer utilization in the computer lab setting. Students are familiarized with the laboratory environment and the basic operational system structures of hardware and software which facilitate learning in that environment. Topics include evaluation and selection methods for hardware and software for the laboratory as well as legal and ethical issues confronting laboratory teachers. The course will have a field component.

410. Secondary Computer Science Methods. Credit 3 hours. This course is an introduction to the methods, techniques, and concepts that will be useful in teaching students and other faculty in the computer laboratory setting. Students will apply human computer interface principles, pedagogical theory and professional practices in analyzing software, multimedia, and ubiquitous computing teaching practices. This course will have a field component.

411. Field Experiences in Implementing Technology into the Computer Science Classroom. Credit 3 hours. Prerequisite: ETEC 410. This course is a thirty-hour practicum in a secondary school. It is designed to explore questions of the nature, purpose and practices of computer science in the modern school curriculum. Students are expected to develop a rationale for teaching computer science in the secondary environment.

475/575. Special Topics in Educational Technology. Credit 3 hours. An intensive examination of issues relevant to educational technology and the learning process. As topics vary, the course may be repeated for a maximum of six hours' credit.

610. Integrating Computers into the Elementary and Secondary Classroom. Credit 3 hours. This course is designed primarily for experienced teachers and provides an overview of microcomputer applications. Emphasis is placed on providing a working knowledge of and hands-on experience with microcomputers. Topics include selecting and evaluating appropriate computer assisted instruction, relating learning theories to current educational uses of microcomputers, examining research on educational applications of microcomputers, surveying periodicals in the field, and individualizing instruction using computer managed instruction.

611. Administrative Applications of Microcomputers. Credit 3 hours. This course is designed primarily for school administrators and provides an overview of microcomputer applications in the school administrative environment. Emphasis is placed on providing a working knowledge of and hands-on experience with microcomputers. Topics include selection and evaluation of hardware and software, working with operating systems, networking and telecommunications techniques, system security, backup procedures, legal issues, adaptation of existing software, integrated software, and staff development.

615. Technology Studies for Educational Leaders. Credit 3 hours. Prerequisites: EDF 600, EDL 723, and concurrent enrollment in EDL 725 or permission of Department Head. Designed for educational leaders to provide an overview of microcomputer applications in the school-based administrative environment. Emphasis is placed on working knowledge and hands-on experience with computers and computer applications. The students will review hardware, software, networking and telecommunications, computer security, legal issues, and integration and support of educational technologies. Students will also prepare their electronic portfolio for defense. (Varies)

620. Infusion of Technology into Professional Practice. Credit 3 hours. This course provides candidates with current information on the latest developments in technology. The primary focus of the course is the infusion of technology into professional practice for the purpose of improving achievement and functioning across all related areas. Candidates will be required to engage in practicum work within a professional setting.

630. Technology Planning and Administration. Credit 3 hours. Prerequisite: ETEC 620. This course develops foundational skills for managing technology for teaching at the school site. These skills will include school-wide planning for the use of technology; logistics for technology implementation within the local site, facilities and resource management, funding and budgetary issues, technical policies and procedures and school connectivity planning.

635. Legal Issues in the Digital Age. Credit 3 hours. This topics-based course will acquaint students with the wide array of legal and ethical issues associated with the rapid growth of computer networks and the Internet as they apply to issues in Education. Among the topics covered will be freedom of expression, privacy, tort liability, copyright, intellectual property and web publishing. Students will become familiar with, and read, case law related to these issues.

641. Web mastering for K-12 Instructional Delivery. Credit 3 hours. Prerequisite: ETEC 620. This course is designed to develop expertise with the World-Wide-Web, including basic skills in the planning and development of an instructional Web site for support of teaching in the K-12 classroom. It requires intermediate computer expertise.

644. Design and Development of Instructional Software for the Elementary and Secondary School. Credit 3 hours. Prerequisite: ETEC 620 or permission of the Department Head upon demonstration of computer skills. This course is designed to assist teachers in using the techniques involved in planning and creating a computer-assisted instructional program in a discipline of their choice. Emphasis is placed on the importance of authoring languages and authoring systems in producing computer assisted instruction. Current learning theory as it pertains to authoring microcomputer CAI programs is examined. Students will create a program of microcomputer assisted instruction with appropriate documentation and student/teacher support materials.

645. Curricular Design and Development for Distance Learning. Credit 3 hours. Prerequisite: ETEC 620. This course introduces candidates to the use of technologies designed to allow instruction at a distance. Its focus is on the design and development of distance-delivered instruction from conception to implementation. Topics will include learner access, course content, application of learning theories and models of effective instruction at a distance. It includes hands-on experience with instructional technology tools.

646. Advanced Design of Instructional Software. Credit 3 hours. Prerequisites: ETEC 644, and 645. This course is designed to continue with concepts and skills developed in ETEC 644 and 645. Students will work with authoring languages and authoring systems to produce professional quality instructional software. Students will develop software employing educational design principles with appropriate documentation and student/teacher support.

650. Educational Telecommunications (Networking and the Internet). Credit 3 hours. Prerequisite: ETEC 644. This course will develop a fundamental understanding of the technical workings of networking technologies. Topics and exercises will include development and implementation of school networks and setup and maintenance of LAN and Internet servers. A hands-on course for developing and maintaining first-line support for educational telecommunications.

660. Technology Leadership for Change. Credit 3 hours. Prerequisite: ETEC 620. This course is designed to develop an understanding of technology management for teaching and learning within a professional learning environment. These skills will include organization-wide planning that incorporates instructional design, curriculum integration with standards, logistics of technology implementation with the local site, training and evaluation.

665. Design of Professional Development Programs for K-12 Technology. Credit 3 hours. Prerequisites: ETEC 644, and ETEC 645. This course is designed to prepare teachers in the development of leadership knowledge, and the attitudes and behaviors related to activities for guiding, directing and mentoring other teachers in the use of instructional technologies in classroom teaching.

680. Practicum for Technology Concentration. Credit 3 hours. Prerequisites: ETEC 644, 645, 650, 660 and 695. This course provides the student with experience with the application of technology facilitation and leadership skills and techniques in a community or school setting.

695. Evaluation of Instructional Technology Research. Credit 3 hours. Prerequisites: EDF 600 and ETEC 644. After taking this course the student will be able to discuss instructional research related to the implementation of technology-based instruction in the schools; develop knowledge of the curricular inquiry into research and organization of curricular designs for technology-based instruction in a variety of settings; evaluate research into technology-based instruction; apply the findings of instructional and curricular research to technology-based instruction in projects for implementation in educational settings.

810. Educational Technology Theory and Design. Credit 3 hours. This course provides a foundational understanding of educational/instructional technology and its relevance to computers, media, and instructional design. Students have opportunities to develop their skills in the use of computer hardware, peripherals and software applications, and to explore implementing and managing technology in instructional environments.

811. Overview of Current Educational Technology. Credit 3 hours. This course is designed to introduce students to educational technology research, from designing and conducting a research study to synthesizing and presenting the results in written and oral formats. It is expected that skills will be situated within the context of issues that are relevant to the field of educational technology leadership. Students will examine relevant literature, write out research questions, design instruments, and gather and analyze data.

812. Leadership in the Integration of Emerging Technologies. Credit 3 hours. This course is designed to provide an interactive, collaborative environment that fosters development of technology leaders with skill in the design and implementation of emerging technologies in the educational environment. Students will examine the integration of emerging technologies through field experiences, Web-based resources, video case studies, and in-class and listserv discussions.

English (ENGL)

100. Corequisite Composition. Credit 3 Hours. Prerequisite: Permission of the Department Head. A corequisite workshop to be taken concurrently with a writing intensive course (e.g., ENGL 101 or 102). Guided planning and revision of essays as assigned in the concurrent composition class. Instruction and practice in the fundamentals of functional grammar and basic composition: usage, diction, spelling, punctuation and mechanics, sentence structure, and paragraph writing. English ACT score of 16-17. Credit hours do not count toward graduation. The final course grade will be Pass (P) or Unsatisfactory (U).

101. Freshman Composition. [LCCN: CENL 1013, English Composition I]. Credit 3 hours. Prerequisite: English ACT score of 18 or above or an appropriate score on the Accuplacer exam or satisfactory completion of an appropriate developmental English course. Required of all students who do not qualify for ENGL 102 or 102H. Instruction and practice in the basic principles of expository writing: the paragraph and the whole composition, the methods of development, the thesis, the outline and organization, the structure and style. Instruction in functional grammar, sentence structure, diction and spelling, punctuation and mechanics, in direct relation to the student's writing. For placement in ENGL 101, see English Placement section in this Catalog. (Summer, Fall, Spring)

101H. Freshman Composition Honors. Credit 3 hours. Prerequisite: Minimum ACT Composite score of 24 or minimum ACT English score of 24. A variable content, writing intensive course engaging students with significant texts in literature and culture. Course themes range from the study of ancient to postmodern literary texts. (Summer, Fall, Spring)

102. Critical Reading and Writing. [LCCN: CENL 1023, English Composition II]. Credit 3 hours. Prerequisite: ENGL 101 or 101H or English ACT score of 29 or above. Development of skills in reading critically, analyzing models of good writing, and writing in response to a variety of texts, including imaginative literature. Writing the argumentative essay, the critical essay, the research paper, and the essay examination. For placement in ENGL 102, see English Placement section in this Catalog. (Summer, Fall, Spring)

102H. Critical Reading and Writing Honors. Credit 3 hours. Prerequisite: Minimum grade of "C" in ENGL 101H or demonstration of superior ability in ENGL 101 or credit for ENGL 101 plus a minimum ACT Composite score of 24 or a minimum ACT English score of 29. A variable content, writing intensive course, incorporating research and engaging students with significant texts in literature and culture. Course themes range from the study of ancient to postmodern literary texts. (Summer, Fall, Spring)

210H. Honors Studies in Literature. Credit 3 hours. Prerequisite: Minimum grade of "C" in ENGL 102H or combined minimum ACT English and ACT Composite score of 65 and an advanced standing examination (a composition examination administered and evaluated by the Department of English) or demonstration of superior ability in ENGL 102. A seminar focused on a particular topic, area, major author, text, or literary period. Course content varies by instructor and semester. Emphasis on the interpretive process, critical evaluation, and refinement of writing skills. May be repeated once if content is different for a total of six hours. For placement in ENGL 210H, see English Placement section in this catalog. (Varies)

229. Introduction to Gender and Sexuality in Literature. Credit 3 hours. Prerequisite: ENGL 102 or 102H. An introduction to key concepts in gender and sexuality studies and their applications to literature and cultural production. Particular emphasis on historically-situated, intersectional analysis of literature from a wide variety of gendered and sexual identities. For placement in ENGL 229, see English Placement section of this Catalog. (Summer, Fall, Spring).

230. World Literature. [LCCN: CENL 2203, World Literature I; CENL 2213, World Literature II; CENL 2223, Major World Writers]. Credit 3 hours. Prerequisite: ENGL 102 or 102H. A survey of world literatures and cultures, excluding the British Isles and the U.S., from classical times to the present. For placement in ENGL 230, see English Placement section of this Catalog. (Summer, Fall, Spring)

231. English Literature. [LCCN: CENL 2103, British Literature I; CENL 2113, British Literature II; CENL 2123, Major British Writers]. Credit 3 hours. Prerequisite: ENGL 102 or 102H. A course in the study of prose, drama, and poetry by major writers of English literature. Emphasis on the development of appreciation. For placement in ENGL 231, see English Placement section of this catalog. (Summer, Fall, Spring)

232. American Literature. [LCCN: CENL 2153, American Literature I; CENL 2163, American Literature II; CENL 2173, Major American Writers]. Credit 3 hours. Prerequisite: ENGL 102 or 102H. A course in the study of prose, drama, and poetry by major writers of American literature. Emphasis on the development of appreciation. For placement in ENGL 232, see English Placement section of this Catalog. (Summer, Fall, Spring)

233. Introduction to African American Literature. [LCCN: CENL 2403, Introduction to African American Literature]. Credit 3 hours. Prerequisite: 102 or 102H. A course in the study of prose, drama, and poetry by major writers of African American literature. Emphasis on the development of appreciation. For placement in ENGL 233, see English Placement section of this Catalog. (Summer, Fall, Spring)

291H. Tragedy and Comedy. Credit 3 hours. Prerequisite: Minimum grade of "C" in ENGL 102 H or combined minimum ACT English and ACT Composite score of 65 and an advanced standing examination (a composition examination administered and evaluated by the Department of English) or demonstration of superior ability in ENGL 102. A study of representative works from the major periods of drama to understand the tragic and comic visions of life. Emphasis on the interpretive process, critical evaluation, and refinement of writing skills. For placement in ENGL 291H, see English Placement section in this catalog. (Varies)

292H. Modern Fiction. Credit 3 hours. Prerequisites: Minimum grade of "C" in ENGL 102H or combined minimum ACT English and ACT Composite score of 65 and an advanced standing examination (a composition examination administered and evaluated by the Department of English) or demonstration of superior ability in ENGL 102. A study of nineteenth- and twentieth-century novels and short stories. Emphasis on the interpretive process, critical evaluation, and refinement of writing skills. For placement in ENGL 292H, see English Placement section in this catalog. (Varies)

300. Introduction to Literary Analysis and Interpretation. Credit 3 hours. Prerequisite: ENGL 102 or 102H. An introductory course focusing on the major genres (prose fiction, poetry, drama), the basics of analysis and theory, research methods, and the writing skills crucial to the study of literature. This course is designed for students planning to major in English or a related discipline. (Fall, Spring)

301. British Literature I. Credit 3 hours. Prerequisite: ENGL 102 or 102H. Selected readings (some in translation) from Medieval and Renaissance, Restoration, and Enlightenment periods in the British Isles. (Fall, Spring)

303. British Literature II. Credit 3 hours. Prerequisite: ENGL 102 or 102H. Selected readings of major writers from the Romantics to the present in the British Isles. (Fall, Spring)

305. Practicum in English for Education Majors. Credit 1 hour. Prerequisite: ENGL 102 or 102H. A variable content practicum in English language arts for Education majors (Fall)

309. Introduction to Publishing Studies. Credit 3 hours. Prerequisite: ENGL 102 or 102H. An introduction to the field of print and digital publishing. Study and practice of editing, production, printing and posting online, and marketing processes involved with publishing newspapers, books, or serials. (Fall)

310. Literature of the African Diaspora. Credit 3 hours. Prerequisite: ENGL 102 or 102H. Credit 3 hours. A survey of African American writers and other writers from the African Diaspora. (Varies)

312. Advanced Grammar. Credit 3 hours. Prerequisite: ENGL 102 or 102H. Study of structural and functional grammars, modern syntax, morphology, and usage. Special attention to the applications of grammatical knowledge to writing, teaching, and the study of literature. (Fall, Spring)

315. Special Studies in English. Credit 3 hours. Prerequisite: ENGL 102 or 102H. A variable content course which treats subjects of special interest to students who are not studying English professionally. Recommended as an elective for those majoring in other disciplines and as an enrichment course for members of the community. The content will change from semester to semester and will be advertised in advance. Since the course is designed primarily as an elective for non-professionals, students majoring or minoring in English, or English Education may not use this course to satisfy the elective requirements for the major, though they may take it once as an elective course for the degree. For all others, the course may be repeated for a total of six hours credit. (Varies)

316. The Bible as Literature. Credit 3 hours. Prerequisite: ENGL 102 or 102H. A study of writing from the Hebrew and New Testaments from a literary perspective. Emphasis on genres, continuities of theme, narratology, typology, and modes of interpretation will underscore the role of the Bible in shaping the imagination of writers to the present time. (Varies)

317. Folklore and Oral Literature. Credit 3 hours. Prerequisite: ENGL 102 or 102H. Study of stories, poetry, song lyrics, and cultural performances created in local communities. (Varies)

321. Advanced Composition. Credit 3 hours. Prerequisite: ENGL 102 or 102H. Principles and practice in writing academic expository prose, personal essays, and narrative forms for different audiences and purposes. Special attention to logical and rhetorical analysis, invention, organization, revision, and style. For students in all disciplines. (Spring)

322. Introduction to Professional and Technical Writing. Credit 3 hours. Prerequisite: ENGL 102 or 102H. An introduction to the genres of writing used in the technical and professional workplace, including memos, letters, instructions, directions, proposals, résumés, and short reports. (Summer, Fall, Spring)

325. Introduction to Creative Writing. Credit 3 hours. Prerequisite: ENGL 102 or 102H or permission of the Department Head. This course explores writing and creativity for students working or interested in any genre. Students will learn about the trajectory of the writer's life, from beginnings, success and failure, as well as the ins and outs of the publishing industry. Students will research literary markets, work to develop an online presence, and practice good literary citizenship. In addition to practical assignments, students will generate new material and offer responses to peers in a workshop setting. (Fall)

351. Early World Literature. Credit 3 hours. Prerequisite: ENGL 102 or 102H. A study of world literatures and cultures, excluding the British Isles, through a reading of their Ancient, Medieval, and Renaissance texts in translation. (Fall)

352. Modern World Literature. Credit 3 hours. Prerequisite: ENGL 102 or 102H. A study of world literature in translation, excluding the U.S. and the British Isles, from the mid-seventeenth century to contemporary times. (Spring)

363. Form and Theory—Poetry. Credit 3 hours. Prerequisite: ENGL 102 or 102H or permission of the Department Head. This course examines and practices the forms, techniques, and theories of practice in contemporary poetry. Content will include analysis of poetic techniques, use of language and form, and variety of modes of delivery found in poetry being published currently. The course will also involve completion of writing exercises, limited workshoping of student work, and detailed analysis of assigned readings. (Varies)

364. Form and Theory—Fiction. Credit 3 hours. Prerequisite: ENGL 102 or 102H. A form and theory course that examines the various aspects of the craft of fiction, focusing on the writer's use of character, voice, structure, dialogue, and theme. (Varies)

365. Form and Theory—Drama. Credit 3 hours. Prerequisite: ENGL 102 or 102H. This course will examine forms, techniques, learning about a variety of delivery modes in writing for performance. Students will complete writing exercises, practice entry-level workshoping of their creative writing, and read and discuss published plays and screenplays. (Varies)

369. Living Writers. Credit 3 hours. Prerequisite: ENGL 102 or 102H. A survey of important living authors, including those connected to the Southeastern community. Class activities will include attending readings from visiting authors and sessions with writers-in-residence. (Varies)

370. Life Writing and Autobiography. [LCCN: CENL 2513, Creative Writing (Various Genres)]. Credit 3 hours. Prerequisite: ENGL 102 or 102H. An introductory course in life writing and autobiography. Intensive lectures on theory, principles and literary trends in the genre. Criticism of manuscripts through group meetings and individual conferences with instructor. (Varies)

371. Creative Writing: Poetry. [LCCN: CENL 2513, Creative Writing (Various Genres)]. Credit 3 hours. Prerequisite: ENGL 102 or 102H. An introductory course in writing poetry. Intensive lectures on poetical theory and technique. Criticism of manuscripts through group meetings and individual conferences with the instructor. (Fall, Spring)

372. Creative Writing: Fiction. [LCCN: CENL 2513, Creative Writing (Various Genres)]. Credit 3 hours. Prerequisite: ENGL 102 or 102H. An introductory course in writing fiction. Intensive lectures on theory and technique of fiction writing. Criticism of manuscripts through group meetings and individual conferences with the instructor. (Fall, Spring)

373. Film Criticism. Credit 3 hours. Prerequisite: ENGL 102 or 102H. A study of the basic elements of film appreciation with detailed analysis of specific films. This course is cross-listed as COMM 373 and may be taken only once for credit. A laboratory fee is required for this course. (Fall)

374. Literature and Film. Credit 3 hours. Prerequisite: ENGL 102 or 102H. A study of the relationship between film and literature, especially but not exclusively the short story and the novel. A laboratory fee is required for this course. (Spring)

- 380. Creative Writing: Drama.** [LCCN: CENL 2513, Creative Writing (Various Genres)]. Credit 3 hours. Prerequisite: ENGL 102 or 102H. A course in drama composition featuring lecture and workshop sessions dealing with one-act plays. Discussion given to related topics such as full length plays and scriptwriting. Criticism of student manuscripts through group discussion and individual conference. (Varies)
- 392. Native American Literature.** Credit 3 hours. Prerequisite: ENGL 102 or 102H. A study of Native American myths, legends, and contemporary texts. (Varies)
- 395. Early American Literature.** Credit 3 hours. Prerequisite: ENGL 102 or 102H. The major writers and their works from the Colonial Period to 1860. (Fall, Spring)
- 396. American Literature Since 1860.** Credit 3 hours. Prerequisite: ENGL 102 or 102H. Representative writers with attention to trends and innovations in American literature. (Fall, Spring)
- 413/508. The Development of the English Language.** Credit 3 hours. Prerequisite: ENGL 102 or 102H. Junior standing or permission of the Department Head. Study of Modern English in historical perspective. (Fall)
- 414/524. Introduction to Linguistics.** Credit 3 hours. Prerequisite: ENGL 102 or 102H (prior completion of ENGL 312 recommended). Junior standing or permission of the Department Head. Survey of major elements and schools of modern linguistics. Special attention to the applications of linguistic knowledge to writing, the teaching of first and second languages, and the study of literature. (Summer, Spring)
- 415/525. Special Topics in English.** Credit 3 hours. Prerequisites: ENGL 210H, 230, 231, 232, 291H, 292H, 300, 301, 303, 310, 351, 352, 395, or 396; Junior standing or permission of the Department Head. A variable content course covering topics of special interest not similarly treated in existing courses. Intended primarily for English majors, but open to all students. May be repeated once for a total of six hours. (Varies)
- 426/526. The Adolescent Experience in Literature.** Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. Emphasis on the thematic connections between adolescent literature and traditional literature from various literary perspectives. Particular focuses: aesthetic qualities, portrayal of adolescent developmental tasks, representation of adolescence in diverse cultural contexts, and application in middle and secondary English Classrooms. This course is recommended for English majors in the teacher licensure program. (Spring)
- 428/528. African American Literature Since 1900.** Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. A study of African American literature since 1900 with special attention to critical and historical contexts. (Varies)
- 429/527. Gender Studies and Literature.** Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. Representations of gender and sexuality in literature. Readings in identity construction and gender epistemology, as well as feminist philosophy and scholarship. (Varies)
- 430/530. Restoration and Eighteenth-Century British Literature.** Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. Literature from 1660 to 1800; representative authors and their works. (Varies)
- 435/535. Shakespeare: Comedies and Romances.** Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. A close reading of selected comedies and romances as drama, as literature, and as documents of Elizabethan culture. (Fall, Spring)
- 436/536. Shakespeare: Tragedies and Histories.** Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. A close reading of selected tragedies and histories as drama, as literature, and as documents of Elizabethan culture. (Fall, Spring)
- 437/537. Major Periods in Drama.** Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. Study of dramatic literature in one important period, such as Restoration/18th Century England, or contemporary Africa. A variable content course. May be repeated once if content is different. (Varies)
- 438/538. Interdisciplinary Approaches to Literature.** Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. Introduction to interdisciplinary approaches through the study of selected texts. May be repeated once for credit if content is different. (Varies)
- 439/539. Louisiana Literature.** Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. A survey of the best and most representative writers from Louisiana. (Varies)
- 446/517. Independent Study in English.** Credit 3 hours. Prerequisites: ENGL 210H, 230, 231, 232, 291H, 292H, 300, 301, 303, 310, 351, 352, 395, or 396; Junior standing or permission of the Department Head. The course offers students an opportunity to engage in a creative, critical or reading project with an English professor of their choice. This course may be repeated for a total of six hours credit. (Varies)
- 447/518. Advanced Writing Workshop.** Credit 3 hours. Prerequisite: ENGL 102 or 102H, Junior standing, or permission of the Department Head. For advanced undergraduate and new graduate students in all disciplines. Instruction, practice, and group-based support in planning, development, and completion of individualized writing projects. Possible individual emphases include such areas as academic research, creative nonfiction, professional/technical writing, theses, and writing for publication. (Varies)
- 448/548. Advanced Professional and Technical Writing.** Credit 3 hours. Prerequisite: ENGL 322, Junior standing, or permission of the Department Head. Designed for students in all disciplines. A practical study of writing for professional audiences, with emphasis on the genres specific to professional and technical writing (feasibility studies, proposals, reports, and professional correspondence). Individualized instruction and a choice of writing topics. (Varies)
- 449/549. History of the Book.** Credit 3 hours. Prerequisites: ENGL 102 or 102H and Junior standing or permission of the Department Head. Designed for students in all disciplines. A survey of the physical and cultural constructions of the book from tablet to World Wide Web; projects in analysis and creation of book design, both print and digital. (Varies)
- 455/555. Old English.** Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. Study of the Old English language, with selected readings from the literature of the period. (Varies)
- 456/556. Medieval England.** Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. Literature in the British Isles from the early Anglo-Saxon period to 1485. (Varies)
- 457/557. Early Modern Non-Dramatic Literature.** Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. Non-dramatic English literature from 1485 to 1660; representative authors and their works. (Varies)

458/558. Major British Authors. Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. A study of selected authors, singly or in small related groups, from 1660 to the present. A variable content course. May be repeated if content is different. (Varies)

459/559. Nineteenth Century British Literature. Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. Literature from the romantic movement in the late 18th Century to the turn of the century; representative authors and their works. (Varies)

465/565. Literary Criticism. Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. An examination of the development of critical theories from classical times to the present, with an emphasis on the reading of the major texts; a study of the trends in twentieth century criticism and examples of their application. (Varies)

467/567. The Teaching of Writing. Credit 3 hours. Prerequisite: ENGL 321 and Junior standing or permission of the Department Head. For prospective and returning teachers. Theory and methods for teaching writing. Emphasis on students' own writing development through hands-on creation of original teaching materials. competency-based clinical practice required. (Fall only)

468/564. The Teaching of Literature. Credit 3 hours. Prerequisites: English 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395, or 396. Senior standing or permission of the Department Head. This course prepares English Education majors to become effective teachers of literature at the secondary level. Students will explore the methods and literary texts vital to a secondary school curriculum in Language Arts. Students will also develop teaching materials appropriate for use in the high school classroom. (Fall)

471/522. Chaucer. Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. Readings from Chaucer's major works, chiefly *The Canterbury Tales*. (Varies)

472/523. Milton. Credit 3 hours. Prerequisites: Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. Critical study of Milton's major poetry and selections from the prose works. Emphasis on *Paradise Lost*. Consideration of religious and intellectual milieu. (Varies)

475/575. Contemporary Criticism. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. Preparation for advanced study in English, including bibliographic and critical skills. Instruction in bibliography centers on basic literary research resources and methods, and instruction in literary criticism centers on contemporary theoretical methods. Successful completion of the course will give students preliminary grounding in the theoretical discourse and research methods for the field of literary studies. (Varies)

476/576. The Rhetorical Tradition. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A survey of key texts from the rhetorical tradition, from Plato to Derrida. An examination of the relevance of this tradition to students' needs as writers (including professional/technical and creative writers), as teachers of writing, and as students of literature and modes of public discourse. (Varies)

477/577. Foundations in Language and Literacy. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. Introduces students to the scholarship, research methods, instructional practices, and professional opportunities in the related disciplines of grammar and linguistics (including the teaching of English to speakers of other languages, or TESOL), composition and rhetoric, and literacy studies. Successful completion of the course will give students preliminary grounding in these areas needed to pursue graduate course work in the Language and Literacy concentration and to pursue meaningful careers in the disciplines following graduation. (Varies)

478/578. Topics in Publishing Studies. Credit 3 hours. Prerequisites: 102 or 102H and Junior standing or permission of the Department Head. A variable content course covering topics of special interest in Publishing Studies not similarly treated in existing courses. Intended primarily for students in the Publishing Studies minor or in the Graduate Concentration in Publishing Studies, but open to all students. May be repeated once for a total of six hours. (Varies)

482/582. Intermediate Poetry Workshop. Credit 3 hours. Prerequisite: ENGL 371 or permission of the Department Head. Writing of poetry of literary quality and intermediate study of poetry theory and technique with emphasized study of contemporary poetry. Intensive discussion of student manuscripts in group meetings and in conferences with instructor. May be repeated once for credit. (Varies)

483/583. Intermediate Fiction Workshop. Credit 3 hours. Prerequisite: ENGL 372 or permission of the Department Head. Writing of fiction of literary quality and intermediate study of technique and theory of fiction writing with emphasized study of contemporary fiction. Intensive discussion of student manuscripts in group meetings and in conferences with instructor. May be repeated once for credit. (Varies)

484/584. Topics in Creative Writing. Credit 3 hours. Prerequisites: ENGL 370, 371, or 372 depending on corresponding genre of special topic, Junior standing or permission of Department Head. A variable genre creative writing course emphasizing writing of literary quality in a specific genre such as poetry, fiction, drama, or new and hybrid forms. Intermediate study of technique and theory as appropriate to the genre. Intensive discussion of student manuscripts in group meetings and in conferences with instructor. May be repeated once for credit. (Varies)

485/585. Foundations in Professional Writing and Publishing Studies. Credit 3 hours. Prerequisite: Junior standing, ENGL 322, or permission of the Department Head. Designed to introduce students to the theoretical issues, bibliographic skills and essential software fundamental of advanced study of Professional Writing and Publishing Studies. Direct experience with the production of both traditional and online materials; emphasis on digital print and Web resources. (Varies)

486/586. Document Production and Design. Credit 3 hours. Prerequisite: Junior standing, ENGL 322, or permission of the Department Head. Designed for students from all disciplines. A study of documents, both printed and electronic. Emphasis on visual rhetoric, desktop publishing, hypertext, web page authoring, and electronic presentations. Individualized instruction and assignments relevant to students' needs and interests. (Varies)

487/587. Major World Authors. Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. A study of selected authors, singly or in small related groups, from the ancient periods to the present. A variable content course. May be repeated if content is different. (Varies)

488/588. Modernism. Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. Representative writers from the 1890s to 1945 with attention to trends and innovations in the major literary genres. (Varies)

489/589. Postmodern and Contemporary Literature. Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. World, and/or American, and /or British literatures' representative writers from 1945 into the 21st Century with attention to trends and innovations in the major literary genres. A variable content course. May be repeated if content is different. (Varies)

490/590. Nineteenth Century American Literature. Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. A study of works organized to highlight the intellectual grounds of selected literary movements (e.g., transcendentalism, romance, realism), the aesthetic principles

of major genres (novel, poetry, essay), or the literary interactions of authors whose work led intellectual, cultural, and/or aesthetic innovation. (Varies)

491/591. Major American Authors. Credit 3 hours. Prerequisites: ENGL 300 and at least one of the following: ENGL 210H, 230, 231, 232, 291H, 292H, 301, 303, 310, 351, 352, 395 or 396; Junior standing or permission of the Department Head. Study of selected authors, singly or in small related groups, from the colonial period to the present. A variable content course. May be repeated if content is different. (Varies)

492/592. Introduction to Literary and Technical Editing. Credit 3 hours. Prerequisites: ENGL 102 or 102H and Junior standing or permission of the Department Head. This workshop class will acquaint students with current literary and technical editing and publishing practices, including online publishing. Students will practice editing texts to make the texts readable and conform to the norms of professional editing. Students will also have some chance to design, lay out, and produce small publications in print and online, utilizing professional software. (Varies)

493/593. Practicum in Humanities Print Publishing. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. Advanced application of editorial, design, and production skills to a major print humanities publishing project, such as a journal, magazine, chapbook, book, etc., from manuscript acquisition to printed product. Students develop design and advanced editing abilities along with professional facility with industry-standard publishing software. (Varies)

494/594. Publishing in Digital Humanities. Credit 3 hours. Prerequisites: ENGL 102 or 102H and junior standing or permission of Department Head. Designed for students in all disciplines. A workshop course in publishing digital texts, principally online. Theoretical readings on digital forms of the book; HTML, XML/TEI, and creation of digital texts using industry-standard web design software; analysis of emerging trends and platforms in digital publication. (Varies)

495/595. Internship. Credit 3 hours. Prerequisites: Junior standing and permission of Department Head. Supervised field experience in English with local, state, national, and international businesses, agencies, institutions (including colleges and universities), and organizations. This internship will allow students to utilize skills learned in the classroom and hone them in a modern workplace. Students will work with the internship supervisor to secure their own internships. All internship students will meet occasionally (either face to face or online) during the semester to examine issues associated with the experience. May be repeated for up to 6 hours. (Varies)

498/598. Writer's Studio. Credit 1-3 hours. Prerequisites: ENGL 325, 363, 364, 365, 370, 371, 372, or 380, or permission of the Department Head. In this course, students will study under a Writer-in-Residence, submitting creative manuscripts for professional critique and one-on-one and group consultation. The course will also include discussions on craft, publication, and current trends in the literary marketplace. (Varies)

499/599. Publishing Studies Workshop. Credit 3 hours. A service-learning course that creates teams of students drawn from the disciplines of Art, Communication, Computer Science, and English; these students complete complex projects for real-world clients from planning to implementation, using current software and a dedicated server. Student team roles will include print and web design, data coding, database and server management. Students will also read and respond to current discussions of workplace practices in publishing. One hour of lecture and three hours of lab weekly. A laboratory fee is required for this course. (Varies)

600. Studies in Medieval Literature. Credit 3 hours. In-depth study of selected works of medieval literature. A variable content-course. May be taken twice if content is different. (Varies)

601. Studies in Early Modern Literature. Credit 3 hours. In-depth study of selected works from the British Isles during the early modern period. A variable content course. May be taken twice if content is different. (Varies)

606. Studies in British Literature. Credit 3 hours. In-depth study of selected works of British literature excluding the medieval and early modern periods. A variable content course. May be taken twice if content is different. (Varies)

610. Studies in Performance. Credit 3 hours. In-depth study of selected works of drama, film, and/or related performance arts. A variable content course. May be taken twice if content is different. A laboratory fee is required for this course. (Varies)

617. Studies in World Literature. Credit 3 hours. In-depth study of selected works of world literature. A variable content course. May be taken twice if content is different. (Varies)

620. Studies in Language and Literacy. Credit 3 hours. A variable content course in composition, rhetoric, literacy studies, or linguistics. May be repeated if content is different. (Varies)

621. Studies in English Education. Credit 3 hours. In-depth study of issues in English Education. A variable content course. May be taken twice if content is different. (Varies)

630. Studies in American Literature. Credit 3 hours. A variable content course in American literature. Emphases may include literary movements, authors, genres, themes. May be taken twice if content is different. (Varies)

632. Modern Literary Criticism. Credit 3 hours. The methods used and the philosophies reflected in modern criticism; trends and issues in interpretation; reading and writing critical essays. Course may be repeated for credit once if content is different. (Varies)

645. Creative Writing Workshop. Credit 3 hours. Theories and methods of Creative Writing. Includes workshop discussion of student work. May be repeated once. (Varies)

646. Workshop in the Teaching of Writing. Credit 3 hours. A variable content course in the teaching of writing. Advanced work in composition theory, research, and practice, with emphasis on students' writing and on instructional applications. Permission required when offered as part of the Southeast Louisiana Writing Project. May be repeated for credit if content is different. (Varies)

648. Graduate Studies Seminar. Credit 3 hours. Intensive writing focused on promoting knowledge of the discipline of English studies, the various genres and forms of writing appropriate to Graduate Study in English, and training in advanced critical reading of literary scholarship and literary history. (Varies)

651. Studies in Professional Writing. Credit 3 hours. In-depth study of selected works and methods of Professional Writing. A variable content course. May be taken twice if content is different. (Varies)

652. Studies in Publishing. Credit 3 hours. In-depth study of selected topics in publishing. A variable-content course. May be taken twice if content is different. (Varies)

760. Internship Research. Credit 1-6 hours. Prerequisite: ENGL 595 or permission of Department Head. A portfolio and research course for students who have completed all other degree coursework and need to complete the comprehensive exam. This course is graded Pass/Fail. (Varies)

770. Thesis Research and Thesis. Credit 1-6 hours each semester, with 6 hours needed for graduation. The student must enroll in the thesis course each semester the thesis is in progress. The thesis is graded Pass-Fail. (Varies)

English for International Students (EGIS)

97. English Grammar and Conversation. Credit 3 hours. An intensive elementary-intermediate level English language course for students whose native language is not English. This course is designed to prepare students for entry into the required English sequence. The approach is communicative, involving grammar study, oral exercises, dialogues, and role playing. All four language skills (listening, speaking, reading, and writing) are developed. This course is not accepted for credit toward graduation. Students will be graded on the basis of Pass (P) or Unsatisfactory (U). A laboratory fee is required for this course. (Varies)

98. Reading. Credit 3 hours. This is a reading course designed to help develop comprehension skills in English, including identification, differentiation, and sequencing of main ideas, supporting ideas and details. Particular stress is given to imparting strategies that enable students to understand the overall meaning of an authentic text even when they are unfamiliar with some of the works and structures. An important goal for the students in the course is to transfer the reading skills they already have in their native language to reading in English. This course is not accepted for credit toward graduation, students will be graded on the basis of Pass (P) or Unsatisfactory (U). A laboratory fee is required for this course. (Varies)

107. Introduction to Academic Writing. Credit 3 hours. Prerequisite: A grade of P in EGIS 98 or permission of the Department Head. Designed to help non-native speakers improve writing skills. Concentrates on interdisciplinary writing practice and vocabulary study to prepare students for freshman composition, and other college courses. A laboratory fee is required for this course. (Varies)

108. Advanced Grammar and TOEFL Preparation. Credit 3 hours. Prerequisite: Completion of EGIS 107 or permission of the Department Head. Advanced grammar review and listening skills development for foreign graduate and undergraduate students who must pass the TOEFL. A laboratory fee is required for this course. (Varies)

Engineering Technology (ET)

100. Introduction to Engineering Technology. Credit 3 hours. Introduction to a broad range of engineering technology topics and fields, such as mechanical design, engineering materials, machining, computers and programming, data analysis and graphing, robotics, and communications. Discussion includes the roles, duties, responsibilities, professional ethics, professionalism, fundamental skills and knowledge required of engineering technologists. (Fall, Spring)

100H. Introduction to Engineering Technology Honors. Credit 3 hours. Prerequisite: Active status in the University Honors Program, or permission of the Department Head. Introduction to a broad range of engineering technology topics and fields, such as mechanical design, engineering materials, machining, computers and programming, data analysis and graphing, robotics, and communications. Discussion includes the roles, duties, responsibilities, professional ethics, professionalism, fundamental skills and knowledge required of engineering technologists. (Varies)

111. Engineering Graphics. Credit 3 hours. Topics covered include applied geometry, vectors, space, freehand sketching, orthographic projection, two-dimensional renderings with AUTOCAD, sectioning, dimensioning, and 3-D modeling body as well as assembling design using SolidWorks. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

132. Construction Materials and Methods. Credit 3 hours. A study of the behaviors and performance of building materials and assemblies, as well as construction standards and constraints. Emphasis is placed on the understanding of the advanced engineering aspects of specific materials and assemblies used in commercial and industrial structures. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall)

202. Computer Applications. Credit 3 hours. Prerequisite: MATH 162 or MATH 175. Introduction to the MATLAB programming environment including data types, graphics, functions, inputs/outputs, text processing, plotting functions, reading and writing data files, and case studies using MATLAB. (Summer, Fall, Spring)

205. Mathematical Methods for Engineering. Credit 3 hours. Prerequisite: MATH 200. A course on post-calculus mathematical techniques and methods specifically designed for engineering technologists. Topics include applied differential equations, matrices, determinants, statistics and probability. (Fall, Spring)

212. Introduction to Programming. Credit 3 hours. Prerequisite: MATH 162 or MATH 175. An introductory programming course in C. Topics include hardware/software and fundamentals of problem solving and algorithm development including data types, computation, simple input/output, selection and repetition, functions, and arrays. (Fall, Spring)

213. Electrical Circuits. Credit 3 hours. Prerequisite: MATH 175. A study of the fundamentals of electrical equipment and installations related to engineering technology. Topics include DC and AC power, electrical measurements, print reading, electrical wiring, application of network laws and theorems, nodal and mesh analysis for passive RLC circuits, transformers and polyphase circuits, illumination, heating, wiring codes and specifications. A laboratory fee is required for this course. (Fall, Spring)

214. Electrical Circuits II. Credit 3 hours. Prerequisite: ET 213. Sinusoidal steady state analysis, AC power analysis, three-phase circuits, Laplace transform and its application to circuit analysis, network functions, frequency response, magnetically coupled circuits and transformers. A laboratory fee is required for this course. (Spring)

215. Digital Computer Logic and Organization. Credit 3 hours. Prerequisite: ET 100. An introduction to computer organization and digital logic design. Provides an understanding of the basic hardware makeup of a computer and the basic concepts of its operation. The course includes Boolean algebra and binary arithmetic, basic building blocks of digital hardware, combinational and sequential circuits and their design methods using standard logic design chips, basic computer cycles, machine instructions, microprogramming, and I/O communication. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall)

221. Programming for Technologists. Credit 3 hours. Prerequisite: ET 212. An introduction to object-oriented computer programming, data structures, basic algorithms, and basic elements of software engineering. Program coding using a high-level language such as C++ or similar. (Spring)

225. Electronics I. Credit 3 hours. Prerequisite: ET 213. Introduction to electronics including characteristics and applications of diodes, transistors (BJT and FET), logic gates, digital and analog integrated circuits, operational amplifiers, and active circuits using op amps as well as concepts of power electronics including inverters and converters. Analysis and design of analog electronic circuits involving rectifiers, amplifiers, oscillators and other components will also be discussed. A laboratory fee is required for this course. (Fall)

226. Electronics II. Credit 3 hours. Prerequisite: ET 225. Review of semiconductors, diode theory and circuits, and BJT transistors. Introduction to transistor biasing, AC models, voltage amplifiers, CC and CB amplifiers, JFETS, Thyristors, differential amplifiers, operational amplifiers and circuits. A laboratory fee is required for this course. (Spring)

231. Surveying I. Credit 3 hours. Prerequisite: ET 100. Engineering principles and practices of surveying applied to instrumentation, computation, and construction site layout dealing with both commercial and residential construction. Two hours of lecture and two hours laboratory per week. A laboratory fee is required for this course. (Spring)

232. Surveying II. Credit 3 hours. Prerequisite: ET 231. Theory and supervised field practice in the layout of engineering and construction projects utilizing extensive surveying principles, applied science, mathematics, legal implications and computer applications. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall)

241. Introduction to Engineering Materials. Credit 3 hours. Prerequisite: MATH 162 or registration for or prior credit for MATH 175. An introduction to engineering materials with focus on mechanical behaviors of materials, material properties, industrial applications, limitation and selection of materials. Topics include atomic structure and bonds, stress and strain analysis, engineering structures, environmental consideration,

limitations and failures, and properties testing and measurement of materials. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Summer, Fall, Spring)

244. Construction Regulations, Contracts, and Specifications. Credit 3 hours. Prerequisite: ET 132. A study of codes and specifications required by municipality, counties/parishes, and states as well as construction contracts and professional ethics. Topics include contractual relationships amongst construction parties, types of agreements, worker's compensation, insurance, and ethics in construction. (Fall)

271. Engineering Statics. Credit 3 hours. Prerequisites: MATH 175 and PHYS 191. This course uses vector methods for the study of force, coupled and equivalent force systems, equilibrium of particles and rigid bodies, centroids, centers of gravity, moments of inertia, and virtual work. It includes analysis of simple structures such as trusses and beams and applications of dry friction models. A laboratory fee is required for this course. (Summer, Fall, Spring)

283. Manufacturing Processes. Credit 3 hours. Prerequisite: ET 241. This course serves as an introduction to a broad range of traditional and non-traditional manufacturing processes. Topics include casting and solidification processes, forming and shaping processes, material removal processes, joining processes, special processing and assembly technologies, engineering metrology and instrumentation, and other aspects of manufacturing. A laboratory fee is required for this course. (Spring)

305. Human Factors Engineering. Credit 3 hours. Prerequisite: Junior standing. This course provides the student with a basic knowledge of human factors design principles and the nature of human interaction with their environment. The course introduces cognitive engineering, ergonomics, system design, and the nature of human performance in the workplace. (Fall, Spring)

320. Microprocessors and Interfacing. Credit 3 hours. Prerequisite: CMPS 297 or ET 215. An introduction to principles of microprocessor and microcontroller operation, CPU, memory, buses and I/O interfaces. Topics include microcomputer-based system design, Windows programming, and interfacing. This course includes a design project. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Spring)

322. Programmable Logic Controllers. Credit 3 hours. Prerequisite: ET 215. This course provides a practical application of processes using variety of Programmable Logic Controllers that are commonly used in industry. It includes selecting and working with multiple modules while learning about ladder logic design and structured text programming. The class covers PLC expressions, operators, conditional statement and loops and their applications in mechanical and electrical systems. This course also includes PLC hardware connections, troubleshooting and the use of HMI. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Varies)

325. Digital Electronics. Credit 3 hours. Prerequisite: ET 225. Review of semiconductors and BJT transistors. Introduction to transistor biasing, small-signal AC models, voltage amplifiers, CC and CB amplifiers, JFETS, Thyristors, differential amplifiers, operational amplifiers, EPROM, and digital circuits and applications. A laboratory fee is required for this course. (Spring)

331. Commercial Construction Estimating I. Credit 3 hours. Prerequisite: ET 132. Fundamentals of construction estimating procedures, with analysis of light commercial construction prints and specifications to determine the quantity of materials, labor, equipment and overhead as well as profit as it relates to the bidding process. The use of traditional estimating practices and current computer software for the development of construction bids will also be discussed. (Spring)

332. Commercial Construction Estimating II. Credit 3 hours. Prerequisite: ET 331. An advanced study of heavy construction estimating for commercial, civil, and industrial construction projects. Includes advanced mathematics to solve conceptual problems that determine the unit price, labor cost, detailed estimating, overhead allocation, bidding strategies, and bid formula. Also includes use of latest estimating software for the development of construction bids for simulated projects. (Fall)

334. Reinforced Concrete Design. Credit 3 hours. Prerequisites: ET 132 and 271. Discussion about materials, constructability, and specifications related to reinforced concrete (RC) elements such as beams, girders, slabs, columns, and foundations in accordance with current ACI codes and standards. Topics include design and analysis of RC flexural members, shear resistance or RC and effect of combined compression and bending on RC columns. (Fall)

336. Steel Design. Credit 3 hours. Prerequisite: ET 132 and ET 271. The application of principles of strength of materials to the design and analysis of structural steel beams, columns, trusses and frames, as well as connection and base plates in accordance with current AISC specifications. The class also covers using finite element software to design simple steel structures. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Spring)

341. Electromagnetics. Credit 3 hours. Prerequisite: ET 214. Introductory course on electromagnetic. Topics covered: fundamental concepts and applications of Maxwell equations including static electric, magnetic fields, dielectric and ferromagnetic materials using Laplace's equation. A laboratory fee is required for this course. (Varies)

353. Total Quality Management. Credit 3 hours. Prerequisite: IT 407. This course provides students with an understanding of managing a total quality environment to improve quality, reduce costs and improve productivity. Emphasis is placed on the management, creation, organization, and evaluation of quality systems necessary to assure organizational and functional compliance with stated quality system requirements of national and international standards. (Varies)

355. Management of Technical Organizations. Credit 3 hours. Prerequisite: MATH 175. An introduction to industrial management principles. It covers topics in organizational, such as organizational strategy and conflict management; in technology management; such as technology transfer and new product development, and in human resources management, such as labor relations and legislation. (Varies)

357. Auto Identification and Data Capture. Credit 3 hours. Prerequisite: CMPS 173. This course provides the students with an understanding of different auto identification and data capture technologies and their applications in manufacturing and distribution industries. Topics include bar coding, radio frequency identification, magnetic stripe, voice data entry, radio data terminals, and optical character recognition. (Varies)

361. Solar Thermal Systems. Credit 3 hours. Prerequisites: PHYS 191 and MATH 200. An introduction to solar thermal systems and their applications. Topics include solar radiation, solar thermal materials, solar thermal collectors, solar energy storage, solar cooling, solar thermal power systems, solar thermal efficiency evaluation, and economics of solar thermal systems. (Spring)

362. Solar and Geothermal Systems. Credit 3 hours. Prerequisites: PHYS 191 and MATH 200. This course introduces fundamentals of solar thermal process, solar thermal collectors, solar energy storage, solar cooling, analysis and design of photovoltaic modules, battery, inverters, charge control method, grid integration, and economic impact of solar systems. Topics also include discussion of geothermal systems, the direct and indirect use of geothermal energy in heating and electricity generation, and solar thermal systems and their applications. (Fall)

363. Photovoltaics. Credit 3 hours. Prerequisite: ET 225 or permission of Department Head. An introduction to photovoltaic systems and their applications. Topics include fundamentals of solar radiation, design and construction of solar cells, and basics of semiconductor devices and circuits. The course will also discuss analysis and design of photovoltaic systems including photovoltaic modules, battery, inverters, charge control method, grid integration, and economic impact will also be discussed. (Spring)

365. Power Electronics. Credit 3 hours. Prerequisite: ET 225. An introduction to power electronic devices, circuits, and their applications. Topics include characteristics and analysis of power semiconductor devices, rectifier and switching power supply circuits, AC/DC, DC/AC converters, and computer modeling and simulation. (Varies)

371. Engineering Dynamics. Credit 3 hours. Prerequisite: ET 205 or permission of Department Head. This course uses vector methods for the study of two-dimensional as well as three-dimensional kinematics and kinetics of particles, systems of particles, and rigid bodies. Topics include equations of motion, conservation of energy and momentum, principles of linear impulse and momentum, work and energy methods. A laboratory fee is required for this course. (Spring)

375. Applied Thermodynamics. Credit 3 hours. Prerequisites: MATH 200 and PHYS 191. An introduction to the fundamentals of gas concepts, gas measuring devices, and calibration of measuring instruments. Topics also include vapor and gas cycles, ideal gas mixtures, reading of psychometric charts, determining fuel combustion efficiency of steam generating systems such as boilers and measuring of analyzing humid air and steam conditions including heat content. Basic concepts of Rankine cycle as the basis for steam and heat engine operations will also be introduced. (Fall)

376. Applied Fluid Mechanics. Credit 3 hours. Prerequisite: ET 205. This course provides a comprehensive introduction to the basics of fluids and fluid mechanics as well as applications in engineering and science. Topics include fluid statics and dynamics, fluid energy and flow measuring devices, fluid components and systems. (Fall)

381. Strength of Materials. Credit 3 hours. Prerequisites: ET 241 and ET 271. This course covers advanced topics in analysis of engineering materials and design of mechanical systems. Main focus will be given to mechanical behavior and mechanics of engineering materials, including fracture and failure as well as strength analysis. A laboratory fee is required for this course. (Fall)

385. Mechanical Design. Credit 3 hours. Prerequisite: ET 381. This course covers kinematic analysis and design of mechanisms, analysis of machine elements in terms of mechanical behavior of materials, stress concentration, combined stresses, fracture, and fatigue. Traditional methods and Finite Element Modeling and Analysis (FEM/FEA) are used. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Spring)

386. Machines and Controls. Credit 3 hours. Prerequisites: ET 202 and 213. An introductory control and instrumentation course applied to machine control. Topics include electrical measurements and instrumentation, motors and generators and their control, feedback control systems, and programmable logic controllers. A laboratory fee is required for this course. (Fall)

390. Engineering Economics. Credit 3 hours. Prerequisite: Junior standing. This course provides basic economic knowledge for analyzing financial performance of engineering projects. It includes the study of design economics, time value of money, depreciation, taxes, capitalization and amortization, replacement analysis, and risk analysis techniques. (Varies)

400. Internship. Credit 3 hours. Prerequisites: Junior or Senior standing and permission of the Department Head. Student must be an integral part of an engineering project team in industry during the semester. Graded as Pass/Fail only. This course can be repeated but only 3 credit hours can count as a technical elective. (Summer, Fall, Spring)

409. Special Topics. Credit 3 hours. Prerequisite: Permission of Department Head. Organized class or individual instruction on topics that are appropriate for the Engineering Technology program. May be repeated when topics vary for a maximum of 6 credit hours. (Varies)

410. Signals and Systems. Credit 3 hours. Prerequisites: ET 202 and 205. This course covers signal and system analysis. Topics include analysis techniques for signals and systems in both time and frequency domain. It discusses the modeling, simulation and response of dynamic systems using Laplace transform methods and introduces the response parameters of first and 2nd order system responses. It also covers the time and frequency responses of dynamic systems and gives introduction to feedback control. (Fall)

421. Industrial Electrical Machinery and Controls. Prerequisites: ET 225. A study of Industrial Electrical Motors and their controls including the operating characteristics and applications of various AC and DC motors, motor drives using variable frequency and speed drives, electromagnetic controls, and trending industrial topics. (Varies)

422. Mechatronics Systems. Credit 3 hours. Prerequisite: ET 322. This course provides a comprehensive and practical approach to designing a Mechatronics system to solve the needs of an industrial process. This includes the proper selection of the mechanical motion and requirements, selection of the actuation elements, calculation of the power requirements, design of the drive circuitry and the control method, selection of the transducers, and selection of the PLC modules to run the process. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Varies)

425. Control and Automation. Credit 3 hours. Prerequisites: ET 202 and 205. This course covers control systems analysis and design. Topics include time and frequency domain modeling and response, actuators and sensors for controlling programmable logic controllers, design of compensators, and use MATLAB for control system analysis. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

431. Power Transmission and Distribution. Credit 3 hours. Prerequisite: ET 214 or permission of Department Head. This course introduces fundamental concepts and systems related to generation, transmission, and distribution of AC and DC electrical power. Modeling and analysis of polyphase circuits, generators, motors, and transmission lines will be discussed. (Fall)

433. Wind Turbines. Credit 3 hours. Prerequisites: MATH 200 and PHYS 191 or permission of Department Head. This course discusses fundamental concepts, technologies, applications, impacts, and economics of wind turbines. Topics include physical principles of wind energy conversion, wind blade and rotor aerodynamics, tower design, mechanical drive train, electrical and control systems, installation and maintenance, environmental issues, and costs of wind turbines. (Fall)

434. Geothermal Systems. Credit 3 hours. Prerequisite: Senior Standing. An overview of different types of geothermal systems. Topics include characteristics of geothermal systems, system components, geothermal resources and exploration, scope of geothermal projects, preliminary survey and well testing, direct use of geothermal heat and indirect use for electricity generation, and related legal aspects. (Varies)

435. Electrical Machines. Credit 3 hours. Prerequisite: ET 213. An introduction to electrical machines and their applications. Topics include fundamentals of electricity and magnetism, energy and power, transformers, AC and DC generators, AC and DC motors, and motor drives. (Varies)

436. Fluid Dynamics & Hydrodynamic Machinery. Credit 3 hours. Prerequisites: PHYS 191 and MATH 200. An introduction to hydrodynamic machines. Topics include fundamentals of fluid mechanics, momentum transfer and rotor dynamics, rotodynamic machines, and positive displacement machines such as turbines, pumps, fans, and compressors. (Varies)

441. Construction Planning and Scheduling. Credit 3 hours. Prerequisite: ET 332. An introduction to the methods and procedures used in planning and scheduling commercial construction projects. Topics include critical path methods (CPM), program evaluation and review techniques (PERT), and PRIMAVERA. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Spring)

442. Construction Inspection. Credit 3 hours. Prerequisite: ET 132. This course discusses construction inspection, functions, responsibilities, authority and technical requirements related to construction industry. (Spring)

443. Foundation and Soil Mechanics. Credit 3 hours. Prerequisites: ET 132 and ET 271. This course aims to give knowledge and understanding of basic soil properties, weight volume relationship, soil classification, flow of water through soils, soil compaction and bearing capacity. The course also covers the selection and methods of installation of foundations and other soil supported structures, including footings, piles, caissons, and retaining structures. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Spring)

445. Commercial Architecture. Credit 3 hours. Prerequisite: ET 132. Analysis and solution to basic problems in the design and construction of small commercial properties using a variety of materials and methods of construction. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Varies)

446. Construction Systems. Credit 3 hours. Prerequisite: ET 244. A study of the economic and functional application of construction equipment including the types of equipment, ownership and operational costs as well as equipment scheduling and selection. Design, installation, and operation of materials and equipment in the HVAC and plumbing systems for residential and commercial construction with also be discussed. (Varies)

448. Construction Hydraulics. Credit 3 hours. Prerequisites: PHYS 191 and MATH 200. A study of physical phenomena of hydraulics and hydraulic forces with application of fundamental laws and empirical formula. Pressures and forces on submerged areas, buoyancy, flow in a closed conduit, open channels, and fluid measurements will also be discussed. (Varies)

463. Cost Estimating. Credit 3 hours. Prerequisites: ET 390 and IT 406 or permission of Department Head. A study of the fundamentals of cost estimating for labor, materials, and overhead for products, projects, operations, and systems. The concepts of internal and external cost estimating, types of costs, ethics, budgets, and profits will also be discussed. (Varies)

465. Industrial Simulation and Modeling. Credit 3 hours. Prerequisite: IT 406. This course introduces computer simulation methods and techniques used for analysis of manufacturing and service operations encountered in manufacturing industries. Topics include industrial simulation software, data analysis, optimization and how to simulate a complex system. (Varies)

475. National Electrical Code. Credit 3 hours. Prerequisites: ET 214 and Senior standing. An introductory study of current electrical code requirements using NFPA 70 National Electrical Code. Topics include study of electrical safety requirements with emphasis on wiring designs and methods, over-current protection, selection of material and equipment for general use, and basic calculations. (Varies)

478. HVAC. Credit 3 hours. Prerequisites: PHYS 192 and ET 213. An introduction to HVAC (heating, ventilating, and air conditioning). Topics include heat transfer devices, AC motors and compressors, residential and commercial refrigeration and heating, heat load calculation, and HVAC system layout and control. (Spring)

480. Advanced Strength of Materials. Credit 3 hours. Prerequisites: ET 271 and ET 381. A study of advanced topics of stress/strain analysis using Finite Element Method (FEM) with application to machine design. Topics include mechanical behaviors of materials and structures subjected to various loading conditions, such as tension, compression, torsion, and flexure. Deflection of prismatic members, columns, and combined stresses will be discussed. (Varies)

484. Advanced Manufacturing Technologies. Credit 3 hours. Prerequisite: ET 283 or permission of Department Head. This course covers advanced and non-traditional manufacturing processes, such as the application of lasers and other modern methods in manufacturing processes, high speed machining technologies, advanced treatment of metal forming processes, and particulate material processing. Students are required to participate in research and development of a specific manufacturing area of particulate material processing. Students are required to participate in research and development of a specific manufacturing area of interest. (Varies)

488. Robotics and Automation. Credit 3 hours. ET 213 and Senior standing. An introduction to robotics and automation. Topics include manipulators and mobile robotics, actuators and sensors, industrial control systems, and robot and system integration. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Varies)

490. Seminar. Credit 1 hour. Prerequisite: ET 493. Discussion of social, ethical, and professional issues. Presentations and research on topics of current interest in engineering and technology. Grades assigned on a Pass/Fall basis only. (Fall, Spring)

492. Project Management. Credit 3 hours. Prerequisite: Junior standing. This course covers the principles of project management for technologists and the use of project management software. Topics include the concepts involved in review techniques, network modeling, and the critical path method. In addition, linear programming and network optimization models with application to solve project management problems will be discussed. (Summer, Fall, Spring)

493. Senior Design I. Credit 3 hours. Co-requisites: ET 492 and Senior standing. This course is the first part of the Capstone Design Project. It covers engineering ethics, teamwork and leadership, problem solving, oral and written technical communication, project management, and the integration of ET with real-world examples such as case studies in computer systems, robots, and mechatronics. All team projects are subject to instructor's approval. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

494. Senior Design II. Credit 3 hours. Prerequisites: ET 493 and Senior standing. This course is the second part of the Capstone Design Project. It builds on and extends the themes covered in ET 493, culminating in a written Capstone Design Project and an oral presentation to the ET faculty and students at the end of the semester. The capstone project can take a variety of forms, such as analytical, computational, design-based, or experimental. Social, ethical, and professional issues as well as research on topics of current interest in engineering and technology will also be discussed. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

620. Quality Management and Control. Credit 3 hours. Prerequisite: Approval of Department Head. Quality management (QM) is a comprehensive approach for leading and operating an organization, aimed at continually improving performance over the long term by focusing on customers while addressing the needs of stakeholders. The course focuses on various QM frameworks, concepts, and quality improvement tools, including TQM, Six Sigma, Lean and Lean Six Sigma, etc., that are necessary for implementing the quality culture that characterizes world-class organizations of the 21st century. (Varies)

Finance (FIN)

101. Financial Literacy. Credit 1 hour. Topics could include financial planning, time value of money, budgeting, cash management, managing credit, big-ticket items, insurance, retirement, and investing. Topics may vary based on student needs and trends. (Varies)

123. Personal Finance. [LCCN: CFIN 2113, Personal Finance]. Credit 3 hours. A study of the management of personal financial affairs, including budgeting, banking, insurance, installment financing, rent/purchase decisions, real estate, personal taxes, and lifetime financial planning. May be used as an elective. (Summer, Fall, Spring)

282. Personal Finance with Spreadsheet Applications. Credit 3 hours. A spreadsheet-based study of the management of personal financial affairs, including budgeting, the time value of money, investment analysis, the fundamentals of risk and return, banking, mortgage financing of real estate, cost of consumer credit alternatives and automobile financing, and lifetime financial planning. A laboratory fee is required for this course. (Varies)

381. Business Finance. [LCCN: CFIN 3113, Principles of Business Finance (Upper Level)]. Credit 3 hours. Prerequisites: ACCT 200 and Junior standing or permission of the Department Head. A study of organization of business firms, financial planning, funds from operation, short and intermediate loan capital, owners' equity, long-term debt, and business promotion and expansion. A laboratory fee is required for this course. (Summer, Fall, Spring)

382. Problems in Business Finance. Credit 3 hours. Prerequisite: FIN 381. A study of the tools and techniques used in corporate financial management. The analysis focuses on spreadsheet applications to asset valuation, risk and return assessment, financial statements, cost of capital and capital budgeting. (Varies)

383. Working Capital Management. Credit 3 hours. Prerequisite: FIN 381. A study of the analysis of financial theory and problems involving working capital. Topics include the management of cash, receivables, inventories, and short-term funding. (Varies)

384. Corporate Valuation and Risk Management. Credit 3 hours. Prerequisite: FIN 381. A study of the theory and techniques employed in conducting corporate valuation and the management of corporate risk. The focus of the analysis is spreadsheet applications to financial planning and forecasting, firm valuation using free cash flows and economic value added, risk management tools, and option pricing. (Fall, Spring)

391. Finance Internship. Credit 3 hours. Prerequisites: FIN 381, minimum 2.5 cumulative grade point average and permission of Department Head. Finance Internship provides a student with finance experience in an assignment selected and approved by the University with a cooperating business firm. Students will earn three semester hours of credit for 300 hours of approved work experience. Only finance majors can receive credit for the Finance Internship course. All grades are assigned on a Pass/Fail basis. (Summer, Fall, Spring)

392. Finance Internship. Credit 3 hours. Continuation of FIN 391. In order to obtain credit for FIN 392, the work assignment must be different from that of FIN 391. This course will be graded Pass/Fail only. (Summer, Fall, Spring)

401. Capital and Money Markets. Credit 3 hours. Prerequisite: FIN 381 or approval of the Department Head. This course is designed to provide the basic knowledge and tools required to analyze financial markets and their institutions. The primary objective is to provide students with adequate knowledge of the structures and practical operations of major financial markets and the underlying forces which unify them. (Fall)

410. Managerial Finance. Credit 3 hours. Prerequisites: Junior standing, ACCT 225, ECON 201, ECON 202 and FIN 381. The study of tools and techniques used in the formulation and implementation of financial policies, including analysis of financial needs, acquisition of financial resources, and allocation of funds to finance a business. Financial decision making involving applied economics, accounting, and statistics. (Not open to finance majors). (Spring)

447. Global Financial Management. Credit 3 hours. Prerequisite: FIN 381. The financial problems and opportunities that confront the management of international firms. Sources and instruments of international finance, import and export financial considerations, and the interrelationship of governmental and international agencies to the financial function of business will be emphasized. (Spring)

451/551. Investment Analysis. Credit 3 hours. Prerequisite: FIN 381. A study of the fundamental principles of business firms; major markets in the United States, and hypothetical portfolios developed using current data. A laboratory fee is required for this course. (Summer, Fall)

452. Portfolio Management. Credit 3 hours. Prerequisite: FIN 451. A study of financial investment alternatives and strategies in a portfolio context. Special emphasis is given to financial engineering techniques applied in the design and management of investment portfolios within the framework of specific risk-return objectives. Students will participate in managing the Heyward Gibbs Hill Scholarship Fund. (Spring)

495. Special Topics in Finance. Credit 3 hours. Prerequisite: FIN 381. A seminar course that covers selected current and unique topics of special interest in finance not covered in existing courses. A laboratory fee is required for this course. (Summer, Fall, Spring)

499. Seminar in Finance. Credit 3 hours. Prerequisites: FIN 384 and FIN 451 (FIN 499 and FIN 451 may be taken concurrently). A capstone seminar course with emphasis on the application of finance concepts to real world problems using case studies with heavy reliance on spreadsheet models and Bloomberg applications. (Fall, Spring)

650. Health Care Financial Management. Credit 3 hours. A course designed to introduce students to the concepts of basic managerial financial functions, such as budgeting, accrual accounting, and the responsibilities of financial management. (Varies)

653. Financial Policies I. Credit 3 hours. Prerequisites: FIN 381 and Graduate standing. The study of tools and techniques used in the formulation and implementation of financial policies. Specific emphasis is given to the analysis of financial statements, working capital management, valuation, capital budgeting, cost of capital, capital structure and leasing. A laboratory fee is required for this course. (Fall, Spring)

654. Financial Policies II. Credit 3 hours. Prerequisites: FIN 381 and Graduate standing. The study of tools and techniques used in the formulation and implementation of financial policies involving topics not covered in FIN 653. Specific emphasis is given to the analysis of risk management, dividend policy, the investment banking process, hybrid financing, bankruptcy and reorganization, mergers and divestitures, and multinational financial management. (Varies)

657. Financial Institutions Management. Credit 3 hours. Prerequisites: FIN 381 and Graduate standing. A case-oriented introduction to the mechanics, operation, and structure of the financial intermediary system. Emphasis is placed on developing an understanding of financial markets, monetary policy and the international financial arena. (Varies)

695. Special Topics in Finance. Credit 3 hours. Prerequisites: FIN 381 or permission of the Department Head and Graduate standing. A seminar course focusing on selected issues in finance. (Fall)

Foreign Language (FLAN)

100. Fundamentals of Latin and Greek for Science Majors. Credit 3 hours. An elective course designed to introduce students to the fundamentals of Latin and Greek as they are used in the biological sciences and medicine. This course will not be used to satisfy the foreign language requirement. (Varies)

306. Special Topics (FLAN for Professions). Credit 3 hours. This course is designed to provide non-foreign language-speaking students with necessary language skills to perform a particular job. This course differs from traditional foreign language courses in that it utilizes phonetic encoding to teach foreign language commands, questions, and phrases critical to a particular area of study (e.g. Business, Nursing, Law Enforcement). No prior knowledge of foreign language necessary. Cannot be used to fulfill any sequence of the foreign language requirement. This course may be taken for 1, 2, or 3 hours at any one time and can be repeated, if different topics are studied, for a maximum of 6 hours. (Varies)

370. Studies in Foreign Language Cinema. Credit 3 hours. Through a combination of lectures, screenings, readings, and discussions, this course aims to provide students with an appreciation of films from various countries and/or cultures from around the world. The course may cover various time periods, topics, and/or styles of film. Themes will be relevant cinematic studies in French, Spanish, German, Latin, or Italian as appropriate. Taught in English with a language option for minors. May be repeated as topics vary. (Varies)

400. Second Language Acquisition. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. An in-depth study of the theory behind how humans learn second languages. (Varies)

401/501. Foreign Language Methodology. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. This course examines second language acquisition theories and provides students with different methodologies for the instruction of foreign languages. Beginning with an overview of traditional and current foreign language teaching methods, the course focuses on current pedagogical trends. It presents a number of techniques designed to develop the students' skills pursuant to language and learning theories, learning objectives, and the role of teachers and students. Competency-based clinical practice required. (Varies)

402. Romance Linguistics. Credit 3 hours. Prerequisite: French or Spanish 319 or Latin 311 or equivalent. A comparative study of the Romance languages and their characteristics. (Varies)

404. Experiential Learning Development and Application. Credit 3 hours. Prerequisite: French, Spanish, Italian, German, or Latin 201 or permission of Department Head. This course focuses on second language skills applied to real-life situations. Emphasis will be placed on learning through experience or service in civic engagement projects such as translation and interpreter assistance for individuals, businesses, charity organizations, and health facilities in both university and community settings, teaching, tutoring, after-school partnerships with area schools, and study-abroad service-learning projects. Student participation and performance will be assessed through formal observation by faculty in both the classroom and the field and through evaluation of a final portfolio that will contain artifacts pertaining to the students' work in the classroom and in the field as well as narrative reflections on progress made. Education candidates complete a competency-based clinical practice for this course. Course may be taken twice for a total of six credit hours. (Varies)

405/505. Foreign Languages I. Credit 3 hours. Prerequisite: Junior standing or permission of Department Head. This course provides an introduction to the grammatical structures necessary for reading, writing, speaking, and listening in the target language. Special attention will be given to the study of culture. The course may be taken in French, Spanish, Italian, German, or Latin. The course may be repeated only in a different language. (Varies)

406/506. Foreign Languages II. Credit 3 hours. Prerequisite: FLAN 405/505 or permission of Department Head. This course provides a continuation of the study of the grammatical structures of the language necessary for reading, writing, speaking, and listening in the target language. Special attention will be given to the study of culture. The course may be taken in French, Spanish, Italian, German, or Latin. The course may be repeated only in a different language. (Varies)

407. Professional Aspects of Foreign Languages. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. An in-depth study of current trends in the job market, graduate schools, professional programs, and other areas of interest to foreign language majors and minors upon completion of their degree. Course may be repeated for credit as an elective as topic varies. (Varies)

441/541. Foreign Language Supervised Advanced Readings. Credit 3 hours. Prerequisites: a 300-level course in the language for which credit is to be given and consent of the Department Head. May be counted for credit in French, Italian, Latin, Spanish, and German. Reading of advanced literary works. Class meets once every two weeks for testing. (Varies)

442/542. Foreign Language Supervised Advanced Readings. Credit 3 hours. Prerequisites: a 300-level course in the language for which credit is to be given and consent of the Department Head. May be counted for credit in French, Italian, Latin, Spanish, and German. Reading of advanced literary works. Class meets once every two weeks for testing. (Varies)

498. Senior Capstone Project in Foreign Languages. Credit 1 hour. Prerequisites: A completed graduation application and 100 or more credit hours earned, or permission of Department Head. Students will create a professional portfolio detailing their most significant class work and their progress toward linguistic, literary, and cultural competency. Portfolios must be successfully presented to a faculty panel in order to obtain credit. The course is graded P/F. (Fall, Spring)

French (FREN)

101. Elementary French I. [LCCN: CFRN 1013, Elementary French I]. Credit 3 hours. The beginning course for students with no knowledge of French. All appropriate elements of basic language learning are utilized for the purpose of providing a foundation in the language and culture of the countries where French is spoken. Class work supplemented by aural-oral drill in the language laboratory. Offered as the first of four sequential courses (101, 102, 201, 202) designed to provide an overall desired proficiency. (Fall, Spring)

101H. Elementary French I for the Honors Student. Credit 3 hours. Prerequisite: Active status in the Honors Program. The beginning course for students with no prior knowledge of French. All appropriate elements of basic language learning are utilized for providing an enriched foundation in the language and culture of the countries where French is spoken. Class work is supplemented by aural-oral drill in the language laboratory. (Varies)

102. Elementary French II. [LCCN: CFRN 1023, Elementary French II]. Credit 3 hours. Prerequisite: FREN 101 or equivalent. Continuation of FREN 101. (Fall, Spring)

102H. Elementary French II for the Honors Student. Credit 3 hours. Prerequisites: Active status in the Honors Program and successful completion of French 101 or equivalent. The second course in the initial sequence of French classes. All appropriate elements of basic language learning are utilized for the purpose of providing an enriched foundation in the language and culture of the countries where French is spoken. Class work is supplemented by aural-oral drill in the language laboratory. (Varies)

201. Intermediate French I. [LCCN: CFRN 2013, Intermediate French I]. Credit 3 hours. Prerequisite: FREN 102 or equivalent. Completion and review of basic elements of grammar. Introduction of reading material of moderate difficulty. (Fall, Spring)

202. Intermediate French II. [LCCN: CFRN 2023, Intermediate French II]. Credit 3 hours. Prerequisite: FREN 201 or equivalent. A course with emphasis on proficiency in reading and continuation of grammar review. (Fall, Spring)

300. Introduction to Conversation in French. Credit 3 hours. Prerequisite: FREN 202 or equivalent. An introduction to the development of conversational skills in French. Course may be repeated once for credit for an elective. (Varies)

303. Enhanced Listening Comprehension and Oral Expression. Credit 3 hours. Prerequisites: FREN 202 or equivalent. Course designed to enhance listening comprehension and speaking skills in French after completing basic language sequence. (Varies)

304. Introduction to Grammar in French. Credit 3 hours. Prerequisite: FREN 202 or equivalent. An introduction to the study of certain grammatical structures in French. (Varies)

305. Introduction to Writing in French. Credit 3 hours. Prerequisites: FREN 202 or equivalent. An introduction to the study of writing in French. Students will focus on conventions of writing within various contexts such as blogs, professional emails, newsletters, websites, and social media. (Varies)

306. Introduction to Translation in French. Credit 3 hours. Prerequisite: FREN 202 or equivalent. An introduction to the theory and practice of translating documents between English and French. Students will focus on a variety of professional, public, and commonly used documents. (Varies)

307. Introduction to Interpretation in French. Credit 3 hours. Prerequisite: FREN 202 or equivalent. An introduction to the theory and practice of interpreting conversations between native English-speakers and native French-speakers. Course may be repeated once for credit as an elective. (Varies)

308. Pronunciation and Phonetics in French. Credit 3 hours. Prerequisite: FREN 202 or equivalent. A focus on the development of proper pronunciation in French. (Varies)

310. Advanced French Conversation. Credit 3 hours. Prerequisite: FREN 202 or equivalent. An intensive exploration of the process of conversation. Examines vocabulary development, pronunciation, fluency, and other related issues. Course may be repeated once for credit as an elective. (Varies)

311. Advanced French Grammar. Credit 3 hours. Prerequisite: FREN 202 or equivalent. Intensive study of grammar and syntax. Recommended for students who wish to improve their language skills. (Varies)

312. Advanced French Composition and Syntax. Credit 3 hours. Prerequisite: FREN 202 or equivalent. Descriptive and narrative compositions in French with emphasis on syntax and verb forms. Effective writing of letters and short reports will be stressed to develop business skills. Recommended for students who wish to improve their language skills. (Varies)

314. French Culture and Civilization. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. Geography, history, literature, art, music, educational system, economy, etc. of the French people. Recommended for students interested in the culture of France. This course cannot be used to fulfill the foreign language requirement. (Varies)

323. French for Specific Purposes. Credit 3 hours. Prerequisite: FREN 202 or permission of the Department Head. A study of French as a tool for performing a particular job. This course focuses on commands, questions, and phrases critical to particular area of focus (e.g., Business, Nursing, Law Enforcement). Content will vary. Course may be repeated as topic varies. (Varies)

324. Francophone Culture and Civilization. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A survey course of the geography, history, literature, art, music and general aspects of culture in the various French speaking countries throughout Africa, Asia and the Americas. A special component will be dedicated to Louisiana French studies. A required course for the minor in Francophone and Creole Studies. (Varies)

325. Literature of France. Credit 3 hours. Prerequisite: FREN 202 or equivalent. A survey of French literature. Develops reading and analytical skills in French and explores different theoretical approaches to the texts. (Varies)

326. Francophone Literature. Credit 3 hours. Prerequisite: FREN 202. This course is a survey of Francophone literature from the nineteenth century, when the concept of Francophone literature emerged, until today. It exposes students to different literary movements and styles in the Francophone world and explores varied theoretical approaches to the notion of text. (Varies)

327. French for Business and International Trade. Credit 3 hours. Prerequisite: FREN 102 or equivalent. The course will develop students' ability to use French to conduct business, and to understand the economic and financial environment of the Francophone world. Students will utilize the following language skills: speaking, listening comprehension, reading, writing, and translation/interpretation. (Varies)

370. Studies in French Cinema. Credit 3 hours. Taught in English, with a French language option for minors. Themes in French film from the Thirties. (Varies)

423. Special Topics in French and Francophone Studies. Credit 3 hours. Prerequisite: FREN 202. A special topics course that offers a detailed analysis of a particular genre, movement, author, or topic. May be repeated for credit as topics vary. (Varies)

General Biology (GBIO & BIOL)

106. Introduction to Biological Principles I. [LCCN: CBIO 1013, General Biology I]. Credit 3 hours. A survey of the fundamental principles and concepts of biology including biochemistry, cell biology, metabolism, photosynthesis, cell division, reproduction, genetics, molecular biology, development, evolution, and ecology. This would be the first course in a sequence which satisfies the General Education Sequence requirement in the Natural Sciences. Three hours of lecture per week. Persons majoring in Biology may not use this course to fulfill their major requirements. However, it may be used to fulfill an elective requirement and in calculating cumulative averages. (Summer, Fall, Spring)

107. Introduction to Biological Principles II. [LCCN: CBIO 1023, General Biology II]. Credit 3 hours. Prerequisite: GBIO 106 [111], or GBIO 151, or GBIO 151H or permission of the Department Head. A course which relates to the broad biological principles covered in GBIO 106 and GBIO 151 to specific groups of organisms. Emphasis will be placed on taxonomy, diversity, systems and architecture of these organisms. Three hours of lecture per week. Persons majoring in Biology may not use this course to fulfill their major requirements. However, it may be used to fulfill an elective requirement and in calculating cumulative averages. (Summer, Fall, Spring)

108. Human Reproductive Biology. Credit 3 hours. Structure, function, coordination and control of the human reproductive organ system. Human heredity, development, birth and sexual differentiation. Biological aspects of sexual abnormalities, and venereal diseases. No credit awarded towards Biology major. This course may not be used to satisfy the General Education sequence requirement in the natural sciences. (Varies)

151. General Biology I. [LCCN: CBIO 1033, General Biology I (Science Majors)]. Credit 3 hours. Prerequisite: Must be eligible to enroll in ENGL 101 and MATH 107. Non-biology majors must be eligible to enroll in ENGL101 and MATH 105, 107, or 161. Principles of biology from the cellular level including biochemistry, cell biology, metabolism, photosynthesis, molecular biology, and genetics. This course is designed for students planning to major in biology or related disciplines. Three hours lecture per week. (Summer, Fall, Spring)

151H. General Biology I Honors. Credit 3 hours. Prerequisites: Must be eligible to enroll in ENGL 101, and authorization by the Director of the Honors Program. Principles of biology from the cellular level including biochemistry, cell biology, metabolism, photosynthesis, molecular biology, and genetics. This course is designed for students planning to major in biology or related disciplines. Three hours lecture per week. (Fall, Spring)

152. General Biology Laboratory I. [LCCN: CBIO 1031, General Biology I Lab (Science Majors)]. Credit 1 hour. Prerequisites: Registration in or prior credit for GBIO 106 or GBIO 151 and all prerequisite courses must have a grade of "C" or better. Laboratory exercises for studying the principles of biology from the cellular level including biochemistry, cell biology, molecular biology, and genetics. Two hours of laboratory per week. A laboratory fee is required for this course. (Summer, Fall, Spring)

153. General Biology II. [LCCN: CBIO 1043, General Biology II (Science Majors)]. Credit 3 hours. Prerequisite: Completion of GBIO 151 with a "C" or better. A systematic study of the structure, function, evolution, ecology and relationships of organisms including viruses, bacteria, protists, fungi, plants, and animals. This course is designed for students planning to major in biology or related disciplines. Three hours lecture per week. (Summer, Fall, Spring)

153H. General Biology II Honors. Credit 3 hours. Prerequisites: Completion of GBIO 151H and authorization by the Director of the Honors Program. A systematic study of the structure, function, evolution, ecology and relationships of organisms including viruses, bacteria, protists, fungi, plants, and animals. This course is designed for students planning to major in biology or related disciplines. Three hours lecture per week. (Fall, Spring)

154. General Biology Laboratory II. [LCCN: CBIO 1041, General Biology II Lab (Science Majors)]. Credit 1 hour. Prerequisites: Registration in or prior credit for GBIO 107 or GBIO 153 and all prerequisite courses must have a grade of "C" or better. Laboratory exercises for systematically studying the structure, function, evolution, ecology, and relationships or organisms including protists, fungi, plants and animals. Two hours of laboratory per week. A laboratory fee is required for this course. (Summer, Fall, Spring)

155. General Biology Laboratory Simulation. Credit 1 hour. Prerequisites: Registration in or prior credit for GBIO 151, eligibility for the CALL program (RN to BSN in Nursing), and permission of the Department Head of Biological Sciences. A series of virtual/science kit laboratory experiments including but not limited to experimental design microscopes, cells/cell structure, cell membranes, enzymes/chemical reactions, mitosis, meiosis, and genetics. Students will relate topics learned in lectures to a virtual laboratory setting, use the scientific method to answer

questions relevant to biology, follow instructions to complete assigned experiments, and report the required results, perform relevant mathematical calculations required to complete the laboratory, use a spreadsheet to create graphs representing data obtained from the experiment, create electronic reports summarizing data and drawing required experimental conclusions as well as a video display of how they conducted the lab for the science kits. This course is exclusively for students in the CALL nursing program and may not be used to substitute for any Biology, Microbiology, or Zoology laboratory or lecture courses, nor can it be used to satisfy any prerequisites, co-requisites, or requirements for any of these courses. A laboratory fee is required for this course. (Summer, Fall, Spring)

200. Cell Biology. [LCCN: CBIO 2133, Cell Biology]. Credit 3 hours. Prerequisites: GBIO 151 and 153, MATH 161 or 175 or 200, and CHEM 121, all with a grade of "C" or better, or permission of the Department Head. A detail-oriented core course that allows students to: understand the basic biochemistry of cell structure, function, and metabolism; explore molecular mechanisms used by cells for survival, growth, proliferation, differentiation, and death; and highlight the roles of gene/protein expression/function, cell membranes, cell signaling, and energy transformations in these processes. Three hours of lecture per week. (Summer, Fall, Spring)

203. Selected Topics in Biology. Variable credit 1-4 hours. Prerequisite: Permission of the Department Head. Selected topics in biology that are new or unique and are not covered in existing courses. May be repeated more than once if different topics are studied up to a maximum of 4 credit hours. This course may not be used by biology majors as a concentration elective; it may be used as a general elective. (Fall)

241. The Profession of Biology or Getting What You Came For. Credit 1 hour. Prerequisites: Major in Biology and credits for GBIO 151, 153 and BIOL 152 and all prerequisite courses must have a grade of "C" or better. An Internet-based course designed to guide students in making appropriate and informed career plans in the biological sciences. Two hour of Internet learning per week. The course is graded pass/fail. (Summer, Fall, Spring)

281. Environmental Awareness. [LCCN: CEVS 1103, Environmental Science]. Credit 3 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent and all prerequisite courses must have a grade of "C" or better. A broad-spectrum study of the ecological problems of our society. Three hours of lecture per week. (Spring)

312. Genetics. [LCCN: CBIO 3523, Genetics (Upper Level)]. Credit 3 hours. Prerequisites: GBIO 200 or permission of the Department Head and all prerequisite courses must have a grade of "C" or better. Recommend: Completion of MATH 161 or 164 and 162 and one course of Organic Chemistry. A study of fundamental hereditary mechanisms and relationships. Emphasis is placed on nucleic acids and the molecular and cytological roles by which genes are distributed and expressed. (Summer, Fall, Spring)

314. Genetics Laboratory. [LCCN: CBIO 3521, Genetics Lab (Upper Level)]. Credit 2 hours. Prerequisite: Registration in or prior credit for GBIO 312. A series of experiments designed to illustrate the principles of genetics. Four hours of laboratory per week. A laboratory fee is required for this course. (Varies)

341. Professional Aspects of Biology. Credit 1 hour. Prerequisite: Major in Biology, Junior status or permission of Department Head. An introduction to learning in biological sciences beyond the usual classroom or laboratory setting. Specific sections may allow students to gain experience in conducting research in designated specialties or focus on aspects of the philosophy, ethics, and history of scientific research. May be repeated for up to two credits. Two hours of field learning per week. (Summer, Fall, Spring)

377. Applied Biostatistics. Credit 4 hours. Prerequisites: MATH 161 or consent of the Department Head and all prerequisite courses must have a grade of "C" or better. Basic concepts of biostatistics and sampling strategy; measures of central tendency and dispersion; Z, t, chi-square, and F distributions; test of hypothesis, error rates, and maximizing power; analysis of variance and regression. Strong emphasis on, and many examples of, field and laboratory oriented biological research problems. Three hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

395. General Ecology. [LCCN: CECO 4123, Principles of Ecology (Upper Level)]. Credit 3 hours. Prerequisites: GBIO 153, BIOL 154, or permission of the Department Head and all prerequisite courses must have a grade of "C" or better. Biology majors must additionally be concurrently registered in GBIO 397. The biology of ecosystems: energy, patterns of ecosystems, and populations, interspecies interactions, diversity and development. Three hours of lecture per week. (Fall, Spring)

397. General Ecology Laboratory. [LCCN: CECO 4121, Principles of Ecology Lab (Upper Level)]. Credit 2 hours. Prerequisite: Registration in or prior credit for GBIO 395. A series of activities and exercises designed to illustrate ecological concepts and to introduce students to ecology as a scientific discipline. The course will include class excursions to natural habitats both on and off campus. Four hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

404/504. Ecological Methods. Credit 3 hours. Prerequisites: GBIO 377 and GBIO 395, or permission of the Department Head and all prerequisite courses must have a grade of "C" or better. An introduction to exploratory and experimental ecology with an emphasis on experimental design, sampling strategy, ecological indices, population dynamics, and simulation modeling. Two hours of lecture and two hours of laboratory per week. (Varies)

405/505. Evolutionary Biology. [LCCN: CBIO 3643, Evolutionary Biology (Upper Level)] Credit 4 hours. Prerequisites: GBIO 312, or permission of the Department Head and all prerequisite courses must have a grade of "C" or better. Knowledge of evolutionary concepts is fundamental to the understanding of biology. The theory of evolution unifies all of the disparate disciplines included within the life sciences. Microevolution explores processes occurring at or below the level of species, including mechanisms of inheritance, reproductive isolation, and speciation. Macroevolutionary concepts operating above the species level include paleontology, biogeography, systematics, phylogeny, and an understanding of human origins. Four hours of lecture per week. (Summer, Fall, Spring)

406/506. Wetland Ecology. Credit 4 hours. Prerequisites: GBIO 153, BIOL 154, and Junior standing, or permission of the Department Head and all prerequisite courses must have a grade of "C" or better. A study of wetland ecosystems considering productivity and salinity variations with an emphasis on the interface of aquatic and terrestrial environments. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. A laboratory fee is required for this course. (Odd Year Spring Semesters)

407/507. Forensic Biology. Credit 4 hours. Prerequisites: GBIO 151 and GBIO 153, or permission of the Department Head and all prerequisite courses must have a grade of "C" or better. An introduction to the use of biological information in civil and criminal investigations of deceased humans and wildlife. Topics will include basic principles of human decomposition, forensic anthropology, botany, entomology, odontology, and pathology. Laboratory component will include mock crime scene scenarios, emphasizing methods and procedures for recovery of crime scene evidence, forensic entomology, and decompositions rates. Three hours of lecture and three hours of laboratory per week. (Spring)

408/508. Biological Data Analysis. Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 with a grade of "C" or better. This course will focus on using computational methods and computer programs to acquire, clean and visualize biological data, and will include substantial hands-on segments working with real biological datasets. Topics covered will include: introductory programming, data analysis, and visualization for biological applications. No prior computing experience is required. Three hours of lecture and three hours of laboratory per week. A laboratory fee is required for this course. (Fall)

409. Internship. Credit 1-3 hours. Prerequisites: Junior/Senior standing and permission of the Department Head. This course is designed to give students practical experience working with professionals in their chosen field. The student is responsible for finding a sponsoring professor and a professional with whom to work. Students earn one credit for 3 hours internship per week averaged over the term, up to a maximum of 3

credits for 9 averaged hours per week. May be repeated more than once for up to a maximum of 3 credit hours. Means of evaluation is determined by the sponsoring professor and the professional. (Summer, Fall, Spring)

410/510. Introduction to Population Genetics. Credit 4 hours. Prerequisite: GBIO 312. This course explores the mechanics of evolution from the viewpoint of allelic frequencies. It begins with the basic theory of Hardy-Weinberg equilibrium and expands that theory to embrace linkage disequilibrium, selection in single-locus and multi locus systems, genetic drift, and the effects of mutation rates, population size, and migration on the genetic structure of populations. Exposure is given to classic ideas. (e.g., shifting balance theory and runaway sexual selection) and to applications of theory (e.g., breeding designs, conservation genetics). Three hours of lecture and three hours of laboratory per week. A laboratory fee is required for this course. (Varies)

411/511. Evolutionary Data Science. Credit 4 hours. Prerequisite: GBIO 405/505 Evolutionary Biology with a grade of C or better, or graduate student standing. This course is designed to teach students how to access and process data to build phylogenetic trees using statistical models of molecular and morphological evolution. These phylogenetic trees will be used to model how traits and organisms have evolved over time, and to assess model fit and adequacy. Visualizing phylogenetic trees and model solutions will also be discussed. Six hours of a mixture of lecture, hands-on computational exercise, and discussion of papers from the primary literature per week. (Spring)

412/512. Graduate School in Biology. Credit 1 hour. Prerequisites: Junior/Senior standing and GBIO 312 with a grade of C or better. This course is for upper-division undergraduates who may be interested in pursuing MS or PhD level education or current MS students interested in pursuing PhD study. The course discusses the types of possible future paths for these students, such as what types of careers there are in academia, what types of institutions hire MS or PhD-holding biologists, finding appropriate mechanisms for research funding, developing positive and proactive relationships with a supervisor, and supervising undergraduates in research. (Spring)

418/518. Community Ecology. Credit 4 hours. Prerequisites: GBIO 395 and all prerequisite courses must have a grade of C or better. The study of ecological communities and the interactions of species that co-occur in time and space. The course will include the history of ideas, important examples, methods for data analysis, and casual factors associated with communities. Other topics covered will include succession, ordination, classification, competition, predation and mutualism. Three hours of lecture and three hours of laboratory per week. (Varies)

434/534. Molecular Biology and Biotechnology. Credit 4 hours. Prerequisites: GBIO 312 and CHEM 122. This course provides an understanding of basic molecular biological principles and advances in biotechnology as applied in a variety of rapidly advancing areas including health, medical, agricultural, forensic, and environmental sciences. Students explore molecular and biochemical methodologies involving recombinant DNA and RNA-based technologies (e.g., miRNA and CRISPR), genomics and proteomics, immune technology, nanobiotechnology, transgenesis, gene therapy, cloning and stem cell technologies, biosensors, synthetic biology (biological machines), and how they are used in basic research, cancer/disease therapies, vaccine design, molecular diagnostics, tissue engineering, GMO crops, disease vector control, bio warfare, and more. Three hours of lecture and three hours of laboratory per week. A laboratory fee is required for this class. (Spring)

439/539. Introduction to Fresh Water and Estuarine Biology. Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent and Junior standing or consent of the Department Head and all prerequisite courses must have a grade of C or better. A consideration of fresh water lakes and streams and estuaries as biological habitats and of the organisms which inhabit these environments. Attention will be given to limnology and the ecology of these areas. Two hours of lecture and one four-hour laboratory per week. A laboratory fee is required for this course. (Odd Year Fall Semesters)

441. Biology Seminar. [LCCN: CBIO 4561, Biology Seminar]. Credit 1 hour. Prerequisite: Senior standing in Biology. A review of important concepts and current events in biological sciences. May be repeated for maximum credit of two hours. Additional hours will not be counted towards student's major or in the cumulative GPA average. Meets two hours per week. (Summer, Fall, Spring)

442/542. Marine Biology. Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent and Junior standing or consent of the Department Head and all prerequisite courses must have a grade of C or better. A consideration of the sea as a biological environment, of the organisms which inhabit the sea, and of the interrelationships existing between marine organisms and the physical, chemical, and biological aspects of their environments. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Varies)

450. Research Problems. Credit 1-4 hours. Prerequisite: Junior standing in Biology. May be repeated more than once for up to a maximum of 4 credit hours. Additional hours will not be counted towards student's major or in the cumulative GPA average. A laboratory fee is required for this course. (Summer, Fall, Spring)

460. Research Problems II. Credit 1 – 4 hours. Prerequisites: GBIO 153 and BIOL 154 with a grade of C or better. May be repeated for a maximum of four credit hours. Cannot be used as credit for Concentration Electives for Biology degree requirements, but can be used for free electives credit. A laboratory fee is required for this course. (Summer, Fall, Spring)

481/581. Biogeography. Credit 3 hours. Prerequisites: GBIO 153, BIOL 154, and Junior standing or permission of the Department Head and all prerequisite courses must have a grade of C or better. Examines the distribution of organisms. A study of the patterns and processes of organism distribution from theoretical and empirical perspectives. Three hours of lecture per week. (Varies)

485/585. Conservation Biology. Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 and all prerequisite courses must have a grade of C or better. Recommended: GBIO 312 and 395. An examination of threats and disruptions to biological systems from the level of populations through ecosystems to global systems. Emphasis on basic principles of ecology, evolution, and genetics as they apply to conservation theory and practice. Consideration will also be given to social, economic, and political aspects of biodiversity conservation and the role of various governmental and non-governmental organizations and research institutions. Three hours of lecture and three hours of laboratory per week. A laboratory fee is required for this course. (Even Year Spring Semesters)

492/592. History of Biology. Credit 3 hours. Prerequisites: GBIO 153, BIOL 154, and Junior Standing, or permission of the Department Head and all prerequisite courses must have a grade of C or better. A general survey of the historical development theories of biological sciences from early man to the present. (Spring)

493/593. Special Topics in Biology. Credit 1-4 hours. Selected topics in Biology that are new or unique and are not covered in existing courses. This course may be repeated for credit if different topics are studied. (Varies)

498/598. Biological Science for Teachers. Credit 3 hours. Prerequisites: GBIO 151, GBIO 153, CHEM 121, and CHEM 122 and all prerequisite courses must have a grade of C or better. A capstone course designed for teacher candidates who will be teaching biology at the secondary level. Content includes current issues and research in science and pedagogy that focuses on the development, delivery and assessment of science knowledge in a secondary classroom based on national and state teaching standards. This course is used for the degree requirements in the Biology Education Concentration, but cannot be used for degree requirements in other concentrations in Biology. Six hours of lecture/laboratory per week, including competency-based clinical practice require for this course. A laboratory fee is required for this course. (Fall)

600. How to be a Biology Teaching Assistant. Credit 1 hour. Prerequisites: Acceptance into the Master of Science in Biological Sciences program and permission from the Department Head. A seminar course designed to prepare graduate students to be competent and effective Teaching Assistants and fellows in biology laboratories. Two hours of seminar and laboratory per week. May be repeated for a maximum credit of two hours. (Fall, Spring)

- 601. Professional Aspects of Biology.** Credit 1 hour. Prerequisite: Admission to the MS degree program in Biological Sciences or permission of the Department Head. Readings, discussions and assignments designed to cover aspects of success in graduate school and a career in biology. Two hours of seminar per week. (Varies)
- 605. Ecotoxicology.** Credit 4 hours. Prerequisites: Graduate student standing. Ecotoxicology is designed to develop an understanding of environmental toxins, the associated diversity of exposure mechanisms, as well as identify cellular, physiological, population and community-level effects of toxin exposure. Additional focus will emphasize endogenous detoxification mechanisms and the socio-economic relationships of environmental contamination and the regulatory decision-making process. Students will strengthen their ability to read and evaluate the scientific literature related to the discipline and gain operational exposure to toxicological techniques in a laboratory setting. Three hours of lecture and three hours of laboratory per week. A laboratory fee is required for this course. (Spring)
- 609. Estuarine Ecology.** Credit 4 hours. A study of the estuary as an ecosystem with emphasis on the recent scientific literature on estuaries. Field studies on the Lake Maurepas/Lake Pontchartrain estuary. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Varies)
- 610. Biostatistics.** Credit 4 hours. Prerequisite: MATH 161 or permission of the Department Head. An introductory course in the concept of biostatistics and sampling strategy. Topics covered include measures of central tendency and dispersion; Z, t, chi-square, and F distributions; experimental design, partitioning of variance, test of hypotheses, and maximizing power; analysis of variance and regression. Emphasis on field and laboratory research problems. Three hours of lecture and two hours of laboratory per week. (Varies)
- 611. Advanced Biostatistics.** Credit 4 hours. Prerequisite: GBIO 377 or 610 or permission of the Department Head. An advanced course in biostatistics that applies concepts, terminology, and notation from basic methods course(s) to advanced statistical techniques. Students will learn the major applications of experimental design, treatment arrangements analysis of covariance multiple regression, factor analysis, discriminant analysis, cluster analysis, and system modeling. Additional concepts will be developed such as blocking, covariables, nesting, pseudo replication, confounding, repeated measures, types of sums of squares, and optimization. Three hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Varies)
- 612. Limnological Methods.** Credit 3 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent, and CHEM 122/124, permission of the Department Head. A course designed to acquaint the student with the methods and techniques for the collection and analysis of aquatic and microbiological samples. One hour of lecture and three hours of laboratory per week. A laboratory fee is required for this course. (Varies)
- 615. Systematics.** Credit 3 hours. Prerequisite: Must be admitted to Master of Science Program, or permission of the Department Head. Studies in philosophy, theory, and methods employed in studying biodiversity. Phylogenetics is emphasized but alternatives are examined. Extensive computer time is required for the course. Three hours of lecture per week. (Varies)
- 616. Historical Ecology.** Credit 3 hours. Prerequisite: Graduate standing in biological sciences or permission of the Department Head. Currently active behavioral and ecological processes and systems all have a historical component. The historical component obfuscates the study of these processes and systems. This course examines the problem of history in studying contemporary processes and shows how to identify history by several methods. Three hours of lecture per week. (Varies)
- 619. Applied Systematics.** Prerequisite: Registration in or prior credit for GBIO 615 or permission of the Department Head. This course complements the content of GBIO 615 Systematics. Students will work with molecular and morphological data to infer phylogenetic trees using popular software packages. Students will also complete and present a project of their own design using course concepts. (Varies)
- 620. Environmental Management.** Credit 3 hours. A course designed to provide students an overview of the issues and concepts associated with the business-economy/environmental interaction. The course will focus on the evolution of four themes, or four "shades of green" that contribute toward creating and sustaining competitive and strategic advantage. Credit cannot be received for both GBIO 620 and MGMT 620. (Fall)
- 652. Molecular Biology.** Credit 4 hours. Prerequisites: One year of organic chemistry, GBIO 200 and 312. A study of recent techniques and findings in the field of molecular biology. Practical experience is emphasized. Three hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Varies)
- 655. Island Ecology.** Credit 3 hours. A study of oceanic islands as natural laboratories for ecology and evolution. Topics will include the relationships of plants and animals with their environment on continental and volcanic islands and the biological characteristics of species that permit or constrain colonization of islands. Establishment, adaptation, speciation, and extinction on islands are examined. Also included will be a discussion of biogeographic principles and taxonomic patterns of island biota. Three hours lecture per week. (Varies)
- 660. Graduate Research Problems.** Credit 1-2 hours per semester. Maximum credit two hours for thesis students. Additional hours will be graded on "Pass/Fail" basis and will not be counted toward student's major or in the cumulative GPA average. This course cannot be used for credit in the non-thesis option. A laboratory fee is required for this course. (Varies)
- 661. Non-Thesis Graduate Research Problems.** Credit 1-4 hours. Research project for non-thesis graduate students. This course is required for all non-thesis graduate students. The course may be taken for variable credit in different semesters, but must be taken until the required four credits hours are earned. Requires prior approval of the Non-Thesis Research Agreement Form by the student's Graduate Faculty advisor and the Non-Thesis Committee. (Varies)
- 690. Special Topics in Biology.** Credit variable, 2-4 hours. Selected topics in Biology that are new or unique and are not covered in existing courses. This course may be repeated for credit if different topics are studied. (Varies)
- 691. Graduate Seminar.** Credit 1 hour. May be repeated for maximum credit of four hours. Additional hours will not be counted toward student's major or in the cumulative GPA average. One-two hours of seminar per week. (Varies)
- 770. Thesis.** Credit 1-6 hours each semester, with 6 hours needed for graduation. The student must enroll in the thesis course each semester the thesis is in progress. The thesis is graded Pass-Fail. (Varies)

Gulf Coast Research Laboratory

Southeastern Louisiana University has an Affiliate Agreement with the University of Southern Mississippi for teaching marine sciences and related courses at the Gulf Coast Research Laboratory (GCRL) in Ocean Springs, Mississippi. Students wishing to take courses at GCRL must receive PRIOR approval from their Advisor and Department Head. Students apply, register, and take courses at GCRL and receive transfer credit at Southeastern as GBIO 493 or 593. GCRL offers room and board for an additional fee. All tuition fees, incidental fees, room and board, and any other charges or fees at GCRL are charged at the same rate as to Mississippi students (i.e., in-state rates). For more information on GCRL, visit <https://gcrl.usm.edu>.

Listed here are summer courses currently offered at GCRL – other courses not listed here may also be offered at any given summer.

NOTE: Registration in these courses requires PRIOR approval of the student's advisor and the Department Head.

SUMMER COURSES (with GCRL prefix-these courses transfer to Southeastern as GBIO 493 or 593)

COA 300	Oceanography	Credit 3 hours
COA 300L	Oceanography Lab	Credit 2 hours
COA 301	Marine Biology	Credit 3 hours
COA 301L	Marine Biology Lab	Credit 2 hours
COA 421/521	Marine Ichthyology	Credit 3 hours
COA 421L/521L	Marine Ichthyology Lab	Credit 2 hours
COA 428/528	Marine Invertebrate Zoology	Credit 3 hours
COA 428L/528L	Marine Invertebrate Zoology Lab	Credit 2 hours
COA 442/542	Elasmobranch (Shark) Biology	Credit 3 hours
COA 442L/542L	Elasmobranch (Shark) Biology Lab	Credit 2 hours
COA 443/543	Marine Mammals	Credit 3 hours
COA 443L/543L	Marine Mammals Lab	Credit 2 hours
COA 446/546	Marine Ecology	Credit 3 hours
COA 446L/546L	Marine Ecology Lab	Credit 2 hours
COA 490/590	Special Topics	Credit 1-6 hours
COA 492/592	Special Problems	Credit 2-6 hours

Louisiana Universities Marine Consortium

Southeastern Louisiana University is a member of the Louisiana Universities Marine Consortium (LUMCON) and offers courses at the LUMCON DeFelice Marine Center in Cocodrie, Louisiana. Students must first apply to LUMCON. Once accepted into the program, the student then registers for credit at Southeastern Louisiana University. Room and board expenses at LUMCON and applicable laboratory fees will be assessed. Go to <http://www.lumcon.edu> for more information.

NOTE: These courses are taken as GBIO 493/593 Special Topics in Biology and require PRIOR approval of the student's advisor and the Department Head.

SPRING COURSES

Changing Coastal Oceans Credit 3 hours Spring only
Taught via compressed video networking. Requires one weekend field trip to LUMCON Marine Center.

SUMMER COURSES

Marine Ecosystem Ecology	Credit 3 hours	Three weeks	Even years
Deep-Sea Biology	Credit 3 hours	Three weeks	Even years
Introduction to Marine Science	Credit 4 hours	Four weeks	Even years
Coral Reef Ecology	Credit 3 hours	Three weeks	Even years
Marine Field Ecology	Credit 4 hours	Four weeks	Even years
Coastal Field Geology	Credit 3 hours	Three weeks	Even years
Introduction to Marine Zoology	Credit 4 hours	Four weeks	Odd years
Marine Invertebrate Ecology	Credit 3 hours	Three weeks	Odd years
Wetland Vegetation	Credit 3 hours	Three weeks	Odd years
Marine Fish Ecology	Credit 3 hours	Three weeks	Odd years

These courses are taught by prior arrangement:

Topics in Marine Science	Credit 1-6 hours
Special Problems in Marine Science	Credit 1-6 hours

NOTE: These courses are taken as GBIO 690 Special Topics in Biology and require PRIOR approval of the student's advisor and the Department Head

SPRING COURSES

Changing Coastal Oceans Credit 3 hours Spring only
Taught via compressed video networking. Requires one weekend field trip to LUMCON Marine Center.

SUMMER COURSES

Marine Ecosystem Ecology	Credit 3 hours	Three weeks	Even years
Deep-Sea Biology	Credit 3 hours	Three weeks	Even years

These courses are taught by prior arrangement:

Topics in Marine Science	Credit 1-6 hours
Special Problems in Marine Science	Credit 1-6 hours

Environmental Health Sciences Partnership with Tulane University

Southeastern has established a partnership with Tulane University that allows qualified juniors or seniors at Southeastern to take graduate level courses in Environmental Health Sciences at Tulane University. The participating student may follow any of the concentrations in the Department of Biological Sciences curriculum; however, CHEM 251, Analytical Chemistry and CHEM 254, Quantitative Analysis Laboratory are required for those who enroll in the program. In addition, nine credit hours (3 of 4 courses) of Tulane Courses are required. Those courses can substitute for nine hours of upper-level Biology electives with the permission of the Department Head. Upon

successful completion of this course work and graduation, the student would be eligible for acceptance into the Master of Public Health Degree Program at Tulane University. Interested students should consult with the Department Head.

Student Eligibility and Admissions: Students must apply to and be accepted by both programs at the Tulane School of Public Health and Southeastern. These students must;

1. Apply in their junior year of undergraduate study to begin courses in their senior year
2. Have a major (or 60 credits) in the sciences, math, and/or engineering with 15 of these credits in upper level (junior/senior) courses by undergraduate graduation
3. Have a grade point average of at least 3.0
4. Be recommended by their advisor with approval of the Department Head
5. Submit three letters of recommendation with one of the letters from the applicant's advisor
6. Submit a written statement of career goals
7. Take the GRE in their senior year

Graduate Courses at Tulane (students must take 3 of 4)

ENHS 603 Survey of Environmental Health Credit 3 hours

ENHS 660 Principles of Toxicology Credit 3 hours

ENHS 651 Water of Quality Management Credit 3 hours

ENHS 762 Health Risk Assessment Credit 3 hours

General Business (GB)

208. Latin American Culture and Communication for Business. Credit 3 hours. This course is designed to provide business majors with skills necessary to communicate, navigate, and conduct business in Latin American nations. (Varies)

470. Independent Study. Credit 3 hours. Prerequisite: Junior standing. A course designed to provide students with the opportunity to explore any general business concentration area through a special project, assigned readings, or other types of work. Department Head of the designated faculty will approve the proposal of the independent study and monitor the student's progress. (Varies)

495. Special Topics in General Business. Credit 3 hours. Prerequisite: Junior Standing. This course is an approach to the examination of contemporary business issues. It provides students with the knowledge and skills necessary to navigate the global marketplace. Credit toward the degree will not be granted for both MGMT 420 and GB 495. (Varies)

695. Special Topics in Contemporary Business. Credit 3 hours. A course devoted to an investigation, analysis, and discussion of contemporary business trends, policies, and current issues. (Varies)

General Business Technology (GBBT)

234H. Business Communications. Credit 3 hours. Prerequisite: English 102. A study of fundamental business communications, business letters, and reports. (Varies)

351. Telecommunications in Business. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. Theory of electronic systems. Applications to networking capabilities of microcomputers. Issues related to telecommunications. (Varies)

495. Special Topics in Business Communication. Credit 3 hours. Prerequisite: GBBT 234 or permission of the Department Head. Investigation and presentation of current and relevant business communication issues which can affect achievement in the free enterprise system. (Varies)

618. Team Building in Business Communication. Credit 3 hours. Team development in context of business tasks, small group synergies, and communication processes. Course is applied rather than theoretical in nature and stresses techniques by which business people can motivate groups to behave as teams. Some attention to needs of not-for-profit organizations, virtual (electronic) groups, and cross-cultural diversity. (Varies)

635. International Business. Credit 3 hours. Prerequisite: Graduate standing. Dynamics of international business, including cultural analysis, foreign entry, globalization, and role of technology in multinational communication and logistics. Case studies and audiovisuals demonstrating economic and supervisory factors in business across cultural and national boundaries. (Varies)

651. Technology in Business Communication. Credit 3 hours. Prerequisite: MBA student or permission of instructor. Exploration of the capabilities of contemporary technological communication networks with emphasis on applications such as e-mail, academic research, discussion groups, marketing application, electronic presentations, and individual home-page construction. (Varies)

681. Administrative Communication Theory. Credit 3 hours. A study of administrative communication theory and practice as it relates to various types of organizations and their goals. Emphasis is directed toward improving communication skills of administrators in business, education, government, and other organized groups in reaching their purposes and goals. (Varies)

695. Special Topics in General Business. Credit 3 hours. Prerequisite: Graduate standing. A seminar course focusing on selected issues in general business. (Varies)

Geography (GEOG)

103. Introduction to Geography. Credit 3 hours. This course surveys the basic concepts of geography. Introduces the student to physical and cultural aspects of geography and describes the interaction of humans and their environment. (Summer, Fall, Spring)

126. Environmental Conservation and Geography. Credit 3 hours. This course explores the interactions between humanity and the environment that have led to current environmental problems. Topics to be explored include: biodiversity, global climate change, human population growth, and natural resource conservation. (Varies)

141. World Regional Geography I. Credit 3 hours. A study of the patterns of cultural characteristics and human and physical landscapes of the developed, industrial world regions. (Summer, Fall, Spring)

142. World Regional Geography II. Credit 3 hours. A study of the patterns of cultural characteristics and human and physical landscapes of the developing world regions. (Summer, Fall, Spring)

301. Geography of Europe. Credit 3 hours. Prerequisite: Sophomore standing or consent of the Department Head. A survey and analysis of the physical and cultural environments of the European continent. Emphasis on the physical landscape, climate, settlement patterns, culture, land use, urbanization, and economic development. (Varies)

- 305. Field Methods and Map Reading.** Credit 3 hours. Prerequisite: GEOG 103 or consent of the Department Head. Techniques of geographic field research and the interpretation and analysis of maps. Students will use instruments such as compasses, transits, handheld GPS units, and clinometers to gather data. (Varies)
- 306. The Atmosphere.** Credit 3 hours. Prerequisite: GEOG 103 or consent of Department Head. This course provides an examination of the processes and operations in the atmosphere, world climatic patterns, and classification of climates. (Varies)
- 309. Introduction to Physical Geography.** Credit 3 hours. Prerequisite: GEOG 103 or consent of the Department Head. A survey of the earth-sun relationships, elements of weather and climate, climatic regions, landforms, vegetation, and soils of the earth. Emphasis will be placed on the interaction of humans with the physical landscape. (Varies)
- 322. Geography of Louisiana.** Credit 3 hours. Prerequisite: Sophomore standing or consent of the Department Head. Examines the physical and cultural geography of Louisiana with an emphasis on the physical geographical elements and the geographical implications of the state's varied cultural heritage. (Summer, Fall, Spring)
- 326. Environmental Impact Assessment.** Credit 3 hours. Prerequisite: GEOG 103 or consent of Department Head. The course examines and evaluates the impacts of large-scale projects on the quality of the environment. The legal requirements for the preparation of an environmental impact statement (EIS) as prescribed by the National Environmental Policy Act of 1969 will be addressed. (Varies)
- 343. Geographic Information Systems (GIS) 1.** Credit 3 hours. Prerequisites: GEOG 103 and MATH 241 or consent of the Department Head. An introduction to the theory, principles, and capabilities of Geographic Information Systems. Extensive hands-on experience with the ArcGIS® software package. One-hour lecture and two hours lab. (Varies)
- 355. Cartography.** Credit 3 hours. Prerequisite: GEOG 103 or consent of the Department Head. The course is designed to serve as a foundation for geographic analysis. The course will focus on the basic principles of cartography. Topics include projections, cartographic procedures, map symbolization, color use guidelines, and map typography. (Varies)
- 370. Remote Sensing and Aerial Photo Interpretation 1.** Credit 3 hours. Prerequisites: GEOG 103 and MATH 241 or consent of the Department Head. An introduction to the fundamental principles and practices of aerial photography, remote sensing, photogrammetry, and photo interpretation. One-hour lecture and two hours lab per week. (Varies)
- 400/500. Independent Study.** Credit 1-3 hours. Prerequisites: Consent of Department Head and Junior standing. Student works with an instructor on a one-to-one basis and prepares a research report on an appropriate topic. May be repeated in one to three-hour credits for a total of 6 hours. New materials are investigated in each repeat. (Varies)
- 401/501. Historical Geography of the United States.** Credit 3 hours. Prerequisite: Junior standing, or consent of the Department Head. A historical study of the changing geographic aspects of the land area of the United States from the pre-Columbian era to the present. Emphasis is placed upon the sequence of land occupation and utilization in various regions of the country. Especially recommended to teachers of the social studies. (Varies)
- 402/502. Geography of United States and Canada.** Credit 3 hours. Prerequisite: Junior standing or consent of the Department Head. The physical and cultural geography of the United States and Canada. Emphasis on the physical landscape, climate, settlement patterns, culture, land use, urbanization, and economic development. (Varies)
- 408/508. Geography of Natural Hazards and Disasters.** Credit 3 hours. Prerequisite: GEOG 103 or consent of Department Head. Introduction to the geographic study of natural hazards and disasters. Topics include: hurricanes, earthquakes, tsunamis, and volcanoes.
- 410. Cultural Geography.** Credit 3 hours. Prerequisites: GEOG 103 and Junior standing or consent of the Department Head. A study of man-land relationships, with emphasis on the distribution of peoples and variations in cultural landscapes. (Varies)
- 423/523. Climate Change.** Credit 3 hours. Prerequisite: GEOG 103, ESSC 101, or ESSC 102. This course will provide an overview of global climate change. Topics covered will include: the basic science of climate change, climate models, paleoclimatology, impacts of future climate change, and mitigation strategies. (Varies)
- 443/543. Advanced Applications of GIS.** Credit 3 hours. Prerequisite: GEOG 343/533 or consent of the Department Head. The course focuses on the use and applications of GIS techniques in solving practical geographic problems. Extensive hands-on experience with the various extensions of the ArcGIS® software package. One-hour lecture and two hours lab per week. (Varies)
- 470/570. Advanced Remote Sensing.** Credit 3 hours. Prerequisite: GEOG 370/560 or consent of the Department Head. This course will cover the theory and application of image-processing techniques such as: data corrections, enhancements, transformations, and classification for digital imagery. One-hour lecture and two hours lab per week. (Varies)
- 473/573. Raster GIS.** Credit 3 hours. Prerequisites: GEOG 443/543 and GEOG 470/570 or consent of the Department Head. An advanced course on the use of raster GIS for spatial query, problem analysis, modeling, and decision support. The remote sensing software packages, Imagine® and Imagine Analysis® by ERDAS, will be used to explore the procedures for processing digital satellite and air photo images and for developing models for geographic analysis. One-hour lecture and two hours lab per week. (Varies)
- 495/595. Special Topics Seminar.** Credit 3 hours. Prerequisites: Junior standing and consent of the Department Head. An in-depth study of selected topics in Geography that are not covered in existing courses. May be repeated for a total of six credit hours if content is different. (Varies)
- 698. Special Topics in Geography.** Credit 3 hours. Selected topics in areas not available in existing courses. May be new or unique issues or contemporary geographical topics relevant to various social and/or global issues. May be repeated for credit when different topics are studied. (Varies)

German (GERM)

- 101. Elementary German I.** [LCCN: CGRM 1013, Elementary German I]. Credit 3 hours. The beginning course for students with no knowledge of German. All appropriate elements of basic language learning are utilized for the purpose of providing a foundation in the language and culture of the countries where German is spoken. Class work supplemented by aural-oral drill in the language laboratory. Offered as the first of four sequential courses (101, 102, 201, 202) designed to provide an overall desired proficiency. (Fall, Spring)
- 102. Elementary German II.** [LCCN: CGRM 1023, Elementary German II]. Credit 3 hours. Prerequisite: GERM 101 or equivalent. Continuation of GERM 101. (Fall, Spring)
- 201. Intermediate German I.** [LCCN: CGRM 2013, Intermediate German I]. Credit 3 hours. Prerequisite: GERM 102 or equivalent. Completion and review of basic elements of grammar. Introduction of reading material of moderate difficulty. (Fall, Spring)
- 202. Intermediate German II.** [LCCN: CGRM 2023, Intermediate German II]. Credit 3 hours. Prerequisite: GERM 201 or equivalent. A course with emphasis on proficiency in reading and continuation of grammar review. (Fall, Spring)
- 310. Advanced German Conversation.** Credit 3 hours. Prerequisite: GERM 202 or equivalent. Intensive practice of German conversation. Work will be based on a study of conversational strategies, aural comprehension practice, coaching in pronunciation, and analysis of cultural differences bearing on social interactions. (Varies)
- 311. Advanced German Grammar and Composition.** Credit 3 hours. Prerequisite: GERM 202 or equivalent. Intensive grammar review and writing practice in German. Recommended for students with a minor in German and for others who wish to perfect their language skills. (Varies)

314. German Civilization. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. Five hundred years of German history, arts, literature, music and politics from the Reformation to modern Germany. Taught in English. (Varies)

370. Studies in German Postwar Cinema. Credit 3 hours. A study of German postwar filmmakers in their confrontation with German history and postwar society. Taught in English; German language assignments for students minoring in German. (Varies)

423. Special Topics in German Study. Credit 3 hours. Prerequisite: Junior standing or permission of Department Head. A special topics course that offers a detailed analysis of a particular genre, movement, author, or topic. May be repeated for credit as topics vary. (Varies)

Health Sciences (HSCI)

270. Applying Evidence to Improve Healthcare Outcomes. Credit 3 hours. Students will build competencies in selecting, applying, and evaluating research methods in solving organizational problems or implementing outcome effectiveness strategies in healthcare organizations. This course provides an overview of the skills needed in daily operations for gathering statistical data used in planning and evaluating processes in the healthcare workplace. A laboratory fee is required for this course. (Fall)

463. Special Topics in Interdisciplinary Global Health and Wellness. Credit 3 hours. This course examines interdisciplinary global and multicultural health and wellness issues. Focused visits and corresponding projects in the student's major will be components of the course. May be repeated for 6 hours total credit. (Varies)

464. Interprofessional Education, Practice and Research in the Health Sciences. Credit 3 hours. This course emphasizes interprofessional education and collaborative practice in the core competencies of ethics, role and responsibilities, communication, and team work across healthcare settings and professions. Current issues, trends and practice strategies will be explored within interactive learning and practice opportunities. (Varies)

480/580. Prior Learning Assessment in Health Science. Credit 1-3 hours. Utilizes learning theories and reflection techniques to assist students to identify and evaluate previous learning outside the traditional classroom such as work, volunteer or military experiences. Students will create a professional portfolio to document college-level experiential learning. The course is graded Pass/Fail. May be repeated for up to 12 hours credit. (Varies)

499. Capstone Experience in Health & Human Sciences. Credit 3 hours. Prerequisite: Permission of the department head. The capstone experience will comprise a minimum of 120 hours of independent study. Students will apply the culminating knowledge and skills acquired during their program to the completion of a project that will draw on their real world and/or field experiences. This class requires independent and /or field work. (Varies)

663. Special Topics in Interdisciplinary Global Health and Wellness. Credit 3 hours. This course explores interdisciplinary global and multicultural health and wellness issues including: factors that influence the health and wellness of individuals and populations around the world; sources of global health information and services; and the role of healthcare professionals as providers and advocates for health and wellness of people in their communities and around the world. Focused visits and corresponding projects in the student's major will be components of the course. May be repeated for 6 hours total credit. (Varies)

664. Interprofessional Education, Practice and Research in the Health Sciences. Credit 3 hours. This course emphasizes interprofessional education and collaborative practice in the core competencies of ethics, role and responsibilities, communication, and team work across healthcare settings and professions. Current issues, trends and practice strategies will be explored within corresponding team-based projects in the student's major and professional scope of practice. Graduate students will engage in activities that place emphasis on the synthesis and analysis of evidence-based practice and its application to a variety of healthcare settings. (Varies)

678. Advanced Research Methods in the Health Sciences. Credit 3 hours. Prerequisites: Permission of the department head. This course focuses on the application of quantitative and qualitative research as well as interpreting and translating research within the health sciences. (Varies)

699. Capstone Experience in Health & Human Sciences. Credit 3 hours. Prerequisite: Permission of the department head. The capstone experience will comprise a minimum of 120 hours of independent study. Student will apply the culminating knowledge and skills acquired during their program to the completion of a project that will draw on their real world and/or field experiences. This class may require field work. (varies)

700. Communication Across Cultures, Professions, and Languages in Healthcare Settings. Credit 3 hours. This course will focus on the role of communication and culture in the context of healthcare settings. Students will consider issues related to linguistic, cultural and professional differences that can create barriers to healthcare in a global context. Coursework will include case studies on specific populations and areas of healthcare that include both medical and administrative contexts. (Varies).

Health Studies (HS)

The Kinesiology and Health Studies Department recommends that each student obtain a medical examination and be covered by an adequate accident and hospital insurance policy before participating in any of the programs of the department.

131. Emergency Health Care. Credit 2 hours. A course dealing with the cause and prevention of accident; the acquisition of sufficient knowledge to determine the nature and extent of injury; and sufficient skill to administer proper first aid. Includes a study of the American Red Cross program and the American Medical Association Medical Self-Help Training Course. A laboratory fee is required for this course. (Fall, Spring)

133. Healthy Lifestyles for the 21st Century. Credit 3 hours. This course is designed so that students learn the importance of identifying and applying steps for making decisions and taking responsibility for their own health-related learning and behaviors. Knowledge recall as well as more advanced learning skills are addressed in assignments and examinations. Students also become aware of a wide range of health resources, support services, and technology. (Fall, Spring)

162. Drugs and Society. Credit 3 hours. Students will know the incidence of drug use and abuse in society, pharmacology of selected drugs and principles of altering one's state of consciousness; will know where they stand as to their own drug use, be able to communicate attitudes about drugs; explore alternatives to substance abuse, and approaches to prevention and community resource. (Fall, Spring)

200. Foundations of Public Health. Credit 3 hours. Prerequisite: HS 133. This course provides an overview and basic principles of health education and public health, including the public health system, the medical care system, and the role of law and government in public health. It will include the historical aspects of public health, ethics, and the CHES certification areas and responsibilities. (Fall, Spring)

232. Introduction to Elementary School Health and Physical Education. Credit 3 hours. Prerequisites: EDUC 203 and 212. Overview of health and physical education issues and topics. Consideration will be given to the principles of state law and policies regarding health and physical education. Introduction to curriculum content and activities in health and physical education. Two hours lecture and one-hour laboratory per week. (Varies)

251. Health and Human Sexuality-Contemporary Perspectives. Credit 3 hours. Emphasis will be placed on the relationship between personal health and human sexuality. The understanding of human sexuality through self-awareness, value clarification and decision-making will also be a concern. Students will be encouraged to reflect critically upon their feelings and attitudes toward their own sexuality and the sexuality of others in their cultural setting. (Fall, Spring)

252. Health and Stress. Credit 3 hours. Students will explore health problems related to stress and tension through analysis of causative and psycho-social stresses and intervening physiological mechanism. Particular emphasis is placed on prevention and control of stress through techniques such as exercise, neuro-muscular relaxation, nutrition, and meditation. (Fall, Spring)

312. Community and Population Health. Credit 3 hours. Prerequisites: HS 133 and Sophomore standing. This course highlights the concepts of population health, public health and interdisciplinary professional collaboration required to address the health needs of communities. Students will explore how human ecology and conservation of human resources, environmental health, disease prevention and control, and community resources impact the health of populations. (Fall, Spring)

313. Healthcare Delivery Systems. Credit 3 hours. Prerequisite: Junior Standing or permission of the Department Head. This course will examine the healthcare delivery system in the United States. It will examine the entire Continuum of Care and uses the construct of a fully integrated system as a means to evaluate the current system. Key issues confronting healthcare today will be explored. (Fall, Spring)

315. Study of Human Diseases I. Credit 3 hours. Prerequisites: HS 133, ZOO 250, and ZOOL 252. The course builds on an understanding of human anatomy and physiology, and integrates the study of human disease with focus on risk factors, clinical manifestations, pathology, and prevention. This course focuses on cardiovascular disease, hypertension, diabetes, and chronic kidney disease. Emphasis will be placed on common assessment and screening methods, behavioral interventions, and pharmacological interventions to address these issues. (Fall)

316. Study of Human Diseases II. Credit 3 hours. Prerequisites: HS 133, ZOO 250, and ZOOL 252. The course builds on an understanding of human anatomy and physiology, and integrates the study of human disease with focus on risk factors, clinical manifestations, pathology, and prevention. This course focuses on chronic obstructive pulmonary disease, cancer, and neurological diseases. Emphasis will be placed on common assessment and screening methods, behavior interventions, and pharmacological interventions to address these issues. (Spring)

331. Health Communication and Media. Credit 3 hours. Prerequisites: HS 133 and 200. This course is designed to provide students with a critical understanding of the effects of the media in promoting and impeding the achievement of public health goals. Students will develop the skills necessary to use media strategically to advance public health policies and social change. This course covers the design, implementation and evaluation of media campaign to promote public health goals. (Fall, Spring)

335. Contemporary Women's Health and Wellness. Credit 3 hours. Prerequisite: Sophomore standing. This course will identify a broad range of health issues that are unique to or of special importance to women, and will also examine the roles women play as both providers and consumers of health care. The student will be provided with the opportunity to explore health care issues of women throughout the lifespan as well as assess their current health status or the health status of women around them. The course encourages student to examine their current health knowledge, attitudes, and behaviors and explore possibilities for self-improvement. Special attention will be given to current social, environmental, physical, mental, economic, lifestyle, political and human rights factors that influence women's health. (Varies)

340. Healthcare Law and Ethics. Credit 3 hours. Prerequisites: HS 200, 312, or 313; and Junior standing or permission of the Department Head. The course will present government policies and guidelines related to the operation of health care systems. Emphasis will be placed on the implementation of healthcare and the responsibilities and ethics ascribed to healthcare managers. (Varies)

351. Health Problems of the Aging and Aged. Credit 3 hours. Students will examine the psychological, physiological and socio-economic aspects of aging; sexuality; death, dying, and bereavement; self-actualization and creativity; health needs and crisis; and medical-care programs. (Fall, Spring)

360. Introduction to Epidemiology. Credit 3 hours. Prerequisites: Junior standing, MATH 241, and HS 133, or permission of Department Head. An introduction to the study of distribution of health events in human populations. Methods of assessing health states in populations by the use of morbidity and mortality data. Includes disease tracking and control methods for use in health care decisions. Major types of epidemiological investigations are also studied. (Fall and Spring)

361. Introduction to Environmental Health. Credit 3 hours. Prerequisite: Sophomore standing. This course will cover environmental health issues at local, state, national, and international levels. Benefits of and advances in environmental health will be studied as well as limitations in this current science. (Varies)

362. Promoting Health in the Worksite. Credit 3 hours. Prerequisites: Junior standing and HS 133 or permission of Department Head. Introduction to the design and implementation of health programs in a variety of worksite settings. Attention to concerns of administrative and staff support, recidivism, specific interventions, and policy. (Fall, Spring)

401. Health Instruction. Credit 3 hours. Prerequisites: Junior standing, HS 133, and either HS 200, HS 312, EPSY 301, or PSYC 204. This course will examine different strategies and methods that can be used in health education in various settings, including schools, communities and worksites. This course is designed primarily for Kinesiology and Health Studies majors. Students in other majors who wish to enroll must receive permission from the KHS Department Head. Consideration is given to elementary and secondary school as well as adult content selection; implementation, and evaluation procedures. Includes preparation and presentation of selected health topics. Teaching strategies and basic principles of health education are emphasized. (Fall)

410. Internship in Health Sciences. Credit 3-6 hours. A senior-level internship during which students engage in practical experience in the field. A minimum of 320 field-based hours is required for course completion. Detailed requirements are provided in the catalog in the Department of Kinesiology and Health Studies section. May be repeated for a total of six hours. A laboratory fee is required for this course. (Fall, Spring)

420. Health Promotion Program Planning. Credit 3 hours. Prerequisites: Junior standing, HS 133, and either HS 200 or 312, or permission of Department Head. A course for the individual desiring to become a health educator. An exploration of the knowledge and skills required for effective professional health education practice. Includes an introduction to current theory and concept; methods of assessing, planning, implementing, and evaluating health education/promotion programs; ethical issues; plus professional competencies and credentialing. (Fall)

430. Health Consumerism and Introduction to Complementary and Alternative Modalities for Health Professionals. Credit 3 hours. An exploration of alternative and complementary healthcare treatments and therapies covering a broad range of healing philosophies. Students will examine safety and effectiveness, practitioner expertise, service delivery and cost. Current research conducted by the National Center of Alternative and Complementary Health will be investigated. (Varies)

435. Healthcare Administration. Credit 3 hours. Prerequisites: HS 200, 312, or 313; and Junior standing or permission of the Department Head. This course will introduce concepts, principles, and practices of healthcare administration. Students will develop their knowledge in areas including negotiation, leadership, organizational design, organizational culture, how people work in organizations and strategy. (Varies)

439. Spirituality and Health. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. An exploration of the influences of spirituality on aspects of health and disease. Through a combination of class discussion, group activities, guest speakers, and self-reflection, students will identify the relationship between spirituality, illness, and health promotion. (Varies)

440. Research Methods in Health Sciences. Credit 3 hours. Prerequisites: Junior standing, and either HS 200 or HS 312, or permission of the Department Head. This course introduces students to research theory and methods of the health science field. The research methodologies covered in this class are applicable to all disciplines of the health science field. Students will learn the entire process for conducting and evaluating scientific research. (Spring)

442. Social Determinants of Health. Credit 3 hours. Prerequisites: HS 133, 200, and 360 or permission of the Department Head. This course will provide an overview of the social determinants of health, health disparities, and the linkage between social epidemiology and health policy. Students will explore the ways health and illness are influenced by social and economic determinants. Includes a discussion of the key roles that health professionals play in ensuring equitable treatment of vulnerable populations. (Fall)

454. Health Coaching for Behavior Change. Credit 3 hours. Prerequisites: Junior standing and HS 133 or permission of Department Head. Students will explore and apply principles of modifying health behaviors on an individual, group, and community level for the prevention of health problems or the adoption of healthy lifestyles. Emphasis is placed on introducing the role of the Health Coach and the use of Motivational Interviewing and counseling skills for assisting others in confronting personal health concerns. (Fall, Spring)

461. The School Health Program. Credit 3 hours. Prerequisites: HS 131, 133 and Junior standing. A study of administrative policies, procedures and principles essential to the development and implementation of a comprehensive school health program. (Fall)

462. Health Seminar. Credit 3 hours. Prerequisite: Junior standing. Course identified by description each semester offered. May be repeated as topics vary. (Varies)

601. Statistical Methods in Health Studies. Credit 3 hours. Special parametric and non-parametric statistics applicable to research techniques in health studies. (Fall)

603. Contemporary Problems and Issues in Health. Credit 3 hours. Identification and study of current problems and issues in health and health education. Extensive reading and critical analysis of literature required. (Varies)

606. Introduction to Research. Credit 3 hours. Prerequisite: HS 601. Principles, procedures, and techniques of research with an intensive survey of current scientific investigations in the areas of health. Special attention is given to practical application. (Spring)

608. Introduction to Public Health. Credit 3 hours. This course focuses on principles of health education and public health. It will include an examination of public health history and ethics, the role of public health in medical care systems, the role of law and government in public health, and the areas of responsibilities of the Certified Health Education Specialist certification. (Varies)

610. Health Education Curriculum and Instruction. Credit 3 hours. Prerequisites: HS 638 and one of the following: HS 617, 619, 620, 621, 622, 624, 626, 627, 628, 629, or 636, or permission of the Department Head. This course will prepare graduate students with the necessary competencies for evaluating health education curricula and for developing health instructional units for teaching health in various settings such as schools, community, and work-sites. Graduate students will learn how to write and evaluate lesson plans using computer technology and instructional methods that are age and developmentally appropriate and demonstrate teaching competencies during field experiences. (Varies)

611. Environmental Health. Credit 3 hours. This course will survey local, state, national and international environmental health issues. Emphasis will be placed on environmental stewardship including health advocacy. (Varies)

613. Health Disparities. Credit 3 hours. This course provides students with an in-depth overview of health disparities. Topics include the interconnectedness of social, economic, environmental and cultural factors and health, and the ways these factors contribute to morbidity and mortality differences among underserved populations. Upon completion students will possess the knowledge and skills needed to measure local disparities and create health disparities reports. (Varies)

615. Health Communication. Credit 3 hours. Focuses on health media literacy, and methods of planning, implementing, and evaluating health presentations. Includes fundamentals of multimedia presentations, and designing and producing health education materials. (Varies)

617. Spiritual Health: Research and Programming in Health Promotion. Credit 3 hours. The focus of this class is to review current research in the field of spiritual health and its application in health promotion programming. Emphasis will be placed on an evaluation of current literature, a review of current assessment tools, and the process of integrating spiritual health into current health promotion programming. (Varies)

619. Complementary and Integrative Health Practices. Credit 3 hours. An exploration of the traditional health care fields including allopathic/osteopathic health care plus a variety of integrative and complementary healthcare treatments and therapies. This course will include information about health consumerism and current healthcare issues. Current research conducted by the National Center for Complementary and Integrative Health will be investigated. (Varies)

620. Drug Education Programming. Credit 3 hours. A study of overall drug use and abuse in our society, especially among youth. Particular attention will be given to the historical foundations of drug prevention and a review of successful drug prevention programs. Includes drug education curriculum development and evaluation strategies. (Varies)

621. Sexuality Education Programming. Credit 3 hours. The acquisition of human sexuality information and an exploration of personal values and current sexuality research. Includes sexuality education curriculum development and evaluation strategies. (Varies)

622. Stress Management Programming. Credit 3 hours. Of importance will be the mind-body connection or the psycho-physiological effects of stress on health. Emphasis will be placed on prevention of stress and demonstration of a variety of strategies to control stress and tension. Includes stress management program development and evaluation strategies. (Varies)

624. Health Counseling. Credit 3 hours. To provide health care provides educators and counselors the opportunity to develop skills and knowledge to advise students and clients confronted with personal health concerns. (Varies)

626. Health Aspects of Aging, Death and Dying. Credit 3 hours. Students will examine the physiological, psychological, and socio-economic aspects of aging, death and dying. Special consideration will be given to health needs and crisis, medical-care programs, wellness lifestyles, self-actualization and creativity, death, dying, and bereavement. (Varies)

627. Current Health Practices and Preventive Medicine. Credit 3 hours. This course will apply unified concepts of health and disease, including the body, mind and spirit, to a sound philosophy of the personal obligation to preserve one's own health; examine holistic approaches to health care and delivery and health behavior by addressing the biological, psycho-social, and environmental factors which emphasize the prevention of disease and maintenance of optimum health; analyze the application of wellness programs to business, industrial and educational settings. (Varies)

628. Health Seminar. May be repeated as topics vary. Credit 3 hours. Course identified by description each semester offered. (Varies)

629. Health Seminar. May be repeated as topics vary. Credit 3 hours. Course identified by description each semester offered. (Varies)

632. Independent Research. Credit 3 hours. Prerequisite: Must be a graduate student in the Health and Kinesiology Master of Arts program and have taken at least 9 hours of graduate course work including HS 601 or 606, or permission of the Department Head. Student will demonstrate research design and literature review competency. If a research study is implemented, student must obtain appropriate IRB approval. (Fall, Spring, Summer)

634. Independent Reading. Credit 3 hours. Prerequisites: Must be a graduate student in the Health & Kinesiology Master of Arts program and have taken at least 9 hours of graduate course work, or permission of the Department Head. Directed study of the professional and research literature in an area of health not covered in other courses. (Fall, Spring, Summer)

635. Worksite Health Promotion. Credit 3 hours. An analysis of strategies for planning, implementation, and evaluation of health promotion programs in worksite settings. Topics include: successful worksite models, assessing corporate culture, screening approaches, and legal issues. (Varies)

636. Nutrition for Health and Physical Performance. Credit 3 hours. Prerequisite: Basic nutrition or permission of the Department Head. Principles of nutrient metabolism and their role and function in the maintenance of health and prevention of disease. Development of nutritional plans for specific conditioning, including dietary concerns for those in physical performance programs. Credit may not be received for both HS 636 and KIN 636. (Varies)

637. Epidemiology. Credit 3 hours. Prerequisite: HS/KIN 601 or permission of Department Head. Covers the principles and methods of epidemiology. Includes research designs and methods used to study and describe disease occurrence. Develops skills in obtaining, evaluating and interpreting research findings and other population data sources. (Varies)

638. Program Planning and Evaluation. Credit 3 hours. Analysis of planning models and diagnostic techniques used to design programs in a variety of settings. Emphasis on systematic analysis of needs, establishment of objectives and development of evaluation strategies. (Varies)

646. Grant Proposal Writing. Credit 3 hours. Focuses on the necessary competencies and skills of writing and submitting proposals and evaluating and administering grants for health education, allied health, kinesiology and related fields including schools, communities and work sites. (Varies)

698. Sport Administration. Credit 3 hours. This course is a comprehensive overview of principles of the sport management industry including marketing, management/leadership, media, governance, sociological issues, facility & event management, and law & ethics. Specific attention is placed on the principles of leadership and management along with their association with theory. (Varies)

710. Internship in Health Promotion. Credit 3-6 hours. Prerequisite: Permission of the Department Head. A field work experience at a setting that relates to the student's academic preparation and intended employment area of interest. The purpose is to provide an opportunity for students to engage in practical learning activities and to gain and demonstrate professional competencies. May be repeated for a total of 6 hours. A laboratory fee is required for this course. (Fall, Spring, Summer)

770. Thesis. Credit 1-6 hours each semester, with 6 hours needed for graduation. The student must enroll in the thesis course each semester the thesis is in progress. The thesis is graded Pass-Fail. Prerequisites: HS 601 and 606 or 607. (Fall, Spring, Summer)

775. Writing for Publication in Health and Kinesiology. Credit 3 hours. Prerequisite: Permission of Department Head. This course focuses on the skills and practice of writing professional and research manuscripts in health and kinesiology. Includes conducting a review of professional literature, articulating the purpose and importance of a study, developing a research design, creating appropriate figures and tables to display results, and writing the thesis and scholarly manuscripts. May be repeated. (Fall, Spring, Summer)

Health Systems Management (HSM)

200. US Healthcare Organization and Delivery. Credit 3 hours. This course is an overview of how healthcare is organized, delivered, and financed in the United States. It traces the historical evolution in political, economic, cultural, and social contexts, including the distribution and access to medical and other services, the roles of public and private insurance and healthcare benefits, licensure and accreditation, quality, and reimbursement; access to healthcare, federal healthcare and legislative programs; and trends in healthcare delivery. (Spring)

210. Principles of Healthcare Management. Credit 3 hours. This course enables students to learn concepts and theories in healthcare management; develop the basic management skills and the ability to work productively with others; develop skills in using materials and reference, tools and/or technology central to healthcare management; and to integrate healthcare theory with real world problems. (Spring)

215. Microcomputer Applications for Healthcare. Credit 3 hours. This course introduces the student to the role of digital tools and electronic data records in the healthcare industry. The course will provide an overview of the role of spreadsheets, graphics, and data bases including primary and secondary data use in medical records and quality improvement. (Varies)

220. Healthcare Policy and Reform. Credit 3 hours. This course provides an overview of the history and structure of the American healthcare system, including the history of employment-based health insurance, the challenges surrounding access, cost and quality, and the medical malpractice conundrum. Discussions include the history and challenges of healthcare reform. (Spring)

240. Human Resource Management for Health Care. Credit 3 hours. Students will critically evaluate the healthcare human resources in the dynamic healthcare environment. Organizations' challenges of the future healthcare marketplace include garnering, managing, and developing personnel, keeping current on legalities, and making decisions given the economic, environmental, and societal needs will be discussed. Healthcare issues in human resources including the role of information technology, unions, compensation and benefits, and specific healthcare labor laws will be included. (Fall)

250. Principles and Practices of Case Management. Credit 3 hours. Students will explore the role of the case manager in a managed care environment. Principles of practice, historical and philosophical framework, roles and responsibilities of the case manager, models of case management, teambuilding and collaborative relationships, disease management, and quality and outcomes management are all addressed. (Fall)

260. Introduction to Quality Performance in Healthcare. Credit 3 hours. Students will explore the evolution of healthcare quality concepts and efforts, and explore the social, governmental, regulatory, and professional pressures that have driven the healthcare quality field. Emphasis will be placed on application of theory to practice for components of quality improvement programs and strategies within a healthcare setting. (Fall)

275. Anatomy, Physiology, and Medical Terminology for Healthcare Managers. Credit 3 hours. A general overview of anatomy and physiology and medical terminology at a level that is appropriate to the field of Healthcare Administration and Management. Emphasis is placed on the knowledge administrators will need to effectively understand documents, materials, and other references they may encounter as Health Systems Managers. (Spring)

315. Fundamentals of Healthcare Quality Improvement. Credit 3 hours. Prerequisites: HSM 215 and MATH 241 or permission of the Department Head. This course focuses on quality management as a core healthcare function and on how to implement a viable quality improvement program in various organizations along the continuum of care. Students will explore healthcare quality concepts and efforts, and the social, governmental, regulatory, and professional pressures that have driven the healthcare quality field. Emphasis will be placed on application of theory to practice in specifying a quality improvement project with desired outcomes and an appropriate measurement strategy. (Fall)

350. Healthcare and Regulatory Law. Credit 3 hours. Prerequisites: HSM 200 and HSM 210 or permission of Department Head. This course builds competencies in applying conceptual aspects of legislation, law, regulations, and standards in health, informatics, evaluating legal aspects of risk management and quality improvement initiatives, applying ethics to health information management, and analyzing how compliance requirements impact healthcare organizations. (Fall)

355. Healthcare Reimbursement Systems. Credit 3 hours. Prerequisites: HSM 200 and HSM 210 or permission of Department Head. This course introduces financial management of healthcare services and focuses on identification of costs and care and payment systems for medical services, explains the impact of benefit design on provider and patient behavior with particular focus on managed care versus fee for service models, and reviews data sources and their applicability to economic analysis, including inpatient billing and cost-accounting systems. (Spring)

365. Healthcare Quality Safety Measurement and Outcomes Analysis I. Credit 3 hours. Prerequisites: HSM 200 and HSM 210 or permission of Department Head. This course establishes a basis for critical analysis of issues in healthcare quality and safety and presents conceptual and scientific approaches to management. (Spring)

370. Integrated Care and Health Systems. Credit 3 hours. Prerequisites: HSM 200 and HSM 210 or permission of Department Head. Students will explore managed care from various perspectives and the progression of healthcare to managed care including various structures and components of the managed care system. Four key perspectives will be discussed including the healthcare provider, health system, employer, and consumer and their unique attributes, challenges, and operational issues. An analysis with application of managed care operations, including payment and reimbursement systems, legal issues including information brokering, privacy of information, and retrieval of information, clinical and business applications of information technology, contract negotiation, benchmarking, and outcomes management within various healthcare settings will be highlighted. (Fall)

375. Data Management. Credit 3 hours. Prerequisites: HSM 215 and MATH 241 or permission of the department head. Students will learn the skills and competencies in health data structures, usage, and data collection tools, data quality assessment and integrity, types and content of health records, and health information standards and regulations for documentation. (Spring)

400. Introduction to Healthcare Finance. Credit 3 hours. Prerequisites: HSM 200 and HSM 210 or permission of Department Head. An introduction to healthcare reimbursement systems, the regulatory environment, general accounting, cost concepts, product costing, strategic planning and an introduction to the operating budget. Emphasis will be on understanding and interpreting financial information, concepts and techniques of financial analysis and the decision-making process in the healthcare environment. (Spring)

410. Health Informatics. Credit 3 hours. Prerequisites: HSM 200 and HSM 210 or permission of Department Head. An introduction to project planning, management, evaluation, and the adoption of new technologies in diverse healthcare settings. Topics include competencies in evaluating medical practice workflow and functional needs of end-users, evaluating data infrastructure and information technology processes and systems, and analyzing the fiscal and human resource commitment needed in all phases of implementing and adopting new technologies. (Fall)

415. Management in Healthcare. Credit 3 hours. Prerequisites: HSM 400 and 410 or permission of the Department Head. Students will explore management theory and practice as it applies to healthcare organizations. They will critically evaluate human resources, study strategic management activities and marketing positioning, and develop leadership skills for healthcare teams and projects. The course will focus on state-of-the-art management practices, current healthcare legislation and other factors that affect healthcare organizations and the role of a manager. (Fall)

420. Healthcare: Managing Effectively in a Changing Environment. Credit 2 hours. Prerequisites: HSM 400 and HSM 410 or permission of Department Head. An exploration of healthcare reform, including the impacts and considerations of HIPPA, the enabling roles that process design and improvement and information technology play in helping organization meet meaningful use criteria; and the importance of leveraging organizational change management to help the people in organizations quickly adopt and efficiently use new processes and technology. (Fall)

421. Healthcare Innovation: Managing Effective Change. Credit 3 hours. An exploration of the effects and advantages of electronic records and information technology on change and innovation in healthcare. The course includes consideration of HIPPA and effects of digital health in the design and improvement of healthcare systems and organizations. A focus on the importance of leveraging organizational change management to help those in healthcare professions quickly adopt and efficiently use new processes and technology. (Fall)

430. Institutional Collaboration and Communication in Healthcare. Credit 3 hours. Prerequisites: HSM 400 and HSM 410 or permission of Department Head. This course will discuss the importance of communication and the connection between communication and medical error, the standards of effective communication, national and institutional patient safety goals, strategies for information exchange. Students will be able to identify barriers, tools, strategies and outcomes to effective collaboration and communication. (Fall)

433. Strategic Management in Healthcare Organizations. Credit 3 hours. Prerequisites: HSM 400 and HSM 410 or permission of Department Head. A detailed study of the development and implementation of strategy and market positioning by healthcare organizations in the changing healthcare marketplace and stresses practical approaches to articulate an organization's mission and vision with strategies to meet external and internal situations. Topics include: external and internal assessment, strategy development and implementation, market positioning, organizational structure to support strategy, provider-purchaser relationships, and governance and management structures. (Fall)

436. Systems Analysis. Credit 3 hours. Prerequisites: HSM 400 and HSM 410 or permission of Department Head. This course prepares individuals to apply programming and systems analysis principles to the selection, implementation, and troubleshooting of customized computer and software installations in a healthcare setting. Topics include: computer hardware and software; compilation, composition, execution, and operating systems; low- and high-level languages and language programming; programming and debugging techniques; installation and maintenance testing and documentation; process and data flow analysis; user needs analysis and documentation; cost-benefit analysis; and specification design. (Fall)

439. Leadership Skill Development for the Mid-Level Manager. Credit 3 hours. Prerequisites: HSM 400 and HSM 410 or permission of Department Head. An exploration of individual leadership styles, the characteristics of effective leaders and ways to develop personal goals and strategies for becoming a more effective leader of healthcare teams. Specific leadership concepts include: operational (team performance, commitment and motivation, delegation, and time and stress management); relational (communications, negotiation and conflict management, coaching, and counseling and interviewing); analytic (budgeting, managing financial and human resources, strategic thinking and decision making, and evaluating organizational and personal resources). (Fall)

442. Performance Initiatives. Credit 3 hours. Prerequisites: HSM 400 and HSM 410 or permission of Department Head. A discussion of performance initiatives aimed at improving the quality, efficiency, and overall value of healthcare. Specific topics include: feasibility, defining performance, program development, performance evaluation methods, and administration of performance appraisals. These arrangements provide financial incentives to hospitals, physicians, and other healthcare providers to carry out such improvements and achieve optimal outcomes for patients. (Spring)

445. Tools and Methods for Healthcare Quality and Safety Improvement. Credit 3 hours. Prerequisites: HSM 400 and HSM 410 or permission of Department Head. A detailed study of system-thinking methods and how systems' thinking is applied within the healthcare system. This course provides tools and methods for improving quality and safety within the healthcare system. (Fall)

448. Risk Management. Credit 3 hours. Prerequisites: HSM 400 and HSM 410 or permission of Department Head. A discussion of general and high-risk management strategies within the healthcare industry such as legal concepts, development of risk management programs and effective governance. Topics include: risk financing, ethics, patient communication, credentialing of providers, contract review concepts, employment liability, and patient and occupational safety. (Fall)

451. Research & Evaluations Methods for Quality and Safety Improvement. Credit 3 hours. Prerequisites: HSM 400 and HSM 410 or permission of Department Head. A review of health services research methodology and its application in evaluation of healthcare programs, including quality and safety improvement and interventions. (Fall)

454. Healthcare Quality and Safety Measurement and Outcomes Analysis II. Credit 3 hours. Prerequisites: HSM 365, HSM 400, and HSM 410, or permission of Department Head. A critical analysis of issues in healthcare quality and safety and conceptual and scientific approaches to

management. This course requires demonstrated competencies in analyzing how quality improvement programs are developed, implemented, and improved; and skills necessary for management in the healthcare environment. (Spring)

467. Care Coordination in the Community. Credit 3 hours. Prerequisites: HSM 400 and HSM 410 or permission of Department Head. This course focuses on the comprehensive identification and indexing of community resources across the life span in a wide variety of settings such as family welfare organizations, disability services, youth services, child protection and community health services, vocational services, and employment. (Fall)

470. Specialty Practices in Care Management. Credit 3 hours. Prerequisites: HSM 400 and HSM 410 or permission of Department Head. An examination of the care components of patient assessment, planning of care, coordinating and facilitating care plans for patients, working within and across the continuum of care, evaluating care provided, reassessing, mapping of care, evaluation, cost and quality containment strategies and patient advocacy. Specific topics include history and advocacy of case management best practices, insurance and alternative finance options, resource utilization management, and life care planning. (Fall)

480. Project Management Fundamentals in Healthcare Systems. Credit 3 hours. Prerequisites: HSM 400 and HSM 410 or permission of Department Head. The focus of this course is to provide students an overview of various healthcare systems and projects associated with these systems. This course reviews the basics of project management and includes hands-on application through a work-related project. Students learn to maximize time, money and personnel by using efficient techniques for managing projects in the healthcare systems. (Spring)

481. Project Management Fundamentals in Healthcare Quality Improvement. Credit 3 hours. Prerequisites: HSM 400 and HSM 410 or permission of Department Head. The focus of this course is to provide students with the history of healthcare quality improvement and an overview of various healthcare quality improvement initiatives. This course reviews the basics of project management and includes hands-on application through a work-related project. Students learn to maximize time, money and personnel by using efficient techniques for managing projects in healthcare quality improvement programs. (Spring)

482. Project Management Fundamentals in Care Coordination. Credit 3 hours. Prerequisites: HSM 400 and HSM 410 or permission of Department Head. The focus of this course is to provide students an overview of the roles and responsibilities of the healthcare coordinator and a review of significant care coordination initiatives. This course reviews the basics of project management and includes hands-on application through a work-related project. Students learn to maximize time, money and personnel by using efficient techniques for managing projects in the healthcare coordination programs. (Spring)

487. Internship in Healthcare Management. Credit 4 hours. Prerequisites: HSM 400 and HSM 410 or permission of the department head. This is a senior level internship where students engage in practical experiences in the field. A minimum of 210 hours is required. Students will demonstrate the ability to apply concepts, methods, and theories of healthcare management in a healthcare setting.

498. Internship in Healthcare Quality Improvement. Credit 8 hours. Prerequisites: HSM 400 and HSM 410 or permission of Department Head. This is a senior-level internship where students engage in practical experiences in the field. A minimum of 320 hours is required. Students will demonstrate the ability to apply concepts, methods and theories of healthcare quality improvement in a healthcare setting. (Spring)

499. Internship in Care Coordination. Credit 8 hours. Prerequisites: HSM 400 and HSM 410 or permission of Department Head. This is a senior-level internship where students engage in practical experiences in the field. A minimum of 320 hours is required. Students will demonstrate the ability to apply concepts, methods and theories of medical case management in a healthcare setting. (Spring)

History (HIST)

101. Western Civilization to 1500. [LCCN: CHIS 1013, Western Civilization I]. Credit 3 hours. No prerequisites. A survey of Western Civilization from prehistoric times to 1500. Four units on the Ancient Near East; the Ancient Greeks; the Ancient Roman World; and the Middle Ages. Includes in-depth coverage of the role of women. Lectures and readings. (Summer, Fall, Spring)

101H. Western Civilization to 1500 for Honors Students. Credit 3 hours. Prerequisite: Authorization by the Director of the Honors Program. A survey of Western Civilization from prehistoric times to 1500. Four units on the Ancient Near East; the Ancient Greeks; the Ancient Roman World; and the Middle Ages. Includes in-depth coverage of the role of women. Lectures, readings, and seminar-style discussions. (Fall)

102. Western Civilization since 1500. [LCCN: CHIS 1023, Western Civilization II]. Credit 3 hours. No prerequisites. A survey of Western Civilization from 1500 to the present. Four units on the Renaissance and Reformation (to 1610); Absolutism and Enlightenment (1610-1789); Revolutions and Nationalism (1789-1914); and Modern Europe (1914-present). Includes in-depth coverage of the role of women. Lectures and readings. (Summer, Fall, Spring)

102H. Western Civilization since 1500 for Honors Students. Credit 3 hours. Prerequisite: Authorization by the Director of the Honors Program. A survey of Western Civilization from 1500 to the present. Four units on the Renaissance and Reformation (to 1610); Absolutism and Enlightenment (1610-1789); Revolutions and Nationalism (1789-1914); and Modern Europe (1914-present). Includes in-depth coverage of the role of women. Lectures, readings, and seminar-style discussions. (Spring)

107. World Civilization to 1500. Credit 3 hours. This class examines the developments and interactions among Asian, African, European, American, and Oceanian cultures in the pre-modern age. This course also offers a consideration of issues related to the connections and relationships that shaped the civilizations as a result of migration, war, and commerce before 1500. Includes in-depth coverage of the role of women. Lectures and readings. (Summer, Fall, Spring)

This course also offers a consideration of issues related to the connections and relationships that shaped civilizations as a result of migration, war, and commerce since 1500. Includes in-depth coverage of the role of women. Lectures and readings. (Summer, Fall, Spring)

201. American History to 1877. [LCCN: CHIS 2013, American History I]. Credit 3 hours. No prerequisites. A survey of American history from the age of discovery to 1877. Four units on the Colonial Period (1492-1763); the Revolution and the Early National Period (1763-1816); the Age of Compromise (1816-50); and the Civil War and Reconstruction (1850-77). Includes in-depth coverage of the role of women and minorities. Lectures and readings. (Summer, Fall, Spring)

201H. American History to 1877 for Honors Students. Credit 3 hours. Prerequisite: Authorization by the Director of the Honors Program. A survey of American history from the age of discovery to 1877. Four units on the Colonial Period (1492-1763); the Revolution and the Early National Period (1763-1816); the Age of Compromise (1816-50); and the Civil War and Reconstruction (1850-77). Includes in-depth coverage of the role of women and minorities. Lectures, readings, and seminar-style discussions. (Fall)

202. American History since 1877. [LCCN: CHIS 2023, American History II]. Credit 3 hours. No prerequisites. A survey of American history since 1877. Four units on the Emergence of Modern America (1877-1917); World Wars and the New Deal (1917-45); the Cold War and Civil Rights (1945-76); and the New World Order (1976-present). Includes in-depth coverage of the role of women and minorities. Lectures and readings. (Summer, Fall, Spring)

202H. American History since 1877 for Honors Students. Credit 3 hours. Prerequisite: Authorization by the Director of the Honors Program. A survey of American history since 1877. Four units on the Emergence of Modern America (1877-1917); World Wars and the New Deal

(1917-45); the Cold War and Civil Rights (1945-76); and the New World Order (1976- present). Includes in-depth coverage of the role of women and minorities. Lectures, readings, and seminar-style discussions. (Spring)

321. History of Louisiana. [LCCN: CHIS 2033, Louisiana History]. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A survey of Louisiana history from the age of discovery to the present. Three units on Colonial Louisiana; 19th-Century Louisiana; and Modern Louisiana. Includes in-depth coverage of the role of women and minorities, with particular attention to African-American and Cajun influence. Lectures, readings, and discussions. (Summer, Fall, Spring)

322. Practicum for Education Majors. Credit 1 hour. A practicum for Education majors that will provide supervised direct teaching hours in Social Studies prior to student teaching. Social Studies majors must register for HIST 321 and 322 concurrently. Direct teaching hours will be structured to meet the particular needs of the students and the cooperating school(s). competency-based clinical practice required. (Summer, Fall, Spring)

323. Clinical Practice for Social Studies Education Majors. Credit 3 hours. A competency-based clinical practice class for Education majors that will provide supervised direct teaching hours in Social Studies prior to student teaching. (Fall, Spring)

403. Independent Study. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. Conducted as a tutorial for individual students seeking additional work beyond the introductory level. Readings chosen according to student interest, academic orientation, and level of preparedness. Evaluations conducted on the basis of discussions and written assignments. May be repeated once but Department Head approval is required to count more than 3 hours toward the B.A. in History. (Varies)

409/509. A History of Ancient Greece. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of Greek civilization from the Minoan period to the conquest of Greece by the Romans. Three units on Minoan, Mycenaean, and Dark Ages Greece (c.3000-800 B.C.); Classical Greece (c.800-362 B.C.); and Macedon, Alexander, and the Hellenistic Era (362-146 B.C.). Includes in-depth coverage of the role of women. Lectures, readings, and discussions. (Fall Odd Years)

410/510. A History of Ancient Rome. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of Roman civilization from the foundation of Rome to the death of the Emperor Justinian. Three units on the Monarchy and the Republic (origins to 31 B.C.); the Early Roman Empire (31 B.C.-284 A.D.); and the Later Roman Empire and the Byzantine Empire (284-565). Includes in-depth coverage of the role of women. Lectures, readings, and discussions. (Spring Even Years)

416/516. The Early Middle Ages. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of medieval Europe from the fall of the western Roman Empire to c.1050. Three units on the Germanic Kingdoms (476-687); the Carolingian Empire (687-843); and the Age of Invasions to c.1050. Includes in-depth coverage of the role of women. Lectures, readings, and discussion. (Fall Even Years)

417. History of Science and Technology. Credit 3 hours. Prerequisites: Junior standing or permission of the Department Head. Traces the development of scientific theories and the men who formulated and developed them from the days of ancient Greece through the Industrial and Technological Revolution to the Scientific Revolution of the twentieth century. (Fall Even Years)

418/518. The Later Middle Ages. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of medieval Europe from the beginning of the High Middle Ages c.1050 to the fall of Constantinople and the end of the Hundred Years War in 1453. Three units on the European Recovery, the Crusades, and the 12th Century Renaissance; Europe in the 13th Century; and the Crisis of the 14th and Early 15th Centuries. Includes in-depth coverage of the role of women. Lectures, readings, and discussion. (Spring Odd Years)

419/519. Renaissance Europe. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of Renaissance Europe from 1380 to 1530, with emphasis on Italy's central role in propagating cultural change and in the international politics of the period. Three units on Renaissance Europe from its Origins to the Peace of Lodi (1380- 1454); Renaissance Europe from Lodi to the French Invasion (1454-94); and Renaissance Europe from the French Invasion to the Sack of Rome (1454-1530.) Includes in-depth coverage of the role of women. Lectures, readings, and discussion. (Fall Odd Years)

423/523. Reformation Europe. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the Reformation from its late medieval origins to the Treaty of Westphalia, with emphasis on doctrinal conflict, religious wars, social upheaval, and the new monarchy. Three units on the Early Reformation (origins-1555); Religious Wars and Absolutism (1555-1610); and the Thirty Years War and Related Conflicts (1610-1648). Includes in-depth coverage of the role of women. Lectures, readings, and discussion. (Spring Even Years)

424/524. Europe in the Age of Reason, 1648-1789. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of Europe from the end of the Thirty Years War to the eve of the French Revolution. Three units on the Age of Louis XIV (1648-1715); the Enlightenment and the European State System (1715-48); and Enlightened Absolutism (1748-89). Includes in-depth coverage of the role of women. Lecture, readings, and discussion. (Fall Even Years)

438/538. Tudor-Stuart Britain. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the British Isles from the accession of Henry VII in 1485 to the death of Anne in 1714. Three units on the Early Tudors and the English Reformation (1485-1558); Elizabeth, the Early Stuarts, and the Civil War (1558-1649); and the Interregnum, Restoration, and Glorious Revolution (1649-1714). Includes in-depth coverage of the role of women. Lectures, readings, and discussions. (Spring Even Years)

439/539. Hanoverian and Victorian Britain. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the British Isles from the accession of George I in 1714 to the death of Victoria in 1901. Three units on the Age of Walpole and Pitt (1714-60); the Reign of George III (1760-1820); and the Victorian Era (1820-1901). Includes in-depth coverage of the role of women and minorities. Lectures, readings, and discussions. (Fall Even Years)

440/540. Modern Britain. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the British Isles from the rise of the Second Empire to the present. Three units on the British Empire and World War I (1900-20); Recovery, Depression, and World War II (1920-45); and Postwar Britain (1945-present). Includes in-depth coverage of the role of women and minorities. Lectures, readings, and discussions. (Spring Odd Years)

444/544. Ancient China and the Orient. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the origins of Chinese civilization, the concept of the Middle Kingdom, the Tributary System (primarily Japan, Korea, and Vietnam), the sources of Chinese traditionalism, and their impact on or contrast with neighboring Asian nations up to the Manchu conquest of the 17th century. Three units on the Origins and Emergence of Chinese Civilization and Philosophy; the Early Imperial Period; and Soong China and the Emergence on non-Han Powers. Includes in-depth coverage of the role of women. Lectures, readings, and discussion. (Fall Odd Years)

445/545. Modern China and the Orient. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the development of China from the 17th century Manchu conquest through the struggle for democracy characterizing the period since the late 1980s, with special emphasis on the background and dynamics of the revolution and the impact of a destabilized China on neighboring Asian powers (primarily Japan, Korea, and Vietnam). Three units on Traditional China and the Manchu Intrusion; Internal Instability and the Western Intrusion; and Revolution and the New World Order. Includes in-depth coverage of the role of women. Lectures, readings, and discussion. (Fall Even Years)

446/546. History of Latin America to 1820. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of Latin America from the European discovery in 1492 to the end of colonialism in 1820. Three units on the Preconquest Era; Conquest and Republicanism; and the Wars of Revolution. Includes in-depth coverage of the role of women. Lectures, readings, and discussion. (Fall Odd Years)

447/547. History of Latin America since 1820. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of Latin America from the end of the colonial period to the rise of modern nations, with special emphasis on Latin America's relationship to the United States. Three units on Mexico, Central America, and the Caribbean 1820 to the Present; Venezuela and Colombia 1820 to the Present; and Argentina, Bolivia, Brazil, Chile, Ecuador, and Peru 1820 to the Present. Includes in-depth coverage of the role of women. Lectures, readings, and discussion. (Spring Even Years)

448/548. History of the Caribbean Area. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the Caribbean area and its part in the history of the world from the European discovery to the present, with emphasis on international rivalries, independence of certain areas, and strategic geographic position in world affairs. Three units on the Preconquest Period to 1830; 1830 to 1890; and 1890 to the Present. Includes in-depth coverage of the role of women. Lectures, readings, and discussion. (Fall Even Years)

449/549. History of Mexico. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of Mexico from the colonial period to the present, with emphasis on the war for independence and its effect on modern Mexico. Three units on Preconquest and Spanish Conquest to 1810; Wars of Independence and the First Republic to 1850; Modern Mexico 1850 to the Present. Includes in-depth coverage of the role of women. Lectures, readings, and discussion. (Spring Odd Years)

454/554. History of Modern Russia. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of Russian History from the Bolshevik Revolution to the present. Three units on the Bolshevik Revolution (1900-28); the Stalin Era (1928-53); and From Soviet Superpower to Post-Communist Period (1953-present). Lectures, readings, and discussion. Includes in-depth coverage of the role of women. (Spring Odd Years)

459/559. Revolutionary Asia. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. This course will cover Asian revolutionary movements from the late eighteenth century to the present and the economic, socio-cultural, religious, and political forces that contributed to the rise of revolutionary sentiment and the ultimate resolution of the process. Uprisings in India, Japan, China, Vietnam, Afghanistan, Indonesia, and Cambodia among others will be considered in the context of individual circumstances and the wider process of revolutionary change. Three units on Distinctive Regions of Asia and Sources of Revolutionary Thought, Revolutionary Movements in the Nineteenth and Early Twentieth Centuries, and Contemporary Revolutionary Movements and the Challenges of the Modern World. Lectures, readings, and discussions. (Varies)

463/563. Local/Regional History. Credit 3 hours. Prerequisite: Junior standing or permission of Department Head. A detailed study preparing students to uncover and present the comprehensive history of specific locales. (Varies)

466/566. Family History. Credit 3 hours. Prerequisite: Junior standing or permission of Department Head. A detailed study of the bibliography and methodology of the field. Students will also prepare an analytical report considering the various sources available for family history. (Varies)

467/567. Introduction to Museum Practice. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the concerns and issues unique to working in museums. Students will learn the basics of research and interpretation involved in the design and preparation of exhibits. (Varies)

468/568. Women in European History. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the role of women in European society from the ancient world to the present. Three units on Women in the Ancient World and the Middle Ages (c.3000 B.C.-1500); Women in Early Modern Europe (1500-1789); and Women in the Modern World (1789-present). Lectures, readings, and discussion. (Fall Odd Years)

469/569. Women in American History, 1600 to the Present. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the role of women in American society, the image of women in popular literature, and American women's struggle for equal rights. Three units on Women in the Colonial Period; Women in 19th Century America; and Women in 20th Century America. Includes in-depth coverage of the role of minorities. Lectures, readings, and discussion. (Spring Even Years)

473/573. Colonial America, 1492-1763. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of Colonial America from the age of discovery to the end of the French and Indian War. Three units on Discovery and Early Colonization (1492-1607); the Growth of American Colonies (1607-88); and the Era of Colonial Wars (1689 to 1763). Includes in-depth coverage of the role of women and minorities. Lecture, readings, and discussion. (Fall Odd Years)

474/574. The American Revolution, 1763-1791. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the American Revolution from the end of the French and Indian War to the ratification of the Constitution. Three units on the Origins of the Revolution (1763-76); the Revolutionary War (1776-83); and the Foundation of the Constitution (1783-91). Includes in-depth coverage of the role of women and minorities. Lectures, readings, and discussion. (Spring Even Years)

475/575. America in the Early National Period, 1788 to 1816. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the new American nation from the election of Washington to the end of Madison's presidency. Three units on the Federalist Period (1788-1800); the Jeffersonian Revolution (1800-08); and the Madison Era (1808-16). Includes in-depth coverage of the role of women and minorities. Lectures, readings, and discussion. (Fall Even Years)

476/576. America in the Age of Compromise, 1816 to 1850. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of American history from the Missouri Compromise to the Compromise of 1850. Three units on Nationalism and Expansion

(1816-28); the Age of Jackson (1828-36); and Expansion and Reform (1836-50). Includes in-depth coverage of the role of women and minorities. Lectures, readings, and discussion. (Spring Odd Years)

477/577. Civil War and Reconstruction, 1850 to 1877. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the sectional controversy in America. Three units on the Sectional Crisis (1850-60); the Civil War (1861-65); and Reconstruction (1865-77). Includes in-depth coverage of the role of women and minorities. Lectures, readings, and discussion. (Fall Odd Years)

478/578. The American Frontier. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A study of the American frontier from the colonial period to 1890, with emphasis on the Native American problem, the fur trade, mining, trade routes, and America's Western heritage. Includes in-depth coverage of the role of women and minorities. Three units on the Colonial Period to 1787; Nationhood to the Gold Rush (1787-1849); and the Late Frontier (1849-90). Lectures, readings, and discussion. (Spring Even Years)

479/579. Emergence of the Modern United States, 1877-1917. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the development of the United States to the status of a world power, the rise of American industry, and political and intellectual developments. Three units on Industrialization and Westward Expansion (1877-88), Populism and Imperialism (1888-1900); Progressivism and World Power (1900-1917). Includes in-depth coverage of the role of women and minorities. Lectures, readings, and discussion. (Fall Even Years)

480/580. America, the World Wars, and the New Deal, 1917-1945. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the United States from its entry into World War I through its victory in World War II and its achievement of superpower status. Three units on World War I and the 1920s; the Great Depression and the New Deal; and World War II. Includes in-depth coverage of the role of women and minorities. Lectures, readings, and discussion. (Spring Odd Years)

482/582. America in the Cold War and Beyond, 1945 to the Present. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of America's history as a superpower. Three units on the Origins of the Cold War (1945-60); the Vietnam Era (1960-75); and America as the Sole Superpower (1975-present). Includes in-depth coverage of the role of women and minorities. Lecture, readings, and discussion. (Fall Odd Years)

483/583. Heritage Tourism. Credit 3 hours. Prerequisite: Junior standing or permission of Department Head. A detailed study of the range of heritage tourism and the role of the historian. Students will address issues such as funding, historical authenticity, and audience. (Varies)

484/584. Audience and Media. Credit 3 hours. Prerequisite: Junior standing or permission of Department Head. A detailed study of the key concerns for the public historian, audience and media, including how to tailor presentations to meet the needs of the audience as well as the benefits and limitations of various types of media. Students will also discuss the ethical complications of public presentation of historical subjects. (Varies)

485/585. Military History of America to 1865. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the battles and campaigns on land and sea in which American armed forces have participated from the colonial period to 1865. Three units on the Colonial Wars; the Revolutionary War, War of 1812, and Frontier Wars; and the Mexican War and Civil War. (Fall Even Years)

487/587. Military History of America since 1865. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the battles and campaigns on land and sea in which American armed forces have participated since 1865. Three units on the Indian Wars and Spanish-American War; the World Wars; and Korea, Vietnam, and Beyond. (Spring Odd Years)

488/588. Oral History Techniques. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A survey of the methodology for collecting and preserving oral history. Includes how to prepare and conduct interviews and to edit and index transcriptions. (Varies)

489/589. African-American History. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the role of African-Americans in American history from the age of discovery to the present. Three units on the Slave Era (c. 1500-1865); Reconstruction, Reaction, and Jim Crow (1865-1945); and the Civil Rights Movement (1945-present). Includes in-depth coverage of the role of women. Lectures, readings, and discussion. (Spring Even Years)

492/592. History of the Old South. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of Southern history from the colonial period to 1865, with emphasis upon political, social, and economic development and slavery. Three units on the Colonial Period (1607-1787); the Antebellum South and Slavery (1788-1850); and the Secession Crisis and the Civil War (1850-65). Includes in-depth coverage of the role of women and minorities. Lectures, readings, and discussions. (Spring Even Years)

493/593. History of the New South. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of Southern history since 1865, with emphasis upon reconstruction, industrialization, the changing status of African-Americans and Southern political leadership in post-Civil War America. Three units on Reconstruction and its Aftermath (1865-1900); the South in the Early 20th Century (1900-45); and the South, the Civil Rights Movement, and Beyond (1945-present). Lectures, readings, and discussions. Includes in-depth coverage of the role of women and minorities. (Spring Odd Years)

494/594. History of the Holocaust. Credit 3 hours. Prerequisite: Junior Standing or permission of the Department Head. A detailed study of the motives, choices, methods, actions and implications of the Holocaust. (Varies)

495/595. Crime in American History. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of major crimes and criminals in American history, with emphasis on 20th century crime. Special attention given to famous controversial crimes, such as the Lindbergh kidnapping case and the Manson murders. Special features include a history of organized crime in America, procedures of criminal investigation, and use of audio-visual materials. Three units on Historical Trends; Organized Crime; and Controversial Crimes. Lectures, readings, and discussion. (Varies)

496/596. The Kennedy Assassination. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of the assassination of President John F. Kennedy and the controversy about it. An examination of the main issues, the conspiracy, the role of the Federal government and organized crime, Lee Harvey Oswald, and Jack Ruby. Emphasis placed on analysis of primary source materials and such audio-visual materials as the Zapruder Film, the Dallas Police Tapes, and the JFK autopsy photographs. Three units on the Assassination; the Investigations; and the Controversy. Lectures, readings, and discussion. (Varies)

497. Seminar for Undergraduates in Major Problems in American History. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A seminar style readings course designed to give students a general survey of the main events and important historiographical trends in American history from the colonial period to the present. Student presentations and seminar discussions emphasized. (Summer, Fall, Spring)

498/598. Special Topics in History. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A detailed study of a topic selected by the Department Head. Topics and instructors will vary. May be repeated once, but the Department Head approval is required to count more than 3 hours towards the B.A. in History. (Varies)

600. Historical Research. Credit 3 hours. An introduction to the sources and methods for historical research, proper writing style and documentation, and historiography. (Fall)

602. Readings in History. Credit 3 hours. An intensive program of independent readings in secondary literature on a topic approved in advance by the instructor. May be repeated, but no more than three hours may be applied toward the M.A. in History degree. (Varies)

- 605. Seminar in American History to 1800.** Credit 3 hours. An intensive survey of American history from the age of discovery to 1800. Includes in-depth coverage of the role of women and minorities. Study of primary sources and the historical literature, with student presentations and student-led seminar discussions emphasized. (Summer)
- 606. Seminar in American History 1800 to 1900.** Credit 3 hours. An intensive survey of American history in the 19th century. Includes in-depth coverage of the role of women and minorities. Study of primary sources and the historical literature, with student presentations and student-led seminar discussions emphasized. (Fall)
- 607. Seminar in American History Since 1900.** Credit 3 hours. An intensive survey of American history since 1900. Includes in-depth coverage of the role of women and minorities. Study of primary sources and the historical literature, with student presentations and student-led seminar discussions emphasized. (Spring)
- 610. Seminar in Southern History.** Credit 3 hours. An intensive survey of Southern history from the colonial period to the present. Includes in-depth coverage of the role of women and minorities. Study of primary sources and the historical literature, with student presentations and student-led seminar discussions emphasized. (Fall)
- 611. Seminar in Louisiana History.** Credit 3 hours. An intensive survey of Louisiana history from the colonial period to the present. Includes in-depth coverage of the role of women and minorities. Study of primary sources and the historical literature, with student presentations and student-led seminar discussions emphasized. (Spring)
- 612. Seminar in American Military History.** Credit 3 hours. An intensive survey of American military history from the colonial period to the early twenty-first century. Study of primary sources and the historical literature, with student presentations and student-led discussion emphasized. (Fall Even Years)
- 613. Seminar in Global Military History.** Credit 3 hours. A thematic survey of various aspects of international conflicts from antiquity to the present. Study of primary sources and the historical literature with student presentations and student-led discussion emphasized. (Fall Odd Years)
- 621. Independent Study in History.** Credit 3 hours. An intensive program of research in primary sources on a topic approved in advance by the instructor. May be repeated, but no more than three hours may be applied toward the M.A. in History degree. (Varies)
- 628. Theories of History.** Credit 3 hours. Through an intensive reading of a number of key history texts, this seminar emphasizes the theoretical problems and questions that underpin the research strategies historians utilize. Study of primary sources and canonical texts in the discipline, along with student presentations and student-led seminar discussions. (Spring Odd Years)
- 630. Seminar in the History of Western Thought.** Credit 3 hours. An intensive survey of Western thought from the ancient world to the present. Study of primary sources and the professional literature, with student presentations and student-led seminar discussions emphasized. (Spring Even Years)
- 632. Introduction to Public History.** Credit 3 hours. This course serves as the cornerstone of the program and covers the opportunities and challenges for historians in the public arena. This is a historiographical course tracing the origins of public history and the variety of specialties within the field. One important unit within this course is the unique ethical concerns of the public historian. (Varies)
- 633. Public History Seminar.** Credit 3 hours. In this seminar students will create and critique extensive public history projects based on their experiences in previous courses. (Varies)
- 634. Seminar in Historic Preservation.** Credit 3 hours. The bulk of this course will be devoted to the production of a sizable research project within the field of historic preservation. (Varies)
- 635. Introduction to Historical Editing.** Credit 3 hours. The editing of manuscripts, transcriptions, and other historical and historiographical documents. In this class students will gain practical experience by editing documents and surveying the relevant literature. (Varies)
- 636. Introduction to Archival Practice.** Credit 3 hours. This course is designed to provide students with a broad overview of the theory and skills involved in archival practice. Students will visit local repositories, undertake projects in collection management, and study the ethical and historical issues guiding archival practice and management. (Varies)
- 637. Internship in Public History.** Credit 3 hours. An opportunity for students to gain valuable hands-on experience in a public history setting. Intern must work a minimum of twenty hours per week during a regular semester, a minimum of forty hours per week during a summer term, at times mutually agreeable to the individual and the agency. Any reading and paper requirements must be satisfied. All grade requirements and criteria will be established ahead of time by the faculty internship coordinator. (Varies)
- 641. Seminar in British History to 1485.** Credit 3 hours. An intensive survey of British history from the ancient world to 1485. Includes in-depth coverage of the role of women and minorities. Study of primary sources and the historical literature, with student presentation and student-led seminar discussions emphasized. (Summer Odd Years)
- 642. Seminar in British History since 1485.** Credit 3 hours. An intensive survey of British history from 1485 to the present. Includes in-depth coverage of the role of women and minorities. Study of primary sources and the historical literature, with student presentation and student-led seminar discussions emphasized. (Summer Even Years)
- 643. Seminar in Ancient European History.** Credit 3 hours. An intensive survey of European history from the origins of civilization to 500 A.D. Includes in-depth coverage of the role of women and minorities. Study of primary sources and the historical literature, with student presentation and student-led seminar discussions emphasized. (Fall Odd Years)
- 644. Seminar in Medieval European History.** Credit 3 hours. An intensive survey of European history from 500 to 1500. Includes in-depth coverage of the role of women and minorities. Study of primary sources and the historical literature, with student presentations and student-led seminar discussions emphasized. (Fall Even Years)
- 645. Seminar in Early Modern European History.** Credit 3 hours. An intensive survey of European history from 1500 to 1815. Includes in-depth coverage of the role of women and minorities. Study of primary sources and the historical literature, with student presentations and student-led seminar discussions emphasized. (Spring Even Years)
- 646. Seminar in Modern European History.** Credit 3 hours. An intensive survey of European history from 1815 to present. Includes in-depth coverage of the role of women and minorities. Study of primary sources and the historical literature, with student presentation and student-led seminar discussions emphasized. (Spring Odd Years)
- 655. Seminar in History and Political Science for Teachers.** Credit 3 hours. An intensive introduction to the sources, professional literature, and subject matter used in teaching history and political science at the middle and high school levels. May not be applied to the M.A. in History degree by students in the Thesis Option. May be repeated but Department Head approval is required to count for more than 3 hours to count toward the M.A. in History. (Varies)
- 698. Seminar in Selected Topics in History.** Credit 3 hours. An intensive survey of a topic selected by the instructor. Topics and instructors will vary from semester to semester. Study of primary sources and the historical literature, with student presentations and student-led seminar discussions emphasized. May be repeated but Department Head approval is required to count more than 3 hours toward the M.A. in History degree. (Varies)

770. Thesis Research and Thesis. Credit 1-6 hours each semester, with six hours needed for graduation. The student must enroll in the thesis course each semester the thesis is in progress. The thesis is graded Pass-Fail. (Varies)

Honors (HONR)

191. Interdisciplinary Arts. Credit 3 hours. Prerequisite: Active status in the University Honors Program; or a minimum ACT composite of 20 for non-Honors students with less than 12 hours; or a minimum cumulative GPA of 2.75 for non-Honors students with 12 hours or more. The course emphasizes processes of both artistic creation and critical analysis in dance, drama, music, and the visual arts. It can be used to satisfy a 3-hour arts requirement in most curricula. (Fall)

200. Interdisciplinary Honors Mentoring. Credit 1 hour. Prerequisites: Active status in the University Honors Program and permission of the Honors Director. This hands-on course provides leadership training to continuing Honors Program students selected to work as mentors for the first-year seminar, living-learning communities, and/or ambassador program. May be repeated for up to 3 hours credit. (Fall, Spring)

300. Senior Thesis. Credit 1 hour. Prerequisite: Completion the previous semester of a thesis project in a 300-400 level 3-hour Independent Study or other course in the student's major approved by the student's Department Head and the Honors Director. Limited to Honors students, Senior Thesis is a required course for an Honors Diploma. Each student pursuing an honors diploma must confer with the Honors Director in the junior year for approval of a thesis course to take in the fall semester of the senior year. Senior Thesis is a public forum scheduled in the spring for presentation of thesis projects completed the previous semester. On dates assigned by the Honors Director, students present results of their thesis projects and attend presentations by other honors students. (Summer, Fall, Spring)

304. Ideas and Issues in Pure and Applied Sciences. Credit 3 hours. Prerequisite: Sophomore standing with a GPA of 3.0 or higher, or consent of Honors director. Through reading, discussion, and oral presentation students will examine the many facets of a current or historical topic from the perspective of the Pure and Applied Sciences. (Fall Even Semesters)

305. Ideas and Issues in Social and Behavioral Sciences. Credit 3 hours. Prerequisite: Sophomore standing with a GPA of 3.0 or higher, or consent of Honors Director. Through reading, discussion, and oral presentations students will examine the many facets of a current or historical topic from the perspective of the Social and Behavioral Sciences. HONR 305 may be used to satisfy a "Social Studies" or "Social Science" elective in any curriculum. (Spring Odd Year Semesters)

311. Ideas in Conflict I: Ancient and Classical. Credit 3 hours. Prerequisite: Sophomore standing with 2.75 or higher GPA; consent of the instructor for students with lower than 2.75 GPA. An interdisciplinary seminar for Honors and non-Honors students. Through reading, discussion, and oral reports students examine world-transforming debates found in texts of rhetoric, literature, and moral and political philosophy in the Greek, Roman, and Biblical eras. Concepts and language having to do with justice understood as a human virtue and a condition for social harmony are a primary emphasis of this course. HONR 311 may be substituted for a 100-300 communication course with approval of the Head of the Department in which a student is majoring; or it may be used to satisfy a "Humanities," "Social Studies," or "Social Science" elective in any curriculum. (Fall Odd Year Semesters)

312. Ideas in Conflict II: Medieval and Renaissance. Credit 3 hours. An interdisciplinary seminar for Honors and non-Honors students. Prerequisite: Sophomore standing with 2.75 GPA. Through reading, discussion, and oral reports students examine world transforming debates found in texts of philosophy, theology, politics, and foundations of science in the medieval through early modern eras. Concepts of nature understood in ethical, political, and scientific terms are a primary emphasis of this course. HONR 312 may be substituted for a 300-400 level philosophy course with approval of the Head of the Department in which the student is majoring; or it may be used to satisfy a "Humanities," "Social Studies," or "Social Science" elective in any curriculum. (Spring Even Year Semesters)

313. Ideas in Conflict III: Enlightenment and Romantic. Credit 3 hours. An interdisciplinary seminar for Honors and non-Honors students. Prerequisite: Sophomore standing with a 2.75 or higher GPA; consent of the instructor for students with lower than 2.75 GPA. Through reading, discussion, and oral reports students examine world-transforming debates found in texts of political philosophy, history of ideas, literature, and theory of education. Ideas and terminology having to do with political right, social obligation, and individual development and responsibility are a primary emphasis of this course. HONR 313 may be substituted for a 200-400 political science course with approval of the Head of the Department in which the student is majoring; or it may be used to satisfy a "Humanities," "Social Studies," or "Social Science" (Fall Even Year Semesters)

314. Ideas in Conflict IV: Twentieth Century. Credit 3 hours. An interdisciplinary seminar for Honors and non-Honors students. Prerequisite: Sophomore standing with 2.75 or higher GPA; consent of the instructor for students with lower than 2.75 GPA. Through reading, discussion, and oral reports students examine world-transforming debates found in texts of psychology, philosophy, science, and literature of major significance in our own time. Concepts of the human psyche as a native endowment and a product of culture are a primary emphasis of this course. HONR 314 may be substituted for a psychology course with approval of the Head of the Department in which the student is majoring; or it may be used to satisfy a "Humanities," "Social Studies," or "Social Science" elective in any curriculum. (Spring Odd Year Semesters)

401. Ideas and Issues in Arts and Humanities. Credit 3 hours. Prerequisite: Sophomore standing with a GPA of 3.0 or higher, or consent of Honors Director. Through reading, discussion, and oral presentations students will examine the many facets of a current or historical topic from the perspective of the Arts and Humanities. HONR 401 may be used to satisfy a "Humanities" elective in any curriculum. (Fall Odd Year Semesters)

402. Ideas and Issues in Business and Finance. Credit 3 hours. Prerequisite: Sophomore standing with a GPA of 3.0 or higher, or consent of Honors Director. Through reading, discussion, and oral presentation students will examine the many facets of a current or historical topic from the perspective of Business and Finance. (Spring Even Year Semesters)

441. Interdisciplinary Independent Study. Credit 3 hours. Prerequisite: Active status in the University Honors Program or, for non-Honors students, a minimum cumulative GPA of 2.75. A student pursues independent study of an interdisciplinary topic under the guidance of one or more professors. Advance approval by the professor(s) is required. The course topic must not duplicate existing departmental Independent Study courses. A student may take no more than 9 hours for credit in 300 and 400-level Honors interdisciplinary courses. (Varies)

Horticulture (HORT)

301. Introductory Soils. Credit 4 hours. Prerequisites: CHEM 122/124. Formation, chemical properties, physical properties, classification, and conservation of soils. Three hours of lecture and two hours of laboratory per week. (Varies)

328. Plant Propagation. Prerequisites: GBIO 151 and GBIO 153, and Junior Standing, or permission of the Department Head. A study of the asexual and sexual processes in the propagation of herbaceous and woody plants. Two hours of lecture and two hours of laboratory per week. (Varies)

410. Fruit, Nut, and Vegetable Production. Credit 3 hours. Principles and practices in the production and marketing of fruit, nut and vegetable crops. Three hours of lecture per week. (Varies)

412. Turf Management. Credit 3 hours. Prerequisites: G BIO 151 and G BIO 153, and Junior Standing, or permission of the Department Head. Establishment and management of turf of residential and commercial sites; includes weeds, insects, disease identification and control. Three hours of lecture per week. (Varies)

424. Arboriculture. Credit 3 hours. G BIO 151 and G BIO 153 and Junior Standing, or permission of Department Head. Care of ornamental trees in the urban environment including pruning, bracing, transplanting, and fertilization. Three hours of lecture per week. (Varies)

426. Coastal Plant Production. Credit 3 hours. Prerequisites: G BIO 151 and G BIO 153 and Junior Standing, or permission of Department Head. The production, propagation and care of wetland plants for the purpose of coastal wetland restoration. Two hours of lecture and two hours of lab. (Varies)

428. Organic Gardening. Credit 3 hours. Prerequisites: G BIO 151 and G BIO 153 and Junior Standing, or permission of Department Head. Principles, production practices, maintenance, harvesting and marketing of organically and traditionally homegrown vegetables. Three hours of lecture per week. (Varies)

Human Development and Family Studies (HDFS)

100. Orientation to Human Development and Family Studies. Credit 1 hour. An orientation to the field of human development and family studies including knowledge base and career opportunities. (Varies)

302. Family and Individual Development Over the Lifespan. [FCS] Credit 3 hours. A study of how families and individuals' function, with emphasis on family systems and interpersonal relationships over the lifespan. (Fall, Spring)

304. Parenting: Issues and Education. [FCS] Credit 3 hours. Survey of contemporary issues in parenting, problems of parents, and methods and materials in education. (Summer, Fall, Spring)

308. Fatherhood. [FCS] Credit 3 hours. Exploration of the biological, cultural, and psychosocial roles of fathers across the lifespan. Emphasis on establishing, maintaining, and strengthening relationships between fathers and their children. (Varies)

320. Infant and Toddler Development. [FCS] Credit 3 hours. A study of infant and toddler growth and development from conception to age three with an emphasis on the relationships among the child and their family and society. (Fall, Spring)

321. Child Development. [FCS] Credit 3 hours. Prerequisite: Sophomore standing. A study of the development of the child from prenatal life through five years. Emphasis on constructive methods of guidance. (Fall, Spring)

322. Middle Childhood and Adolescent Development. [FCS] Credit 3 hours. Prerequisites: HDFS 302 or 321 and Sophomore standing. Principles of development and guidance of children six years of age through adolescence. Emphasis on various aspects of growth and their interrelationship to family life and society. (Summer, Fall, Spring)

371. Family Finance and Consumer Education. [FCS] Credit 3 hours. Prerequisite: Junior standing or approval of the Department Head. A study of personal and family finance with emphasis on management in relation to goals and resources and the application of these principles to households. Consumer education concepts, resources, and programs. (Summer, Fall, Spring)

412. Family Stress and Coping. [FCS] Credit 3 hours. Prerequisite: HDFS 302. The study of family functioning and resiliency during times of normal and non-normative stress. (Fall, Spring)

430. Current Trends in Family and Social Policy. [FCS] Credit 3 hours. Prerequisite: HDFS 302. The study of the current state of the family, family trends, and the implications for family policy with emphasis on the process of policy formation, implementation, and evaluation. (Fall, Spring)

441. Family Relations. [FCS] Credit 3 hours. Prerequisite: Junior standing or approval of the Department Head. A study of family cycles, relationships within families, and the personal and social factors which affect family relations. (Summer, Fall, Spring)

445. Family Life Education. [FCS] Credit 3 hours. Prerequisites: HDFS 302, 321, 346, 441, PSYC 220 or SW 360, and HUSC Majors only. The study of the roles and responsibilities of family life education methodology including principles and practice for effective outreach. (Fall, Spring)

448. Communication, Aging and Social Interaction. [FCS] Credit 3 hours. Prerequisite: HDFS 302 or permission of Department Head. Current understanding of the role of language and communication in social, cultural, and family dynamics across the lifespan. In particular, students will consider issues that may arise due to communication breakdown when interacting with older adults within the social, family, workplace, and healthcare settings. Students will be required to complete a capstone project based on their particular area of study. (Fall, Spring)

475. Family Resource Management. [FCS] Credit 3 hours. A study of the decisions individuals and families make about developing and allocating resources including time, money, material assets, energy, friends, neighbors, and space, to meet their goals. (Fall, Spring)

487. Field Experience in Human Development and Family Studies. [FCS] Credit 3-12 hours. Prerequisites, HDFS 302, HUSC 346, HUSC Major, a cumulative GPA of 2.0 or higher, and permission of the Department Head. Credit hours to be decided by agreement between the Department Head and the student. Understanding the practice, administration and promotion of the principles of human development and family studies through supervised work experience. This course may be repeated for a total of 12 credit hours. (Varies, Fall, Spring)

497. Applied Research in Human Sciences. [FCS] Credit 3 hours. Prerequisites: MATH 241 and HDFS 302 or permission of the department head. Advanced application of social science research methods investigating questions related to the health and well-being of children and families. (Fall, Spring)

498. Interactive Physical Activity Lab for Children and Youth. [FCS] Credit 3 hours. Prerequisites: MATH 241, PSYC 220 or SW 302, and HDFS 302 or permission of the Department Head. This course focuses on the development and implementation of motivational strategies to increase physical fitness and well-being of children and youth. Emphasis is on the application of the research process, including hands-on data collection and analysis. Students will spend a minimum of 3 hours per week working with children in the interactive physical activity lab (I-PAL). (Fall, Spring)

Humanities (HUM)

200. Cultural Studies in the Discipline. Credit 3 hours. A variable content course. An in-depth study of a discipline-specific topic conducted as part of a study abroad program. This independent study course may require readings, research, class attendance, and/or discussion as part of the requirements. May be repeated for 9 hours credit as topics vary. (Varies)

314. The Civilization of Europe. Credit 3 hours. A study of the history, culture, art, architecture, etc., of Western Europe. Attention to and social lectures on particular persons and places of historic importance, written and oral reports. Comprehensive final examinations to cover readings, lectures, special reports on historical personages involved. (Varies)

401/501. Special Topics in Humanities. Credit 3 hours. Prerequisite: Junior standing or permission of Department Head. A variable content course focusing on selected topics in Humanities, such as second language acquisition or discourse analysis. The content will change from semester to semester and will be advertised in advance. May be repeated twice for a total of six credit hours as topics vary. (Varies)

Human Sciences (HUSC)

252. Special Topics in Human Sciences. [FCS] Credit 3 hours. Consideration of fundamental concepts within the various subject matter areas of human sciences related to living in a contemporary society. May be repeated for up to six hours. (Varies)

346. Professional Development in the Human Sciences. [FCS] Credit 3 hours. Introduction to the roles and responsibilities of professionals in the field of Human Sciences with emphasis on the application of skills. (Summer, Fall, Spring)

400. Independent Study. [FCS] Credit 3 hours. Prerequisites: HUSC 346, Junior standing, submission of a proposal for study, and permission of the department head. An in-depth study of topics appropriate to the Human Sciences. Student works with an instructor on a one-to-one basis. May be repeated up to 6 credit hours. New materials are investigated in each repeat. (Varies)

401/501. Theories of Behavior Change in the Human Sciences. Credit 3 hours. Prerequisite: Permission of the department head. A study of the key dimensions of different theories of behavior change commonly used in human sciences and how those theories may be applied in various settings. (Varies)

442/542. Special Topics in Human Sciences. [FCS] Credit 3 hours. Prerequisite: 18 semester hours in Human Sciences or permission of the department head. Individual or group study of selected topics within the discipline of the human sciences. May be repeated for up to 6 credit hours. (Varies)

International Baccalaureate (IB)

400. Global Curriculum Design: Diploma Programme. Credit 3 hours. Prerequisite: Full SARTE status and completed interview with the IBEC coordinator. This course focuses on developing practical knowledge of how the IB programs are designed, interpreted and implemented. This lays the foundation for how the programs are delivered and assessed in support of student learning. International education students will gain an understanding of the IB's program curriculum frameworks and recognize that to develop knowledge, understanding, skills, and attitudes in their students, the focus must be on the learner and learning. (VARIES)

405. Global Curriculum Processes: Primary Years Programme. Credit 3 hours. This course is part of the sequence leading to the International Baccalaureate (IB) Educator Certificate in Teaching and Learning: Primary Years Programme (PYP). International educators recognize that to develop knowledge, understanding, skills, and attitudes in their students, the focus must be on the learner and learning. This course focuses on developing practical knowledge of how the IB programmes are designed, interpreted, and implemented. This lays the foundation for how the programmes are delivered and assessed in support of student learning. Demonstrating an understanding of the IB's programme curriculum frameworks and the processes that underpin them is thus an integral part of the knowledge that an IB teacher should possess. (Varies)

415. International Teaching and Learning: Primary Years Programme. Credit 3 hours. Prerequisite: Permission of Department Head. This course is part of the sequence leading to the International Baccalaureate (IB) Educator Certificate in Teaching and Learning: Primary Years Programme (PYP). This course focuses primarily on developing understanding of the relationship between teaching and learning, and the various teaching strategies that can be demonstrated to be effective in implementing the Primary Years Programme. Students in this course will develop their capacity to interpret and adopt appropriate teaching strategies and techniques instrumental in ensuring that programme learning objectives are achieved. (Varies)

425. Global Assessment of Learning: Primary Years Programme. Credit 3 hours. Prerequisite: Permission of Department Head. This course is part of the sequence leading to the International Baccalaureate (IB) Educator Certificate in Teaching and Learning: Primary Years Programme (PYP). The need for assessment to be an integral part of the curriculum and continual part of the learning process is essential if learning and understanding is to be effectively supported. This course is concerned with developing understanding of the assessment practices required and recommended by the relevant IB Programme. Considerable emphasis is placed on participants being able to demonstrate knowledge and understanding of assessment practices both in terms of formative and summative processes. (Varies)

435. Professional Learning: Primary Years Programme. Credit 3 hours. Prerequisite: Permission of Department Head. This course is part of the sequence leading to the International Baccalaureate (IB) Educator Certificate in Teaching and Learning: Primary Years Programme (PYP). This course focuses on the central tenet of teacher professionalism and the need to engage in critical self-reflection and improvement. Reflection is an essential part in the process of reviewing, and consequently amending, practice – itself a requisite in the ever-changing context of IB teaching and learning. In the area of international education, where affecting attitudinal and behavioral change is valued as highly as developing knowledge and skills, the need to review practice and to evaluate its success in achieving appropriate student learning outcomes is particularly salient. Teachers understanding of IB programme practices and their role in promoting international education. It is through the process of self and collegial reflection that teachers are able to develop and articulate a personal, independent and critical stance in relation to contrasting perspectives on issues, policies and developments in the IB programmes and thus able to contribute to a lasting impact on learning. (Varies)

600. Global Curriculum Design: Diploma Programme. Credit 3 hours. Prerequisite: Permission of Department Head. This course focuses on developing practical knowledge of how the IB programs are designed, interpreted, and implemented. This lays the foundation for how the programs are delivered and assessed in support of student learning. International education students will gain an understanding of the IB's program curriculum frameworks and recognize that to develop knowledge, understanding, skills and attitudes in their students, the focus must be on the learner and learning. (Varies)

605. Global Curriculum Processes: Primary Years Programme. Credit 3 hours. This research-based, which places considerable emphasis on knowledge of the IB literature and on-going research, course is part of the sequence leading to the International Baccalaureate (IB) Educator Certificate in Teaching and Learning: Primary Years Programme (PYP). International educators recognize that to develop knowledge, understanding, skills, and attitudes in their students, the focus must be on the learner and learning. This course focuses on developing practical knowledge of how the IB programmes are designed, interpreted, and implemented. This lays the foundation for how the programmes are delivered and assessed in support of student learning. Demonstrating an understanding of the IB's programme curriculum frameworks and processes that underpin them is thus an integral part of the knowledge that an IB teacher should possess. Candidates will conduct an in-depth semester project exploring international-mindset. (Varies)

610. International Teaching and Learning: Diploma Programme. Credit 3 hours. Prerequisite: IB 600 or permission of Department Head. This course focuses primarily on developing understanding of the relationship between teaching and learning, and the various teaching strategies that can be demonstrated to be effective in implementing the Diploma Programme. While knowledge of curriculum processes is essential, the capacity to interpret this by adopting appropriate teaching strategies and techniques is instrumental in ensuring the programme learning objective are achieved. Can be taken concurrently with IB 600. (Varies)

615. International Teaching and Learning: Primary Years Programme. Credit 3 hours. Prerequisite: Permission of Department Head. This research-based, which places considerable emphasis on knowledge of the IB literature and on-going research, course is part of the sequence leading to the International Baccalaureate (IB) Educator Certificate in Teaching and Learning: Primary Years Programme (PYP). This course focuses primarily of developing understanding of the relationship between teaching and learning, and the various teaching strategies that can be demonstrated to be effective in implementing the Primary Years Programme. Students in this course will develop their capacity to interpret and adopt appropriate teaching strategies and techniques instrumental in ensuring that programme learning objectives are achieved. Candidates will conduct an in-depth semester project exploring the role of collaboration and reflection in the development of authentic IB Primary Years Programme transdisciplinary learning. (Varies)

620. Global Assessment: Diploma Programme. Credit 3 hours. Prerequisites: IB 600 and 610. This course is concerned with developing understanding of the assessment practices required and recommended by the relevant IB Programme. Considerable emphasis is placed on participants being able to demonstrate knowledge and understanding of assessment practices both in terms of formative and summative processes. The need for assessment to be an integral part of the curriculum and continual part of the learning process is essential if learning and understanding is to be effectively supported. (Varies)

625. Global Assessment and Learning: Primary Years Programme. Credit 3 hours. Prerequisite: Permission of Department Head. This research-based, which places considerable emphasis on knowledge of the IB literature and on-going research, course is part of the sequence leading to the International Baccalaureate (IB) Educator Certificate in Teaching and Learning: Primary Years Programme (PYP). The need for assessment to be an integral part of the curriculum and continual part of the learning process is essential if learning and understanding is going to be effectively supported. This course is concerned with developing understanding of the assessment practices required and recommended by the relevant IB Programme. Considerable emphasis is placed on participants being able to demonstrate knowledge and understanding of assessment practices both in terms of formative and summative processes. Candidates will conduct an in-depth semester project exploring the purpose of assessment and its relationship to and implications for planning, teaching, and learning. (Varies)

630. Professional Learning: Diploma Programme. Credit 3 hours. Prerequisite: IB 620 or permission of Department Head. This course recognizes the capacity and commitment of participants to engage in collaborative learning and collegial activity in support of the aims and objectives of the IB programs. Such collaborative engagement can also present many opportunities and possibilities for professional learning with fellow international educators, within their schools and throughout the world. Such professional engagement can enable teachers to develop their own understanding, contribute to the learning of others, and participate as active members of a global community of professional learners, in the development and understanding of IB standards and practice. Can be taken concurrently with IB 620. (Varies)

635. Professional Learning: Primary Years Programme. Credit 3 hours. Prerequisite: Permission of Department Head. This research-based, which places considerable emphasis on knowledge of the IB literature and on-going research, course is part of the sequence leading to the International Baccalaureate (IB) Educator Certificate in Teaching and Learning: Primary Years Programme (PYP). This course focuses on the central tenet of teacher professionalism and the need to engage in critical self-reflection and improvement. Reflection is an essential part in the process of reviewing, and consequently amending, practice – itself a requisite in the ever-changing context of IB teaching and learning. In the area of international education, where affecting attitudinal and behavioral change is valued as highly as developing knowledge and skills, the need to review practice and to evaluate its success in achieving appropriate student learning outcomes is particularly salient. Teachers reflecting individually and collaboratively not only model good learning strategies to their students, but also enhance their own understanding of IB programme practices and their role in promoting international education. It is through the process of self and collegial reflection that teachers are able to develop and articulate a personal, independent and critical stance in relation to contrasting perspectives on issues, policies and developments in the IB programmes and thus able to contribute to a lasting impact on learning. Candidates will conduct an in-depth semester project exploring current innovations and ideas in the area of international education. (Varies)

Industrial Technology (IT)

100. Introduction to Technology. Credit 3 hours. The evolution of technology in industry and its impact. This course addresses the concentrations offered in the industrial technology program, focusing on employment opportunities, career paths, technological growth, salaries and job descriptions as well as technical, ethical and professional requirements. The three concentrations of the Industrial Technology manufacturing curriculum will be defined and emphasized throughout the course. (Fall, Spring)

111. Engineering Drafting with Computer Assisted Design. Credit 3 hours. Study of terminology, concepts, theories, and fundamental skills necessary to understand and operate a CAD system, and specifically using the system to graphically communicate through the basic elements of drafting, including orthographic projection, sectioning, dimensioning, isometric and oblique pictorial representation, standard symbols, simple auxiliary views, precision and tolerancing. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

112. Descriptive Geometry. Credit 3 hours. Prerequisite: IT 111. Industrial and engineering application of design concepts involving the uses of points, planes, and lines; spatial relationships. The application of primary, secondary, and successive auxiliaries used in the various engineering disciplines. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Spring)

202. Fundamentals of Supervision. Credit 3 hours. Prerequisite: Sophomore standing. A basic study of the role of the supervisor in modern organizations, including the basic knowledge required to effectively supervise, interact with and motivate employees of various demographics in a variety of current work environments. (Spring)

205. Preventive/Predictive Maintenance and Supervision. Credit 3 hours. Prerequisite: IT 100. A study of the methods required to develop, implement, and supervise a comprehensive preventive/predictive maintenance management program to minimize equipment and system breakdown. Major topics include methods of monitoring critical equipment and systems, predicting machine failures, scheduling equipment maintenance, and the use of computer software in preventive/predictive maintenance programs. (Fall)

209. Special Topics. Credit 3 hours. Organized class or individual instruction. May be repeated when topics vary for a maximum of six credit hours. (Varies)

211. Codes and Other Standards. Credit 3 hours. Study of the structure, scope, intent, and application of commonly referenced U.S. and International industrial codes and standards used in industrial design/engineering, fabrication, and construction, including procedure and personnel qualification/certification, product acceptance standards, QA and QC requirements. Regulatory implications of codes adopted by states for the purpose of regulating the design, fabrication, and/or operation of fired and unfired pressure vessels will also be studied. Codes and standards published by AWS, ASME, API, IIW, ASTM, ASNT, and others will be used during the course to illustrate and instruct the students in the principles of code compliance and application. (Fall, Spring)

215. 3D Rendering Using CAD Software. Credit 3 hours. Prerequisites: IT 112. An introductory study of terminology, concepts, theories, and fundamental skills necessary to understand and operate a 3D CAD system. Students will learn how to create three-dimensional models inside a

computer software system and use that model to create professional Engineering and Technical drawings. Two hours of lecture and two hours of laboratory a week. A laboratory fee is required for this course. (Fall)

221. Nondestructive Testing. Credit 3 hours. Study of the theory, limitations, and practice of Nondestructive Testing methods including visual, dye penetrant, magnetic particle, radiography, acoustic emission, ultrasonic, phased array ultrasonic, PMI, magnetic resonance, metrology, and others. Course will include theory of procedure development, and NDE personnel qualification and certification in accordance with American Society for Nondestructive Testing (ASNT) and American Welding Society (AWS) as well as principles of code compliance and application. A laboratory fee is required for this course. (Fall, Spring)

233. Introduction to Basic Electricity and Electronics. Credit 3 hours. Prerequisite: MATH 161. The fundamental concepts of electricity and electronics that involve direct current (dc), alternating current (ac), series and parallel resistive circuits, network analysis, magnetism, inductance, capacitance, transformers, motors, residential wiring, electronic components, and various types of test equipment found in industry. Two hours of lecture and two hours of laboratory problem solving per week. A laboratory fee is required for this course. (Fall, Spring)

236. Advanced Electronics. Credit 3 hours. Prerequisite: IT 233. The study of semi-conductor electronics beginning with the diode, progressing through transistors, amplifiers, JFETs, MOSFETs, OP-AMPS, power supplies, oscillators, thyristors, and integrated circuits (ICs). Two hours of lecture and two hours of laboratory problem solving per week. A laboratory fee is required for this course. (Fall, Spring)

241. Manual Welding. Credit 3 hours. Practical applications of manual cutting, fabrication, and welding process technology to complete a fabricated project. Students will be introduced to Shielded Metal Arc Welding, Oxy-Fuel Cutting, Oxy-Fuel Welding, and Gas Tungsten Arc Welding which will provide for a working knowledge suitable for supervision of welding practitioners. This course will use Welding Procedure Specifications (WPS) and project designs (one structural and one pipe) provided by the instructor, to improve practical fabrication and welding skills of the student. Each project to be assessed for ability to meet all requirements of the project design as well as the quality of the fabrication and welding required to complete the project. A laboratory fee will be required for this course. (Fall)

242. Materials and Processes. Credit 3 hours. Prerequisite: IT 100. An introductory study of materials and processes as applied to industrial materials with special emphasis on metals, plastics, woods and ceramics. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Summer, Fall, Spring)

256. Principles and Metallurgy of Welding. Credit 3 hours. Theory and practice in oxy-fuel gas and electric arc welding processes with emphasis on preparation of joints, manipulation in various weld positions, and the selection and use of welding accessories and equipment. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

262. Principles of Technology. Credit 3 hours. Prerequisite: Sophomore standing or permission of the Department Head. A course designed to help students perceive the interaction of science, technology, and society. Scientific theories and law are merged with technological skills through the study of mechanical, fluid, electrical, and thermal systems found in technological devices. Through experimentation, students learn that technology is the application of science to the solution of practical problems. Two hours of lecture and two hours of laboratory per week. (Varies)

264. Industrial Fluid Power. Credit 3 hours. Prerequisite: IT 111 and MATH 161. Theory and practice of hydraulic and pneumatic power for industrial production. Functional examination of units: pumps, valves, boosters, etc. Simulated systems used to emphasize design and other industrial materials. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Summer, Fall, Spring)

281. Industrial Design using Emerging Technologies. Credit 3 hours. Prerequisite: IT 215. An advanced study of emerging design technologies critical to manufacturing, engineering, and industrial practices. Students will develop technical skills necessary for using design equipment such as 3D printers, 3D scanners, CNC machines, and other developing technologies. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Spring)

291. Industrial Internship. Credit 3 hours. Prerequisites: Sophomore standing and permission of the Department Head. This course is a cooperative venture between Southeastern Louisiana University and a variety of industries. It combines the student's academic and technical preparation at the university with actual on-the-job experiences in approved modern industrial enterprises. For three (3) hours credit a student must be employed a minimum of 20 hours per week during a regular semester and a minimum of 40 hours per week during the summer. Grades assigned on a Pass/Fail basis only. (Summer, Fall, Spring)

292. Independent Study. Credit 3 hours. Prerequisites: A "B" average or recommendation by the faculty and approval of the Department Head. A course devoted to research and development through laboratory experimentation of selected problems of special interests. Enrollment limited. Grades assigned on a Pass/Fail basis only. (Varies)

308. Supervision of Production Planning and Controlling. Credit 3 hours. Prerequisite: Junior or Senior Standing. A problem-based approach to the organization, control, and supervision of production planning. The course also addresses reliability centered maintenance programs and automatic data collection relative to production and inventory control. (Fall)

309. Special Topics. Credit 3 hours. Organized class or individual instruction. May be repeated when topics vary for a maximum of six credit hours. (Varies)

312. Principles and Applications of Industrial Codes and Standards. Credit 3 hours. Prerequisite: IT 256. Study of the industrial codes and standards used in industrial design/engineering, fabrication, and construction around the world. This course will include procedure and personnel qualification/certification, product acceptance standards, QA and QC requirements. Students will develop an understanding of the structure, scope, intent, and application of commonly used codes and standards. Codes and standards published by AWS, ASME, API, IIW, ASTM, ASNT, and others will be used during the course to illustrate and instruct the students in the principles of code compliance and application. Two hours of lecture and 2 hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

322. Materials Science and Metallurgy. Credit 3 hours. Prerequisite: IT 242. Study of the major materials used in industrial engineering, considering structure and properties, testing methods (destructive and nondestructive), and microscopic examination. Two hours of lecture and two hours of laboratory a week. A laboratory fee is required for this course. (Fall, Spring)

331. Industrial Control Systems. Credit 3 hours. Prerequisites: IT 233. The study and the application of microprocessor-based control systems in industrial operations. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Spring)

333. Fundamentals for Mechanical Design. Credit 3 hours. Prerequisite: ET 111 or IT 111. Study and applications of ANSI fundamentals for mechanical product design. Topics include engineering design process, 3D parametric modeling, working drawings prototyping, and geometric dimensioning and tolerancing pertaining to ASME Y14.5. Two hours of lecture and two hours of laboratory per week. (Spring)

341. Automatic and Semiautomatic Welding. Credit 3 hours. Prerequisite: IT 241. Practical applications of automatic and semiautomatic welding process technology to complete a fabricated project. Student will be introduced to Flux Core Arc Welding, Gas Metal Arc Welding, and Submerged Arc Welding which will provide for a working knowledge suitable for supervision of welding practitioners. Each project to be assessed for ability to meet all requirements of the project design as well as the quality of the fabrication and welding required to complete the project. A laboratory fee is required for this course. (Spring)

351. Machine Tool Technology. Credit 3 hours. Prerequisites: IT 111 and 242 or ET 111 and 283. Principles and practices of metal machining involving lathes, shapers, millers, planers, and precision grinders. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

381. Welding Joint Design. Credit 3 hours. Prerequisites: IT 211 and MATH 162 or MATH 175. Study of the theory and practice of determining code-compliant welding joint designs for pressure and vacuum retaining systems, structural systems, connections, weld profiles, and welding Symbology. Course will include use of static and dynamic considerations for weld efficiency, material thickness, and joining process selection to meet both owner and code considerations. This course will draw upon courses in design, code & standards, Engineering Materials and metallurgy, Nondestructive Testing, and welding/joining, previously completed by the student to provide a foundation for this course. A laboratory fee is required for this course. (Fall)

391. Industrial Internship. Credit 3-12 hours. Prerequisite: Permission of Department Head. Students receive on-the-job work experience with selected and approved industrial firms. Completion of all 100- and 200- level major courses are required before internship is taken. For three hours credit a student must be employed a minimum of 20 hours per week during a regular semester and a minimum of 40 hours per week during the summer semester. Course may be repeated for a maximum of 12 credit hours. Grades assigned on a Pass/Fail basis only. (Summer, Fall, Spring)

402. Industrial Supervision. Credit 3 hours. Prerequisites: IT 205 and credit for or enrollment in MGMT 351. The competencies and knowledge required of industrial supervisors to effectively manage production, groups and work teams in a dynamic workplace comprised of diverse populations. (Summer, Fall)

403. Senior Project CWI/CWS. Credit 3 hours. Prerequisites: Senior Standing and Department Head Approval. This Senior Project brings together previous courses completed by the student into a comprehensive look at professions in Inspection or Supervision. This course will use the American Welding Society Body of Knowledge in either Inspection or Supervision (Student's Choice) to blend previously completed courses for a strong understanding in Welding Inspection and Supervision. Each student completing this course will be expected to demonstrate a comprehensive knowledge of welding topics sufficient to be certified by AWS as either a CWI or CWS. (Varies)

405. Work Methods and Measurement. Credit 3 hours. Prerequisite: IT 351. A study of the work methods and measurement concepts and techniques that are common to modern industry, including productivity improvement, work methods, work measurement, labor reporting, ergonomics, incentives and alternative methods for increasing productivity. (Fall, Spring)

406. Facilities Planning and Design. Credit 3 hours. Prerequisite: IT 405. A study of principles, methods, and techniques for analyzing existing and proposed facilities to achieve improvements in productivity. Major topics include strategic facilities planning; plant location; product, process and schedule requirements; materials handling and costing. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

407. Six Sigma Industrial Quality. Credit 3 hours. Prerequisites: MATH 175 or 241 or permission of Department Head. An approach to quality that focuses on the improvement of processes. Topics include teams, strategic planning, cause-and-effect diagrams, Pareto diagrams, basic statistics, probability, control charts, project management, flow diagrams and failure modes and effects analysis. (Summer, Fall, Spring)

409. Special Topics. Credit 3 hours. Organized class or individual instruction. May be repeated when topics vary for a maximum of six credit hours. (Varies)

442. CAD/CAM/Robotics. Credit 3 hours. Prerequisites: IT 331, IT 351 and ET 202 or ET 212. A course designed to cover the application of Computer-Aided Design, Computer-Aided Manufacturing and robotics in modern industrial settings. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Fall)

444. Computer-Integrated Manufacturing (CIM). Credit 3 hours. Prerequisite: IT 442. This course will cover the integration of various automated systems and peripherals into a functioning and flexible manufacturing system. The interfacing of the central control computer and robot systems into a workable manufacturing cell will also be covered. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Spring)

492H. Research and Development. Credit 3 hours. Prerequisites: A "B" average or recommendation by the faculty and approval of the Department Head. An honors course devoted to research and development of selected problems. Course may be repeated for a total of six hours with no more than three hours in any one semester. Grades assigned on a Pass/Fail basis. (Fall)

625. Automated Design and Manufacturing. Credit 3 hours. Prerequisites: DDT 316, IT 442 or permission of the ISAT Coordinator. A study of design principles and rapid prototyping through solid model development. Students will develop solid models, convert them to machine tool software for code development and produce prototypes with CAM and 3-D printing. Two hours of lecture and two hours of laboratory work each week. (Varies)

Industrial Technology Education (ITE)

261. Transportation, Energy, Power Technology. Credit 3 hours. A study of modern transportation systems; energy-its sources, forms, and control; the conversion of energy into usable power through the various prime movers; and the impact of transportation, energy and power technology on our society.

272. Exploration of Construction Technology. Credit 3 hours. A broad-based systems-oriented course investigating all areas of the construction industry from planning to completion of light, heavy, industrial and civil construction, and the various careers associated with each area.

301. Technology and Society. Credit 3 hours. Prerequisite: Junior standing. A comprehensive study of technology and its effects on society.

302. Technology and Education Management. Credit 3 hours. Prerequisite: Junior standing. A study of the principles of office management and laboratory layout for technology education. Studies of student advising, student organizations, professional organizations and fund-raising techniques will also be conducted.

481. Materials and Methods of Curriculum Development. Credit 3 hours. Prerequisite: Junior standing. A study of curriculum and teaching materials, specialized equipment, and instructional methods utilized in technology education. The use of audio/video equipment, field trips, guest speakers, curriculum materials, and computers for technology education classroom/laboratories will be emphasized.

Integrated Science and Technology (ISAT)

201. Introduction to Interdisciplinary Science and Technology. Credit 3 hours. Prerequisites: Completion of 8 hours of science and Math 161 with a C or better. This course is designed to expose students to a wide variety of applications and careers in Science and Technology. It will also address the interdisciplinary nature of many modern-day topics. Lessons will assist students in exploring their abilities and goals to help them make informed decisions about degree and career planning. (Varies)

301. Professional Aspects of Scientific and Technical Careers. Credit 3 hours. Prerequisites: Major in ISAT and ISAT 201. This course will focus on a variety of topics and skills important in science and technology including scientific ethics, analytical methods, and economic issues.

Active engagement including individual and group discussions, problem-solving, case studies and student presentations will be emphasized. (Varies)

401. Professional Experience. Credit 1-3 hours. Prerequisite: Junior/ Senior standing and permission of ISAT coordinator. This course is designed to give students practical experience working with professionals in their chosen fields. The student is responsible for finding a professional with whom to work. Students earn 1 credit hour per 45 hours worked up to a maximum of 3 credit hours in a single semester. Course may be repeated more than once for up to 6 credit hours. (Varies)

600. Applied Science Seminar I. Credit 3 hours. Students in the ISAT program will be expected to take Applied Sciences Seminar I or Applied Sciences Seminar II during their first year in the ISAT program. The purpose of these seminars is to move the student toward formulating and initiating their ISAT capstone research project. Sharing of professional knowledge and expertise is expected to occur during the flow of classroom interactions. Guest speakers from various scientific and technical disciplines will be an integral part of these seminars. (Fall)

601. Applied Science Seminar II. Credit 3 hours. Prerequisite: Admission to ISAT program or approval of ISAT Coordinator. Students in the ISAT program will be expected to take Applied Sciences Seminar I or Applied Sciences Seminar II during their first year in the ISAT program. The purpose of these seminars is to move the student toward formulating and initiating their ISAT capstone research project. Sharing of professional knowledge and expertise is expected to occur during the flow of classroom interactions. Guest speakers from various scientific and technical disciplines will be an integral part of these seminars. (Spring)

605. Research and Development in Industrial Technology. Credit 3 hours. Prerequisites: ISAT 600 or ISAT 601 or concurrent enrollment in one of these courses. A course devoted to research and development through laboratory experimentation of selected problems of special interest. Course may be repeated for a total of six hours with no more than three hours in any one semester. (Varies)

615. Technology in Industry and Society. Credit 3 hours. Prerequisite: ISAT 600 or concurrent enrollment. This course investigates the historical evolution of technology for use in developing models appropriate for predicting future technological trends. The course provides technical understanding and communication skills needed across the disciplines of mathematics, chemistry and physics, industrial technology, and computer science. The course provides an understanding of the impact of technology on individuals, the global community and the environment. (Fall)

625. Applications of Computing in Science and Technology. Credit 3 hours. Prerequisite ISAT 600 or permission of the ISAT Coordinator. This course teaches students the Software Development Life Cycle & Agile Design (SDLC&AD) processes that are used in the industry to take a software idea through to the marketplace. Students will implement the process in their own software projects. (Fall, Spring)

635. Industrial Chemistry. Credit 3 hours. Prerequisite: ISAT 600 or concurrent enrollment. This course will be of a survey nature. It will introduce the student to the importance of the chemical industry to our economy as a whole and inform the student about the role of the chemist in typical plant operations such as quality control and assurance, safety compliance, and research and development. In addition, the student will become acquainted with some important industrial processes in the chemical industry. (Spring)

645. Mathematical Modeling for Science and Technology. Credit 3 hours. Prerequisite: ISAT 600 or concurrent enrollment. A study of typical operation research problems representative of various business and industrial organizations. These problems include production planning, distribution and scheduling, inventory control, project planning and control, simulation and forecasts of sales. (Fall)

651. Applied Knowledge Discovery for Engineering and Science. Credit 3 hours. Prerequisite: CMPS 340 or permission of ISAT Coordinator. The aim of this course is to teach theoretical foundation of discovering hidden patterns by means of advanced data mining algorithms. A basic background in statistics and probability and experience in the use of Python libraries are required. Topics include OLAP and multidimensional data analysis, association rule mining, genetic algorithms, clustering algorithms of hierarchical clustering, partitioning, density-based clustering, and grid-based clustering. In addition, this course aims to apply these algorithms to a real-life problem through a term project, which requires utilizing scientific libraries. The term project may be guided in team-teaching style such that a co-supervisor may lead the project as needed. (Varies)

655. Error and Risk Analysis. Credit 3 hours. Prerequisite: ISAT 600 or concurrent enrollment. This course will present the basic tools of error and risk analysis, with extensive use of case studies. The goal of this course is to provide students with the mathematical and physical problem-solving skills to attack similar data-driven problems and to understand the methods by which data are converted into information for decision making. (Fall)

665. Industrial Internship. Credit 3 hours. Prerequisite: ISAT 600, 601, 9 hours of lower level core courses and permission of the ISAT Coordinator. This course is a cooperative venture between Southeastern Louisiana University and a variety of business, industry, governmental, or educational institutions. It combines the student's academic and technical preparation at the University with actual on-the-job experiences. Grades assigned on a Pass/Fail basis only. (Varies)

670. Pattern Recognition and Applications for Engineering and Science. Credit 3 hours. Prerequisite: CMPS 340 or permission of ISAT Coordinator. This course covers the topics on theoretical foundation of advanced machine learning algorithms including reinforcement learning, statistical learning, kernel-based learning, ensemble learning, and Bayesian Network Model as well as discussion of real-life recognition problems such as biomedical signal recognition. A basic background in linear algebra, statistics and probability, and experience in use of Python libraries are required. In addition, this course aims to apply ML algorithms to a real-life problem utilizing a term project, which requires utilizing scientific libraries. The term project may be guided in team-teaching style such that a co-supervisor may lead the project as needed. (Varies)

690. Special Topics in Science and Technology. Credit 3 hours. Prerequisite: ISAT 600 or 601 or permission of the program coordinator. A study of a special topic in one of the disciplines covered by the ISAT program. This course may be taken up to four times for credit if different topics are studied. (Varies)

770. Thesis. Credit 1-6 hours each semester with 6 hours needed for graduation. Prerequisites: ISAT 600, 601 and approval of Program Coordinator. The thesis will investigate a significant interdisciplinary topic centered in the area of the student's concentration. The results must provide a significant contribution to the knowledge base in the discipline. The thesis is graded Pass/Fail. The student must enroll in the thesis course each semester that the thesis is in progress. (Varies)

771. Research Project. Credit 1-6 hours each semester with 6 hours needed for graduation. Prerequisites: ISAT 600, 601 and approval of Program Coordinator. Students will design and implement a research project. Research projects will investigate a significant interdisciplinary, applications-oriented topic centered in the area of the student's concentration. The research project is graded Pass/Fail. The student must enroll in the research project course each semester that the research is in progress. (Varies)

Italian (ITAL)

101. Elementary Italian I. Credit 3 hours. The beginning course for students with no knowledge of Italian. All appropriate elements of basic language learning are utilized for the purpose of providing a foundation in the language and culture of Italy. Classwork supplemented by aural-oral drill in the language laboratory. Offered as the first of four sequential courses (101, 102, 201, 202) designed to provide an overall desired proficiency. (Fall, Spring)

102. Elementary Italian II. Credit 3 hours. Prerequisite: ITAL 101 or equivalent. Continuation of ITAL 101. (Fall, Spring)

- 201. Intermediate Italian I.** Credit 3 hours. Prerequisite: ITAL 102 or equivalent. Completion and review of basic elements of grammar. Introduction of reading material of moderate difficulty. (Fall, Spring)
- 202. Intermediate Italian II.** Credit 3 hours. Prerequisite: ITAL 201 or equivalent. A course with emphasis on proficiency in reading and continuation of grammar review. (Fall, Spring)
- 213. Art and Literature in the Italian Renaissance.** Credit 3 hours. A study of the art and literature of the Italian Renaissance with emphasis on Leonardo da Vinci and Michelangelo Buonarroti. Taught in English. (Varies)
- 311. Advanced Italian Grammar.** Credit 3 hours. Prerequisite: ITAL 202 or equivalent. Intensive study of grammar. Recommended for students with a minor in Italian and for others who wish to perfect their language skills. (Varies)
- 312. Advanced Italian Composition and Syntax.** Credit 3 hours. Prerequisite: ITAL 202 or equivalent. Descriptive and narrative compositions in Italian with emphasis on syntax and verb forms. Effective writing of letters and short reports will be stressed to develop business skills. Recommended for students with a minor in Italian and for others who wish to improve their language skills. (Varies)
- 332. Advanced Italian Conversation.** Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. Exercise in speaking Italian based on the intensive study of model conversation of specialized subjects. (Varies)
- 371. Studies of the Italian Cinema.** Credit 3 hours. The Italian cinema from the mid-40's to the present. A close analysis of the evolution of cinema in Italy with emphasis on the films and the strategies used by the director to tell a particular story as well as to portray aspects about Italian culture. (Varies)
- 381. Italian Civilization.** Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. Geography, history, literature, art, music, educational systems, economy of Italy. The introduction of culture and civilization of Italy. This course cannot be used to fulfill the foreign language requirement. (Varies)
- 423. Special Topics in Italian Studies.** Credit 3 hours. Prerequisite: ITAL 202 or permission of Department Head. A special topics course that offers a detailed analysis of a particular genre, movement, author, or topic. May be repeated twice for credit as topics vary. (Varies)

Kinesiology (KIN)

The Kinesiology and Health Studies Department recommends that each student obtain a medical examination and be covered by an adequate accident and hospital insurance policy before participating in any of the programs of the department.

- 120. Foundations of Kinesiology.** Credit 3 hours. This course explores Kinesiology as an academic discipline, and provides an overview of careers associated with the discipline. Concepts in the study of physical activity are introduced, including those in musculoskeletal anatomy, exercise physiology, fitness assessment, biomechanics, motor behavior, and sport/exercise psychology. (Fall, Spring)
- 201. Introduction to Health and Physical Education.** Credit 1 hour. For Health and Physical Education majors only. This course is an introduction to the health and physical education career path. Topics include professional development, lesson planning, pedagogical concepts, resources, and career preparation for health and physical education teachers. (Fall)
- 232. Introduction to Sport Management.** Credit 3 hours. This course is designed to prepare the individual for the academic and professional field of sport management. An introductory course concerned with the disciplinary foundations of sport and physical activity, opportunities available in various segments of the sport industry, and professional preparation and development. (Fall, Spring)
- 235. Foundations of Coaching.** Credit 3 hours. Special attention to issues related to the coaching field. Topics include but are not limited to developing a coaching philosophy, coaching constituents, team unity, sport psychology, legal issues, and the coach as administrator. (Fall, Spring)
- 251. Motor Development and Movement.** Credit 3 hours. Focuses on stage theories and developmental task analysis of motor skill acquisition. A study of motor development, movement and the child-centered approach to teaching movement in grades K-6. Develops understanding and skills concerning the broad concept of motor development across the life span. This course will provide competency-based clinical practice. (Spring)
- 270. Fitness Concepts and Application.** Credit 3 hours. Prerequisite: Sophomore standing. Introduces concepts of exercise and fitness and their application to the development of programs to enhance health and physical performance. Includes components of fitness, concepts of exercise physiology, fitness assessment, and the design of exercise programs for weight management, health, and performance enhancement. (Spring)
- 275. Anatomy and Anatomical Kinesiology.** Credit 3 hours. A study of basic anatomy and physiological principles with practical application to motor performance. Emphasis on analysis of motor performance and development of therapeutic exercise programs. (Fall, Spring)
- 276. Practicum in Sport Management.** Credit 3 hours. Prerequisites: Sophomore standing (30 or more hours), 2.0 grade point average. Provides student with sport management experience in an assignment approved by the instructor. Enrollment is limited to students majoring in Sport Management. (Fall, Spring)
- 300. Mitigating Risk and Minimizing Injuries in Athletic Competition.** Credit 3 hours. This course focuses on prevention and care of sports injuries and risk reduction in the sports arena. Special attention is given to factors related to liability and other legal issues associated with the coaching profession, as well as the recognition and appropriate response to injuries and illnesses common to sports. (Varies)
- 301. Coaching Baseball and Softball.** Credit 3 hours. Prerequisite: KIN 235 or permission of Department Head. Focuses on theory and methods of coaching baseball and softball. Includes rules of the sport, individual and team skills, offensive and defensive strategies, development of practice schedules and sport-specific training and conditioning. Expertise in sport is expected of students enrolling in the course. (Varies)
- 302. Coaching Basketball.** Credit 3 hours. Prerequisite: KIN 235 or permission of Department Head. Focuses on theory and methods of coaching basketball. Includes rules of the sport, individual and team skills, offensive and defensive strategies, development of practice schedules and sport-specific training and conditioning. Expertise in sport is expected of students enrolling in the course. (Varies)
- 303. Coaching Football.** Credit 3 hours. Prerequisite: KIN 235 or permission of Department Head. Focuses on theory and methods of coaching football. Includes rules of the sport, individual and team skills, offensive and defensive strategies, development of practice schedules and sport-specific training and conditioning. Expertise in sport is expected of students enrolling in the course. (Varies)
- 304. Coaching Volleyball.** Credit 3 hours. Prerequisite: KIN 235 or permission of Department Head. Focuses on theory and methods of coaching volleyball. Includes rules of the sport, individual and team skills, offensive and defensive strategies, development of practice schedules and sport-specific training and conditioning. Expertise in sport is expected of students enrolling in the course. (Varies)
- 305. Coaching Cross Country and Track and Field.** Credit 3 hours. Prerequisite: KIN 235 or permission of Department Head. Focuses on theory and methods of coaching track and field and cross country. Includes rules of the sport, individual and team skills, offensive and defensive strategies, development of practice schedules and sport-specific training and conditioning. Expertise in sport is expected of students enrolling in the course. (Varies)
- 306. Special Topics in Coaching.** Credit 3 hours. Selected topic in coaching that are not covered in existing courses. This course may be repeated as topics vary. (Varies)

310. Practicum in Sport Administration. Credit 2 hours. Prerequisite: KIN 232 or permission of Department Head. Practical application of sport management concepts and responsibilities. Requires a minimum of 160 contact hours per semester; 10 hours per week. (Fall, Spring)

313. Current Topics in Health and Physical Education. Credit 2 hours. Prerequisite: KIN 201. For Health and Physical Education majors only. This course covers current topics in health and physical education professional development, resources, career preparation, and content for the health and physical education state-mandated licensure exam. (Fall)

321. Motor Learning. Credit 3 hours. Prerequisite: Sophomore standing. Principles of motor learning and their application to teaching and learning motor skills. Includes stages of learning, modeling, verbal instructions, feedback, issues of practice scheduling, and theories of motor control. (Fall, Spring)

332. Sport Information and Media Relations. Credit 3 hours. Prerequisite: ENGL 322, Junior Standing or permission of the Department Head. The course is designed to introduce students to the role of effective communication in the sport industry. The nature and function of communication will be examined in a variety of settings. Emphasis will be placed on interpersonal communications, public relations, mass media relations, media promotion techniques and innovative technology within the sport industry. (Fall)

333. Ethics and Governance in Sport. Credit 3 hours. Prerequisite: Junior Standing or permission of the department head. A survey of major ethical theories and how they apply in the context of sport and the major governing bodies within the sport industry. An examination of the reasons behind rules and in-depth analysis of the structure of sports' major governing bodies. (Spring)

334. Social Aspects of Sport. Credit 3 hours. Prerequisite: Junior Standing. This course is designed to provide an introduction to sociological issues, practices and phenomena associated with sport. Course content explores such areas as social theories, the social significance of sport in society, social problems related to sport, the interaction of sport and other social institutions, and international cultures and sport. (Fall, Spring)

335. Special Topics in Sport Management. Credit 3 hours. Prerequisite: Junior Standing. May be repeated one time as topics vary. Course identified by description each semester offered. This course provides an opportunity for in-depth study of selected topics in sport management. (Varies)

351. Physical Education in the Elementary School. Credit 3 hours. Prerequisites: Full SARTE status and KINL 221. Application of knowledge and theory to the development of physical education curriculum and instruction for children in the elementary school. The course includes competency-based clinical practice in the elementary school each week. Two hours lecture, two hours laboratory a week. (Spring)

362. History of Sport and Physical Education. Credit 3 hours. Historical development of sport and physical education from ancient societies to the present. Political, social, economic and religious factors that have shaped the history of sport and physical education. History and contemporary status of sport and physical education in the U.S. and selected countries around the world. (Fall, Spring)

366. Facility and Event Management. Credit 3 hours. Prerequisites: KIN 232 and Junior standing, or permission of Department Head. This course is designed to assist the sport management major with acquiring the necessary knowledge and skills needed to manage a sport facility and to plan a sporting event. The course will provide information concerning the planning, organization, and administration of sport facilities and event management. A key component of the course is the planning and organizing of an event. Field-based practicum hours are included. This course is limited to students majoring in Sport Management. (Spring)

372. Biomechanics. Credit 3 hours. Prerequisites: MATH 105, 107 or 161 and KIN 275, or permission of department head. A study of the basic laws and principles of Physics with specific application to the analysis of motor performance and sport skills. (Fall, Spring)

380. Legal Issues in Sport. Credit 3 hours. Prerequisite: Junior Standing or permission of the Department Head. Legal structures, major laws, regulations and case precedents that establish legal responsibilities, rights, privileges, and controls related to sport management. (Fall, Spring)

392. Physiology of Exercise. Credit 3 hours. Prerequisites: Grade of "C" or higher in ZOO 250, ZOOL 252, ZOO 251 and ZOOL 253 or permission of the department head. Neuromuscular, cardiorespiratory, hormonal and environmental responses and adaptations to exercise are covered with an emphasis on bioenergetics. Laboratory experience will include experiments which reveal the principles of exercise physiology. Two hours of lecture and two hours of lab per week. (Fall, Spring)

395. Kinesiology Seminar. Credit 3 hours. Prerequisite: Junior or Senior standing and permission of Department Head. Examination of specialized topics in Kinesiology, Physical Education, and Exercise Science. Course identified by title and description of content covered. May be repeated one time as topics vary. (Varies)

405. Health and Physical Education Methods in the Elementary School. Credit 3 hours. Prerequisites: HS 232 and current enrollment in EDUC 415. A course for elementary education majors. Health and physical education curriculum for the elementary school. Includes study of principles of lesson development and demonstration of health and physical education teaching techniques to elementary school children. Two hours lecture and two hours laboratory per week. (Varies)

406. Sport Promotion and Fundraising. Credit 3 hours. Prerequisites: KIN 232 and MRKT 303 and Junior standing, or permission of Department Head. This course is designed to study the areas of marketing, promotion, and fundraising within the context of interscholastic, intercollegiate, amateur, and professional sports. The course will include a general introduction to the history of sport marketing, promotions in the sport industry, sponsorships, trends, event management, booster clubs, and fundraising. Field-based practicum hours are included. This course is limited to students majoring in Sport Management. (Spring)

408. Sport Business and Finance. Credit 3 hours. Prerequisite: FIN 381. Foundational business theory in finance, economics, accounting and management applied to the managerial control of sport organizations. Emphasis will be placed on ownership structures, business structures in the sport industry, financial analysis, feasibility studies, and economic impact (Spring)

410. Internship in Exercise Science, Fitness or Sport Management. Credit 3-6 hours. A senior-level internship during which students engage in practical experience in the field. A minimum of 320 field-based hours is required for course completion. Detailed requirements are provided in the catalog in the Department of Kinesiology and Health Studies section. May be repeated for a total of six hours. A laboratory fee is required for this course. (Fall, Spring)

424. Fitness Testing and Prescription. Credit 3 hours. Prerequisite: A grade of "C" or higher in KIN 392. A presentation of the basic techniques in exercise testing and prescription. Includes information pertinent for Health Fitness Instructor certification by the American College of Sports Medicine. Two hours of lecture and two hours of laboratory each week. (Varies)

426. Strength Development and Conditioning Programs. Credit 3 hours. Prerequisite: A grade of "C" or higher in KIN 392. Instruction in basic physiological adaptations to strength and speed development, exercise prescription and testing for athletes, and facility design and safety. (Fall, Spring)

431. Measurement and Evaluation. Credit 3 hours. Prerequisites: Junior Standing and EDUC 201 or 203 or permission of the Department Head. Terminology and evaluation procedures appropriate to health and physical education. Special attention to applications of the criterion-referenced evaluation model to tests, ratings and grading procedures. (Fall)

434. Clinical Aspects of Exercise Testing and Prescription. Credit 3 hours. Prerequisite: A grade of "C" or higher in KIN 392, Junior standing, or permission of Department Head. Selection and implementation of tests for health-related fitness levels in a variety of populations.

Includes methods for designing and administering exercise programs for people with special medical conditions. Two hours of lecture and two hours of laboratory each week. (Fall, Spring)

436. Psychosocial Dimensions of Physical Activity. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. An examination of psychosocial theories and research related to sport and exercise behavior. Consists primarily of lectures and discussion activities aimed at clarifying, exemplifying, and expanding upon the assigned readings. (Fall, Spring)

451. Sport Administration. Credit 3 hours. Prerequisites: Junior standing and KIN 232 and KIN 380, or permission of the Department Head. A critical examination of sport business administrative principles. The competencies and responsibilities of administrators in the organizations, administration and management of sport businesses will be emphasized. (Fall)

460. Teaching Physical Education in the Secondary Schools. Credit 3 hours. Prerequisites: Full SARTE status, KIN 351, KINL 209, 210, 214, 224, 226, 228, and completion of or current enrollment in KIN 431, or permission of the Department Head. A course that focuses on teaching methods and materials in secondary physical education settings (junior high/high school). Activities will primarily center on curricular issues and planning, teaching, and evaluating instruction. This course will provide competency-based clinical practice. (Fall)

490. Internship in Sport Management. Credit 3-9 hours. Prerequisites: Senior standing, 2.0 GPA, completion of the majority of course work required in the degree (no more than 6 hrs remaining), earning a grade of C or higher in all indicated courses, completion of KIN 332, 333, 334, 380, 406, 451, FIN 381 and MGMT 351. The B.S. in Sport Management requires the completion of 9 credit hours of the course which includes a minimum of 400 hours of field-based internship experience during which students will gain experience in methodologies, administration techniques, and programs specific to the internship site. May be repeated for a total of 9 credit hours. (Fall, Spring)

491/591. Introduction to Physical Education for Individuals with Disabilities. Credit 3 hours. Prerequisite: Junior or Senior standing. The focus of this survey course is on handicapped children who will be mainstreamed for physical education. Other topics include: federal and state legislation, handicapping conditions, similarities between handicapped and non-handicapped children in growth, fitness, learning and performance, and psycho-social variables. Three hours lecture per week. (Varies)

492/592. Perceptual Motor Development of Individuals with Disabilities. Credit 3 hours. Prerequisite: Junior or Senior standing. This course was designed for those certifying in Adapted Physical Education and Special Education Mild/Moderate. The most frequent handicapping conditions (multi/moderate mental retardation, learning disability, and emotional/behavioral disorder) are the focus of this class. Topics include: neurological, sensory, perceptual, perceptual-motor, memory, learning, performance, assessment. Two hours lecture, two hours laboratory a week. (Varies)

493/593. Physical Education for Individuals with Physical Disabilities and Other Impairments. Credit 3 hours. Prerequisite: Junior or Senior standing. This course is designed for those certifying in Adapted Physical Education and Severe/Profound Impairments. Severe motor deficits resulting from Severe/Profound Mental Retardation, Orthopedically Handicapped, Other Health Impaired, Sensory Handicapped, Multi-handicapped conditions are the focus of this course. Analysis of movement, assessment, treatment and long-range planning are covered in terms of theory, school programs and recreation. Two hours lecture and two hours laboratory a week. (Varies)

494/594. Curriculum Development for Adapted Physical Education. Credit 3 hours. Prerequisites for KIN 494: KIN 491, Junior standing, or permission of Department Head. Prerequisites for KIN 594: KIN 491, or 591, or permission of Department Head. Theory of curriculum design is translated into practical programs. Special emphasis is placed on the similarity between physical education and adapted physical education, I. E. P. development, and program evaluation (curriculum and instruction). Three hours lecture a week. (Varies)

601. Statistical Methods in Kinesiology. Credit 3 hours. Special parametric and non-parametric statistics applicable to research techniques in kinesiology. (Fall)

606. Introduction to Research. Credit 3 hours. Prerequisite: KIN 601. Principles, procedures, and techniques of research with an intensive survey of current scientific investigations in the areas of kinesiology. Special attention is given to practical application. (Fall)

610. Therapeutic Principles of Sport Related Injuries. Credit 3 hours. Course objectives include: Instruction and practice in the care, prevention, treatment and rehabilitation of injuries commonly encountered in the recognition of injury signs, stabilization techniques, prosthetic strapping techniques and the use of selected therapeutic modalities. (Varies)

612. Motor Learning. Credit 3 hours. Factors involved in the acquisition and performance of motor skills. Major motor learning theories. Reading of research literature and participation in experiments. (Varies)

614. Principles and Theories of Motor Development. Credit 3 hours. Focuses on the theories and principles of motor development. The course will cover aspects of motor development across the lifespan from infancy through elderly populations. The course will also relate motor development to cognitive and social development, especially during early childhood. (Varies)

621. Mechanical Analysis of Motor Performance. Credit 3 hours. Prerequisite: KIN 372. The mechanical analysis of motor skill with special reference to the use of photographic and mechanical aids. (Varies)

622. Sports Performance Assessment and Analysis. Credit 3 hours. Explores concepts and skills in the acquisition, analysis, and interpretation of data relevant to human motion and performance. Addresses standards, techniques, and approaches for evaluating performance and using assessment to modify training to enhance athlete performance, health and well-being. (Varies)

623. Human Behavior in Exercise and Sport. Credit 3 hours. An examination of theories and research related to Exercise and Sport Psychology. Including individual differences, motivation, social influence processes, psychophysiological aspects and behavior change technique applied to exercise and sport. (Varies)

624. Applied Research in Exercise and Sport Behavior. Credit 3 hours. This course will examine the need for and purpose of applied Exercise and Sport Psychology research, outline the area of study, and examine the research on interventions used to address behavioral issues in sport and exercise. (Varies)

625. Cardiorespiratory Aspects of Exercise. Credit 3 hours. Prerequisite: KIN 392 or permission of Department Head. A study of alterations in cardiovascular and pulmonary function from exercise with a focus on physiological mechanisms. Laboratory experiences included. (Varies)

626. Strength Development and Conditioning Programs. Credit 3 hours. Prerequisites: KIN 392 and 275 or consent of the department. Isotonic and isometric programs for the development of muscular strength and endurance including background neuromuscular physiology. A study of other types of conditioning methods for the development of general fitness. (Varies)

628. Kinesiology Seminar. Credit 3 hours. May be repeated as topics vary. Course identified by description each semester offered. (Varies)

629. Kinesiology Seminar. Credit 3 hours. May be repeated as topics vary. Course identified by description each semester offered. (Varies)

632. Independent Research. Credit 3 hours. Prerequisites: Must be a graduate student in the Health and Kinesiology Master of Arts program and have taken at least 9 hours of graduate course work including KIN 601 or 606 or permission of the Department Head. Student will demonstrate research design and literature review competency. If a research study is implemented, student must obtain appropriate IRB approval. (Fall, Spring, Summer)

634. Independent Reading. Credit 3 hours. Prerequisites: Must be a graduate student in the Health and Kinesiology Master of Arts program and have taken at least 9 hours of graduate course work or permission of the Department Head. Directed study of the professional and research literature in an area of kinesiology not covered in other courses. May be repeated as topics vary. A maximum of six hours may be used in a degree plan. (Fall, Spring, Summer)

636. Nutrition for Health and Physical Performance. Credit 3 hours. Prerequisite: Basic Nutrition or permission of the Department Head. Principles of nutrient metabolism and their role and function in the maintenance of health prevention of disease. Development of nutritional plan for specific conditioning, including dietary concerns for those in physical performance programs. Credit may not be received for both HS 636 and KIN 636. (Varies)

638. Neuromuscular Aspects of Exercise. Credit 3 hours. Prerequisite: KIN 392 or permission of the Department Head. The course emphasizes current understanding of effects of exercise on skeletal muscle and nervous tissue structure and function with some application to training. (Varies)

640. Advanced Exercise Physiology I. Credit 3 hours. Prerequisite: KIN 392 or permission of Department Head. An advanced course focusing on physiological responses to exercise related to bioenergetics, metabolism, and endocrine exercise physiology; the nervous system and skeletal muscle excitation, contraction, and fatigue; and exercise testing and programming related to metabolism and neuromuscular performance. The course builds on principles and concepts learned in undergraduate courses in the areas of anatomy, physiology, and exercise physiology. Content emphasizes exercise and physiological responses to challenges in health and disease. (Varies)

642. Advanced Exercise Physiology II. Credit 3 hours. Prerequisite: KIN 392 or permission of Department Head. An advanced course focusing on the integrative physiology and physiological responses to exercise as it relates to cardiovascular, respiratory, and hemodynamic regulation; physiological responses to environmental challenges; and exercise testing and exercise programming related to cardiovascular performance. The course builds on principles and concepts learned in undergraduate courses in the areas of anatomy, physiology, and exercise physiology. (Varies).

644. Advanced Exercise Testing and Prescription. Credit 3 hours. Prerequisites: KIN 392, KIN 424, and KIN 434 or permission of the Department Head. A study of the proper method for exercise testing and prescription with emphasis on risks and benefits. Includes preparation for clinical experiences with rehabilitative fitness agencies and for advanced certification. Some laboratory required. (Varies)

646. Grant Proposal Writing. Credit 3 hours. Focuses on the necessary competencies and skills of writing and submitting proposals and evaluating and administering grants for health education, allied health, kinesiology and related fields including schools, communities and work sites. (Varies)

693. Socio-Cultural Issues in Sport and Physical Activity. Credit 3 hours. The sport manager must understand people who engage in sport within their respective living environments, thus comprehending their interest and values for sport participation and/or their sport spectator interest. Social and cultural influences on sport, as well as those revealed through sport will be discussed. (Varies)

694. Sport Marketing and Media. Credit 3 hours. This course examines marketing information systems, pricing strategies, media relations, promotional methods, and endorsements as they relate to marketing theory and sport and physical activity settings. It also examines the interactive relationship between sports and mass media. (Varies)

695. Legal Issues in Sport and Fitness. Credit 3 hours. Study of the law and implications relative to sport and fitness. Emphasis on safety procedures, preventative measures, and legal responsibilities of the sport and fitness professional. (Varies)

696. Managing Events and Facilities in Sport and Fitness. Credit 3 hours. This course is designed to provide the knowledge and skills needed for the sport and fitness professional to successfully manage sport and fitness facilities and events. Topics include planning facilities and events, staff management, marketing, scheduling, and event operations. (Varies)

697. Financial Management in Sport. Credit 3 hours. Financial management, planning and budgetary components of the sport industry. Through this course students will obtain the problem solving and decision-making abilities to maximize success in the sport industry. (Varies)

698. Sport Administration. Credit 3 hours. This course is a comprehensive overview of principles of the sport management industry including marketing, management/leadership, media, governance, sociological issues, facility & event management, and law & ethics. Specific attention is placed on the principles of leadership and management along with their association with theory. (Varies).

710. Internship in Kinesiology. Credit 3-6 hours. Prerequisite: Permission of the Department Head. A field work experience at a setting that relates to the student's academic preparation and intended employment area of interest. The purpose is to provide an opportunity for students to engage in practical learning activities and to gain and demonstrate professional competencies. May be repeated for a total of 6 hours. A laboratory fee is required for this course. (Fall, Spring, Summer)

770. Thesis. Prerequisites: KIN 601 and 606 or 607. Credit 1-6 hours each semester, with six hours needed for graduation. The student must enroll in the thesis course each semester the thesis is in progress. The thesis is graded Pass/Fail. (Fall, Spring, Summer)

Kinesiology Laboratory (KINL)

Kinesiology Laboratory Courses may be taken for a regular grade or Pass-Fail as an option for non-majors.

Basic Courses

Basic courses are open to all students, and provide a lifetime activity program with primary emphasis on the acquisition of motor skills, physical fitness, knowledge, and appreciation. Students needing two required activity courses may select any two of the basic laboratory courses. If additional courses are required or needed for electives, the additional courses may be selected from the basic laboratory courses or from the major laboratory courses.

100. Adaptive I. Credit 1 hour. Therapeutic exercise for handicapped students. Requires physician's referral and permission of the department. Three hours a week. (Fall, Spring)

101. Adaptive II. Credit 1 hour. Therapeutic exercise for handicapped students. Requires physician's referral and permission of the department. Three hours a week. (Varies)

102. Beginning Badminton. Credit 1 hour. Basic skills, strategies, rules and procedures. Instruction and practice of short and deep serves, clears, drops and smash. Singles and doubles play. Three hours a week. (Varies)

103. Jogging. Credit 1 hour. Aerobic conditioning using long distance running. Principles and techniques of endurance training are studied. Three hours a week. (Fall, Spring)

107. Beginning Golf. Credit 1 hour. Putting, chipping, and the full swing with all clubs. Rules and procedures of play. Most classes are held at an off campus driving range, and students must arrange for their transportation and pay a small fee for balls at the range. Three hours a week. A laboratory fee is required for this course. (Varies)

110. Beginning Tennis. Credit 1 hour. Basic skills, strategies, rules and procedures. Instruction and practice of the serve, ground strokes and volleys. Singles and doubles play. Three hours a week. (Fall, Spring)

111. Swim Fitness. Credit 1 hour. For experienced swimmers. Aerobic conditioning using long distance swimming and other endurance activities in the water. Principles and techniques of endurance training are studied. Three hours a week. (Fall, Spring)

112. Bowling. Credit 1 hour. Beginning bowling skills, scoring, procedures and terminology. Three hours a week. A laboratory fee is required for this course. (Fall, Spring)

113. Weight Training. Credit 1 hour. Instruction in proper technique in strength conditioning using free weights and weight machines. Three hours a week. (Fall, Spring)

115. Aerobic Dance. Credit 1 hour. Aerobic exercise activities with musical accompaniment. Three hours a week. (Varies)

120. Beginning Swimming. Credit 1 hour. The basic swimming strokes: front crawl, back crawl, breaststroke, sidestroke, and elementary backstroke. Basic water safety skills. Three hours a week. (Fall, Spring)

122. Intermediate Tennis. Credit 1 hour. Prerequisite: KINL 110 or permission of Department Head. Reviews basic skills, terminology, and rules of tennis play, and provides instruction and practice of advanced skills (e.g., use of spin, overhead, service return), singles and doubles strategy, and match play. Three hours of laboratory per week. (Fall, Spring)

133. Walking for Fitness. Credit 1 hour. Aerobic conditioning using long distance walking. Designed to assist individuals acquire the knowledge, attitudes, and skills necessary for participation in a lifelong fitness walking program. Three hours a week. (Fall, Spring)

134. Pump and Run. Credit 1 hour. This fitness course combines aerobic activity (primarily walking and jogging) with strength training. It is developed to assist individuals acquire the knowledge, attitude, and skills necessary for participation in a lifelong total fitness program. Three hours per week. (Varies)

135. Aqua Fitness. Credit 1 hour. This course is designed to introduce a variety of aquatic exercises to maintain or improve cardiovascular endurance, muscular strength, endurance, and flexibility. Three hours per week. (Fall, Spring)

140. Beginning Jujitsu. Credit 1 hour. A beginning laboratory course in jujitsu open to all university students. Three hours a week. (Fall, Spring)

141. Advanced Jujitsu. Credit 1 hour. Prerequisite: KINL 140 or permission of the Department Head. A second laboratory course in jujitsu designed to build on knowledge and skills. Three hours a week. (Fall, Spring)

144. Introduction to Judo. Credit 1 hour. Introduces basic skills, terminology, and background of Judo. Includes instruction and physical training to develop self-defense techniques and physical fitness. Three hours of laboratory per week. (Fall, Spring)

145. Intermediate Judo. Credit 1 hour. Prerequisite: KINL 144. Designed as a second course in Judo. Includes a review of basic skills, terminology, and background of Judo. Provides instruction and training to extend Judo's use in self-defense, and introduces elements of competition. Three hours of laboratory per week. (Fall, Spring)

160. Functional Fitness. Credit 1 hour. This course provides instruction and opportunities to participate in a variety of fitness activities that include aerobic and strength training, plyometrics, Pilates, body weight training, and exercises that promote agility and flexibility. Activities take place indoors and outdoors and require a moderate entry level of fitness. Three hours of laboratory per week. (Fall, Spring)

165. Pilates. Credit 1 hour. Pilates-based exercise techniques focusing on development of core body strength, breathing, and flexibility. (Fall, Spring)

203. Basketball. Credit 1 hour. Individual skills and basic offensive and defensive patterns. Basic rules and strategies. Three hours a week. (Varies)

204. Soccer. Credit 1 hour. Fundamental skills and basic strategies of individual position play as well as teamwork. Three hours a week. (Varies)

207. Volleyball. Credit 1 hour. Basic skills and offensive and defensive team play. Rules, procedures and terminology. Three hours a week. (Varies)

220. Physical Activity Workshop. Credit 1 hour. Course identified by description each semester offered. May be repeated as topics vary. (Fall, Spring)

232. Lifeguard Training. Credit 1 hour. Must be a strong swimmer to take this course. Students must pass prerequisite skill tests. Covers skills and knowledge required for effective lifeguarding. Successful completion of this course will satisfy the requirements to obtain an American Red Cross Lifeguard Training Certificate. Three hours a week. (Spring)

311. Recreational Games. Credit 1 hour. Covers a variety of sports, games, and recreational pursuits appropriate as content of school-based physical education programs. Three hours a week. (Varies)

313. Outdoor Leisure Pursuits. Credit 1 hour. A recreational laboratory class emphasizing introductory instruction and experience in a variety of outdoor leisure pursuits. Topics may be selected from but are not limited to the following: camping, bait casting, boating, backpacking, hiking. Three hours a week. (Varies)

Laboratory Courses for Health and PE Majors

Students not majoring in Kinesiology and Health Studies must have permission of the department to schedule these classes.

209. Content and Teaching Strategies for Swimming. Credit 1 hour. Basic skills, standard strokes, and teaching methods of beginning swimming. Three hours per week. (Summer, Fall)

210. Content and Teaching Strategies for Net & Racket Games. Credit 1 hour. Skills, rules, strategies, and teaching methods of net and racket games. Three hours per week. (Varies)

214. Content and Teaching Strategies for School-Based Fitness. Credit 1 hour. This course will provide content and strategies for teaching fitness, conducting fitness testing and incorporating fitness into games and sports. Three hours per week. (Varies)

221. Content and Teaching Strategies for Elementary School Physical Education. Credit 1 hour. Introduction to content and activities in elementary physical education. This course provides experiences in basic movement skills, fundamental motor skills, games, rhythmic activities and dance. Three hours per week. (Varies)

224. Content and Teaching Strategies for Recreational Games, Golf, and Outdoor Recreation. Credit 1 hour. Skills, rules, strategies, and teaching methods of golf, recreational games, and outdoor leisure pursuits. Three hours per week. (Varies)

226. Content and Teaching Strategies for Invasion Games. Credit 1 hour. Skills, rules, strategies, and teaching methods of invasion games including soccer, flag football, and basketball. Three hours per week. (Varies)

228. Content and Teaching Strategies for Track & Field, Volleyball, and Softball. Credit 1 hour. Skills, rules, strategies, and teaching methods of team sports including track & field, volleyball, and softball. Three hours per week. (Varies)

Latin (LAT)

101. Elementary Latin I. [LCCN: CLTN 1013, Elementary Latin I]. Credit 3 hours. The beginning course for students with no knowledge of Latin. Non-laboratory approach to the language. Emphasis will be on the development of reading skills and on the essentials of grammar. Offered as the first of four sequential courses (101, 102, 201, 202) designed to provide an overall desired proficiency. (Fall, Spring)

102. Elementary Latin II. [LCCN: CLTN 1023, Elementary Latin II]. Credit 3 hours. Prerequisite: LAT 101 or equivalent. Continuation of LAT 101. (Fall, Spring)

201. Intermediate Latin I. [LCCN: CLTN 2013, Intermediate Latin I]. Credit 3 hours. Prerequisite: LAT 102 or equivalent. Completion and review of basic elements of grammar. Introduction of reading material of moderate difficulty. (Fall, Spring)

202. Intermediate Latin II. [LCCN: CLTN 2023, Intermediate Latin II]. Credit 3 hours. Prerequisite: LAT 201 or equivalent. A course with emphasis on proficiency in reading and continuation of grammar review. (Fall, Spring)

311. Advanced Grammar and Translation. Credit 3 hours. Prerequisite: LAT 202 or equivalent. Casual, concessive, final consecutive, temporal, substantive, conditional, relative clauses; forms and uses of subjunctive; gerunds and gerundives, etc. Further practice in translation from Latin into English and English into Latin. (Varies)

319. Advanced Latin Translation. Credit 3 hours. Prerequisite: LAT 311 or equivalent. Translation of part of Caesar's De Bello Gallico. (Varies)

320. Survey of Latin Literature. Credit 3 hours. Prerequisite: LAT 319 or permission of Department Head. Translation of passages by some of the best-known writers of the Early Period, the Golden Age and the Silver Age of Latin Literature (300 B.C.- A.D. 138). (Varies)

Leadership Training (LT)

301. Special Topics: Leadership Training. Credit 3 hours. Designed to provide students with knowledge, attitudes, and skills necessary to become effective in campus organizations. May be repeated for a maximum of six credit hours, as the topics vary. (Summer, Fall, Spring)

Library Science (LS)

102. Introduction to Information Research. Credit 1 hour. A course designed to teach the information research process. Methods for locating and evaluating sources and the creation of effective search strategies are discussed and practiced. Required exercises and assignments reinforce the course content. (Summer, Fall, Spring)

421. Library Practice. Credit 3 hours. Prerequisites: LSA 403/503, 404/504, 405/505 and LSED 401/501 or 402/502. Six hours a week work-experience in Sims Memorial Library; practice in the selection, acquisition, and organization of library materials; the use of these materials; and library administrative duties. (Varies)

Library Science Administration (LSA)

403/503. School Library Administration. Credit 3 hours. Service objectives and standards of school libraries, including school library management of housing, equipment, acquisition of materials, management of materials, budgets, and use of technology in library management and instruction in information literacy. (Varies)

404/504. Classification and Cataloging. Credit 3 hours. Basic principles of cataloging and classifying books and non-print materials. Study of Dewey Decimal Classification system, professional cataloging tools and technology, and an overview of the Library of Congress classification system and appropriate computer software. Two hours of lecture and two hours of laboratory a week. (Varies)

405/505. Library Reference Materials. Credit 3 hours. Introduction to books and materials most commonly used in a library to answer simpler reference questions; characteristics of both general and specific reference materials (bibliographies, indices, on-line search systems, ERIC, etc.) studied in detail; methods of reference work with teachers and students; teaching the use of reference materials. (Summer)

406/506. Technology for the Library Media Specialist. Credit 3 hours. This course is designed to assist the Library Media Specialist integrate to the newest technology into the library program. Instruction will cover aspects of both hardware and software appropriate to the library; purchase and efficient utilization of technology to accomplish routine library tasks, the use of on-line services and planning for future technological utilization and expansion. Requires minimal familiarity with microcomputer. (Varies)

580. School Library Practicum. Credit 3 hours. Prerequisites: Teacher certification or eligibility, LSED 401/501 or 402/502, or LSA 610, LSA 403/503, 405/505, and 406/506. Library administrative experience at elementary, middle, and secondary schools to include observation and participation in all activities in the school library. Qualified students must make application to the Departmental office one (1) semester prior to their registration for LSA 580. (Varies)

610. Bibliotherapy. A course designed to research and explore children's literature and investigate the technique of bibliotherapy in an effort to help children confront and solve personal problems and to enhance their self-concept. (Varies)

618. Information Literacy. Credit 3 hours. A course designed to investigate materials and methods needed to implement the Louisiana Content Standards for information literacy in elementary and secondary schools, including the principles of critical thinking and problem-based learning. Students will learn to recognize the need for information and how to locate, evaluate and effectively use the information available to them. (Varies)

Library Science Education (LSED)

401/501. Books and Related Materials for Children. Credit 3 hours. Study of reading interests of children at various age levels; principles of book selection for children; tools for selecting books and materials; particular consideration given to writers, illustrators, publishers, and editions; emphasis placed on extensive reading and evaluation of all types of literature for children; methods of presentation; examination of all types of print and non-print resources, including electronic materials. (Summer, Fall, Spring)

402/502. Books and Related Materials for Young People. Credit 3 hours. Library in relation to educational program of the school; reading needs and interests of young people; principles of selecting books and materials for young people; aids and tools in selection; reading and evaluating many books for adolescents; methods for guidance in use of library materials; examination of all types of print and non-print resources, including electronic materials. (Summer, Fall, Spring)

408/508. Educational Material for the Classroom. Credit 3 hours. Prerequisite: Junior standing. A course designed primarily for persons who will be teaching at the elementary or secondary levels. It is designed to give a working knowledge of the theory and production of classroom teaching/learning materials. Additionally, the course will provide opportunities for students to develop proficiency in the operation and utilization of most types of school audio-visual equipment. Students may take this course as an education elective but it is not to be counted toward certification in media. (Varies)

409/509. Instructional Design and Production of Specialized Curriculum Materials. Credit 3, 6, or 9 hours. Prerequisite: Junior standing or permission of the Department Head. This course is designed to help teachers research, write, and produce specialized materials for their classroom. Course materials developed might include materials such as annotated bibliographies, slide presentations, audio tapes, teachers' guides, or media kits. Students may be required to purchase instructional supplies or pay travel expenses when required. (Varies)

Management (MGMT)

101. Fundamentals of Business Success. Credit 1 hour. Prerequisite: Freshman standing or permission of the Department Head. Focuses on the fundamentals of business success, basic job interview skills, how to market oneself and provide value to prospective employers through creating the right first impression, dressing for success, projecting confidence, proper body language, personal and business etiquette, etc. Required for freshman business majors; open to students of all levels and majors. (Fall, Spring)

141. Introduction to Business. [LCCN: CBUS 1003, General/Introduction to Business Administration]. Credit 3 hours. An orientation course in business activity, including a study of organization, ownership, marketing, personnel, finance, and management. Not open to juniors or seniors majoring in the College of Business. (Varies)

210. Microcomputer Applications for Business. [LCCN: CBUS 2203, Computer Applications]. Credit 3 hours. Emphasis is on hands-on usage of microcomputer applications needed by business such as information/word processing, data base management, spreadsheets and graphics, and other relevant applications as developed. Credit toward the degree will not be granted for both MGMT 210 and CMPS 110. (Summer, Fall, Spring)

220. Advanced Spreadsheet Applications for Business. Credit 3 hours. Prerequisite: MGMT 210 or permission of Department Head. A thorough study of the advanced features of spreadsheet applications in business environments. Course includes preparation for the Microsoft Office Specialist Certifications for the MS Excel Core and Expert exams. MOS exams require additional fee. (Summer, Fall, Spring)

240. Business Communication. Credit 3 hours. Prerequisite: ENGL 101. Students will learn how to use computer networks and traditional methods to facilitate the following tasks: compose and submit routine business messages; interact with peers on problem-solving teams; research; draft; format; and submit business reports; create and deliver business presentations; seek and maximize job-search resources. (Summer, Fall, Spring)

285. Entrepreneurial Principles and Mindset (LCCN: CMGM 2413, Introduction to Entrepreneurship (Lower Level)). Credit 3 hours. This course provides an introduction to the foundations of entrepreneurship and helps students to develop an entrepreneurial mindset. Emphasis is placed on studying the roles of creativity and innovation in the process of developing new products, services, or ideas as the basis for new venture creation. Experiential exercise are used to equip students with skills and tools that can be applied to create and pursue entrepreneurial opportunities (Summer, Fall, Spring)

321. Family Business Management. Credit 3 hours. Prerequisite: Junior standing. This course explores the unique challenges and dynamics associated with the family-owned and managed enterprise. Topics include challenges and opportunities for family businesses, the dynamics of family interactions within the family business culture, conflict resolution among family members, building relationships with non-family managers, stages of family business growth, strategic planning in the family business, and succession planning. (Fall, Spring)

326. Entrepreneurial Funding. Credit 3 hours. Prerequisite: Junior Standing. This course emphasizes the financial and funding aspects of a new venture. Topics included financial theories, knowledge, tools and techniques entrepreneurs need to start, build and harvest a successful venture (Fall, Spring)

351. Principles of Management. [LCCN: CMGM 3103, Principles of Management (Upper Level)]. Credit 3 hours. Prerequisite: Junior standing. Introduction to theory and practice of managing formal organizations, including planning, organizational theory, ethics, international management, human behavior, and control. (Summer, Fall, Spring)

375. Small Business Management. [LCCN: CMGM 3413, Small Business Management (Upper Level)]. Credit 3 hours. Prerequisite: MGMT 351. A study of the complexities, challenges, rewards, and risk of managing small businesses. Special focus on forms of ownership, the creation of a business plan, financing small businesses, legal, ethical, and social responsibilities, as well as international opportunities for small businesses. (Fall, Spring)

391. Management Internship. Credit 3 hours. Prerequisites: 2.5 Overall GPA, completion of six semester hours in concentration area, and permission of the Department Head. Management internship provides a student with work experience in an assignment selected and approved by the University and Department. Students will earn three hours credit for a minimum of 300 hours of approved work experience. Only management majors can receive credit for the Management Internship course. All grades are assigned on a Pass/Fail basis. (Summer, Fall, Spring)

420. Managing Across Global Environments. Credit 3 hours. Prerequisite: Junior standing. This course examines the fundamental aspects of the relationships between countries and the international organizations that support the economic, social, and commercial development. Credit toward the degree will not be granted for both MGMT 420 and GB 495. (Summer, Fall, Spring)

425. Introduction to International Business. [LCCN: CMGM 4213, Management in a Global Context (Upper Level)]. Credit 3 hours. Prerequisite: Senior standing. An introduction to the field of international business. The empirical dimensions of the world economy; business enterprise in international trade; trade channels; effects of economic, political and social environment on international management problems of international operations; the role of government in fostering international business. (Summer, Fall, Spring)

430. Study Abroad. Credit 3 hours. Prerequisite: Junior Standing. This course is designed to enrich students' awareness and appreciation for international business and to gain a better understanding of management techniques and national cultures in other countries. (Summer)

435. Communication for International Business. Credit 3 hours. Prerequisite: Junior standing. International and cross-cultural communication problems of multinational organization. Analysis of the role of cultural and linguistic barriers to objectives-oriented communication in international business. (Fall, Spring)

440. People, Cultures, and Opportunities. Credit 3 hours. Prerequisite: MGMT 351. Examine organizational issues arising at interface between workforce diversity and corporate sustainability. Discussion of business approaches that create long-term employee and organizational value. Topics include diversity consciousness, corporate social responsibility, and business ethics. (Fall, Spring)

457. The Art and Science of Negotiation. Credit 3 hours. Prerequisite: MGMT 351. This course is an introduction to the art and science of negotiation. Students will learn about the nature of negotiation and gain skills that will help them secure agreements in a variety of contexts. The course is designed to be largely experiential, providing students with the opportunity to develop and practice their negotiation skills by participating in role-play exercises. This experiential component enables students to integrate their experiences with the principles presented in the assigned readings and course discussions. (Fall, Spring)

458. Entrepreneurship Capstone. Credit 3 hours. Prerequisite: Senior Standing. This course integrates topics and theories in entrepreneurship and applies them to the new venture creation and development context. Case studies will be used to illustrate real-world problems confronting contemporary entrepreneurs. Students will engage in experiential learning to gain hands-on experiences in solving entrepreneurial challenges. (Fall, Spring)

464. Business Strategy. Credit 3 hours. Prerequisites: MGMT 351, FIN 381, MRKT 303, OMIS 200 and Senior standing. Application of managerial, financial, marketing, and accounting principles in strategic decision making; extensive use of cases and written reports. (Summer, Fall, Spring)

471. Human Resource Management. [LCCN: CMGM 3313, Human Resource Management (Upper Level)]. Credit 3 hours. Prerequisite: MGMT 351. A study of personnel management to include historical development; planning for and organizing the personnel department; selection and training of employees; incentive programs; wages, salary, and fringe benefits; utilization of the labor force; ethical treatment of employees; and management-labor relations. (Summer, Fall, Spring)

472. Special Topics in Management. Credit 3 hours. Prerequisite: MGMT 351. A course designed to encourage critical thinking and awareness of current issues and problems confronting business, such as individual and organizational performance issues, ethics, environmental problems, and technological changes. Intensive use of current reference materials, and class discussion. The content may change from semester to semester and will be announced in advance. (Varies)

473. Organizational Behavior and Applied Leadership. [LCCN: CMGM 4103, Organizational Behavior (Upper Level)]. Credit 3 hours. Prerequisite: MGMT 351. A study of the various methods of motivating employees and handling a multitude of human problems involved in local, national, and international business. Particular emphasis will be placed on the application of leadership theories and concepts within organizations. The student will actively participate in role-playing situations and will study actual companies in the Southeast Louisiana area. (Summer, Fall, Spring)

475. Employment Law. Credit 3 hours. Prerequisites: BLAW 231 and MGMT 471. Legal concepts underlying employment laws including evaluating job descriptions and job specifications, wrongful discharge, wage and hour laws, anti-discrimination statutes, and development of employment policies that ensure fair treatment of employees within the legal system. (Fall, Spring)

476. Seminar in Applied Human Resource Management. Credit 3 hours. Prerequisites: BLAW 231, MGMT 471 and consent of Department Head; only open to seniors in the Human Resource Management concentration. A skills-based course for seniors in the human resource management concentration. Emphasis is placed on fusing theory and practice in the areas of human resource planning, staffing, performance evaluation, compensation, and training and development (Fall, Spring)

478. Leadership. Credit 3 hours. Prerequisite: MGMT 351; Senior Standing (or permission of Dept. Head). An overview of theoretical and practical aspects of organizational leadership. Critically examines leadership approaches, debates, and controversies. Emphasizes the development of leadership approaches, ethics, and controversies. Emphasizes the development of leadership skills for influence in organizational settings. (Summer, Fall, Spring)

485/585. Creativity, Innovation and Entrepreneurship. [LCCN: CMBM3513, Introduction to Entrepreneurship (UPPER LEVEL)]. Credit 3 hours. Prerequisite: Junior standing. A study of the role of creativity and innovation in the process of developing new products, services or ideas as the basis for new venture creation. Focus on tools to facilitate entrepreneurial creativity and the development of skills using them, as well as on factors that support or hinder innovation and entrepreneurship. (Summer, Fall, Spring)

620. Environmental Management. Credit 3 hours. A course designed to provide students an overview of the issues and concepts associated with the business-economy/environmental interaction. The course will focus on the evolution of four themes, or four "shades of green," that contribute toward creating and sustaining competitive and strategic advantage. (Varies)

630. Study Abroad. Credit 3 hours. Prerequisite: Graduate Standing. This course is designed to enrich students' awareness and appreciation for international business and to gain a better understanding of management techniques and national cultures in other countries. (Summer)

650. Health Care Law. Credit 3 hours. A course designed to familiarize the student with federal and state laws and regulations which affect the management of health care centers such as hospitals and nursing homes. (Varies)

656. Advanced Health Care Administration. Credit 3 hours. A course designed to focus on many of the varied skills and disciplines which must be mastered in order to be a highly effective health care manager. Emphasis is placed on an accurate and relatively comprehensive picture of health care management theory and practice that should serve as a foundation for further development within the field of health care administration. (Varies)

657. The Art and Science of Negotiation. Credit 3 hours. This course exposes students to a broad range of negotiation techniques, including complex, advanced techniques and issues associated with the digital age. Students will learn about the nature of negotiation and gain skills that will help them secure agreements in a variety of contexts. This course is designed to be largely experiential, providing students with the opportunity to develop and practice their negotiation skills by participating in role-play exercises. This experiential component enables students to integrate their experiences with the principles presented in the assigned readings and course discussion. (Spring)

663. Organization Theory and Behavior. Credit 3 hours. Prerequisite: MGMT 351. Contributions of both formal theory of organizations and the behavioral sciences are examined as they impact upon organizational functions and processes. (Summer, Fall, Spring)

683. Business Policy and Strategy. Credit 3 hours. Prerequisite: Open to MBA candidates during the last twelve hours of the program. This is the integrative capstone course for graduate students in business and utilizes a systems perspective to analyze complex organizational issues and problems from the viewpoint of top management. The case method is used for problem identification and solution proposals. (Summer, Fall, Spring)

695. Special Topics in Management. Credit 3 hours. Prerequisite: Graduate standing. A seminar course focusing on selected issues in management. The content will change from semester to semester and will be announced in advance. (Fall, Spring)

Marketing (MRKT)

123. Contemporary Marketing. [LCCN: CMKT 2003, Foundations of Marketing (Lower Level)]. Credit 3 hours. A survey course which introduces the student to the ABCs of marketing. Focuses on current developments in the application of marketing techniques in such areas as entertainment (e.g., movies), special events (e.g., festivals, sports, concerts), and e-Commerce. Designed to serve various groups of students—those from other colleges/departments who would like to develop an understanding of marketing; those who are undecided about a major and would like to explore marketing as a possibility; and those who desire to take a contemporary marketing course to assist them in their present career path. Not open to students who have previously earned credit for MRKT 303 or Juniors and Seniors majoring in the College of Business. May be used as a Business Elective, but not a Marketing Elective in the Marketing Degree Curriculum. (Varies)

205. Social Media and Personal Branding. Credit 3 hours. This course will prepare students to utilize social media and other tools to effectively present their personal brand to employees and clients. Students will learn about a wide range of media channels and how to best deploy their brand through the most appropriate channels. The active utilization of these channels for both personal and business application will be explored. (Varies)

303. Principles of Marketing. [LCCN: CMKT 3003, Principles of Marketing (Upper Level)]. Credit 3 hours. Prerequisite: Junior standing. An introduction to the marketing discipline with coverage of marketing fundamentals and strategy, ethics, consumer decision making, product, promotion, pricing, and distribution concepts and their role in the business environment. (Summer, Fall, Spring)

310. Foundations of Marketing Design. Credit 3 hours. Prerequisite: Junior standing. Marketing identity is communicated through its collateral pieces, such as brochures, business cards, and its online presence. Thoughtful design is necessary to create an impact. This is an introductory course that develops technical skills and artistic awareness demanded by companies to create marketing communications using software that is considered industry standard. Students will complete projects applying marketing concept development and logo design. They will create common collateral pieces such as brochures, flyers, and posters. (Fall)

314. Public Relations and Digital Marketing Content. Credit 3 hours. Prerequisites: ENGL 102 and Junior standing. Students will be introduced to marketing concepts in earned, owned, and paid media. Students will explore the role of marketers in modern public relations while developing an understanding of emerging trends in content marketing. (Summer, Fall, Spring)

319. Consumer Behavior. Credit 3 hours. Prerequisites: MRKT 303 and Junior standing. A study of consumer interests, consumer needs and demands, and an exploration of the cultural, social, and psychological determinants of buying behavior. Emphasis is placed on the behavioral sciences with the aim of providing bases for developing marketing strategy. (Summer, Fall, Spring)

320. Supply Management and Purchasing. [LCCN: CMKT 3203, Personal/Professional Selling (Upper Level)]. Credit 3 hours. Prerequisites: MRKT 303 and Junior Standing. An introduction to the role of supply management within the organization and as a member of the entire supply chain. The buyer-seller or vendor relationship is examined from a process perspective including both the strategic and transactional level. The course examines the changing nature of the supply management function as organizations respond to changes in the global, legal, economic, competitive and technological environments. The contributions that supply management makes to an organization's competitive position are the focus of the course. Credit toward the degree will not be granted for both MRKT 320 and OMIS 325. (Fall, Spring)

321. Introduction to Professional Sales. [LCCN: CMKT 3203, Personal Selling]. Credit 3 hours. Prerequisite: Junior standing. A study of sales as a profession. Students will develop skills such as prospecting, building relationships, making sales presentations, handling objections, and obtaining client commitment. Students will make sales presentations as a key component of the course. (Summer, Fall, Spring)

331. Retailing. [LCCN: CMKT 3103, Retail Marketing]. Credit 3 hours. Prerequisites: MRKT 303. A course emphasizing the importance of organizational structure, policies, promotional and strategic decision making as it relates to both online and physical retail environments. (Fall, Spring)

332. Business to Business Marketing. Credit 3 hours. Prerequisites: MRKT 303 and Junior standing. A problem-solving approach to the marketing of business, industrial, and governmental goods and services; including an analysis of the purchasing function from the vendor's viewpoint. Emphasis is given to product planning and development; technical advisory and management services; distribution channels and methods; cost/price/profit relationships and practices; and promotion in the various segments of the industrial market. (Varies)

342. Advertising. Credit 3 hours. Prerequisite: Junior standing. An introductory course designed to help students understand the strategic role and function of advertising and the components of an advertising campaign. (Fall, Spring)

373. Digital and Social Media Marketing. Credit 3 hours. Prerequisite: MRKT 303. An exploration and application of the tactics associated with online marketing, including SEO, user experience, email marketing, social media, digital advertising and overarching digital strategy. (Fall, Spring)

391. Marketing Internship. Credit 3 hours. Prerequisites: MRKT 303, Junior Standing, 2.5 adjusted grade point average and permission of the Department Head. The Marketing Internship provides a student with marketing experience in an assignment selected and approved by the University with a cooperating business firm. Students will earn three hours credit for a minimum of 300 hours of approved work experience. Only marketing majors can receive credit for the Marketing Internship course. All grades are assigned on a Pass/Fail basis. (Summer, Fall, Spring)

392. Marketing Internship. Credit 3 hours. Continuation of MRKT 391. In order to obtain credit for MRKT 392, the work assignment must be different from that of MRKT 391. (Summer, Fall, Spring)

421. Advanced Professional Sales. Credit 3 hours. Prerequisite: MRKT 321. An advanced course in sales intended to develop a high level of competence in professional sales skills. Role playing exercises, negotiation exercises, lectures, and significant engagement with the professional sales community will develop sales competence in students to a high level. Students are required to apply sales techniques by participating in a sales competition judged by industry professionals. (Fall, Spring)

425. Sales Leadership. Credit 3 hours. Prerequisite: MRKT 321. An advanced course in which students apply the principles and concepts of sales planning and control to a comprehensive, revenue-generating project. Emphasis is placed on the leadership sales teams, including the organization of sales departments and territories, motivating salespeople, and controlling sales operations. (Fall, Spring)

432. Marketing Research and Analytics. Credit 3 hours. Prerequisites: MRKT 303 and OMIS 200 or MATH 241. A study of marketing research methods and analytics and their application. Students will design, research, gather, and analyze data to guide marketing decision making. (Summer, Fall, Spring)

435. e-Commerce and Marketing Strategy. Credit 3 hours. Prerequisites: MRKT 303, OMIS 360 and Junior Standing. This course introduces students to Internet-based marketing strategy and related issues, ranging from identification of market opportunities via WWW to evaluation of marketing strategy on the Internet. Topics include: e-Business models, identification of online business opportunities and market segmentation, online marketing research, online customer behavior, the Internet marketing strategy and its components, the Internet as a distribution channel, Internet sales process, virtual storefront, online customer relationship management, effective pricing decisions, and implementation of e-commerce marketing strategy and its evaluation. (Varies)

442/542. Advanced Marketing Communications. Credit 3 hours. Prerequisites: MRKT 303 and 342. An advanced course emphasizing the application of previously learned advertising principles through the development of a Marketing Communications Campaign that includes the production of advertisements for a variety of media including traditional and digital media. (Spring)

443. International Marketing. Credit 3 hours. Prerequisite: MRKT 303. A study of resources of foreign market information; trading channels abroad; elements of foreign market surveys; foreign sales promotion; financing of international trade transactions. (Fall)

444. Marketing Strategy. Credit 3 hours. Prerequisites: MRKT 303 and Senior standing. Marketing capstone course in which students examine and apply advanced marketing concepts from a managerial perspective. Students will learn to create strategies for enhancing customer value, analyze market opportunities, build marketing programming, execute marketing leadership, evaluation marketing tactics, and implement an agile marketing philosophy. (Fall, Spring)

475/575. Current Marketing Issues. Credit 3 hours. Prerequisite: MRKT 303 or consent of the Department Head. A variable content course which treats subjects of special interest in the field of Marketing. The content may change from semester to semester and will be announced in advance. May be taken by both majors and non-majors. (Varies)

476. Asian Marketing Issues. Credit 3 hours. Prerequisite: Junior Standing. This course is designed to enrich students' awareness and appreciation of Asian marketing practices and their understanding of the Asian market. Implication of Asian marketing practices, regional economic integration, and environmental issues as they relate to marketing are investigated. (Varies)

478. Latin American Marketing Issues. Credit 3 hours. Prerequisite: Junior Standing. This course is designed to enrich students' awareness and appreciation of Latin American marketing practices and their understanding of the Latin American market. Implications of Latin American marketing practices, regional economic integration, and environmental issues as they relate to marketing are investigated. (Summer)

480. Marketing Yourself for Success. Credit 3 hours. Prerequisite: Senior standing. This senior level course helps ensure a successful transition into the professional environment. Students will learn to sell themselves in a competitive market, enhance their interview skills, develop and leverage a professional network, and create a personal portfolio. Topics such as contract negotiation and interpersonal problem-solving skills will be discussed. This class will involve a significant interaction with the local business community. (Varies)

623. Marketing Communications. Credit 3 hours. Prerequisites: MRKT 303 and Graduate standing. A study of the role that advertising, marketing information systems, personal selling, promotion, public relations, and communications theory play in the accomplishment of a firm's total marketing objectives. (Varies)

650. Business Research. Credit 3 hours. Prerequisites: OMIS 200, 600 and Graduate standing. Examination of research methods and techniques and their application to individual problems. Introduction to sources of business information. Emphasis on basic experiment, survey, and descriptive techniques. The place of business research in management. (Varies)

673. Marketing Administration. Credit 3 hours. Prerequisites: MRKT 303 and Graduate standing. A study of the various problems and policy decisions required in the areas of product policies, price policies, distribution policies, and promotion policies. (Fall, Spring)

676. Strategic Marketing Management in Asia. Credit 3 hours. Prerequisite: Graduate Standing. This course is an in-depth look at marketing management activities in Asia. Marketing strategy application and current activities impacting marketing efforts are studied. This course is designed to give students insights into how regional and global issues impact marketing. (Varies)

678. Strategic Marketing Management in Latin America. Credit 3 hours. Prerequisite: Graduate standing. This course is an in-depth look at marketing management activities in Central America. Marketing strategy applications and current activities impacting marketing efforts are studied. The course is designed to give students specific insights into how regional and global issues impact marketing. (Summer)

695. Special Topics in Marketing. Credit 3 hours. Prerequisite: Graduate standing. A seminar course focusing on selected issues in marketing. (Summer)

Marriage, Couple, and Family Counseling (MCFC)

621. Introduction to Marriage, Couple, and Family Counseling. Credit 3 hours. An introduction to the profession, major theories, and practices of marriage and family therapy, including the historical development and principle conceptualization of cybernetic and systems theory. (Summer, Fall)

622. Advanced Theory in Marriage, Couple, and Family Counseling. Credit 3 hours. Prerequisites: COUN 601, 603, 605, and MCFC 621. A study of advanced theories of counseling and psychotherapy employed in the practice of marriage and family therapy. The course will include an examination of systems and cybernetic theory, as well as the study of the post-modernist perspectives of constructivism and social constructionism. (Fall)

626. Techniques in Marriage, Couple, and Family Counseling. Credit 3 hours. Prerequisites: MCFC 621 and MCFC 683 (or concurrent with MCFC 683). A course focusing on basic clinical interviewing procedures and interventions commonly used with couples and families, utilizing selected major theories of marriage and family counseling. (Spring)

683. Marriage, Couple, and Family Counseling Practicum. Credit 3 hours. Prerequisites: COUN 604, 607, 608, 609, 610, and MCFC 621. A practicum course focusing on a study of specialized techniques utilized in the practice of marriage and family therapy. The course involves critical activity and practice to refine interventions with couples and families. This course will be graded Pass/Fail only. (Fall, Spring)

693. Marriage, Couple, and Family Counseling Internship. Credit 3 hours. Prerequisite: MCFC 683. Supervised experience in a setting appropriate to the student's program area emphasizing competencies in family systems. Students must complete 600 clock hours over the course of their final two semesters, and must register each semester for a total of 6 credit hours. The internship is graded Pass-Fail. (Summer, Fall, Spring)

Master of Arts in Teaching (MAT)

610. Fundamentals I: Teaching and Learning for General Education. Credit 3 hours. Prerequisites: Full SARTE status and concurrent enrollment in MAT 615, MAT 620, and MAT 630. An introduction to general education. Topics include contemporary issues such as the effective educator, school law, rights and responsibilities, educational foundations and philosophies, and best practices, including self-assessment. Competency-based clinical practice required. (Summer)

615. Fundamentals II: Teaching and Learning for Special Education. Credit 3 hours. Prerequisites: Full SARTE status and concurrent enrollment in MAT 610, MAT 620, and MAT 630. An introduction to children with exceptionalities. Topics include physical, mental, emotional and social traits of individuals with exceptionalities, legal issues related to special education, and current trends. Competency-based clinical practice required. (Summer)

620. Learning and Behavior Theories in Inclusive Elementary Classrooms. Credit 3 hours. Prerequisites: Full SARTE status and concurrent enrollment in MAT 610, MAT 615, and MAT 630. The study and application of learning and behavioral theories including taxonomies of learning, pedagogical principles, child and adolescent development, and teaching and managing diverse populations. Competency-based clinical practice required. (Summer)

622. Classroom Management and Organization for Inclusive Elementary Classrooms. Credit 3 hours. Prerequisites: Full SARTE status and successful completion of MAT 610, MAT 615, MAT 620, and MAT 630, and concurrent enrollment in with MAT 631 and MAT 640. The study and application of behavioral and humanistic approaches to classroom management and motivation with an emphasis on process, principles, and theories related to changing inappropriate behaviors. This course includes group management, behavior modification, conflict resolution, assertiveness, responsibility training, anti-social behavior and youth at risk, aggression and mistaken goals and preventive discipline techniques. Competency-based clinical practice required. (Fall)

623. Classroom Management and Organization for Secondary Education. Credit 3 hours. Prerequisites: Full SARTE status and successful completion of MAT 610, MAT 615, and MAT 620. A detailed investigation of behavioral and humanistic approaches to classroom management and motivation with an emphasis on process, principles, and theories related to changing inappropriate behaviors. This course includes group management, behavior modification, conflict resolution, assertiveness, responsibility training, anti-social behavior and youth at risk, aggression and mistaken goals and preventive discipline techniques. Clinical practice required. (Varies)

630. Assessment in Inclusive Classrooms. Credit 3 hours. Prerequisite: Full SARTE status. Use of assessment in the modern school program. Topics will include lesson plan development, matching objectives to assessment, informal teacher-made tests and performance-based assessment, as well as standardized tests, reading diagnostics, and curriculum-based assessment. Clinical practice required. (Varies)

631. Educational Research for the Reflective Practitioner. Credit 3 hours. Prerequisites: Full SARTE status and MAT 630. Use of research in the modern school program. Topics will include case study design, action research, and data tracking for school improvement. Students will complete a research project. Clinical practice required. (Varies)

636. Assessment II: Secondary Education. Credit 3 hours. Prerequisites: Full SARTE status, MAT 610, MAT 615, MAT 620, and MAT 630. This course is designed as a continuation and application of the concepts examined in Assessment I. Emphasis will be placed on partnerships with parents and colleagues regarding school and classroom expectations and student progress. Changes that have occurred in practice for student evaluation will be addressed. Competency-based clinical practice required. (Varies)

640. Introduction to Reading and Language Arts in Inclusive Elementary Classrooms. Credit 3 hours. Prerequisites: Full SARTE status and successful completion of MAT 610, MAT 615, MAT 620, and MAT 630. Concurrent enrollment in MAT 622 and MAT 631. A study of the reading, writing, and language processes as a fundamental aspect of the elementary and special education curriculum. Special attention will be given to the basic reading skills and strategies needed by mature readers. The latest in theories, methods, and materials will be appraised through study, observations, and demonstrations in classrooms. Competency-based clinical practice required. (Fall)

642. Literacy Instruction for Secondary Education. Credit 3 hours. Prerequisites: Full SARTE status and successful completion of MAT 610, MAT 615, MAT 620, and MAT 630. A study of theories and methods for integrating literacy instruction in content area classrooms. Reading assessments and literacy strategies that are designed to increase vocabulary learning and comprehension of expository text are introduced and practiced. Competency-based clinical practice required. (Varies)

650. Integrated Learning Methods. Credit 3 hours. Prerequisite: Enrollment in the multi-level MAT program or Certification-Only program. Course in methodology for diverse classroom settings for integrating content areas such as mathematics, the sciences, social sciences, humanities, and information literacy. Thematic units will be designed to include integrated content from areas appropriate for the teacher candidate's area of certification being earned. Units will include instructional planning, teaching, and assessment with an emphasis on differentiation and infusing technology. Competency based clinic practice required. (Fall, Spring)

651. Integrated Learning Methods: Life Sciences, Health and P.E., and Information Literacy. Credit 3 hours. Prerequisites: Full SARTE status and successful completion of MAT 610, MAT 615, MAT 620, MAT 622, MAT 630, MAT 631, and MAT 640. Concurrent enrollment in MAT 650 and MAT 652. Integrated course in methodology for teaching math, physical sciences, and information literacy to diverse groups of learners in inclusive elementary classes. Thematic units will be designed to include integrated content from the three subject areas. Development of literacy competencies for informational text and children's literature are also integrated into instructional planning, teaching, and assessment. Competency-based clinical practice required. Professional development hours are required. (Spring)

652. Integrated Learning Methods: Social Studies, Arts, Music, and Information Literacy. Credit 3 hours. Prerequisites: Full SARTE status and successful completion of MAT 610, MAT 615, MAT 620, MAT 622, MAT 630, MAT 631, and MAT 640. Concurrent enrollment in MAT 650 and MAT 651. Integrated course in methodology for teaching math, physical sciences, and information literacy to diverse groups of learners in inclusive elementary classes. Thematic units will be designed to include integrated content from the three subject areas. Development of literacy competencies for informational text and children's literature are also integrated into instructional planning, teaching, and assessment. Clinical practice is required. Professional development hours are required. (Spring)

660. Specialty Area Learning Methods. Credit 3 hours. Prerequisite: Enrollment in the multi-level MAT program or Certification-Only program. Consideration of methods and materials in the student's major content teaching field. The course includes competency-based clinical practice. (Fall, Spring)

661. Specialty Area Learning Methods II: Secondary Education. Credit 3 hours. Prerequisites: Full SARTE status and successful completion of MAT 610, MAT 615, MAT 620, MAT 630, and MAT 660. A continuation of the consideration of methods and materials in the student's major content teaching field. The course includes clinical practice required at the secondary level. (Fall, Spring)

662. Apprenticeship I in Elementary or Secondary Education. Credit 9 hours. Prerequisites: Full SARTE status, successful completion of Introductory Portfolio, passing score on the Content Praxis II, Minimum 2.5 GPA required with a 3.0 GPA preferred to make application, and permission of the Department Head and school district. Also offered as EDUC 448. This apprenticeship provides the Elementary or Secondary Education major or alternative certification candidate with an assigned placement selected and approved by the University in partnership with a cooperating school/district. The content of this apprenticeship encompasses materials and methods including best practices and innovative teaching strategies in the teacher candidate's major field of certification that is engaged through on-the-job training in the school environment. Lesson planning, alternative assessment, classroom management, and education technology are topics addressed in the apprenticeship. Teacher candidates will earn nine hours of credit for a minimum of 500 hours of approved work experience that follows the school district calendar. Candidates must apply with written application, interview and be selected as an apprentice teacher. (Varies)

670. Research Design for Inclusive Elementary Classroom Education. Credit 3 hours. Prerequisites: Full SARTE status and successful completion of all MAT courses other than student teaching or internship. Principles and procedures for exploring, analyzing, and studying educational problems. Qualitative, quantitative, and single-subject research design methods will be examined in relation to their application for improving education for students in inclusive elementary classes. Survey of significant research studies and application of research principles within action research in the classroom will be implemented. (Summer)

681. Student Teaching in the Elementary and Mild/Moderate Special Education Classroom. Credit 6 hours. Prerequisites: See Requirements for Student Teaching section for the MAT degree program. All-day, all-semester student teaching experiences, including observation, participation, and a minimum of 180 actual clock hours of teaching under the supervision of the assigned cooperating, school teacher. Students may not student teach outside the service region of Southeastern Louisiana University. Available on a pass/fail basis only. (Fall, Spring)

682. Teaching Residency. Credit 3 hours. Prerequisites: Full SARTE status and approval from the Office of Clinical Practice and Residency. See the MAT or Certification-Only catalog sections for specific requirements for Teaching Residency. Teaching Residency is the first semester of a full year residency for competency based clinical practice. Residents will be placed in schools according to their certification programs. The teacher resident will spend at least 60% of the instructional time in partnering schools under the supervision of an assigned mentor teacher. Through co-teaching with a mentor teacher, the resident will work on instructional planning and implementation, classroom management, and increasing student engagement and achievement. Residents must pass with a B or higher for the course to count towards program completion. (Fall, Spring)

683. Internship in Elementary and Mild/Moderate Special Education. Credit 3 hours. Prerequisites: See Requirements for Internship section for the MAT degree program. To be repeated for two consecutive semesters for a total of six hours. An internship designed to meet the requirements for the Master of Arts in Teaching degree program. Students will enroll in this course for both semesters of the internship year. Approval of the Director of Performance Assessment is required. Available on a pass/fail basis only. (Varies)

684. Student Teaching in Mild/Moderate Special Education. Credit 6 hours. Prerequisites: See Requirements for Student Teaching section for the MAT degree program. All day, all semester student teaching experiences, including observation, participation, and a minimum of 180 actual clock hours of teaching (with a substantial portion of the 180 hours in a full teaching day) under the supervision of the assigned cooperating school teacher. Students may not student teach outside the teacher education service region. Available on a pass/fail basis only. (Varies)

686. Student Teaching in the Secondary Classroom. Credit 6 hours. Prerequisites: See Requirements for Student Teaching section for the MAT degree program. All-day, all-semester student teaching experiences, including observation, participation, and a minimum of 180 actual clock hours of teaching under the supervision of the assigned cooperating, school teacher. Students may not student teach outside the service region of Southeastern Louisiana University. Available on a pass/fail basis only. (Varies)

687. Teaching Internship. Credit 3 hours. Prerequisites: Full SARTE status and approval from the Office of Clinical Practice and Residency. See Requirements for Internship section for the MAT degree or the Certification-Only program sections of the catalog. Teaching Internship is the first semester of a full year internship designed to meet the requirements for teacher candidates already employed as teachers of record in approved school classrooms. Students may not intern outside the service region of Southeastern Louisiana University. Through supported teaching under the guidance of a mentor teacher and a University site coordinator, the intern will work on instructional planning and implementation, classroom management, and increasing student engagement and achievement. Interns must pass with a B or higher for the course to count towards program completion. (Fall/ Spring)

688. Teaching Internship Capstone. Credit 3 hours. Prerequisites: A grade of B or higher in MAT 687 and a passing score on all Praxis exams required in the certification area. Teaching Internship Capstone is the final semester of an internship designed to meet the requirements for teacher candidates already employed as teachers of record in approved school classrooms. Through supported teaching under the guidance of a mentor teacher and a University site coordinator, the intern will demonstrate proficiency in instructional planning and implementation, classroom management, and increasing student engagement and achievement. Interns must receive a final grade of B or higher for the course to graduate. (Fall, Spring)

689. Student Teaching in Elementary Education (Grades 1-5). Credit 6 hours. Prerequisites: See Requirements for Student Teaching section for MAT degree program. All day, all semester student teaching experiences, including observation, participation, and a minimum of 180 actual clock hours of teaching (with a substantial portion of the 180 hours in a full teaching day) under the supervision of the assigned cooperating school teacher. Students may not student teach outside the teacher education service region. Available on a pass/fail basis only. (Varies)

690. Internship in Mild/Moderate Special Education. Credit 3 hours. Prerequisites: See Requirements for Internship section for the MAT degree program. To be repeated for two consecutive semesters for a total of six hours. Students may not intern outside the teacher education service region. Available on a pass/fail basis only. (Varies)

692. Teaching Residency Capstone. Credit 3 hours. Prerequisite: A grade of B or higher in MAT 682 and a passing score on all Praxis exams required in the certification area. Teaching Residency Capstone is the final semester of a residency for competency based clinical practice and is all day, all week following the assigned school district calendar. Teacher Residents will be placed in schools according to their certification programs. The teacher resident will spend up to 100% of the instructional time in partnering schools under the supervision of an assigned mentor teacher. Through co-teaching with the mentor teacher, the resident will work on instructional planning and implementation, classroom management, and increasing student engagement and achievement. The residency experience will culminate in the teacher resident being the lead teacher for the classroom. Residents must receive a final grade of B or higher for the course to graduate. (Fall, Spring)

Math Education (MTED)

385. Methods for School Mathematics. Credit 4 hours. Prerequisite: Concurrent enrollment in or prior credit for MATH 360, 370, or 380. Course will cover teaching methods and strategies for topics in the grades 7-12 mathematics curricula. This course is designed for teacher candidates who will be teaching mathematics primarily at the secondary level. The course includes a competency-based clinical practice component involving direct teaching in the secondary mathematics classroom. Two hours lecture per week. (Varies)

386. Methods for School Mathematics. Credit 3 hours. Prerequisite: EDUC 315 or 316, EDUC 307 or 407, 2.75 cumulative grade point average, and permission of Department Head. Course covers best practices for instruction in mathematics. Topics include Louisiana Student Standards of Mathematics, Standards for Mathematical Practice, effective teaching practices, facilitating mathematical discussions, and inquiry-based teaching. This course is designed for teacher candidates who will be teaching mathematics primarily at the middle school and secondary levels. Competency-based clinical practice required. (Fall)

611. Topics in Algebra for Teachers, Grades 1-8. Credit 3 hours. Prerequisite: Regular admission to Graduate Studies. A course designed to relate the algebraic concepts and processes taught and discussed in grades 1-8 to the mathematically unifying concept of algebraic structure, the properties and operations of the natural numbers, integers, rational, and real numbers, patterns, relations, and functions; analysis of mathematical situations and structures using algebraic symbols; and analysis of change in various contexts. Students will be expected to become familiar with the research in the teaching and learning of algebra and the implications of this research to the teaching of algebra in grades 1-8. (Varies)

612. Topics in Geometry and Measurement for Teachers, Grades 1-8. Credit 3 hours. Prerequisite: Regular admission to Graduate Studies. A course designed to study various mathematical approaches to the geometric concepts and measurement processes taught and discussed during grades 1-8. Concepts will include coordinate geometry, transformations, symmetry, modeling, measurement, the development of the educational structure of the van Heile levels and its application to the teaching of geometry and measurement, the research in the teaching and learning of geometry and measurement, and the implications of this research to the teaching of geometry and measurement in grades 1-8. (Varies)

615. Topics in Number Theory for Elementary and Middle School Teachers. Credit 3 hours. Prerequisite: Regular admission to Graduate Studies. A course designed to study properties and patterns of natural numbers with emphasis on prime numbers, divisibility, and congruences. Students will be exposed to number theoretic results from a historical perspective, the connection between number theory, algebra and patterns, how the concepts of number theory can appear in mathematics curriculum, in grades 1-8, and the research in the teaching and learning of number theoretical concepts in grades 1-8. (Varies)

616. Topics in Data Analysis and Probability for Teachers, Grades 1-8. Credit 3 hours. Prerequisite: Regular admission to Graduate Studies. An introduction to informal comparing, classifying, and counting activities that provide the mathematical beginnings for developing young learners' understanding of data, analysis of data, and statistics. Probability will be approached as the study of activities that underlie experimental probability. Statistics will be approached as both a descriptive and predictive science. Students will be expected to become familiar with the concepts of data analysis and probability that appear in the mathematics curriculum, in grades 1-8, and the research in the teaching and learning of data analysis and probability concepts in grades 1-8. (Varies)

622. Topics in Geometry for Teachers, 7-14. Credit 3 hours. Prerequisites: Regular admission to Graduate Studies and completion of MATH 200 with a grade of C or better. A course designed to study various mathematical approaches to the geometric concepts and processes taught and discussed during grades 7-12 and in the community colleges. Topics include geometric concepts and processes through axiomatics, coordinate geometry, vectors, and groups of transformations, the historical development of the educational structure of the van Heile levels. The students will be expected to become familiar with the research in the teaching and learning of geometry and the implications of this research to the teaching of geometry in grades 7-14. (Varies)

623. Topics in Calculus for Teachers, 7-14. Credit 3 hours. Prerequisites: Regular admission to Graduate Studies and completion of MATH 200 with a grade of C or better. A course designed to study properties of natural numbers with emphasis on prime numbers, divisibility, and congruencies. Topics include number theoretic results from a historical perspective and the connection between number theory and algebra. Students will be expected to become familiar with how the concepts of number theory can appear in the mathematics curriculum, in grades 7-14, and the research in the teaching and learning of number theoretical concepts in grades 7-14. (Varies)

625. Topics in Number Theory for Teachers, 7-14. Credit 3 hours. Prerequisites: Regular admission to Graduate Studies and completion of MATH 200 with a grade of C or better. A course designed to study properties of natural numbers with emphasis on prime numbers, divisibility, and congruencies. Topics include number theoretic results from a historical perspective and the connection between number theory and algebra. Students will be expected to become familiar with how the concepts of number theory can appear in the mathematics curriculum, in grades 7-14, and the research in the teaching and learning of number theoretical concepts in grades 7-14. (Varies)

626. Topics in Probability and Statistics for Teachers, 7-14. Credit 3 hours. Prerequisites: Regular admission to Graduate Studies and completion of MATH 200 with a grade of C or better. An introduction to the study of probability and statistics with an emphasis on the mathematical theories of both. Probability will be approached as the study of specific functions with certain properties. Statistics will be approached as both a descriptive and predictive science. Statistical packages will be utilized as well as studied for their impact on the teaching of statistics. Students will be expected to become familiar with the concepts of probability and statistics that appear in the mathematical curriculum, in grades 7-14, and the research in the teaching and learning of probability and statistical concepts in grades 7-14. (Varies)

Mathematics (MATH)

100. Corequisite Mathematics. Credit 1-3 hours. Prerequisite: Permission of the Department Head. This course is offered as a corequisite component designed to facilitate student success in entry-level mathematics courses. A minimum of two laboratory hours per week. The final course grade will be on a Pass (P) or Unsatisfactory (U) basis. Credit hours earned do not count toward graduation. (Summer, Fall, Spring)

105. Finite Mathematics. [LCCN: CMAT 1313, Finite Mathematics]. Credit 3 hours. Prerequisite: Mathematics ACT score of 19 or above or an appropriate score on the ALEKS Placement Assessment or satisfactory completion of an appropriate developmental mathematics course. An introductory level course covering mathematical ideas appropriate for students majoring in disciplines that do not require calculus or calculus-preparation courses, including algebra and trigonometry. Topics include linear equations and linear inequalities, linear programming, matrix theory, sets and counting techniques, permutations and combinations, financial math, and an introduction to probability and statistics. A laboratory fee is required for this course. (Summer, Fall, Spring)

107. Applied Algebra. [LCCN:CMAT 1203, Applied Algebra]. Credit 3 hours. Prerequisite: Minimum mathematics ACT score of 19 or an appropriate score on the ALEKS test or completion of an appropriate developmental mathematics course with the grade of "C" or better. Must be taken concurrently with MATH 100 or MATH 108, depending on placement. An introduction to the study of solving equations and inequalities; function properties and graphs; linear, quadratic, polynomial, exponential and logarithmic functions, and their applications. Only one of MATH 107 or 161 may be used for degree credit. (Summer, Fall, Spring)

108. Applied Algebra Laboratory. Credit 2 hours. Prerequisite: Minimum mathematics ACT score of 19 or an appropriate score on the ALEKS test or completion of an appropriate developmental mathematics course with the grade of "C" or better. Must be taken concurrently with MATH 107. Laboratory integrated into MATH 107. The final course grade will be on a Pass (P) or Unsatisfactory (U) basis. Four hours of laboratory per week. (Summer, Fall, Spring)

161. College Algebra. [LCCN: CMAT 1213, College Algebra]. Credit 3 hours. Prerequisite: Minimum mathematics ACT score of 22 or a grade of "C" or better in MATH 107 or an appropriate score on the ALEKS Placement Assessment. An in-depth study of solving equations and inequalities; function properties and graphs with transformations; inverse functions; linear, quadratic, polynomial, rational, exponential and logarithmic functions with applications. Only one of MATH 107 or 161 may be used for degree credit. (Summer, Fall, Spring)

162. Plane Trigonometry. [LCCN: CMAT 1223, Trigonometry]. Credit 3 hours. Prerequisite: MATH or 161. The study of trigonometric functions. Topics include the laws of sine and cosine, the trigonometric functions and their graphs, inverse trigonometric functions, trigonometric identities and equations, complex numbers, graphs of parametric equations and graphs in polar coordinates. Trigonometry and trigonometric functions will be used to model and solve real world applications. (Summer, Fall, Spring)

163. Applied Calculus. [LCCN: CMAT 2103, Applied Calculus]. Credit 3 hours. Prerequisite: MATH or 161. An introduction to differential and integral calculus. Topics will include limits, the derivative, antiderivatives, and the definite integral. Polynomial, rational, radical, exponential, and logarithmic functions will be studied. Not open to students with credit for MATH 200. (Summer, Fall, Spring)

175. Pre-Calculus with Trigonometry. [LCCN: CMAT 1235, Algebra and Trigonometry]. Credit 5 hours. Prerequisite: Minimum mathematics ACT score of 25 or higher or a grade of "C" or better in MATH or 161. A combined course on function properties and graphs; inverse functions; linear, quadratic, polynomial, rational, exponential and logarithmic functions with applications; trigonometric functions and graphs; inverse trigonometric functions; fundamental identities and angle formulas; solving equations, and triangles with applications. (Summer, Fall, Spring)

175H. Honors Pre-calculus with Trigonometry. [LCCN: CMAT 1235, Algebra and Trigonometry]. Credit 5 hours. Prerequisites: Active status in the University Honors Program and minimum mathematics ACT score of 25, a grade of "C" or better in MATH or 161, or permission of the Department Head. A combined course on function properties and graphs; inverse functions; linear, quadratic, polynomial, rational, exponential and logarithmic functions with applications; trigonometric functions and graphs; inverse trigonometric functions; fundamental identities and angle formulas; solving equations, and triangles with applications. (Fall)

185. Contemporary Mathematics. [LCCN: CMAT 1103, Contemporary Math]. Credit 3 hours. Prerequisite: MATH 105 or 107 or 161. An introduction to topics in contemporary mathematics. Topics may be selected from the theory of finance, perspective and symmetry in art, formal Aristotelian logic, graph theory, probability and odds, elementary number theory, optimization, numeracy in the real world, and historical topics in mathematics that have influenced contemporary mathematics. (Spring)

200. Calculus I. [LCCN: CMAT 2115, Calculus I]. Credit 5 hours. Prerequisite: Minimum mathematics ACT score of 28 or a grade of "C" or better in MATH 175. The first of a standard three-course sequence on the foundations of differential and integral calculus. Topics include limits, continuity, the derivative, techniques of differentiation, applications of the derivative, antiderivatives, definite integrals, the calculus of transcendental functions, applications of definite integrals, work and volume. (Summer, Fall, Spring)

200H. Calculus I Honors. [LCCN: CMAT 2115, Calculus I]. Credit 5 hours. Prerequisites: Active status in the University Honors Program and minimum mathematics ACT score of 28, a grade of "C" or better in MATH 175, or permission of the Department Head. The first of a standard three-course sequence on the foundations of differential and integral calculus. Topics include limits, continuity, the derivative, techniques of

differentiation, applications of the derivative, antiderivatives, definite integrals, and the calculus of transcendental functions, applications of definite integrals, work and volume. (Fall)

201. Calculus II. [LCCN: CMAT 2125, Calculus II]. Credit 5 hours. Prerequisite: A grade of "C" or better in MATH 200. The second of a standard three-course sequence on the foundations of differential and integral calculus. Topics include techniques of integration, applications of the integral, parametric equations, polar coordinates, sequences, and infinite series. (Fall, Spring)

223. Foundations of Discrete Mathematics. Credit 3 hours. Prerequisite: MATH 200. This course is designed to introduce students to the techniques of writing mathematical proofs. Topics include logic, quantified statements, elementary number theory, sets, and functions and relations. (Fall, Spring)

241. Elementary Statistics. [LCCN: CMAT 1303, Introductory Statistics]. Credit 3 hours. Prerequisite: MATH 105 or 107 or 161. An introduction to descriptive and inferential statistics. Topics include: organizing and displaying data; measures of central tendency, position, and dispersion; correlation and linear regression; discrete and continuous probabilities; normal distribution; Student t-distribution; sampling distributions; confidence intervals; and hypothesis testing. (Summer, Fall, Spring)

241H. Elementary Statistics Honors. [LCCN: CMAT 1303, Introductory Statistics]. Credit 3 hours. Prerequisite: Active status in the University Honors Program and MATH 105 or 107 or 161 or mathematics ACT of 28 or higher or permission of the department head. An introduction to descriptive and inferential statistics. Topics include: organizing and displaying data; measures of central tendency, position, and dispersion; correlation and linear regression; discrete and continuous probabilities; normal distribution; Student t-distribution; sampling distributions; confidence intervals; and hypothesis testing. (Varies)

247. Number Structure for PK-8 Teachers. [LCCN: CMAT 1413, Math for Elementary Teachers]. Credit 3 hours. Prerequisites: A grade of "C" or better in two of the following courses: MATH 105, MATH 107, MATH 161, or MATH 241. This course is designed to prepare early childhood, elementary, and middle school math teachers to teach number and operations concepts in the PK-8 curriculum. Topics include number systems, fractions, operations on rational numbers, ratio and proportional relationships, and number theory. This course will emphasize Standards for Mathematical Practice, conceptual understanding, mathematical language, procedures, algorithms, applications, and dispositions. No calculators allowed for this course. (Fall, Spring)

248. Algebra and Geometry Concepts for PK-8 Teachers. [LCCN: CMAT 1423, Geometry for Elementary Teachers]. Credit 3 hours. Prerequisite: A grade of "C" or better in MATH 247. This course is designed to prepare early childhood, elementary, and middle school math teachers to teach algebra and geometry concepts in the PK-8 curriculum. Topics include algebraic expressions, equations, and functions; two- and three-dimensional space; measurement; perimeter, area, and volume; and geometry of motion and change. This course will emphasize Standards for Mathematical Practice, conceptual understanding, mathematical language, procedures, algorithms, applications, and dispositions. (Fall, Spring)

249. Mathematics for Middle School Science, Social Studies, and English Teachers. Credit 3 hours. Prerequisites: A grade of "C" or better in two of the following courses: MATH 105, MATH 161, or MATH 241. Topics include mathematics concepts based on the Louisiana Student Standards for grades 3-9, including rational numbers, algebraic and proportional reasoning, measurement, probability, statistics, and mathematical modeling. This course will emphasize Standards for Mathematical Practice; mathematical language; procedures; algorithms; applications to science, social studies, and English; and dispositions. Graphing technology is required for this course. (Spring)

257. Probability and Statistics for Middle School and Secondary Mathematics Teachers. Credit 2 hours. Prerequisite: A grade of "C" or better in MATH 247. Topics include core concepts of probability and statistics, including variability, creation and implementation of surveys, statistical inference, graphical displays, probability, and simulations. Statistical analysis will be introduced through a problem-solving approach. This course will emphasize Standards for Mathematical Practice, mathematical language, procedures, algorithms, applications, and dispositions. Graphing technology is required for this course. (Spring)

258. Algebra for Middle School and Secondary Mathematics Teachers. Credit 3 hours. Prerequisite: A grade of "C" or better in MATH 248. Topics include core concepts of algebra, including notation, expressions, equations, proportional relationships, functions, representations, and patterns of change. This course will emphasize Standards for Mathematical Practice, mathematical language, procedures, algorithms, applications, and dispositions. Graphing technology is required for this course. (Fall)

259. Geometry for Middle School and Secondary Teachers. Credit 3 hours. Prerequisite: A grade of "C" or better in Math 248. Topics include core concepts of geometry, including Euclidean geometry, transformations, congruence, similarity, right triangles, two- and three-dimensional objects, geometric constructions, proof and analytic geometry. This course will emphasize Standards for Mathematical Practice, mathematical language procedures, algorithms, applications, and dispositions. Dynamic geometry software is required for his course. This course may not be used for a major or minor in Mathematics. For the purpose of certification in secondary education, this course is considered below the calculus level. (Fall)

260. Trigonometry and Calculus Concepts for Middle School Mathematics Teachers. Credit 3 hours. Prerequisite: A grade of "C" or better in MATH 258. Topics include core concepts of trigonometry and calculus, including right triangle geometry, periodic phenomena, trigonometric identities, limits, continuity, rates of change, and techniques of differentiation and integration. This course will emphasize Standards for Mathematical Practice, mathematical language, procedures, algorithms, applications, and dispositions. Graphing technology is required for this course. (Spring)

309. College Geometry. Credit 3 hours. Prerequisite: MATH 223. A study of axiomatic systems, advanced Euclidean geometry, hyperbolic geometry, and geometric transformations. (Varies)

311. History of Mathematics. Credit 3 hours. Prerequisite: MATH 200. A survey of the history of mathematics from ancient times. Mathematical topics studied include number bases, Pythagorean triples, figurative numbers, construction of tangent lines to curves, and solutions of cubic and quartic equations. (Varies)

312. Calculus III. Credit 3 hours. Prerequisite: A grade of "C" or better in MATH 201. The third of a standard three-course sequence on calculus. Topics include vectors, vector-valued functions, functions of several variables, partial differentiation, multiple integration, and vector calculus. (Fall, Spring)

350. Ordinary Differential Equations. Credit 3 hours. Prerequisite: MATH 201. An introduction to ordinary differential equations. Topics will include solutions of linear first-order differential equations, higher order equations, linear and nonlinear systems of differential equations, power series solutions, LaPlace transform methods, eigenvalue methods for solving linear systems of differential equations, and graphical analysis of solutions. (Fall, Spring)

360. Linear Algebra I. Credit 3 hours. Prerequisites: MATH 201 and MATH 223. An introduction to linear algebra. Topics will include systems of equations, matrices, determinants, vector spaces, linear transformations, eigenvalues/eigenvectors/eigenspaces, diagonalization, and inner product spaces. (Fall, Spring)

370. Abstract Algebra I. Credit 3 hours. Prerequisites: MATH 309 or MATH 360. An introduction to abstract algebra concentrating on elementary group theory. Topics will include properties of groups, subgroups, finite groups, cyclic groups, permutation groups, homomorphisms, isomorphisms, normal subgroups, and factor groups. (Fall)

380. Mathematical Statistics I. Credit 3 hours. Prerequisite: MATH 201. An introductory course in calculus-based statistics. Topics will include the basic rules of probability, commonly used discrete and continuous distributions, random sampling and sampling distributions, regression analysis, parameter estimation, and hypothesis testing. (Fall, Spring)

383. Independent Projects in Mathematics. Credit 1-6 hours. Prerequisites: Junior standing, 2.5 adjusted grade point average, and permission of the Department Head. An opportunity for students to apply mathematics in a specific assignment under the direction of a faculty member of the Department of Mathematics. Specific assignments may include, but are not limited to, projects and/or service learning opportunities in business, industry, commercial, governmental or educational agencies. This course may be taken/repeated for a maximum of 6 hours credit. This course cannot be used to satisfy mathematics requirements for any degree program. (Varies)

391. Internship in Mathematics. Credit 3-12 hours. Prerequisites: Junior standing, 2.5 adjusted grade point average, and permission of the Department Head. Internship in mathematics provides a student with experience in the application of mathematics in an assignment selected and approved by the University with a cooperating business, industry, governmental or educational setting. Credit hours are earned at a rate of one semester hour for each 40 hours of approved work experience. The course may be taken/repeated for a maximum of 12 hours credit. This course cannot be used to satisfy mathematics requirements in any degree program. (Varies)

392. Numerical Methods. Credit 3 hours. Prerequisites: MATH 201 and one of SC 200 or CMPS 280. Computer-oriented methods for scientific programs. Topics include error analysis, Taylor series, solutions of non-linear equations, systems of linear equations, interpolation, differentiation and integration. (Fall, Spring)

402/506. Partial Differential Equations. Credit 3 hours. Prerequisites: MATH 312 and MATH 350. An introduction to partial differential equations. Topics will include solutions to linear first and second order partial differential equations such as the heat and wave equations, the method of characteristics, Fourier series and convergence, Laplace transforms, d'Alembert's solution, the method of separation of variables, and eigenfunctions of Sturm-Liouville's equation. (Varies)

407/507. Topics in Mathematics. Credit 3 hours. Prerequisite: Permission of the Department Head. Contemporary topics in mathematics and mathematics education. Credit for this course may be acquired more than once. Maximum credit six hours. (Varies)

409/509. Linear Algebra II. Credit 3 hours. Prerequisite: MATH 360. A second course on linear algebra. Topics will include complex numbers and polynomials, vector spaces, bases and similarity, block matrices, inner product spaces, orthonormal vectors, unitary matrices, orthogonal complements, orthogonal projections, eigenvalues/eigenvectors, and geometric multiplicity. (Varies)

410/510. Theory of Numbers. Credit 3 hours. Prerequisites: MATH 201 and MATH 223. An introduction to the properties of integers, number congruences, multiplicative functions, primitive roots, and quadratic residues. (Varies)

414/514. Fundamental Concepts of Geometry. Credit 3 hours. Prerequisite: MATH 309 or MATH 360 or MATH 370. Deductive methods in mathematics; origins and development of concepts of geometry including geometric transformations, transformation groups and hyperbolic, elliptical and real projective geometry. (Varies)

415. Mathematical Modeling. Credit 3 hours. Prerequisites: MATH 350 and 360 and CMPS 280. This course covers techniques for advanced mathematical modeling. Students will develop, modify, and analyze models using numerical software such as R, MATLAB, or Python. Topics include solutions to dynamical systems, stability analysis, curve fitting techniques, data interpolation, and modeling with ordinary differential equations. (Varies)

417/517. Probability Theory. Credit 3 hours. Prerequisites: MATH 223 and MATH 312, and MATH 380. A standard course in Probability Theory. Topics will include axioms of probability, counting methods, distribution functions for discrete and continuous random variables, and joint distributions. (Fall)

421/523. Abstract Algebra II. Credit 3 hours. Prerequisite: MATH 370. A second course in abstract algebra. Topics may include Sylow Theorems, symmetry groups, rings, integral domains, ideals, factor rings, ring homomorphisms, field extensions, and Galois theory. (Varies)

425. Applications of Combinatorics and Graph Theory. Credit 3 hours. Prerequisite: MATH 360. An introduction to the fundamentals of combinatorics including algebra of enumeration, algorithms, recurrence relations, graph theory with decision trees, discrete structures, languages and finite state machines, finite fields. (Varies)

427/527. Introduction to Topology. Credit 3 hours. Prerequisites: MATH 312 and MATH 360. An introduction to point-set topology and metric spaces. Topics include topological spaces, topological equivalency, metric spaces, compact spaces, connected spaces, Hausdorff spaces, and separation theorems. (Varies)

431/533. Numerical Analysis. Credit 3 hours. Prerequisites: MATH 350 and CMPS 280. Numerical methods for solving nonlinear equations and systems of linear equations, approximations of functions by polynomial and spline interpolations, and numerical solutions of differential equations. (Varies)

441/544. Introduction to Real Analysis. Credit 3 hours. Prerequisites: MATH 312 and MATH 360. A rigorous study of calculus. Topics include the epsilon and delta approach to limits, sequences, continuity, the derivative, and the Riemann integral. (Spring)

447. Capstone in Mathematics for Middle School Mathematics Teachers. Credit 2 hours. Prerequisite: A grade of "C" or better in MATH 258. This course is designed to expand and strengthen students' understanding of middle school mathematics through the study of numbers, algebra, geometry, and data analysis in preparation for entering the classroom. This course will focus on the key ideas in middle school mathematics through readings, explorations, and activities involving problem solving, modeling, manipulatives, and technology. Graphing technology is required for this course. This course will emphasize Standards for Mathematical Practice, mathematical language, procedures, algorithms, applications, and dispositions. This course may not be used for a major or minor in Mathematics. (Spring)

450/550. Complex Analysis. Credit 3 hours. Prerequisites: MATH 223 and MATH 312. A course on the theory of functions of a single complex variable. Topics may include algebraic operations of complex numbers, elementary functions, limits, analytic functions, Cauchy-Riemann equations, anti-differentiation, contour integrals, Cauchy's theorem, residues, poles, and infinite series. (Varies)

480. Mathematical Statistics II. Credit 3 hours. Prerequisite: MATH 380. A second course in Statistics. Topics will include joint distributions, correlations and regression, multiple linear regression, ANOVA, factorial experiments, and categorical data. (Varies)

486. Capstone in Mathematics for Secondary Teachers. Credit 3 hours. Prerequisites: MATH 311 and MATH 360. This course is designed to expand and strengthen students' understanding of secondary mathematics through the study of algebra, geometry, number theory, measurement, functions, data analysis and probability, and discrete mathematics. The course will help students to connect the key ideas in secondary mathematics with the higher-level mathematics studied in college courses through explorations, activities, and technology. Students majoring or minoring in mathematics in the College of Science and Technology may not use this course as a 400-level mathematics elective. (Varies)

490. Senior Thesis. Credit 3 hours. Prerequisite: Senior standing. Under the direction of a faculty advisor, the student will complete a thesis paper on a mathematical topic agreed upon by the student and advisor. (Varies)

494/594. Introduction to Reading and Research in Mathematics. Credit 1-3 hours. Prerequisite: Permission of the Head of the Department of Mathematics. A course devoted to research in selected areas of mathematics. Course may be repeated for up to six hours total credit. (Varies)

495/595. Introduction to Reading and Research in Mathematics. Credit 1-3 hours. Prerequisite: Permission of Department Head. A course devoted to research in selected areas of mathematics. Course may be repeated for up to six hours total credit. (Varies)

605. Applied Statistics. Credit 3 hours. Prerequisite: MATH 200 or permission of Department Head. Topics include exploratory analysis of data, sample design and experimental design, normal distributions, sampling distributions, quality control charts, confidence intervals and tests of hypotheses for one and two samples, inference for contingency tables, regression and correlation, and one-way analysis of variance. Statistical packages such as SPSS, Minitab, and SAS may be used. (Varies)

615. Coding Theory and Cryptography. Credit 3 hours. Prerequisites: MATH 200 and permission of the Department Head. An introduction to the fundamentals of coding theory, linear codes, and error-correcting codes. Elements of cryptography including cryptosystems such as RSA, DES, and AES, and identification schemes. (Varies)

617. Applications of Combinatorics and Graph Theory. Credit 3 hours. Prerequisites: MATH 201 and MATH 223 or permission of the Department Head. An introduction to the fundamentals of combinatorics including algebra of enumeration and its interrelations with finite structures, graph theory and its applications, interrelations with data structures and methods of optimizations, and groups and finite fields and their applications. (Varies)

635. Linear and Matrix Algebra I. Credit 3 hours. Prerequisite: MATH 360. A course in linear algebra and its applications. Topics may include linear transformation, inner product spaces, similarity and normal operators, systems of equations, orthogonal projections, Gram-Schmidt orthogonalization, eigenvalues and eigenspaces, diagonalizations, and canonical forms. (Varies)

640. Applied Algebra I. Credit 3 hrs. Prerequisite: MATH 370. A course in algebraic structures and their applications. Topics may include lattices, group, rings, fields, semigroups, and Boolean algebras. (Varies)

645. Analysis I. Credit 3 hours. Prerequisite: MATH 441. A course in analysis and its applications. Topics may include derivatives in higher dimensions, types of integration (Riemann-Stieltjes, Darboux, Lebesgue), Fourier series, fast Fourier transforms, Laplace transforms, metric spaces, Banach spaces, and Banach algebras. (Varies)

690. Special Topics in Mathematics. Credit 3 hours. Selected topics in Mathematics that are new or unique and not covered in existing courses. This course may be taken twice for credit if different topics are studied. (Varies)

770. Thesis. Credit 1-6 hours each semester, with 6 hours needed for graduation. The student must enroll in the thesis course each semester the thesis is in progress. The thesis is graded Pass-Fail. (Fall, Spring, Summer)

Microbiology (MIC & MICL)

205. General Microbiology. [LCCN: CBIO 2123, General Microbiology (Science Majors)]. Credit 3 hours. Prerequisites: GBIO 151 and 153 or permission of Department Head, registration for or prior credit for MICL 207, and all prerequisite courses must have a grade of "C" or better. A survey of the fundamental principles and concepts of the biology of microorganisms including biochemistry, cell biology, metabolism, photosynthesis, cell division, reproduction, genetics, molecular biology, development, evolution, ecology, and diversity as well as a survey of microbial infections and immunity to infectious diseases. For students majoring or minoring in Biology, credit toward the degree will not be granted for both MIC 205 and 223. Three hours of lecture per week. (Summer, Fall, Spring)

207. General Microbiology Laboratory. [LCCN: CBIO 2121, General Microbiology Lab (Science Majors)]. Credit 1 hour. Prerequisites: Registration for or prior credit for MIC 205 and all prerequisite courses must have a grade of "C" or better. A survey of laboratory techniques used to study cellular morphology, growth, metabolism, and identification of bacteria. For students majoring or minoring in Biology credit toward the degree will not be granted for both MICL 207 and 224. Two hours of laboratory per week. A laboratory fee is required for this course. (Summer, Fall, Spring)

223. Medical Microbiology. [LCCN: CBIO 2113, Microbiology for Nursing & Allied Health]. Credit 3 hours. Prerequisites: GBIO 151 and BIOL 152 or permission of Department Head, registration in or prior credit for MICL 224, and all prerequisite courses must have a grade of "C" or better. An introductory course in microbiology with emphasis on the medically important microorganisms and their relationship to disease and immunity. This course is designed primarily for students in Nursing and Allied Health curricula. For students majoring or minoring in Biology credit toward the degree will not be granted for both MIC 205 and 223. Additional hours will not be counted toward student's major or in cumulative GPA average. Three hours lecture per week. (Summer, Fall, Spring)

224. Medical Microbiology Laboratory. [LCCN: CBIO 2111, Microbiology Lab for Nursing and Allied Health]. Credit 1 hour. Prerequisites: Registration in or prior credit for MIC 223 and all prerequisite courses must have a grade of "C" or better. A series of laboratory exercises designed to illustrate the material studied in MIC 223. For students majoring or minoring in Biology credit toward the degree will not be granted for both MICL 207 and 224. Two hours of laboratory per week. A laboratory fee is required for this course. (Summer, Fall, Spring)

225. Medical Microbiology Laboratory Simulation. Credit 1 hour. Prerequisites: Registration in or prior credit for MIC 223, eligibility for the CALL program (RN to BSN in Nursing), and permission of the Department of Biological Sciences. A series of virtual laboratory exercises designed to illustrate the material studied in MIC 223. The virtual laboratory portion of the course provides a review of diagnostic and research procedures used to isolate and identify microorganisms, including microscopy and staining, biochemical testing, molecular biology, serological techniques, and epidemiology. This course does not provide practical experience with chemicals and their properties, chemical reactions, laboratory apparatus, safety procedures, or biology laboratory instruments. This course does not satisfy the prerequisites for any Microbiology Laboratory course. This course is exclusively for students in the CALL nursing program and may not be used to substitute for any Biology, Microbiology, or Zoology laboratory or lecture course, nor can it be used to satisfy prerequisites, corequisites, or requirements for any of these courses. A laboratory fee is required for this course. (Summer, Fall, Spring)

313. Microbial Ecology. Credit 3 hours. Prerequisites: MIC 205 or permission of the Department Head and all prerequisite courses must have a grade of "C" or better. A study of the role of microorganisms in the flow of materials and energy through global ecosystems, and in transformation of organic and inorganic materials. The role of microorganisms in the major biogeochemical cycles, carbon, nitrogen, sulfur, and phosphorus will be covered. Three hours of lecture per week. (Varies)

325. Advanced General Microbiology. Credit 4 hours. Prerequisites: MIC/MICL 205-207 or MIC/MICL 223-224 or permission of Department Head and all prerequisite courses must have a grade of "C" or better. Advanced microbiological techniques; practices used in determinative microbiology. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Spring)

423/523. Environmental Microbiology. Credit 4 hours. Prerequisites: MIC 205 or permission of the Department Head and all prerequisite courses must have a grade of "C" or better. A study of the application of modern microbiological concepts to water pollution, contamination of soil and atmosphere with the intent of understanding the complex microbial processes underlying environmental deterioration, its control and prevention. A major emphasis will be placed on water and wastewater management. Two hours of lecture and four hours laboratory per week. A laboratory fee is required for this course. (Spring)

436/536. Pathogenic Bacteria. [LCCN: CBIO 4543, Pathogenic Microbiology (Upper Level)] Credit 4 hours. Prerequisites: MIC/MICL 205-207 or MIC/MICL 223-224 and Junior standing or permission of the Department Head and all prerequisite courses must have a grade of "C" or better.

A study of the major bacterial pathogens and their relationship to disease and immunity. The laboratory stresses techniques used in the isolation and identification of pathogenic bacteria. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Spring)

438/538. Soil Microbiology. Credit 4 hours. Prerequisites: MIC/MICL 205-207 or MIC/MICL 223-224 and Junior standing and all prerequisite courses must have a grade of "C" or better. A study of soil microorganisms, the impact of environmental factors, and survey of the major nutrient transformations occurring in soil. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Varies)

457/557. Dairy and Food Microbiology. Credit 4 hours. Prerequisites: MIC 325 or permission of Department Head and all prerequisite courses must have a grade of "C" or better. A study of beneficial, pathogenic and spoilage microorganisms associated with dairy and food microbiology. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Even Fall Semesters)

460/560. Immunology. [LCCN: CBIO 5423, Immunology (Upper Level)] Credit 4 hours. Prerequisites: MIC/MICL 205-207, GBIO 200, and all prerequisite courses must have a grade of "C" or better. GBIO 312 recommended. An introduction to the biology of the immune system, including the genes, molecules, cells, and mechanisms that mediate immune recognition and response. Topics covered include innate and adaptive immunity, humoral and cellular components, lymphocyte development and activation, and immune effector mechanisms. A portion of the course will be devoted to the immune system in health and disease and will cover immune responses to infection, evasion strategies of various pathogens, vaccination, immune deficiency diseases (including AIDS), autoimmunity, and cancer. Emphasis will be placed on understanding the experimental basis of the field of immunology. Three hours of lecture and three hours of laboratory per week. A laboratory fee is required for this course. (Fall)

461/561. Bacterial Metabolism. Credit 4 hours. Prerequisites: MIC 205 or 223 and CHEM 261 or 265 and Junior standing or permission of Department Head and all prerequisite courses must have a grade of "C" or better. A study of the metabolism as related to growth and energetics of eubacteria and archaeobacteria. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Fall)

463/563. Virology. [LCCN: CBIO 4561, Biology Seminar] Credit 4 hours. Prerequisites: MIC/MICL 205-207, and GBIO 200 and all prerequisite courses must have a grade of "C" or better. Introduction to molecular and cellular mechanisms mediating virus infection in bacteria, animals, and plants. Topics include specific virus life cycles, cellular and immune responses, evasion strategies, sub viral entities, and viral evolution. Seminar component focuses on reading/discussion of classic and current virology research papers. Three hours of lecture and three hours of seminar per week. A laboratory fee is required for this course. (Spring)

610. Industrial Microbiology. Credit 4 hours. Prerequisite: MIC 461/561 or equivalent. The use of microbes in industrial processes such as production of antibiotics, vitamins, and chemicals. Two hours of lecture and four hours of laboratory per week. A lab fee is required for this course. (Varies)

615. Determinative Microbiology. Credit 4 hours. Prerequisite: MIC 461/561 or consent of the Department Head. A study of the classification, identification and nomenclature of the 19 groups of bacteria. One hour of lecture and six hours of laboratory per week. A laboratory fee is required for this course. (Varies)

640. Microbial Physiology. Credit 4 hours. Prerequisite: MIC 461/561 or equivalent. A study of the relationships between structure and function of bacteria and allied organisms. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Varies)

650. Microbial Genetics. Credit 3 hours. Prerequisite: MIC 461/561 or equivalent. The genetics of microorganisms with special emphasis on the molecular level. A laboratory fee is required for this course. (Varies)

Military Science (MS)

111. Learning to Lead I. Credit 2 hours. Must be taken concurrently with MS 112. Introduction to the basic principles of leadership to include case studies of problems junior leaders encounter. The fundamentals of drill and ceremony, military correspondence, the Army Physical Fitness Program. Significance of customs and traditions of the service. Introduction to rifle marksmanship and basic individual and squad tactics. (Fall)

112. Applied Leadership Development Laboratory I. Credit 1 hour. The practical application of skills and knowledge taught during MS 111. Laboratory develops importance of team building and individual contribution to mission accomplishment. (Fall)

113. Learning to Lead II. Credit 2 hours. Discussion of principles of leadership with emphasis on ethical reasoning, analysis of problems, communication with subordinates, issuance of orders, teaching and coaching subordinates and the leader as a counsellor. Explanation of the organization of Department of the Army and its role in defense of the nation. Individual and squad tactics. Introduction to tactical communication procedures. (Spring)

114. Applied Leadership Development Laboratory. Credit 1 hour. The practical application of leadership skills and light infantry squad tactics. (Spring)

211. Basic Leadership Skills Development I. Credit 2 hours. Must be taken concurrently with MS 212. Discussion of leadership and its application to communication skills and human relations. Practical application of military writing--draft and edit military correspondence. Introduction to military briefings. Application of small unit tactics; individual and squad movement techniques--the responsibility of the leader. (Fall)

212. Applied Basic Leadership Skills I. Credit 1 hour. Practical application of the skills and knowledge taught during MS 211. The student will participate in a physical fitness program and employ tactical communications. The student will participate in tactical leadership problems at squad level. (Fall)

213. Basic Leadership Skills Development II. Credit 2 hours. A discussion of leadership relating to a small unit leader's mission analysis and planning to accomplish the selected course of action; supervision to accomplish a task, motivational techniques to influence others and molding a unit as a team. A survey of leadership case studies. The fundamentals of map reading: marginal information, the grid system, the contour system and the method of navigating using a military map and lensatic compass. (Spring)

214. Applied Basic Leadership Skills II. Credit 1 hour. The practical application of the skills and knowledge taught during MS 213. Practical exercise designed to teach the student leadership via light infantry squad and platoon tactics. The leader in the conduct of an ambush patrol. (Spring)

311. Tactical Leadership Development I. Credit 2 hours. Must be taken concurrently with MS 312. A discussion of the role of the non-commissioned officer, how and officer effectively employs the NCO. The discussion of fundamentals of tactical leadership, troop leading procedures in the conduct of an operation, the leader's analysis of terrain, the principles of offensive operations, the preparation of a platoon operations orders, and briefing the order. (Fall)

312. Practical Application of Tactical Leadership I. Credit 1 hour. The practical application of skills and knowledge taught during MS 311, emphasizing the leader in action in various tactical application exercises. (Fall)

313. Tactical Leadership Development II. Credit 2 hours. A comprehensive study of the art of navigating across terrain using a map and compass. Case studies of leadership - emphasis is on leadership traits and principles necessary to complete CLC using actual battle experience from World War II, the Korean Conflict and the Vietnam War. (Spring)

314. Practical Application of Tactical Leadership II. Credit 1 hour. The practical application of skills and knowledge taught during MS 313. Practical exercises using a military map and compass. Leadership as it pertains to organizing a unit for a mission, developing a plan to accomplish the mission and writing the order. (Spring)

Music (MUS)

101. Voice Class. Credit 1 hour. The study and practice of the art of singing. Intended to provide training in the fundamentals of singing. May be taken more than once for credit. (Fall, Spring)
102. Voice Class. Credit 1 hour. The continuation study and practice of the art of singing. Intended to provide training in the fundamentals of singing. May be taken more than once for credit. Credit toward the degree will not be granted for the Music major. (Fall, Spring)

103/104. Class Piano. Credit 1 hour, each semester. Two one-hour class meetings per week. Intended to train music majors in fundamentals of piano techniques and repertoire. Courses must be taken concurrently with MUS 111-112, or with permission of the Department Head. Non-music majors accepted by audition. (103-Fall/104-Spring)

105/405/505. Music Theatre Performance. Credit 1 hour each course. Study and performance of standard literature of opera, musical comedy, and other dramatic musical forms. Open to all students of the University with approval of the Music Theatre director. May be repeated for credit. (Fall, Spring)

109. Class Piano for Non-Music Majors. Credit 1 hour. An introductory course intended for the non-music major with no prior piano study, or only a negligible amount. Music reading, improvisation, harmonizing melodies, and a variety of repertory will be covered. (Fall, Spring)

111. Music Theory. Credit 3 hours. Prerequisite: Successful completion of entrance exam or MUS 130 or permission of the Department Head. Beginning study of the basic elements of music: Rhythmic, melodic, harmonic materials, chord inversions, and non-harmonic tones, with critical listening, singing, and dictation using materials studied. Three hours of lecture and two hours of laboratory per week. (Fall)

112. Music Theory. Credit 3 hours. Prerequisite: MUS 111. Continuation of MUS 111. Primary and secondary triads and seventh chords, with harmonic analysis and creative writing, critical listening, singing, and dictation using materials studied. Three hours of lecture and two hours of laboratory per week. (Spring)

115. Diction: English and Italian. Credit 1 hour. Use of international phonetic alphabet, employing rules for correct pronunciation of the English and Italian languages in singing. (Fall)

119. Diction: German. Credit 1 hour. Use of international phonetic alphabet, employing rules for correct pronunciation of the German language in singing. (Spring Odd Year Semesters)

120. Diction: French. Credit 1 hour. Use of international phonetic alphabet, employing rules for correct pronunciation of the French language in singing. (Spring Even Year Semesters)

121/421/521. Orchestra. Credit 1 hour each course. A minimum of 3 hours of rehearsal a week. Open to all qualified persons by audition. Qualified music majors must fulfill the course requirements by performance in a professional orchestra such as the Baton Rouge Symphony, the Acadiana Symphony, the Louisiana Sinfonietta, or the Louisiana Philharmonic. May be repeated for credit. (Fall, Spring)

123/423/523. Jazz Ensemble. Credit 1 hour. Minimum of two meetings per week. Open to all qualified students by audition. May be repeated for credit. (Fall, Spring)

125/425/525. Southeastern Wind Symphony. Credit 1 hour. Open to all students by audition. Wind Symphony members who are undergraduate music majors and whose primary applied music course is in a wind or percussion instrument are required to participate in the Marching Band during the fall semester. The Wind Symphony meets five hours per week. May be repeated for credit. (Fall, Spring)

127/427/527. Athletic Bands. Credit 1 hour. Open to all students by audition. Marching Band will perform during the fall semester. Basketball Band will perform during the late fall and spring semester. A minimum of five hours of rehearsal a week. May be repeated for credit. (Fall, Spring)

129/449. Recital Hour. No Credit. Graded pass/fail. A weekly recital seminar consisting of student performances, lectures and discussions on topical music concerns. The department expects all undergraduate music students in each semester of full-time residence (to a maximum of eight semesters) to attend, and document, eighteen scheduled and designated recital hour seminars, faculty recitals, and/or other concerts. (Fall, Spring)

130. Fundamentals of Music Theory. Credit 3 hours. Prerequisite: A score of less than 70% on the MUS 111 entrance exam as verified by the Department Head. Introductory study of the basic elements of music with emphasis on musical notation, pitch (including scales and key signatures), meter and rhythm, and harmony (including intervals, triads and basic seventh chords) with creative applications and study of examples from music literature. Introductory concepts in sight singing and ear training. (Fall)

131/431/531. Chorus. Credit 1 hour each course. Three hours of rehearsal a week. Open to all students. May be repeated for credit. (Fall, Spring)

135/435/538. Concert Choir. Credit 1 hour each course. A select choir open to all students by audition. Five hours rehearsal a week. May be repeated for credit. (Fall, Spring)

137/437/539. Bella Voce. Credit 1 hour. Open to all treble voices. Study and performance of the entire body of choral music for treble voices including both serious and popular selections. Emphasis on attaining high musical standards and levels of choral-vocal proficiency. Includes several performances and concerts. May be repeated for credit. (Fall, Spring)

143/443/543. Symphonic Band. Credit 1 hour. Open to all students by audition. Symphonic Band will perform during the spring semester. A minimum of three hours of rehearsal a week. May be repeated for credit. (Spring)

145/445/545. Chamber Ensemble. Credit 1 hour each course; minimum of two meetings per week. Each ensemble scheduled separately, including Collegium Musicum, brass, wind, percussion, woodwind, clarinet, saxophone, vocal, guitar, and mixed. Open to all qualified persons by permission of the Department Head. May be repeated for credit. (Fall, Spring)

150. Contemporary Guitar Class. Credit 1 hour. Instruction in beginning and intermediate level popular guitar styles. (Fall, Spring)

151. Introduction to Music. [LCCN: CMUS 1013, Music Appreciation]. Credit 3 hours. A non-technical course open to all interested persons. Designed to increase the response to music through a knowledge of the art and development of perceptive listening skills. Opportunities provided to attend concerts and recitals. Credit hours earned cannot be used for graduation in a music curriculum. (Summer, Fall, Spring)

152. Introduction to Music Literature. Credit 2 hours. A survey of the Western art music from antiquity to the present, to provide context and foundation for future detailed study of music history. (Spring)

154/454/552. Southeastern Contemporary Music Ensemble. Credit 1 hour. Open to all music majors by audition. The Southeastern Contemporary Music Ensemble (SoCoMuE) meets a minimum of two and a half hours per week. May be repeated for credit. (Fall, Spring)

171. History of Rock and Roll. Credit 3 hours. An exploration of the history of rock and roll including its significant performers, producers, recordings, performances, and overall cultural identity in the United States. (Summer, Fall, Spring)

172. History of Country Music. Credit 3 hours. An exploration of the history of the country music genre, its significant performers, songwriters, song, and cultural identity from 1922 to the present. (Summer, Fall, Spring)

- 176. Classical Guitar Class.** Credit 1 hour. Beginning instruction in classical guitar. (As Needed)
- 209/210. Class Piano.** Credit 1 hour each semester. Two class meetings per week. Continuation of Class Piano 103-104 to provide more advanced training in piano technique and repertoire. Prerequisite: MUS 111-112 or permission of the Department Head. (209-Fall/210-Spring)
- 211. Music Theory.** Credit 3 hours. Prerequisite: MUS 112. Study of modulation, chromatic harmony, and the expansion of rhythmic and melodic concepts; analysis and creative writing as related to the structural organization of music, with critical listening, singing, and dictation using materials studied. Three hours of class and two hours of laboratory per week. (Fall)
- 212. Music Theory.** Credit 3 hours. Prerequisite: MUS 211. Continuation of MUS 211. Further study of chromatic harmony with an introduction to contemporary practices and techniques, continued analysis, creative writing, critical listening, singing, and dictation. Three hours of lecture and two hours of laboratory per week. (Spring)
- 215. Fundamentals of Jazz Improvisation.** Credit 1 hour. A study of selected basic theoretical principles of improvisation. Use of scales and chord progressions. Two hours of laboratory a week. (Fall, Spring)
- 217. Computer Applications for Music Majors.** Credit 2 hours. Topics include basic computer skills, Musical Instrument Digital Interface (MIDI), and a survey of available software for computer assisted music instruction. (Fall, Spring)
- 218. Introduction to Music Technology.** Credit 3 hours. A study of basic approaches to music creation using musical instrument digital interface (MIDI). Topics will include sequencing, synthesis, music composition, and the use of notation software. A laboratory fee is required for this course. (Fall, Spring)
- 251. History and Appreciation of Jazz.** Credit 3 hours. The study of the history of jazz from its development in America at the turn of the 20th century through the present. Not a substitute for MUS 151. (Spring)
- 291. Fundamentals of Music.** Credit 3 hours. Designed to give elementary-school teachers a knowledge of the elements of music and techniques of performing, creating, and listening to music. (Fall, Spring)
- 303. Introduction to Music Education.** Credit 3 hours. Prerequisites: EDUC 202; concurrent enrollment in MUS 304. An introduction to the role of a school music teacher, various models of school music programs, K-12 music curriculum, and current pedagogical approaches for teaching music. Class discussions, assignments, guided observations of school music classrooms, and beginning competency-based clinical practice in school settings. (Fall)
- 304. Clinical Practice in Music Education.** Credit 1 hour. Prerequisites: EDUC 202; concurrent enrollment in MUS 303. Students observe and assist in school in school music classrooms at elementary and secondary levels representing diverse school populations, and teach mini-lessons to small groups of students. (Fall)
- 309. Basic Jazz Piano.** Credit 1 hour. Introduction to the basic harmonic and melodic techniques used in playing improvised jazz piano. (Varies)
- 310. Instrumental Conducting I.** Credit 2 hours. Prerequisites: MUS 152 and 212. Basic conducting, orchestration, and band literature. (Fall)
- 311. Instrumental Conducting II.** Credit 2 hours. Prerequisite: MUS 310. Advanced conducting, orchestration, and band literature. (Spring)
- 314. Jazz Improvisation II.** Credit 1 hour. Prerequisite: MUS 215. This course will explore and perform intermediate and advanced improvisational techniques. (Spring)
- 318. Digital Music Production.** Credit 3 hours. Prerequisite: MUS 212 or permission of Department Head. An exploration of sound recording, editing, mixing and mastering in the digital studio. Essential recording skills for digital production will be explored. Students will produce small to large field and studio recording projects. A laboratory fee is required for this course. (Fall, Spring)
- 329. Choral Conducting I.** Credit 2 hours. Prerequisites: MUS 152 and 212. Basic choral conducting, choral literature, choral arranging, and instrumental arranging. (Fall)
- 330. Choral Conducting II.** Credit 2 hours. Prerequisite: MUS 329. Advanced choral conducting, choral literature, choral arranging, and instrumental arranging. (Spring)
- 345. Jazz Theory/Composition.** Credit 2 hours. Prerequisite: MUS 212. Study of chord symbols, chord voicing practices, chord progressions, analysis, reharmonization, scale/chord relationships, and bass line construction as applied to jazz composition, arranging, and improvisation practice. (Spring)
- 353. Individual Study.** Credit 1, 2, or 3 hours, amount of credit to be stated at time of registration. Prerequisite: Junior standing or permission of the Department Head. A written proposal of the subject area and procedures is required, to be approved by the instructor and Department Head. Not intended for subjects or courses offered on a regular basis. May be repeated for credit. (Summer, Fall, Spring)
- 354. Music History I.** Credit 3 hours. Prerequisite: MUS 152 or permission of the Department Head. Classical, Romantic and Modern periods. (Spring)
- 355. Music History II.** Credit 3 hours. Prerequisite: MUS 152 or permission of the Department Head. Medieval, Renaissance, Baroque and Pre-Classical periods. (Fall)
- 357. Introduction to World Music.** Credit 2 hours. Prerequisites: MUS 111/112 or permission of Department Head. Introduction to Music in various world cultures. (Spring)
- 361. Composition.** Credit 2 hours. Prerequisites: MUS 371 and 372 or permission of Department Head. Composition in the smaller forms. May be repeated for credit. (Fall, Spring)
- 371. Form and Analysis.** Credit 2 hours. Prerequisite: A grade of "C" or better in MUS 211 and 212. Study of eighteenth- and nineteenth-century forms. Analysis of style from Beethoven through the late Romantic era (Wagner, Brahms, Bruckner). Composition in the styles analyzed. (Fall)
- 372. Form and Analysis.** Credit 2 hours. Prerequisite: Grade of "C" or better in MUS 211 and 212. Twentieth century forms. Style from Debussy to the present with student compositions in each style. Significant twentieth-century trends. (Spring)
- 378. String Methods.** Credit 1 hour. Study of basic techniques in the pedagogy of the violin, viola, cello, and string bass. (Spring)
- 381. Counterpoint.** Credit 2 hours. Prerequisite: A grade of "C" or better in MUS 212. Survey of contrapuntal procedures from fifteenth to twentieth century with emphasis upon the eighteenth century. (Fall)
- 382/583. Counterpoint.** Credit 2 hours. Prerequisites: Junior standing and a grade of "C" or better in MUS 381. Fugue from the eighteenth to the twentieth century. (Spring semester of odd-numbered years)
- 393. Woodwinds I.** Credit 1 hour. Study of basic techniques in the pedagogy of the oboe, bassoon, and flute. (Fall)
- 394. Woodwinds II.** Credit 1 hour. Study of basic techniques in the pedagogy of the clarinet and saxophone. (Spring)
- 395. Brass Class.** Credit 1 hour. Study of basic techniques in the pedagogy of the trombone, euphonium, and tuba, trumpet, cornet, and French horn. Three hours of laboratory per week. (Spring)
- 397. Percussion Class.** Credit 1 hour. Study of basic techniques in the pedagogy of band percussion instruments. (Fall)
- 403/511. Piano Literature and Pedagogy.** Credit 2 hours. A survey of piano teaching literature of all levels; observations, methods of teaching. (Varies)

- 404/512. Class Piano Pedagogy.** Credit 2 hours. A specialized course in piano class materials and techniques involving observation and application of methods. (Varies)
- 411/510. Voice Materials and Methods.** Credit 3 hours. Voice pedagogy. Exploration of methods of voice training, and a study of suitable materials for young singers. Emphasis upon class instructional methods. Offered in alternate years. (Even Year Spring Semesters)
- 413/513. Double Reed Making.** Credit 1 hour. A practical course in the techniques of making and adjusting reeds for the oboe and bassoon. (Varies)
- 414/514. Percussion Pedagogy, Materials and Lab.** Credit 3 hours. Prerequisites: MUS 211, 212, and 152, or permission of the Department Head. Study concert/marching tunable and non-tunable percussion instruments, pedagogy, literature and performance skills. (Varies)
- 416/516. Brass Pedagogy, Materials and Lab.** Credit 3 hours. Prerequisites: MUS 211, 212, and 152, or permission of the Department Head. Study all high and low brass instruments, pedagogy, literature and performance skills, with an emphasis on the student's primary instrument. (Varies)
- 417/517. Woodwind Pedagogy, Materials and Lab.** Credit 3 hours. Prerequisites: MUS 211, 212, and 152, or permission of the Department Head. Study single and double reed woodwind instruments, pedagogy, literature and performance skills, with an emphasis on the student's primary instrument. (Varies)
- 418/518. String Pedagogy, Materials and Lab.** Credit 3 hours. Prerequisites: MUS 211, 212, and 152, or permission of the Department Head. Study high and low string instruments (or guitar), pedagogy, literature and performance skills, with an emphasis on the student's primary instrument. (Varies)
- 419/519. Marching Band Techniques.** Credit 1 hour. The planning, execution and teaching of marching band, performance. Elements of showmanship. (Varies)
- 420/520. Woodwind Repair.** Credit 1 hour. The study of preventive maintenance and the repair of woodwind instruments. Laboratory experience. (Varies)
- 429/529. Piano Literature.** Credit 3 hours. A survey of piano literature from 1700 to 1950. (Varies)
- 430. Keyboard Skills for Pianists.** Credit 1 hour. Prerequisites: MUS 111, 112, 211, and 212, or permission of the Department Head. Study of the functional keyboard skills of harmonization, transposition, improvisation, keyboard harmony, and sight-reading. (Varies)
- 433. Jazz Arranging I.** Credit 1 hour. Prerequisite: MUS 345. Basic arranging and composition skills with emphasis on small jazz ensembles. Study of notation, score layout, instrumentation/orchestration, transpositions, basic harmonic/melodic analysis and chord voicings. Use of notation software such as Finale or Sibelius. (Fall)
- 434. Jazz Arranging II.** Credit 1 hour. Prerequisite: MUS 433. Advanced arranging and composition with emphasis on large jazz ensembles. Advanced harmonic/melodic analysis and chord voicings, reharmonization, one to five-part density and voicing techniques. Use of notation software such as Finale or Sibelius. (Spring)
- 438. Song Literature.** Credit 2 hours. Survey of solo vocal literature from the late eighteenth century to the present. Emphasis upon style, interpretation, and presentation of solo and chamber ensemble materials for all voice classifications. (Even Year Fall Semesters)
- 440. Instrumental Techniques I.** Credit 3 hours. Prerequisites: MUS 211, 212, and 152. Basic conducting, orchestration, and band literature. (Fall)
- 446/546. Instrumental Techniques II.** Credit 3 hours. Prerequisite: MUS 440. Advanced conducting, orchestration, and band literature. (Spring)
- 447. Choral Methods I.** Credit 3 hours. Prerequisites: MUS 211, 212, and 152. Basic choral conducting, choral literature, choral arranging, and basic instrumental arranging. (Fall)
- 448/548. Choral Methods II.** Credit 3 hours. Prerequisite: MUS 447. Advanced choral conducting, choral literature, choral arranging, and instrumental arranging. (Spring)
- 453/553. Seminar in Music History.** Credit 3 hours. Selected topics. May be repeated. (Fall)
- 455/555. Research in Music.** Credit 3 hours. Prerequisite: Grade of "C" or better in all of the following courses, MUS 354, 355, 371, 372, 381, or equivalent courses at other institutions. A study of research techniques: experimental, statistical, historical, and music theory. Preparation of research papers. (Even Year Fall Semesters)
- 456/556. Band Arranging.** Credit 2 hours. Introduction to arranging musical scores and parts for both large and small instrumental ensembles. (Varies)
- 458. Jazz Pedagogy.** Credit 2 hours. Prerequisite: MUS 310. Methods and materials relating to the teaching of jazz; conducting and rehearsal techniques for jazz ensembles; survey of performance literature and concert programming. (Spring)
- 471/571. Choral Literature and Interpretation.** Credit 3 hours. Interpretive choral conducting, rehearsal routine, and program building. Survey of choral materials; practical conducting experience. (Offered in alternate years.) (Varies)
- 500. Music Theory Review for Graduate Students.** Credit 3 hours. May not be applied toward degree. A review of music theory fundamentals, common practice harmony, ear training, theoretical terms, and basic form and analysis. (Fall)
- 554. Music History I Review for Graduate Students.** Credit 3 hours. Prerequisite: A score of less than 70% on the Graduate Placement exam in Music History I as verified by the Department Head. A review of the styles, practices and composers of the Medieval, Renaissance, Baroque and Pre-Classical periods. (Fall)
- 558. Music History II Review for Graduate Students.** Credit 3 hours. Prerequisite: A score of less than 70% on the Graduate Placement exam in Music History II as verified by the Department Head. A review of the styles, practices and composers of the Classical, Romantic and Modern periods. (Spring)
- 641. Seminar in Music History and Literature.** Credit 3 hours. Selected topics. May be repeated. (Spring)
- 642. Directed Individual Study.** Credit 3 hours. Prerequisite: A written proposal of the subject area and procedures, to be approved by the Department Head and the instructor. In fields of Theory, Music History and Literature, Applied Literature, and Music Education. May be Repeated for credit. (Summer, Fall, Spring)
- 643. Graduate Performance Practicum.** Credit 1-3 hours. Performance as a leader, teacher, and organizer. May include serving as assistant conductor of a major ensemble, conducting a public performance of the student's original composition, coaching and accompanying a recital, coaching and performing in a chamber ensemble. Practicum will include seminar experiences. Specific needs of the student will be determined by the advisor. (Summer, Fall, Spring)
- 650. Score Study and Analysis – Instrumental.** Credit 3 hours. Advanced study in score analysis and preparation with focus on works for instrumental/wind band forces. Historical and theoretical study of works from diverse time periods and styles. May be repeated once for credit. (Varies)
- 651. Score Study and Analysis – Choral.** Credit 3 hours. Advanced historical and analytical study of the musical score, which prepare the conductor for both rehearsal and performance. May be repeated once for credit. (Varies)

652. Wind Band Literature. Credit 3 hours. Comprehensive survey of wind band literature from the Baroque, Classical, Romantic, and contemporary periods, with extensive study of repertoire from 1900-present. The course will explore the development of the 20th century public school band literature and examine masterworks of the repertoire. May be repeated once for credit. (Varies)

653. Choral Literature. Credit 3 hours. Study of the art and techniques of choral conducting as related to the study of the score. Major works from the choral and choral/orchestral literature are conducted. Repertoire studied varies from Gregorian Chant through the present. May be repeated once for credit. (Varies)

654. Advanced Instrumental Conducting I. Credit 3 hours. Study of the art and technique of instrumental conducting, with emphasis on application of gesture, non-verbal communication, and application in the rehearsal environment. Significant works of the instrumental literature will be studied and conducted. (Varies)

655. Advanced Choral Conducting I. Credit 3 hours. Study of the techniques required to conduct choral music from Gregorian Chant through the Baroque period with an emphasis on score analysis and performance practice. (Varies)

656. Advanced Instrumental Conducting II. Credit 3 hours. Prerequisite: MUS 654. Study of the art and technique of instrumental conducting, with emphasis on application of gesture, non-verbal communication, aesthetics, and application in the rehearsal environment. Significant works of the instrumental literature will be studied. (Varies)

657. Advanced Choral Conducting II. Credit 3 hours. Prerequisite: MUS 655. Study of the art and techniques of choral conducting as related to a study of the score. Major works from the choral and choral/orchestral literature are conducted. Repertoire studied varies from Classical to the present. (Varies)

661. Styles and Analysis. Credit 3 hours. Comparative analysis of historical styles. Study of significant and representative works. Composition in each style. (Fall)

662. Styles and Analysis. Credit 3 hours. Prerequisite: MUS 661. (Fall)

665. Composition. Credit 3 hours. May be repeated for credit. (Summer, Fall, Spring)

673. Vocal Literature. Credit 3 hours. A survey of literature for the solo voice, with secondary attention to literature for small ensembles such as duets and trios. (Varies)

770. Thesis Research and Thesis. Credit 1-6 hours each semester, with six hours needed for graduation. The student must enroll in the thesis course each semester the thesis is in progress. The thesis is graded Pass/Fail. (Summer, Fall, Spring)

Applied Music (MUSA)

Applied courses are identified by 3-digit sequences, each digit coded for content. First digits are 1 for freshman and sophomore level courses, 4 for junior and senior levels, 5 for graduate level electives, and 6 for graduate level degree credit. The middle digit indicates the applied area: Brass 2, Woodwind 3, Percussion 4, Strings 5, Keyboard 6, and Voice 7. All courses may be repeated as necessary to fit curricula. An examining board of appropriate faculty members in each applied area (voice, keyboard or other instruments) will determine the eligibility of a student in the respective area to register for the succeeding applied music course carrying more than one credit hour. A maximum of one three-hour course in any single applied instrument, voice, or recitals may be scheduled concurrently when appropriate. Approval of the Department Head is required for enrollment in applied music. Priorities for allowing enrollment are: 1) a full-time student whose curriculum specifies the course, 2) a student whose performance will contribute to the music department activities, 3) other students for whom there may be a space available.

121, 131, 141, 151, 161, 171, 421, 431, 441, 451, 461, 471. Applied Music. Credit 1 hour each course. One-hour class lesson or 30-minute private lesson a week in voice or an instrument with a minimum of five hours a week of practice. Music Education majors for whom the course is their major instrument will receive a one-hour private lesson each week. May be repeated for credit. A laboratory fee is required for this course. (Fall, Spring)

122, 132, 142, 152, 162, 172, 422, 432, 442, 452, 462, 472. Applied Music Major. Credit 2 hours each course. One hour of private instruction or one and one-half hours of class and private instruction a week in voice or an instrument, to include ensemble experiences. A minimum of seven and one-half hours of practice a week is expected. A solo performance and a board examination each semester. Attendance at recitals and other performances. May be repeated for credit. A laboratory fee is required for this course. (Fall, Spring)

123, 133, 143, 153, 163, 173, 423, 433, 443, 453, 463, 473. Applied Music Major. Credit 3 hours each course. One hour of private instruction or one and one-half hours of class and private instruction a week in voice or an instrument, to include ensemble experiences. A minimum of ten hours of practice a week is expected. A solo performance and a board examination each semester. Major recitals may be required at certain times in the courses of study. Attendance at recitals and other performances. May be repeated for credit. A laboratory fee is required for this course. (Fall, Spring)

350. Junior Recital. No Credit. Graded Pass/Fail. Prerequisites: Junior standing and permission of the Department Head. Preparation and performance of a recital, approximately 30 minutes in length. May be repeated. (Fall, Spring)

450. Senior Recital. No credit. Graded Pass/Fail. Prerequisites: Senior standing, advanced technical proficiency, musical maturity, and approval of Department Head. The preparation and performance of a recital, approximately one hour in length. May be repeated. (Varies)

523, 533, 543, 553, 563, 573. Applied Music. Credit 3 hours. One hour or two half-hour lessons each week, with a minimum of ten hours practice per week. The student is required to appear before an examining board at the end of each semester. May be repeated for credit. A laboratory fee is required for this course. (Fall, Spring)

621, 631, 641, 651, 661, 671. Applied Music and Pedagogy. Credit 1 hour. A 30-minute private lesson or one-hour class lesson per week. Intended for the active teacher who has identified the need to develop teaching techniques related to the primary performing medium. If the course is repeated, different instruments will be studied, though the Department Head might grant approval to repeat an instrument. Not applicable in meeting minimum applied music requirements for the Master of Music degree. May be repeated for credit. A laboratory fee is required for this course. (Fall, Spring)

623, 633, 643, 653, 663, 673. Applied Music Major. Credit 3 hours. One hour or two half-hour lessons each week, with a minimum of ten hours of practice per week. The student is required to appear before an examining board at the end of each semester. At the discretion of the teacher, a solo performance on a portion of a recital may be substituted for the examination requirement. A laboratory fee is required for this course. May be repeated for credit. (Fall, Spring)

650. Graduate Recital. Credit 3 hours. Prerequisites: Graduate standing, demonstration of highly advanced technical proficiency, musical mastery and approval of instructor. The preparation and performance of a recital approximately one to one and a half hours in length. (Fall, Spring)

Mythology (MYTH)

201. Greek and Roman Mythology. Credit 3 hours. A comprehensive survey of Greek and Roman Mythology for students with little or no background of classical knowledge. Taught in English; knowledge of Greek or Latin is not required. (Fall, Spring)

202. Viking Mythology. Credit 3 hours. The mythology of the Germanic people in relation to literature, art, music, and religion. Taught in English; knowledge of German is not required. (Varies)

204. Mesoamerican Mythology. Credit 3 hours. An overview of the mythology and cosmologies of Mesoamerican cultures, including the Olmecs, the Aztecs, the Maya and other Mesoamerican groups. Taught in English; knowledge of Spanish not required. (Varies)

205. South American Mythology. Credit 3 hours. A survey of the myths and cosmologies of South American peoples. The differences and similarities among highland and lowland cultures will be explored. Taught in English; knowledge of Spanish not required. (Varies)

423. Special Topics in Mythology. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A special topics course that offers a detailed analysis of a particular genre, movement, author or topic. May be repeated for credit up to 6 hours as topics vary. (Varies)

Nursing (NURS & NLAB)

213. First Aid for Rural Medical Emergencies (F.A.R.M.E.). Credit 3 hours. The course emphasizes the training and education of students to appropriately teach community members risk factor recognition, first responder care, and injury prevention of rural and/or farm-related injuries, with emphasis on application of C.A.R.E. Model for emergency response. (Varies)

214. Medical Terminology. Credit 3 hours. Focuses on the meaning of medical terms in specific context and their use in health-related practice. Provides a base upon which to build a larger vocabulary. (Fall, Spring)

215. Death, Dying and the Grieving Process. Credit 3 hours. Prerequisite: Permission of the Department Head. The course focuses on identifying the student's feelings about death and about caring for terminally ill individuals. It explores ways of coping with feelings experienced by persons caring for dying patients. The student would explore approaches to be used in assisting individuals to a peaceful death as well as assisting families of dying patients. (Varies)

216. Prior Learning Assessment in Nursing. Credit 3 hours. Prerequisite: ENGL 102. Utilizes learning theories and reflection techniques to assist students to identify and evaluate previous learning outside the traditional classroom such as work, volunteer or military experiences. Students will create a professional portfolio to document college-level experiential learning. (Fall, Spring)

217. Dosage Calculations for Nursing. Credit 1 hour. Prerequisites: ENGL 102, MATH 161, CHEM 107 with a grade of "C" or better, and Sophomore standing. This course focuses on learning drug calculations necessary for nursing practice. Topics include systems of measurement, routes of administration, calculation formulas, medication symbols and abbreviations, IV flow rates, and calculations for special populations. Strong math skills are necessary and emphasized. This course will be graded Pass/Fail only. (Fall, Spring)

233. Introduction to Pharmacology. Credit 3 hours. Prerequisites: Zoology 250, 251, Chemistry 101 or 121, or permission of the Dean. Introduces principles of drug therapy for individuals across the life span. Focuses on pharmacological agents in relation to pharmacokinetic effects on body systems and therapeutic usage. (Varies)

300. Topics in Nursing. Credit 1-3 hours. Prerequisite: Completion of Nursing 334, Registered Nurse status or permission of the Department Head. The study of selected issues in Nursing. Topics will be determined each semester based on current issues and trends in nursing. May be repeated for a maximum of 6 hours credit if different topics are studied. One to three hours of class a week, variable. (Varies)

304. Healthcare Informatics. Credit 3 hours. Prerequisite: Junior level standing in nursing major curriculum or permission of the Department Head. An online instructional offering that allows students to develop and evaluate applications, tools, processes, and structures which assist nurses with the management of data in taking care of patients and supports the practice of professional nursing. (Fall, Spring)

305. Clinical Practice Competency I. Credit 1 hour. Prerequisite: Concurrent enrollment in or prior credit for Nursing 315. Guides students in the application of theory to clinical practice in the development of cognitive, psychomotor, communication, and affective skills necessary for the implementation of therapeutic interventions, using safe, effective, and financially responsible practices to promote, maintain, and restore the health of individuals, families, groups, and communities. Provides opportunities to develop and refine clinical practice skills related to hygiene, safety, body mechanics, oral/topical/intravenous medications, obtaining vital signs, injections, sterile technique, oxygenation, nasogastric tubes, catheterization, and bowel elimination. Three hours of laboratory a week. This course will be graded Pass/Fail only. A laboratory fee is required for this course. (Fall, Spring)

309. Camp Nursing. Credit 3 hours. Prerequisites: Completion of all 300-level required Nursing courses or permission of the Department Head. Provides opportunities to explore the role and scope of nursing practice in residential camp settings and the diversity of camp opportunities for nursing practice. Students collaborate with other health professionals to develop interprofessional communication and teambuilding to provide nursing care to children in a camp setting. Students learn to identify health issues for this setting and the nursing skills needed to implement nursing interventions. Students will attend an off-campus, overnight camp for the clinical practicum portion of the course. Seminar and clinical hours equal 162 contact hours. (Summer)

313. Study of Human Diseases. Credit 3 hours. Prerequisites: GBIO151, BIOL 152, ZOO 250/252, ZOO 251/253, HS 132 or 133. The course builds upon a student's understanding of human anatomy and integrates the study of human disease with focus on the risk factors, clinical manifestations, pathology, and prevention. Common disease states in the adult population will be studied. The intent of the course is to prepare health educators to identify, screen, and teach populations at risk. (Varies)

314. Health Assessment of the Individual. Credit 2 hours. Formal acceptance for progression in the nursing curriculum required. Concurrent enrollment in Nursing 305 and 315 encouraged but not required. Focuses on skills necessary to assess the individual as a multidimensional, balanced expression of bio-psycho-social-cultural-spiritual well-being. Emphasizes theory-based approaches and techniques for data collection from persons across the life span. (Fall, Spring)

315. Health Assessment of the Individual Lab. Credit 1 hour. Prerequisite: Concurrent enrollment in or prior credit for Nursing 305 and 314. Develops assessment skills using theory-based approaches and techniques for data collection from persons across the life span. Three hours laboratory a week. A laboratory fee is required for this course. (Fall, Spring)

319. Pathophysiology and Pharmacology I. Credit 3 hours. Prerequisite: Formal acceptance for progression in nursing curriculum. Introduces the basics of pharmacology and focuses on specific pharmacological agents in relation to pharmacokinetic effects on body systems. Examines selected diseases and recommended drug therapies. The course builds on the student's understanding of human anatomy and other sciences which contribute to the scientific basis for professional nursing practice. (Summer, Fall, Spring)

331. Pathophysiology and Pharmacology II. Credit 3 hours. Prerequisites: Nursing 319 and 339. Examines selected disease processes and related drug treatment modalities. Builds on the student's understanding of the principles of pharmacology and pathophysiology, the nursing process, and the biological sciences. (Summer, Fall, Spring)

332. Health Assessment of Families/Groups/Communities. Credit 1 hour. Prerequisites: Nursing 314, 315, and 339. Concurrent enrollment in Nursing 334 is encouraged but not required. Focuses on families and communities as clients. Provides learning opportunities that will enable the student to view persons as members of large social systems. (Summer, Fall, Spring)

333. Orientation to the Roles of the Professional Nurse. Credit 3 hours. Prerequisites: ENGL 102 with a "C" or better and Sophomore standing. Focuses on socializing students to the discipline of nursing. Provides an overview of the mission of the School of Nursing, organizing concepts and desired outcomes of the baccalaureate-nursing program. Explores theories of nursing which serve as models for nursing practice. Describes the dimensions of the various roles of the professional nurse. Stresses the role of the professional nurse as an advocate in ethical, legal, and political health care trends and issues. Assists students in examining personal values and career goals and in developing an appreciation for persons with varying cultural backgrounds within the context of the professional nurse role. (Fall, Spring)

334. Health Assessment of Families/Groups/Communities Lab. Credit 1 hour. Prerequisite: Concurrent enrollment in or prior credit for Nursing 332. Using recognized community and family assessment tools, the student will gather and analyze data leading to recognition of population focused problems and their impact on individual, family and community. Three hours laboratory a week. A laboratory fee is required for this course. (Fall, Spring)

335. Clinical Practice Competency Lab II. Credit 1 hour. Prerequisites: Nursing 305 and concurrent enrollment in or prior credit for Nursing 372 and 375. Guides students in the application of theory to clinical practice and in the development of cognitive, psychomotor, and interpersonal communication skills necessary for the implementation of safe and cost-effective interventions to promote, maintain, and restore the health of individuals, families, groups, and communities. Provides opportunities to develop and refine previously learned and new clinical practice skills related to intravenous therapy, surgical asepsis, oxygenation, and cardiovascular monitoring. Three hours of laboratory a week. This course will be graded Pass/Fail only. A laboratory fee is required for this course. (Fall, Spring)

339. Medication Math for Nursing. Credit 2 hours. Prerequisites: Prior credit for ENGL 102, MATH 161, and CHEM 107 with a grade of "C" or better. This course focuses on drug calculations necessary for nursing practice. Topics include: systems of measurement, routes of administration, calculation formulas, medication symbols and abbreviations, intravenous flow rate, and calculations for special populations. Strong math skills are necessary and emphasized. (Summer, Fall, Spring)

341. Integrated Spirituality, Health and Nursing. Credit 3 hours. Prerequisite: NURS 371 or permission of the Department Head. This course uses the nursing process as a framework for integrating spiritual care into nursing practice with an emphasis on a variety of cultures, religions, and populations. This course explores the concept of spirituality as it relates to healthcare, as well as strategies for promoting spiritual care of clients. The course also examines the role of spiritual self-awareness and self-care as a component of the spirituality and health connection. (Varies)

360. Essentials of Cultural Competence in Nursing Care. Credit 3 hours. Prerequisite: Completion of Nursing 334. Designed to develop competence in providing culturally congruent nursing care to individuals and families from diverse cultural groups. Examines several theoretical frameworks for assessing beliefs, values, and practices pertaining to health. Emphasizes essential knowledge and skills required to plan and implement culturally competent nursing care across the life span. (Varies)

371. Foundations of Nursing Practice. Credit 2 hours. Prerequisites: Nursing 305, 314, 315, 319, 333, and 339. Concurrent enrollment in Nursing 373 encouraged but not required. Explores the nursing process as a problem-solving tool utilized in communicating, gathering data, interpreting evidence, analyzing viewpoints, and forming judgments in clinical situations. Introduces concepts that are essential in developing foundational principles of nursing. Builds on the student's understanding of nursing assessment and pathopharmacology for a variety of clients. A laboratory fee is required for this course. (Summer, Fall, Spring)

372. Adult Health Nursing. Credit 2 hours. Prerequisite: Nursing 373. Concurrent enrollment in or prior credit for Nursing 335, 375, 382, and 383 are encouraged but not required. Focuses on the nursing care of young and middle-aged adults to promote, maintain and restore health and prevent disease. Emphasizes the nursing process to examine biological and psychosocial parameters, cultural influences and current, evidence-based practice affecting the healthcare needs of individuals, families, groups, and communities. Focuses on collaboration between the patient, family, and healthcare professionals to provide high quality, safe patient care across the continuum of healthcare environments. (Fall, Spring)

373. Foundations of Nursing Practice Lab. Credit 3 hours. Prerequisites: NLAB 305, 315, 333, and 339; concurrent enrollment in or prior credit for Nursing 331 and 371. Focuses on foundational nursing principles by utilizing the nursing process to gather data, interpret evidence, analyze viewpoints, communicate and collaborate, and form judgments in clinical situations to promote, maintain and restore health by providing evidence-based, patient-centered care. Nine hours laboratory a week. A laboratory fee is required for this course. (Summer, Fall, Spring)

375. Gerontological Nursing. Credit 2 hours. Prerequisites: Nursing 331, 332, 334, 371, 373, and 378. Focuses on the nursing care of older adults to promote, maintain and restore health and prevent disease. Emphasizes the nursing process to examine biological and psychosocial parameters, cultural influences and current evidence-based practice affecting the healthcare needs of individuals, families, groups and communities. Focuses on collaboration with the patient, the patient's family and the healthcare professional to provide high quality and safe patient care across the continuum of healthcare environments. (Fall, Spring)

378. Research in Nursing. Credit 2 hours. Prerequisites: Nursing 315 and 333 or permission of the Department Head. Focuses on fundamental concepts and progress of nursing research. Emphasizes nursing research as a basis for evidence-based practice. Students will examine major steps in the research process, formulate research questions relevant to clinical nursing, practice, and critique nursing research reports. (Fall, Spring)

382. Adult and Gerontological Nursing Lab. Credit 6 hours. Prerequisites: Nursing 373 and concurrent enrollment in or prior credit for Nursing 335, 372, 375, and 383 or permission of the Department Head. Course focuses on the clinical application of the nursing process to promote, maintain, and restore health in young, middle aged, and older adult clients, with a variety of health care needs. This course integrates knowledge of the biological and psychosocial sciences, legal and ethical dimensions, resources, cultural influences, and current evidenced-based practice affecting nursing care strategies for the adult client. This course provides clinical experiences in a variety of health care settings, enabling students to develop clinical reasoning, decision making, and professional communication skills and practice using patient care technologies and information systems. Eighteen hours of laboratory a week. A laboratory fee is required for this course. (Fall, Spring)

383. Psychiatric Mental Health Nursing. Credit 2 hours. Prerequisites: Nursing 331, 332, 334, 371, 373, and 378 or permission of the Department Head. The focus of this course is on the acquisition of knowledge necessary to meet the standards of psychiatric/mental health nursing practice in the care of patients across the life span. It also provides students the opportunity to develop a foundation for clinical decision making, which encompasses significant nursing interventions in providing developmentally appropriate and culturally relevant psychiatric/mental health nursing care. (Fall, Spring)

384. Pain Management in Diverse Populations. Credit 3 hours. Prerequisite: Completion of NLAB 382, RN status or with permission of the Department Head. This course focuses on the existence and scope of suffering that is caused by various types of pain. Standards of client care in

the clinical management of pain will be introduced. The physiology, causes, measurement and treatment of pain will be discussed. Pharmacological and non-pharmacological treatment of pain, including invasive and non-invasive measures, and multi-disciplinary management will be addressed. The management of pain in special populations will be emphasized. (Varies)

385. Preparing Nurses for Disaster Management. Credit 3 hours. Prerequisite: Concurrent enrollment in or prior credit for Nursing 334 or permission of the Department Head. A component of this course is a product of the U.S. Department of Homeland Security's Office of Grants and Training and was developed by the National Domestic Preparedness Consortium. It standardizes the minimum Weapons of Mass Destruction (WMD) awareness level learning objectives and establishes a common baseline to ensure nationwide consistency in WMD education and training. Additionally, this course expands upon WMD awareness level learning to include disaster management preparation for vulnerable populations and interventions at the local level. (Varies)

390. NCLEX-RN Review Course. Credit 3 hours. Prerequisites: NLAB 473 and 477 or permission of the Dean. Facilitates review of systems, synthesis, of knowledge, and application of standards of care in nursing practice. Emphasis is placed on the framework of client needs as selected for the NCLEX-RN exam. Client needs provide universal structure for defining nursing actions and competencies across all setting for all clients. (Varies)

403. Clinical Competency Lab III. Credit 1 hour. Prerequisites: Nursing 335, 372, 375, 382, 383 and concurrent enrollment in or prior credit for Nursing 471 and 475. Guides students in the application of theory to clinical practice and in the development of cognitive, psychomotor, communication, and therapeutic interventions necessary for health promotion, maintenance, and restoration of individuals, families/groups in a community. Provides opportunities to develop and refine clinical practice skills for newborns, neonates, children, adolescents, and childbearing families. Three laboratory hours per week. This course will be graded Pass/Fail only. A laboratory fee is required for this course. (Summer, Fall, Spring)

428/528. The Management of Health Services Organizations. Credit 3 hours. Prerequisite: Graduate level standing or permission of the Department Head. Designed for the Registered Nurse. Examines leadership and management concepts, principles, and function in relation to managerial roles, health services organizations and patient care delivery system issues. Designed for students who wish to supplement their knowledge of health services organizations. An additional research assignment is required for graduate students. (Varies)

451/561. International Nursing: Roles and Issues. Credit 3 hours. Prerequisite: Completion of all 300 level courses. Focuses on recognition of professional nursing roles and healthcare issues in countries worldwide. Topics include the impact of international and governmental developments upon healthcare systems, healthcare consumers, and professional nurses' practice environments. Three classroom hours per week. (Varies)

471. Nursing Care of the Childbearing Family. Credit 2 hours. Prerequisites: Nursing 335, 372, 375, 382, and 383. Concurrent enrollment in Nursing 403 and 473 encouraged but not required. Focuses on the care of neonates and childbearing families throughout the life cycle. Enables students to provide nursing care to the childbearing family during the antepartal, intrapartal, postpartal, neonatal, and menopausal time periods. Content reflects both normal and high-risk care of the family throughout the life cycle. Emphasizes the use of the nursing process, concepts of individual, environment, and health as they pertain to the care of the family. A laboratory fee is required for this course. (Summer, Fall, Spring)

473. Nursing Care of the Childbearing Family Lab. Credit 3 hours. Prerequisites: Nursing 382 and concurrent enrollment in or prior credit for Nursing 403 and 471. Provides clinical practice opportunities to synthesize nursing knowledge, use of the nursing process, and to reflect on learning experiences during the care of childbearing families and neonates. Focuses on therapeutic nursing interventions including patient care technologies, information systems and communication devices to promote, maintain, and restore families' health during the childbearing period. Provides activities for students to further develop critical thinking, decision-making, and communication skills. Includes learning experiences in a variety of health care settings with attention to existing health care policies and regulatory guidelines. Nine hours of laboratory per week. A laboratory fee is required for this course. (Summer, Fall, Spring)

475. Nursing Care of Infants, Children, and Adolescents. Credit 2 hours. Prerequisites: Nursing 335, 372, 375, 382, and 383. Concurrent enrollment in Nursing 403 and 477 is encouraged, but not required. Focuses on the nursing care of infants, children, and adolescents to promote, maintain, and restore health. Synthesizes knowledge of child development and family dynamics to examine the biological and psychosocial parameters, legal and ethical dimensions, resources, cultural influences and current evidence-based practice affecting nursing care strategies for infants, children and adolescents. (Summer, Fall, Spring)

477. Nursing Care of Infants, Children, and Adolescents Lab. Credit 3 hours. Prerequisites: Nursing 382 and concurrent enrollment in or prior credit for Nursing 403 and 475. Provides clinical practice opportunities to synthesize nursing knowledge, evaluate use of nursing process, and reflect on learning experiences during the care of infants, children, and adolescents. Focuses on therapeutic nursing interventions to promote maintain, and restore health. Provides activities for students to further develop critical thinking skills, decision making skills, and communication skills. Includes clinical learning experiences in a variety of health care settings. Nine laboratory hours a week. A laboratory fee is required for this course. (Summer, Fall, Spring)

479. Professional Nurse Role: Manager. Credit 2 hours. Prerequisite: Permission of Department Head. Focuses on the knowledge and skills in basic organizational systems leadership for the professional nurse. Presents theories, concepts and models of healthcare delivery. Students explore creative roles for managing and leading in nursing. Provides theoretical knowledge and skills to understand organizations, identify leadership theories and utilize critical thinking in reaching nursing management decisions. (Summer, Fall, Spring)

482. Promoting a Healthy Community. Credit 1 hour. Prerequisites: Nursing 403, 471, 473, 475, and 477. Focuses on the caregiver/manager role of the professional nurse in working with groups, communities and populations with emphasis on strategies for developing, implementing, and evaluating health promotion and disease prevention interventions for target populations in a community. Explores the impact of environmental, socioeconomic, political and legislative influences on health of communities. (Summer, Fall, Spring)

485. Professional Nursing: Transition and Trends. Credit 1 hour. Prerequisite: Completion of all 300-level Nursing courses. Facilitates transitions from the student role to that of beginning professional nurse. Emphasizes key elements needed by the beginning professional nurse in order to assume an effective role in delivering quality care. Students explore ethical principles and core values that contribute to the development of professionalism in nursing. Opportunities for continued contributions to and advancement of the profession of nursing are investigate and reviewed. (Fall, Spring)

486/586. Entrepreneurship in Nursing. Credit 3 hours. Prerequisite: Junior standing or permission of the Dean. A practical approach for nurses to develop entrepreneurial skills that foster holistic patient care. Presents business opportunities in the changing health care reform era and introduces marketing skills, conflict resolution, financial and legal issues. Three hours of lecture per week. (Varies)

487. Advanced Concepts in Nursing Practice. Credit 3 hours. Prerequisites: Nursing 403, 471, 473, 475, and 477. Provides the student with opportunities to synthesize nursing knowledge with complex patient healthcare situations. Emphasizes principles of management of: Multidimensional patient problems, quality improvement, health care economics, evidence-based practice, professional competency, and accountability. A laboratory fee is required for this course. (Summer, Fall, Spring)

488. Promoting a Healthy Community Lab. Credit 1 hour. Prerequisites: Nursing 403, 471, 473, 475, 477, and concurrent or prior credit for Nursing 482. Provides opportunities to develop, implement and evaluate health promotion and disease prevention interventions for target populations such as individuals, families, groups or populations throughout the lifespan with a community. Collaborates with other health

professionals and members of the community to implement all phases of the nursing process within the community context to provide population-focused interventions. Uses evidence-based practices to obtain assessment data, sociocultural characteristics, environmental and political influences on determinants of health. Functional as a manager and provider of nursing services to a target population within a community, documenting all phases of care and disseminating outcomes of planned population interventions. Three hours of laboratory per week. A laboratory fee is required for this course. (Summer, Fall, Spring)

489. Advanced Concepts in Nursing Practice Lab. Credit 5 hours. Prerequisites: Nursing 403, 471, 473, 475, 477, and concurrent enrollment in or prior credit for Nursing 479 and 487. Provides opportunities to refine critical thinking, decision-making and communication skills in nursing care of diverse populations across the lifespan in an ever-changing and complex healthcare environment. Supports activities to synthesize nursing knowledge, apply appropriate nursing interventions and evaluate the use of phases of the nursing process. Integrates safety, quality improvement and healthcare policies throughout the course to reflect current standards of professional practice. Prepares each student to function effectively and efficiently in entry-level caregiver, manager and team member nursing roles. Fifteen hours of laboratory a week. A laboratory fee is required for this course. (Summer, Fall, Spring)

600. Theoretical Foundations of Advanced Nursing. Credit 3 hours. Focus on examination of the theoretical foundations of nursing, including analysis of major theories of nursing and supporting theories as the basis for advanced practice nursing in a variety of healthcare settings and the development of a personal philosophy of nursing. (Varies)

602. Generating Evidence for Nursing Practice. Credit 3 hours. Prerequisites: NURS 600 and 605. Presents the logic, methods, and techniques of scientific research, using an evidence-based approach. Emphasis will be placed on critical appraisal of existing evidence, design decisions, psychometrics and appropriate statistical analyses. Students will design a research proposal applicable to nursing practice. (Varies)

605. Applied Statistics for the Health Sciences. Credit 3 hours. Review of research techniques and statistical concepts. Application and interpretation of commonly used statistical tests and analysis utilized in health sciences research. (Summer, Fall, Spring)

607. Health Assessment and Diagnostic Reasoning for Advanced Practice. Credit 3 hours. Diagnostic reasoning models and theories utilizing knowledge of advanced health assessment and development of individuals and families across the lifespan. Emphasis on multi-generational, gender, and cultural/ethnic issues. Two class hours and 4 laboratory hours per week. A laboratory fee is required for this course. (Fall, Spring)

608. Diagnostic Considerations and Psychopharmacology for Psychiatric Disorders. Credit 3 hours. Prerequisite: NURS 617 or NURS 800 or NURS 830. Diagnostic criteria within the current Diagnostic and Statistical Manual (DSM) for Psychiatric Disorders are examined. Functional brain anatomy and physiology are studied with emphasis given to those disruptions which lead to mental illness, including environmental, developmental and genomic influences. Psychopharmacological and therapies currently utilized to treat specific mental illnesses based on current science and practice standards are detailed with emphasis on optimal outcomes and primary, secondary and tertiary prevention. (Fall, Spring)

609. Population Based Primary Care. Credit 3 hours. Prerequisite: NURS 600, Analysis and synthesis of major theoretical, empirical, and clinical foundations of population-based health care. Populations-at-risk in culturally diverse community settings are examined with an emphasis on building advanced practice nursing competencies to assess and address unmet care and health service needs. Focus is also placed on epidemiological techniques for community assessment and program planning, implementation, and evaluation. (Summer, Fall, Spring)

617. Pharmacotherapeutics for Advanced Practice. Credit 3 hours. Application of pharmacotherapeutics to management of clients across the life span. Includes natural/alternative health care, educative management strategies and expected outcomes. (Varies)

618. Pathophysiology for Advanced Practice. Credit 3 hours. Advanced physiological, pathological and psychosocial practices in health promotion and disease prevention among individuals and families of diverse cultural and ethnic backgrounds, across the lifespan. (Varies)

624. Independent Study. Credit 1-3 hours. Prerequisite: Graduate standing and permission of the Department Head. Student works with faculty on a one-to-one basis to advance specialized knowledge and competence related to an approved area of nursing research, practice, or professional certification. May be repeated for a maximum of six credit hours if different topic areas are studied. (Varies)

630. Special Topics in Advanced Nursing Practice. Credit 3 hours. Prerequisite: Graduate standing. A seminar course focusing on selected issues in advanced nursing practice. This course may be repeated once for a total of six credit hours if different topics are studied. (Varies)

634. Nursing Education: Roles, Issues, and Foundations. Credit 3 hours. Introduction to contemporary nursing education. (Fall)

635. Curriculum and Program Development. Credit 3 hours. Introduction to program and curriculum development, implementation, and evaluation. (Spring)

636. Teaching Methodologies and Technologies. Credit 3 hours. Prerequisites: NURS 634 and NURS 635. Analysis and synthesis of evidence-based teaching methods and technologies. (Fall)

644. Advanced Clinical Practicum in Nursing Practice. Credit 1 hour. Prerequisites: NURS 607 and NURS 634. Development of advanced clinical nursing practice by synthesizing current clinical and empirical information to form a foundation for evidence-based nursing practice in a selected clinical focus area. One-hour class and 4 hours of practicum per week. (Fall)

646. Policy, Organization, and Structure in Health Care Systems. Credit 3 hours. Prepares nurse leaders for active participation in policy making for health care organizations, professional associations, and governmental agencies. Focuses on managerial decisions and influences that contribute to policy at the organizational, local, national, and international levels. (Fall)

648. Nurse Leadership/Management in Health Care Organizations. Credit 3 hours. Prerequisite: NURS 600. Emphasizes key skills employed by successful nurse leaders/managers; critical thinking, effective communication, conflict resolution, delegation, team building, resource management, quality improvement, stress management, and leading change. (Spring)

649. Health Care Workforce Management. Credit 3 hours. Prerequisite: NURS 600. Examination of employment relationships in the work organization, including the Human Resource Management (HRM) model for health care settings. Includes employee's recruitment and selection, appraisal, reward systems, training and development, and international aspects of HRM. (Spring)

654. Nurse Leadership and Administration Field Study I. Credit 2 hours. Prerequisites: NURS 600, 605, and 646. Development of the nurse leader role in a practicum experience under the guidance of faculty-supervised preceptors. Focus is placed on the development of a philosophy and framework for the practice of nursing administration that promotes delivery of effective and efficient services in a multi-discipline setting. One-hour class and 5 practicum hours per week. A laboratory fee is required for this course. (Spring)

655. Nurse Leadership and Administration Field Study II. Credit 2 hours. Prerequisite: NURS 654. Development of the nurse leader role in a practicum experience under the guidance of faculty-supervised preceptors. Focus is placed on formulating a philosophy, framework, and strategy for the practice of nursing administration that promotes delivery of effective and efficient services in a multi-disciplinary setting. One-hour class and 5 practicum hours per week. A laboratory fee is required for this course. (Fall)

656. Legal and Regulatory Issues in Nursing Administration. Credit 3 hours. Prerequisites: NURS 600 and NURS 602. Exploration of laws, legislative processes, accrediting agencies, and ethical issues, which influence decision-making and operation of health care systems. (Fall)

657. Nursing Education Practicum. Credit 3 hours. Prerequisite: NURS 670. Implementation of the nurse educator roles in selected precepted class, lab, and clinical settings. One-hour class and 12 hours of practicum per week. (Spring)

658. Fiscal and Economic Principles for Nurse Leaders. Credit 4 hours. Prerequisites: NURS 600 and NURS 602. Examination and application of principles of budget preparation, presentation, analysis, and management in health care organization, and introduction of principles of applied health care economics. (Fall)

659. Nurse Leadership and Administration Internship. Credit 3 hours. Prerequisites: NURS 654 and NURS 655. Development of the nurse leader role in a practicum experience under the guidance of faculty supervised preceptors. Focus is placed on the application and evaluation of a philosophy, framework and strategy for the practice of nursing administration that promotes delivery of effective and efficient services in a multi-disciplinary setting. Ten hours practicum per week. A laboratory fee is required for this course. (Spring)

670. Measuring Outcomes in Nursing Education. Credit 3 hours. Prerequisites: NURS 634 and NURS 635. Focuses on identifying and measuring outcomes germane to nursing education at the learner and program levels. (Fall)

681. Business, Leadership and Health Policy for Nurse Practitioners. Credit 3 hours. Prerequisite: NURS 682 (FNP students); NURS 691 (PMHNP students). Application of business management concepts, organizational and systems leadership, legal, political, economic and policy influences in the delivery of health care services. (Fall, Spring)

682. Advanced Practice Nursing: Family Health I. Credit 5 hours. Prerequisites: NURS 600 or 830 and NURS 602, 605, 607, 617 and 618. Course is designed to develop the role and competencies for primary care family nurse practitioners. Clinical experiences will focus on the care of individuals and families in the pediatrics and child-bearing women populations. Three didactic hours and 16 practicum hours per week. A laboratory fee is required for this course. (Summer, Fall, Spring)

683. Advanced Practice Nursing: Family Health II. Credit 5 hours. Prerequisite: NURS 682. Course is designed to develop the role and competencies for primary care family nurse practitioners. Clinical experiences will focus on the care of individuals and families in the adolescent and adult populations. Three didactic hours and 14 practicum hours per week. (Fall, Spring)

684. Advanced Practice Nursing: Family Health III. Credit 5 hours. Prerequisite: NURS 683. Provides advanced practice nursing students with content to develop the role and competencies for primary care family nurse practitioners. Clinical experiences are designed to focus on the care of individuals and families in the adult and geriatric population. Three didactic hours and 14 practicum hours per week. A laboratory fee is required for this course. (Fall, Spring)

690. Psychotherapy for Advanced Practice Psychiatric Nursing. Credit 3 hours. Prerequisites: NURS 600 and 602 or permission of the Department Head. Analysis and synthesis of major theoretical, empirical, and clinical foundations of various psychotherapeutic approaches in mental health care. Three didactic hours per week and 60 practicum hours of observation per semester. (Fall, Spring)

691. Advanced Practice Nursing: Psychiatric/Mental Health I. Credit 5 hours. Prerequisite: NURS 600, 602, 605, 608, 617, 618, and 690, and previous credit or current enrollment in 609 or permission of the Department Head. Course is designed for introduction to initial diagnostic assessment, basic individual and family psychotherapeutic processes, interventions, and modalities with focus on differential diagnosis, risk-analysis and clinical management of clients with common psychiatric disorders. Three didactic hours and 180 practicum hours per semester. A laboratory fee is required for this course. (Fall, Spring)

692. Advanced Practice Nursing: Psychiatric/Mental Health II. Credit 5 hours. Prerequisite: NURS 691. Course addresses advanced Psychiatric Mental Health Nursing competencies with a focus on different diagnosis, clinical management, interventions, basic group/family therapies, risk analysis and evaluation of outcomes for clients with common and complex psychiatric disorders across the lifespan with emphasis on children and adolescents. Three didactic hours and 14 practicum hours per week. A laboratory fee is required for this course. (Fall, Spring)

693. Advanced Practice Nursing: Psychiatric/Mental Health III. Credit 5 hours. Prerequisite: NURS 692. Focus is on professional role development in advanced practice. Clinical experiences are designed to focus on continued development of advanced clinical competencies for provision of care to the psychiatric patient across the lifespan, family and community with emphasis on the older adult. Five didactic hours per week and 210 practicum hours per semester. A laboratory fee is required for this course. (Fall, Spring)

695. Focused Scholarly Project. Credit 3 hours. Prerequisite: NURS 602. An independent focused scholarly project supervised by a graduate faculty member. The focused scholarly project creatively employs scientific inquiry to systematically advance the practice, teaching, or research of nursing. Emphasis is on a focused project that has tangible application to the practice setting. (Varies)

697. Advanced Practice Nursing: Psychiatric / Mental Health (PMH) III for Post-Master's Certificate Students. Credit 4 hours. Prerequisite: NURS 692. Focus is on professional role of development in advanced practice (for Post-Master's Certificate students). Clinical experiences are designed to focus on continued development of advanced clinical competencies for provision of care to the psychiatric client across the lifespan, family, and community with emphasis on the older adult. 120 practicum hours per semester. (Fall, Spring)

699. Thesis. Credit 1-6 hours each semester, with six hours needed for graduation. Prerequisite: Nursing 602. The student must enroll in the thesis course each semester the thesis is in progress. The thesis is graded Pass-Fail. Independent study of a selected topic in nursing requiring a written proposal, data collection and analyses, and resulting in a written thesis under the guidance of graduate nursing faculty. An oral defense of thesis is required. (Varies)

800. Scholarly Foundations for Advanced Practice. Credit 3 hours. Integrative study of theories, frameworks, and concepts which provide the basis for advanced nursing practice. (Fall)

801. Biostatistics. Credit 3 hours. Prerequisite: Graduate level statistics course approved by DNP Program Coordinator. Addresses biostatistical methods necessary to interpret data for Evidence-Based Practice (EBP) in the Health Sciences. Topics include critical appraisal of evidence, variation and variables, levels of data measurement, descriptive statistics and data display, probability, statistical and clinical significance, confidence intervals, statistical power analysis, hypothesis testing, and inferential statistics. (Fall)

802. Epidemiology. Credit 3 hours. Prerequisite: Registration in or prior credit for NURS 800. Study of risk for and prevention of disease using principles and methods of epidemiologic investigation. Analysis of distribution of disease in populations. (Spring)

803. Project Planning. Credit 3 hours. Prerequisite: Registration in or prior credit for NURS 800 or NURS 830. Addresses project planning and development related to the selection of a topic or area of interest for the DNP synthesis project. The planning process incorporates a needs assessment, analysis of relationships between evidence-based interventions and outcomes for communities and/or aggregates. (Fall, Spring)

804. Clinical Scholarship and Analytic Methods for Evidence Based Practice. Credit 3 hours. Prerequisites: NURS 800 and NURS 801, or NURS 830. Integration and application of knowledge to solve practice problems. Focuses on quantitative methodologies, study design, data analysis, and evaluation of research applicable to an advanced practice context. (Fall, Spring)

805. Preventive Care for Populations. Credit 3 hours. Prerequisites: Registration in or prior credit for NURS 800 and NURS 802. Examines concepts relevant to population health including epidemiological, environmental, and occupational issues; infectious diseases/emergency preparedness, and determinants of health are also investigated. Emphasis on the development of cultural competence to guide health promotion and preventive care. (Fall)

806. Health Care Informatics. Credit 3 hours. Prerequisite: NURS 800 or NURS 830. Analyzes the role of information systems and technology in supporting and improving outcomes of patient care and the care of populations. Design and use of health care databases will be incorporated. (Fall, Spring)

807. Organizational and Systems Leadership. Credit 4 hours. Prerequisite: Registration in or prior credit for NURS 800 or NURS 830. Investigation of organizational and system processes, including safety, quality, financial, and human resource issues, which impact practice delivery. Emphasizes leadership role of the DNP and interprofessional opportunities for collaboration to improve care. (Fall, Spring)

808. Ethics and Health Care Policy. Credit 4 hours. Prerequisite: NURS 800 or NURS 830. Examination of health care policy at the organizational and governmental levels and the influence of policy on ethical practice, advocacy, social justice and equity. (Summer, Spring)

809. Advanced Directed Studies. Credit 3 hours. Prerequisite: Registered in or prior credit for NURS 803. Individualized learning activities guided by faculty for students requiring additional residency hours to meet DNP program requirements of 1000 total residency hours including post-baccalaureate work. A written proposal describing learning outcomes must be submitted to faculty prior to enrollment in the course. Three didactic hours and 135 residency hours per semester. Course may be repeated twice. (Varies)

821. Residency I. Credit 2 hours. Prerequisite: NURS 803. Validates project planning in a clinical, organizational, or systems context; creates a structure for implementation and evaluation. Student is expected to secure IRB approval during this course. Two didactic hours and 90 residency hours per semester. (Fall, Spring, Summer)

822. Residency II. Credit 4 hours. Prerequisite: NURS 821. Implementation of an evidence-based intervention in collaboration with residency mentor and faculty advisor which reflects knowledge assimilation for advanced specialty practice at a high level of complexity. Four didactic hours and 180 residency hours per semester. (Fall, Spring)

823. Residency III. Credit 4 hours. Prerequisite: NURS 822. Requires completion and evaluation of intervention generated in Residency II. Incorporates data collection, analysis, interpretation, evaluation and outcomes dissemination. Four didactic hours and 180 residency hours per semester. (Fall, Spring)

830. Advanced Practice Scholarly and Theoretical Foundations. Credit 3 hours. Integrative study and application of theories, frameworks, and concepts which provide the basis for advanced nursing practice in a variety of health care settings. (Fall)

831. Epidemiology and Preventative Care for Populations. Credit 4 hours. Prerequisites: NURS 801 and 830. Examines concepts germane to the provision of population health including epidemiological, environmental, occupational and cultural issues. Infectious diseases, disaster/emergency preparedness, and determinants of health are also investigated. (Fall)

Nutrition Education and Promotion (NUTR)

100. Orientation to Nutrition Education and Promotion. Credit 1 hour. Orientation to the Nutrition Education and Promotion concentration with emphasis on academic advising and career paths. (Fall, Spring)

251. Nutrition and Diet Therapy. [FCS] Credit 3 hours. Prerequisite: Nursing majors only. Principles of nutrition and their application in maintaining health and providing therapy during illness. Credit toward a degree can be given for only one beginning course in nutrition: NUTR 251 or NUTR 342. (Summer, Fall, Spring)

253. Introduction to Food Principles and Preparation. [FCS] Credit 3 hours. Prerequisite: HUSC majors only. An introduction to the principles of food preparation and meal planning, with an emphasis on nutrition and health. (Fall)

342. Nutrition. [FCS] Credit 3 hours. The principles of normal nutrition and their application in daily life. Credit toward a degree can be given for only one beginning course in nutrition: NUTR 251 or NUTR 342. (Fall, Spring)

344. Child Nutrition. Credit 3 hours. Prerequisite: NUTR 342. A study of the nutritional needs of women during pre-conception and pregnancy; and children from infancy through adolescence. (Summer, Fall, Spring)

345. Nutrition Through the Lifecycle. [FCS] Credit 3 hours. Prerequisite: NUTR 251 or NUTR 342. Nutritional needs and health concerns during different stages of life: preconception, pregnancy, lactation, infancy, childhood, adolescence, adulthood, and elderly. (Summer, Fall, Spring)

411. Nutrition and Lifestyle Diseases. [FCS] Credit 3 hours. Prerequisite: NUTR 251 or NUTR 342. The role of nutrition in the prevention and treatment of lifestyle diseases. (Fall, Spring)

421. Weight Management Principles. [FCS] Credit 3 hours. Prerequisite: NUTR 251 or NUTR 342. Applications of the principles of weight management with emphasis on diet, exercise, and behavior modification. (Fall, Spring)

424. Nutrition for Sport and Fitness. [FCS] Credit 3 hours. Prerequisite: NUTR 251 or NUTR 342. An advanced study of nutrition as it relates to health, fitness, and athletic performance with an emphasis on nutrition before, during, and after sports-related activities and competitions. (Summer, Fall, Spring)

425. Nutrition Presentations and Demonstrations. [FCS] Credit 3 hours. Prerequisites: COMM 210 or 211, and NUTR 251 or NUTR 342. A study of organization, development, delivery, and evaluation of effective presentations and demonstrations in the field of nutrition. Food safety practices, basic cooking techniques, terms, and utensils will be addressed. Five hours of laboratory each week. (Spring)

426. Food Principles and Preparation. [FCS] Credit 3 hours. Prerequisites: NUTR 251 or NUTR 342, and COMM 210 or 211. Application of food preparation and meal planning principles, with an emphasis on nutrition and health. Five hours of laboratory each week. (Fall)

433. Current Trends and Issues in Nutrition. [FCS] Credit 3 hours. Prerequisite: NUTR 251 or NUTR 342. A study of current trends and issues in the field of food and nutrition and how they apply to normal diets. (Fall, Spring)

488. Field Experience in Nutrition Education and Promotion. [FCS] Credit 3 hours. Prerequisites, NUTR 342, HUSC 346, HUSC major, a cumulative GPA of 2.0 or higher, and permission of the department head. Understanding the operation and management of Human Sciences career activities through supervised work experience in the area of Nutrition Education and Promotion. May be repeated for up to nine credit hours. (Varies)

Occupational Safety, Health, and Environment (OSHE)

111. Introduction to Occupational Safety and Health, and Environment. Credit 3 hours. This course introduces general safety and health concepts. Major topics include occupational safety, health and environmental terms, historical developments, program concepts and terms, legislative overview, including worker's compensation law, problem identification, hazard recognition, evaluation and control concepts, and an introduction to measurement and evaluation. (Summer, Fall, Spring)

112. Design of Hazard Controls. Credit 3 hours. Prerequisite: Current enrollment in or prior credit for OSHE 111. This course studies the application of scientific and engineering principles and methods to achieve optimum safety and health conditions through the analysis and design of process, equipment, products, facilities, operations, and environments. Major topics include product design, plant layout, construction, maintenance, pressure vessels and piping, mechanical systems, materials handling and storage, ventilation, power tools, electrical equipment, and transportation vehicles and systems. (Fall, Spring)

121. Safety and Health Program Management and Administration. Credit 3 hours. Prerequisite: Enrollment in or prior credit for OSHE 111. This course studies the application of proven management principles and techniques to the management of safety and health and loss control programs. Major topics will include; planning, organizing, budgeting, resourcing, operating, implementing, and evaluating safety functions. (Fall, Spring)

141. Principles of Industrial Hygiene and Toxicology. Credit 3 hours. This course introduces the basic industrial hygiene principles of anticipation, recognition, evaluation, and control of workplace conditions as they relate to occupational health. Major topics include: a variety of occupational hazards including air contaminants, chemical hazards, biological hazards, and physical hazards. (Fall, Spring)

231. Safety Laws, Regulations, and Standards. Credit 3 hours. Prerequisite: OSHE 111. This course studies the development processes, sources, and applications for minimum safety requirements established by laws, regulations, standards, and codes. Major topics will include OSHA General Industry and Construction Standards, the enforcement of safety standards, and the role of NIOSH and ACGIH in the safety movement. (Fall, Spring)

242. Ergonomics. Credit 3 hours. Prerequisites: Enrollment in or prior credit for MATH 241 and OSHE 141. This course explores ergonomic design principles which involve the planning and adapting of equipment and tasks to promote the comfort and efficiency of workers. Major topics include: human characteristics, physiology, and anthropometry and the application of these principles to workstations, tool design, and material handling procedures. (Fall, Spring)

251. Environmental Laws and Regulations. Credit 3 hours. This course is an introduction to federal and state environmental regulations which impact industry. Major topics include hazardous waste management, disposal and cleanup, prevention of air, water, and soil contamination and environmental program management. (Fall, Spring)

261. Fire Protection and Prevention. Credit 3 hours. Prerequisite: OSHE 111. This course introduces the basic principles of fire and fire prevention in the work place. Major topics include: evaluating existing and planned facilities from a fire and explosion standpoint, and applying the basic principles of hazard recognition, evaluation, and control when developing fire prevention and emergency response activities. (Fall, Spring)

291. Internship. Credit 3 hours. Prerequisites: Sophomore standing and permission of Department Head. Students receive on-the-job work experience related to occupational safety, health, and environment with selected and approved industrial firms or other organizations. For three hours credit, a student must be employed a minimum of 20 hours per week during a regular semester and a minimum of 40 hours per week during the summer semester. Grades assigned on a Pass/Fail basis. (Varies)

311. Safety and Health Program Development. Credit 3 hours. Prerequisite: OSHE 111. This course presents the key elements necessary to develop or to assess occupational safety and health programs. Major topics include management commitment and employee involvement; worksite analysis, hazard correction and control; training, and evaluation. (Spring)

322. Behavioral Aspects of Safety. Credit 3 hours. Prerequisite: PSYC 101. This course will introduce students to the application of scientific research-based principles and methods to bring about change in the work culture through attitude, behavior, and environmental conditions. Specific topics will include traditional approaches and philosophies for improving safety, environmental effects, incentives, developing and building cultural change, identifying critical behavior, developing checklists, giving and receiving recognition and measuring performance. (Fall)

323. Product Safety and Liability. Credit 3 hours. Prerequisite: OSHE 111. This course examines the importance of considering the safety of a product in its ultimate use. Major topics include: aspects of product design, intended and improper use, and potential injury mechanisms. It uses classic product liability case studies to provide practical application of the principles learned. It also studies manufacturer liabilities through injury tort actions. (Fall)

341. Field Methods of Industrial Hygiene and Toxicology. Credit 3 hours. Prerequisites: MATH 241, PHYS 191, CHEM 101, and OSHE 141. This course presents an examination of the methods used by the industrial hygienist for the identification and assessment of health hazards in the workplace. Major topics include: establishment and use of methodologies to sample and evaluate exposures to air contaminants (gases, vapors, aerosols, and particulates), microorganisms and allergens, noise, heat, and cold stress, electrical and magnetic radiation, and ionizing and ultraviolet radiation. The course also includes equipment use, maintenance, and calibration. A laboratory fee is required for this course. (Fall, Spring)

381. Safety in Chemical and Process Industries. Credit 3 hours. Prerequisites: Enrollment in or prior credit for CHEM 101 and PHYS 191. The course introduces the fundamentals of chemical and process industry safety. Major topics include: toxic, fire, and pressure hazards inherent in chemical plants and petroleum refineries, and the methods used to identify, assess, and eliminate those hazards. It also introduces students to federal safety regulations for process safety management. (Fall, Spring)

382. Construction Safety. Credit 3 hours. Prerequisites: Enrollment in or prior credit for OSHE 111 and OSHE 121. The course studies the application of management principles, communication and human relations factors, safety/health rules, industry and federal standards, accident investigation, and the job planning phases in the construction environment. (Fall, Spring)

391. Internship. Credit 3-12 hours. Prerequisite: Permission of Department Head. Students receive on-the-job work experience with selected and approved industrial firms. Completion of all 100- and 200-level OSHE courses are required before internship is taken. OSHE 391 must be taken in the last semester of the study, or after most if not all of the OSHE major courses have been completed. For three hours credit, a student must be employed a minimum of 20 hours per week during a regular semester and a minimum of 40 hours per week during the summer semester. Course may be repeated for a maximum of 12 credit hours. Grades assigned on a Pass/Fail basis only. (Summer, Fall, Spring)

421. Measurement of Safety Performance and Accident Investigation and Analysis. Credit 3 hours. Prerequisite: Enrollment in or prior credit for MATH 241. This course presents methods to objectively evaluate a company's safety progress. The course covers two distinct topics: (1) measuring safety performance, and (2) incident investigation and analysis. The first segment of the course addresses ways of measuring safety performance objectively and subjectively using safety audits, inspections, observations, performance appraisal systems, and injury/illness statistics. The second segment of the course addresses the causes of accidents, systematic ways of conducting investigations, documenting the findings, causes and other significant data, and drafting recommendations. (Fall, Spring)

423. Insurance – Worker's Compensation, Loss Control, and Risk Management. Credit 3 hours. Prerequisite: OSHE 111. This course discusses the different aspects of workers' compensation, loss control, and risk management and how they interface to produce a comprehensive approach to controlling hazards, risks, and worker losses in a proactive plan for management of business/entity. (Varies)

424. System Safety Methodologies. Credit 3 hours. Prerequisites: MATH 241, OSHE 111, and OSHE 121. The course presents the concepts of Risk Management and Loss Control through the use of systematic approaches to hazard anticipation, identification, evaluation and control. Major topics include: an introduction to qualitative methods of evaluating the hazards and risks associated with systems, processes, equipment, and other entities. It also includes a review of techniques for mitigating or managing identified risks. (Fall, Spring)

441. Industrial Toxicology. Credit 3 hours. Prerequisites: GBIO 151, ZOO 241, and OSHE 141. This course examines the effects of industrial toxicants on the human body. Major topics include: the discipline of toxicology, acute and chronic exposures and effects, routes and characteristics of exposures, target organs and systems, dose and response, and carcinogenesis. It also discusses the toxic characteristics of various classes of toxic materials. (Fall)

442. Principals of Radiation Safety. Credit 3 hours. Prerequisites: OSHE 141, PHYS 191, and PLAB 193. This course describes and defines the various forms of ionizing and non-ionizing radiation and the methods that are used to detect, identify, and measure workplace levels of radiation. It also describes control methods which employ engineering methods, administrative methods, and personal protective equipment to eliminate or minimize the hazards posed by radiation. (Spring)

451. Hazardous Materials Management. Credit 3 hours. Prerequisite: OSHE 251. This course examines acceptable policies, procedures, and methods for the use of hazardous materials, and the disposal of oil and hazardous wastes produced by industry. Major topics include characteristics of hazardous materials, including methods for their transportation and storage. It also includes advanced aspects of risk assessment; applicable environmental legislation; waste characterizations, minimization and recovery; chemical, physical, and biological waste treatment methods; thermal, injection well and landfill disposal methods; and a section on the transportation of hazardous wastes. (Spring)

452. Pollution Fundamentals and Control Technologies. Credit 3 hours. Prerequisite: OSHE 251. This course explores the mechanisms of air, water and soil pollution and the steps to eliminate or minimize impacts on the ecology and human health and safety. The course is also designed to explore the existing pollution prevention and control technologies and the evaluation of their performance. A laboratory fee is required for this course. (Fall, Spring)

471. Education and Training Methods for Occupational Safety and Health. Credit 3 hours. This course introduces the concepts of adult training and education with emphasis on occupational safety and health. Major topics include: instructional system design, including performing a training needs assessment tasks analysis, program design goals and objectives, performance evaluation, delivery methods and media; computer-based training methods; systems to manage costs; and record keeping. (Fall)

491. Special Topics. Credit 1-4 hours. Prerequisite: Permission of the Department Head. Special topics in occupational safety, health, and environment that are appropriate for a professional elective in Occupational, Safety, Health, and Environment major. May be taken repeatedly when topics vary for a maximum of six credit hours. (Varies)

492. Capstone. Credit 3 hours. Prerequisite: Permission of Department Head. Students conduct comprehensive projects that demonstrate culminating experiences based on the cumulative knowledge and skills acquired in earlier course work. Grades assigned on a Pass/Fail basis. (Varies)

Operations Management and Information Systems (OMIS)

200. Business Statistical Models I. [LCCN: CBUS 2303, Business Statistical Methods I]. Credit 3 hours. Prerequisite: MATH 105 or 161. Collection and organization of business and economic data; descriptive statistics; measures of central tendency and dispersion; statistical inference; probability; time series; index numbers; and regression and correlation topics. (Varies)

210. Business Statistical Models II. [LCCN: CBUS 2313, Business Statistical Models II]. Credit 3 hours. Prerequisite: MATH 241 or OMIS 200. Review of descriptive and inferential statistics. Additional topics include: two-sample confidence intervals and hypothesis testing, correlation analysis, ANOVA, simple linear regression and multiple regression forecasting, and use of application software. The course concludes with an introduction to business analytics. (Summer, Fall, Spring)

310. Quantitative Methods for Business Decisions. Credit 3 hours. Prerequisites: OMIS 210 and Junior standing. The use of quantitative methods and techniques as scientific tools in business decision making. (Spring)

320. Principles of Supply Chain Management. Credit 3 hours. Prerequisites: MATH 241 or OMIS 200 and Junior standing. A study of how Supply Chain Management impacts all the areas of the firm and how managers can improve their competitive position by employing many of the purchasing, operations and logistics practices and processes discussed throughout the course. (Summer, Fall, Spring)

325. Supply Management and Purchasing. Credit 3 hours. Prerequisites: OMIS 320 and Junior standing. A course that introduces the role of supply management in the organization along with its basic functional areas including the evolution of the function, the purchasing process, organization of supply management within the firm, policy and procedures, strategic sourcing, out-sourcing, supplier evaluation, supplier selection, quality management, supplier development, international sourcing, cost management, contracts, negotiation, purchasing of transportation services, EDI and the legal and ethical aspects of supply management. Credit toward the degree will not be granted for both MRKT 320 and OMIS 325. (Fall, Spring)

350. Management Information Systems. [LCCN: CMGM 3013, Management Information Systems]. Credit 3 hours. Prerequisite: Junior standing. A study of the foundations of information systems such as networks, databases, the Internet, computer hardware, and software. Focuses on the interdependence among an organization's management, business processes, and information systems. (Summer, Fall, Spring)

360. Web Design and Development. Credit 3 hours. Prerequisite: Junior standing. A study of the processes and tools used to design, create, publish and manage Web sites. Other topics include the use of text, graphics, sound, video, and digital imaging, e-mailing, newsgroups, Webboard discussions, Intranets, and the legal, social, and ethical issues faced by Internet users. (Fall)

365. Social Media Applications in Business. Credit 3 hours. Prerequisites: OMIS 350 and Junior Standing. This course examines the unique challenges of community, social interaction, and business communication of firms in a digital world. Course components include the techniques of digital media in business and the interactive media applications that support them. Students are expected to use social media practices to create multimedia learning journals, and small groups will use social media to produce and present projects. (Varies)

370. Data Management for Business. Credit 3 hours. Prerequisite: OMIS 350. An introduction to the concept, use, and application of data management in business decision making. Topics include data management principles, core components of data processing, data modeling, and relational database designs. (Spring)

380. Business Analytics. Credit 3 hours. Prerequisites: OMIS 210 and OMIS 350. The study of integrating methods and applications to solve business problems using descriptive, predictive and prescriptive analytics. Emphasis will be on data creation, distribution, mining, reporting, and storage throughout the organization. (Fall, Spring)

391. Operations Management and Information Systems Internship. Credit 3 hours. Prerequisites: OMIS 320 or OMIS 350, Junior standing, a 2.5 adjusted grade point average, and permission of the Department Head. The Operation Management and Information Systems Internship provides the student with work experience in an assignment selected and approved by the University with a cooperating business firm. Students will earn three hours credit for a minimum of 300 hours of approved work experience. Only Supply Chain Management majors can receive credit for the Operation Management and Information Systems Internship course. All grades are assigned on a Pass/Fail basis. (Summer, Fall, Spring)

392. Operations Management and Information Systems Internship II. Credit 3 hours. Prerequisites: OMIS 320 or 350, Junior Standing, a 2.5-degree grade point average and permission of the Department Head. Continuation of OMIS 391. In order to obtain credit for OMIS 392, the work assignment must be different from that of OMIS 391. The Operations Management and Information Systems Internship provides a student with work experience in an assignment selected and approved by the Department Head with a cooperating business firm. Students will earn three

semester hours of credit for a minimum of 300 hours of approved work experience. Only Supply Chain Management majors can receive credit for the Operations Management and Information Systems Internship course. All grades are assigned on a Pass/Fail basis. (Varies)

425. Logistics Management and Transportation. Credit 3 hours. Prerequisites: OMIS 310, OMIS 320 and Junior standing. This course introduces the student to logistics providing coverage on the following topics: the 21st Century supply chain, efficient logistics, customer accommodation, procurement, manufacturing and distribution strategies, operational integration, information networks, planning and scheduling, inventory management, major modes of transportation, transportation infrastructures and regulation, warehousing, packaging and materials handling, network integration, and administration. (Fall)

430. Production and Operations Management. [LCCN: CMGM 3213, Production & Operations (Upper Level)]. Credit 3 hours. Prerequisites: MGMT 351 and OMIS 200 or 210 or permission of Department Head. The study of the systems for the creation of goods and services consumed by society. (Summer, Fall, Spring)

435. Project Management. Credit 3 hours. Prerequisites: OMIS 210 and MGMT 351. The study of planning, scheduling, organizing, and controlling projects for product development, construction, information systems, new businesses, and special events. Primary course emphasis is on the project management process and the tools used for control. (Spring)

440. Current Issues in Supply Chain Management. Credit 3 hours. Prerequisites: Senior Standing, OMIS 325 and OMIS 425. This course is designed to introduce students to current purchasing, operations, logistics, and information systems practices within the firm operating in the global environment. Special emphasis is placed on improvement initiatives as they relate to the overall Supply Chain strategy of the firm. A team-based project is required. (Fall, Spring)

460. e-Business and e-Commerce. Credit 3 hours. Prerequisite: Junior standing. This course is designed to introduce students to electronic-based business strategies and other related issues ranging from the identification of business opportunities via the WWW to the evaluation of business strategies on the Internet. Credit toward the degree will not be granted for both MRKT 435 and OMIS 460. (Spring)

470. Decision Support Systems. Credit 3 hours. Prerequisites: OMIS 210 and OMIS 350. An introduction to business decision support systems. A cognitive process and decision-making perspective is used to highlight the implications of decision support technology for managerial problem solving. The evolution of decision support systems is discussed from architecture, design, and implementation through artificial intelligence. (Varies)

480. Management Information Systems Development. Credit 3 hours. Prerequisite: Registration in or prior credit for OMIS 370. The study of information systems tools, techniques, and skills necessary to perform in-depth systems analysis. Emphasizes the application of process-oriented, data-oriented, and object-oriented approaches to systems analysis. (Varies)

495. Special Topics in Supply Chain Management. Credit 3 hours. Prerequisite: OMIS 320. A varying course subject which discusses emerging topics of special interest in the field of supply chain management. The content may change from semester to semester and will be announced in advance. May be taken by majors and non-majors. (Varies)

600. Statistical Methods in Business and Economics. Credit 3 hours. Prerequisites: OMIS 200 and Graduate Standing. Statistical inference; analysis of variance; trend and curve fitting; multiple and partial correlation; application to business problems with appropriate computer applications. (Fall, Spring)

635. Applications in Project Management. Credit 3 hours. Prerequisites: OMIS 435 and Graduate Standing. This course focuses on the study of the unique challenges of information technology and knowledge management for today's project managers. Emphasis is placed on project control techniques. (Summer)

640. Advanced Supply Chain Issues. Credit 3 hours. Prerequisite: Graduate standing. This course explores supply chain issues as they impact business and economic development activities. Course involves in-depth look at supply chain and purchasing management issues that are central to the expedient development of markets and economies. (Varies)

650. Information Management for Organizations. Credit 3 hours. Prerequisite: Graduate Standing. A study of the application of computer technology in organizations. Course topics include the system approach in managing and implementing computer-based systems; behavioral aspects of modern organizations; planning, designing and implementing information systems; and the use of information systems for decision making. (Varies)

670. Database Modeling and Design. Credit 3 hours. Prerequisites: OMIS 350 and Graduate Standing. The study of database design methodologies in various database environments. Topics include data management, structured query language, security techniques, user interface design, and data warehouses. (Varies)

680. Information Systems Analysis and Design. Credit 3 hours. Prerequisites: OMIS 350 and Graduate Standing. A study of information systems for management decision making, systems construction and computer utilization, organizational concepts, systems and data systems designed for business functions. (Varies)

690. Technology Applications in Management. Credit 3 hours. Prerequisites: OMIS 350 and Graduate Standing. A course designed to examine existing and emerging information technology applications. Special emphasis will be given to the role managers play in the successful application of information technology to improve business processes. (Varies)

695. Special Topics in Operations Management and Information Systems. Credit 3 hours. Prerequisite: Graduate Standing. A seminar course focusing on selected issues in Operations Management and/or Information Systems. (Summer)

Philosophy (PHIL)

201. Introduction to Logical Reasoning. [LCCN: CPHL 2113, Introduction to Logic] Credit 3 hours. Prerequisites: ENGL 102, 122H, or 124H and MATH 105 or higher. An introduction to the basic principles of deductive and inductive reasoning, emphasizing the art of reasoning and its practical application. (Summer, Fall, Spring)

301. Introduction to Philosophy. Credit 3 hours. Prerequisite: ENGL 102 or 122H or 124H. An introductory study of philosophy which considers the four basic areas of philosophy-metaphysics (the nature of reality), epistemology (the nature of knowledge), ethics (moral values), and logic (the basic rules for correct thinking). (Fall)

302. The Great Philosophers. Credit 3 hours. Prerequisite: ENGL 102 or 122H or 124H. Introductory readings of the works of great philosophers beginning with the ancient Greeks (e.g., Plato, Aristotle) and proceeding to the modern and contemporary philosophers (e.g., Rene Descartes, David Hume, John Dewey). (Spring)

310. Critical Thinking. Credit 3 hours. Prerequisite: ENGL 102 or 122H or 124H. A study of the methods of understanding, analyzing, and evaluating arguments as found in everyday contexts which require practical reasoning skills, e.g., newspaper editorials, advertising, and political campaigns. Designed to improve analytical and critical skills in thinking, reading, writing, and listening. (Varies)

313. Ethics. Credit 3 hours. Prerequisite: ENGL 102 or 122H or 124H. A study of the major systems of thought focusing on moral values, concepts of good and evil, right and wrong. Designed to introduce students to the various perspectives on these themes as formulated by major philosophers. (Spring)

314. Special Topics in Philosophy. Credit 3 hours. Prerequisite: ENGL 102 or 122H or 124H. A detailed study of a topic selected by the instructor. Topics and instructors will vary. May be repeated once, but Department Head approval is required to count more than 3 hours toward the Minor in Philosophy. (Varies)

315. Philosophy of History. Credit 3 hours. Prerequisite: ENGL 102 or 122H or 124H. Especially recommended for history and political science majors, but open to all qualified undergraduates. A study of the way major philosophers have understood history, usually in terms of their search for patterns and meanings in the movement of history. Special consideration will be given to thinkers such as Karl Marx, Friedrich Nietzsche, G.W.F. Hegel, Arnold Toynbee, etc. (Fall)

320. Philosophy and the Arts (Aesthetics). Credit 3 hours. Prerequisite: ENGL 102 or 122H or 124H. A general survey of readings concerned with the question of what makes something beautiful, or what makes something a work of art. Frequent reference to the arts and artistic practice will be made (e.g., as found in film, literature, music, and painting). (Spring Even Years)

321. Existentialism and Contemporary Philosophy. Credit 3 hours. Prerequisite: ENGL 102 or 122H or 124H. This course will study the writings of some of the major figures in existentialism (e.g., Kierkegaard, Nietzsche, Heidegger, Sartre, Camus) as well as the writings of some of the other important figures in contemporary philosophy (e.g., Wittgenstein, Rorty, Foucault, etc.). (Spring Odd Years)

416/516. American Philosophy. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. A study of the major development in American philosophy through a detailed consideration of American thinkers. (Spring Odd Years)

417/517. Intellectual History (History of Ideas). Credit 3 hours. Prerequisite: Junior standing or consent of the Department Head required. A study of the intellectual influences on western thought since the Middle Ages, beginning with Renaissance Humanism and proceeding through Protestantism, Rationalism, the Enlightenment and Romanticism to the dominant scientific and political views of the nineteenth and twentieth centuries. (Spring)

418/518. Independent Study in the History of Philosophy. Credit 3 hours. Prerequisites: Junior standing, permission of the Department Head, and at least nine hours of undergraduate philosophy. Conducted as a tutorial for individual students seeking additional work beyond the introductory level. Readings chosen according to student interest, academic orientation, and level of student preparedness. Evaluations conducted on the basis of discussions and written assignments. (Varies)

Physical Science (PHSC)

101. Physical Science I. [LCCN: CPHY 1013, Introduction to Concepts in Physics; CPHY 1023 Physical Science I]. Credit 3 hours. A survey course in selected topics of physics designed primarily for students majoring in a non-science degree. Course consists of three hours of lecture and demonstrations per week. (Summer, Spring)

102. Physical Science II. [LCCN: CPHY 1033, Physical Science II]. Credit 3 hours. A survey course in the cultural and applied aspects of chemistry designed primarily for students majoring in a non-science degree. Credit cannot be given for both PHSC 102 and CHEM 109. Course consists of three hours of lecture and demonstrations per week. (Summer, Fall)

142. Elementary Physical Science. Credit 4 hours. Prerequisite: Education major, in-service teacher, or permission of the Department Head. This course is designed to prepare prospective and in-service K-12 teachers to teach physical science as a process of inquiry. The curriculum focuses on core concepts of physics and chemistry, and students will actively engage in a process of hands-on investigation and discovery in a laboratory setting. The primary objective is to provide a student-centered, active-learning environment that promotes critical thinking, collaborative learning, and an understanding and appreciation of the processes of scientific investigations. Five hours of integrated lecture and laboratory per week. (Varies)

631. Computational Modeling in Physical Science. Credit 3 hours. Prerequisite: PHYS 622. A course designed to address introductory level topics in physical science with high performance computational modeling. Three major themes will guide the course: helping students clearly understand the tools and techniques of computational science to better understand how they are used in both modern research and teaching; providing students with an opportunity to deepen their content knowledge in a manner very different than traditional education in physical science, and providing students with alternate strategies that enable them to more effectively teach conceptual topics in physical science. Numerical modeling, systems dynamics modeling, agent modeling, and molecular modeling software tools and techniques will be used for a variety of physics and chemistry topics. (Varies)

635. Curriculum Design for Physical Science. Credit 3 hours. Prerequisites: PHYS 621/622 or and PHSC 631. A graduate-level capstone course that explores the elements of research-based curriculum design and their application for physical science. The three themes of the course include: identifying the key elements of research-based curricula, investigating and evaluating the application of these elements in the existing pool of research-based curricula for physical science, and the application of these elements toward the creation of original lessons and curriculum units for physical science. Key elements that will be surveyed include how people learn, teaching for understanding, assessment and its role in "backwards design", as well as the role of content standards, inquiry, nature of science, instructional models, technology, and various pedagogical structures (i.e. cooperative learning, questioning, science talk) in curriculum design. (As Needed)

Physics (PHYS & PLAB)

Credit toward the degree will be granted for only one of the Physics courses in each of the following combinations: 142-191-221, 192-222, 193-223, 194-224.

100. Acoustics for Musicians. Credit 3 hours. Prerequisite: MATH 105 or 161, or Math ACT score of 20 or higher. The fundamentals of sound, waves and related phenomena for music majors. Three hours of lecture per week. (Fall)

121. Elementary Modern Electronics. Credit 3 hours. Prerequisite: Registration for or prior credit for PHYS 123. A course emphasizing circuit design with modern integrated circuit chips. (Varies)

123. Elementary Modern Electronics Laboratory. Credit 1 hour. Prerequisite: Registration for or prior credit for PHYS 121. A laboratory course involving the construction of radios, digital counters, clocks, frequency meters and other devices for electronic measurement and control. (Varies)

130. Orientation to the Physics Curriculum. Credit 1 hour. Prerequisite: Major in physics or secondary science education with a teaching area of physics, or permission of the Department Head. This course will orient incoming physics majors to the physics curriculum by placing physical principles in the context of current events and current research. To this end, the physics faculty and other visiting speakers will present on topics of their choosing. (Fall)

142. Physics for Elementary Education. Credit 4 hours. Prerequisite: Education majors, in-service teachers, or permission of the Department Head. This course is designed to prepare preservice and in-service K-12 teachers to teach physical science as a process of inquiry. The curriculum will focus on a small number of topics in elementary physics, and students will actively engage in a process of hands-on

investigation and discovery in a laboratory setting. The central objective is to provide an active learning environment that promotes critical thinking skills, collaborative learning, and an understanding and appreciation of the process of scientific investigation. Three hours of lecture and two hours of laboratory per week. (Summer, Fall, Spring)

191. General Physics. [LCCN: CPHY 2113, Physics I (Algebra/Trigonometry Based)]. Credit 3 hours. Prerequisite: MATH 162, or 175, or 200, or permission of the Department Head. A study of the fundamentals of mechanics, heat and sound for students in the biological sciences, industrial technology, and other areas where a knowledge of calculus is not required. (Summer, Fall, Spring)

191H. General Physics Honors. Credit 3 hours. Prerequisites: ACT mathematics standard score of 27 or higher or completion of MATH 162, or 175, or 200 with a grade of C or higher; and registration for PLAB 193H. A study of the fundamentals of mechanics, heat and sound for students in disciplines where a knowledge of calculus is not required. (Varies)

192. General Physics. [LCCN: CPHY 2123, Physics II (Algebra/Trigonometry Based)]. Credit 3 hours. Prerequisite: PHYS 191 or 221. A study of the fundamentals of electricity, magnetism, light, and modern physics for students in the biological sciences, industrial technology, and other areas where a knowledge of calculus is not required. (Summer, Fall, Spring)

193. General Physics Laboratory. [LCCN: CPHY 2111, Physics Lab I (Algebra/Trigonometry Based)]. Credit 1 hour. Prerequisite: Registration for or prior credit for PHYS 191. Selected laboratory experiments designed to supplement the lecture in PHYS 191. Two hours of laboratory a week. (Summer, Fall, Spring)

193H. General Physics Honors Laboratory. Credit 1 hour. Prerequisite: Registration for or prior credit for PHYS 191H. Selected laboratory experiments designed to supplement the lecture in PHYS 191H. Two hours of laboratory a week. (Varies)

194. General Physics Laboratory. [LCCN: CPHY 2121, Physics II Lab (Algebra/Trigonometry Based)]. Credit 1 hour. Prerequisites: PLAB 193 or 223 and registration for or prior credit for PHYS 192. Selected laboratory experiments designed to supplement the lecture in PHYS 192. Two hours of laboratory a week. (Summer, Fall, Spring)

221. General Physics. [LCCN: CPHY 2133, Physics I (Calculus Based)]. Credit 3 hours. Prerequisites: Registration or prior credit for Mathematics 200. Basic principles of mechanics, heat and sound for technical students only. (Fall, Spring)

222. General Physics. [LCCN: CPHY 2153, Physics III (Calculus Based)]. Credit 3 hours. Prerequisite: PHYS 221. Basic principles of electricity, magnetism, and light for technical students only. (Fall, Spring)

223. General Physics Laboratory. [LCCN: CPHY 2131, Physics I Lab (Calculus Based)]. Credit 1 hour. Prerequisite: Registration for or prior credit for PHYS 221. A corresponding laboratory course for PHYS 221. Three hours of laboratory a week. (Fall, Spring)

224. General Physics Laboratory. [LCCN: CPHY 2141, Physics II Lab (Calculus Based)]. Credit 1 hour. Prerequisites: PLAB 223 and registration for or prior credit for PHYS 222. A corresponding laboratory course for PHYS 222. Three hours of laboratory a week. (Fall, Spring)

225. Applied Physics Experience. Credit 1 hour. Prerequisites: PHYS 221 and PLAB 223, or permission of the Department Head. Application of physics lecture and laboratory knowledge and skills in a supervised, experiential-learning environment. Pass/Fail only. Three hours per week. May be repeated for a total of 5 credit hours. (Varies)

241. Engineering Statics. Credit 3 hours. Prerequisite: PHYS 221. Vectors; two-dimensional and three-dimensional force system; equilibrium; friction; centroids; mass moments of inertia; second moments of areas. (Varies)

242. Engineering Circuits. Credit 3 hours. Prerequisite: PHYS 222. Introduction to linear, time-invariant and jumped circuits, Kirchoff's laws, analysis of resistive circuits and steady-state analysis of RLC and transformer circuits. (Varies)

301. Electricity and Magnetism. Credit 3 hours. Prerequisite: PHYS 222. Advanced study of the fundamentals of electricity and magnetism. (Varies)

303. Electricity and Magnetism Laboratory. Credit 1 hour. Prerequisites: PLAB 224 and registration for or prior credit for PHYS 301. Selected experiments in advanced electricity and magnetism. Three hours of laboratory a week. (Varies)

312. Optics. Credit 3 hours. Prerequisite: PHYS 222. Advanced study of the fundamentals of geometric and physical optics. (Varies)

314. Optics Laboratory. Credit 1 hour. Prerequisites: PLAB 224 and registration for or prior credit for PHYS 312. Selected experiments in optics. Three hours of laboratory a week. (Varies)

321. Thermodynamics. Credit 3 hours. Prerequisite: PHYS 222. An introduction to the principles of thermodynamics, kinetic theory, and statistical mechanics. (Spring)

331. Mathematical Physics. Credit 3 hours. Prerequisite: PHYS 222. A study of vectors, complex variables, and other selected topics that have application in mechanics, electromagnetic wave theory, and vibratory motion. (Varies)

332. Intermediate Mechanics. Credit 3 hours. Prerequisite: PHYS 222. A study of the fundamentals of mechanics. (Varies)

334. Intermediate Mechanics Laboratory. Credit 1 hour. Prerequisites: Physics Lab 224 and registration for or prior credit for Physics 332. Selected experiments in mechanics. Three hours of laboratory a week. (Varies)

351. Modern Physics. Credit 3 hours. Prerequisite: PHYS 222. A survey of the modern physical theories of relativity, quantum mechanics, the solid state, molecular structure, and elementary particles. (Varies)

353. Modern Physics Laboratory. Credit 1 hour. Prerequisites: Physics Lab 224 and registration for or prior credit for Physics 351. Selected experiments in modern physics. Three hours of laboratory a week. (Varies)

401/501. Advanced Mechanics. Credit 3 hours. Prerequisite: PHYS 332. A continuation of PHYS 332 with further study of the fundamentals of mechanics. (Varies)

402/502. Electromagnetic Wave Theory. Credit 3 hours. Prerequisite: PHYS 301. A theoretical treatment of electromagnetic waves. (Varies)

411/511. Physics Seminar. Credit 1 hour. Prerequisite: Permission of the Department Head. Reviews and discussion of current research topics by students, faculty, and industrial personnel. (Varies)

412/512. Physics Seminar. Credit 1 hour. A continuation of PHYS 411/511. (Varies)

421/521. Quantum Mechanics I. Credit 3 hours. Prerequisite: PHYS 351 or permission of the Department Head. A course on the fundamentals of quantum mechanics. (Varies)

422/522. Quantum Mechanics II. Credit 3 hours. Prerequisites: PHYS 421/521. A continuation of PHYS 421/521. (Varies)

425. Advanced Undergraduate Laboratory. Credit 2 hours. Prerequisite: Any one of PLAB 303, 314, 334, or 353, or permission of the Department Head. A capstone laboratory for physics majors. Students will design, propose, perform, and report on (both orally and in writing) an experiment in physics. Six hours of laboratory per week. (Varies)

430/530. Special Topics in Physics. Credit 1-3 hours per semester. Prerequisites: PHYS 222 and permission of the Department Head. Advanced topics in physics not covered elsewhere in the physics curriculum. The specific topic will be determined by the course instructor. This course may be repeated for a total of nine credit hours if different topics are studied. (Spring)

611. Continuum Mechanics. Credit 3 hours. Prerequisites: PHYS 332 and MATH 350 or permission of the Department Head. A study of the dynamics of solids and fluids modeled as continua rather than as discrete particles. (Varies)

612. Laser Physics. Credit 3 hours. Prerequisite: PHYS 402 or permission of Department Head. Topics include electromagnetic fields, propagation of optical beams, optical resonators, interaction of radiation and atomic systems, laser oscillation, modulation of optical radiation and some specific laser systems. Laser interferometric gravitational wave detector may be used as an example. (Varies)

618. Advanced Mathematical Physics. Credit 3 hours. Prerequisites: PHYS 222, MATH 312, and MATH 350 or permission of the Department Head. A study of advanced mathematical methods as applied to theoretical or experimental physics. (Varies)

619. Computational Methods in Physics. Credit 3 hours. Prerequisite: PHYS 331 or MATH 350 or CHEM 395. Computational methods for solving practical problems arising in physics. Topics include numerical methods for solving equations, systems of equations, ordinary differential equations, partial differential equations, polynomial integration and least square approximation. (Varies)

621. Conceptual Frameworks in Introductory Physics I. Credit 3 hours. Prerequisites: PHYS 221 and permission of the Department Head. This is a three credit-hour graduate course that will provide a rigorous treatment of the conceptual frameworks of introductory physics. Three major themes will guide the course: the process of science, motion as explained by force, and motion as explained by energy. The course will consist of textbook-supported guided inquiry exercises that lead students through their own development of the conceptual frameworks of physics by constructing, applying, evaluating, and/or revising theories and models in light of empirical evidence. (Varies)

622. Conceptual Frameworks in Introductory Physics II. Credit 3 hours. Prerequisites: PHYS 222, PHYS 621, and permission of the Department Head. This is a three credit-hour graduate course that will provide a rigorous treatment of the conceptual frameworks of introductory physics. Three major themes will guide the course: the process of science, motion as explained by force, and motion as explained by energy. The course will consist of textbook-supported guided inquiry exercises that lead students through their own development of the conceptual frameworks of physics by constructing, applying, evaluating, and/or revising theories and models in light of empirical evidence. (Varies)

Political Science (POLI)

200. Introduction to Political Science. Credit 3 hours. Introduction to major concepts, theories, and methodologies of political science, including the institutions of government, policy formation, law, comparative politics, international relations, and the methodologies used to study them. (Fall, Spring)

201. American Politics. [LCCN: CPOL 2013, Introduction to American Government]. Credit 3 hours. A study of the problems, principles, and structure of the American national political system. (Summer, Fall, Spring)

202. State and Local Politics. [LCCN: CPOL 2113, Introduction to State and Local Government]. Credit 3 hours. A study of the problems, principles, and structure of state and local politics in the United States. Special attention to Louisiana state and local politics. (Summer, Fall, Spring)

300. Research Methods and Statistics in Political Science. Credit 3 hours. Prerequisite: POLI 200 or 201 or permission of the Department Head. Emphasis on the elements of social scientific research as they apply to the field of political science. (Summer, Fall, Spring)

400/500. Independent Study. Credit 3 hours. Prerequisites: Junior standing or permission of the Department Head. Conducted as a tutorial for individual students seeking additional work beyond the introductory level. Readings chosen according to student interest, academic orientation, and level of preparedness. Evaluations conducted on the basis of discussions and written assignments. Students taking this course for graduate degree credit must expect greater reading and paper requirements. May be repeated once but Department Head approval is required to count more than 3 hours toward the B.A. in Political Science or M.A. in History. (Varies)

401/501. Introduction to Public Law. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. American law in action. Definition, classification, function, and relationships of law. The study of the role of legislatures and the courts in the legal process, theories of justice, and the development of modern jurisprudence. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Fall Odd Years)

403/503. Constitutional Law. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. A survey of the interpretation of the law according to the United States Constitution. Special emphasis on the study of cases in local, state, and federal courts. Class discussion and analysis of cases will be featured. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Spring Even Years)

405/505. Criminal Justice and the U.S. Constitution. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. An investigation of basic constitutional problems involving criminal justice procedures with an emphasis on landmark U.S. Supreme Court decisions. Credit cannot be given for both CJ 405/505 and POLI 405/505. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Varies)

406/506. The Administration of the American Courts Systems. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. An examination of the theory, practice, people, major issues and problems of the American civil and criminal court systems. Credit cannot be given for both CJ 406/506 and POLI 406/506. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Fall Even Years)

407/507. Civil Rights and Civil Liberties. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. Emphasis will be placed on First Amendment freedoms and on the Fourteenth Amendment Due Process and Equal Protection clauses. The study of cases will be supplemented by readings. Special attention is given to current problems. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Fall Even Years)

420/520. International Relations. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. Introductory study of principles and problems relating to the relations between nations. Special attention will be given to current world problems. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Fall Odd Years)

422/522. International Organizations. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. Regional, functional, and universal international organizations. Consideration of structure, process, and activities. Attention to their role as forces for change. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Spring Even Years)

424/524. International Political Economy. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. The study of the interplay between politics and economics in the international arena. Examines the theoretical frameworks of Classical Liberalism, Marxism, systems theory, etc., and how they apply to the advanced industrial nations and the developing nations. Focuses on the political environments that have emerged and their impact on the economic well-being of the northern and southern hemispheres. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Fall Even Years)

425/525. Comparative European Politics. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. The comparative study of European political systems, concentrating on politics in Great Britain, France, Germany, Italy, and Russia, including an analysis of the development and current status of the European Union. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Fall)

426/526. Comparative Politics of Developing Nations. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. The study of the political systems of developing nations, examining the progression of their political and economic systems, emphasizing the interrelated effects of these systems within each nation. Concentrating on India, Greater China, Brazil, Japan and the Pacific Rim, and nations of sub-Saharan Africa. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Spring)

428/528. Middle East Politics. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. An examination of the Middle East and the development of its geographical and political boundaries. A brief historical background introduces the contemporary nations of the Middle East, concentrating on a comparative analysis of their political systems, the international relations between these nations (through organizations such as OPEC and the Arab League), and relations between the Middle East and political systems outside of the region. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Spring Odd Years)

432/532. Southern Politics. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. An examination of the politics of the American South, focusing on the dramatic political developments and shifts within the region since World War II. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Spring Odd Years)

434/534. The American Presidency. Credit 3 hours. Prerequisite: POLI 201 and ENGL 102. An analysis of the creation, history, and development of the office of the presidency. Special attention will be given to the powers and responsibilities of the modern presidency. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Fall Odd Years)

436/536. Legislative Process. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. An analysis of the principles, procedures, and problems of law-making in the United States, including Congress and state legislatures. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Spring Even Years)

437/537. The Louisiana Legislature in Session. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. Intensive coverage of the Louisiana legislature in session. Special emphasis on actual daily attendance of the legislative session in Baton Rouge, observing committee hearings and floor debates, and meeting the players in the legislative arena. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Summer)

438/538. Political Parties. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. A study of the origin, development, and functions of American political parties. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Fall Odd Years)

440/540. Louisiana Politics. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. A study of patterns, trends, and issues important to the development of Louisiana politics and political culture. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Spring Even Years)

442/542. Polling and Public Opinion. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. An examination of the content, causes, and effects of public opinion in American politics. Special emphasis on the tools of public opinion research. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Fall Even Years)

444/544. American Foreign Policy. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. A study of the patterns, trends, and sources of American foreign policy. Particular emphasis on post-World War II foreign policy. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Spring Odd Years)

446/546. Politics and the Environment. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. An exploration of the evolution of modern environmental policy in the United States. A focus on the American approach to domestic and international environmental issues. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Spring Odd Years)

450/550. Ancient and Medieval Political Theory. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. Political thought of Greece, Rome, Medieval Europe, and the emergence of modern political concepts. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Fall Odd Years)

451/551. Modern and Contemporary Political Theory. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. Political thought in recent times which strongly reflects the impact of the industrial revolution. Socialism, Marxism, Communism, Nazism, and Fascism are considered. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Spring Even Years)

452/552. American Political Theory. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. Significant American political ideas from colonial times to the present. Students taking this course for graduate degree credit must expect greater reading and paper requirements. (Fall Even Years)

460/560. American Public Policy. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. An examination of the policy-making process and the major areas of domestic policy in the United States. (Fall Even Years)

462/562. Special Topics in Public Policy. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. A detailed examination of a topic within the field of public policy. May be repeated for credit once provided different topics are studied. (Spring Odd Years)

470. Internships in Political Science. Credit 3 hours. Prerequisite: A minimum grade point average of 2.7 cumulative and 3.0 in political science. An opportunity for students to learn about government and politics from the viewpoint of a participant. Interns must work a minimum of 20 hours per week during a regular semester, a minimum of 40 hours per week during a summer semester, at times mutually agreeable to the individual and the agency. Any reading and paper requirements must be satisfied. All grade requirements and criteria will be established ahead of time by the faculty internship coordinator. Course may be taken twice for a maximum of 6 credit hours. Each instance may be substituted for 3 required credit hours in a particular subfield of political science at the 400 level, though there can be no such substitution for POLI 490. (Varies)

475/575. International Political Simulations. Credit 3 hours. Prerequisites: POLI 201 and ENGL 102. This course prepares students for political simulations of policy decisions within international organizations. While the most common format for such simulations is that provided by the Model United Nations, other possible simulation formats include the Model Organization of American States, the Model European Union, the Model North Atlantic Treaty Organization, and the Model Arab League, among others. (Varies)

480/580. Special Topics in Political Science. Credit 3 hours. Prerequisite: Junior standing or permission of Department Head approval. A detailed study of a topic selected by the instructor. Topics and instructors will vary. May be repeated once, but Department Head approval is required to count more than 3 hours toward the B.A. in Political Science or M.A. in History. (Varies)

490. Seminar for Political Science Majors. Credit 3 hours. Prerequisite: Senior standing or permission of the Department Head. A seminar style readings course designed to give students a general survey of the field of political science. This course serves as a capstone course for majors in political science. (Fall, Spring)

600. Seminar: Special Topics in American Politics. Credit 3-6 hours. Course may be taken twice, for a maximum of 6 credit hours, when the subject matter differs. (Varies)

610. Seminar: Special Topics in International Politics. Credit 3-6 hours. Course may be taken twice, for a maximum of 6 credit hours, when the subject matter differs. (Varies)

Population Health Management (PHM)

601. Essentials of Population Health Science. Credit 3 hours. Prerequisite: Admission to the Population Health Management program or permission of the Department Head. This course addresses population health outcomes for a group of individuals. Population Health provides a population perspective on the multi-level (socio-ecologic) determinants of health, disease and injury; the programs, policies and services that

protect and promote health and prevent disease; and key concepts related to maintaining the health and wellness of populations. This class examines the importance of determinants of health; including medical care, public health, genetics, personal behaviors and lifestyle; and a broad range of social, environmental, health equity and economic factors. (Fall)

602. Research Science In Population Health Management. Credit 3 hours. Prerequisite: Admission to the Population Health Management program or permission of the Department Head. This course will introduce the major components in research methods including: Levels of measurements, qualitative and quantitative study designs, selection of study populations, hypothesis formulation, sampling, measurement instrumentations, formulation of research questions, and study interpretation issues such as determination of causality and the effectiveness of clinical and community interventions. (Fall)

603. Introduction to Biostatistics and Health Analytics. Credit 3 hours. Prerequisite: Admission to the Population Health Management program or permission of the Department Head. This class covers biostatistical methods necessary to interpret data for Evidence-Based Practice (EBP) in Population Health. Topics include critical appraisal of evidence, variation and variables, levels of data measurement, descriptive statistics and data display, probability, statistical and clinical significance, confidence intervals, statistical power analysis, hypothesis testing, and inferential statistics. Emphasis will be placed on the application of biostatistics to collect and translate health data to plan actionable interventions and programs that improve the delivery of healthcare and patient health outcomes. (Fall)

605. Epidemiology and Health Determinants. Credit 3 hours. Prerequisite: Admission to the Population Health Management program or permission of the Department Head. This class covers the principles and methods of epidemiology and includes research designs and methods used to study and describe disease occurrence. Students will develop skills in obtaining, evaluating and interpreting research findings and other population data sources. This course will examine social determinants of health, health disparities, and the linkages between social epidemiology and health. (Fall)

610. Wellness, Disease Prevention and Management. Credit 3 hours. Prerequisite: Admission to the Population Health Management program or permission of the Department Head. This course examines the concepts and strategies of wellness, care management, analyzes strategies aimed at primary and secondary prevention, and evaluates models and efforts to expand care management accountability into the community. (Spring)

611. Healthcare Systems Management and Project Management. Credit 3 hours. Prerequisite: Admission to the Population Health Management program or permission of the Department Head. This course provides an overview of the evolution, structure and current issues in the healthcare system. It examines the management of health care as a product, and the changing relationships between patients, physicians, hospitals, insurers, employers, communities, and government. The course will also address implementation of services within systems using projects and project teams. Core concepts and skills for managing services and projects effectively; making sure they are completed on time, within budget, and meeting performance objectives, will be addressed. (Spring)

612. Health Informatics. Credit 3 hours. Prerequisite: Admission to the Population Health Management program or permission of the Department Head. This class introduces students to concepts, methods, and issues related to the application of health information technology (HIT) to population health. Emphasizes the population health potential of comprehensive electronic health records (EHRs), personal health records (PHRs), mobile health and telemedicine devices; and consumer focused internet-based tools. Covers the uses of HIT to define and identify populations and sub-populations of interest, describe the health status and needs of populations, improve the health of populations, and evaluate services provided to populations. (Spring)

613. Health Leadership, Economics, and Policy. Credit 3 hours. Prerequisite: Admission to the Population Health Management program or permission of the Department Head. This class focuses on the health organization, financing, economics, delivery of healthcare and leadership skills to manage healthcare systems. In addition, this course will discuss private and public sectors and examines government regulation and market competition and payer plans, trends in healthcare spending, quality of care, and access to care. Students will demonstrate the ability to use predictive economic modeling to anticipate how patient/consumer behavior, business, and government policy and regulation affect healthcare and health outcomes. (Spring)

615. Healthcare Financial Strategy. Credit 3 hours. Prerequisite: Admission to the Population Health Management program or permission of the Department Head. This course introduces key concepts and principles of strategy as it relates to financial considerations in the healthcare industry. Topics to be addressed include financial management and strategy to plan, create, implement and monitor strategic initiatives within healthcare organizations; healthcare reimbursement systems, general accounting, financial analysis, strategic planning, risk based contracting, and regulatory issues. (Fall)

616. Healthcare Marketing and Consumerism. Credit 3 hours. Prerequisite: Admission to the Population Health Management program or permission of the Department Head. This course examines health consumerism as a movement that advocates patients' involvement in their own healthcare decisions as well as the impact in marketing practices for organizations. (Spring)

621. Research Science and Dissemination. Credit 2 hours. Prerequisite: Admission to the Population Health Management program or permission of the Department Head. This course focuses on application of qualitative research and case studies as well as interpreting and translating research findings into community practice. Students will learn how to develop and submit a manuscript for publication. (Summer)

625. Social Determinants of Health. Credit 3 hours. Prerequisite: Admission to the Population Health Management program or permission of the Department Head. Through a combination of readings, critical analysis and reflection, and in-class exercises, students will examine social determinants, health disparities, and interventions to promote health. Students will explore the ways health and illness are influenced by social and economic determinants including race, ethnicity, gender, income, and sexual orientation. (Varies)

626. Program Planning and Evaluation for Population Health. Credit 3 hours. Prerequisite: Admission to the Population Health Management program or permission of the Department Head. This course will enable students to describe and apply assessment and planning processes to determine priorities for the population health interventions. The course will provide an overview of planning and development of population health interventions from a systems perspective, with attention to evidence-based, theoretical, ethical approaches. Students will learn skills to evaluate effectiveness of population health and chronic care transition programs. (Fall)

627. Global Health. Credit 3 hours. Prerequisite: Admission to the Population Health Management program or permission of the Department Head. This foundation course introduces the study of global health and its theories, perspectives, methods, and evidence. The course offers a basic overview of the methods for measuring population health, analytic tools for decision-making, and the evidence base for the effectiveness, risks, and efficiency of interventions, programs, and policies. (Varies)

628. Health Navigation I: Theories and Methods of Behavior Change. Credit 3 hours. Prerequisite: Admission to the Population Health Management program or permission of the Department Head. This course will provide an in-depth overview of behavior change theory and their application to individuals with chronic health conditions. Students will also be introduced to health navigation skills for population health professionals with emphasis on the practical application of brief intervention and motivational interviewing skills to promote healthy lifestyle changes. (Fall)

629. Health Navigation II: Advanced Motivational Interviewing for Behavior Change. Credit 3 hours. Prerequisite: PHM 628 or HS 624 or permission of the Department Head. This course will provide advanced training in health navigation skills with an emphasis on the 4 key elements

of motivational interviewing; patient engagement, patient focusing, evocation for behavior change, and developing a behavior change plan. In addition, consideration will be given to motivational interviewing applications for patients with chronic health conditions. (Spring)

635. Capstone Project. Credit 3 hours. Prerequisite: Admission to the Population Health Management program or permission of the Department Head. A capstone project will comprise a minimum of 120 hours applying culminating program competencies meant to provide students the opportunity to build upon population health, population health management, and value-based care delivery models to demonstrate and hone knowledge and skills, through project planning and development they have gained in the program. Field experience required. (Summer)

Process Technology (PTEC)

101. Introduction to Process Technology. Credit 3 hours. An introduction to the field of Process Technology and the role of process operators within the plant. Major topics to be studied include operator performance and responsibilities, employer expectations, plant safety, responsible care and compliance with regulations, instrumentation, plant equipment and processes, and industrial process control.

131. Instrumentation I. Credit 3 hours. An introduction to the common instrumentation components and their operation and their function within a control loop. Students will be introduced to pressure, temperature, level and flow measurement as well as controllers, valve positioners and relays. Two hours of lecture and two hours of laboratory per week.

132. Instrumentation II. Credit 3 hours. Prerequisites: PTEC 131 and CMPS 110. A detailed study of instrumentation as applied to industrial process control. Major topics to be studied include control concepts, functional structure of feedback control, sensors and transmission systems, controllers, process dynamics and tuning control systems. Two hours of lecture and two hours of laboratory per week.

161. Plant Equipment. Credit 3 hours. A study of industrial plant equipment, including their construction, principles of operation, and utilization within process systems. Equipment to be studied includes pumps, compressors, valves, instruments, boilers, furnaces, turbines, heat exchangers, and cooling towers. Two hours of lecture and two hours of laboratory per week.

207. Statistical Quality Control. Credit 3 hours. Prerequisites: PTEC 242 and MATH 161. A study of the statistical quality control requirement of process industries. Major topics include internal and external customer/supplier relationship, total quality management, statistical methods of quality control, and computer software SPC/SQC programs.

242. Unit Operations. Credit 3 hours. Prerequisites: PTEC 101 and 161. A functional examination of the general types of processes found in the chemical and refining industries, including distillation and fractionation, reaction, absorptions, adsorption, extraction, stripping, cracking, alkylation, hydro processing, clarification and water treatment. Two hours of lecture and two hours of laboratory per week.

243. Industrial Process Control. Credit 4 hours. Prerequisites: PTEC 132 and 242 and CHEM 101 and 103. An advanced study of the design and control of industrial processes. Students will be required to operate and monitor process plant simulators and troubleshoot system upsets. Two hours of lecture and four hours of laboratory per week.

263. Fluid Mechanics. Credit 3 hours. Prerequisites: PTEC 132 and PHYS 191 and 193. A study of the principles of fluid mechanics which provide the theoretical foundation required for the design, construction, installation and operation of plant equipment and process units.

Psychology (PSYC)

101. General Psychology I. [LCCN: CPSY 2013, Introduction to Psychology]. Credit 3 hours. A survey of the science of mind and behavior of humans and other animals. Topics may include the scientific method, history of psychology, learning, development, personality, social psychology, and psychopathology. (Summer, Fall, Spring)

102. General Psychology II. Credit 3 hours. Prerequisite: PSYC 101 or permission of Department Head. A continuation of topic areas not covered in PSYC 101. Covers the biological and cognitive basis of behavior, possibly including the brain, anatomy and physiology, sensation and perception, consciousness, language, and other aspects of cognition. (Fall, Spring)

116H. General Psychology for Honors I. Credit 3 hours. Prerequisite: Active status in the Honors Program or permission of Department Head. An intensive survey of the science of the mind and behavior of humans and other animals. Topics may include the scientific method, history of psychology, learning, development, personality, social psychology, and psychopathology. In addition to exams, students may be assigned papers, presentations, and other enriching assignments. This course substitutes for PSYC 101; students may not receive credit for both PSYC 101 and PSYC 116H. (Varies)

117H. General Psychology for Honors II. Credit 3 hours. Prerequisites: PSYC 101 or PSYC 116H and active status in the Honors Program or permission of Department Head. This course surveys the biological and cognitive basis of behavior, possibly including the brain, anatomy and physiology, sensation and perception, consciousness, language and other aspects of cognition. In addition to exams, student may be assigned papers, presentations, and other enriching assignments. This course substitutes for PSYC 102; student may not receive credit for both PSYC 102 and PSYC 117H. (Varies)

204. Developmental Psychology. [LCCN: CPSY 2113, Developmental Psychology]. Credit 3 hours. Prerequisite: PSYC 101 or consent of the Department Head. General principles of development: theory and research relating to cognitive, social, biological, and emotional factors across the life span. (Fall, Spring)

205. Psychology of Criminal Justice. Credit 3 hours. Prerequisites: CJ 101 and PSYC 101 or consent of the Department Head. Also offered as CJ 207. Applications of psychology to the criminal justice system. Topics will include: theories of violence, eyewitness testimony, jury selection and procedures, expert testimony, victims, and prisons. Credit cannot be given for both CJ 207 and PSYC 205. (Varies)

210. Social Psychology. [LCCN: CPSY 2413, Social Psychology]. Credit 3 hours. Prerequisite: PSYC 101. Scientific study of human social interaction and influence. Topics may include interpersonal attraction, attribution theory, attitudes, and group dynamics. (Fall, Spring)

220. Principles of Research Design. Credit 3 hours. Prerequisites: PSYC 101 or permission of Department Head. Principles of designing, conducting, and interpreting psychological research are surveyed. Critical analysis of published research is emphasized. Students are required to write a paper proposing a research project. (Fall, Spring)

221. Psychological Statistics. Credit 3 hours. Prerequisites: MATH 107 or 161, PSYC 220, and registration for PSYC 222. Basic descriptive and inferential statistics applied to data in the behavioral sciences. (Fall, Spring)

222. Psychological Statistics Laboratory. Credit 1 hour. Prerequisite: Registration in PSYC 221. A series of laboratory exercises on microcomputers designed to reinforce statistical concepts presented in PSYC 221. Students will complete a series of tutorial programs. In addition, students will get experience analyzing data using standard social sciences statistical packages such as SPSS. (Fall, Spring)

223. Professional Issues in Psychology. Credit 3 hours. Prerequisite: PSYC 101. This course provides an overview of the field of psychology with a focus on career opportunities for psychology majors and ethical considerations in the science and practice of psychology. Topics include privacy, licensure, ethical treatment of participants in research, and career options for psychology majors terminating with bachelor's degrees as well as those moving on to post-graduate work. (Varies)

231H. Honors Research. Credit 1-3 hours. Prerequisites: Limited to Honors students and PSYC 220. This course is an independent study research mentorship with a member of the Psychology faculty. Students will spend approximately 4 hours per week on the faculty member's research team for each credit hour. May be repeated for a total of three credit hours. Grading will be Pass/Fail. (Varies)

251. Group Dynamics. Credit 3 hours. Prerequisite: PSYC 101. This course will survey group theory, interpersonal dynamics, and team processes with special consideration for teams within organizations. Topics will include interpersonal influence and conformity, group effectiveness, and group decision making. (Varies)

282. Special Topics in Psychology. Credit 3 hours. Prerequisite: PSYC 101 or permission of the Department Head. An exploration of current issues in Psychology, including those of relevance to students not intending to major in the field. May be repeated for a maximum of six hours. (Varies)

285. Psychology of Developmental Disabilities. Credit 3 hours. Introduction to development disabilities. Topics include history of developmental disabilities, assessment, legal issues, and research relating to cognitive, social, biological and emotional factors among individuals with developmental disabilities. (Fall, Spring)

324. Psychology of Infancy and Childhood. [LCCN: CPSY 2313, Child Psychology] Credit 3 hours. Prerequisite: PSYC 204. Overview of development from conception through middle childhood with a focus on physical, neurological, cognitive, and social-emotional domains across multiple contexts. Psychological theories and research findings are emphasized and both typical and atypical development are addressed. (Varies)

335. Research Design and Analysis. Credit 3 hours. Prerequisites: PSYC 221 and PSYC 222. The principles of research covered in PSYC 220 applied in an experimental or non-experimental research project. Students will be presented with a research design and procedure, which they implement. Results of the research will be communicated in a complete report following standard journal article format. (Fall, Spring)

343. Conditioning and Learning. Credit 3 hours. Prerequisite: PSYC 101 or permission of the Department Head. The course will survey classical and operant conditioning and theoretical approaches to understanding them. Special topics with theoretical and practical significance will be explored. (Spring)

345. Psychology of Adolescence and Adulthood. Credit 3 hours. Prerequisite: PSYC 204. Overview of development from puberty to old age, with a focus on physical, neurological, cognitive, and social-emotional domains across multiple contexts. Psychological theories and research findings are emphasized and both typical and atypical development are addressed. (Varies)

346. Sensation and Perception. Credit 3 hours. Prerequisites: PSYC 101 and 102, or consent of the Department Head. A survey of the functions of the major senses stressing the psychological aspects of perception, with some attention to their physiological substrata. Topics will include color vision, the perceptual constancies, the perception of pitch, movement, and psychophysics. (Even Spring Semesters)

347H. Honors Seminar: Issues in Psychology. Credit 1 hour. Prerequisite: Honors student in good standing. This course covers classic readings in psychology; professional issues in psychology; presentations of faculty research; presentations of student research. Course may be repeated no more than six times. (Varies)

350. Introduction to Clinical Psychology. Credit 3 hours. Prerequisites: PSYC 101 and 102, or consent of the Department Head. This course is designed to provide a general survey of the field of clinical psychology; however, the areas of diagnostic assessment, personality theory and psychotherapy techniques are emphasized. Diagnostic assessment will focus on the concepts of reliability and validity with regard to those tests which usually comprise the standard psychiatric battery. Those personality theories which have generated relatively distinctive techniques of psychotherapy will be considered as well as the effectiveness of the psychotherapies themselves. (Spring)

353. Introduction to Applied Behavior Analysis. Credit 3 hours. Prerequisite: PSYC 343 or consent of Department Head. This course provides an introduction to the principles and concepts of applied behavior analysis (ABA), including historical perspective of ABA, fundamental vocabulary, philosophy, and methodology of the science of behavior management. Topics may also include rule-governed and verbal behavior, along with examples of behavioral assessment and modification techniques. Ethics issues and responsibilities of behavior analysts will be discussed. (Varies)

364. Tests and Measurement. Credit 3 hours. Prerequisite: PSYC 220. This course provides students the opportunity to develop skills for assessing quality of commonly used measures of human behavior. Core concepts covered will include norms, reliability and validity, and how these aspects lead to evaluation, administration, and interpretation of tests currently in use in clinical, industrial, and educational settings. Other topics include ethics, testing and the law, and test construction. (Varies)

365. Advanced Research Design and Analysis. Credit 3 hours. Prerequisite: Grades of "B" or higher in PSYC 220 and PSYC 221. The principles of research covered in Psychology 220 applied in an original experimental or non-experimental research project. Students will work collaboratively with faculty to devise and implement a research design and procedure. Results of the research will be communicated in a complete report following standard journal article format and presented at a regional or departmental event. This course is recommended for those intending to pursue graduate studies. (Fall, Spring)

367H. Senior Honors Research in Psychology. Credit 3 hours. Prerequisites: Honors student in good standing and PSYC 335. Independent studies course in preparation for Honors Thesis. (Varies)

373. Evolutionary Psychology. Credit 3 hours. Application of Darwinian principles to the understanding of human nature. The course integrates important concepts from evolutionary biology, anthropology, and comparative psychology in order to construct a comprehensive framework from which human thought and behavior can be understood. (Varies)

375. Research Design and Analysis in ABA. Credit 3 hours. Prerequisites: PSYC 221 and PSYC 353. The principles of research design covered in PSYC 220 and PSYC 353 will be applied in a student-conducted research project. This course will provide first-hand exposure to clinical research in Applied Behavior Analysis (ABA). Additionally, this course will further develop students' skills related to critical analysis of research, experimental design, data analysis, and academic writing. The procedures and results of the clinical research experiences will be communicated in a complete report following standard-journal article format. (Varies)

416. Personality. Credit 3 hours. Prerequisites: 12 hours of Psychology courses including PSYC 101 and Junior standing. This course explores the concepts of psychological traits and personality types and the relationship between personality and personal identity. (Fall)

421/521. History and Systems of Psychology. Credit 3 hours. Prerequisites: 12 hours in Psychology and Junior standing. Comparative historical study, with some unifying reconciliation, of the various influential individuals, systems, or "schools" of psychology that represent the major different approaches to the study of the mind and behavior. (Varies)

422/522. Abnormal Psychology. Credit 3 hours. Prerequisites: PSYC 101 and Junior standing. Examination of the validity of the concept of "Abnormality" and what variables influence the diagnostic process. Nature, etiology, and prognosis of major behavioral and emotional disorders will be included to illustrate basic principles. (Fall, Spring)

440. Cognitive Psychology. Credit 3 hours. Prerequisites: PSYC 101, 102, and Junior standing. An analysis of theories and research on internal mental processes. (Fall, Spring)

- 449/549. Individual Research in Psychology.** Credit 3 hours. Prerequisite: PSYC 335 or consent of the Department Head. Enrollment ordinarily limited to one or two students per instructor. A course devoted to research design and implementation of this design by conducting and communicating results in publishable form. May be taken up to 3 times (9 credit hours) with the permission of the Department Head. (Varies)
- 450. Service Learning.** Credit 1-3 hours. This course is intended for students to gain field experience in an applied psychological setting. Students are required to write a paper about their experiences. May be repeated for a maximum of 6 credits. Pass/Fail Grading. (Varies)
- 452/552. Industrial Psychology.** Credit 3 hours. Prerequisite: PSYC 101 or consent of the Department Head. This course will survey the application of psychological principles to important areas in the work setting. Topics will include job analysis, personnel selection, training, performance appraisal / management, and human factors. (Varies)
- 458. Skill Acquisition in Applied Behavior Analysis.** Credit 3 hours. Prerequisite: Grade of "C" or better in PSYC 353. This course provides an intensive study of the assessments and interventions that constitute evidence-based skill acquisition procedures. This course will allow students to develop, refine, and practice their clinical skills in relation to these procedures. (Spring)
- 460. Behavior Reduction in Applied Behavior Analysis.** Credit 3 hours. Prerequisite: Grade of "C" or better in PSYC 353. This course provides an intensive study of the assessments and interventions that constitute evidence-based behavior reduction procedures. This course will allow students to develop, refine, and practice their clinical skills in relation to these procedures. (Fall)
- 462. Physiological Psychology.** Credit 3 hours. Prerequisites: PSYC 101 and 102, or consent of the Department Head. Understanding the brain-behavior relationship by investigating research which deals with the manipulation of physical and chemical events in the organism and the resultant behavior. (Fall, Spring)
- 467H. Honors Thesis in Psychology.** Credit 3 hours. Prerequisites: Honors student in good standing and PSYC 367H. Independent study for writing and oral defense of Honors Thesis. (Varies)
- 468. Independent Readings in Psychology.** Credit 3 hours. May not be repeated. Prerequisites: Senior standing and consent of the instructor. Guided readings in an area mutually agreed upon by the student and the instructor. A final written report is required. (Varies)
- 470/570. Organizational Psychology.** Credit 3 hours. Prerequisites: PSYC 101 or consent of the Department Head. This course will survey the application of psychological principles to important areas in work settings. Topics will include attitude theory, group dynamics, leadership, occupational health, organization development, and work motivation. (Varies)
- 482/582. Seminar in Psychology.** Credit 3 hours. Prerequisites: 12 hours in Psychology or consent of the Department Head, and Junior standing. Intensive exploration, in-depth, of selected topics, designed to organize, clarify, and supplement the student's grasp of psychology. Course may be taken up to three times for a maximum of 9 hours with consent of the Department Head or the Graduate Coordinator. (Varies)
- 612. Learning, Memory, and Cognition.** Credit 3 hours. Prerequisite: Psychology graduate standing or permission of the Department Head. A survey of advanced issues of learning and cognitive processes. (Fall)
- 613. Physiological Psychology.** Credit 3 hours. Prerequisite: Psychology graduate standing or permission of the Department Head. An advanced survey of theory and research dealing with relationship between brain and behavior. (Spring)
- 614. Social Psychology.** Credit 3 hours. Prerequisite: Psychology graduate standing or permission of the Department Head. An advanced survey of theory and research in social processes. Topics include perception of self and others, group influence and group dynamics, altruism, and aggression. (Fall)
- 615. Psychological Assessment.** Credit 3 hours. Prerequisite: PSYC 635 or 636. Introduction to the systematic assessment of individuals. Basic test theory is presented. Interviews, surveys, objective and projective tests will be covered, with the emphasis varying from time to time. Limited laboratory practice with representative techniques. (Fall)
- 616. Theories of Personality.** Credit 3 hours. Prerequisite: Psychology graduate standing or permission of the Department Head. A survey of selected major theories of personality development and dynamics, and evaluation of their usefulness in the prediction and control of behavior. Also, evaluation of therapy techniques derived from such theories. (Varies)
- 620. Developmental Psychology.** Credit 3 hours. Prerequisite: Psychology graduate standing or permission of the Department Head. An advanced survey of theory and research in development. Topics include cognitive, social, and emotional development, and the development of psychopathology. (Varies)
- 635. Experimental Design and Analysis.** Credit 4 hours. Prerequisite: Psychology graduate standing or permission of the Department Head. Design and analysis of research for which there is direct control of the independent variable(s). Both experimental and quasi-experimental designs will be covered. Statistical techniques will include ANOVA, planned comparisons, and post-hoc tests. (Fall)
- 636. Non-experimental Design and Analysis.** Credit 4 hours. Prerequisite: Psychology graduate standing or permission of the Department Head. Design and analysis of research for which there is no direct control of the independent variable(s). Statistical techniques will include correlation, regression, multiple correlation, and multiple regression. (Spring)
- 649. Independent Skills Augmentation for Research.** Credit 1-3 hours. Prerequisites: Psychology graduate standing and completion of PSYC 635 and 636 with a grade of at least "B" or permission of the Department Head. This course will provide individualized instruction on research design, statistics, protocol development, and technical writing in psychology to facilitate thesis and non-thesis project progression. Additional skills such as time management, goal setting, and data collecting strategies will be discussed. Weekly meetings will be required. This course may not be used to satisfy required elective hours. The course may be taken to facilitate project development prior to enrolling in thesis or non-thesis hours, but is required for students as outlined in the Progression guidelines. This course may be repeated. (Summer, Fall, Spring)
- 660. Special Topics in Psychology.** Credit 3 hours. Prerequisites: Psychology graduate standing or permission of the Department Head. An in-depth analysis of a limited number of topics in Psychology. Topics will change from semester to semester, depending on the interests of the instructor. This course may be repeated for credit. (Fall, Spring)
- 661. Special Topics in Industrial/Organizational Psychology.** Credit 3 hours. Prerequisite: Psychology graduate standing or permission of the Department Head. This course will survey the application of psychological principles to important areas in work settings. Topics will include work analysis, personnel selection, performance appraisal / management, training and development, employee attitudes, motivation, organizational culture, leadership, teams, cross-cultural considerations, and human factors. May be repeated as topics vary. (Varies)
- 668. Independent Readings in Psychology.** Credit 3 hours per semester. Prerequisite: Psychology graduate standing or permission of the Department Head. Individual reading in an area agreed upon by the faculty member and student. A final written report is required. May not be repeated. (Varies)
- 679. Psychotherapy Techniques.** Credit 3 hours. Prerequisites: Psychology graduate standing or permission of the Department Head. Provides education and training in psychotherapy techniques, including such topics as establishing a therapeutic relationship, formulating and implementing effective treatment plans, crisis intervention, and ethical principles/legal issues relevant to psychotherapy. Topics covered are not designed to be bound to any particular theoretical orientation but are relevant to any practice of psychotherapy. (Spring)
- 683. Practicum.** Credit 3 hours. Prerequisites: Approval of the Psychology Graduate Coordinator; a grade of "B" or better in PSYC 635 and 636; students interested in testing practicum must complete PSYC 615 or an approved alternative; students interested in a counseling practicum must complete PSYC 679; students interested in an Industrial/Organizational practicum must complete PSYC 661 or receive permission from the

coordinator. Students will provide teaching in psychology or psychological services to individuals and/or organizations in a suitable setting. For students involved in clinical practica, the supervisor must be state licensed. For students involved in I/O practica, the supervisor must have appropriate or related educational background. Students involved in teaching practica will teach or assist with teaching an undergraduate class in psychology, possibly including developing a syllabus, delivering lectures, and designing and grading quizzes, exams, and other assignments. May be repeated up to 3 times with permission of the Department Head and no more than 6 hours count toward the Master's Degree. (Summer, Fall, Spring)

692. Psychopharmacology. Credit 3 hours. Prerequisite: Psychology graduate standing or permission of the Department Head. Course will survey basic principles of drug action and the effects of several classes of psychoactive drugs on the nervous system and behavior. Therapeutic and illicit use of drugs will be covered. (Varies)

770. Thesis. Credit 1-6 hours each semester, with six hours needed for graduation. Prerequisites: Psychology graduate standing and completion of PSYC 635 and 636 with a grade of "B" or better. The student must enroll in the thesis course each semester the thesis is in progress. The thesis is graded Pass/Fail. (Summer, Fall, Spring)

771. Non-Thesis Project. Credit 1-6 hours each semester, with six hours needed for graduation. Prerequisites: Psychology graduate standing and completion of PSYC 635 and 636 with a grade of "B" or better. This course is required for all non-thesis plan graduate students. The student must enroll in the non-thesis project course each semester the non-thesis project is in progress. The non-thesis project is graded Pass/Fail. (Summer, Fall, Spring)

Publishing Studies (PUBL)

463/563. Desktop Programs for Online Publishing. Credit 1 hour. An intensive course on the principles, practices, and production techniques for web design and online publishing. One to two hours of lecture and/or lab per week (based on a 15-week semester). (Varies)

496/596. Desktop Programs for Text Publishing. Credit 1 hour. An intensive course on the principles, practices, and production techniques in desktop layout of text and images for print and online publishing. One to two hours of lecture and/or lab per week (based on a 15-week semester). (Varies)

Scientific Computation (SC)

200. Computational Methods for Scientists. Credit 3 hours. Prerequisites: CMPS 152, Enrollment in MATH 163 or 200. This course covers techniques for scientific computing. Students will learn numerical algorithms for data analysis and analyze models using Python and R. Topics include matrices and linear system solvers, eigenvalues, model fitting, simulation, and high-performance computing. (Varies)

671. Computational Methods in Science. Credit 3 hours. Prerequisite: PHYS 331 or MATH 350 or CHEM 395 or permission of the Dean. Computational methods for solving practical problems arising in science. Topics include numerical methods for solving equations, systems of equations, ordinary differential equations, partial differential equations, polynomial integration and least square approximation. Each numerical method will be learned by solving various examples of scientific problems using programming languages such as C or C++. (Varies)

672. Monte Carlo Simulations. Credit 3 hours. Prerequisite: PHYS 321 or MATH 350 or CHEM 396 or permission of the Dean. Statistical simulation of the thermodynamic properties of atomic/molecular system using Monte Carlo methods. Topics include force fields, statistical ensembles, introductory and advanced techniques in solving simple scientific problems using programming languages such as C or C++. (Varies)

673. Computational Statistics. Credit 3 hours. Prerequisites: MATH 201 and MATH 380. A survey of computational methods used to analyze data collected from real world settings. Computational methods such as Monte Carlo methods, estimation methods of probability density functions, methods for random number generation, methods for identification of data structure and bootstrap methods will be studied. An emphasis will be on the understanding of the critical role that computational techniques plays in statistical research and the application of statistical methods to real life situation. (Varies)

674. Scientific Visualization. Credit 3 hours. Prerequisites: MATH 360 and CMPS 390, or permission of the Dean. This course covers a variety of topics in computer graphics using OpenGL with the focus on visualizing scientific and engineering data. Computer graphics emphasizing converting geometry to a display, visualization emphasizing converting data into geometry, and various data visualization techniques and methods will be introduced. (Varies)

675. Molecular Dynamics Simulations. Credit 3 hours. Prerequisite: PHYS 331 or MATH 350 or CHEM 395 or permission of the Dean. Simulation of the dynamic and thermodynamic properties of atomic/molecular systems using molecular dynamics simulations. Topics include the intermolecular forces, statistical mechanics, introductory and advanced techniques of molecular dynamics simulations. A number of projects will be performed throughout the course applying the numerical techniques in solving simple scientific problems using programming languages such as C or C++. (Varies)

676. Finite Element Method. Credit 3 hours. Prerequisite: MATH 201 or MATH 409, or permission of the instructor. This course introduces the numerical solution of linear problems using finite element methods (FEM). Topics include formation of stiffness matrix, assembly, constraints, solution techniques, and post-processing. How the principles of FEM can be applied to solve physical problems such as stress analysis, heat transfer, acoustics, fluid dynamics, MEMS, and electrical-magnetic fields will be discussed as well. (Varies)

677. Ab Initio Quantum Chemistry. Credit 3 hours. Prerequisite: PHYS 351 or CHEM 395 or permission of the Dean. A course on numerical methods for solving the electronic Schrodinger equation. Topics include self-consistent field methods for molecular orbitals, discretization of partial differential equations using Gaussian basis sets, semi-empirical molecular orbital methods, methods for going beyond self-consistent fields: density functional methods and many-body theory. Students will write programs to compute semi-empirical molecular orbitals. (Varies)

678. Computational Optimization. Credit 3 hours. Prerequisites: MATH 312, MATH 350, and MATH 360. This is a course on continuous and discrete optimization. Several standard optimization problems along with their numerical and idea solutions will be discussed. Possible topics include unconstrained optimization using vector calculus, Lagrange multipliers, Kuhn-Tucker conditions, Conjugate Gradient Methods, Hilbert space methods in optimization, Linear Programming (simple and interior point methods), quadratic programming shortest path problems, minimal spanning trees, and stochastic optimization. (Varies)

Social Work (SW)

101. Introduction to Social Work, Fields of Practice. Credit 3 hours. A survey of the resource and delivery systems in which social work is practiced. Emphasis given to both public and private agencies and various methodologies. Social Work values, ethics, skills and knowledge base are examined. An overview of the history of social welfare is presented with an emphasis on fields of practice. Service gaps and biases are identified. (Summer, Fall, Spring)

201. History and Philosophy of Social Welfare and Social Work. Credit 3 hours. Prerequisite: SW 101 or permission of Department Head for non-majors. An historical survey of the history of social work and social organizations in the U. S. designed to meet social problems. Emphasis is given to Social Welfare laws and organizations as a reflection of culture and societal values. Attention is also given to the philosophical base of social work practice as reflected in the ethics and values of the profession. (Summer, Fall, Spring)

202. Child Welfare Services. Credit 3 hours. An assessment of society's means of meeting physical, social, psychological and legal needs of children, including protective, court, health, placement, recreational and financial services. (Summer, Fall, Spring)

203. Human Behavior in the Social Environment I. Credit 3 hours. Prerequisites: SW 101, SOC 101, PSYC 101 and registration in or prior credit for GBIO 106, or permission of the Department Head for non-majors. A study of the interaction of biological, psychological, and sociological factors in the formation of personality and the functioning of persons in the environment. Specific theories and tools of assessment of individuals are discussed. (Fall, Spring)

204. Human Behavior in the Social Environment II. Credit 3 hours. Prerequisites: Registration in or prior credit for SW 203, SOC 212, and GBIO 107 or permission of Department Head for non-majors. A study of the social system model as a basic way to think about behavior in the social environment. This model will be applied to society, communities, organizations, groups and families. Culture as a determinant of behavior will be examined. Additional factors such as rurality, poverty, membership in special populations, and gender differences will be addressed. Specific theories in relation to society are discussed. (Fall, Spring)

205. Understanding Human Diversity and Populations at Risk. Credit 3 hours. The primary purpose of this course is to prepare students to work with populations they will encounter in their professional careers. The populations social workers must be trained to work with represent the broadest spectrum of humanity – in ethnicity, culture, race, religion, worldview, gender, sexual orientation, ability, and in life experiences. Attention is given to understanding mechanisms of oppression, theoretical foundations, cultural identity development, and antiracist practice. The course is designed to encourage both knowledge building and self-exploration skills that are essential in developing multicultural social work practice. (Fall, Spring)

303. Crisis Intervention. Credit 3 hours. Prerequisite: Sophomore standing or permission of the Department Head. This course examines the practical and theoretical aspects of crisis intervention including relevant applications to how crisis may impact at-risk/special populations within communities in the United States and around the world. Explores effective multi-level responses for human service intervention through learning activities. (Summer, Fall, Spring)

304. Generalist Social Work Practice: Micro-Practice Skills. Credit 3 hours. Prerequisites: SW 101, 201, 202, 203, 204, 205, with a minimum grade of "C" and admission into professional standing. The primary purpose of this course is to prepare students for generalist social work practice with individuals and families. The course focuses on the problem-solving model, case management, and communication skills. The course will identify practice skills that emphasize strengths, advocacy, empowerment, and change. Attention is given to populations-at-risk. (Fall, Spring)

305. Generalist Social Work Practice: Mezzo Practice Skills. Credit 3 hours. Prerequisites: SW 304 and admission into professional standing. The primary purpose of this course is to prepare students for generalist social work practice with diverse populations utilizing mezzo skills. It provides specific skills for working with families and groups. Particular attention is given to working in rural settings, to populations-at-risk and to economic and social justice issues. The course will identify practice skills that emphasize strengths, empowerment, advocacy and change. (Fall, Spring)

308. Generalist Social Work Practice: Case Management Skills: Credit 3 hours. Prerequisites: SW 201, 203, 204, 205, and Professional Standing, or permission of Department Head. Preparation for generalist social work practice in case management settings with vulnerable populations, (developmental disabilities, health and mental health, addictions, child welfare, geriatrics, criminal justice, HIV/AIDS, the homeless, and veterans). Skills in brokering, advocacy, coordination, client empowerment and recordkeeping will be stressed through experiential learning activities. (Fall, Spring)

360. Social Work Research Methods and Designs. Credit 3 hours. Prerequisites: SW 201, 204, and registration in or prior credit for MATH 241 or permission of the Department Head. The principles and foundations of designing and conducting issues in social work research are examined. Emphasized are ethical issues in social work research and the relevance of evaluation skills. (Fall, Spring)

361. Methods of Analysis and Dissemination. Credit 3 hours. Prerequisites: SW 360 and MATH 241 or permission of the Department Head. This course focuses on the examination of selected research instruments used in data analysis important to the practice of social work. Analytical techniques used in the statistical analysis of quantitative data and the utilization of computers for information management and data analysis are emphasized. (Fall, Spring)

366. Writing and Documentation in Social Services. Credit 3 hours. This course will prepare students to engage in professional writing requirements by agencies across the social services spectrum. Students will develop their professional level writing skills through the practice of case notes, completing assessment reports, documenting progress, and other exercises. Assignments will focus on gaining the skills to write clearly and concisely for multiple audiences, how to identify appropriate note and report content, and how to professionally interpret content for reporting purposes. (Fall/ Spring)

400/500. Independent Study. Credit 1-3 hours. Prerequisites: Permission of the Department Head and Junior standing. An in-depth study of topics appropriate to generalist social work practice culminating in a research report. Student works with an instructor on a one-to-one basis. May be repeated in one to three hour credits for no more than 6 hours credit. New materials are investigated in each repeat. (Summer, Fall, Spring)

402. Social Welfare Policy, A Framework for Analysis. Credit 3 hours. Prerequisites: SW 101, 201, 203, 204, and admission into professional standing or permission of Department Head for non-majors. The course will focus on the issues and conflicts raised by policy makers in designing social welfare policies and programs. A conceptual framework for social welfare policy analysis is explored. Techniques for advocacy, empowerment, and transformation are demonstrated. (Fall, Spring)

406. Generalist Social Work Practice: Macro Practice Skills. Credit 3 hours. Prerequisites: Admission into professional standing and successful completion of SW 304. The primary purpose of this course is to prepare students for generalist social work practice with communities, organizations, and large groups. Special attention is paid to populations at risk and to economic and social justice issues, as well as to issues pertaining to working within bureaucracies. Techniques for program implementation and evaluation are demonstrated. Methods for community assessment, organization, and empowerment are examined. (Fall, Spring)

409/509. Child Welfare I: Principles of Practice. Credit 3 hours. Prerequisites: Permission of the Department Head. This course is one of two child welfare courses which examines the continuum of public child welfare services to children and families. In-home services, including child protection investigations and family support services are explored in depth. Family assessment theories and skills are reviewed as well as trauma informed care. Families at risk and the effect of abuse and neglect on child development are discussed. (Fall)

410/510. Child Welfare II: Working with Families and System Dynamics. Credit 3 hours. Prerequisites: Permission of the Department Head. This course examines out-of-home services in child welfare along the child welfare continuum, from pre-placement activities to placement in foster care to reunification or adoption. The stages of development are explored with a specific focus on the effects of maltreatment on each stage of development. Therapeutic assessment is explored in order to understand the family dynamic and how to address their needs. (Spring)

415. Addictions and Social Work Practice. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. This course develops beginning competence necessary for working with individuals experiencing problems with the use of psychoactive substances and other mood altering behaviors. Application of knowledge and beginning practice skills toward identification and screening, assessment, intervention models and approaches, and analysis of policy and prevention will be delivered through a variety of learning activities. This course is open to non-majors. (Varies)

422/522. Social Aspects of Aging. Credit 3 hours. Prerequisite: Junior or Senior standing. A study of the interactions of the aging individual with the institutions of society. Society's attitudes, values and provisions relating to the aged will be brought into focus with a view of providing social services. (Varies)

425/525. Mental Health Across the Lifespan and Populations. Credit 3 hours. Prerequisite: Admission into professional standing or permission of the Department Head. This foundation course prepares students to recognize major mental health concerns across the lifespan. The course includes an introduction to the Diagnostic and Statistical Manual of Mental Disorders (DSM) as the organizing framework for reviewing major mental disorders and critique of the current "medical model" approach to mental health in the United States. The course considers mental health issues from a generalist practice perspective, including the role of the social environment, culture, stigma in the mental health services, access, and policy. (Varies)

495. Special Topics. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. An in-depth study of selected topics in social work. May be repeated (when topic varies), for a total of six hours credit. (Summer)

497. Integrative Field Seminar. Credit 3 hours. Prerequisites: Completion of all required courses and permission of the field director. Students must be concurrently enrolled in SW 498. This course serves as an integrative seminar in conjunction with the field practicum experience. This is a capstone course: therefore, the material covered addresses all social work foundation areas from the perspective of a generalist social work practitioner. Emphasis on values and ethics, diversity, and research are addressed all throughout the course. Students are guided through course work and assignments to implement the generalist model with their various client systems in rural practicum settings. (Fall, Spring)

498. Internship. Credit 9 hours. Prerequisites: Completion of all required courses and permission of the field instructor. This course consists of a minimum of 430 hours of field experience in a social agency under the direct supervision of a qualified social worker. This course must be taken concurrently with SW 497. (Fall, Spring)

515. Addictions and Social Work Practice. Credit 3 hours. Prerequisite: Junior standing or permission of the Department Head. This course develops beginning competence necessary for working with individuals experiencing problems with the use of psychoactive substances and other mood altering behaviors. Application of knowledge and beginning practice skills toward identification and screening, assessment, intervention models and approaches, and analysis of policy and prevention will be delivered through a variety of learning activities. This course is open to non-majors. (Varies)

Sociology (SOC)

101. Introductory Sociology. [LCCN: CSOC 2013, Introduction to Sociology]. Credit 3 hours. A study of culture, social organization, and social relations. (Summer, Fall, Spring)

101H. Introductory Sociology for Honors Students. Credit 3 hours. Prerequisite: Active status in the Honors Program. This course allows Honors students the opportunity for an in-depth exploration of the discipline of sociology. Focusing on the critical analysis of issues concerning the interplay of personal identities, social structure, culture, and power, the course emphasizes real-world applications of core sociological concepts to understanding contemporary social issues. (Varies)

203. Reading and Writing for Sociology. Credit 3 hours. Prerequisite: SOC 101 or permission of Department Head. This course is designed to provide sophomore-level Sociology Majors with the deep-reading, library research, and academic writing skills they will need to succeed in higher-level sociology courses and in their chosen career fields, with an emphasis on developing the tools and techniques needed to navigate the forms of research and writing that are specific to the field of sociology. (Spring)

212. Social Problems. [LCCN: CSOC 2113, Social Problems]. Credit 3 hours. Prerequisite: SOC 101. An examination of the major social problems in society with an emphasis on how these problems are interrelated and the role of society in their creation and perpetuation. (Summer, Fall, Spring)

215. Sociology of Sexuality. Credit 3 hours. This course examines human sexuality from a sociological point of view. It focuses on the social foundation of sexual behavior, as well as the socio-biological aspects of human sexuality that promote physical and emotional health, and interpersonal relations. (Varies)

222. Marriage and Family Life. [LCCN: CSOC 2213, Marriage and Family]. Credit 3 hours. Prerequisite: None. A functional study of courtship, mate selection, preparation for marriage, marriage adjustment, discord, and parenthood. Credit cannot be given for both SW 321 and SOC 321. (Summer, Fall, Spring)

230. Sociology Through Sports. Credit 3 hours. Prerequisite: Soc 101. An exploration of sociological forces, processes and institutions as observed through the study of sports. Students will develop their understanding of important social factors and phenomena, such as gender, race, globalization and deviance, by analyzing sports institutions in the United States and around the world. (Varies)

242. Stratification and Inequality. Credit 3 hours. Prerequisite: SOC 101 or permission of Department Head. This course focuses on the systematic social inequality in assessing opportunities, resources, rewards, as well as the uneven distribution of power and authority across the social categories in the United States. We will address how stratification has developed to its present state in the U.S. and question why members of certain groups advance while others do not. (Fall)

258. Identities, Inequalities, and Social Media. Credit 3 hours. Prerequisite: SOC 101. This class examines the social interactions and consequences of social media and will engage students in exploring the role of social media in society, paying close attention to social media technologies, institutions, discourses, ideologies, and identity formation. Students will examine how we construct meanings and connections in the absence of face-to-face interaction via social media platforms. Students will also actively engage in using social media as a platform of learning, particularly focusing on the relationships among social media and social inequalities and power disparities. (Varies)

300. Medical Sociology. Credit 3 hours. Prerequisite: SOC 101 or consent of the Department Head. This course examines the health care system and experience of health and illness in American society from a sociological perspective. (Summer, Fall, Spring)

305. Data Analysis and Statistics for the Social Sciences. Credit 3 hours. Prerequisites: SOC 101 and Junior Standing or permission of Department Head. Elementary descriptive and inferential statistics as applied to social science problems, with computer applications. (Summer, Fall, Spring)

310. Methods of Social Research. Credit 3 hours. Prerequisites: SOC 101 and Junior Standing or permission of Department Head. Philosophy, methods, and techniques, including research design; methods of observation and other sources of social data, analysis, inference and research report writing. (Summer, Fall, Spring)

- 312. Sociology Through Film.** Credit 3 hours. Prerequisite: SOC 101. An exploration of key dimensions of social inequality and how they are presented in documentaries and Hollywood films. (Varies)
- 315. Media and Society.** Credit 3 hours. Prerequisite: SOC 101. A course examining the social dimensions of mass media. Students will study media organizations and content using a sociological perspective, and they will analyze the connections between media and other social, political, and economic institutions. (Varies)
- 331. Sociology of Religion.** Credit 3 hours. Prerequisite: Junior standing. The complex relationship between religion, culture, and society is explored in a comparative perspective. Religion is examined as a social fact which shapes, and is shaped by, modernism, nationalism, globalization and other historical forces. (Varies)
- 337. The Sociology of Civic Participation.** Credit 3 hours. Prerequisites: SOC 101, Sophomore standing, adjusted GPA of 3.0, and permission of Department Head. Application of sociological theories and concepts through volunteering in a nonprofit organization. Students volunteer in a nonprofit or governmental organization and complete writing and reflection assignments to demonstrate their learning. Students volunteer 90 hours, prepare papers related to sociology and the civic participations experience, and keep a reflective journal. (Varies)
- 352. Comparative Family Patterns.** Credit 3 hours. Prerequisite: Sophomore standing. Also taught as ANTH 352. A comparison of selected family patterns in various cultures. Attention given to role performance in each society and comparison of norms, values and attitudes related specifically to the family. Credit is not to be given for both ANTH 352 and SOC 352. (Varies)
- 354. Sociology of Gender.** Credit 3 hours. Prerequisite: SOC 101 or consent of Department Head. The course is designed to be an introductory exploration of gender and its relation to culture and social institutions. Gender will be examined as a social construct that has emerged historically and is maintained institutionally. Emphasis will be placed on conflict, contradictions and the potential of social transformation. (Fall)
- 355. Social Movements and Social Action.** Credit 3 hours. Prerequisite: SOC 101. An introduction to how social movements arise from collective behavior and social action when people act together to promote or resist social change. (Varies)
- 360. Environmental Sociology.** Credit 3 hours. Prerequisites: SOC 101 and Sophomore standing. This course is an introductory exploration into relationships between the biophysical environment and major social, political and economic structures of society. (Varies)
- 365. Sociology of Disaster.** Credit 3 hours. This course focuses on the anthropogenic aspects of the causes and effects of both natural and technological disasters, with a focus on how social and cultural power relations create situations whereby some populations are more vulnerable to disasters than others. (Varies)
- 400/500. Independent Study.** Credit 1-3 hours. Prerequisites: Consent of the Department Head and Junior standing. Student works with an instructor on a one-to-one basis and prepares a research report on an appropriate topic. May be repeated in one to three-hour credits for a total of 6 hours. New materials are investigated in each repeat. (Varies)
- 401/501. Population and Immigration.** Credit 3 hours. Prerequisite: Junior standing. An exploration into how population processes, such as immigration, fertility, and aging, affect American society and countries worldwide. The course examines the causes of population change and its consequences for the environment, health, the economy, education, and the legal and criminal justice system, with a special emphasis on migration processes and the experience of immigrants. (Varies)
- 405/505. Indigenous Peoples of the Americas.** Credit 3 hours. Prerequisite: Junior standing or consent of the Department Head. Also offered as ANTH 405/505. Examination of the origin, distribution, ecology, culture and social systems of indigenous populations of the New World. May not be used for credit with ANTH 405/505. (Fall)
- 411/511. Race and Ethnic Relations.** Credit 3 hours. Prerequisites: SOC 101 or ANTH 101 and Junior standing. Also taught as ANTH 411. Designed to give an insight into the attitudes of groups, particularly racial groups where interrelations are marked by antagonism, discrimination, and conflict. Influence on community welfare considered. Credit is not to be given for both ANTH 411 and SOC 411/511. (Summer, Fall, Spring)
- 412/512. Criminology.** Credit 3 hours. Prerequisite: Junior standing. Also offered as CJ 412/ 512. A study of the incidence, nature, factors influencing, and social treatment of crime. May not be used for credit with CJ 412/512. (Summer, Fall, Spring)
- 430/530. The Development of Social Theory.** Credit 3 hours. Prerequisites: SOC 101 and Junior standing. An introduction to the field of social theory and the relation of social thought to the history of sociology. (Summer, Fall, Spring)
- 440/540. Juvenile Delinquency.** Credit 3 hours. Prerequisite: Junior standing. Also offered as CJ 440/540. A scientific study of the nature, extent and causes of delinquency. Methods of prevention, treatment, and correction will be analyzed. Designed especially for teachers, social workers, police, and correctional workers. May not be used for credit with CJ 440/540. (Summer, Fall, Spring)
- 455/555. Urban Sociology.** Credit 3 hours. Prerequisite: Junior standing or consent of Department Head. A study of urbanization and challenges and opportunities associated with urban living in the United States and abroad. The focus is on the history and development of cities, housing, crime, transportation, employment, residential segregation, and urban policy from a sociological perspective. (Varies)
- 460/560. Food, Sustainability and Society.** Credit 3 hours. Prerequisite: SOC 101. This course is an in-depth exploration into relationships between our environment, food systems and major social, political, and economic structures of society. In studying the ways food is produced and consumed, we will also discover the ways food shapes and expresses relationships among people. This course will also address issues of culture, meaning, identity, power, and ecology, all through a focus on food. (Varies)
- 465/565. Social Change and Globalization:** Credit 3 hours. An examination of the nature, development, and dimensions of globalization. Globalization is conceptualized as a long-term emergent phenomenon. Major theories of social change and development are introduced. Cultural, economic, technological, environmental, military, political, and other aspects of globalization are considered. Anti-systemic social movements resisting globalization are analyzed. (Fall)
- 470/570. Vulnerable Populations and Disasters.** Credit 3 hours. Prerequisite: SOC 101. This course is designed to critically examine the relationship between social inequality and disaster vulnerability. Special emphasis will be placed on social theories of disaster vulnerability, research examining experiences of socially marginalized populations during disasters, and strategies for reducing disaster vulnerability among marginalized populations. (Varies)
- 495/595. Special Topics Seminar.** Credit 3 hours. Prerequisite: SOC 101, Junior standing or consent of the Department Head. An in-depth study of selected topics in sociology that are not covered in existing courses. May be repeated for a total of six hours credit. (Varies)
- 601. Complex Organizations.** Credit 3 hours. Structure and process in organizations, with applications designed to help students function effectively in various positions within organizations. (Fall)
- 602. Social Stratification and Structured Inequality.** Credit 3 hours. Examines systems of stratification and the forms, causes, and consequences of structured inequality in the United States and globally. The distribution of economic, political, and social resources in society; the processes of class formation; status differentials based on race, gender and other dimensions analyzed. Strategies for addressing these inequalities are explored. (Spring)
- 603. Applied Social Theory.** Credit 3 hours. Development of sociological theories of human behavior and interaction. Special emphasis will be placed on how theoretical concepts are applied to further an understanding of how humans interact with and shape the daily operation of social institutional settings. (Fall)

604. Applied Research Design and Methodology. Credit 3 hours. Examines the production, distribution and consumption of applied social science research. Focus on quantitative and qualitative methods of conducting social science research and applying these methods to questions addressed by public and private agencies. Topics include review of the scientific method, ethical issues in research, the principles of measurement, a survey of research designs most frequently used in applied social science research, and the writing of research proposals. (Fall)

605. Advanced Statistics for Applied Sociology. Credit 3 hours. Prerequisite: Department Head consent required. Descriptive and inferential statistics as they are applied to various practical problems. Focuses on concepts and tools of statistics as they are used in the analysis of social science data, rather than on the mathematical and computational aspects. (Spring)

606. Evaluation and Assessment. Credit 3 hours. This course prepares students for the design and execution of agency evaluation and assessment, including needs assessment, program evaluation, and formative and summative evaluations of service delivery. (Summer)

607. Social Policy. Credit 3 hours. Study of how economic, political, and social factors affect social policy formation and change. Specific applications selected each semester from these and other areas: health, employment, poverty, aging, crime, and justice. Comparative and international analyses will be included. (Varies)

620. Applied Criminological Theory. Credit 3 hours. This course provides a multi-disciplinary study of the causes of crime and criminal behavior, including biogenic, psychogenic, and sociogenic explanations. (Varies)

630. Race, Gender, Class and the Criminal Justice System. Credit 3 hours. This course is designed to focus on developing the conceptual and analytical tools necessary to understand how race, gender and class shape human behavior. Special emphasis will be placed on how humans interact with and shape the operation of social and institutional settings based on their perceptions of race, gender and social class. (Varies)

635. Applied Mapping in the Social Sciences. Credit 3 hours. Students are exposed to Geographical Information Systems (GIS) techniques as a mechanism for studying crime from a spatial perspective. Specific emphasis will be placed on using GIS to test theoretical perspectives in sociology. (Varies)

650. Applied Study Abroad/Away. Credit 3 hours. This course provides graduate students a study and research plan designed to maximize benefits from the department's study abroad and study away programs. Course materials will focus on culture and diversity, cross-cultural relations, various aspects of globalization, and history and society of the destination country and/or region. Students will first conduct background research and then explore the topic on location, visiting local experts, touring facilities, and conducting research on the daily operation of social institutions. (Varies)

655. Applied Environmental Sociology. Credit 3 hours. Relationship between the study of the biophysical environment and major social, cultural, political, and economic structures of society. Practical applications to local or regional environmental problems. (Varies)

660. Participatory Research and Popular Education. Credit 3 hours. This course is designed to allow students to understand the development, implementation and evaluation of participatory models of education and research. Special emphasis will be placed on how scholars and members of agencies and community groups can work together to explore, understand and shape the daily operation of social and institutional processes, which set the parameters on their lives. (Varies)

665. Globalization and Social Transformation. Credit 3 hours. This course focuses on large-scale social transformation and processes of globalization. Important theories of social transformation and development are introduced and applied to cultural, political, economic, organizational, and interpersonal dimensions of globalization. Important debates on globalization and its historical unfolding are reviewed. Anti-systemic social movements of resistance against globalization are examined as well as considerations of how globalization will impact the work of social agencies, organizations, and institutions in the coming decades. (Varies)

690. Independent Study in Applied Sociology. Credit 3 hours. An intensive program of research on a topic approved in advance by the instructor. May be repeated if content is different, but no more than six hours may be applied toward the M.S. in Applied Sociology degree. (Varies)

698. Special Topics in Applied Sociology. Credit 3 hours. Selected topics in areas not available in existing courses. May be new or unique issues or contemporary topics relevant to applied sociology. May be repeated for credit when different topics are studied. (Varies)

760. Field Internship Research. Credit 1-6 hours each semester, with six hours needed for graduation. The student must enroll in the field internship research course each semester the research is in progress. This course allows students to be placed in an internship setting to complete 200-on site hours and to write and defend a research/policy-oriented paper based on the internship experience. The internship is designed in collaboration with the student, graduate coordinator, field internship coordinator, and the mentor in the student's area of concentration. The field internship course is graded Pass/Fail. (Varies)

770. Thesis Research and Thesis. Credit 1-6 hours each semester, with six hours needed for graduation. The student must enroll in the thesis course each semester the thesis is in progress. The thesis is graded Pass-Fail. (Varies)

Southeastern (SE)

101. Freshman Academic Success at Southeastern. Credit 2 hours. Prerequisite: Freshman standing. A student success course providing the tools that address the rigors of academic life on the University level. Topics include the purpose and value of higher education; the expectations and responsibilities of a college student; the development of analytical and metacognitive learning strategies; choosing the appropriate major and developing degree/career goals; and personal management during the college years. This course is required of all freshman. (Summer, Fall, Spring)

101H. Honors Freshman Academic Success at Southeastern. Credit 2 hours. Prerequisite: Active status in the Honors Program and freshman standing. A student success course focused on the unique needs of the Honors student. Topics include the purpose and value of higher education; the expectations and responsibilities of an Honors college student; choosing the appropriate major and developing degree/career goals; and opportunities for leadership, research, engagement, and/or service. Honors freshmen are required to take either SE 101H or SE 101. (Fall, Spring)

102. Freshman Academic Coaching Seminar. Credit 1 hour. Prerequisite: Permission of the Director of the Center for Student Excellence. This course provides student-focused academic coaching by engaging and encouraging freshman students to identify the personal and academic strategies necessary to succeed as college students. Students will be provided with semester-long support in areas such as time management, test preparation, note taking, and learning strategies. Students will examine personal and academic concerns, perceived barriers to success, strengths and needs, and devise a personalized plan of action for succeeding academically to earn a Southeastern degree. May be repeated for a maximum of 2 hours. (Fall, Spring)

103. Special Topics in Student Success. Credit 1 hour. Prerequisite: Permission of the Dean of Honors and Excellence. A seminar course with variable content that provides semester-long student-focused academic coaching and support while engaging and encouraging students to identify the personal, academic, and life skills necessary to succeed as a college student. May be repeated for a maximum of 2 hours. (Fall, Spring)

Spanish (SPAN)

101. Elementary Spanish I. [LCCN: CSPN 1013, Elementary Spanish I]. Credit 3 hours. The beginning course for students with no knowledge of Spanish. All appropriate elements of basic language learning are utilized for the purpose of providing a foundation in the language and culture of the countries where Spanish is spoken. Classwork supplemented by aural-oral drill in the language laboratory. Offered as the first of four sequential courses (101, 102, 201, 202) designed to provide an overall desired proficiency. (Summer, Fall, Spring)

101H. Elementary Spanish I for the Honors Student. Credit 3 hours. Prerequisite: Active status in the Honors Program. The beginning course for students with no prior knowledge of Spanish. All appropriate elements of basic language learning are utilized for providing an enriched foundation in the language and culture of the countries where Spanish is spoken. Classwork is supplemented by aural/oral drill in the language laboratory. (Fall, Spring)

102. Elementary Spanish II. [LCCN: CSPN 1023, Elementary Spanish II]. Credit 3 hours. Prerequisite: SPAN 101 or equivalent. Continuation of SPAN 101. (Summer, Fall, Spring)

102H. Elementary Spanish II for the Honors Student. Credit 3 hours. Prerequisites: Active status in the Honors Program and successful completion of SPAN 101 or equivalent. The second course in the initial sequence of Spanish classes. All appropriate elements of basic language learning are utilized for the purpose of providing an enriched foundation in the language and culture of the countries where Spanish is spoken. Classwork is supplemented by aural/oral drill in the language laboratory. (Fall, Spring)

201. Intermediate Spanish I. [LCCN: CSPN 2013, Intermediate Spanish I]. Credit 3 hours. Prerequisites: SPAN 101, 102 or equivalent. Completion and review of basic elements of grammar. Introduction to reading material of moderate difficulty. (Summer, Fall, Spring)

202. Intermediate Spanish II [LCCN: CSPN 2023, Intermediate Spanish II]. Credit 3 hours. Prerequisites: SPAN 101, 102, 201 or equivalent. A course with emphasis on proficiency in reading and continuation of grammar review. (Summer, Fall, Spring)

300. Introduction to Conversation in Spanish. Credit 3 hours. Prerequisite: Span 202 or equivalent. An introduction to the development of conversational skills in Spanish. Course may be repeated once for credit as an elective. (Varies)

304. Introduction to Grammar in Spanish. Credit 3 hours. Prerequisite: SPAN 202 or equivalent. An introduction to the study of certain grammatical structures in Spanish. (Varies)

305. Introduction to Writing in Spanish. Credit 3 hours. Prerequisite: SPAN 202 or equivalent. An introduction to the study of writing in Spanish. Students will focus on conventions of writing within various contexts (such as blogs, professional emails, newsletters, websites, social media). (Varies)

306. Introduction to Translation in Spanish. Credit 3 hours. Prerequisite: SPAN 202 or equivalent. An introduction to the practice of translating documents between English and Spanish. Students will focus on a variety of professional, public, and commonly used documents. (Varies)

307. Introduction to Interpretation in Spanish. Credit 3 hours. Prerequisite: SPAN 202 or equivalent. An introduction to methods of translation and interpretation, with an emphasis on the translation of written texts from Spanish to English. Course may be repeated once for credit as an elective. (Varies)

308. Pronunciation and Phonetics in Spanish. Credit 3 hours. Prerequisite: SPAN 202 or equivalent. An introduction to Spanish phonetics with a focus on pronunciation in Spanish and dialectal differences in pronunciation from around the Spanish-speaking world. (Varies)

310. Advanced Spanish Conversation. Credit 3 hours. Prerequisite: SPAN 202 or equivalent. An intensive exploration of the process of conversation. Examines vocabulary development, pronunciation, fluency, and other related issues. Course may be repeated once for credit as an elective. (Varies)

311. Advanced Spanish Grammar. Credit 3 hours. Prerequisite: SPAN 202 or equivalent. Intensive study of grammar and syntax. Recommended for students who wish to improve their language skills. (Varies)

312. Advanced Spanish Composition and Syntax. Credit 3 hours. Prerequisites: SPAN 101, 102, 201, 202 or equivalent. Descriptive and narrative compositions in Spanish with emphasis on syntax and verb forms. Effective writing of letters and short reports will be stressed to develop business skills. Recommended for students who wish to improve their language skills. (Varies)

314. Hispanic Civilization. Credit 3 hours. Prerequisite: SPAN 202 or permission of the Department Head. Geography, history, literature, art, music, educational system, and economy of Spain and Latin America. Recommended for students interested in Hispanic culture. (Varies)

320. Introduction to Literature in Spanish. Credit 3 hours. Prerequisite: SPAN 202 or equivalent. An introduction to the interpretation of literary texts written in Spanish. Includes a discussion of genres, artistic periods, literary styles and concepts of literary theory. (Varies)

323. Spanish for Specific Purposes. Credit 3 hours. Prerequisite: SPAN 202 or permission of the Department Head. A study of Spanish as a tool for performing a particular job. This course focuses on commands, questions, and phrases critical to a particular area of focus. (e.g., Business, Nursing, Law Enforcement). Content will vary. Course may be repeated as topics vary. (Varies).

324. Latin American Culture and Civilization. Credit 3 hours. Prerequisite: SPAN 202 or permission of the Department Head. A course recommended for Spanish majors or minors. A survey course of the geography, history, literature, art, music, and general aspects of culture in the various countries of Latin America, reflecting the early contributions of the indigenous peoples and their interaction with the Hispanic culture since the Spanish arrived. (Varies)

325. Literature of Spain. Credit 3 hours. Prerequisite: SPAN 202 or permission of the Department Head. A survey of Spanish literature from the early *jarchas* through the twenty-first century. Develops reading and analytical skills in Spanish and explores different theoretical approaches to the texts. (Varies)

326. Latin American Literature. Credit 3 hours. Prerequisite: SPAN 320. A required course for Spanish majors. A survey of Latin American literature from the pre-Hispanic era through the twentieth century. Develops reading and analytical skills in Spanish and explores different theoretical approaches to texts. (Varies)

329. Spanish for Business and International Trade. Credit 3 hours. Prerequisite: SPAN 202 or equivalent. The course seeks to develop students' ability to use Spanish and to conduct business. As such it is a course in language for special purposes. Within the context of an intensive grammar review and the development of greater cross-cultural awareness, it will develop the following language skills: speaking, listening comprehension, reading, writing, translation/interpretation. (Varies)

330. Spanish for Translation. Credit 3 hours. Prerequisite: SPAN 202 or equivalent. The course's aim is to develop useful translation skills. Dialogue examples and a full range of exercise work enable students to acquire the skills necessary for a broad range of translation. (Varies)

334. Spanish for Radio Broadcasting. Credit 3 hours. Prerequisites: SPAN 202 and COMM 151, or permission of the Department Head. Within the context of an intensive grammar and culture review, this course will provide students with the basics of Spanish-language radio broadcasting, including practical work in several program formats. This course in language for special purposes is recommended to both Spanish and Communication students interested in a career in the increasingly important field of Spanish-speaking media. (Varies)

370. Studies in Hispanic Cinema. Credit 3. hours. The Cinema of Spain and Latin America. Topics may include cinematic representation of dictatorships in Latin America; Hispanic women; Spanish literature in film; a comparative analysis of literary works and cinematic adaptations;

cinema as a reflection of changes in Spanish and Latin American Society; Spanish and Latin America history in films and documentaries; and a study of the work of specific directors. Taught in English. May be repeated once as topics vary. (Varies)

423/523. Special Topics in Hispanic Studies. Credit 3 hours. Prerequisite: SPAN 202 or permission of the Department Head. A special topics course that offers a detailed analysis of a particular genre, movement, or author. May be repeated for credit as topics vary. (Varies)

498. Senior Capstone Project in Spanish. Credit 1 hour. Prerequisites: A completed graduation application and 100 or more credit hours earned, or permission of Department Head. Students will create a professional portfolio detailing their most significant class work and their progress toward linguistic, literary, and cultural competence. Portfolios must be successfully presented to a faculty panel in order to obtain credit. The course is graded P/F. (Fall, Spring)

Special Education (SPED)

200. Introduction to Diverse Learners. Credit 3 hours. Prerequisites: Prior or concurrent enrollment in EDUC 202 and 2.75 cumulative GPA, a grade of C or better in ENGL 102, or permission of Department Head. An introduction to characteristics of exceptionalities, this course provides teacher candidates with the knowledge and skills to educate students with diverse needs in the classroom. Content includes current trends for meeting the educational needs of individuals with exceptionalities: characteristics of diverse learners; special education policies, procedures, and forms; interventions; accommodation, modification, and differentiation strategies; assistive technology; collaboration and co-teaching models; group management; assessment techniques; and reflective practice. Competency-based clinical practice required. (Summer, Fall, Spring)

210. Characteristics of Individuals with Exceptionalities. Credit 2 hours. Prerequisite: Sophomore standing (30 hours). An introduction to each exceptionalality with a survey of characteristics and a review of current trends for meeting the educational needs of individuals with exceptionalities. One and a half hour of lecture and one-hour laboratory per week. (Summer, Fall, Spring)

213. Technology for Inclusion. Credit 1 hour. Prerequisite: EDUC 202. An intensive examination of technology for including all students in the classroom environment. The course is designed to focus on: (a) technology for inclusion, (b) classification, (c) legislative basis, (d) devices and service delivery, (e) benefits, (f) terminology across environments, and (g) impact on learning. The purpose of this course is to develop a knowledge-base of technology to enhance inclusion in the classroom. Competency-based clinical practice required. (Summer, Fall, Spring)

260. Introduction to the Development of Children with Mild/Moderate Impairments. Credit 3 hours. Prerequisite: SPED 200 or permission of the Department Head. An overview of the developmental processes of individuals with the mild/moderate impairments. Emphasis is given to the social, psychological, physiological and cognitive problems associated with mild/moderate impairments. Implications for educational intervention stressed. (Varies)

361. Methods and Materials for Teaching Students with Mild/Moderate Disabilities. Credit 3 hours. Prerequisites: SPED 363; EDUC 304 or 308 depending on area of certification (may be taken concurrently), Full SARTE status. This course deals with methods of teaching academic subjects to students with mild/moderate disabilities. It provides practice in selecting goals and objectives, task analysis, preparing developmentally and academically sequenced materials, and evaluating intended learning outcomes. Course will also include techniques for teaching learning strategies and promoting transitions. Two hours lecture and two hours of laboratory per week. (Varies)

363. Classroom Organization and Management for the Student with Mild/Moderate Disabilities. Credit 3 hours. Prerequisite: SPED 210. This course deals with techniques and strategies for creating classroom environments that support student learning, including: designing, an appropriate physical setting, developing standards for behavior, and building an atmosphere of caring and respect. Humanistic and behavioral approaches to classroom management are investigated. Additionally, the course focuses on maximizing individual differences, management of time and space, use of centers, scheduling, and working with parents, general educators, and paraeducators. Two hours lecture and two hours of laboratory per week. Must be taken concurrently with SPED 440. (Varies)

365. Behavior Management Strategies for the Student with Mild/Moderate Disabilities. Credit 3 hours. Prerequisites: SPED 200 and Full SARTE status. This course provides study and application of a continuum of classroom approaches for effective behavior management. Course will include a review of both humanistic and behavioral techniques that promote responsible classroom management. Candidates in this course will be able to develop and use management plans that meet the emotional and behavioral needs of students with mild/moderate disabilities. Competency-based clinical practice required. (Spring)

366. Methods for Teaching Individuals with Mild/Moderate Disabilities in Language Arts and Content Areas. Credit 3 hours. Prerequisites: Full SARTE status, SPED 200, prior or concurrent enrollment in EDUC 307, and concurrent enrollment in SPED 367. This course teaches the methods of teaching language arts and content subjects to students with mild/moderate disabilities. It provides practice in selecting goals and objectives for lesson planning, task analysis, preparing developmentally appropriate and academically sequenced materials and evaluating intended learning outcomes. The course will also include techniques for teaching differentiated learning strategies and promoting instructional transitions. This course will emphasize the development and use of positive behavior interventions and supports. Candidates will develop and select instructional content, resources, and strategies that respond to cultural, linguistic, ability, and gender differences. The form of the course includes lecture, small group activities, independent work, and Competency-based clinical practice each week. (Fall)

367. Methods for Teaching Individuals with Mild/Moderate Disabilities in Mathematics and Content Areas. Credit 3 hours. Prerequisites: Full SARTE status and SPED 200. Must be taken concurrently with SPED 366. This course teaches the methods of teaching mathematics and content subjects to students with mild/moderate disabilities. It provides practice in selecting goals and objectives for lesson planning, task analysis, preparing developmentally appropriate and academically sequenced materials and evaluating intended learning outcomes. The course will also include techniques for teaching differentiated learning strategies and promoting instructional transitions. This course will emphasize the development and use of positive behavior interventions and supports. Candidates will develop and select instructional content, resources, and strategies that respond to cultural, linguistic, ability, and gender differences. The form of the course includes lecture, small group activities, independent work, and Competency-based clinical practice required each week. (Fall)

440. Principles of Assessment and Evaluation of Individuals with Exceptionalities. Credit 3 hours. Prerequisite: SPED 363; EDUC 304 or EDUC 308 depending on area of certification (may be taken concurrently). Full SARTE status. Course designed to provide students with the basic statistical concepts needed to interpret results of psychological and educational test results. Study is given to those special procedures used to evaluate and diagnose educational problems in exceptional students with particular emphasis on criterion-referenced and developmentally based tests. Practice in design of instruments to evaluate motor, cognitive, language and social/emotional development as well as academic achievement will be included. Two hours lecture and two hours laboratory per week. Must be taken concurrently with SPED 361. (Varies)

441. Practice in Assessment and Evaluation of Individuals with Exceptionalities. Credit 3 hours. Prerequisites: SPED 365, 366, 367, and 442. Must be taken concurrently with SPED 465. Supervised practice in administering and interpreting standardized and informal tests. Focus on use of developmentally based evaluation procedures as well as measurement and evaluation in the modern school program. Emphasis is placed on the diagnosis of the learners' needs in reading, written expression, and math and prescription of appropriate activities for advancement. Knowledge of and skills for teaching and assessing reading are featured. (Summer)

442. Developing Family and Professional Partnerships Through Collaboration. Credit 3 hours. Prerequisites: Full SARTE status and SPED 200. This course provides an overview of the collaborative issues between families and professionals. Family systems and family life cycle

theory and issues surrounding families who have children with disabilities are reviewed. Development of communication skills between candidates and families of individuals with disabilities are highlighted. Candidates develop strategies to become effective collaborators with parents/families who have children with disabilities. Special Education majors only. Competency-based clinical practice/ service-learning / professional development is required. (Spring)

457/557. Alternative/Augmentative Communication Strategies for Individuals with Significant Disabilities. Credit 3 hours. This course presents alternative communication, including aided and unaided communication, such as sign language, body/gestural systems, graphic communication, and technology. (Summer)

458/558. Computer Applications for Individuals with Special Needs. Credit 3 hours. Prerequisites: SPED 200 or 600, EDUC 201 or permission of Department Head. A course designed to provide an overview of microcomputers and other technology with an emphasis on applications for special populations. Topics include basic computer operations/adaptations, learning theories related to educational/clinical uses of technology, computer-managed instruction, and computer-assisted instruction. Awareness of technology-related ethical issues and knowledge of resources useful to computer users will be components of the course. Credit cannot be given for both CSD 552 or SPED 458/558. (Varies)

465/565. Clinical Practice in Inclusive Settings. Credit 3 hours. Prerequisites: SPED 365, 366, 367, and 442. Must be taken concurrently with SPED 441, or permission of Department Head. Clinical practice in teaching students with disabilities in an inclusive, integrated setting. Experience in cooperative planning, implementation, assessment, coordination, and teaching within the inclusive classroom setting. (Summer)

481/581. The Exceptional Family. Credit 3 hours. Prerequisite: SPED 200 or 600 or permission of the Department Head. To enhance the student's knowledge and empathic understanding of family dynamics in American Society. Special emphasis given to families with atypical children whose presence demands frequent adaptive maneuvers and long-term adjustments. Study of counseling methods applied to the exceptional child and family will constitute a major portion of the course. Appropriate for teachers, counselors, nurses, social workers and others serving the exceptional family. (Varies)

490. Special Topics Seminar in Special Education. Credit 1-4 hours. Prerequisite: SPED 200 and permission of Department Head. An intensive examination of issues relevant to the field of special education. The course will focus on contributions of research, philosophy, and current best practices as they apply to the education of students with special needs. Course may be repeated for credit as topics vary for a maximum of 12 credit hours. (Fall, Spring)

495/595. The Inclusion of Students with Disabilities in the Regular Classroom. Credit 3 hours. Prerequisites: SPED 200 or 210, Full SARTÉ status and Introductory Portfolio. This course provides special and general education candidates with the knowledge, skills, and dispositions necessary to educate students with diverse needs in inclusive classrooms. Content includes characteristics of diverse learners; special education policies, procedures, and forms; interventions; accommodation, modification, and differentiation strategies; assistive technology; collaboration and co-teaching models; group management; assessment techniques; and reflective practice. Must be taken concurrently with EDUC 415, EDUC 484, or ECE 422 depending on area of certification. Field experience is required. Education majors only. (Fall, Spring)

600. Introduction to the Education of Individuals with Exceptionalities. Credit 3 hours. A course for educators, students in behavioral sciences and students beginning graduate study in education. Study of relevant research dealing with the physical, mental, emotional, and social traits of individuals with exceptionalities. Current issues in the development of educational programs for individuals with special needs will be addressed. (Summer, Spring)

601. Organization and Administration of Classes for Individuals with Exceptionalities. Credit 3 hours. Prerequisite: SPED 200 or 600. A study of the principles of administration as they pertain to special education. Emphasis will be on class structure, supervision, relationship to the total educational program, and financial structure of classes for Individuals with Exceptionalities. (Varies)

602. Seminar in Special Education. Credit 3 hours. Prerequisites: SPED 200 or 210 or 600 and EDF 600 or department consent. Additionally, students pursuing a Master of Education, Special Education must have a completed all degree course work before taking SPED 602. An intensive examination of the issues relative to the special education program. This course will be interdisciplinary in nature and will focus upon contributions of research, philosophy, history, and recent trends in special education as they apply to the resolution of major issues in special education. This is the capstone seminar of the graduate program in special education and is the last of the required courses for a Master of Education, Special Education. May be repeated for a total of 6 hours of credit. (Varies)

603. Transition Issues for Individuals with Disabilities. Credit 3 hours. Prerequisite: SPED 200 or 210 or 600. Identification of transition needs of individuals with disabilities with emphasis on positive student outcomes and adult lifestyles. Visitation of employment facilities required. (Summer)

608. Evaluation of Individuals with Disabilities. Credit 3 hours. Theory, administration, and interpretation of formal and informal instruments to assess personal-social-school adjustment, educational level, intellectual functioning, and sensory deficits of individuals with disabilities. (Fall, Spring)

612. Behavioral Assessment and Intervention with Individuals with Disabilities. Credit 3 hours. Prerequisite: SPED 200 or 210 or 600. Systematic behavioral assessment and intervention strategies with individuals with disabilities. Practical application of strategies with individuals with disabilities will be an integral part of the course. (Fall, Spring)

613. Consulting Teacher Strategies. Credit 3 hours. Prerequisite: SPED 200 or 210 or 600. A study of effective techniques and strategies of consultation, collaboration and communication in the schools. The role of consulting teacher will be emphasized. (Summer)

614. Assessment and Diagnostic/Prescriptive Strategies of Individuals with Exceptionalities. Credit 3 hours. Prerequisite: SPED 608. Theory, administration, and interpretation of formal and informal assessment measures which assist in designing prescriptive strategies to meet the unique needs of individuals with exceptionalities. (Odd Fall Semesters)

615. Compliance Issues in Special Education. Credit 3 hours. A study of compliance issues as they pertain to special education is presented. Emphasis will be on the Louisiana State Plan for special education, the legal basis for special education, interpretation of federal and state laws, due process proceedings, federal and state litigation, discipline regulations, child identification, state and federal reports, complaint management systems, state, federal, local investigations, free appropriate education, least restrictive environment, and funding. (Varies)

616. Supervised Internship in Evaluation of Individuals with Exceptionalities. Credit 6 hours. Prerequisites: ESPY 605, and SPED 608, 612, 613, 614, 663, and prior approval of the Department Head. A supervised internship with individuals with exceptionalities. Emphasis will be placed on evaluation and implication for educational intervention through the development of individualized assessment/intervention plans. One hundred child contact hours required. (Varies)

625. Independent Readings and Research in Exceptionalities. Credit 3 hours. Prerequisites: Advanced standing in special education and permission of the Department Head. May be repeated for a total of 6 hours credit. (Varies)

641. Practicum in Assessment and Evaluation of Individuals with Disabilities. Credit 3 hours. Prerequisites: SPED 608 and SPED 663. Supervised practice in administering and interpreting standardized and informal tests for individuals with disabilities. Focus on use of criterion-referenced and developmentally-based procedures. Sixty hours of practicum experiences are required. (Varies)

642. Practicum in Special Education Administration. Credit 3 hours. Prerequisites: Completion of all requirements leading to certification in Parish or City School Supervisor/Director of Special Education and permission of Department Head. This course meets the three-hour requirement for a practicum in special education administration that is necessary for certification as a Parish or City School Supervisor/Director of

Special Education. Course will focus on the role of the administrator in all aspects of implementation of federal, state and local regulations regarding special education. (Varies)

649. Instructional Strategies for Individuals with Significant Disabilities. Credit 3 hours. The study of instructional arrangements and strategies for implementing appropriate educational programs for students with severe disabilities. Utilization of systematic instruction and data to develop and evaluate the effectiveness of programs will be emphasized. (Spring)

650. Introduction to the Characteristics and Development of Individuals with Significant Disabilities. Credit 3 hours. This course presents an overview of characteristics and development of individuals with significant disabilities with an emphasis on the impact on the total life and development of the individual. An exploration of litigation and legislation, etiology and a study of the effects of the interaction of significant disabilities on normal developmental processes will be included. (Varies)

658. Advanced Teaming Strategies of Working with Paraprofessionals and Related Service Providers. Credit 3 hours. Prerequisite: SPED 200 or SPED 210 or SPED 600 or permission of the Department Head. The focus of this course will be teaming and effective communication strategies for working with paraprofessionals and related service providers. The dynamics of interdisciplinary and interagency teaming including different models of teaming (e.g. multidisciplinary, interdisciplinary, and transdisciplinary) and the concept of role release will be explored. The role of paraprofessionals, and medical/related service providers including methods and techniques for obtaining appropriate support personnel, supervising, and coordinating the paraprofessional will be discussed. Experience component required. (Varies)

659. Curriculum Design for Individuals with Severe/Profound Impairments. Credit 3 hours. Prerequisite: SPED 600 or 650 or permission of Department Head. Curriculum design for individuals with severe/profound impairments is studied. Strategies for inclusion, community-based programming, and instruction in a variety of natural environments will be emphasized. (Varies)

660. Learning Principles and Classroom Behavior Management and Intervention Strategies for Individuals with Severe/Profound Impairments. Credit 3 hours. Prerequisite: SPED 200, 600, or 650 or permission of the Department Head. This course will provide a review of general learning principles and behavioral analysis techniques appropriate for individuals with severe/profound impairments. Emphasis will be on proactive techniques, environmental structuring and implementation of positive behavior support strategies. (Varies)

661. Methods of Designing and Assessing Curricula for Individuals with Mild/Moderate Impairments. Credit 3 hours. Prerequisite: SPED 200 or 600. Design, adaptation and evaluation of curricula for students with mild/moderate impairments is conducted. Experience in preparing developmentally and academically sequenced materials as well as a review of commercially prepared curricula is included. (Varies)

662. Approaches to Teaching Students with Learning and Behavior Problems. Credit 3 hours. Prerequisite: SPED 200 or 600. Investigation of the various instructional models for teaching students with mild/moderate impairments. Emphasis on strategies which promote motivation and efficient student learning included. (Varies)

663. Methods of Teaching Basic Subjects to Individuals with Mild/Moderate Disabilities. Credit 3 hours. Prerequisites: SPED 200 or 210 or 600 and SPED 608. This course integrates the basic skills with instructional processes and methods of teaching academic subjects. It includes the individualization techniques and strategies necessary for teaching individuals with mild/moderate disabilities. Experience component required. (Spring)

664. Classroom Organization and Management for Students with Mild/Moderate Disabilities. Credit 3 hours. Prerequisite: SPED 200 or 210 or 600. This course addresses classroom organization strategies to meet the academic and behavioral needs of students with mild/moderate disabilities. Scheduling, physical structure of the room and use of learning and interest centers will be addressed as well as non-behavioristic management strategies. Field experience component required. (Varies)

665. Humanistic Approaches to Managing the Child with Mild/Moderate Impairments. Credit 3 hours. Prerequisite: SPED 200 or 210 or 600 or department consent. Non-behavioristic approaches used to assist development of internal control of behavior and actualization of self is studied. Experience component required. (Varies)

667. Assessment and Instruction for Diverse Populations in Inclusive Classrooms. Credit 3 hours. Prerequisites: SPED 200 or 210 or 600. This is a core course for graduate students in all master's programs in Curriculum and Instruction. This course provides an understanding of how special education policies and practices are applied in inclusive classrooms. (Fall, Spring)

670. Instructional and Assistive Technology for Individuals with Disabilities in Educational and Community Environments. Credit 3 hours. Instructional and assistive technology classifications, legislation, services and devices; benefits, resources, terminology across environments; impact of technology on learning needs. Competency-based clinical practice to develop case studies will be an integral part of the course. (Summer, Spring)

675. Basic Adaptive Skills and Prevocational Needs of Exceptional Individuals. Credit 3 hours. Prerequisite: SPED 200 or 600 or permission of the Department Head. Attention will be directed toward the basic living and prevocational skills needed by the exceptional individuals. Experience component. (Varies)

676. The Inclusive Classroom: Methods of Designing and Assessing Curricula for Culturally and Linguistically Diverse Individuals with Exceptionalities. Credit 3 hours. Prerequisite: SPED 200 or 600. This course focuses on implications of multicultural trends and issues with relation to designing and choosing curricula. The impact of learning style, culture and language variation on the education of minority students with exceptionalities will be emphasized. (Varies)

677. Seminar in Communication Disorders in Culturally and Linguistically Diverse Populations. Credit 3 hours. Prerequisite: SPED 200 or 600. Focuses on study of language development and disorders within a sociocultural perspective. This course will emphasize assessment and intervention of language disorders for handicapped students with culturally diverse backgrounds. (Varies)

680. Families in Early Intervention: Sociocultural Partnerships and Interdisciplinary Perspectives. Credit 3 hours. This course is designed to explore issues and models of family-professional and interpersonal relationships in early intervention settings. Collaborative communication and problem-solving strategies are emphasized in the context of diversity. Competency-based clinical practice required. (Varies)

681. Problems of Atypical Language Development. Credit 3 hours. Prerequisite: SPED 200 or 600. Normal language development will be reviewed and atypical language development patterns will be studied. Identification techniques and approaches to habilitation will be surveyed. (Varies)

682. Foundations of Early Education for Young Children with Disabilities. Credit 3 hours. Prerequisite: SPED 200, 210 or 600. An overview of the historical influences, research, controversies, and issues that provide the foundation for early education for exceptional children. Includes a review of model programs, their methods, materials, and rationales and a study of current issues in early intervention programs. Competency-based clinical practice required. (Fall)

683. Instructional Program Implementation for Young Children with Disabilities. Credit 3 hours. Prerequisite: SPED 200 or 210 or 600. Individual and group teaching strategies are analyzed within the framework of the classroom system and home-based intervention. Curriculum goals and content and the learning environment are studied with reference to developmental process. Experience component required. (Summer)

684. Biophysical Development, Medical Management and Nutritional Needs of Young Children with Disabilities. Credit 3 hours. Prerequisite: SPED 200 or 210 or 600. An overview of normal development from conception to age five. Includes development of the musculoskeletal systems, and neurological systems as well as influences of genetics, diseases, trauma and chemicals on the developing child. Experience component required. (Varies)

685. Language and Literacy Development for Young Children with Disabilities. Credit 3 hours. Prerequisite: SPED 200 or 210 or 600. Normal and abnormal language development and appropriate intervention procedures for young children with disabilities is explored. Content related to emergent and early literacy and the reading process is discussed in the context of providing candidates with the knowledge and skills to design, organize, and apply developmentally appropriate practices in a literacy program for young children with disabilities. Experience component is required. (Fall)

686. Learning Theory in Applied Settings. Credit 3 hours. Prerequisites: SPED 200, 210, or 600. Investigation and application of major theories of learning, with emphasis on behavioral and cognitive approaches is presented. Design and implementation of management and instructional procedures in educational settings is included. (Summer)

687. Research Methods in Special Education and Speech Pathology. Credit 3 hours. Principles, procedures, and techniques of research with an intensive survey of scientific investigations in special education, speech pathology, audiology, and related fields is studied. Emphasis on practical application for teachers/practitioners is provided. Credit cannot be granted for both SPED 687 and CSD 687. (Varies)

688. Evaluation of Young Children with Disabilities. Credit 3 hours. Prerequisites: SPED 200 or 210 or 600 or departmental consent. Theory, administration, and interpretation of instrumentation to assess family characteristics, and personal-social, cognitive, motor, communication, self-help, and sensory abilities of young children who are "at risk" or have an identified disability. Competency-based clinical practice required. (Spring)

689. Teaming, Physical, and Medical Management. Credit 3 hours. Prerequisite: SPED 200, 210, or 600 or permission of Department Head. This course presents an overview of teaming and effective communication strategies for working with paraprofessionals and related service providers; the dynamics of interdisciplinary and interagency issues; the role of paraprofessionals and medical/related service personnel; normal development from conception to age five including development of the musculoskeletal systems, neurological systems and the influences of genetics, diseases, trauma and chemicals on the developing child. (Summer)

690. Student Teaching I in Special Education: Early Intervention of Young Children with Disabilities. Credit 3 hours. Prerequisites: SPED 682, 683, and 689 or permission of Department Head. This is the first semester of a supervised and directed experience in teaching programs for young children with disabilities, birth to age 5. Course is for students not currently employed as full-time early interventionists. Available on a pass/fail basis only. (Varies)

693. Teaching Internship in Special Education: Early Intervention of Young Children with Disabilities. Credit 3 hours. Prerequisites: SPED 682, 683, 693 or permission of Department Head. Supervised and directed experience in teaching programs for young children with disabilities, birth to age 5. Course is for students currently employed as full-time early interventionist and pursuing certification in early intervention. May be repeated for a total of six hours credit, with no more than three credit hours in one semester. This course will be graded Pass/Fail only. (Varies)

694. Student Teaching in Special Education: Early Intervention. Credit 6 hours. Prerequisites: SPED 683 and 684 or permission of Department Head. Supervised and directed experience in teaching in programs for young children with disabilities, birth to age 5. Course is for students not currently employed as an early interventionist, but pursuing early intervention certification. This course will be graded Pass/Fail only. (Varies)

696. Teaching Internship in Special Education: Significant Disabilities. Credit 3 hours. May be repeated for 6 total hours credit. Prerequisite: Permission of the Department Head. Supervised and directed experience in teaching students with significant disabilities in a variety of educational settings. (Fall, Spring)

697. Teaching Internship in Special Education. Credit 3 hours. Prerequisite: SPED 663 or permission of Department Head. Supervised and directed experience in teaching in special education classrooms. Course is for students currently employed as full-time special education teachers and pursuing certification in special education. May be repeated for a total of six hours credit, with not more than three credit hours in one semester. This course will be graded Pass/Fail only. (Varies)

699. Student Teaching II in Special Education: Early Intervention of Young Children with Disabilities. Credit 3 hours. Prerequisite: SPED 690. This is the second semester of a supervised and directed experience in teaching programs for young children with disabilities, birth to age 5. Course for students not currently employed as full-time early interventionists. Available on a pass/fail basis only. (Varies)

703. Advanced Transition Issues for Individuals with Disabilities. Credit 3 hours. Prerequisite: Permission of the Department Head to verify SPED Mild/Moderate Certification. This course will focus on advanced transition needs of individuals with mild/moderate disabilities. An emphasis will be on positive student outcomes and adult lifestyles. Candidates will acquire the knowledge and skills necessary to guide students in the development of IEPs and transition plans. Additionally, candidates will consider culture and diversity when assisting students in taking active roles in developing education and lifestyle goals. There will be a field component incorporated into this class. (Fall, Summer)

704. Effective Practices in Instructional and Assistive Technology. Credit 3 hours. Prerequisite: SPED 670. Current practices, strategies, planning, and device knowledge and skills necessary to implement services for individuals with disabilities. Field experience to develop case studies will be an integral part of this course. (Varies)

705. Evaluation and Assessment for Instructional and Assistive Technology. Credit 3 hours. Prerequisite: SPED 670. Theory, administration, and interpretation of formal and informal assessment measures to determine the need for assistive technology devices and services. Professional and ethical practice, collaboration, problem solving, and the decision process in educational settings will be emphasized. Field experience to develop case studies will be an integral part of the course. (Varies)

706. Practicum in Instructional and Assistive Technology for Individuals with Disabilities. Credit 3 hours. Prerequisites: SPED 670, 704, and 705. This course will entail candidates developing and implementing action research in instructional and assistive technology for individuals with disabilities. (Varies)

708. Theories and Approaches to Assessing Individuals with Disabilities. Credit 3 hours. This course focuses on assessment theories, creating, administering, scoring, and interpreting informal and formal assessment instruments that meet the diverse needs of individuals with disabilities. Assessment activities include addressing social, visual/motor, and sensory deficits of individuals with disabilities. (Fall)

710. Advanced Theory and Practice in Assessment and Evaluation of Individuals with Exceptional Learning Needs. Credit 3 hours. Prerequisite: SPED 708. Advanced course in the principles of tests and measurement. The course covers the various tenets of test theory and principles to determine technical adequacy of test scores. Basic concepts including: reliability, validity, norms, and methods of expressing test scores statistically are studied. Test administration, scoring, and interpretation applied to individuals with exceptionalities. Practice in test administration, interpretation, and educational diagnosis for Educational Diagnosticians. The course will examine CHC theory and other classical and item response theory models. (Varies)

716. Supervised Internship in Evaluation of Individuals with Exceptionalities. Credit 3 hours. Prerequisites: SPED 612, 613, 614, 708, 710, or prior approval of Department Head, and special education certification. A supervised internship with individuals with exceptionalities. Emphasis will be placed on evaluation and implication for educational intervention through development of individualized assessment/intervention plans. Competency-based clinical practice required. (Varies)

741. Practicum in Linking Assessment to Instruction. Credit 3 hours. Prerequisites: SPED 708 and 763. This course provides supervised practice in implementing research-based assessment and instructional practices to individuals with disabilities in inclusive classroom settings. The practicum focuses on data-based decision making that links research-based assessment results to instructional methods and strategies that will impact achievement for individuals with disabilities. Candidates will be required to collaborate with individuals with disabilities, their family members, school faculty and administrators, and other interested stakeholders that have relationships with individuals with disabilities. (Varies)

763. Advanced Methods of Teaching Individuals with Disabilities. Credit 3 hours. Prerequisite: SPED 708. This course will enhance and expand candidate's basic knowledge about instructional processes and methods of teaching academic subjects to students with disabilities through strategies, direct instruction, differentiating instruction, and universal design for learning. A special emphasis will be on communication/literacy issues with respect to individuals with disabilities. This course will enable candidates to develop skills needed to proceed with National Board for Professional Teaching Standards certification. (Spring)

765. Humanistic Approaches to Developing Inclusive Classrooms. Credit 3 hours. Prerequisite: SPED 200, 210, or 600. Non-behavioristic approaches used to assist development of appropriate behaviors in inclusive classrooms will be explored. Field experience component is required. (Varies)

767. Advanced Strategies for Developing Partnerships with Families of Children and Youth with Disabilities. Credit 3 hours. This course is designed to develop an understanding of exceptional families and the dynamics, roles, and relationships within families, schools, and communities in a pluralistic society. Special emphasis is placed on application of family systems theory, development of family/school partnerships, and examination of the impact of special education laws and policies on exceptional families. Competency-based clinical practice required. (Summer, Fall)

770. Capstone Seminar. Credit 3 hours. This is the capstone seminar for candidates enrolled in the Professional Special Education Program. Emphasis is placed on preparing special educators for the roles as teacher leaders and collaborators for change and improvement in districts and schools. Further, candidates will expand their knowledge of strategies that will prepare them to continue to be lifelong learners. The competencies of this course are derived from the requirements for teachers by the national standards for the Council for Exceptional Children, the Standards for the NBPTS (Exceptional Needs Specialist), CAEP, and INTASC, and guidance from the special education program faculty. Must be taken during final semester of course work. (Fall, Spring)

Substance Abuse Counseling (SAC)

619. Substance Abuse Counseling. Credit 3 hours. Prerequisites: COUN 601, 603 and 605. This course will provide a general knowledge base concerning the emotional, social, physical and spiritual impact of addiction upon the abuser and the family system. Special emphasis will be given to the principles of the progression of addiction, treatment modalities, recovery and relapse prevention. (Summer, Spring)

Theatre (THEA)

131. Introduction to the Theatre. [LCCN: CTHE 1013, Introduction to Theatre]. Credit 3 hours. A course designed to impart a deepened appreciation and understanding of today's theatre by surveying both contemporary techniques and the contribution of theatre to world culture. Consideration of the interrelation of all aspects of theatre production and the contributions of various related arts. Open to all students. (Fall, Spring)

201. Voice for the Actor. Credit 3 hours. Prerequisite: THEA 234. This course will focus on the development of the actor's voice and speech techniques for stage and film. Emphasis will be placed on how the voice is connected to the mind (impulse), emotion, and body. Linklater voice work, among other techniques, will be explored. Methods such as relaxation, alignment, breathing, phonation, resonance, articulation, vocal range, inflection and rhythm skills will be developed through daily vocal warm-up and workout activities. Students will learn the American sounds of the International Phonetic Alphabet (IPA). IPA will then be applied to learning standard American dialect which will serve as a basis for applying IPA to other dialects. Six hours of laboratory per week. (Fall, Spring)

217. Script Analysis. Credit 3 hours. Prerequisite: THEA 131. This course provides students with the skills necessary to analyze dramatic texts. Students will be introduced to a wide range of plays spanning various genres throughout theatre history. The basic skills needed to understand a play will be learned through reading, attending productions, discussion and a variety of analytical exercises. Analysis from the perspective of actor, designer and director will be explored. (Summer, Fall, Spring)

231. Stagecraft. [LCCN: CTHE 2303, Stagecraft]. Credit 3 hours. An introduction to technical Theatre, this course will provide the student with a background in the tools, materials, techniques, and processes used in the execution of theatrical designs. Scenery, lighting, stage and scene painting will be discussed along with such specialty areas as properties, woodworking, and construction techniques. This course includes a production/ crew component as a means of applying the lecture material in an actual production setting. (Summer, Fall, Spring)

234. Introduction to Acting. [LCCN: CTHE 2103, Acting I]. Credit 3 hours. A course designed to familiarize the student with the history and nature of the techniques of acting-concentrating on understanding and mastering skills associated with body movement and vocal production in character analyses and performances. Refereed performances, attention to television acting; a basic course. (Fall, Spring)

240. Stage Movement. Credit 3 hours. Prerequisite: THEA 234 or permission of the department head. A foundational course on the dynamics of the performer's body as a vital, expressive instrument in theatrical production. Course focus is on building performer awareness of the body, personal physical habits, and efficacy of the body as well as building performer strength, flexibility, endurance, and release of unnecessary body tensions. This preparatory work enables the student for further development in theatrical storytelling and character development using physical approaches in tandem with character analysis; in augmenting performer presence; and in creating ensemble and solo movement compositions through improvisation and crafting. (Varies)

250. Stage Management. Credit 3 hours. Prerequisite: THEA 131 and 231 or permission of the department head. This course is an introduction to stage management techniques and practical application during the pre-production, rehearsal, and performance processes. Students will explore the core functions and responsibilities of stage management including blocking and calling techniques, organizational skills, and interpersonal communication. Methods for documentation and communication of the rehearsal and production process will be emphasized. (Varies)

332. Acting for the Camera. Credit 3 hours. Prerequisite: THEA 234. An in-depth study of the techniques required for performing before the camera. Special attention paid to the technical considerations specific to film/television acting. Emphasis on performance. (Spring)

333. Design for Stage and Studio. Credit 3 hours This course is designed to introduce students to the fundamental elements and principles of design and how they apply to the theatre experience of scenery, and lighting design. Students will create a vocabulary for the discussion, appreciation and evaluation of theatrical design, and develop an appreciation, understanding and respect for the work and contribution of theatre design and designers to the experience of a theatre production. (Spring)

335. Advanced Acting. Credit 3 hours. Prerequisite: THEA 234. A course designed for in-depth study of varied dramatic roles. American and continental theories will be examined and applied to advanced character analyses and performances. Extensive performance coupled with professional critiques. (Fall)

337. Makeup Design for Stage and Studio. Credit 3 hours. This introductory course will cover the methodologies and concepts of makeup design for stage, screen, and photography. Students will be instructed in products, tools, and techniques of makeup application, basic and character makeup design and application, special effects, and prosthetics, as well as hair and wig styling. Lectures, demonstrations, and laboratory work will be completed in conjunction with Southeastern Theatre productions, and assigned design projects. Purchase of makeup and drawing materials required. (Fall, Spring)

338. Costume Design for Stage and Studio. Credit 3 hours. This comprehensive course will cover the methodologies and concepts of costume design for stage and screen. Students will develop skills in areas such as rendering, costume history, research methods, play and character analysis, and costume crafts. Lectures, demonstrations, and laboratory work will be covered in conjunction with Southeastern Theatre productions and assigned design projects. Purchase of drawing materials required. (Spring)

341. Theatre Directing. Credit 3 hours. Prerequisites: THEA 231 and 234 and Junior Standing or permission of the department head. Fundamental theories for the stage. Students select, cast, direct, and present scenes and/or short plays for class and public presentation. (Varies)

400. Special Topics in Theatre. Credit 3 hours. Prerequisite: Junior standing or permission of Department Head. A variable content course which treats subjects of special interest. The content will change from semester to semester and will be advertised in advance. May be taken by both majors and non-majors. May be repeated once for a total of 6 hours. (Varies)

401. Theatre History I. Credit 3 hours. Prerequisite: THEA 131 or permission of the department head. A creative and critical engagement with world drama and theatre and performance texts and practices from roughly 534 B.C.E. to 1690 C.E. Students engage in close readings of texts from the periods, theatrical and performance conventions and practices, and observe legacies and resonances in contemporary theatre. Through critical reading responses, individual research, and creative projects, students explore theatre and performance as a critical lens for viewing social and cultural life, and as a creative act of worldmaking. (Varies)

402. Theatre History II. Credit 3 hours. Prerequisite: THEA 131 or permission of the department head. A creative and critical engagement with world drama and theatre and performance texts and practices from the early 1700s to the millennium. Students engage in close readings of texts from the periods, theatrical and performance conventions and practices, and observe legacies and resonances in contemporary theatre. Through critical reading responses, individual research, and creative projects, students explore theatre and performance as a critical lens for viewing social and cultural life, and as a creative act of worldmaking. (Varies)

403/503. Independent Study in Theatre. Credit 3 hours. Prerequisite: Junior standing and permission of the Department Head and written permission of instructor. Areas of study may include, but are not limited to, the following topics: Stage Combat, Musical Comedy, Playwriting, Arts Administration, Stage Speech, Advance Performance, Creative Dramatics, Character Makeup and Masque, Refereed Directing, Dialects, Scenic Painting, and Community Theatre. This course is used for study abroad. (Varies)

404/504. Independent Study in Theatre. Credit 3 hours. Prerequisite: Junior standing and permission of the Department Head and written permission of instructor. Areas of study may include, but are not limited to, the following topics: Stage Combat, Musical Comedy, Playwriting, Arts Administration, Stage Speech, Advance Performance, Creative Dramatics, Character Makeup and Masque, Refereed Directing, Dialects, Scenic Painting, and Community Theatre. (Varies)

430. Acting and Directing Workshop. Credit 3 hours. Prerequisites: THEA 131, 234, 341 or permission of the department head. This capstone course is designed to explore the collaborative process in theatre making, drawing on skills of performance, directing, and dramaturgy. Students will examine various scenes and develop short performance pieces to present in class. Various methods for devising performance will be investigated, including: text-based, image-based, improvisation, site-specific, object-based, and character-based techniques. (Varies)

431/531. Play Production. Credit 3 hours. Prerequisites: THEA 231 and 234 and Junior standing or permission of the Department Head. This course is a survey of stage management and theatre administration exploring the relationship between the artistry and the execution of theatre as a fine arts discipline. Topics to be studied include resumes, stage management, theatre administration, professional unions, production management, publicity/marketing, box office, program design, website development and house management. As a capstone course, students will also build their own resumes and webpages to support their professional development. (Every other Fall Even)

433/533. Theatre History. Credit 3 hours. Prerequisite: THEA 131 or permission of the Department Head. The development of the Western Theatre from the time of the ancient Greeks to the present. Emphasis on the physical theatre and production styles. (Fall, Spring)

435/535. Children's Theatre. Credit 3 hours. An introductory course in theatre history as it applies to children. Emphasis will be placed on the criteria for productions with children as the audience and adults as actors and on productions using children as actors. Activities in the use of creative dramatics will also be included. (Every other Fall Odd)

Theatre Laboratory Courses (TLAB)

Laboratory courses in theatre are offered for credit through satisfactory participation, but no more than a total of three semester hours may be applied toward a minor in Theatre. Credit above three hours may be used to satisfy elective requirements in any degree program.

137-138/237-238/337-338/437-438. Theatre Laboratory. Credit 1 or 2 hours each. Credit will be earned by successful completion of significant work as determined by the instructor of record. (138, 238, 338, 438-Fall; 137, 237, 337, 437-Spring)

435-436/535-536. Advanced Theatre Laboratory. Credit 2 hours. Prerequisite: permission of the Department Head. Performance of an important role or significant creative work in technical production. Credit for acting subject to audition in open tryouts. (Varies)

Zoology (ZOO & ZOOL)

210. Human Anatomy & Physiology Laboratory I Simulation. Credit 1 hour. Prerequisites: Registration in or prior credit for ZOO 250, eligibility for the CALL program (RN to BSN in Nursing), and permission of the Department Head of Biological Sciences. A series of online, virtual, and science kit laboratories designed to illustrate the course material in ZOO 250, focusing on the skeletal system, the muscular system, the skin, histology, and the nervous system. Students will relate topics learned in lectures to a virtual laboratory setting using principles of anatomy and physiology to answer questions relevant to human health and disease. This course does not provide practical experience with biological specimens, chemicals, instrumentation, or laboratory safety procedures. This course is exclusively for students in the CALL nursing program and may not be used to substitute for any Biology, Microbiology, or Zoology laboratory or lecture course, nor can it be used to satisfy any prerequisites, corequisites, or requirements for any other courses. A laboratory fee is required for this course. (Summer, Fall, Spring)

211. Human Anatomy & Physiology Laboratory II Simulation. Credit 1 hour. Registration in or prior credit for ZOO 251, eligibility for the CALL program (RN to BSN in Nursing), and permission of the Department Head of Biological Sciences. A series of online, virtual, and science kit laboratories designed to illustrate the course material in ZOO 251, focusing on the cardiovascular system, the respiratory system, blood, the digestive system, the urinary systems, and reproduction and development. Students will relate topics learned in lectures to a laboratory setting using principles of anatomy and physiology to answer questions relevant to human health and disease. This course does not provide practical experience with biological specimens, chemicals, instrumentation, or laboratory safety procedures. This course is exclusively for students in the CALL nursing program. In addition, this course may not be used to substitute for any Biology, Microbiology, or Zoology laboratory or lecture course, nor can it be used to satisfy any prerequisites, corequisites, or requirements for any of these courses without the consent of the Department Head of the student's major. A laboratory fee is required for this course. (Summer, Fall, Spring)

242. Principles of Human Biology. Credit 4 hours. Prerequisites: GBIO 151 and BIOL 152 or equivalent and all prerequisite courses must have a grade of "C" or better. Principles of Human Biology has been primarily designed for students pursuing careers with curricula that require a single semester of human biology such as Kinesiology. The major areas of subject concentration are the Intramuscular, cardiovascular, respiratory, nervous, and sensory systems. Biology majors may not use this course to fulfill their major requirements. However, it may be used to fulfill an elective requirement and in calculating cumulative and major averages. Three hours of lecture and two hours of laboratory per week. (Varies)

250. Human Anatomy and Physiology Lecture I. [LCCN: CBIO 2213, Human Anatomy and Physiology I]. Credit 3 hours. Prerequisites: GBIO 151 and BIOL 152 and registration in or prior credit for ZOO 252 or permission of the Department Head and all prerequisite courses must have a grade of "C" or better. Topics covered include: anatomical terminology and the structure and function of molecules, cells, tissues, and the integumentary, skeletal, muscular, and nervous systems. Three hours of lecture per week. This course cannot be used as a concentration elective for Biology majors; however, it may be used as a general elective. (Summer, Fall, Spring)

251. Human Anatomy and Physiology Lecture II. [LCCN: CBIO 2223, Human Anatomy and Physiology II]. Credit 3 hours. Prerequisites: ZOO 250 and registration in or prior credit for ZOOL 253 or permission of the Department Head and all prerequisite courses must have a grade of "C" or better. Topics covered include the structure and function of the endocrine, cardiovascular, digestive, reproductive, respiratory, lymphatic, urinary, and excretory systems energy & metabolism as well as water and ion homeostasis. Three hours of lecture per week. This course cannot be used as a concentration elective for Biology majors; however, it may be used as a general elective. (Summer, Fall, Spring)

252. Anatomy and Physiology Laboratory I. [LCCN: CBIO 2211, Human Anatomy and Physiology I Lab]. Credit 1 hour. Prerequisites: Registration in or prior credit for ZOO 250 and all prerequisite courses must have a grade of "C" or better. A series of laboratory exercises designed to illustrate the course material in ZOO 250. Two hours of laboratory per week. Persons majoring in Biology may not use this course to fulfill their major requirements; however, it may be used to fulfill an elective requirement. A laboratory fee is required for this course. (Summer, Fall, Spring)

253. Anatomy and Physiology Laboratory II. [LCCN: CBIO 2221, Human Anatomy and Physiology II Lab]. Credit 1 hour. Prerequisites: Registration in or prior credit for Zoology 251 and all prerequisite courses must have a grade of "C" or better. A series of laboratory exercises designed to illustrate the course material in Zoology 251. Two hours of laboratory per week. Persons majoring in Biology may not use this course to fulfill their major requirements; however, it may be used to fulfill an elective requirement. A laboratory fee is required for this course. (Summer, Fall, Spring)

301. Invertebrate Zoology. Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent and all prerequisite courses must have a grade of "C" or better. A general study of the principal forms of invertebrate animals. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Summer)

302. Comparative Anatomy of the Vertebrates. [LCCN: CBIO 3234, Comparative Anatomy Lecture + Lab (Upper Level)]. Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent and all prerequisite courses must have a grade of "C" or better. A comparative study of the anatomy of representative vertebrate animals. Three hours of lecture and three hours of laboratory per week. A laboratory fee is required for this course. (Fall)

331. Embryology. Credit 4 hours. Prerequisites: ZOO 301 and GBIO 200 and all prerequisite courses must have a grade of "C" or better. A comparative study of the embryology of invertebrates and vertebrates. Three hours of lecture and three hours of laboratory per week. A laboratory fee is required for this course. (Varies)

332. Animal Histology. [LCCN: CBIO 3613, Histology (Upper Level)] Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent and Junior standing or consent of the Department Head and all prerequisite courses must have a grade of "C" or better. A study of normal animal microscopic anatomy; correlations with cellular and tissue function are given. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Spring)

352. Field Zoology. Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent and Junior standing or consent of the Department Head and all prerequisite courses must have a grade of "C" or better. A laboratory course designed to acquaint the student with the methods of collecting and identifying the common species of vertebrate animals found in Louisiana. One hour of lecture and six hours of laboratory per week. A laboratory fee is required for this course. (Varies)

392. Animal Physiology. [LCCN: CBIO 3643, Evolutionary Biology (Upper Level)] Credit 4 hours. Prerequisites: GBIO 200 or consent of the Department Head and all prerequisite courses must have a grade of "C" or better. A comparative approach to study the fundamental mechanisms which underlie the basic physiological processes in animals. Laboratory will involve research experiments emphasizing hands-on instrumentation and computer usage, data analysis and scientific written reports. Three hours of lecture and three hours of laboratory per week. A laboratory fee is required for this course. (Fall, Spring)

409/509. General Entomology. [LCCN: CBIO 3603, Entomology (Upper Level)] Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent and Junior standing or consent of the Department Head and all prerequisite courses must have a grade of "C" or better. A general study of the earth's most diverse group of animals, the insects. Lecture will emphasize insect diversity, physiology, structure, and life history. Laboratory will focus on collection and identification of insects. Creation of an insect collection is a major component of the laboratory. Three hours of lecture and three hours of laboratory per week. A laboratory fee is required for this course. (Varies)

428/528. Waterfowl Management. Credit 3 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent and Junior standing or consent of the Department Head and all prerequisite courses must have a grade of "C" or better. A study of the principles, practices, and problems of waterfowl management, with an introduction to current research methods and pertinent literature. A two-hour laboratory stresses habitat evaluation with trips to waterfowl refuges. Waterfowl identification and aquatic plant identification are other laboratory objectives. Two hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Varies)

438/538. Mammalogy. Credit 4 hours. Prerequisites: GBIO 153, BIOL 154, and Junior standing or permission of the Department Head, and all prerequisite courses must have a grade of "C" or better. A study of the life history, distribution, systematics, evolution, and adaptations of mammals. Two hours of lecture and four hours of laboratory per week. (Varies)

453/553. Ecological Parasitology. Credit 4 hours. Prerequisites: GBIO 153, BIOL 154, and Junior standing or permission of the Department Head and all prerequisite courses must have a grade of "C" or better. Survey of the major parasitic taxa, including microparasites (protistans) and macro parasites (helminthes). Ecological aspects of host-parasite relationships, parasite life histories, and methods of transmission. Topics in the evolutionary ecology of parasites will focus on origins and evolution of complex life cycles, host specificity, and strategies of host exploitation. Patterns and processes of parasite aggregation, population dynamics, and community structure are analyzed. Four hours of lecture per week. (Varies)

455/555. Medical Parasitology. [LCCN: C BIO 3623, Parasitology (Upper Level)] Credit 4 hours. Prerequisites: GBIO 153, BIOL 154, and Junior standing or permission of the Department Head and all prerequisite courses must have a grade of "C" or better. A study of human parasites of significant medical importance. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Varies)

456/556. Ichthyology. Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent and Junior standing or permission of the Department Head and all prerequisite courses must have a grade of "C" or better. A study of the classification, structure, and life history of fishes, both freshwater and marine. Two hours of lecture and one four-hour laboratory per week. A laboratory fee is required for this course. (Even Fall Semesters)

457/557. Invertebrate Ecology. Credit 4 hours. Prerequisites: ZOO 301 or equivalent or permission of the Department Head and all prerequisite courses must have a grade of "C" or better. Field and laboratory study of ecological relationships of invertebrate animals. Observation and collection of invertebrates in terrestrial, marine, estuarine, and freshwater environments. Identification and preservation of specimens in the laboratory. Two Saturday field trips. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Varies)

458/558. Fisheries Ecology and Management. Credit 4 hours. Prerequisites: GBIO 151, GBIO 153, Junior standing or permission of Department Head, and all prerequisite courses must have a grade of "C" or better. An evaluation of the theory and practice of fisheries ecology and management emphasizing management techniques and principles, including sampling and assessment methods, stocking, population and habitat manipulation, and regulations. The laboratory will focus on the use of sampling gears and data analysis. Two hours of lecture and four hours of lab per week. A laboratory fee is required for this course. (Varies)

465/565. Animal Development. [LCCN: C BIO 4503, Developmental Biology (Upper Level)] Credit 4 hours. Prerequisites: GBIO 200. Credit for or enrollment in GBIO 312 also recommended and all prerequisite courses must have a grade of "C" or better. A study of the major patterns of animal development and the mechanisms responsible for cell differentiation during development. Three hours of lecture and three hours of lab per week. A laboratory fee is required for this course. (Varies)

470/570. Ornithology. Credit 4 hours. Prerequisites: GBIO 153, BIOL 154, and Junior standing, or permission of the Department Head, and all prerequisite courses must have a grade of "C" or better. A study of the taxonomy, life history, ecology, evolution, and adaptations of birds. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Varies)

471/571. Comparative Endocrinology. [LCCN: C BIO 4513, Endocrinology (Upper Level)] Credit 4 hours. Prerequisites: ZOO 392 or equivalent or permission of the Department Head and all prerequisite courses must have a grade of "C" or better. A study of the hormones regulating reproduction, growth, and homeostasis in animals, including humans. Three hours of lecture and three hours of laboratory per week. A laboratory fee is required for this course. (Varies)

475/575. Animal Behavior. Credit 4 hours. Prerequisites: GBIO 151, GBIO 153, and Junior standing, or permission of Department Head and all prerequisite courses must have a grade of "C" or better. This course will examine the biological basis of animal behavior, including molecular, cellular, physiological, ecological, and evolutionary aspects of survival and reproduction. Three hours of lecture and three hours of laboratory per week. A laboratory fee is required for this course. (Fall)

483/583. Introduction to Paleontology. Credit 4 hours. Prerequisites: GBIO 153 and BIOL 154 or equivalent and Junior standing or consent of the Department Head and all prerequisite courses must have a grade of "C" or better. A study of vertebrate evolution from Devonian fishes to man. The course is divided between vertebrate evolution and anthropology. Field experience will be emphasized using and teaching basic techniques and concepts. Three hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Varies)

499/599. Neurobiology. Credit 4 hours. Prerequisite: GBIO 200 or permission of the Department Head and all prerequisite courses must have a grade of "C" or better. A physiological approach to the study of the nervous system. The laboratory will focus on neurophysiology and neuroanatomy. Three hours of lecture and three hours of laboratory per week. A laboratory fee is required for this course. (Spring)

605. Developmental Biology. Credit 3 hours. A study of the molecular interactions and processes which occur during the developmental phases of organelle, cell, and tissue formation. Three hours of lecture per week.

608. Fisheries Biology. Credit 3 hours. Prerequisite: ZOO 456/556. Research methods in fishery biology; life histories, environmental relations, and fishery management problems. One hour of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Varies)

611. Advanced Invertebrate Zoology. Credit 4 hours. Prerequisite: ZOO 301 or equivalent. A study of the phylogeny, morphology, and biology of invertebrate animals. Two hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Varies)

630. Herpetology. Credit 4 hours. Prerequisite: ZOO 352 or equivalent. A course dealing with the survival strategy of amphibians and reptiles. Areas of study include evolution, dispersal, and populations of these organisms with emphasis on their role in the various ecosystems. Three hours of lecture and two hours of laboratory per week. A laboratory fee is required for this course. (Varies)

635. Endocrinology. Credit 4 hours. A study of the evolution, pharmacology, physiology, and structure of endocrine glands and hormones. This will include not only the medical implications, but also the role of hormones in the survival strategy of various organisms. Three hours of lecture and four hours of laboratory per week. A laboratory fee is required for this course. (Varies)

645. Environmental Physiology. Credit 4 hrs. A study of physiology in the content of an animal's physical, chemical, and social environment. Multiple levels of organization are considered, from organism to biochemistry. Three hours of lecture and three hours of laboratory per week. A laboratory fee is required for this course. (Varies)
