Comments

This section contains the opinions of all alumni who volunteered narrative comments in response to an open-ended question. Positive and negative comments which have specifically named faculty or staff have not been deleted. These comments should not be considered representative, but should be evaluated within the context of the other results. The only editing of the comments is the deletion of expletives. For some programs, there were no alumni comments.

Not all comments are distributed with every report. The Provost's report contains all comments for all programs in all colleges. The reports distributed to Deans contain only the comments for the departments which report to each Dean. Finally, each department is provided with the comments made only by their students in each program within the department. Any other distribution will not contain the comments.

This report is intended for use in curriculum/program review and revision only. Under no circumstances should this report be used for tenure and/or promotion review, merit review, or other personnel decisions.
