

-Biology Seminar Series-
Fall 2016, Southeastern Louisiana University
Thursdays 4:00-5:00, Meade Hall 112
Open and free to the public, call 549-3740 with questions

- Aug 25** **Jake Schaefer**, Department of Biological Sciences, University of Southern Mississippi
Using Hybrid Zones to understand Evolution
- Sep 8** **Sunshine VanBeal**, Dept. Ecology and Evolutionary Biology, Tulane University
Fungal and bacterial symbionts in wetland plants
- Sep 15** **Steve Mackessey**, School of Biological Sciences, University of Northern Colorado
Composing a Career in Toxinology: Three Vignettes in Snake Venom
- Oct 6** **Trent Holliday**, Department of Anthropology, Tulane University
A new species in the genus *Homo*: *Homo naledi*
- Oct 20** **Sara Ruane**, Museum of Natural Science, Louisiana State University
Snake Phylogenetics in the Genomic Era
- Nov. 3** **Mickey Latour***, College of Agricultural Sciences, Southern Illinois University, Carbondale
Fatty Acid Manipulation in Final Food Products
- Nov 17** **Michael Manson**, Department of Biological Sciences, Texas A&M University
Chemotaxis of gut bacteria to intradomain and interdomain biological signaling molecules
- Dec 1** **Ian Davenport**, Department of Biology, Xavier University
Follicle cell processes, A shark thing

* -- Dr. Latour will give an additional seminar at 11:00 in the Meade Hall Conf. Room, "University Headwinds: Academics, Research and Outreach"
