Dear Dr. Moffett and Mr. Smith, I wanted to take a moment and pass on a compliment to Jesse and her staff. Too often we overlook the outstanding people and focus on the problems. Last week, prior to the recent Civil Service Commission meeting, our Director and Executive staff were discussing a number of issues including two pertinent to SLU. Several division chiefs (including myself) and our Director mentioned what a great job Jesse does, whether it is classification, compensation, selection, PPRs or unscheduled absences. I believe you have one of the best HR sections in state government. This of course allows us to focus our energies on other organizations not so blessed. Keep up the great work.
