April 29, 2009

Dr. Michelle Hall, Director  
Institutional Research & Assessment  
Southeastern Louisiana University  
SLU 11851  
Hammond, LA 70402

Dear Dr. Michelle Hall,

As required by the Office of Institutional Research and Assessment, the Report on Results and Use of the Major Field Assessment Plan for OSH&E Bachelor of Science Degree Program during the academic year 2008-2009 is due. Given that the program has had less than 20 graduates to date, it does not provide us enough data to monitor the plan and warrant any changes. However, based on the fast-growing numbers of OSH&E graduates and the requirements of the ABET accreditation criteria; we will continue to review the Major Field indicators and collect relevant data to fine-tune the plan. Please let us know should you have any questions.

Thank you very much for your time and consideration!

Sincerely,

A handwritten signature in blue ink, appearing to read "Lu Yuan".

Dr. Lu Yuan  
Assistant Professor, OSH&E
