

Current Student Survey 2014-2015

July 2015

**Southeastern Louisiana University
Office of Institutional Research**

A total of 2,501 surveys were sent electronically via SurveyMonkey to a randomly selected sample of students who were enrolled at Southeastern in the Fall of 2014. Of the 2,501 surveys distributed, 541 were completed for a response rate of 22%.

What is the one thing you would like to change about Southeastern?

Respondents were asked to name one thing they would like to change about Southeastern. A total of 110 respondents made a comment. The most common change was regarding parking (16.4%, 18 respondents), including dissatisfaction with the amount of student parking available, the amount tickets are written for, and parking in general. The next most common change dealt with course offerings (10.0%, 11 respondents), including the number of courses available in a semester and the types of courses. Below are other themes, in order of endorsement:

1. Facilities (7.3%, 8)
2. Student involvement and/or pride in Southeastern (6.4%, 7)
3. Campus dining (5.5%, 6)
4. Use of fees (5.5%, 6)

All of the comments are presented below. These are verbatim statements from the students, the only editing was to remove obscene language, spelling and grammar is as the student wrote.

- More visibility of school organizations
- maybe a little more practical/real world application, maybe more classroom visits from real opportunities for post graduates and also just in general for putting classroom material into a better perspective in the bigger picture.
- Moodle
- Stop paying tuition fees for stuff that I don't go to. I'm not a cheerleader & I don't go to any games, so why should I have to be the one stuck paying the fees, which I can't always afford to pay even after Financial Aid. I've heard tons of students complain about that.
- Instructors who do not email students back.
- Writing on desks, bathroom walls, library desk engravings, and stuck gum. It looks tacky to have graffiti all over. It is college, not grade school, and this age group should have been taught that it is unacceptable. You wouldn't do it at home! And smokers need some place to go on campus!!! and I don't even smoke. The neighbors will tire of having students standing in their yard to smoke!
- The computers for the faculty and the students are old and faulty. They badly need an upgrade.
- Place a greater emphasis on SGA members volunteering time and getting together with other students.
- The professors I have had, say they are there to help. I have email two professors, in particular, and they never returned my emails. If they did ever return my emails, they would return them a week later. I feel like they require me to make their class my number one priority, but I am their last priority.
- The construction! Makes it hard to go from art buildings to fayard
- More online/ evening classes
- More tutoring
- Graduate courses need to be offered on a consistent basis. I have been waiting too long for a few courses to be offered. I could have graduated two semesters ago.

- Class availability
- the level of education.
- Stop spending unnecessary money and enforce enforce enforce no smoking on campus
- Parking conditions and updating facilities and restrooms
- I really wish we had a men's soccer team.
- I would like to have all my teacher teach in a way that if i wanted to i would not even have to open the book in order to learn the material because of the lecture being so informative and clear.
- need to not be a commuter school
- It does not offer a ph.d in soc/criminology. I would stay if it did. I received my b.a and my m.s here.
- Lower tuition
- Tuition amount needs to decrease a little. When I first started my full time tuition was around \$1500 now it's \$3500!
- I should tell the survey that I am I should tell the survey that I have a son that has his diploma from Southeastern..
- I would like to change the campus police guidelines to apply with actual real life laws i.e. parking backwards in a parking space)
- More parking campus wide for upperclass commuters.
- I would like tuition to stop going up, and I would like wireless internet (without having to use routers) throughout the whole campus and the living quarters.
- The time of graduation. It is way too early.
- Fee Structure for remote students
- Being exempt from finals if you have an A in the class.
- Parking. You should know why parking is problem now. Where the new union is and that horseshoe parking lot, there use to be a lot of parking spots that were convenient for many people that had to go to class and it was in the center of campus. Now because of that building the parking spots are scarce and not able to park anywhere near the buildings you want to be by. It also didn't help that you filled in most of those parking spots with useless grass area with grass that can't even grow in that sand pit. Also you took out the ONLY road that went through all of campus which was a stupid plan on your part. Say if I knew I was planning to stay on campus after-hours to do work and I parked near Pottle and and wanted to go to the 24 hour lab in Fayard. I wanted to drive there because campus is sketchy at night, instead of having to drive on the conveniently placed road that went through campus, I now have to drive around the entirety of campus to get there. That is ridiculous. I'm actually surprised campus police allowed such a thing. So more parking spots and getting that wonderful road back would be what I would change.
- I would like the school to look at students as customers.
- I would like to expand university publications. I think there is room for more genres and media types and that even more content can be put out.
- Sign language classes.
- More parking! kcco!
- More, different outdoor study areas
- Food choices

- Please consider a wider variety of online classes each semester, basics and classes for Every major! It's 2015! Online classes w easy access for working students are the future!
- Parking.
- Hours of computer lab in TEC building.
- Parking
- too strict
- Having to buy a meal plan if you live on campus.
- Attitudes of certain professors
- I would change the availability and accessibility of parking (maybe assigned spots for faculty based on their work building) so it allows students spots that would otherwise be taken in other lots.
- More online classes
- The way student money is spent.
- PARKING! Because the majority of students are commuters there is never an open parking spot in the middle of the day. If there is you will probably get towed!
- The smell in the stairwells of the library
- Parking; too much faculty parking.
- Get nationally ranked, and parking needs improving
- More class times!
- The teachers helpfulness and empathy for working students
- making it more commuter friendly with times of events
- Large expansion of Greek life
- The attitudes, politics, take the small town out of it. It is about education and student experience, not sbout anything else
- Parking.
- None! I love Southeastern! Lion up!
- Everything.
- Stop letting mean picketers come yell at us on our way to class! But I'm liking this lazy river and rock-climbing idea...
- The one and only complaint that I have about Southeastern is about the student technology fee. I understand we are on a limited budget but the mouse pads, vest, and posters that say ""this is your student technology fee at work"" seems like a complete waste to me. I would rather not physically see my money wasted but rather saved to update the Fayard labs computers or saving money for the newest Microsoft office that is coming out. That is my only complaint
- I would like to see more classes offered in each department to give us more options for our electives.
- The parking.
- Website, Leonet and Moodle.
- More on-campus opportunities for fraternizing to encourage building personal relationships with fellow students.
- I don't think communications should be a requirement to graduate for non-communication majors. Out of all of my classes, my biggest fear is taking communications and I am a science major.

- The no-smoking policy.
- The way the fees are used. I did not come to Southeastern for the sports - I came for the education. The theatre, music, and art departments could do so much more with half as much money as the sports departments get. If someone wants to play sports, let them pay for it. I should not have to pay for something I do not care to be a part of. Likewise, it would be understandable to not force someone who does not care for it to pay for the arts, but I would happily pay \$50+ for the arts instead of sports in my fees. If we have to pay so much for sports, we should pay the same amount for the arts.
- I'd like to see more classes open in the business department
- I would like Southeastern to offer more online degrees, or at least more online classes.
- No supporting other universities!
- Add another parking lot
- The food in the cafeteria is way too focused on other things the food is nasty sometimes
- You're either in a sorority or a fraternity and they are pretty much the only people who have activities going on that I hear about I don't hear about activities for the people who don't have time to be a part of that. I want to be involved I just don't have the opportunities because I do not know about any of them.
- More commuter friendly paperwork for university issues
- I wish there would be a break from the construction. There is always construction and it takes away from enjoying the campus. Also, I wish there were more things to do, to keep me active, on campus.
- Finish constructions, it's inconvenient
- I do not think it is right that people can come on campus and tell and belittle us. I know many people who were personally attacked and we are here to get an education that we pay for not to be belittled
- Change it from being commuter oriented to on campus mainly.
- Better housing for Greeks. The way non Greeks and Greeks judge each other. Man dish.
- I would like to change the attitude that many students and some staff have about Southeastern. I personally love this university, and want to see it thrive. I believe it could be the top university in the state, but I feel that many of my fellow students regard Southeastern as their ""backup"" school. Their ""plan B"" school. I feel like there is a lack of pride in our school that holds us back from achieving the kind of excellence that I want to see us achieve. We are stuck wading the sea of mediocrity when we could be surfing the waves of greatness, but that will not happen unless everyone on this campus feels the same sense of pride about this school that I do.
- More diversity and more fun activities.
- Lowering the price of meal plans, and having more parking spots.
- Great college, besides disability services I would maybe change the dining services to where there was better food and more self service food so you can choose what's going on it.
- More class options and times for Nursing students and other students as well.
- No assigned parking
- The layout of buildings.
- Stability in the education department leadership

- Tuition fee
- School interaction
- Freshman parking
- Parking
- The Parking Office and the Financial Aid Office. Act professional with policies that are beneficial to both and please answer the phone with ""Southeastern Financial Aid Office How May I Help You"" instead of Hello
- I like the fact that SELU has made the campus a tobacco free campus, that was a positive change.
- More class availability for Nursing students and students in general.
- The café
- Everything is just dandy.
- SE101
- more acknowledgment of activities and clubs we students can join
- Updating the gym. More squat racks.
- A lot of teachers are biased to certain students based on race and other factors
- more food than panda express
- Collaboration within organizations of different cultures and ethnicities
- I wish there more opportunities for dancers, and possibly a gymnastics team.
- all of the buildings are too cold, whether in summer or winter.
- The price of tuition needs to come down some.
- A more organized Dept. Of Teaching and Learning.
- Quality of the building where I attend classes, White Hall. It's in need of maintenance.
- parking
- Lack of interest or involvement with international students Lion Traxx should also be in some off campus specific locations
