Showcase Review

This year's Student Showcase featured work from 106 Southeastern students representing 12 departments from all colleges. Approximately 200 students, faculty, and staff visited the showcase and had the opportunity to speak with students (and their advisors) about their projects.

Survey results indicate that the majority of participants rated their experience as excellent and would participate again, as well as encourage others to participate. When asked what aspects of the Showcase they liked, participant comments included:

"It was good to have a glimpse into the work being done by other students in other departments."

"The chance to showcase my work and mention the great things that our department does."

"Opportunity for students to discuss their work with interested participants."

Included with this review are the program listing participants by department, faculty advisors by college, and photos from the Showcase.

Many thanks to the Deans, Department Heads, faculty, staff, and students for promoting, supporting, and attending this Showcase.

OSRP would like to recognize the Southeastern Student Government Association for their very generous financial support of the Showcase.

We look forward to seeing you next year!
