

# Register for Classes

## Overview

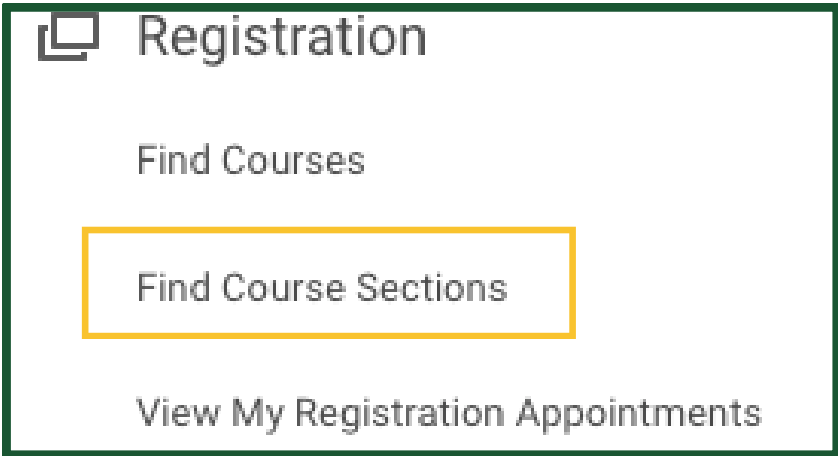

This quick reference guide provides a student overview of how to register for classes that are not in a saved schedule.

### Process: Register for Classes

1. From the **Homepage**, click on the **Academics** app.

2. Under the Registration section, click **Find Course Sections**.

3. Select your desired course section by clicking the name with a hyperlink.

NOTE: For instructions on how to navigate the Find Course Sections report, see the FIND COURSE SECTIONS quick reference guide.

4. Click the **Register** button.

5. Verify that there is a checkmark next to the correct section's date and time.

Select	Section
<input checked="" type="checkbox"/>	CHIN 1010-010 - ELEM MANDARIN CHINESE I

6. Once you have selected the correct section, click **Register**.

7. If the registration was successful, you will see the following screen. To register for additional classes, repeat steps 1-6.

8. If the registration was not successful, review the reason and rectify if possible. You may receive errors, such as a time conflict between course sections or a missing prerequisite. The system will not allow you to register without resolving these items.

**NOTE:** If the class is full, a notice will appear that you have been waitlisted if applicable.

**NOTE:** Once registered for classes and during registration periods only, students will also have a Drop and Swap button. These buttons can be used to change a schedule and are located in your student profile.
