"Friends Don't Let Friends Forget Safety"

Our Mission

To promote the advancement of the safety profession and safety education, and to foster the professional wellbeing and development of its members within its campus and community.

Previous Student Chapter Meeting

We want to thank our guest speakers, Margaret Gilbert and Jody Ortego from ASAP Drug Solutions, Inc. for coming out to share their experience and knowledge on drug testing in the industry. They covered various topics, such as the following: types of behavior to look for in employees, the different drugs that they test for, and how intense drug use is within the industry.

Some fun facts about drug testing in the industry:

- THC takes five seconds to reach the dopamine system.
- Since Colorado legalized marijuana, there accident rates have increased so dramatically that "drug-driving" has taken over "drunk-driving".

Our next student chapter meeting will be held on Wednesday, November 20th 4:30pm-6:00pm. The topic and guest speaker will be listed on the flyer, that will be sent out via email later within the month; please be on the lookout! We hope to see you there!
